Chapter I—Continued

Part 126 — 8677
- *Proposed rules* — 5770
- 126.15 — 11311

Chapter II:

Part 202:
- 202.22 — 11963
- 202.60 — 4758
- 202.90 — 11963
- 202.125 — 4758
- 202.168 — 7287
- 202.190 — 11963
- 202.210 — 11963
- 202.214 — 11964
- 202.230 — 4758
- 202.235 — 4758

Part 203:
- 203.237 — 6841
- 203.245 — 6842
- 203.325 — 11929
- 203.465 — 6842
- 203.700 — 6842
- 203.706 — 6842
- 203.707 — 6842
- 203.711 — 6842
- 203.714 — 6842

Part 204:
- 204.5 — 7460
- 204.10 — 10992
- 204.12 — 10992
- 204.25 — 643, 2397, 3403
- 204.36 — 10992
- 204.38 — 818
- 204.48 — 7541
- 204.54 — 3131, 7460
- 204.55 — 10992
- 204.81 — 818, 2397
- 204.81a–204.81b — 10992
- 204.82 — 7460
- 204.114 — 7460
- 204.115–204.140 — 2722
- 204.160 — 2397
- 204.162 — 8113, 8550
- 204.167 — 3409, 7419
- 204.197 — 818
- 204.218 — 2577
- 204.222 — 10993

Part 205:
- 205.35 — 11343

Part 206:
- 206.50 — 905
- 206.93 — 905

Part 207:
- 207.30 — 7210
- 207.50 — 7210
- 207.115 — 1016
- 207.158 — 7210
- 207.164 — 2578
- 207.172 — 3047
- 207.188 — 2397, 7210
- 207.441 — 7210
- 207.510 — 7211
- 207.640 — 7211
- 207.900 — 7211

Part 208:
- 208.19 — 4543
- 208.36 — 1183
- 208.37 — 11773

TITLE 35 Page

Chapter I:

Part 19 — 2673

Part 21:
- 21.4 — 7614

Part 24:
- 24.97 — 13144
- 24.102a–24.102g — 13144

Appendix (Canal Zone orders):
- 1 (see CZO 24) — 11604
- 4 (revoked by EO 10263) — 6333

  - 221.5–221.6 — 5768
  - 221.7 — 691
  - 221.11 — 12997
- Part 222:
  - 222.2–222.9 — 859
- Part 292 — 6716
- Part 299:
  - 299.31 — 7517
  - 299.36 — 9168
  - 299.37–4 — 551, 5444

TITLE 47

Chapter I:
- Part 1:
  - *Proposed rules* — 194, 2973, 3309, 7365, 10312, 11610, 12102
  - 1.301–1.404 — [11186]
  - 1.312 — [5657], [5902]
  - 1.318 — 715, 2039, 5871, 10607
  - 1.319 — 715, 2039
  - 1.320 — 716, 2039, 4803
  - 1.334 — 7263
  - 1.347 — [2039]
  - 1.371 — 7519
  - 1.377 — 1793
  - 1.544 — [10639]
  - 1.557 — [2039]
  - 1.801–1.896 — [11186]
- Part 2 — 1845
  - *Proposed rules* — 3072, 3441, 3516, 4138, 7520, 10607, 11614, 12436
  - 2.1 — 10857, 13098, 13100
  - 2.101 — 13100
  - 2.104 — 5623, 8367, 10028, 13098, 13100

Personnel:
Decorations, medals, ribbons and similar devices:
Medal for Humane Action, eastern boundary of area of Berlin airlift operations 391
Personnel review boards:
Army Board on Correction of Military Records; revision 767
Army Discharge Review Board:
Application for review 318
Proceedings of 318
Women's Army Corps, appointments in WAC Section, Organized Reserve Corps, for subsequent commission in Women's Army Corps, Regular Army; applications:
Loyalty certificates 318
Transcript of college credits 318
Procurement regulations, joint; labor, premium wage compensation (Army Department) 8
Renegotiation, military; joint regulations of armed forces. *See main heading* Defense Department.
Women's Army Corps. *See* Personnel.

ATOMIC ENERGY COMMISSION:
Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization; representation on 585
Priority (DO) ratings, authority to apply to direct contracts and purchase orders to meet authorized procurement and construction programs; delegation of authority by National Production Administrator, confirmation 738

AVIATION DEFENSE REQUIREMENTS, OFFICE OF; establishment in Civil Aeronautics Administration. *See* Civil Aeronautics Administration.

B

BANKS:
Depositaries of public moneys; regulations of Accounts Bureau, Treasury Department. *See* Treasury Department.
Federal Reserve System, member banks of. *See* Federal Reserve System.
Federal savings and loan system. *See* Home Loan Bank Board.
Holding companies, certain banks as; exemption from registration, etc., requirements of Public Utility Holding Company Act of 1935. *See* Securities and Exchange Commission.

BANKS—Continued Page
Insured banks, reports of. *See* Federal Deposit Insurance Corporation.

BLIND PERSONS:
Employment in sheltered workshops. *See* Wage and Hour Division.
Library of Congress materials for. *See* Library of Congress.

BLOCKED ASSETS. *See* Alien Property, Office of.

BOARDS. *See* Committees, boards, etc.

C

CAREER COMPENSATION ACT, quarters allowances for members of uniformed services pursuant to; Executive order respecting. *See* Presidential documents.

CENSUS BUREAU:
Civil Service Rules; certain positions excepted from competitive service (Schedule A). *See main heading* Civil Service Commission.
Surveys:
Manufacturing areas:
Chemicals 512
Listed products 511
Machinery 512
Retail trade establishments 585

CERTIFICATES, NECESSITY. *See* Necessity certificates.

CIVIL AERONAUTICS ADMINISTRATION:
Administrator; approval, specifications, etc., by, with respect to air carrier operations, certificates and ratings and scheduled air carrier rules. *See main heading* Civil Aeronautics Board.
Air traffic, security control of:
Delegation of authority to Administrator by Secretary of Commerce respecting 99
Regulations respecting. *See under* Regulations.
Aviation Defense Requirements, Office of:
Authority with respect to claimancy functions and application of priority ratings 866
Establishment to coordinate activities relating to defense production programs 866
Certificates, safety, issuance of; delegation of authority to Administrator by Secretary of Commerce to authorize properly qualified private persons to exercise certain functions relating to examination, inspection, and testing in connection with 554
Defense Production Act of 1950:
Aviation Defense Requirements, Office of; establishment of, to carry out certain responsibilities and powers of Administrator under 866
Delegation of authority by National Production Authority, to apply priority (DO) ratings, to direct government contracts and purchase orders to meet authorized procurement and construction of CAA 260, 738
Organization and functions; establishment and functions of Office of Aviation Defense Requirements, to carry out certain responsibilities and powers of Administrator under Defense Production Act of 1950 866
Priority (DO) ratings, authority to apply to direct government contracts and purchase orders to meet authorized procurement and construction of CAA 260
Radio antenna towers and/or supporting structures, construction, marking and lighting of; standards set forth by Federal Communications Commission in conjunction with Civil Aeronautics Administration. *See main heading* Federal Communications Commission.
Regulations:
Air navigation; designation of various civil airways, control areas, etc.:
Civil airways, designation of:
Green civil airway:
California; Los Angeles to Boston, Mass 118
Massachusetts; Boston to Los Angeles, Calif 118
Red civil airways:
Colorado; Pueblo to Charleston, S. C 344
Massachusetts; Boston to Pittsburgh, Pa 119
Ohio; Dayton to Williamsport, Pa 119

Regulations—Continued
Air navigation; designation of various civil airways, control areas, etc.—Continued
Civil airways, designation of—Continued
Red civil airways—Continued
Pennsylvania:
Pittsburgh to Boston, Mass 119
Williamsport to Dayton, Ohio 119
South Carolina; Charleston to Pueblo, Colo 344
Control areas, control zones, and reporting points; designation of:
Control areas:
Civil airways, red:
Ohio; Dayton to Williamsport, Pa 119
Pennsylvania; Williamsport to Dayton, Ohio 119
Extension of control areas; Augusta, Ga 344
Control zones, additional; Augusta, Georgia 344
Reporting points, on red civil airways:
Ohio; Dayton to Williamsport, Pa 119
Pennsylvania; Williamsport to Dayton, Ohio 119
Air traffic, security control of. *See* Security control of air traffic.
Airports, public, Federal aid to public agencies for development of; United States share of project costs:
Land acquisition costs; deletion 455
Project costs other than costs of installation of high intensity lighting on runways designated instrument landing runways 455
Airworthiness directives recordation; proposed rule making 23
Security control of air traffic, correction 280
Technical Standard Orders—C Series—aircraft components 675
Description of Technical Standard Orders previously published by Civil Aeronautics Board 675
Orders revised:
Direction indicator, magnetic, non-stabilized type (magnetic compass) 676
Fire detectors 676
Flares, landing 683
Parachutes 682
Safety belts 680
Seats and berths, aircraft 684
Safety certificates, issuance of; delegation of authority to Administrator by Secretary of Commerce to authorize properly qualified private persons to exercise certain functions relating to examination, inspection and testing in connection with 554
Security control of air traffic:
Delegation of authority to Administrator by Secretary of Commerce respecting 99
Regulations respecting. *See under* Regulations.
Transport aircraft; delegation of authority to Administrator by Secretary of Commerce respecting development of improved transport aircraft 359

CIVIL AERONAUTICS BOARD:
Air carriers and other aircraft:
Civil air regulations. *See* Civil air regulations.
Procedural regulations. *See* Procedural regulations.
Civil air regulations:
Accidents and missing aircraft; investigation of accidents occurring at or near certain cities:
Chicago, Ill.; Chicago Midway Airport 476
Philadelphia, Pa.; Philadelphia International Airport 867
Air carriers:
Accidents and missing aircraft, investigation of. *See* Accidents and missing aircraft.
Foreign. *See* Foreign air carriers.
Irregular. *See* Irregular air carrier and off-route rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules:
Danger areas over Army, Navy, and Air Force installations in various States; designation of (areas added or altered):
Arkansas; Camp Chaffee 496
California; Hunter-Liggett 496
Delaware:
Bethany Beach 455
Milford 713
Georgia; Camp Gordon 4

CIVIL AERONAUTICS BOARD—Continued Page
Civil air regulations—Continued
Air traffic rules—Continued
Danger areas over Army, Navy, and Air Force installations in various States; designation of (areas added or altered)—Continued
Indiana; Camp Atterbury 713
Kentucky; Camp Breckinridge 344
North Dakota; Devils Lake, temporary area 714
Washington:
Fort Lewis 4
Juan De Fuca 496
Olympic Peninsula 714
Wisconsin; Camp McCoy 714
General flight rules (GFR):
Danger areas; airspace restricted areas. *See* Danger areas over Army, Navy, and Air Force installations in various States, *above.*
Minimum safe altitudes:
Definitions (CAA rules):
"LFR" means low frequency radio range 672
"VOR" means VHF omni range 672
Minimum en route instrument altitudes on various airways, routes between various cities on red, blue, green, and amber airways (CAA rules) 672
Instrument flight rules (IFR):
Approach procedure, standard (CAA rules) 224
Automatic direction finding procedures 226
Instrument landing system procedures 227
Low frequency range procedures 225
Introduction; proposed rule making 22
Radio range procedures determination (CAA policies) 496
Airmen, certificates and ratings. *See* Certificates and ratings.
Airworthiness; requirements for various types of aircraft and equipment:
Aircraft equipment:
Aircraft components, approval of (CAA rules) 672
Classification of items of equipment; automatic pilots (CAA rules), revocation 672
Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420
Airplane:
Acrobatic category airplane. *See* Normal, utility and acrobatic categories.
Airplane airworthiness:
Airworthiness requirements; approval of aircraft components (CAA rules) 671
Cross references to technical standards orders; revocations 671
Equipment, requirements; approval of aircraft components (CAA rules) 671
Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420
Normal, utility, acrobatic categories:
Airworthiness requirements; approval of aircraft components (CAA rules) 669
Cross references to technical standards orders; revocations 671
Safety belts, requirements; exceptions in case of material shortages, special regulation (SR–360) 420
Transport categories:
Airworthiness directives (CAA rules); revocation 671
Certification; approval of aircraft components (CAA rules) 671
Equipment:
Lights; position light system, proposed rule making 909
Safety equipment, requirements respecting safety belts; exception in case of material shortages, special regulation (SR–360) 420
Flight, performance; humidity accountability respecting airplanes type certificated on or after Feb. 12, 1951 314
Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420
Technical standards orders; deletions, revocations or transfers 671

CIVIL AERONAUTICS BOARD—Continued Page

Civil air regulations—Continued
- Airworthiness; requirements for various types of aircraft and equipment—Continued
  - Airplane—Continued
    - Utility category airplanes. *See* Normal, utility and acrobatic categories, *above*.
  - Rotorcraft:
    - Aircraft components, approval of (CAA rules) 672
    - Cross references to technical standards orders; revocation 672
    - Revision (corrections) 545, 713
    - Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420
- Certificates and ratings; airmen:
  - Air-traffic control-tower operator certificates, regulations; annual experience reports, revocation 163
  - Dispatcher, aircraft, certificates:
    - Annual experience reports; revocation 163
    - Requirements for approved aircraft dispatcher course (CAA rules), proposed rule making 14
  - Engineer, flight, certificates; requirements for approved flight engineer courses (CAA rules), proposed rule making 17
  - Ground instructor rating, certificate; annual experience reports, revocation 163
  - Mechanic certificates, regulations; annual experience reports, revocation 163
  - Navigator, flight, certificates:
    - Limited certificates, issuance of 314
    - Requirements for approved flight navigator courses (CAA rules), proposed rule making 16
  - Pilot certificates; private pilot rating:
    - Experience, aeronautical; proposed rule making 693
    - Knowledge, aeronautical; proposed rule making 693
    - Skill, aeronautical; proposed rule making 693
  - Radio operator, flight, certificates; requirements for approved flight radio operator courses (CAA rules), proposed rule making 16
- Foreign air carrier regulations; application for operations specifications by foreign air carriers (CAA rules), proposed rule making 19
- Irregular air carrier and off-route rules, requirements respecting safety belts; exception in case of material shortages, special regulation (SR–360) 420
- Operation rules, general, for aircraft; requirements respecting safety belts, exception in case of material shortages, special regulation (SR–360) 420
- Scheduled air carriers:
  - Certification, operating:
    - Air carrier operating certificate:
      - Amendment of (CAA rules); proposed rule making 19
      - Application for (CAA rules); proposed rule making 19
    - Redesignation and revision of part, proposed; supplemental notice 286
  - Certification and operation rules (interstate, overseas, or foreign passenger operations utilizing multiengine aircraft), proposed redesignation and revision of part; supplemental notice 286
  - Operations outside continental limits of United States:
    - Certificate; application for air carrier operating certificate (CAA rules), proposed rule making 19
    - Passenger operation rules, aircraft requirements; instruments and equipment, powerplant failure or precautionary stoppage, proposed rule making 583
    - Redesignation and revision of part, proposed; supplemental notice 286
    - Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420

CIVIL AERONAUTICS BOARD—Continued Page

Civil air regulations—Continued
- Scheduled air carriers—Continued
  - Operations within continental limits of United States:
    - Flight operations; flight interruption rules:
      - Mechanical failure in flight; proposed rule making 583
      - Mechanical interruptions; powerplant failure or precautionary stoppage (CAA policies and interpretations) 499
      - Powerplant failure or precautionary stoppage; proposed rule making 583
    - Redesignation and revision of part, proposed; supplemental notice 286
    - Safety belts, requirements; exception in case of material shortages, special regulation (SR–360) 420
- Hearings, investigations, etc.:
  - Accidents, aircraft, and missing aircraft; investigation of. *See under* Civil air regulations.
  - Hearings, etc.:
    - British Overseas Airways Corp.; service to Boston, Mass 426
    - Colonial Airlines, Inc.; final mail rate 99
    - Keiwel, J. W 738
    - Oxnard Sky Freight; enforcement proceedings 197
    - Richardson, J. R 738
    - Roscoe Charter Service et al.; additional service to State of Kansas 99
    - West Coast common fares case 46, 360
    - Westair Transport case 289, 426
    - Wisconsin Central Airlines, Inc.; certificate renewal 476
- Procedural regulations; rules of practice in economic proceedings, informal mail rate conference procedure 75

CIVIL SERVICE COMMISSION:
- Executive orders affecting Government employees. *See main heading* Presidential documents.
- Rules and regulations:
  - Appointment:
    - Educational requirements. *See* Education (formal) requirements.
    - Positions excepted from competitive service. *See* Exceptions from competitive service.
  - Education (formal) requirements, for appointment to certain scientific, technical or professional positions; physiologist (human); redesignation 305
  - Exceptions from competitive service (Civil Service Rule VI); positions in various agencies excepted from examination (Schedule A):
    - Census Bureau; program planners for electronic computing and tabulating equipment 420
    - Commerce Department. *See* Census Bureau; *and* National Production Authority.
    - Defense Mobilization, Office of; certain positions 453
    - Economic Stabilization Agency:
      - *See also* Price Stabilization Office; *and* Wage Stabilization Office.
      - Private secretaries or confidential assistants to Administrator 305
      - Special assistants to Administrator, grades GS–13, GS–14, GS–15 637
    - Executive Office of President. *See* Defense Mobilization, Office of.
    - Federal Civil Defense Administration; fifty positions 420
    - Federal Security Agency; Assistant Administrator, revocation 63
    - National Production Authority; industrial executives in grades GS–14 and GS–15 420
    - Navy Department; student trainees in naval shipyards 305
    - Price Stabilization Office:
      - Private secretary or confidential assistant to Director 305
      - Special assistants to Director, grades GS–13, GS–14, GS–15 637
    - Reconstruction Finance Corporation:
      - Agency Division, Chief; revocation 831

CIVIL SERVICE COMMISSION—Continued Page

Rules and regulations—Continued
- Exceptions from competitive service (Civil Service Rule VI); positions in various agencies excepted from examination (Schedule A)—Continued
  - Reconstruction Finance Corporation—Continued
    - Board of Directors, Office of; Manager and Assistant Manager, Office of Defense Loans 881
    - Chief accountant; revocation 881
    - Controller, Office of; Research and Economics Division, Chief, revocation 881
    - Executive Directors of Defense Plants Office, Metals Reserve Office and Defense Supplies Office; revocation 881
    - Loan Agency Managers; forty-two positions 881
    - Price Adjustment Board; Chief Administrative Officer, revocation 831
    - Production Office; Manager and Assistant Manager 881
    - Treasurer, Office of; position of one Assistant Treasurer, revocation 881
  - Wage Stabilization Office:
    - Private secretary or confidential assistant to Chairman of Wage Stabilization Board 305
    - Special assistants to Chairman, Wage Stabilization Board, grades GS–13, GS–14, GS–15 637
- Foreign duty, compensation for, in designated posts. *See main heading* State Department.

COAST AND GEODETIC SURVEY:
- Pay, allowances, etc., for members of uniformed service under Career Compensation Act; Executive order respecting. *See main heading* Presidential documents.

COAST GUARD:
- Commandant, U. S. Coast Guard; delegation of authority to, from Secretary of Treasury, with respect to waivers of navigation and vessel inspection laws 731
- Defense Production Act of 1950; delegation of authority by National Production Authority, to apply priority (DO) ratings, to direct government contracts and purchase orders to meet authorized procurement and construction programs, confirmation of prior delegation by National Production Administration 738
- Merchant Marine Council; notice of hearing on proposed termination of approval of certain buoyant cushions 509, 510
- Pay, allowances, etc.; quarters allowances under Career Compensation Act, Executive order respecting. *See main heading* Presidential documents.
- Priority (DO) ratings, authority to apply to direct contracts and purchase orders to meet authorized procurement and construction programs; confirmation of prior delegation of authority by National Production Administration 738
- Security, of vessels, harbors, and waterfront facilities:
  - Vessels, security of:
    - *See also* Waterfront facilities or vessels.
    - Merchant marine personnel, security check and clearance of; employment of personnel on merchant vessels, security provisions with respect to certain vessels 817
  - Waterfront facilities or vessels, security of:
    - *See also* Vessels.
    - Identification credentials for persons requiring access to waterfront facilities or vessels; notification of denial or revocation of Coast Guard Port Security Card 817
- Shipping regulations, requirements respecting equipment of merchant marine vessels; approval of miscellaneous items 508
- Buoyant cushion, withdrawal of approval No. 160.007/75/0 for; Merchant Marine Council hearing 509
- Termination of approval 510
  - Buoyant cushions filled with typha (processed cattail floss), termination of approvals for; Merchant Marine Council hearing 510
- Vessels; safeguarding of, against sabotage and other subversive activity. *See* Security.
- Waivers of navigation and vessel inspection laws; delegation of authority to Commandant, U. S. Coast Guard, from Secretary of Treasury, with respect to waivers 731

COAST GUARD—Continued Page

- Waterfront facilities, safeguarding of, against sabotage and other subversive activity. *See* Security.

Inventory control. *See* National Production Authority.
Priorities and allocations:
Delegations of authority to various agencies performing functions with respect to, to issue regulations, etc. *See* Defense Mobilization, Office of; *and* Defense Production Administration.
Functions respecting, modification on establishment of Defense Production Administration; Executive order respecting. *See* Presidential documents.
Priorities regulations and orders. *See* National Production Authority.
Real estate construction credit. *See* Federal Reserve System.
Scarce materials, designation of. *See* Defense Minerals Administration; *and* National Production Authority.
Stabilization of national economy:
Cooperation of Government agencies with Economic Stabilization Agency; Presidential letter respecting. *See* Presidential documents.
Regulations, etc. *See* Economic Stabilization Agency; Price Stabilization, Office of; *and* Wage Stabilization Board.
Voluntary plans, by industry, business, etc., in interest of national defense:
Executive order respecting functions in connection with. *See* Presidential documents.
Various plans. *See* Economic Stabilization Agency; *and* Maritime Administration.

DEFENSE PRODUCTION ADMINISTRATION:
Committees, boards; representation on:
Committee on Foreign Supplies and Requirements, established in Office of Defense Mobilization; representation on 646
Defense Mobilization Board; Administrator designated member of 808
Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization; observer to be designated by Administration to attend meetings of Committee 585

DEFENSE PRODUCTION ADMINISTRATION—Con. Page

Delegations of authority to various agencies or officials; functions under Defense Production Act and Executive Order 10161 (authority of Agriculture Department, Commerce Department, General Services Administration, Interior Department, Interstate Commerce Commission) 738

Certificates of necessity:

Emergency facilities, amortization of; issuance of certificates under section 124A of Internal Revenue Code 738

Loans, purchases, etc.; issuance of necessity certificates in connection with 738

Priorities and allocations 738

Allocation responsibilities for certain metals and minerals, mining machinery and equipment, etc., delegated to Secretary of Interior 738

Voluntary agreements and programs 738

Establishment, functions, etc., Executive order respecting. *See main heading* Presidential documents.

Priorities and allocations; order of Director of Office of Defense Mobilization providing for cooperation of Defense Production Administration and Economic Stabilization Agency and Office of Price Stabilization respecting 808

Reassignment of chapter 808

DEFENSE SOLID FUELS ADMINISTRATION:

Actions and authority; confirmation of defense actions and redelegation of authority 904

Reassignment of chapter 808

DEFENSE TRANSPORT ADMINISTRATION:

Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization; establishment and organization of 585

Reassignment of, as Chapter VIII in Title 32A—National Defense, Appendix 808

DISASTERS; alleviation of damage, hardships, etc., caused by floods, drought, etc.:

Agricultural credit, disaster areas in need of; designation. *See* Agriculture Department.

Alleviation of disasters caused by floods; authority of Housing and Home Finance Administration respecting. *See* Housing and Home Finance Administration.

"DOLLAR A YEAR MEN"; appointment of certain persons of outstanding ability to serve without compensation, Executive order respecting. *See* Presidential documents.

E

ECONOMIC COOPERATION ADMINISTRATION:

Committees; representation on:

Committee on Foreign Supplies and Requirements, established in Office of Defense Mobilization 646

Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization, Defense Transport Administration 585

Funds, transfer of, for administration of Yugoslav Relief Assistance Act; Executive order respecting. *See main heading* Presidential documents.

ECONOMIC STABILIZATION AGENCY:

See Price Stabilization, Office of.
Wage Stabilization Board.

Civil Service Rules; certain positions excepted from competitive service (Schedule A). *See main heading* Civil Service Commission.

Committees, boards; representation on:

Defense Mobilization Board; Administrator designated member of 808

Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization; representation on 585

Cooperation by Government agencies, availability of information, personnel, etc.; Presidential letter respecting. *See main heading* Presidential documents.

Defense Production Act; modification of functions pursuant to act, Executive order respecting. *See main heading* Presidential documents.

General Counsel; functions 739

ECONOMIC STABILIZATION AGENCY—Continued Page

Price stabilization:

Director of Price Stabilization; functions with respect to price stabilization 100, 738

Iron and steel mill industry; request for stabilization of prices on certain listed products 555

Price control regulations:

See also main heading Price Stabilization, Office of.

Cattlehide, kips and calfskins (Ceiling Price Regulation 2) 727

Priorities and allocations; order of Director of Office of Defense Mobilization providing for cooperation of Defense Production Administration and Economic Stabilization Agency and Office of Price Stabilization respecting 808

Reassignment of chapter 808

Voluntary plan for stabilization of prices for iron and steel mill industry; request for stabilization of prices 555

Wage stabilization:

See also main heading Wage Stabilization Board.

Supersedure of prior regulations respecting 817

Wage Stabilization Board; functions with respect to wage stabilization 739

EDUCATION, OFFICE OF:

Construction of school facilities in areas affected by Federal activities; certification, payment, and administrative provisions 769

EDUCATIONAL FACILITIES:

Construction of school facilities in areas affected by Federal activities. *See* Education, Office of.

Housing for educational institutions, authority of Community Facilities Service respecting. *See* Housing and Home Finance Agency.

ELECTRIC POWER ADMINISTRATION. *See* Defense Power Administration.

EMERGENCY FACILITIES, necessity certificates for, functions of Defense Production Administrator in connection with; Executive order respecting. *See* Presidential documents.

ENGINEERS, CORPS OF; DEPARTMENT OF THE ARMY:

Housing projects, uniform instructions issued by Office of Secretary of Defense; additional information obtainable from Corps. *See main heading* Defense Department.

Regulations:

Danger zone regulations:

California, Pacific Ocean in vicinity of San Pedro; practice firing ranges for United States Army Reserve, National Guard and Coast Guard units 818

Delaware coast, Atlantic Ocean off; antiaircraft artillery firing areas, Second Army 643

Georgia coast, Atlantic Ocean off; air-to-air and air-to-water gunnery and bombing ranges for fighter and bombardment aircraft, United States Air Force 818

Maryland, Atlantic Ocean and Sinepuxent and Chincoteague Bays; target areas, United States Navy (revocation) 818

Fishing and hunting regulations:

Maryland and Virginia, Chesapeake Bay and navigable tributaries; fishing structures 904

Virginia; Chesapeake Bay. *See* Maryland and Virginia.

Washington; Everett Harbor and vicinity, gill nets 904

EXCESS (SURPLUS) PROPERTY, disposal of. *See* General Services Administration.

EXECUTIVE OFFICE OF THE PRESIDENT:

See Defense Mobilization, Office of.
National Security Resources Board.

President's Committee on Internal Security and Individual Rights; establishment. *See main heading* Presidential documents.

EXECUTIVE ORDERS. *See* Presidential documents.

EXPORT CONTROL. *See* International Trade, Office of.

EXPORTS. *See* Imports and exports.

F

FARM CREDIT ADMINISTRATION: Page

Administrative provisions; surplus property disposal, revocation of part 112

Regulations; loan interest rates and security, eligible commodities (addition of petroleum products, to list) 669

FARMERS HOME ADMINISTRATION:

Farm housing loans and grants; processing subsequent loans and grants 112

Farm ownership loans, basic regulations; loan limitations, average values of farm and investment limits:

Kansas 112

Maine 579

New Jersey 577

North Dakota 577

Pennsylvania 577

FEDERAL CIVIL DEFENSE ADMINISTRATION:

Civil Service Rules; certain positions excepted from competitive service (Schedule A). *See main heading* Civil Service Commission.

Interagency Advisory Committee on Domestic Transport, Storage and Port Utilization; representation on 585

Radio frequencies available for amateurs in providing civil defense communications. *See main heading* Federal Communications Commission.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREG.

LIMITATION OF SHIPMENTS

§ 957.307 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (15 F. R. 311), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that such limitation of shipments as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of the 1950 crop Irish potatoes grown in the production area have begun and present regulations (15 F. R. 4216; 7 CFR 957.306) limiting shipments to U. S. No. 2 or better grades have been in effect since July 1, 1950, and, unless changed, will so continue until June 1, 1951, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by limiting shipments of potatoes to U. S. No. 1 or better grades, in the manner set forth below, on and after the effective date hereinafter provided, (iii) compliance with this regulation will not require any preparation on the part of handlers which cannot be completed by such effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, (v) the time intervening between the date when adequate information became available to the Idaho-Eastern Oregon Potato Committee to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and (vi) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning 12:01 a. m., m. s. t., January 8, 1951, and ending 12:01 a. m., m. s. t., June 1, 1951, no handler shall ship potatoes of any variety unless (i) such potatoes are generally fairly clean (which means that 90 percent or more of the potatoes in any lot must be fairly clean), (ii) such potatoes of the Russett Burbank and long white varieties meet the requirements of the U. S. No. 1 or better grade, and are at least 2 inches minimum diameter or .4 ounces minimum weight, and (iii) such potatoes of the red skin varieties meet the requirements of the U. S. No. 1 or better grade and are at least 1½ inches minimum diameter, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

(2) The limitations set forth in subparagraph (1) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Seed, (ii) export, (iii) sale to the Federal government under programs authorized by the Secretary of Agriculture, (iv) canning, dehydration, or manufacture or conversion into starch, flour, meal, and alcohol, and (v) livestock feed: *Provided*, That each handler prior to making special purpose shipments pursuant hereto shall file an application with the committee to do so, shall have each of such shipments (except shipments of seed potatoes) inspected and shall pay assessments in connection therewith, and for each such shipment made pursuant to subdivisions (ii), (iv), and (v) of this subparagraph, shall furnish a copy of the bill of lading applicable thereto to the committee: *Provided further*, That each handler making shipments of potatoes pursuant to subdivision (ii) of this subparagraph shall include in his application applicable thereto, the export certificate number and shall enter such number on the Fed-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Now Available

FEDERAL REGISTER 1936–49

ON MICROFILM

The National Archives has reproduced all issues of the Federal Register for 1936–49 on 35 mm. microfilm, positive prints of which can be purchased for $350.00. The annual indexes and codification guides are included.

Current and future volumes will be microfilmed after the publication of each annual index.

Positive prints of volumes 1–14 may be purchased separately as follows: Vol. 1, 1936 ($8); Vol. 2, 1937 ($12); Vol. 3, 1938 ($8); Vol. 4, 1939 ($16); Vol. 5, 1940 ($16); Vol. 6, 1941 ($20); Vol. 7, 1942 ($36); Vol. 8, 1943 ($52); Vol. 9, 1944 ($40); Vol. 10, 1945 ($44); Vol. 11, 1946 ($44); Vol. 12, 1947 ($24); Vol. 13, 1948 ($28); and Vol. 14, 1949 ($24).

Remit check or money order, payable to the Treasurer of the United States, to the National Archives and Records Service, General Services Administration, Washington 25, D. C.

PART 959—IRISH POTATOES GROWN IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 959.306 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR, Part 959) regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath, and Lake in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Oregon-California Potato Committee, established under said marketing agreement and order, and other available information, it is hereby found that such limitation of shipments as hereinafter provided will tend to effectuate the declared policies of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until thirty days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.), in that (i) shipments of the 1950 crop Irish potatoes are now being made and have been subject to grade and size regulations (7 CFR 959.304, 15 F. R. 6215; 7 CFR 959.305, 15 F. R. 8152) since September 18, 1950, with the current regulation (7 CFR 959.305) limiting shipments of potatoes grown in District No. 1 to U. S. No. 2 and better grades, and limiting shipments of potatoes grown in District No. 2 or District No. 3 to U. S. No. 1 and better grades, (ii) the current size limitations are identical for all potatoes, (iii) more orderly marketing in the public interest than would otherwise prevail will be promoted by limiting shipments of potatoes to U. S. No. 1 or better grade in the manner set forth below, on and after the effective date hereinafter provided, (iv) compliance with this section will not require any preparation on the part of handlers which cannot be completed by such effective date, (v) a reasonable time is permitted, under the circumstances, for such preparation, (vi) the time intervening between the date when adequate information became available to the Oregon-California Potato Committee to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient and (vii) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning January 8, 1951, and ending June 30, 1951, both dates inclusive, each shipment of potatoes grown in the production area shall be limited to U. S. No. 1 or better grade, and which are not less than 2 inches minimum diameter or four ounces minimum weight, as such grades and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

(2) During the aforesaid period each handler may make one shipment of not in excess of 5 hundredweight of potatoes per week without limitation.

(3) During the aforesaid period, shipments of potatoes for the following purposes may be made without limitation: (i) For grading or storing in the production area, (ii) for export, (iii) for distribution by the Federal Government or by relief agencies, or for consumption by charitable institutions, (iv) for manufacture or conversion into starch, glucose, alcohol, and dehydrated products, (v) for livestock feed, and (vi) for seed: *Provided,* That each handler making shipments for any of such purposes shall, prior to effecting such shipment, file an application with the committee to do so and have each of such shipments inspected and pay assessments in connection therewith, except that payment of assessments and the procurement of inspection shall not be required for shipments of potatoes for the purpose of having such potatoes graded or stored in the production area.

(4) The terms used in this section shall have the same meanings as when used in Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR Part 959).

(5) The limitations set forth in this section supersede the limitations issued on November 24, 1950, and published in the FEDERAL REGISTER on November 29, 1950 (15 F. R. 8152), and such prior limitations are hereby terminated and revoked as of the effective date of the limitations set forth in this section.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 27th day of December 1950, to be effective January 8, 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-27; Filed, Jan. 2, 1951; 8:48 a. m.]

PART 992—HANDLING OF IRISH POTATOES GROWN IN WASHINGTON

LIMITATION OF SHIPMENTS

§ 992.305 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 113 and Order No. 92 (7 CFR, Part 992) regulating the handling of Irish potatoes grown in the State of Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis

of the recommendation and information submitted by the State of Washington Potato Committee, established under said marketing agreement and order, and other available information, it is hereby found that such limitation of shipments as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until thirty days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of the 1950 crop Irish potatoes grown in the production area have begun and present regulations (15 F. R. 4337; 7 CFR 992.303) limiting shipments to U. S. No. 2 or better grades have been in effect since July 10, 1950, and unless changed will continue until June 1, 1951, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by limiting shipments of potatoes to U. S. No. 1 or better grades, in the manner set forth below, on and after the effective date hereinafter provided, (iii) compliance with this regulation will not require any preparation on the part of handlers which cannot be completed by such effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, (v) the time intervening between the date when adequate information became available to the State of Washington Potato Committee to make its recommendation and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and (vi) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning January 8, 1951, and ending May 31, 1951, both dates inclusive, each shipment of potatoes grown in the State of Washington shall be limited, except as hereinafter otherwise provided, to potatoes which are U. S. No. 1 or better grade, and which are not less than 2 inches minimum diameter or 4 ounces minimum weight, as such grade and sizes are defined in the U. S. Standards for Potatoes (7 CFR 51.366), including the tolerances set forth therein.

(2) During the aforesaid period, each handler may make one shipment of not in excess of 5 hundredweight of potatoes per week without limitation.

(3) During the aforesaid period, shipments of potatoes for the following purposes may be made without limitation: (i) For export, (ii) for distribution by the Federal Government, for distribution by relief agencies, or for consumption by charitable institutions, (iii) for manufacture or conversion into starch, flour, alcohol, and dehydrated products, (iv) for livestock feed, and (v) for seed: *Provided*, That each handler making shipments for any of such purposes, except for distribution by the Federal Government, shall, prior to effecting such shipment, file an application with the committee to do so and have each of such shipments inspected and pay assessments in connection therewith, except that the procurement of inspection shall not be required for shipments of potatoes for livestock feed, and shipments of seed potatoes; and the payment of assessments shall not be required for shipments of potatoes for livestock feed.

(4) The terms used in this section shall have the same meanings as when used in Marketing Agreement No. 113 and Order No. 92 (7 CFR, Part 992).

(5) The limitations set forth in this section supersede the limitations issued on July 6, 1950, and published in the FEDERAL REGISTER on July 8, 1950 (15 F. R. 4337), and such prior limitations are hereby terminated and revoked as of the effective date of the limitations set forth in this section.

(Sec. 8, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 27th day of December 1950, to be effective on January 8, 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 51-25; Filed, Jan. 2, 1951; 8:48 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter F—Animal Breeds

[BAI Order 379, Amdt. 11]

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORDS OF PUREBRED ANIMALS

HORSES

On November 10, 1950, a notice of rule making was published in the FEDERAL REGISTER (15 F. R. 7649) regarding the proposed withdrawal of recognition by the Secretary of Agriculture of the book of record for Thoroughbred and Arabian horses entitled "Registro-Matricula de Caballos de Pura Sangre", sponsored by The Minister of Agriculture, General Livestock Administration, Madrid, Spain.

After due consideration of all relevant material presented in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by paragraph 1606 of section 201 of the Tariff Act of 1930, as amended (19 U. S. C. sec. 1201, par. 1606), hereby withdraws recognition of the said book of record, and amends § 151.10, Chapter I, Title 9, Code of Federal Regulations, as amended, by removing the name of the said stud book from the list of books of record in the subdivision of paragraph (a) of said section relating to horses.

(Sec. 201, Par. 1606, 46 Stat. 673; 19 U. S. C. 1201, Par. 1606)

The foregoing amendment shall become effective on the 1st day of February 1951.

Done at Washington, D. C., this 28th day of December 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-23; Filed, Jan. 2, 1951; 8:52 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7, Amdt. 60]

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13–1 is amended as follows:

1. A Camp Gordon, Georgia, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CAMP GORDON (Savannah Chart).	Beginning at lat. 33°23'35" N, long. 82°08'20" W; S to lat. 33°22'15" N, long. 82°08'18" W; SW to lat. 33°16'20" N, long. 82°18'00" W; WNW to lat. 33°17'29" N, long. 82°21'10" W; NE to lat. 33°21'15" N, long. 82°18'42" W; NE to lat. 33°25'00" N, long. 82°12'00" W; ESE to lat. 33°23'35" N, long. 82°08'30" W, point of beginning.	Surface to 5,000 feet.	0700 to 1900, Monday through Saturday.	Commanding General, Camp Gordon, Ga.

2. The Fort Lewis, Washington, area, published on June 23, 1949, in 14 F. R. 3393, is revised to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
FORT LEWIS (Seattle Chart).	Beginning at a point on Highway US 99 at lat. 47°06'35" N, long. 122°34'05" W; southeasterly along a road to the Northern Pacific RR at lat. 47°05'22" N, long. 122°30'15" W; southerly along railroad to the town of Rainier, Washington at lat. 46°53'12" N, long. 122°41'15" W; northwesterly along a road to road junction at lat. 46°57'12" N, long. 122°46'47" W; due N to Northern Pacific RR at lat. 46°59'52" N; northeasterly along railroad to Highway US 99 at lat. 47°05'00" N, long. 122°40'04" W; northeasterly along highway to lat. 47°06'35" N, long. 122°34'05" W, point of beginning.	Surface to unlimited.	Continuous.	Fort Lewis, Wash.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on January 2, 1951.

DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-9; Filed, Jan. 2, 1951; 8:46 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[5th Gen. Rev. of Export Regs., Amdt. 34 [1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

CALF AND KIP SKINS

1. Section 373.6 *Special provisions for calf and kip skins* is amended to read as follows:

§ 373.6 *Special provisions for calf and kip skins.* Calf and kip skins, Schedule B Nos. 020602, 020604, 020702, and 020704, will be licensed for export in accordance with the licensing policy set forth in § 373.1 and the following special provisions:

(a) *Calf and kip skins, dry, imported.* Applications for licenses to export calf skins, dry, Schedule B No. 020602, and kip skins, dry, Schedule B No. 020702, which are not the growth, production, or manufacture of the United States, and which have been imported into the United States and stored in bonded warehouses, without a consumption entry having been made, will be considered without regard to quota limitations, provided such applications are accompanied by the following certification:

I (we) hereby certify that the dry calf or kip skins covered by this application are not the growth, production, or manufacture of the United States; have been imported into the United States and are in bonded warehouses in the United States; and that no consumption entry for these commodities has been made at a United States customhouse.

(b) *Time for submission of applications.* Applications for licenses to export calf and kip skins must be submitted during the first month of each calendar quarter, except that applications covering dry calf and kip skins, imported, filed in accordance with the provisions of paragraph (a) of this section may be submitted at any time. Applications covering commodities subject to the provisions of paragraph (a) of this section should not include commodities licensed against quantitative quotas, even though such commodities may be classified under the same Schedule B number.

2. Supplement No. 1 to Part 373 is amended to change the submission dates with respect to applications to export calf and kip skins, as follows:

Dept. of Commerce Schedule B No.	Commodity	Submission dates, first quarter, 1951
	Hides and skins, raw, except furs	
020602	Calf skins, dry	The first month of the current calendar quarter.[1]
020604	Calf skins, wet (include slunk skins).	
020702	Kip skins, dry	
020704	Kip skins, wet	

[1] Applications covering calf and kip skins, dry, imported, submitted in accordance with § 373.6 (a), may be submitted at any time.

[1] This amendment was published in Current Export Bulletin No. 598 dated December 21, 1950.

This amendment shall become effective as of December 21, 1950.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Deputy Director, Office of International Trade.

[5th Gen. Rev. of Export Regs., Amdt. P. L. 31 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Hair and manufactures, n. e. s.:				
369070	Hair, unmanufactured: Cattle, ox, and calftail hair, new (switches included).	Lb	TEXT	100	RO
369350	Horse mane and tail hair, raw or dressed, new	Lb	TEXT	100	RO
	Steel mill products:				
601300	Tinplate circles strips, cobbles, and scroll-sheer butts.	S. ton	TNPL	1,000	RO
	Steel sheets, black, ungalvanized (include enameled, lacquered, or painted):				
	Carbon steel:				
603530	Cold-rolled, tin-mill black plate rejects, wasters, and waste-wasters, and cold-rolled sheets, rejects.[1]	Lb	STEE 8	1,000	RO
	Tinplate:				
604170	Tinplate, lithographic misprints [2]	Lb	TNPL	1,000	RO

[1] By this amendment the description on the Positive List for Schedule B No. 603530 will read as follows: "Cold-rolled, GLV $1,000, validated license required RO".

[2] By this amendment the description on the Positive List for Schedule B No. 604170 will read as follows: "Tinplate, decorated, embossed, lithographed, lacquered, or otherwise advanced, including lithographic misprints, GLV $1,000, validated license required RO".

2. The following commodities are changed from R to RO commodities. Accordingly, the entries therefor on the Positive List are amended to read as follows:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Other nonmetallic minerals (precious included):				
571400	Sulfur, crude (see § 373.16)	L. ton	SALT 36	100	RO
571500	Sulfur, crushed, ground, refined, sublimed and flowers (see § 373.16).	Lb	SALT 36	100	RO
	Ferroalloys:				
622085	Ferromolybdenum	Lb	NONF	None	RO
622098	Ferrocolumbium-tantalum	Lb	NONF	None	RO
622098	Other ferroalloys [1]	Lb	NONF	500	RO
	Nickel and manufactures:				
654505	Nickel alloys, and scrap containing nickel, except nickelsilver. (Report nickelsilver in 661000.)	Lb	NONF	100	RO
654509	Nickel metal in ingots, bars, grains, rods, sheets, strips, shot, plates, and other forms.	Lb	NONF	100	RO
654998	Nickel manufactures, n. e. s. (except nickel-alloy manufactures). (Specify by name.)		NONF	100	RO

[1] The 2 other entries presently on the Positive List under Schedule B No. 622098, ferrocolumbium and ferrozirconium, are already RO commodities.

3. The dollar value limits in the column headed "GLV dollar value limits" set forth opposite each of the commodities listed below are amended to read as follows:

Dept. of Commerce Schedule B No.	Commodity	GLV dollar value limits
	Steel mill products:	
	Wire and manufactures:	
69880	Electric welding rods and wire	100
69890	Welding rods and wire, iron and steel, except electric....	100

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, or whose GLV dollar-value limits were reduced, as a result of changes set forth in Parts 1, 2, and 3 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to the effective date of this amendment, may be exported under the previous general license provisions up to and including January 20, 1951. Any such shipment not laden aboard the exporting carrier on or before January 20, 1951, requires a validated license for export. This saving clause is not applicable to any such shipments to Subgroup A destinations, Hong Kong and Macao.

This amendment shall become effective as of December 21, 1950.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Deputy Director,
Office of International Trade.

[F. R. Doc. 51-33; Filed, Jan. 2, 1951; 8:49 a. m.]

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 334]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 330]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CALIFORNIA AND OHIO

Amendment 334 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 330 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said Regulations are amended in the following respects:

1. Schedule A, Item 38, is amended to describe the counties in the Defense-Rental Area as follows:

San Francisco County; San Mateo County, except the Cities of Menlo Park, Millbrae, San Bruno, and South San Francisco, and the Town of Atherton; and Sonoma County, except (1) the Cities of Healdsburg and Santa Rosa, (ii) the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) and (iii) that portion of Analy Judicial Township lying west of the Monte Rio-Valley Ford Highway and lying between Redwood Judicial Township on the north and the northern line of Marin County on the south.

This decontrols the City of South San Francisco in San Mateo County, California, a portion of the San Francisco Bay, California, Defense-Rental Area.

2. Schedule A, Item 228, is amended to describe the counties in the Defense-Rental Area as follows:

Cuyahoga County, except the Cities of Bedford, Berea, Shaker Heights, and University Heights, and the Villages of Bay, Beachwood, Bentleyville, Bratenahl, Brecksville, Chagrin Falls, Gates Mills, Highland Heights, Hunting Valley, Independence, Lyndhurst, Mayfield Heights, Moreland Hills, North Olmsted, North Royalton, Orange, Pepper Pike, Seven Hills, Strongsville, Valley View, Warrensville Heights, Westlake and West View; and in Lake County that part of Kirtland Township included within the corporate limits of the Village of Waite Hill, and Willoughby Township, except the Village of Wickliffe and the remainder of the Village of Willoughby.

Lake County, except (i) Willoughby Township and those parts of Kirtland Township included within the corporate limits of the Villages of Waite Hill and Willoughby and (ii) the Village of Mentor.

This decontrols the Village of Bratenahl in Cuyahoga County, Ohio, and the Village of Willoughby in Lake County, Ohio, portions of the Cleveland, Ohio, Defense-Rental Area.

All decontrols affected by this amendment are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall be effective December 29, 1950.

Issued this 28th day of December 1950.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 51-31; Filed, Jan. 2, 1951; 8:49 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 695—HOME WORKERS IN INDUSTRIES IN THE VIRGIN ISLANDS

The regulations contained in this part are issued pursuant to section 6 (a) (2) of the Fair Labor Standards Act of 1938, as amended, which section provides for the minimum wages to be paid home workers in Puerto Rico or the Virgin Islands. Generally speaking, section 6 (a) (2) requires that such home workers must be paid not less than the minimum piece rate prescribed by regulation or order; or, if no such minimum piece rate is in effect, any piece rate adopted by the employer which will yield, to the proportion or class of employees prescribed by regulation or order, not less than the applicable minimum hourly wage rate. The Administrator is authorized to make such regulations as are necessary or appropriate to carry out these provisions, including the power to define any operation which is performed by such home work employees; to prescribe standards for employer piece rates, including the proportion or class of employees who shall receive not less than the minimum hourly wage rate; to define the term "home worker" and to prescribe the conditions under which employers, agents, contractors, and subcontractors shall cause goods to be produced by home workers.

At the present time, persons engaged in activities relating to home workers in industries in Puerto Rico are covered by Parts 545 and 681 of this chapter; however, there are no regulations relating to home workers in industries in the Virgin Islands. These regulations are designed to apply to home work activities in such industries.

A notice of the proposed issuance of these regulations was published in the FEDERAL REGISTER (15 F. R. 5171) and interested persons were given 15 days within which to submit any data, views, or arguments pertaining thereto. The 15-day period has expired, and no objections to the regulations or any of its provisions have been received.

However, it appears desirable to make the following modifications in the proposed regulations, for purposes of clarification, and to incorporate specific provisions concerning the reimbursement of employees for costs incurred by them for materials.

(1) In § 695.5, add the following at the end of the section: In addition any costs for materials incurred by the home worker shall be reimbursed by the employer.

(2) In § 695.6, paragraph (a) (4) is amended to read as follows: The style number, if any, description of, and amount of goods, the operations to be performed or performed thereon, together with the piece rates to be paid or paid, the gross amount actually paid each home worker for the operations performed upon such goods, the amount, if any, paid by the home worker for materials, and the net amount received by the home worker.

(3) In § 695.6, paragraph (b) (2) is amended to read as follows: The style number, if any, description of, and amount of goods, the operations to be performed or performed thereon, together with the piece rate to be paid or paid, the gross amount actually paid the home worker for the operations performed upon such goods, the amount, if any, paid by the home worker for materials, and the net amount received by the home worker.

(4) Section 695.7 is amended to read as follows: The employer shall collect each handbook as soon as it has been completed. Every employer shall keep and preserve for a period of not less than three years at his place of business all records required above, except the handbook, which shall be kept for a period of two years subsequent to the date of the last entry therein. All such records shall be open at any time to inspection and transcription by the Administrator or his authorized representative.

(5) In § 695.9, the reference to "section 6 (a) (5)" of the act is changed to "section 6 (a) (2)."

Sec.
695.1 Applicability.
695.2 Definitions.
695.3 Filing and notification requirements.
695.4 Delivery and collection of goods.
695.5 Payment for work.
695.6 Records to be kept.
695.7 Maintenance of records.
695.8 Minimum piece rates prescribed by the Administrator.
695.9 Piece rates adopted by employers.
695.10 Penalties.
695.11 Petition for amendment of regulations.
695.12 Piece rates established in accordance with § 695.8.

AUTHORITY: §§ 695.1 to 695.12 issued under sec. 3 (f), 54 Stat. 616, as amended, sec. 11, 52 Stat. 1066; 29 U. S. C. 206, 211.

§ 695.1 *Applicability.* The provisions of this part shall apply to persons engaged in activities relating to home workers in the Virgin Islands.

§ 695.2 *Definitions.* The following words, terms, and phrases as used in this part shall have the meaning ascribed to them in this section except when the context clearly indicates a different meaning; provided, however, that the following definitions shall not be construed in any way to restrict the meaning of such words, terms, or phrases as are defined in section 3 of the Fair Labor Standards Act of 1938, as amended, hereinafter referred to as the act.[1]

(a) "Employer" includes any natural or artificial person, who, for his own account or benefit, or on behalf of any other person, directly or indirectly, through any other person:

(1) Delivers, or causes to be delivered, any goods to be processed or fabricated in or about a home and thereafter to be returned or thereafter to be disposed of or distributed in accordance with his directions; or

(2) Sells any goods for the purpose of having such goods processed or fabricated in or about a home and then rebuys such goods after such processing or fabricating, either himself or through some other person.

(3) Purchases any goods from a homeworker whom he suffers or permits to work, even though such homeworker has purchased the material used in the processing or fabrication of such goods from a source other than such employer.

(b) "Employ" includes to suffer or permit to work.

(c) "Home" includes any room, house, apartment, or other premises used regularly in whole or in part as a dwelling place.

(d) "Home worker" includes any employee performing in or about a home any operation on goods produced for commerce, provided that such work is not performed under either actively or personally regulated or supervised conditions.

(e) "Operation" means any work or any process other than the distribution of goods to or collection of goods from home workers.

§ 695.3 *Filing and notification requirements.* Every employer prior to the distribution of work to any home worker (or prior to the commencement of work by a homeworker, in cases where the homeworker purchases the raw materials) shall file with the Territorial Office of the Wage and Hour Division in Puerto Rico,

(a) A design, pattern, diagram, photograph, or sample of the product, together with such other description or illustration of the product as he, upon inquiry at the Wage and Hour Division in Puerto Rico, may be requested to submit; and

(b) A description in writing of each operation to be performed by any home worker, together with the full piece rate schedule designation, if any, prescribed in accordance with § 695.8, the corresponding piece rates to be paid for each such operation, and the style numbers, if any, of the goods upon which the operations are to be performed.

§ 695.4 *Delivery and collection of goods.* Where goods for production in a home are distributed to the homeworker by the employer, such goods shall be personally distributed to and collected from the home worker who is to work on the goods, either directly at the employer's principal office in the Virgin Islands or by employees expressly employed by the employer to distribute and collect such goods outside such principal office.

§ 695.5 *Payment for work.* When an employer receives goods on which work has been completed, he shall pay the home worker immediately for such work. Payment shall be made to each home worker at rates not less than those required under §§ 695.8 or 695.9, and in accordance with the requirements of sections 6 and 7 of the act. In addition, any costs for materials incurred by the home worker shall be reimbursed by the employer.

§ 695.6 *Records to be kept.*[2] (a) Every employer shall make and have available at his principal office in the Virgin Islands a record of the following information:

(1) The name and address of each firm situated outside the Virgin Islands, if any, from whom the goods for delivery to a home worker were received.

(2) The name and address of each home worker, and the date of birth of each home worker under 19, to whom goods were delivered or from whom goods were purchased.

(3) The dates upon which goods were delivered to and collected from, or purchased from, each home worker.

(4) The style number, if any, description of, and amount of goods, the operations to be performed or performed thereon, together with the piece rates to be paid or paid, the gross amount actually paid each home worker for the operations performed upon such goods, the amount, if any, paid by the home worker for materials, and the net amount received by the home worker.

(5) The date upon which each home worker was paid for operations performed on the goods.

(b) At the time work is given out to or received or purchased from a home worker, as the case may be, every employer shall enter the following information in the handbook (to be obtained by the employer from the Wage and Hour Division and supplied by him to each home worker) which shall be kept by the home worker:

(1) The dates upon which goods were delivered to and collected from, or purchased from, the home worker.

(2) The style number, if any, description of, and amount of goods, the operations to be performed or performed thereon, together with the piece rates to be paid or paid, the gross amount actually paid the home worker for the operations performed upon such goods, the amount, if any, paid by the home worker for materials, and the net amount received by the home worker.

(3) The date upon which the home worker was paid for operations performed on the goods.

(4) The signature of the person acting in behalf of the employer.

(c) No employer shall employ any home worker for more than 40 hours in any workweek unless, in addition to the records which he is required to keep pursuant to paragraphs (a) and (b) of this section, such employer makes and keeps available at his principal office in the Virgin Islands, and enters in the handbook of each such home worker, a record of the following information:

(1) The hours worked by the home worker on the goods in each lot of work delivered to the employer.

(2) The total hours worked each week.

(3) The wages paid the home worker each week at regular piece rates.

(4) The extra amount paid to the home worker for hours worked in excess of 40 in each week.

§ 695.7 *Maintenance of records.* The employer shall collect each hand book as soon as it has been completed. Every employer shall keep and preserve for a period of not less than three years at his place of business all records required above, except the hand book which shall be kept for a period of two years subsequent to the date of the last entry therein. All such records shall be open at any time to inspection and transcription by the Administrator or his authorized representative.

§ 695.8 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (2) of the act, each home worker shall be paid, in lieu of the applicable hourly rate established by wage order, not less than the piece rates prescribed in § 695.12 for the operations described therein.

§ 695.9 *Piece rates adopted by employers.* Pursuant to the provisions of

[1] Sec. 3, 52 Stat. 1060; 29 U. S. C. 203.

[2] Although responsibility for making the record is placed upon the employer, the actual work of doing so may be performed by supervisory or clerical employees, or other persons acting in behalf of the employer. No particular order or form of records is prescribed by the regulations contained in this part. The employer may keep his own record system, so long as he keeps all the required information available in understandable form.

section 6 (a) (2) of the act, in the event that a home worker is to perform an operation for which no minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid a piece rate adopted by the employer which shall yield to home workers of ordinary skill, under prevalent operating conditions and with equipment ordinarily found in homes, an amount not less than the applicable minimum hourly wage rate established by wage order. No employer shall adopt such a piece rate until he has first notified the Division of his intention to establish a rate for such operation, the rate fixed and the basis on which the piece rate has been computed. Such an employer piece rate shall be lawful only if it actually satisfies the requirements of this section, and such a rate shall remain in effect only until such time as the Administrator or his authorized representative, by regulation or order, establishes a minimum piece rate for such operation.

§ 695.10 *Penalties.* Section 15 of the act makes it unlawful for any person to violate the provisions of this part and subjects any such person to the penalties provided by section 16 and section 17 of the act.

§ 695.11 *Petition for amendment of regulations.* Any person wishing a revision of any of the terms of this part may submit in writing to the Administrator or his authorized representative a petition setting forth the changes desired, and the reasons for proposing them. If, upon inspection of the petition, the Administrator or his authorized representative believes that reasonable cause for amendment of this part is set forth, the Administrator or his authorized representative will either schedule a hearing with due notice to interested parties, or will make other provision for affording interested parties an opportunity to present their views, either in support of or in opposition to the proposed changes.

§ 695.12 *Piece rates established in accordance with § 695.8.*

SCHEDULE A—PIECE RATE SCHEDULE FOR THE HAND-MADE ART LINEN INDUSTRY IN THE VIRGIN ISLANDS (HAND-EMBROIDERY OPERATIONS)

Design No.	Description of design	Piece rate per unit (cents)
1	Native Woman No. 1—Woman carrying tray of fruit on head, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 1, filed with the Wage and Hour Division. Size: 1" high, 7/8" at base.	10.5
2	Native Woman No. 2—Woman carrying tray of fruit on head, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 2, filed with the Wage and Hour Division. Size: 1 3/8" high, 1 3/16" at base.	12.7
3	Native Woman No. 3—Woman carrying tray of fruit on head, palm tree with 2 fruits; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 3, filed with the Wage and Hour Division. Size: 2" high, 2 1/16" at base.	16.8
4	Native Woman No. 4—Woman carrying tray of fruit on head, 2 palm trees, each with 3 fruits; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 4, filed with the Wage and Hour Division. Size: 3¾" high, 6¼" at base.	72.9
5	Palm Tree No. 1—Palm tree, 6 leaves, 2 small fruits; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 5, filed with the Wage and Hour Division. Size: 1⅝" high, 1½" at base.	11.8
6	Palm Tree No. 2—Palm tree, 8 leaves, 2 fruits; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 6, filed with the Wage and Hour Division. Size: 2½" high, 1⅞" at base.	13.9
7	Palm Tree No. 3—Palm tree, 8 leaves, 2 fruits; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 7, filed with the Wage and Hour Division. Size: 3¾" high, 2½" at base	21.4
8	Donkey and Rider No. 1—Boy riding donkey, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 8, filed with the Wage and Hour Division. Size: 1⅝" high, 1¾" at base	12.4
9	Donkey and Rider No. 2—Boy riding donkey, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 9 filed with the Wage and Hour Division. Size: 1½" high, 1¾" at base	17.4
10	Donkey and Rider No. 3—Boy riding donkey, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 10, filed with the Wage and Hour Division. Size: 2⅛" high, 2½" at base	21.4
11	Donkey and Boy No. 1—Boy leading donkey, man carrying bundle of bananas, palm tree; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 11, filed with the Wage and Hour Division. Size: 2" high, 1¾" at base	18.1
12	Donkey and Boy No. 2—Boy leading donkey, man carrying bundle of bananas; palm tree, embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 12, filed with the Wage and Hour Division. Size: 2⅜" high, 2¾" at base	24.3
13	Bluebeard Castle No. 1—Castle in shape of tower, 4 windows, door, flag, and 2 palm trees; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 13, filed with the Wage and Hour Division. Size: 1⅞" high, 1⅞" wide	16.4
14	Bluebeard Castle No. 2—Castle in shape of tower, 4 windows, door, flag, 1 large and 2 small palm trees; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 14, filed with the Wage and Hour Division. Size: 2¾" high, 2¾" wide	21.3
15	Bluebeard Castle No. 3—Castle in shape of tower, 4 windows, door, flag, 2 large and 3 small palm trees, 2 banana plants; embroidered in solid cord and back stitch, without hoop, as per embroidered design No. 15, filed with the Wage and Hour Division. Size: 4½" high, 6¼" wide	53.0

Accordingly, the aforesaid regulations published in the FEDERAL REGISTER beginning at 15 F. R. 5171, with the modifications shown above, are hereby issued. These regulations shall become effective 30 days after the date of publication thereof in the FEDERAL REGISTER.

Signed at Washington, D. C., this 26th day of December 1950.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

JOINT PROCUREMENT REGULATIONS

PREMIUM WAGE COMPENSATION

The Joint Procurement Regulations, formerly published in Chapter VIII, Title 10, are amended by rescinding §§ 809.102 and 809.102–1 and substituting the following in lieu thereof:

§ 809.102 *Premium wage compensation.*

§ 809.102–1 *Department of the Army.* (a) Delivery schedules established in connection with all procurement contracts, particularly those of a cost-reimbursement type, will be predicated upon the contractor working normal workweeks and shifts without recourse to overtime and extra-pay shifts.

(b) Overtime and extra-pay shift deviations may be authorized subject to the following conditions:

(1) The authority for approval of such overtime and extra-pay shift deviations as may be required is hereby delegated, with power of redelegation, to heads of procuring activities.

(2) Utilization of approvals for deviation of the overtime and extra-pay shifts as may be given by the head of a procuring activity, or his designated representative, will be confined to the meeting of essential deadlines necessary to the performance of the contract solely in the interests of the Government.

(3) In granting such approvals, it will be the responsibility of the head of a procuring activity and his designated representative to restrict such overtime and extra-pay shift work to the minimum required for the accomplishment of the specific work for which the deviation was requested and for which the approval was given.

(4) The above policy is not to be construed as forbidding the use of overtime or extra-pay shift work necessitated because of disaster, local operating emergencies, or in the best interests of the Government.

(c) Any case concerning overtime or extra-pay shifts which may arise and which does not fall within the foregoing authorization, including cases involving premium rates other than overtime or extra-pay shifts, will be referred to the Assistant Chief of Staff, G–4, GSUSA (ATTN: Chief, Current Procurement Branch) for consideration.

[Proc. Cir. 26, 18 Dec. 1950] (R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151–161)

[SEAL] EDWARD F. WITSELL,
Major General,
The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Order M–2 as amended Dec. 29, 1950]

PART 25—RUBBER

This order, as amended, is found necessary and appropriate to promote the national defense. It is issued pursuant to both the Defense Production Act of 1950 and the Rubber Act of 1948. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

A new § 25.5b is added as set forth below.

EXPLANATORY PROVISIONS

Sec.
25.1 Purpose and effect.
25.2 Definitions.

REQUIRED USE OF SYNTHETIC RUBBER

25.3 Synthetic rubber specifications.
25.4 Exceptions to required use of synthetic rubber.
25.5 Import restrictions.

CAMELBACK PRODUCTION REQUIRED

25.5a Required production of camelback.
25.5b Private importation of crude natural rubber and natural rubber latex (excluding guayule, balata and gutta-percha) prohibited.

RESTRICTIONS OF NEW RUBBER CONSUMPTION

25.6 Limit on total new rubber consumption.
25.7 Limit on natural rubber consumption.
25.8 Limit on natural rubber latex consumption.

ALLOCATION OF SYNTHETIC RUBBER

25.9 Limitation on acquisition of synthetic rubber.
25.10 Allocation procedure.
25.11 Basis of allocation.
25.12 Additional allocations for Government orders.

GENERAL PROVISIONS

25.13 Reports of rubber consumption and stocks.
25.14 Reports by tire, tube, and camelback manufacturers.
25.15 Reports by latex importers.
25.16 Other records and reports.
25.17 Inventory limitation.
25.18 Adjustments and exceptions.
25.19 Communications.
25.20 Violations.

AUTHORITY: §§ 25.1 to 25.20 issued under sec. 704, Pub. Law 774, 81st Cong., and sec. 10, 62 Stat. 105, 50 U. S. C. App. Supp. 1929; Pub. Law 575, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., and sec. 3, 62 Stat. 102, 50 U. S. C. App. Supp. 1922; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; E. O. 9942, Apr. 1, 1948, 13 F. R. 1823.

EXPLANATORY PROVISIONS

§ 25.1 *Purpose and effect.* The purpose of this part is to conserve the supply of rubber for the needs of national defense. It continues in effect, with some changes in both form and substance, most of the provisions of former Allocation Order R–1 (15 CFR 338.71–338.85). The restrictions imposed by Allocation Order R–1 fixing minimum percentages of synthetic rubber that must be used in certain listed rubber products remain the same in this part. The former provisions limiting total new rubber consumption have been substantially modified and new provisions limiting natural rubber consumptions have been included, in addition, this part contains new provisions limiting consumption of natural rubber latex and establishing the procedure and basis for allocation of Government-produced synthetic rubber.

§ 25.2 *Definitions.* As used in this part:

(a) "Natural rubber" means all new RHC (rubber hydrocarbon) forms and types of tree, vine, or shrub rubber, including natural rubber latex, but excluding reclaimed natural rubber.

(b) "Synthetic rubber" means all new RHC products of chemical synthesis similar in general properties and applications to natural rubber and specifically capable of vulcanization, including synthetic rubber latex but excluding reclaimed synthetic rubber.

(c) "GR-S" means a general-purpose synthetic rubber of the butadiene-styrene type produced in the United States generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback, as determined from time to time by the NPA, not including reclaimed general-purpose synthetic rubber.

(d) "Butyl" or "GR-I" means a special-purpose synthetic rubber produced in the United States, suitable for use in the manufacture of transportation items such as pneumatic inner tubes, not including reclaimed special-purpose rubber.

(e) "Consume" means, in the case of natural rubber or synthetic rubber, to compound, expend, formulate or in any manner make any substantial change in the form, shape or chemical composition except where any of these materials are used in the preparation of masterbatches or compounds prepared for use in the manufacture of finished products.

(f) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(g) "New RHC" means total new rubber hydrocarbon. This is the total RHC content of natural rubber, synthetic rubber, uncured scrap rubber, uncured in-process materials, and the rubber hydrocarbon content of master-batches or compounds of new RHC.

(h) "Reclaimed rubber" means any rubber derived from the processing or treatment of vulvanized rubber or cured scrap rubber.

(i) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(j) "NPA" means the National Production Authority in the Department of Commerce.

REQUIRED USE OF SYNTHETIC RUBBER

§ 25.3 *Synthetic rubber specifications.* No person shall manufacture any product described in this section in any specified type or size unless it conforms with the synthetic rubber specifications and such other terms and conditions as are prescribed below in this section. The synthetic rubber used to satisfy such specifications shall be that produced by the Government or for its account or purchased from others by the Government for resale by the Government or for its account.

(a) *Tires.* All pneumatic tires, in any type and size listed below, shall contain GR–S in at least the percentages designated in the following table:

Pneumatic tire groups, size and type	Percent GR-S of total natural rubber plus GR-S	
	Minimum group average	Minimum individual tire
Group 1:		
All 7.50 and down truck and bus tires, not including low platform trailer and wire tires	30	1
All 7.50 and down farm implement, garden implement and industrial tires	75	1
All passenger, and motorcycle, front farm tractor and garden tractor tires	30	1
Group 2:		
All rear farm tractor and all other farm implement tires, not including rice and cane spade grip tires	75	1

NOTE: The group averages for groups 1 and 2 may be reduced by not more than three (3) points, provided the aggregate GR-S consumption in these groups equals the total amount of GR-S which would have been consumed if calculated on the above minimum group averages for groups 1 and 2. The above group averages and permitted tolerances must be balanced out each calendar month.

(b) *Tire tubes*—(1) *Reestablishment of GR–I specifications.* No synthetic rubber specifications are presently prescribed for tire tubes, but if the consumption of butyl (GR–I) by the entire industry indicates that the total annual consumption will be less than 15,000 long tons, specifications requiring the consumption of butyl (GR–I) in certain types and sizes of tire tubes will be reinstated in this part to the extent necessary.

(2) *Markings on tire tubes.* Every tube containing butyl (GR–I) synthetic rubber shall be marked by the manufacturer with one or more circumferential light blue stripes, applied on the base section of the tube, any one of which stripes shall be 3/16" minimum width. No other tire tube shall be so marked.

§ 25.4 *Exceptions to required use of synthetic rubber*—(a) *Military orders.* The provisions of § 25.3 shall not apply to products manufactured for the Department of Defense.

(b) *Experimental purposes.* Notwithstanding the provisions of § 25.3, any person may use up to a total of 2,000 pounds of natural rubber during any calendar quarter for experimentation in the manufacture of those sizes and types of tires for which specifications are provided in § 25.3 (a).

§ 25.5 *Importation restrictions*—(a) *Certification required.* No product for which synthetic rubber specifications are established in § 25.3 may be entered for consumption in the United States or its territories or possessions unless the importer furnishes to the appropriate Collector of Customs a certificate reading substantially as follows:

The undersigned hereby certifies, subject to the criminal penalties for misrepresentation contained in Title 18, U. S. Code (Crimes), section 1001, that the products covered by the invoice to which this certificate is attached contain at least the same percentage of synthetic rubber (of any type

and wherever produced) as required by NPA Order M-2 for similar products.

---------- ----------
(Date) (Signature)

(b) *Exceptions.* No such certificate shall, however, be required for the importation (1) of any products by a diplomatic representative of a foreign government for his personal use or for the use of members of his staff or by a commercial representative of a foreign government for use in his official business and not for sale or (2) of any tires or camelback for experimental and testing purposes and not for sale.

CAMELBACK PRODUCTION REQUIRED

§ 25.5a *Required production of camelback.* Every person who produced camelback during the year ending June 30, 1950, shall produce in each of the two months, January and February, 1951, an amount of camelback which bears by weight at least the same proportion to his total new rubber consumption used in manufacture of transportation products during each such month as his production of camelback during the year ending June 30, 1950, bore by weight to his total new rubber consumption in such transportation products during that year.

§ 25.5b *Private importation of crude natural rubber and natural rubber latex (excluding guayule, balata and gutta-percha) prohibited.* On and after December 29, 1950, no person other than the Administrator of General Services shall import into the United States (including its territories and possessions) any crude natural rubber or natural rubber latex (excluding guayule, balata and gutta-percha) except as specifically authorized in writing by the Administrator of General Services; *Provided, however,* That this prohibition shall not apply to any private importation required by a contract which was made prior to December 29, 1950, and which is registered with the Administrator of General Services on or before January 5, 1951, except as any such private importation may be disapproved by said Administrator. For purposes of this section, the term "import" includes any physical movement of crude natural rubber and natural rubber latex (excluding guayule, balata and gutta-percha) into the United States, whether placed in general order or in a foreign trade zone, or whether entered for consumption, bonded customs custody, transportation, exportation or otherwise.

RESTRICTIONS ON NEW RUBBER CONSUMPTION

§ 25.6 *Limit on total new rubber consumption.* (a) No person shall consume a total amount of new rubber (including all synthetic both dry and latex and all natural except latex and rubber from guayule) in excess of 82 percent in January 1951 and in excess of 80 percent in February 1951 of his base monthly new rubber consumption as computed under paragraph (b) of this section.

(b) Each person's base monthly new rubber consumption shall be one-fourth of his maximum new rubber consumption as permitted for the four-month period ending December 31, 1950, under the terms of § 338.80 of the former Allocation Order R-1 or as adjusted for such four-month period by the Department of Commerce.

(c) Such quantities of new rubber as are used in making products for the Department of Defense are hereby exempted from the limitation of this section and shall be excluded in computing consumption of new rubber in January and February, 1951 for purposes of this section.

§ 25.7 *Limit on natural rubber consumption.* (a) No person shall consume natural rubber (exclusive of natural rubber latex and rubber from guayule) in January, 1951 in excess of 51 percent, nor in February, 1951 in excess of 43 percent of his base monthly natural rubber consumption as computed under paragraph (b) of this section. Neither may any person consume natural rubber (exclusive of natural rubber latex and rubber from guayule) in either January or February, 1951, in excess of the difference between his total new rubber consumption as permitted for that month under § 25.6 and the total synthetic rubber acquired by him from all sources during that month.

(b) Each person's base monthly natural rubber consumption shall be one-twelfth of his actual consumption of natural rubber (exclusive of natural rubber latex and rubber from guayule) during the year ending June 30, 1950: *Provided, however,* That if his maximum total new rubber consumption as permitted for the four-month period ending December 31, 1950 under the terms of § 338.80 of former Allocation Order R-1 has been or is adjusted by the Department of Commerce, his base monthly natural rubber consumption as above established shall be adjusted by the same percentage as his permitted total new rubber consumption was changed by such adjustment.

(c) Such quantities of natural rubber as are used in making products for the Department of Defense are hereby exempted from the limitation of this section and shall be exluded in computing consumption of natural rubber in January and February, 1951 for purposes of this section.

(d) The limitations prescribed in this section shall not apply during January or February, 1951, as the case may be, to any person whose consumption of natural rubber (exclusive of natural rubber latex and rubber from guayule) does not exceed 15,000 pounds during that month, but no such person may consume during that month more natural rubber (exclusive of natural rubber latex and rubber from guayule) than his base monthly natural rubber consumption as computed under paragraph (b) of this section.

§ 25.8 *Limit on natural rubber latex consumption.* (a) No person shall consume during the months of January and February, 1951, a total quantity of natural rubber latex in excess of one-sixth of his consumption during the year beginning July 1, 1949, and ending June 30, 1950.

(b) Any person who imports any natural rubber latex into the United States after October 1, 1950, shall offer at least 10 percent of his imports to the General Services Administration at his regularly established price.

(c) In the event that imports of natural rubber latex are of such volume that an excess remains available for consumption (including any amounts not accepted by General Services Administration), after deducting from total imports (1) the base-period consumption allowed by paragraph (a) of this section, (2) the stockpile set-aside provided by paragraph (b) of this section, and (3) a reasonable reserve for adjustments under § 25.18, such excess will be allocated quarterly to consumers by the NPA on the basis of their pro rata allocation of natural rubber latex during the fourth calendar quarter of 1950. Any allocations made under this paragraph may be consumed in addition to the amounts permitted by paragraph (a).

ALLOCATION OF SYNTHETIC RUBBER

§ 25.9 *Limitation on acquisition of synthetic rubber.* No person shall acquire more Government-produced GR-S or butyl (GR-I) than is allocated to him by the NPA. No person shall sell or transfer any synthetic rubber acquired from the Government to any person other than the Office of Rubber Reserve, Reconstruction Finance Corporation.

§ 25.10 *Allocation procedure.* The NPA will allocate quarterly, to each consumer of GR-S or butyl, the amounts of Government-produced GR-S and butyl that he may purchase during a specified calendar quarter. The NPA will notify the Office of Rubber Reserve, Reconstruction Finance Corporation, of such allocations and the Office of Rubber Reserve will not issue purchase permits to anyone for more GR-S or butyl than is allocated to him. Persons desiring to purchase GR-S or butyl will submit purchase requests to the Office of Rubber Reserve in accordance with its established procedure.

§ 25.11 *Basis of allocation.* GR-S and butyl will be separately allocated by the NPA for each calendar quarter on the following basis:

(a) *GR-S.* Subject to the provisions of paragraphs (d) and (e) of this section, each consumer of GR-S will be allocated his pro rata share of total available Government-produced GR-S, (after a reasonable amount has been reserved for defense and other Government orders, for such other programs as may be approved by the NPA, and for adjustments under § 25.18), based on the proportion which his total new rubber consumption (exclusive of butyl) during the year ending June 30, 1950 bears to the total new rubber consumption (exclusive of butyl) of the industry during that period, as determined by the NPA.

(b) *Butyl for tire tubes.* Subject to the provisions of paragraphs (d) and (e) of this section, each manufacturer of tire tubes will be allocated his pro rata share of total available Government-produced butyl (after a reasonable amount has been reserved for defense and other Government orders, for such other programs as may be approved by the NPA, and for adjustments under § 25.18), based on the proportion which his total new rubber consumption for tire tubes during the year ending June 30, 1950 bears to the total new rubber consumption of the industry for tire tubes during that period, as determined by the NPA.

(c) *Butyl for other uses.* Subject to the provisions of paragraphs (d) and (e) of this section, each consumer of butyl for purposes other than the manufacture of tire tubes will be allocated for each calendar quarter, his average quarterly consumption of butyl for such other purposes during the year ending June 30, 1950, as determined by the NPA.

(d) *Imports to be considered.* In making the allocations described in paragraphs (a), (b) and (c) of this section, the NPA will ascertain the quantities of imported GR-S and butyl acquired by each consumer, and will reduce by the amounts of such imported rubber the allocations which would otherwise be made.

(e) *Inventories to be considered.* In making the allocations described in paragraphs (a), (b) and (c) of this section, the NPA will ascertain and take into account each consumer's inventory of GR-S and butyl, and will adjust the allocations insofar as practicable so that inventories (including rubber in warehouse and in transit) will not be increased beyond a 20-working-day supply.

§ 25.12 *Additional allocations for Government orders.* When any Government agency places orders with specifications requiring larger amounts of synthetic rubber than the manufacturer has available under his current allocations without increasing the natural rubber content in his civilian products, an allocation will be made to take care of such additional requirements.

GENERAL PROVISIONS

§ 25.13 *Reports of rubber consumption and stocks*—(a) *Monthly reports.* Every person who consumes or owns, at any time during any month, any type of rubber listed below in an amount equal to or in excess of the amounts specified below, shall file a monthly report on Form NPA-F3 (formerly IC-3410) with the NPA in accordance with the instructions accompanying the form. This report form covers consumption, stocks, receipts, production and shipments. No such report need be filed as to any listed type of rubber if the amount of it consumed and the amount of it owned during the month were each less than the amount specified below for such type of rubber.

Types:	*Amount (pounds)*
Natural rubber	15,000
Natural rubber latex (dry latex solids)	5,000
Reclaimed rubber	10,000
GR-S (all types including GR-S latex)[1]	15,000
Butyl (GR-I) all types[1]	10,000
Neoprene (all types, including neoprene latex)[1]	5,000
Butadiene-Acrylonitrile types[1]	5,000

[1] Includes all types whether obtained from Government or other source, including imports.

(b) *Annual reports.* Every person who, during any calender year, consumes or owns any types of rubber listed in paragraph (a) of this section in excess of the amounts specified for such types, and who has not reported those types of rubber on Form NPA-F3 (formerly IC-3410) for all months of the calendar year, shall file an annual report covering consumption and stocks in accordance with the instructions accompanying the annual report form. This report shall be made on Form NPA-F4 (formerly IC-49-1) and shall be filed not later than January 31 following the year being reported.

§ 25.14 *Reports by tire, tube and camelback manufacturers*—(a) *Monthly reports.* Each manufacturer of tires, tubes, and camelback shall file a report of his production, shipments and inventory for each calendar month on Form NPA-F5 (formerly IC-3438) with the NPA in accordance with the instructions accompanying the form. Such report shall be filed by the 10th of the month following the month to which it relates.

(b) *Weekly reports of cured tires.* Each manufacturer of tires shall file a report of his production of cured tires for each week on Form NPA-F6 (formerly IC-4231) with the NPA in accordance with the instructions accompanying the form.

§ 25.15 *Reports by latex importers.* Every importer of natural rubber latex shall report by letter to the NPA by the 15th of each month in long tons of dry latex solids (a) his imports for the current month (actual receipts plus material due to arrive), (b) his scheduled imports for the next succeeding month, and (c) his estimate of his imports for the second and third succeeding months.

§ 25.16 *Other records and reports.* All persons subject to this part shall keep such records and file such other reports as may be required subject to approval by the Bureau of the Budget in accordance with the Federal Reports Act of 1942 (Pub. Law 831, 77th Cong., 5 U. S. C. 139-139F).

§ 25.17 *Inventory limitation.* All of the materials subject to this part are also subject to Part 10 of this chapter (NPA Regulation 1) which prohibits the accumulation of materials in excess of a practicable minimum working inventory.

§ 25.18 *Adjustments and exceptions.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts, the nature of the relief sought and shall state the justification therefor.

§ 25.19 *Communications.* All applications, reports and other communications relating to this part should be addressed to the National Production Authority, Washington 25, D. C., Ref: Order M-2.

§ 25.20 *Violations.* Any person who wilfully violates any provision of this part, or furnishes false information or conceals any material fact in the course of operation under it, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to compel necessary adjustment of his inventories or consumption or to suspend his privilege of making or receiving further deliveries of, or from processing or using, materials subject to this part.

Note: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This part as amended shall take effect on December 29, 1950.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

[F. R. Doc. 51-149; Filed, Jan. 2, 1951; 12:07 p. m.]

[NPA Order M-10, as Amended Dec. 30, 1950]

PART 30—COBALT

This order, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order, as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amendment constitutes, in effect, a completely new order, inasmuch as the former Order M-10, as issued on November 30, 1950, contained only inventory control provisions similar to those contained in § 30.8 of this amended order.

EXPLANATORY PROVISIONS

Sec.
30.1 What this part does.
30.2 Relation to other regulations.
30.3 Definitions.

RESTRICTIONS ON USE

30.4 Uses prohibited.
30.5 Substitution required.

RESTRICTIONS ON DELIVERIES

30.6 Allocation authorizations required.
30.7 Exceptions from allocation requirements.
30.8 Limitation on inventory.

RECORDS AND REPORTS

30.9 Records to be kept.
30.10 Audit and inspection.
30.11 Reports.

GENERAL PROVISIONS

Sec.
30.12 Adjustments and exceptions.
30.13 Communications.
30.14 Violations.

AUTHORITY: §§ 30.1 to 30.14 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

EXPLANATORY PROVISIONS

§ 30.1 *What this part does.* The purpose of this part is to conserve and provide for the distribution of the limited supply of cobalt so as best to serve the interest of national defense and essential civilian production. This part prohibits the use of this strategic material in the manufacture of specified products which are relatively less essential or in which substitute materials may effectively be used. It establishes limits on additions to inventory and brings cobalt under allocation by prohibiting, subject to limited exceptions, any deliveries not covered by allocation authorizations to be issued monthly by the National Production Authority. Provision is thus made whereby the supply remaining after defense requirements are met may be equitably distributed through normal channels for essential civilian uses and with due regard for the needs of new and small businesses.

§ 30.2 *Relation to other regulations.* The provisions of this part supersede other National Production Authority regulations and orders with which they are in conflict but in all other respects such regulations and orders remain applicable to cobalt. In particular, Part 11 of this chapter (NPA Regulation 2) continues to apply to cobalt, but deliveries on DO rated orders, as well as on any other orders, may be made only in accordance with allocation authorizations, except as otherwise provided in this part. The National Production Authority may from time to time issue special directives as to deliveries of cobalt and, unless otherwise provided therein, such directives will prevail over the provisions of this part.

§ 30.3 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Cobalt" means cobalt metal, cobalt alloys, cobalt oxide, cobalt salts, and all other primary chemical compounds which result from the processing of cobalt ores, concentrates, crudes, or cobalt residues and cobalt-bearing scrap.

(c) "Manufacture" means to melt, alloy, mix, fabricate or process in any other way, or assemble or incorporate in assemblies, or to consume or otherwise employ in the course of manufacture, any cobalt; but does not include the installation of a finished product or repair part for the ultimate consumer.

RESTRICTIONS ON USE

§ 30.4 *Uses prohibited.* (a) After January 31, 1951, no person shall use cobalt in the manufacture of pigments in any form: *Provided, however,* That this prohibition shall not apply to:

(1) The use of cobalt in the manufacture of driers, blue glass where necessary for optical or safety purposes, laboratory equipment, decalcomanias for decorating tableware, or artists' materials.

(2) The use of cobalt required by any person to fill an order that is rated under the priorities system established by Part 11 of this chapter (NPA Regulation 2) or to comply with any order or directive of the National Production Authority.

(3) The use by any person of a quantity of cobalt not in excess of 50 pounds (cobalt content), during any 3-month period beginning February 1, 1951, for all purposes otherwise prohibited under this section.

(b) During January 1951, no person shall use more cobalt for the purposes prohibited in paragraph (a) of this section than the average monthly amount he used for such purposes during the third calendar quarter of 1950.

§ 30.5 *Substitution required.* No cobalt oxide shall be used for any purpose where (a) there is available a mixed cobalt-nickel oxide which it is not economical or practicable to separate into cobalt oxide and nickel oxide and (b) the use of such material is not deleterious to the public health.

RESTRICTIONS ON DELIVERIES

§ 30.6 *Allocation authorizations required.* (a) After January 31, 1951, no person shall deliver cobalt or accept delivery of cobalt (including any person importing directly for his own use) in any month except in accordance with the terms of an allocation authorization issued for such month by the National Production Authority on Form NPAF–16.

(b) An application for an allocation authorization must be filed with the National Production Authority by the purchaser on Forms NPAF–15 and NPAF–16 not later than the 15th day of the month preceding the month in which delivery is sought. Such application must furnish all information required by the form.

(c) The authorization allocation (Form NPAF–16) issued will be sent by the National Production Authority to the appropriate supplier(s) and a copy furnished to the purchaser. The authorization requires the supplier to make delivery to the extent of the purchaser's orders within the limit of the authorization. In placing his orders, the purchaser shall specify the date and serial number of the applicable allocation authorization. The purchaser may only use cobalt received under an authorization by the National Production Authority for the uses specified in NPAF–16.

§ 30.7 *Exceptions from allocation requirements.* The provisions of § 30.6 shall not apply to—

(a) Deliveries of cobalt to the General Services Administration for the sole purpose of stockpiling.

(b) Deliveries of cobalt directly from a foreign source for the purpose of resale only.

(c) Deliveries of cobalt to any person whose total receipts from all sources during the current calendar month are not thereby made to exceed 25 pounds (cobalt content) and who so certifies to his supplier in substantially the following form on his order:

The undersigned certifies to the supplier, and to the National Production Authority, that receipt of this shipment in the month requested will not bring our total receipts of cobalt during that month above 25 pounds (cobalt content).

(d) Deliveries of cobalt bearing scrap, cobalt ores and concentrates.

§ 30.8 *Limitation on inventory.* No person (notwithstanding any allocation made to him) shall place an order for cobalt calling for delivery, and no person shall accept delivery of cobalt, at a time when his inventory thereof exceeds, or by acceptance of such delivery would be made to exceed, one month's minimum requirements at his then scheduled rate and method of operation, or a minimum practicable working inventory within the meaning of Part 10 of this chapter (NPA Regulation 1), whichever is smaller. Any person who, on the effective date of this part or at any other time, has outstanding orders for cobalt calling for delivery earlier or in quantities greater than he would be permitted to receive under this section, shall forthwith notify his supplier of the extent to which delivery cannot be accepted as scheduled, and such orders shall be adjusted accordingly. Imported, as well as domestic cobalt, except when such imported cobalt remains in the hands of a person who has purchased it directly from a foreign seller, is subject to this section and so is to be included in computing inventory. Cobalt which has been processed to any degree, but has not yet been actually incorporated into a finished or partially-finished product, is likewise to be included in computing inventory.

RECORDS AND REPORTS

§ 30.9 *Records to be kept.* Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

§ 30.10 *Audit and inspection.* All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

§ 30.11 *Reports.* (a) Every person who at any time in a calendar month had in his possession or under his control or during the month consumed more than 50 pounds of cobalt (i. e., cobalt content), shall report to the National Production Authority on Form NPAF–15 on or before the 15th day of the following month. However, if he applies on such form for an allocation of cobalt for delivery during the succeeding month, his application serves also as the required report.

(b) Persons subject to this part shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act (5 U. S. C. 139–139F).

NOTE: All record-keeping and reporting requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act.

GENERAL PROVISIONS

§ 30.12 *Adjustments and exceptions.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought and shall state the justification therefor.

§ 30.13 *Communications.* All communications concerning this part shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–10.

§ 30.14 *Violations.* Any person who wilfully violates any provision of this part, or furnishes false information or conceals any material fact in the course of operation under it, is guilty of a crime and upon conviction may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

This part, as amended, shall take effect on December 30, 1950.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

[F. R. Doc. 51–150; Filed, Jan. 2, 1951; 12:07 p. m.]

Chapter X—General Services Administration

Subchapter A—Purchase, Commitments to Purchase, for Government Use or Resale

PART 1400—RUBBER

IMPORTATION OF RUBBER

Sec.
1400.1 Purpose.
1400.2 Interpretation and implementation.
1400.3 Responsibilities and functions.

AUTHORITY: §§ 1400.1 to 1400.3 issued under sec. 303 of the Defense Production Act of 1950; sec. 303 of Executive Order 10161 of Sept. 9, 1950; and National Production Authority Amendment to Rubber Order M–2 of Dec. 29, 1950.

§ 1400.1 *Purpose.* This part interprets and implements the exclusive authority of the Administrator of General Services to control the importation of crude natural rubber and natural rubber latex (excluding guayule, balata and gutta percha) into the United States as established by the Administrator of the National Production Authority in amendment to Rubber Order M–2 of December 29, 1950 (Part 25 of this title, *supra*), and outlines the attendant responsibilities and functions of the Administrator of General Services in purchasing such crude natural rubber and natural rubber latex for Government use and resale. The Administrator of the National Production Authority has issued on December 21, 1950, a Certificate pursuant to section 303 of Executive Order 10161 as to the necessity for purchase of crude natural rubber and natural rubber latex. The United States, as used herein, includes its territories and possessions.

§ 1400.2 *Interpretation and implementation.* In accordance with the amendment to Rubber Order M–2, referred to in § 1400.1, the Administrator of General Services is given the exclusive control of importation into the United States of crude natural rubber and natural rubber latex (excluding guayule, balata and gutta percha), and no person, except as authorized in writing by said Administrator, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment, or make any contract or other arrangement for the importing of, any crude natural rubber or natural rubber latex: *Provided, however,* That all outstanding contracts made by a private person, whether as owner, purchaser, seller, or consignee of such crude natural rubber or natural rubber latex, or agent of any of them, prior to December 29, 1950, which require importation into and/or delivery within the United States of crude natural rubber or natural rubber latex are hereby authorized to be fulfilled or liquidated (including liquidation of open contracts outstanding at the close of business on December 29, 1950, on the Commodity Exchange, Incorporated, of New York City, through trading on such exchange, but only until the close of business of said Exchange on March 31, 1951): *And provided further,* (a) That all such contracts shall be registered with the Administrator of General Services, attention, Emergency Procurement Service, 7th and D Streets SW., Washington 25, D. C., on or before January 5, 1951; (b) that the foregoing authorization shall apply only to the particular material and shipment mentioned in said contracts; and (c) that the Administrator reserves the right to disapprove importations and/or deliveries under said contracts if he should determine that any contracts requiring such importations, and/or deliveries, because of their duration, special nature, or otherwise, interfere with the operations of the rubber program to be established or are contrary to the policies formulated thereunder.

§ 1400.3 *Responsibilities and functions.* The crude natural rubber and natural rubber latex will be purchased by manufacturers and rubber dealers as authorized by the Administrator and will be distributed at the port of entry into the United States by transfer to the National Stock Pile under the Strategic and Critical Materials Stock Piling Act of July 23, 1946, or by resale to rubber consumers for their own use and not for further resale. The sales to rubber consumers will be made in the quantities and to the consumers designated by the Administrator of the National Production Authority, pursuant to his authority under Title I of the Defense Production Act of 1950 to allocate materials and establish priorities, to the extent that he may exercise such allocation authority.

Dated: December 29, 1950.

JESS LARSON,
Administrator.

[F. R. Doc. 51–151; Filed, Jan. 2, 1951; 1:00 p. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 5]

PEORIA UNION STOCK YARDS CO.

NOTICE OF PETITION FOR MODIFICATION OF RATES

The respondent is now operating under an order dated March 23, 1949 (8 A. D. 253), continuing in effect the provisions of certain prior orders in the proceeding providing for certain charges for stockyard services.

By petition filed on December 15, 1950, respondent has requested an extension of its current authorization for a period of two years with certain modifications set out under the heading "Proposed Modifications" below:

PROPOSED MODIFICATIONS

Section 1, Item 1:

Yardage charges including use of facilities, handling, weighing and privilege of the market, will be collected on all livestock (or deadstock) sold through these yards or resold by regular selling agencies at the following rates in cents per head:

	Received by railroad	Received other than by railroad
Cattle	62	62
Calves (300 pounds and under)	32	32
Hogs	21	21
Sheep and goats	14	14

Section 1, Item 2:

Charges will be collected on all livestock resold on the market (except as specified in Items 1 and 3 of this section) at the following rate in cents per head:

Cattle	31
Calves	16
Hogs	11
Sheep	7

Section 1, Item 3:

Charges subject to the right of this Company to demand full proof of the facts making this Item applicable will be collected on all livestock resold or reweighed for shipment off the market at the following rate in cents per head:

Cattle	10
Calves	6
Hogs	4
Sheep	4

Section 1, Item 4:

Charges will be collected on all livestock consigned to local packers and others at the following rate in cents per head: (Note: If weighed, full yardage as shown in Item 1 will apply)

Cattle	31
Calves	16
Hogs	11
Sheep	7

If authorized, the proposed rates will produce additional revenue for respondent and increase the cost of marketing. It appears, therefore, that this notice of the filing of the petition should be given to the public.

All interested parties who desire to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within the 15 day period following the publication of this notice.

Done at Washington, D. C., this 27th day of December 1950.

[SEAL] KATHERINE L. MASON, *Hearing Clerk.*

[F. R. Doc. 51-24; Filed, Jan. 2, 1951; 8:48 a. m.]

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[14 CFR, Part 27]

AIRCRAFT DISPATCHER CERTIFICATES

REQUIREMENTS FOR APPROVED AIRCRAFT DISPATCHER COURSE

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 27.7–1 *Requirements for approved aircraft dispatcher course (CAA rules which apply to § 27.7 (e))*—(a) *General.* Graduates of an aircraft dispatcher course approved by the Administrator are deemed to have met the aeronautical experience requirements for the aircraft dispatcher certificate. This means that they are accepted on equal terms with an applicant who has met any of the alternate minimum experience requirements provided for in § 27.7. For this reason it is essential that the requirements for approved aircraft dispatcher courses include adequate training facilities, and sufficient coverage of the subject matter to insure acceptable proficiency of persons applying for aircraft dispatcher certification as graduates of an approved course.

(b) *Application for approval.* The agency or applicant desiring approval of a flight dispatcher course must submit to the local agent 3 copies of the course outline, a description of the equipment and facilities to be used, and a list of instructors with their qualifications, together with a letter to the Administrator of Civil Aeronautics requesting approval of the course of study. The letter requesting approval shall be submitted to the nearest regional office of the Civil Aeronautics Administration through the local Aviation Safety Agent.

(1) *Training course outline.* It is not mandatory that the training course outline have the subject headings arranged exactly as listed in the following example. Any arrangement of headings and subheadings will be satisfactory provided all the subjects listed herein are included. Each general subject of the outline shall be broken down, in detail, showing the items to be covered. Additional subjects, especially those which are not closely associated with the training of aircraft dispatchers, may be listed so long as the hourly requirements devoted to the subjects are not included as a part of the basic minimum hours.

(2) *Format of the training outline.* The course outline submitted for approval shall be in loose-leaf form and shall include a table of contents and minimum coverage of the course material shall include the following:

Subject	*Classroom hours*
Civil Air Regulations	15
Part 4b Airplane Airworthiness, Transport Categories.	
Part 27 Aircraft Dispatcher Certificates.	
Part 40 Air Carrier Operating Certification.	
Part 41 Certification and Operation Rules for Scheduled Air Carrier Operations Outside the Continental Limits of the United States.	
Part 42 Irregular Air Carrier and Off-Route Rules.	
Part 43 General Operation Rules.	
Part 49 Transportation of Explosives and Other Dangerous Articles.	
Part 60 Air Traffic Rules.	
Part 61 Scheduled Air Carrier Rules.	
Part 62 Notice and Reports of Aircraft Accidents and Missing Aircraft.	
Meteorology	75
Basic properties of the atmosphere:	
Composition.	
Density.	
Measurement.	
General circulation.	
Solar heating.	
Clouds:	
Formation.	
Condensation.	
Precipitation.	
Use of cloud knowledge in forecasting.	
Stability and instability.	
Air mass analysis:	
Classification.	
Flying conditions to be encountered.	
Use of air mass knowledge in forecasting.	
Analysis of Fronts:	
Structure and characteristics.	
Cloud sequences in fronts.	
Establishing position of front by cloud types.	
Fronts in North America and seasonal variations.	
Flying weather in fronts.	
Cyclones and anticyclones.	
Fog:	
Types.	
Cause and formation.	
Ice:	
Type.	
Cause and formation.	
Thunderstorms, hurricanes, tornadoes:	
Causes.	
Methods of forecasting.	
Structure and complexity of internal winds.	
Hail, its cause and formation.	

Subject	*Classroom hours*
Meteorology—Continued	
Turbulence:	
Cause.	
Determining the smooth level of flight.	
Interpreting weather data:	
Weather sequences and symbols.	
Weather map symbols.	
Drawing a weather map.	
Reading a weather map.	
Upper-level charts.	
Adiabatic charts.	
Winds-aloft charts.	
Instruments used to gather and record the weather.	
Weather forecasting:	
Extrapolation.	
Movement of fronts and air masses.	
Isobars.	
Barometric tendency.	
Application of weather knowledge:	
Planning a flight.	
Navigation	30
Study of the earth as a planet (charts, maps, and projections).	
Mercator projections.	
Gnomonic projections.	
Lambert projections.	
Polyconic projections.	
Chart reading:	
Symbols, landmarks, etc.	
Dead reckoning:	
Magnetic variation, compass deviation terms, winds and vectors.	
Correction angle.	
Finding wind drift-off course.	
Off-course problems.	
Wind velocity by single and double drift.	
Interception problems.	
Radius of action—problems.	
Search problems.	
Computer use—problems.	
Radio navigation:	
Principles of the radio range, radio compass direction finder, marker beacons, ILS, GCA, radio altimeter, LORAN, and any other.	
Navigation instruments:	
Altimeter, air-speed indicator, compass, drift and rate of climb indicator.	
Aircraft	15
Weight and balance:	
Center of gravity.	
How determined.	
Center of gravity limits.	
Problem in loading.	
Engine specifications:	
Power plant:	
Operating limits.	
Fuel consumption.	
Accessories.	
Operating manual.	
Airplane specifications:	
Operational equipment.	
Flight controls, landing gear hydraulic system, electrical system, loading characteristics, fuel capacity heating and ventilating system, and de-icing equipment.	
Performance:	
Effect of weight, wind, air density, and runway surfaces on take-off performance of aircraft.	
Power setting and cockpit procedure.	
Types of cruise control.	
Communications	10
Students will be required to attain a speed in Morse Code of eight words per-minute.	
Radio-telephone rules and regulations.	
FCC rules and regulations.	
Communications—Continued	
Company communications:	
Air to ground radio communications and procedures.	
Point to point communications and procedures.	
Equipment air to ground and point to point.	
CAA Communications:	
Air to ground radio communications and procedures.	
Point to point communications and procedures.	
Equipment air to ground and point to point.	
Link Trainer	10
Instrument familiarization.	
Bracketing.	
Orientation.	
Holding procedure.	
Let-down procedure.	
Missed-approach procedure.	
Air Traffic Control	30
Air route traffic control procedures and equipment.	
Airport traffic control procedures and equipment.	
Practical Dispatching	15
Pre-flight:	
Safety.	
Economic advantage.	
Crew.	
Notams.	
The course and distance.	
Horizontal and vertical extent of the weather.	
Winds.	
Forecast.	
Minimum safe altitude.	
The cruising altitude.	
Flight plan.	
The alternate plan.	
Clearances, company air traffic control.	
The fuel.	
The load.	
The departure time.	
In-flight.	
Position report.	
Altimeter settings.	
Weather reports.	
Changes in forecast.	
Changing instrument altitude.	
Changing from VFR to IFR.	
Additional clearances.	
Emergency procedures.	
Post-flight.	
Arrival report.	
Differences between the forecasted and actual weather encountered for subsequent flights.	

(c) *Facilities, equipment, and material.* Applicant for authority to operate an approved aircraft dispatcher course of study shall have the following facilities, equipment, and materials:

(1) *Facilities.* Suitable classrooms, adequate to accomodate the largest number of students scheduled for attendance at any one time. Such classrooms shall be properly heated, lighted, and ventilated.

(2) *Equipment and materials.* Suitable devices for the teaching of simulated instrument flight, navigation, meteorology, and Morse Code, acceptable textbooks, operations manuals, wall maps, charts, blackboards, and visual aids of a quantity which will provide for each student the theoretical and practical aspects of aircraft dispatching.

(d) *Instructors.* (1) The number of instructors available for conducting the course of study shall be determined according to the needs and facilities of the applicant. However, the ratio of students per instructor shall not exceed 25 students for one instructor.

(2) At least one instructor who possesses a currently effective aircraft dispatcher certificate shall be available for coordination of the training course instruction.

(e) *Revision of training course.* Requests for revision of course outlines, facilities, and equipment shall be accomplished in the same manner established for securing approval of the original course of study. Revisions shall be submitted in such form that an entire page or pages of the approved outline can be removed and replaced by the revision.

The list of instructors may be revised at any time without request for approval, provided the minimum requirements are maintained and the local agent is notified.

(f) *Credit for previous experience or training.* A course operator may evaluate an entrant's previous experience or training and where the training or experience is provable and comparable to portions of the approved course curriculum, may, as each individual case warrants, allow credit for such, commensurate with accepted training practices. Where credit is allowed, the basis for allowance and the total hours credited shall be incorporated as a part of the student's records, provided for in paragraph (g) of this section.

(g) *Student records and reports.* Approval of a course shall not be continued in effect unless the course operator keeps an accurate record of each student, including a chronological log of all instructions, subjects covered, and course examinations and grades, and unless he prepares and transmits to the CAA not later than January 31 of each year, a report containing the following information:

(1) The names of all students graduated, together with school grades for aircraft dispatcher courses.

(2) The names of all students failed or dropped, together with school grades and reasons for dropping.

(h) *Quality of instruction.* Approval of a course shall not be continued in effect unless at least 80 percent of the students who apply within 90 days after graduation are able to qualify on the first attempt for certification as aircraft dispatchers.

(i) *Statement of graduation.* Each student who successfully completes the approved aircraft dispatcher course shall be given a statement of graduation. An acceptable statement of graduation is:

CIVIL AERONAUTICS ADMINISTRATION,
Washington 25, D. C.

GENTLEMEN: This is to certify that _____ on
(Name of graduate)
_____ successfully
(Date of graduation)
completed a course of training for aircraft dispatchers which is approved by the Administrator of Civil Aeronautics.

Signed _____
Title _____
School _____

(j) *Change of ownership, name, or location*—(1) *Change of ownership.* Approval of an aircraft dispatcher course

shall not be continued in effect after the course has changed ownership. The new owner must obtain a new approval by following the procedure prescribed for original approval.

(2) *Change in name.* An approved course changed in name but not changed in ownership shall remain valid if the change is reported by the approved course operator to the local agent who will issue a letter of approval under the new name.

(3) *Change in location.* An approved course shall remain in effect even though the approved course operator changes location if the change is reported without delay by the operator to the local agent who will inspect the facilities to be used in the new location and, if they are found to be adequate, issue a letter of approval showing the new location.

(k) *Cancellation of approval.* Failure to meet or maintain any of the standards set forth herein for the approval or operation of an approved aircraft dispatcher course shall be considered sufficient reason for discontinuing approval of the course.

If an operator desires voluntary cancellation of his approved course, a letter requesting cancellation shall be directed to the Administrator of Civil Aeronautics through the local agent.

(l) *Duration.* The authority to operate an approved aircraft dispatcher course of study shall expire twenty-four months after the last day of the month of issuance: *Provided*, That any such authorization which was granted prior to July 1, 1949, shall expire on July 31, 1951.

(m) *Renewal.* Application for renewal of an approved aircraft dispatcher course shall be made by letter addressed to the Administrator of Civil Aeronautics through the local Aviation Safety Agent at any time within sixty days of the expiration date. Renewal of approval will depend on the course operator's meeting the current conditions of course approval and having a satisfactory record as a course operator.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[14 CFR, Part 33]

FLIGHT RADIO OPERATOR CERTIFICATES

REQUIREMENTS FOR APPROVED FLIGHT RADIO OPERATOR COURSES

Notice is hereby given that amendment of § 33.31–2 published in 15 F. R. 5839 August 30, 1950, is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER. The context of the supplement will remain the same but the title will read: "§ 33.31–2 *Requirements for approved flight radio operator courses (CAA rules which apply to § 33.31 (b))*."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-6; Filed, Jan. 2, 1951; 8:46 a. m.]

[14 CFR, Part 34]

FLIGHT NAVIGATOR CERTIFICATES

REQUIREMENTS FOR APPROVED FLIGHT NAVIGATOR COURSES

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 34.6–1 *Requirements for approved flight navigator courses (CAA rules) which apply to § 34.6 (b))*—(a) *General.* A graduate of an approved flight navigator course is deemed to have met the minimum experience requirements for the flight navigator certificate. For this reason, it is essential that an approved course of training for flight navigators include sufficient coverage of the subject to insure the required minimum proficiency of applicants who apply for certification as graduates of an approved course.

(b) *Application for approval.* An agency or applicant desiring approval of a flight navigator course must submit to the local Aviation Safety District Office three copies of the course outline, a description of the facilities and equipment to be used, and a list of instructors with their qualifications, together with a letter to the Administrator requesting approval.

(c) *Training course outline*—(1) *Format.* The ground course outline and the flight course outline shall be combined in one loose-leaf binder and shall include a table of contents divided into two parts—ground course and flight course. Each part of the table of contents must contain a list of the major subjects, together with hours allotted to each subject and the total classroom and flight hours.

(2) *Ground course outline.* It is not mandatory that a course outline have the subject headings arranged exactly as listed in this subparagraph. Any arrangement of general headings and subheadings will be satisfactory provided all the subject material listed here is included and the acceptable minimum number of hours is assigned to each subject. Each general subject shall be broken down into detail showing items to be covered.

If any agency desires to include additional subjects in the ground training curriculum, such as international law, flight hygiene, or others which are not required, the hours allotted these additional subjects may not be included in the minimum classroom hours.

The following subjects with classroom hours are considered the minimum coverage for a ground training course for flight navigators:

Subject	*Classroom hours*
Civil Air Regulations	5
To include:	
Part 34.	
Part 40.	
Part 41.	
Part 42.	
Part 43.	
Part 60.	
Meteorology	40
To include:	
Basic weather principles.	
Temperature.	
Pressure.	
Winds.	
Moisture in the atmosphere.	
Stability.	
Clouds.	
Hazards.	
Air masses.	
Frontal weather.	
Fog.	
Thunderstorms.	
Icing.	
World weather and climate.	
Weather maps and weather reports.	
Forecasting.	
International Morse Code:	
Ability to receive code groups of letters and numerals at a speed of eight words per minute.	
Navigation Instruments (exclusive of radio and radar)	20
To include:	
Compasses.	
Pressure altimeters.	
Air-speed indicators.	
Driftmeters.	
Bearing indicators.	
Aircraft octants.	
Instrument calibration and alignment.	
Charts and Pilotage	15
To include:	
Chart projections.	
Chart symbols.	
Principles of pilotage.	
Dead Reckoning	30
To include:	
Air plot.	
Ground plot.	
Calculation of ETA.	
Vector analysis.	
Use of computer.	
Search.	
Absolute Altimeter with Applications	15
To include:	
Principles of construction.	
Operating instructions.	
Use of Bellamy's formula.	
Flight planning with average drift.	
Radio and Long Range Navigational Aids	35
To include:	
Principles of radio transmission and reception.	
Radio aids to navigation.	
Government publications.	
Airborne D/F equipment.	
Errors of radio bearings.	
Quadrantal correction.	
Plotting radio bearings.	
ICAO Q code for direction finding.	
Loran.	
Consol.	

Subject	*Classroom hours*
Celestial Navigation	150
To include:	
The solar system.	
The celestial sphere.	
The astronomical triangle.	
Theory of lines of position.	
Use of the American air almanac.	
Time and its applications.	
Navigation tables.	
Precomputation.	
Celestial line of position approach.	
Star identification.	
Corrections to celestial observations.	
Flight Planning and Cruise Control	25
To include:	
The flight plan.	
Fuel consumption charts.	
Methods of cruise control.	
Flight progress chart.	
Point-of-no-return.	
Equitime point.	
Long Range Flight Problems	15
Total (exclusive of final examinations)	350

(3) *Flight course outline.* A minimum of 150 hours of supervised flight training shall be given, of which at least 50 hours of flight training must be given at night, and celestial navigation must be used during flights which total at least 125 hours.

A maximum of 50 hours of the required flight training may be obtained in acceptable types of synthetic flight navigator training devices.

Training must be given in dead reckoning, pilotage, radio navigation, celestial navigation, and use of the absolute altimeter.

Flights should be at least four hours in length and should be conducted off civil airways. Some training on long range flights is desirable, but is not required. There is no limit to the number of students that may be trained on one flight, but at least one astrodome or one periscopic sextant mounting must be provided for each group of four students.

(d) *Equipment.* (1) Classroom equipment shall include one table at least 24" x 32" in dimensions for each student.

(2) Aircraft suitable for the flight training must be available to the approved course operator to insure that the flight training may be completed without undue delay. The approved course operator may contract or obtain written agreements with aircraft operators for the use of suitable aircraft. A copy of the contract or written agreement with an aircraft operator shall be attached to each of the three copies of the course outline submitted for approval. In all cases, the approved course operator is responsible for the nature and quality of instruction given during flight.

(e) *Instructors.* (1) Sufficient classroom instructors must be available to prevent an excessive ratio of students to instructors. Any ratio in excess of 20 to 1 will be considered unsatisfactory.

(2) At least one ground instructor must hold a valid flight navigator certificate, and be utilized to coordinate instruction of ground school subjects.

(3) Each instructor who conducts flight training must hold a valid flight navigator certificate.

(f) *Revision of training course.* Requests for revisions to course outlines, facilities, and equipment shall follow procedures for original approval of the course. Revisions should be submitted in such form that an entire page or pages of the approved outline can be removed and replaced by the revisions.

The list of instructors may be revised at any time without request for approval, provided the minimum requirement of paragraph (e) of this section is maintained.

(g) *Credit for previous training and experience.* Credit may be granted by an operator to students for previous training and experience which is probable and comparable to portions of the approved curriculum. When granting such credit, the approved course operator should be fully cognizant of the fact that he is responsible for the proficiency of his graduates in accordance with paragraph (i) of this section.

Where advanced credit is allowed, the operator shall evaluate the student's previous training and experience in accordance with the normal practices of accredited technical schools. Before credit is given for any ground school subject or portion thereof, the student must pass an appropriate examination given by the operator. The results of the examination, the basis for credit allowance, and the hours credited shall be incorporated as a part of the student's records.

(h) *Student records and reports.* Approval of a course shall not be continued in effect unless the course operator keeps an accurate record of each student, including a chronological log of all instruction, subjects covered, and course examinations and grades, and unless he prepares and transmits to the local Aviation Safety District Office not later than January 31 of each year, a report containing the following information:

(1) The names of all students graduated, together with their school grades for ground and flight subjects.

(2) The names of all students failed or dropped, together with their school grades and reasons for dropping.

(i) *Quality of instruction.* Approval of a course shall not be continued in effect unless at least 80 percent of the students who apply within 90 days after graduation are able to qualify on the first attempt for certification as flight navigators.

(j) *Statement of graduation.* Each student who successfully completes an approved flight navigator course shall be given a statement of graduation. An acceptable statement of graduation is:

CIVIL AERONAUTICS ADMINISTRATION,
Washington 25, D. C.

GENTLEMEN: This is to certify that _____ on _____
(Name of graduate)

_____ successfully
(Date of graduation)

completed a course of training for flight navigators which is approved by the Administrator of Civil Aeronautics.

Signed _____
Title _____
School _____

(k) *Change of ownership, name, or location*—(1) *Change of ownership.* Approval of a flight navigator course shall not be continued in effect after the course has changed ownership. The new owner must obtain a new approval by following the procedure prescribed for original approval.

(2) *Change in name.* An approved course changed in name but not changed in ownership shall remain valid if the change is reported by the approved course operator to the local Aviation Safety District Office. A letter of approval under the new name will be issued by the regional office.

(3) *Change in location.* An approved course shall remain in effect even though the approved course operator changes location if the change is reported without delay by the operator to the local Aviation Safety District Office, which will inspect the facilities to be used in the new location. If they are found to be adequate, a letter of approval showing the new location will be issued by the regional office.

(l) *Cancellation of approval.* Failure to meet or maintain any of the requirements set forth herein for the approval or operation of an approved flight navigator course shall be considered sufficient reason for cancellation of the approval.

If an operator should desire voluntary cancellation of his approved course, he should submit the effective letter of approval and a written request for cancellation to the Administrator of Civil Aeronautics through the local Aviation Safety District Office.

(m) *Duration.* The authority to operate an approved flight navigator course shall expire 24 months after the last day of the month of issuance: *Provided*, That any such authorization which was granted prior to July 1, 1949, shall expire on July 31, 1951.

(n) *Renewal.* Application for renewal of authority to operate an approved flight navigator course may be made by letter to the local Aviation Safety District Office at any time within 60 days prior to the expiration date. Renewal of approval will depend upon the course operator meeting the current conditions for approval and having a satisfactory record as an operator.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-7; Filed, Jan. 2, 1951; 8:46 a. m.]

[14 CFR, Part 35]

FLIGHT ENGINEER CERTIFICATES

REQUIREMENTS FOR APPROVED FLIGHT ENGINEER COURSES

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within

15 days after publication of this notice in the FEDERAL REGISTER.

§ 35.6–1 *Requirements for approved flight engineer courses. (CAA rules which apply to § 35.6 (d))*—(a) *General.* Section 35.6 provides that an applicant for a flight engineer certificate shall have met certain specified experience requirements or be a graduate of a flight engineer course approved by the Administrator.

Graduates of a flight engineer course approved by the Administrator are deemed to have met the experience requirements for the certificate. This means that they are accepted on equal terms with an applicant who has met the minimum experience requirements. For these reasons, it is essential that the requirements for approved flight engineer courses include adequate training facilities and sufficient coverage of the subject to insure acceptable proficiency of flight engineers who apply for certification as graduates of an approved course.

(b) *Training course outline and application for approval*—(1) *Application for approval.* The agency or applicant desiring approval of a flight engineer course must submit to the local CAA Aviation Safety District Office three copies of the course outline, a description of the facilities and equipment to be used, and a list of instructors with their qualifications, together with a letter to the Administrator requesting approval.

(2) *Training course outline.* It is not mandatory that the training course outline have the subject headings arranged exactly as listed in the following example. Any arrangement of general headings and subheadings will be satisfactory provided all the subject material listed here is included. Each general subject of the outline shall be broken down in detail showing items to be covered.

A complete and separate course outline is required for each type of aircraft (Lockheed Constellation, Douglas DC–4, Douglas DC–6, Boeing 307, Boeing 377, etc.) for which approval of flight engineer training is requested.

Additional subjects, such as international law, flight hygiene, radio repair, flight radio operation, flight navigation, or others not closely associated with flight engineering, may not be included in hourly requirements of the approved training outline. If an operator desires to add such subjects to a training course outline, they shall be separated from the required flight engineer subjects, and the time devoted thereto shall not be applied toward meeting the established time minimums.

(3) *Format of training outline.* The ground course outline and the flight course outline shall be combined in one loose-leaf binder and shall include a table of contents divided into two parts, ground course and flight course. Each part of the table of contents must contain a list of the major subjects, together with hours allotted to each subject and the total classroom and flight hours.

(4) *Ground course outline.* The following subjects and classroom hours are considered the minimum coverage for the ground training portion of the flight engineer course:

Subject	*Classroom hours*
Theory of Flight and Aerodynamics	10
Basic Maintenance of Aircraft	20
Aircraft structures.	
Aircraft systems.	
Aircraft powerplants.	
Servicing methods and precautions.	
Aircraft Familiarization	90
Specifications.	
Construction features.	
Flight controls.	
Hydraulic system.	
Electrical system.	
Anti-icing and de-icing systems.	
Heating, ventilating, and supercharging.	
Vacuum system.	
Pitot static system.	
Instrumentation.	
Fuel system.	
Emergency equipment.	
Aircraft maintenance.	
Engine Familiarization	45
Specifications.	
Construction features.	
Lubrication.	
Ignition.	
Carburetion and induction.	
Accessories.	
Propellers.	
Instrumentation.	
Emergency equipment	
Engine maintenance.	
Normal Operations (Ground and Flight)	50
Use and trouble shooting of all aircraft systems.	
Loading and C. G. computation.	
Use and trouble shooting of all engine systems.	
Cruise control.	
Power and fuel consumption computations.	
Meteorology applicable to engine operation.	
Emergency Operation	30
Use of portable fire extinguishers.	
Fuselage fire and smoke control.	
Engine fire control.	
Heating system fire control.	
Loss of engine power.	
Loss of hydraulic power.	
Loss of electrical power.	
Propeller feathering and unfeathering.	
Civil Air Regulations	5
Part 4.	
Part 18.	
Part 35.	
Part 41.	
Part 60.	
Part 61.	
Total Required Classroom Instruction Time:	250

Theory of Flight and Aerodynamics, Basic Maintenance of Aircraft, and Civil Air Regulations need not apply to any specific type of aircraft. The remaining major headings must apply to the same type aircraft in which the student receives the required minimum hours of flight training.

(5) *Flight course outline.* The following subjects and flight training hours are considered the minimum coverage for the flight training portion of the flight engineer course:

Subject
Normal Flight Duties and Operation:
Power control.
Power computation.
Temperature control.
Normal engine operation analysis.
Fuel system management.
Cabin pressure control.
Operation of all systems.
Long range operation.
Fuel consumption computation.
Recognition of Malfunctioning and Trouble Shooting:
Analysis of abnormal engine operation.
Analysis of trouble in all systems.
Temporary repairs.
Emergency Flight Duties and Operation:
Engine fire control.
Aircraft fire control.
Smoke control.
Loss of power in each system.
Gear and flap, extension, and retraction.
Propeller feathering and unfeathering.
Runaway propellers.

The minimum flight time shall be 25 hours.

The flight training curriculum must provide for the minimum of twenty-five hours of flight instruction in a specified type of aircraft having four engines or more. If a student is to receive flight training in more than one type aircraft, the flight time in one can not be applied to the flight time in another for the purpose of obtaining the required maximum.

To obtain credit for flight instruction time, the student must occupy the seat provided for the regular flight engineer on the aircraft being flown and must operate the controls in a manner which will provide experience in the subjects listed in the flight course outline. Student observation of another crew member or another student performing such duties or operations is not considered adequate training.

Only one student may be credited with flight time during any one period of flight. If two or more students are carried on the same flight, each student shall be credited only with the flight time he has actually spent at the controls under the direction of a qualified instructor.

A maximum of twelve and one-half hours of the required flight training may be obtained in acceptable types of synthetic training devices. To be acceptable, the synthetic flight training device must closely resemble the flight engineer station of the airplane in which the flight training will be given. Such resemblance need not include external similarity between the trainer and the airplane; however, the flight engineer station, controls, and instrumentation should be installed in such a manner that the student will not require extensive familiarization upon entering the actual airplane.

Synthetic flight training devices must include the following instrumentation and equipment:

(i) All engine instruments and engine controls which are normally carried in the aircraft.

(ii) All instruments and controls required for operation of the aircraft systems, including electrical system, hydraulic system, vacuum system, and air pressure system (flight controls excepted).

(iii) An altimeter, and air-speed indicator, a rate of climb indicator, an outside air temperature gauge, and a clock.

(iv) Cabin supercharger controls and instruments identical to those used in the type of aircraft concerned.

The instruments must be coupled to the various controls in such a manner that all instruments will respond automatically and normally to adjustment of pertinent controls.

A method shall be provided to separately control each instrument in order to present indications of malfunctioning to the student.

(c) *Equipment.* (1) Classroom equipment shall include wall charts for each general system of the aircraft and its power plants.

(2) Aircraft suitable for the flight training must be available to the approved course operator to insure that the flight training may be completed without undue delay. The approved course operator may contract or obtain written agreements with aircraft operators for the use of suitable aircraft. A copy of the contract or written agreement with an aircraft operator shall be attached to each of the three copies of the course outline submitted for approval. In all cases, the approved course operator is responsible for the nature and quality of instructions given during flight.

(d) *Instructors.* (1) Sufficient classroom instructors must be available to prevent an excessive ratio of students to instructors. Any ratio in excess of 25 to 1 will be considered unsatisfactory.

(2) At least one instructor who possesses a valid flight engineer certificate must be available for coordination of ground course instruction.

(3) Instructors who conduct flight training must possess valid flight engineer certificates.

(e) *Revision of training course.* Requests for revisions to course outline, facilities, and equipment shall follow procedures for original approval of the course. Revisions should be submitted in such form that an entire page or pages of the approved outline can be removed and replaced by the revisions.

The list of instructors may be revised at any time without request for approval, provided the minimum requirement of paragraph (d) of this section is maintained.

(f) *Credit for previous training and experience.* Credit may be granted by an operator to students for previous training and experience which is provable and comparable to portions of the approved curriculum. When granting such credit, the approved course operator should be fully cognizant of the fact that he is responsible for the proficiency of his graduates in accordance with paragraph (h) of this section.

Where advanced credit is allowed, the operator shall evaluate the student's previous training and experience in accordance with the normal practices of accredited technical schools. Before credit is given for any ground school subject or portion thereof, the student must pass an appropriate examination given by the operator. The results of the examination, a summary of the experience or training used as a basis for credit allowance, and the hours credited shall be incorporated as a part of the student's records.

(g) *Student records and reports.* Approval of a course shall not be continued in effect unless the course operator keeps an accurate record of each student, including a chronological log of all instruction, attendance, subjects covered, credits granted, examinations and examination grades, and unless he prepares and transmits to the Civil Aeronautics Administration not later than January 31 of each year a report containing the following information:

(1) The names of all students graduated and date of graduation.

(2) The ground course grades of each student.

(3) The flight course grades of each student.

(4) The total ground course hours for each student.

(5) The total flight instruction time for each student.

(6) The names of all students failed or dropped, together with dates, school grades, and reasons for dropping.

(h) *Quality of instruction.* The quality of instruction shall be such that at least eighty per cent of the students who apply within ninety days after graduation will be able to qualify on the first attempt for certification as flight engineer.

(i) *Statement of graduation.* Each student who successfully completes the approved flight engineer course shall be given a statement of graduation. An acceptable statement of graduation is:

CIVIL AERONAUTICS ADMINISTRATION,
Washington 25, D. C.

GENTLEMEN: This is to certify that _____ (Name of graduate) on _____ (Date of graduation) successfully completed a course of training for flight engineers which is approved by the Administrator of Civil Aeronautics.

Signed _____
Title _____
School _____

(j) *Cancellation of approval.* The failure to meet or maintain any of the requirements established herein for the approval and operation of an approved course of study shall be considered sufficient grounds for cancellation of the approval to operate an approved course of study.

If an approved course operator should desire voluntary cancellation of the course of study, he should submit a letter to the Administrator of Civil Aeronautics through the local agent requesting cancellation and surrendering his letter of approval.

(k) *Change of ownership, name, or location*—(1) *Change of ownership.* Approval of a flight engineer course shall not be continued in effect after the course has changed ownership. The new owner must obtain a new approval by following the procedure prescribed for original approval.

(2) *Change of name or location.* Approval of a flight engineer course shall not be continued in effect when there is a change in name or location of an approved course operation by the same owner, unless the change in name or location is reported immediately by the owner to the local Aviation Safety office and the standards established in this manual are maintained, in which case a letter of approval showing the new name or location will be issued to the operator.

(l) *Duration.* The authority to operate an approved flight engineer training course shall expire twenty-four months after the last day of the month of issuance: *Provided*, That any such authorization granted prior to July 1, 1949, shall expire on July 31, 1951.

(m) *Renewal.* Application for renewal of an approved flight engineer training course may be made by letter to the Administrator through the local Aviation Safety Agent at any time within sixty days prior to the expiration date. Renewal of approval will depend upon the course operator meeting the current conditions for approval and having a satisfactory record as an operator.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[14 CFR, Parts 40, 41, 44]

AIR CARRIER OPERATING CERTIFICATION; CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES; FOREIGN AIR CARRIER REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 40.191–1 *Application for air carrier operating certificate (CAA rules which apply to § 40.191 (a))*—(a) *General.* The holder of a certificate of convenience and necessity will apply to the Administrator for an air carrier operating certificate at least 30 days prior to the date proposed for beginning scheduled air carrier operations within the continental limits of the United States. The application will be prepared in loose-leaf form, on white paper of approximately 8'' x 10½'' in size, and using one side of the sheet only. The application will be executed by a duly authorized officer or employee of the applicant having knowledge of the matters set forth therein, and will have attached thereto two copies of the appropriate written authority issued to such officer or employee by the applicant.

A minimum of two copies of the application, and of subsequent amendments thereto, will be filed with the Regional Administrator having jurisdiction over the area in which the principal office of the air carrier is located. When any facility or service directly affecting the operation of the air carrier concerned is furnished by other than the applicant or the Federal Government, at least two copies of the contract or working agreement concerning such facilities or service will be submitted with the application. In this connection, if formal

contracts covering such facilities or service have not been completed, letters showing agreement between the contracting parties will be accepted until copies of the formal contract are obtainable.

(b) *Format of application.* The outline below will be followed in completing the information to be submitted in the application:

APPLICATION FOR AIR CARRIER OPERATING CERTIFICATE

(Outline)

To: *The Civil Aeronautics Administration, Washington, D. C.*

In accordance with Section 604 of the Civil Aeronautics Act of 1938, as amended, and the Civil Air Regulations, application is hereby made for an Air Carrier Operating Certificate.

Give exact name and full post office address of applicant.

Give the name, title and post office address of the official or employee to whom correspondence in regard to the application is to be addressed.

SECTION I. *Operations.* A. State whether the type of service proposed is for the carriage of passengers, goods, or mail, or a particular combination thereof. If the type of service is not the same for each route or portion thereof, specify the type of service for each route or portion of a route.

B. State whether the type of operation proposed is day or night, visual contact, instrument or over-the-top, or a particular combination thereof. If the type of operation is not the same for each route or portion thereof, specify the type of operation for each route or portion of a route.

SEC. II. *Schedule.* A. Submit a proposed schedule plan (or plans if seasonal changes or differences in equipment are involved) indicating the following:

1. Block to block time and mileage between scheduled stops.
2. Ground time at each intermediate and terminal stop.

B. Specify the basis upon which the proposed schedule has been computed, indicating the following:

1. Cruising speed and altitude.
2. Percentage of horsepower.
3. Direction and velocity of prevailing winds.

SEC. III. *Route.* A. Submit a map suitable for aerial navigation on which are shown the *exact* geographical track of the proposed regular and alternate routes, and information with respect to terminal and intermediate stops, available landing areas, and radio navigational facilities. This material will be indicated in the following manner:

1. Regular routes: Black.
2. Alternate routes: Green.
3. Terminal and regular intermediate stops: Orange circle.
4. Alternate landing fields or areas: Purple circle.
5. Other available landing fields or areas: Yellow circle.
6. Indicate the location and normal operating range of all radio navigational facilities to be used in connection with the proposed operation as follows:

a. Show the projected courses of radio range stations by shaded red areas extended the distance of normal expected usability.

b. Show omni-directional radio facilities by a shaded red circle extended the distance of normal expected usability.

B. *Airports.* Furnish the following information with regard to each regular, alternate, refueling, and provisional airport to be used in the conduct of the proposed operation.

1. Name (if any) of airport.
2. Location (by coordinates, and by name of nearest city or town, and direction and distance thereto).
3. Class of airport or landing area (municipal, commercial, military, private, or marked auxiliary).
4. Altitude above sea level.
5. Dimensions in linear feet of landing space available.
6. If hard-surfaced runways are provided, give number, direction, length and width of each and indicate type of surfacing.
7. Obstructions (list adjacent obstructions, giving height and location, or attach appropriate C. G. A. L. charts if available).
8. Airport lighting (include beacon, auxiliary beacon, boundary lights, floodlights, etc., and any emergency lighting equipment; and by whom operated).
9. List refueling facilities available.
10. Is airport control tower provided and by whom?
11. Itemize radio navigational facilities provided and indicate the operating agency.
12. Does runway gradient exceed 2%? If so, state gradient.
13. What provisions are made for protection of passengers during loading and unloading at scheduled stop airports?
14. Prevailing winds?
15. Where necessary, are adequate snow removal facilities available?

C. *Weather reporting.* 1. Outline the weather service proposed to be used for dispatching over each regular and alternate route; the source; location and agency in control of stations furnishing reports for each service; the frequency and method of collection and dissemination of weather information. Outline available terminal and route forecasting services, the type of maps and the intervals at which they are made each day.

2. Where it has been determined that additional weather reporting services will be required of the U. S. Weather Bureau for the type of operation involved, the air carrier will apply in writing to the appropriate Weather Bureau Regional Office. The request for the weather reporting services considered essential should be made coincidental with this application to the Civil Aeronautics Administration.

3. For operation within the continental limits of the United States, if other than a U. S. Weather Bureau Station, show proof of U. S. Weather Bureau approval of the service and specify the meteorological facilities available, the number of personnel and the duties of each, such as the making of weather maps, forecasts, observations, etc.

D. *Airway lighting.* List in detail all airway lighting on the regular and alternate routes other than those airway lighting facilities owned and operated by the Civil Aeronautics Administration if application includes request for night VFR operation.

SEC. IV. *Radio Facilities*—A. *Communications.* List company radio ground communication facilities installed, proposed to be installed, and those available to, but not owned by applicant, for each regular and alternate route. The expected communication coverage of all MF and HF ground facilities should be provided in map form. In the case of VHF, the expected coverage at exemplary altitudes should be outlined. Aircraft reporting and general change points, and frequencies should be specified either on the maps or as an attachment. (If owned by other than applicant, attach 2 certified copies of operating agreement.) List the following details for each station:

Transmitters. List the following information in regard to each transmitter:

1. Make and model number.
2. Remotely or locally controlled.
3. Types of emission and antenna power for each type of emission.
4. Number of frequency channels provided and actual frequencies in kilocycles proposed to be used.
5. Method of frequency change (quick shift or manual tuning).
6. Primary power source, voltage, phase, etc. and whether commercial source or locally generated.
7. Auxiliary power source.
8. Functional purpose of transmitter. If transmitter is used for more than one function, list in order of primary and secondary functions as—

a. Radiotelephone plane to ground primary purpose and radiotelephone point to point secondary purpose, or

b. Radiotelephone point to point primary purpose and standby radiotelephone plane to ground secondary purpose, etc.

Receivers. 1. List each receiver by type or model number and state its primary function, i. e., plane-to-ground guard, point-to-point C. W. or point-to-point radiotelephony.

2. List frequency range of each receiver and state which frequencies in each receiver are crystal controlled, if any.

3. Describe receiver installation to show number of receivers locally controlled and number remotely controlled.

B. *Radio navigational facilities.* List each ground radio navigational facility, other than those operated by the United States Government, to be used in the conduct of the proposed operations (if privately owned ground radio navigational facilities are to be used and are owned by other than the applicant, attach 2 certificated copies of the operating agreement pertaining to the use of such facilities). List the following information with respect to each facility:

1. Type of facility, i. e., ILS, GCA, Non-Directional Radio Beacon, L. F. Radio Range, VAR, VOR, Loran, Consol, etc.
2. Estimated effective range (in miles).
3. Coordinates and location with respect to field or landing area.
4. Power supply, i. e., commercial or locally generated.
5. Auxiliary power supply.
6. Operating frequency or frequencies.

C. *Aircraft radio equipment.* List and describe the aircraft radio equipment installed in each aircraft by:

1. Type number.
2. Manufacturer.
3. Frequency range.
4. Operating frequencies.
5. Emergency power supply.
6. Antenna system.

SEC. V. *Weather minimums.* A. Submit in detail the proposed ceiling and visibility limitations for take-off for instrument flight and let-down-through at each regular, alternate, refueling, and provisional airport. Differentiate between daylight and darkness in the listing, and where more than one type of aircraft is to be utilized, and a differential of limitations exists, indicate proposed limitations for each type of aircraft.

B. Submit for each proposed scheduled stop and alternate airport a detailed flight procedure for instrument approach and let-down-through and where specific procedures are necessary because of terrain or traffic conditions, submit a detailed flight procedure for take-off and climb (such procedure should be set up on the basis of the ceiling and visibility minimums proposed).

SEC. VI. *Aircraft.* A. List the following information, if required, for each aircraft to be used in the proposed operations:

1. The name of the manufacturer.
2. Manufacturer's model number.
3. Name of the manufacturer and type number of engines.
4. Name of manufacturer and type number of propellers.
5. NC registration number and aircraft designation.
6. Type of service in which aircraft will be used (carriage of persons, property, mail, or combination thereof).
7. Will aircraft be used in regular or reserve service?
8. What type of operation (day, night, visual-contact, instrument, over-the-top) will be conducted with this aircraft?
9. List each route or portion thereof over which this aircraft is to be operated and the maximum gross weight proposed for each route or portion thereof.
10. What is the service ceiling of each type aircraft with one engine inoperative?
11. List and describe installation and location of all lifesaving equipment and emergency supplies carried aboard each aircraft, such as life rafts, life preservers, portable emergency transmitters, Very pistols and emergency rations. (If the same equipment is not carried during all seasons of the year, and on all routes, list and explain the difference.)

SEC. VII. *Maintenance: Aircraft, engines, and accessories.* A. Furnish an organization chart indicating the authority and the duties of the maintenance and inspection personnel employed by the applicant.

B. Furnish an outline of overhaul, inspection and check periods applicable to each component of the aircraft. The breakdown of such components should follow the main headings shown below and should indicate the time limitations applicable to the assembly listed. The overhaul periods assigned to the major divisions shall apply to all related components. Any component of a division having an overhaul period different from the major division shall be individually listed. If more than one make, type and model aircraft is used, indicate separately.

1. Engines and propellers.
2. Aircraft.
3. Instruments.
4. Radio equipment.

When maintenance functions are performed by outside agencies, copies of the maintenance agreement regarding the extent of such services to be furnished should be attached to the application, as provided for in the second paragraph of 40.191–1 (a). The agreement should specify that services furnished should conform to the standards approved for the operator, and does not release the operator from responsibility for airworthiness of the aircraft or components.

C. Indicate type of maintenance operations that will be accomplished at each terminal and aircraft layover point relative to the following:

1. Disassembly and overhaul of engines and propellers, aircraft, instruments and radio equipment.
2. Periodic inspection and check of engines and propellers, aircraft, instruments and radio equipment.
3. Routine inspection of engines and propellers, aircraft, instruments and radio equipment.
4. Refueling.

D. Indicate the number of certificated, non-certificated mechanics, and helpers, etc., including their company designation (foreman, inspectors, crew chiefs, etc.) located at the main overhaul base and each terminal and intermediate stop.

E. Indicate the distribution of the following items of spare equipment:

1. Aircraft (list make and model).
2. Engines (list make and model).
3. Propellers (list make and model).
4. Instruments (list make and model).
5. Radio equipment (list make and model).

F. For each terminal, and intermediate stop at which refueling operation will be performed, describe the following:

1. Number, type (elevated or underground) and capacity of each fuel and oil storage tank.
2. List octane ratings of fuels available.
3. List S. A. E. rating or viscosity of oil available.
4. List facilities for preventing entrance of water into aircraft fuel tanks.
5. Outline method used to check for presence of water in storage tanks.
6. List facilities or method used to remove water from the storage tanks.
7. Outline method and procedure with reference to recording water checks.
8. Type of covered container used to convoy oil from storage tank to aircraft.
9. Outline method and procedure of grounding aircraft in protection from fire.

G. For each terminal and intermediate stop, describe the following facilities:

1. Hangars.
a. Number.
b. Dimensions and number of square feet available for aircraft storage.
c. Dimensions and number of square feet available for shop space.
d. Dimensions of hangar doors.
e. Number of largest sized aircraft of applicant which may be housed.
2. Equipment for ground handling of aircraft as may be required for the proposed operation.

SEC. VIII. *Airmen.* Indicate the composition of the Flight Crew. If the composition is different in different aircraft or on different routes, so indicate and show the composition of the Flight crew under each different condition. List the following information with respect to the airmen to be employed in the proposed operation:

1. Show the number of first, second, third, etc., pilots to be employed in the proposed operation, and specify the certificate and ratings to be held by each.
2. Show the number of pilots for whom designation "check pilot" will be requested, and specify the certificate and ratings to be held by each.
3. Show the number of flight engineers to be employed in the proposed operation.
4. Show the number of flight radio operators to be employed in the proposed operation.
5. Show the number of flight navigators to be employed in the proposed operation.
6. Show the number of dispatchers to be employed in the proposed operation.

SEC. IX. *Additional data.* A. Furnish such additional information and substantiating data as may serve to implement this application.

Each application shall be concluded with a statement as follows:

I certify that the above statements are true.

Signed this ------ day of ----------, 19-----.

(Name of applicant)

By ----------
(Name and capacity of person duly authorized to execute this application on behalf of the applicant)

§ 40.197–1 *Amendment of air carrier operating certificate (CAA rules which apply to § 40.197).* In general, the only procedure by which an air carrier operating certificate and operations specifications can be changed is through amendment. These amendments do not alter in any manner the basic authority of the air carrier to conduct scheduled operations along its approved routes, using the regular airports for which it has a Certificate of Convenience and Necessity issued by the Civil Aeronautics Board.

From time to time, the air carrier may desire to apply for an amendment to his operating certificate for such reasons as: The addition or deletion of an airport, revision of landing or take-off minimums, changes in approach procedures, minor route revisions, etc. These amendments will be applied for on the appropriate forms furnished by the Administrator. Applications for such amendments will be submitted to the local Aviation Safety Agent, Operations, responsible for the air carrier operating certificate.

Amendments concerning revision of maintenance time limitations, and deletion or addition of aircraft will be submitted to the local Aviation Safety Agent, Maintenance, assigned to the air carrier.

Details with respect to applications for amendment, number of copies, etc., will be furnished by the local Aviation Safety Agent concerned.

Amendments to the air carrier operating certificate and the operations specifications are usually initiated by the air carrier. However, if the Administrator considers that the need for an amendment is essential for safe operations, and no application has been received from the air carrier, Civil Aeronautics Administration personnel authorized to approve any portion of their operating certificate or operations specifications issued thereunder, shall notify the air carrier that an application for such an amendment should be made. This notification shall include full particulars regarding the need for the amendment.

An application to amend an air carrier operating certificate for a new route extension, which has been authorized in a Certificate of Convenience and Necessity, or a new type aircraft to be used, will be submitted at least fifteen (15) days prior to the proposed date for inauguration of service. The application for such an amendment will be executed in accordance with the applicable provisions of § 40.191–1.

§ 41.1–2 *Application for air carrier operating certificate (CAA rules which apply to § 41.1).* Application for an air carrier operating certificate to conduct scheduled air carrier operations beyond the continental limits of the United States, and an application for an amendment to such a certificate, will be executed and submitted in the form and manner prescribed in the rules set forth in §§ 40.191–1 and 40–197–1 of this chapter with the following exception:

When the principal office of the air carrier is not located within the jurisdictional area of the regional Administrator of one of the numbered regions, the application will be submitted either to the International Field Office having jurisdiction over the area in which the principal office of the air carrier is located, or directly to the Regional Administrator, International Region, Washington, D. C.

§ 44.2–1 *Application for operations specifications by foreign air carriers (CAA rules which apply to § 44.2)—(a) General.* A foreign air carrier holding a permit issued by the Board pursuant to section 402 of the Civil Aeronautics Act of 1938, as amended, will apply to the Administrator for operations specifications at least 30 days prior to the date proposed for beginning scheduled or irregular operations within the continental limits of the United States, or into any outlying territories under its jurisdiction (including the Canal Zone). The application will be prepared in loose-

leaf form, on white paper of approximately 8" x 10½" in size, and using one side of the sheet only. The application will be executed by a duly authorized officer or employee of the applicant having knowledge of the matter set forth therein, and will have attached thereto 2 copies of the appropriate written authority issued to such officer or employee by the applicant. A minimum of 2 copies of the application, and of subsequent amendments thereto, will be filed with the International District or Field Office in the area wherein the principal office of the air carrier is located, or with the Regional Administrator having jurisdiction over the area to be served by the operation.

When any service or facility, such as ground radio communications facilities, to be used by the applicant in the conduct of the proposed operations within a jurisdictional area of the United States or over that portion of the route between the last point of foreign departure and a jurisdictional area of the United States is furnished by an agency under contract, at least 2 copies of the operating agreement will be submitted with the application. If, however, formal contracts covering the use of such service or facility have not been completed, letters showing agreement between the contracting parties will be accepted until the formal contracts have been negotiated.

When a military airport of the United States Government is to be used as a regular, alternate, refueling or provisional airport, the applicant will secure written permission for such use from the Washington headquarters of the military organization having jurisdiction over the airport, and 2 copies of the written permission will be submitted with the application. Negotiations for permission of the military authorities will be effected through the respective embassy of the foreign government and the United States Department of State.

(b) *Format of application.* The attached outline will be followed in completing the information to be submitted in the application.

APPLICATION FOR FOREIGN AIR CARRIER OPERATIONS SPECIFICATIONS

(Outline)

To: *The Civil Aeronautics Administration, Washington, D. C.*

In accordance with the Civil Aeronautics Act of 1938, as amended, and particularly section 402 thereof and Part 44 of the Civil Air Regulations, application is hereby made for the issuance of Foreign Operations Specifications.

Give exact name and full post office address of applicant.

Give the name, title, and post office address (within the United States if possible) of the official or employee to whom correspondence in regard to the application is to be addressed.

Unless otherwise specified, the applicant shall submit the information hereinafter required only with respect to that portion or portions of his proposed operations which will lie within the United States.

SECTION I. *Operations.* A. State whether the type of service proposed is for the carriage of passengers, goods, or mail, or a particular combination thereof.

B. State whether the type of operation proposed is day or night, visual contact, instrument, or a particular combination thereof.

SEC. II. *Operational plans.* A. Submit a proposed plan (or plans if seasonal changes or differences in equipment are involved) indicating the following:

1. Block to block time and mileage between stops in accordance with the following: Name last point of foreign departure and give block to block time to the first point of arrival within the United States.

2. Indicate the route by which entry will be made into the United States, and the route to be flown therein.

B. Specify the basis upon which the proposed plan has been computed between the last point of departure from a foreign country to the regular terminal airport within the United States, indicating the following: Average cruising speed and autitude.

SEC. III. *Route.* A. Submit a map suitable for aerial navigation upon which is indicated the exact geographical track of the proposed route from the last point of foreign departure to the United States terminal, showing the regular terminal, and alternate airports, and radio navigational facilities as prescribed below:

1. Regular route: Black.
2. Regular terminal airport: Green circle.
3. Alternate airports: Orange circle.

4. The location of radio navigational facilities which will be used in connection with the proposed operation, indicating whether the facility is a radio range or ground radio aerophare.

B. *Airports.* Furnish the following information with regard to each regular terminal and alternate to be used in the conduct of the proposed operation:

1. Name of airport or landing area.
2. Location (direction and distance to and name of nearest city or town).
3. List refueling facilities to be used.

SEC. IV. *Radio facilities*—A. *Communications.* List all ground radio communication facilities to be used by the applicant in the conduct of the proposed operations within the United States and over that portion of the route between the last point of foreign departure and the United States. If these services are rendered by an agency under contract, a copy of the operating agreement must be furnished.

SEC. V. *Aircraft.* Furnish the following information in regard to each type and model aircraft to be used:

A. *Aircraft.* 1. Manufacturer and model number.

2. State of origin.

3. Type of construction (metal, fabric, wood).

4. Single-engine or multi-engine. If multi-engine, indicate number of engines.

5. What is the maximum take-off and landing weight to be used for each type aircraft?

6. Are these weights within that authorized by the state of origin for the operation proposed?

7. What is the runway distance in feet necessary for take-off with maximum gross weight at sea level airports?

B. *Engines.* Furnish the following information in regard to each type and model engine to be used:

1. Engine manufacturer and model.
2. Rated horsepower of each engine.

C. *Licensing.* State name of country by whom the aircraft are certificated.

SEC. VI. *Airmen.* List the following information with respect to airmen to be employed in the proposed operation within the United States.

A. Indicate the number of crew members and their assignments for each type of aircraft to be employed in the proposed operation and state the type and class of certificate held by each.

B. State whether or not pilot personnel have received training in radio range navigational procedures and are qualified to use such procedures in connection with the conduct of instrument operations.

C. State whether or not personnel are familiar with those parts of the Civil Air Regulations pertaining to the conduct of air carrier operations within the United States.

D. Are pilot personnel able to speak and understand the English language to a degree necessary to enable them to properly communicate with Airport Traffic Control Towers and Airway Radio Communications Stations using radiotelephone communications?

SEC. VII. *Dispatchers.* A. Describe briefly the dispatch organization which you propose to set up for air carrier operations within the United States.

B. State whether or not the dispatching personnel are familiar with the rules and regulations prescribed by the Civil Air Regulations governing air carrier operations.

C. Are dispatching personnel able to read and write the English language to a degree necessary to properly dispatch flights within the United States?

D. Are dispatching personnel certificated by the country of origin?

SEC. VIII. *Additional data.* A. Furnish such additional information and substantiating data as may serve to expedite the issuance of the operations specifications.

B. Each application shall be concluded with a statement as follows:

I certify that the above statements are true.

Signed this _____ day of _____ 19___.

_____
(Name of Applicant)

By _____
(Name of person duly authorized to execute this application on behalf of the applicant)

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 608, 52 Stat. 1007, 1010, 1011; 49 U. S. C. 551, 554, 558)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[14 CFR, Part 60]

AIR TRAFFIC RULES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that adoption of the following rules is contemplated. All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 60.46–1 *Introduction (CAA rules which apply to § 60.46)*—(a) *Persons to whom applicable.* The following standard instrument approach procedures (including ceiling and visibility minimums for take-off and landing at particular airports) shall be identical for all users, with the following exceptions: The minimums for take-off and landing shall not apply to (1) military aircraft, or (2) users for whom the Administrator has specifically authorized lower minimums. The minimums for take-offs shall not apply to those users for whom the Administrator has not been authorized to prescribe take-off minimums.

(b) *Use of additional data.* Because of the rugged terrain adjacent to many airports, the Coast and Geodetic Survey Charts, especially the Approach and Landing Charts, covering the area where an instrument letdown is proposed, should be carefully studied before an approach is made.

(c) *Revisions of procedures.* Revisions of, or additions to these procedures will be published in the FEDERAL REGISTER and Code of Federal Regulations, and may appear in the Airman's Guide and Flight Information Manual.

(d) *Use of radio range requiring flight check.* When a flight check of a radio facility is required, a NOTAM will be issued stating: "Ground checked only, awaiting flight check." When this type of NOTAM is issued, the following rule will apply:

(1) If the facility is very high frequency, no utilization shall be authorized.

(2) If the facility is low frequency, no range approach shall be executed, but the facility may be used for en route or holding procedures.

(3) In addition, the facility may be used as an ADF approach aid by scheduled air carriers, provided that their operations specification authorizes an ADF instrument approach to the airport concerned.

(ii) Irregular air carriers and other operators may use the facility as an ADF instrument approach aid if an ADF procedure for the airport concerned is prescribed by the Administrator, or if an approach is conducted using the same course for an ADF track as that specified in the approved range procedure and with identical altitudes as used in the range approach.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601; 52 Stat. 1007; 49 U. S. C. 551)

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-3; Filed, Jan. 2, 1951; 8:45 a. m.]

[14 CFR, Part 506]

AIRWORTHINESS DIRECTIVES RECORDATION

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that adoption of the following new part is contemplated. All interested persons who desire to submit written data, views, or arguments for consideration by the Administrator of Civil Aeronautics in connection with the proposed new part shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 506.1 *Basis and purpose.* The basis for this part is found in section 503 (g) of the Civil Aeronautics Act of 1938, as amended. The purpose of the regulations in this part is to require recordation of the extent of compliance and noncompliance with all outstanding airworthiness directives applicable to an aircraft or to major components thereof.

§ 506.2 *Requirements.* When the date of transfer of ownership of an aircraft precedes the final date for compliance with any published airworthiness directives applicable to that aircraft or a major component thereof, the owner, prior to the transfer of ownership, shall record in the appropriate logbook, or other historical record, the extent of his compliance and noncompliance with those directives.

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

INTERSTATE COMMERCE COMMISSION

[49 CFR, Parts 190–197]

SAFETY REGULATIONS

NOTICE OF PROPOSED RULE MAKING

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 6th day of November A. D. 1950.

In the matter of qualifications and maximum hours of service of employees of motor carriers and safety of operations and equipment, Ex Parte No. MC–40; in the matter of maximum hours of service of motor carrier employees, Ex Parte No. MC–2; in the matter of establishing reasonable requirements to promote safety of operation of motor vehicles used in transporting property by private carriers, Ex Parte No. MC–3; qualifications of employees and safety of operation and equipment of common carriers and contract carriers by motor vehicle, Ex Parte No. MC–4.

It appearing, that by order of December 9, 1946 (11 F. R. 14328, 14337), an investigation was instituted in this proceeding for the purpose of (a) determining whether the safety of operations of motor vehicles in interstate or foreign commerce and the public interest would be enhanced by a revision of the rules embraced in Parts 1 to 7, inclusive, of the Motor Carrier Safety Regulations, Revised (49 CFR, 190–197), or in other respects; and (b) of making such revision and such additions to such regulations as appear desirable and proper;

It further appearing, that in the said order of December 9, 1946, the Director of the Bureau of Motor Carriers of this Commission was authorized and directed to prepare, or cause to be prepared, a proposed revision of the said regulations; to conduct informal conferences with representatives of parties in interest for the purpose of discussing proposed rules; to solicit and obtain the aid of Federal and State agencies, technical societies or associations, or other experts, as may be desirable in the proper performance of those duties; to do such other things as may be essential to such performance; and to file with the Commission a report of such action with recommendations as to the time, place, and extent of such hearings to be thereafter scheduled;

And it further appearing, that recommendations have been received and conferences conducted on the matter, among others, of the need for revision of the rules embraced in Parts 0 to 3, inclusive, and Parts 5 and 6 of the said Motor Carrier Safety Regulations, Revised; and that the Director of the Bureau of Motor Carriers has proposed revisions in certain of the said rules as set forth in the appendix hereto;

It is ordered, That interested persons may, on or before December 29, 1950, submit written data, verified under oath by a person having knowledge of such data, views, or arguments; and thereafter consideration will be given to the proposed revisions in the light of the data, views, and arguments which may be submitted;

It is further ordered, That the written data, views, and argument of interested persons be confined to the rules included in the said appendix; and that one signed copy and fourteen additional copies of such data, views, or arguments be furnished for the use of the Commission by mailing them to the Secretary of the Interstate Commerce Commission, Washington, D. C.;

And it is further ordered, That notice of this order be given to motor carriers and other parties in interest and to the general public by depositing a copy thereof in the Office of the Secretary of the Interstate Commerce Commission in Washington, D. C., and by filing a copy with the Director, Division of the FEDERAL REGISTER.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

PROPOSED REVISION OF GENERAL DEFINITIONS

Title of this part will be changed to read "General".

0.01 The term "motor vehicle" means any vehicle, machine, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used upon the highways in the transportation of passengers or property, or any combination thereof determined by the Commission, but does not include any vehicle, locomotive, or car operated exclusively on a rail or rails, or a trolley bus operated by electric power derived from a fixed overhead wire, furnishing local passenger transportation similar to street-railway service.

0.03 The term "bus" means any motor vehicle designed, constructed, and used for the transportation of passengers; including taxicabs.

0.04 The term "truck" means any self-propelled motor vehicle except a truck tractor, designed and used, or exclusively used whether or not so designed, for the transportation of property.

0.05 The term "truck tractor" means any self-propelled motor vehicle used for the drawing or towing of a semitrailer.

0.06 The term "semitrailer" means any motor vehicle other than a "pole trailer," with or without motive power, designed to be drawn by another motor vehicle and so constructed that some

part of its weight rests upon the towing vehicle.

0.07 The term "full trailer" means any motor vehicle, with or without motive power, other than a "pole trailer," designed to be drawn by another motor vehicle and so constructed that no part of its weight except the towing device rests upon the towing vehicle. A semi-trailer equipped with an auxiliary front axle (dolly) shall be deemed to be a "full trailer."

0.09 The term "drive-away operation" means any operation in which any motor vehicle or motor vehicles, new or used, constitute the commodity being transported, when one set or more of wheels of any such motor vehicle is on the roadway during the course of transportation; whether or not any such motor vehicle furnishes the motive power.

0.11 The term "driver" means any person who drives any motor vehicle.

0.12 The term "business district" means the territory contiguous to and including a highway when within any 600 feet along such highway there are buildings in use for business or industrial purposes, including but not limited to hotels, banks, or office buildings, railroad stations, and public buildings which occupy at least 300 feet of frontage on one side or 300 feet collectively on both sides of the highway.

0.13 The term "residence district" means the territory contiguous to and including a highway not comprising a business district when the property on such highway for a distance of 300 feet or more is in the main improved with residences or residences and buildings in use for business.

0.14 Any other term used in these regulations is used in its commonly accepted meaning, except where such other term has been defined elsewhere herein or in section 203 (a) of the Interstate Commerce Act, in which event the definition therein given shall apply.

0.20 *Vehicles used for purposes other than as defined.* Whenever any motor vehicle other than a bus is used to perform the functions normally performed by a bus, the rules pertaining to busses and to the transportation of passengers shall apply to that motor vehicle and to its operation as though it were a bus. Likewise, whenever any motor vehicle of one type is so used as to perform the functions normally performed by a motor vehicle of another type, the requirements of these regulations shall apply to such motor vehicle and to its operation in the same manner as though such motor vehicle were actually a motor vehicle of the latter type.

0.21 *Motor carrier to require observance of driver rules.* Wherever in these regulations a duty is prescribed for a driver or a prohibition is imposed upon him, it shall be the duty of the motor carrier to require observance of such prescription or prohibition; and, if the motor carrier is himself a driver, he shall likewise be bound thereby.

0.22 *Applicability of regulations.* The several parts of these regulations shall be applicable to common carriers, contract carriers, and private carriers subject to Part II, Interstate Commerce Act, as shown in the following table:

APPLICABLE PARTS OF REGULATIONS

	1	2	3	4	5	6	7
A. Vehicles and drivers used in transportation wholly within a municipality or between contiguous municipalities or within a zone adjacent to and commercially a part of such municipality or municipalities:							
1. When transporting explosives or other dangerous articles	Yes	Yes	Yes	Yes	Yes	Yes	Yes.
2. When not transporting explosives or other dangerous articles	No	No	No	No	Yes	No	No.
B. Vehicles and drivers used in transportation outside a municipality or contiguous municipalities of a zone adjacent to and commercially a part of such municipality or municipalities:							
1. When transporting explosives or other dangerous articles	Yes	Yes	Yes	Yes	Yes	Yes	Yes.
2. When not transporting explosives or other dangerous articles	Yes	Yes	Yes	Yes	Yes	Yes	No.

[1] Part 4 does not apply to private carriers, except when transporting or engaged in the transportation of explosives and/or other dangerous articles

PROPOSED REVISION OF PART 1—QUALIFICATIONS OF DRIVERS

1.1 *Compliance required.* Every motor carrier, and his or its officers, agents, representatives and employees who drive motor vehicles or are responsible for the hiring, supervision, training, assignment or dispatching of drivers shall comply and be conversant with the requirements of this part.

1.2 *Minimum requirements.* No person shall drive, nor shall any motor carrier require or permit any person to drive, any motor vehicle unless such person possesses the following minimum qualifications:

1.22 *Eyesight.* Visual actuity of at least 20/40 (Snellen) in each eye either without glasses or by correction with glasses; form field of vision in the horizontal meridian shall not be less than a total of 140 degrees; ability to distinguish colors red, green, and yellow; drivers requiring correction by glasses shall wear properly prescribed glasses at all times when driving.

1.23 *Hearing.* Hearing shall not be less than 10/20 in each ear, for conversational tones, without hearing aids.

1.27 *Knowledge of regulations.* Knowledge of rules and regulations established by the Commission pertaining to the driving of motor vehicles.

1.31 *Original physical examination of drivers.* On and after the effective date of these regulations no person shall drive, nor shall any motor carrier require or permit any person to drive, any motor vehicle unless such person shall have been physically examined within the preceding twelve months by a qualified doctor of medicine in accordance with the requirements of these regulations, and shall have been certified by such doctor of medicine as meeting the requirements of Rules 1.21 to 1.24, inclusive; *Provided, however,* That this rule shall not apply to drivers of motor vehicles controlled and operated by any farmer when used in the transportation of his agricultural commodities or products thereof from his farm, or in the transportation of supplies to his farm.

1.32 *Periodic physical examination of drivers.* At least once in every twelve months every motor carrier shall require each driver employed or whose services are used by him to be physically examined in the manner prescribed in Rule 1.31, and every driver shall comply with and fulfill the requirements therein set forth. Any motor carrier may accept, at his option, proof of a driver's having been properly examined and certified within a period of twelve months, in lieu of causing the driver again to be examined and certified within that period; which proof in the form prescribed in Rule 1.33 shall, if accepted, be retained in the motor carrier's files. This rule shall not apply to drivers of motor vehicles controlled and operated by any farmer when used in the transportation of his agricultural commodities or products thereof from his farm, or in the transportation of supplies to his farm.

1.33 *Certificate of physical examination.* Every motor carrrier shall have in his files for every driver employed or used by him a certificate of a qualified doctor of medicine in the form provided in Rule 1.34 or a photostatic copy thereof, and every driver shall have in his possession while driving such a certificate or photostatic copy thereof covering himself; such certificate shall be approximately 3¾ inches by 2½ inches in size.

1.34 *Doctor's certificate.* The doctor's certificate shall be as follows:

DOCTOR'S CERTIFICATE

This is to certify that I have this day examined _____ in accordance with Rules 1.21 to 1.24, inclusive, and physical examination Form BMC ____ of the Motor Carrier Safety Regulations, Revised, of the Interstate Commerce Commission, and that I find him

Qualified under said rules ☐
Qualified only when wearing glasses ☐
Not qualified ☐

I have kept on file in my office completed examination form for this person.

_____ _____
(Date) (Place)

_____
(Signature of examining doctor)

Address of doctor _____
Signature of driver _____
Address of driver _____

1.35 *Physical examination form.* Form BMC ____ as shown in Appendix A of these regulations shall be used in making the physical examinations required by Rules 1.31 and 1.32.

1.36 *Appeal from doctor's findings.* If any doctor of medicine shall refuse to issue a certificate of fitness for any driver already in the employ of a motor carrier when such driver has been referred to him by the motor carrier for physical examination, such driver shall have the right to be examined by a doctor of medicine of his own choosing. In the event of disagreement between the two doctors, a suitable competent referee, also a doctor of medicine, may be chosen by mutual consent and the decision of this referee shall be final. In the event that a certificate of fitness is proffered by such a driver which is not acceptable to a motor carrier, the motor carrier may designate an examining doctor of medicine and any disagreement between the two doctors shall be adjudicated as indicated above.

1.37 *Carrier's right to require additional qualifications.* Nothing contained in these rules shall be so construed as to prevent a motor carrier from requiring additional or more stringent physical, mental, or intellectual qualifications or age requirements than herein prescribed as minima; or to require more frequent or more stringent physical or mental examinations than herein prescribed, notwithstanding that a driver may have in his possession a doctor's certificate as herein required.

1.38 Without regard to other qualifications, no driver shall drive nor be qualified to drive nor shall any motor carrier permit or require him to drive a motor vehicle if:

1. The driver's record for violating laws or regulations governing the operation of motor vehicles is such as to reasonably establish a disregard for the regulatory requirements and for the public safety; or

2. The driver's accident record is such as reasonably to demonstrate his lack of concern with or his indifference to his own or the public's safety; or

3. The driver has acquired a criminal record of such seriousness as reasonably to demonstrate his unfitness in the public interest to be a driver of a motor vehicle in interstate or foreign commerce.

APPENDIX A—GENERAL INSTRUCTIONS FOR MAKING PHYSICAL EXAMINATION AND RECORDING FINDINGS

(Be sure to record an answer to each question. When negative or positive, so state)

MEDICAL HISTORY

The purpose of this physical examination is to detect the presence of physical and mental defects of such a character and extent as to affect the applicant's ability to operate safely a motor vehicle. The examination should be made carefully and at least as complete as is indicated by the attached form. Defects may be recorded which do not, because of their character or degree, indicate that a certificate of physical fitness should be denied. The presence, however, of these defects should be discussed with the applicant and he should be encouraged to take the necessary steps to insure correction particularly of those which if neglected might lead to a condition likely to affect his ability to drive safely. Careful inquiry regarding past illness, the character and date of such illness, may reveal cause for defects found upon physical examination. Lack of knowledge concerning the etiology of certain defects may result in the rejection for employment. Such data also may indicate the need for making certain laboratory tests. Certain serological and laboratory tests will frequently be made by State Department of Health laboratories without charge.

General appearance and development. Note marked underweight or overweight; any posture defects; perceptible limp, anemia, tremor or other form of nervousness such as might be caused by chronic alcoholism, thyroid intoxication, or other illnesses. The rules of the Interstate Commerce Commission provide that no driver shall be addicted to the use of narcotics or habit-forming drugs, or the excessive use of alcoholic liquors or beverages.

Height and weight. Stripped to the waist with shoes and socks removed.

Head—Eyes. The telebinocular, Snellen chart, and other approved tests may be used to measure visual acuity. It is desired, however, when other than the Snellen chart is used, that the results of such test be expressed in values comparable to the standard Snellen test. If applicant wears glasses, these should be worn while applicant's visual acuity is being tested. Indicate on record by encircling appropriate phrase on form "without glasses" or "with glasses if worn." In recording distant vision use 20 feet as normal. Report all vision as a fraction with 20 as numerator and the smallest type read at 20 feet as denominator. Note ptosis, discharge, corneal scar, exophthalmos or strabismus uncorrected by glasses.

Ears. Note evidence of mastoid or middle ear disease; discharge. In recording hearing, record 10 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 feet as denominator and actual distance as numerator.

Mouth. Note evidence of infection, pyorrhea.

Throat. Note evidence of disease, enlarged or infected tonsils.

Thorax—Heart. Stethoscopic examination is required. Note murmurs and arrhythmias. Electro-cardiogram is required for all drivers 45 years of age or older; as well as for others when indicated.

Blood pressure. May be recorded with either spring or mercury column type of sphygmanometer.

Pulse. Normal pulse taken after being seated at least 2 minutes then have applicant stand and placing one foot on the seat of an ordinary chair raise his body to an erect position 20 times in 30 seconds. Pulse rate should return to his normal after 2 minutes' rest. Because of abnormal conditions, some applicants will be unable to do this. This test has been found helpful in ascertaining physical ability for work.

Lungs. It is necessary that the auscultatory cough be used. Tuberculosis, if suspected, state whether active or arrested, and if arrested, your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases. Sample may be sent to the State Health Department.

Abdomen—Scars. If present, state whether recent and if abnormally tender or if there is any evidence of hernia at the site of scar.

Abnormal masses. If present, note tenderness and whether or not individual knows how long they have been present.

Tenderness. When noted, state where most pronounced and cause suspected.

Hernia. Note whether no hernia, but impulse on coughing; no hernia or impulse, but abnormally large rings. Any hernia should be noted, and if present, state whether it is retained by well-fitted truss.

Genito-urinary. When scars or urethral discharge are present, indicate patient's reason for same and when indicated, submit smear of discharge to laboratory for examination.

Reflexes. If positive Rhomberg is reported, indicate degree. Pupillary reflexes should be reported for both light and accommodation. Knee jerks are to be reported absent only when not obtainable upon reinforcement and as increased when foot is actually lifted from the floor following light blow upon the patella; otherwise as normal.

Extremities—Upper. Note deformities and limitation of motion.

Lower. Note deformities, limitation of motion; varicose veins. In case of hand deformities, note particularly whether or not sufficient grip is present to enable driver to secure a grip on the wheel. Record chronic ulcers. Note any atrophy or paralysis.

Spine. Note deformities and limitation of motion. Be sure to record loss of foot, leg, fingers, hand or arm, or impairment of use thereof, or other structural defect or limitation, likely to interfere with safe driving.

Laboratory findings. Urine analysis is indicated whenever systolic blood pressure is over 150 and diastolic over 100 and such other times as medical history or findings upon physical examination may indicate that they are necessary. A serological test should always be taken in case of those giving positive history of luetic infection or present physical findings upon examination presenting possibility of latent syphilis.

Upon completion of the examination, physician should always date and sign his record of the same.

Examining Doctor

Address

*Electro-cardiographic examination shall be made of every driver 45 or more years of age or of younger drivers when other findings indicate desirability.

1.21 *Mental and physical condition.*

(a) No loss of foot, leg, hand or arm.

(b) No mental, nervous, organic, or functional disease, likely to interfere with safe driving.

(c) No loss of fingers, impairment of use of foot, leg, fingers, hand, or arm, or other structural defect or limitation, likely to interfere with safe driving.

1.22 *Eyesight.* Visual acuity of at least 20/40 (Snellen) in each eye either without glasses or by correction with glasses; form field of vision in the horizontal meridian shall not be less than a total of 140 degrees; ability to distinguish colors red, green, and yellow; drivers requiring correction by glasses shall wear properly prescribed glasses at all times when driving.

1.23 *Hearing.* Hearing shall not be less than 10/20 in each ear, for conversational tones, without hearing aids.

1.24 *Liquor, narcotics, and drugs.* Shall not be addicted to the use of narcotics or habit-forming drugs, or the excessive use of alcoholic beverages or liquors.

PROPOSED REVISION OF PART 2—DRIVING OF MOTOR VEHICLES

2.01 *Compliance required.* Every motor carrier and his or its officers, agents, representatives, and employees directly concerned with the management, maintenance, operation or driving of motor vehicles, shall comply and be conversant with the requirements of this part.

2.03 *Reckless driving forbidden.* No driver shall drive any motor vehicle recklessly, or so as to endanger life, limb or property.

2.04 *Driving while ill or fatigued forbidden.* No driver shall drive or be required or permitted to drive a motor vehicle while his ability or alertness is so impaired through fatigue, illness, or any other cause as to make it unsafe for him to begin or continue to drive, except in case of grave emergency where the hazard to passengers would be increased by observance of this rule, and then only to the nearest point at which the safety of passengers is assured.

2.05 *Use of alcoholic beverage forbidden.* No driver shall drive or be required or permitted to drive a motor vehicle, be in active control of any such vehicle, or go on duty or remain on duty, when under the influence of any alcoholic beverage or liquor, regardless of its alcoholic content, nor shall any driver drink any such beverage or liquor while on duty.

2.06 *Control of speed.*

2.061 *Speed must be reasonable and prudent.* No driver shall drive any motor vehicle at a speed greater than is reasonable and prudent, having due regard to weather, traffic, intersections, width and character of the roadway, type of motor vehicle, and any other conditions then existing.

2.062 *Legal limits must be observed.* No driver shall drive any motor vehicle in or through any state, legal subdivision thereof, the District of Columbia, or any area under the control of the Federal Government at a speed greater than that permitted by such state, legal subdivision thereof, District of Columbia, or the Federal Government.

2.063 *Reduced speed during periods of darkness.* Every driver shall during periods of darkness reduce the speed of the motor vehicle he is driving in keeping with reduced visibility.

2.064 *Schedule of runs to conform with speed requirements.* No motor carrier shall schedule a run nor permit nor require the operation of any motor vehicle between points in such period of time as would necessitate speeds greater than those prescribed in Rules 2.061, 2.062, and 2.063.

2.065 *Traffic signs, signals, markings, or devices must be obeyed.* Every driver shall obey the instructions of all traffic control devices placed by a duly constituted authority for the purpose of regulating, warning or guiding of traffic, unless otherwise directed by a police officer.

2.07 *Equipment to be in good working order.* No driver shall drive any motor vehicle unless he has first determined by inspection or observation that the following parts and accessories are in good working order:

Service brake, including trailer brake connections and parking (hand) brake.
Steering mechanism.
Lighting devices and reflectors.
Tires.
Horn.
Windshield wiper or wipers.
Rear vision mirror.
Coupling devices.

2.08 *Emergency parts and accessories.* No driver shall drive any motor vehicle unless he has first determined by inspection or observation that such vehicle is provided with the required parts and accessories, in place and ready for use; nor shall any driver fail to use or make use of such accessories when and as needed.

2.081 *Required emergency equipment.* (a) At least one fire extinguisher, properly filled, and available for immediate use. This requirement shall not apply to taxicabs or vehicles used in driveaway operations.

(b) At least one spare electric bulb for each kind of electric lamp where such lamp is used for any of the lighting devices required by these regulations. When sealed beam headlamps are used a spare "sealed beam" unit shall be included.

(c) At least one spare fuse or other overload protective devices, if the devices used are not of a reset type, for each kind and size used for any electrical circuit on said vehicle.

(d) One set of tire chains for at least one driving wheel on each side, for any motor vehicle likely to encounter conditions requiring them.

(e) Three flares (liquid burning pot torches) properly filled; or in lieu thereof, three red electric lanterns in proper working condition or three red emergency reflectors, available for immediate use.

(f) At least three fuses with adequate standards, available for immediate use, unless red electric lanterns or red emergency reflectors are used as warning signals.

(g) At least two red cloth flags with standards.

(h) The fuses, over-load protective devices, bulbs, and "sealed beam" headlamps contained in the towed vehicle of combinations of motor vehicles engaged in driveaway operations, if suitable as replacement parts are deemed to fulfill the requirements of (d) and (e) above.

2.082 *Additional equipment for buses.* No driver shall drive any bus unless he has first determined by inspection or observation that said bus is equipped with the accessories listed in Rule 2.081, and in addition thereto the following, all in place and ready for use in case of emergency:

(a) One first-aid kit.

(b) One hand ax available for immediate use.

2.09 *Safe loading.*

2.091 *Distribution and securing of load.* No driver shall drive any motor vehicle if it is so overloaded, or if the load thereon is so improperly distributed or so inadequately secured, as to prevent its safe operation. (For loading of explosives and other dangerous articles, see Part 7 of these regulations).

2.092 *Securing of doors, tarpaulins, tailgates and other equipment.* No driver shall drive any motor vehicle unless the tailgate, tailboard, tarpaulins, doors, all equipment and rigging used in the operation of said vehicle, and all means of fastening the load, are securely in place.

2.093 *Load not to interfere with driver.* No driver shall drive any motor vehicle when the load thereon obscures his view ahead, or to the right and left sides, or interferes with the free movement of his arms or legs, or prevents his free and ready access to the accessories required for emergencies.

2.094 *Cab or driver's compartment must not be obstructed.* No driver shall drive any motor vehicle when tools, chains, suitcases, other gear or equipment obstructed the free and ready entrance or exit of any person from the cab or driver's compartment.

2.095 *Loading of passengers on busses.* No driver shall drive a bus unless:

(a) Standees are to the rear of a line or other device prescribed in Rule 3.3412.

(b) Aisle seats, if any, are in accordance with Rule 3.3414.

2.096 *Loading of baggage, freight or express on busses.* No driver shall drive any bus transporting baggage, express or freight unless such articles are stowed in a manner which will assure: (a) unrestricted freedom of motion to the driver for proper operation of the bus; (b) unobstructed passage to all exits by any person; and (c) adequate protection to passengers and others from injury as a result of the displacement or falling of such articles.

2.10 *Precaution "before starting."* No driver shall set in motion any motor vehicle until he has taken due caution to ascertain that such a movement will not endanger other persons or property.

2.11 *Keep to right.* The driver of every motor vehicle shall drive such vehicle as far to the right side of the traveled portion of the highway as is practicable.

2.12 *Following other vehicles.*

2.121 *Maintaining adequate space between vehicles.* Every driver of any motor vehicle shall, whenever conditions permit, maintain a sufficient space between vehicles proceeding in the same direction so that an over-taking vehicle may enter and occupy such space without danger. This rule shall not be construed to prevent overtaking and passing another vehicle.

2.122 *Following too closely.* No driver while driving any motor vehicle shall follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon and condition of the highway.

2.13 *Precautions at railroad grade crossings.*

2.131 *Certain vehicles must stop.* Every driver operating any motor vehicle transporting any of the following:

(a) Passengers.

(b) Explosives—Class A and Class B.

(c) Chlorine.

(d) Any cargo which by reason of its quantity and/or nature, the Commission would require to be placarded with one of the following markings:

Dangerous.
Compressed gas.
Poison gas.

(e) Any cargo tank, whether loaded or empty, which the Commission would require to be marked with one of the following markings:

Flammable.
Corrosive liquid.
Compressed gas.
Flammable compressed gas.
Chlorine.
Poison.

shall, upon approaching any railroad grade crossing, make a full stop not more than 50 feet, nor less than 15 feet from the nearest rail of such railroad grade crossing, and shall not proceed until he has taken due caution to ascertain that the course is clear; except that a full stop need not be made at:

(1) A street car crossing within a business or residence district of a municipality;

(2) A railroad grade crossing where a police officer or a traffic-control signal (not a railroad flashing signal) directs traffic to proceed;

(3) An abandoned or exempted grade crossing which is clearly marked as such by or with the consent of the proper state authority, when such marking can be read from the driver's position.

2.132 *Other vehicles must slow down and be prepared to stop.* Every driver of any other motor vehicle shall upon approaching a railroad grade crossing drive at a rate of speed which will permit said motor vehicle to be stopped before reaching the nearest rail of such crossing and shall not drive said vehicle upon or over such crossing until he has taken due caution to ascertain that the course is clear.

2.133 *No gear changes on crossings.* Every driver upon arriving at a railroad grade crossing, shall have his vehicle in such gear as will enable said vehicle to traverse the said crossing without further change of gears.

2.134 *All drivers must ascertain that the course is clear.* Nothing contained in this rule shall be construed as to relieve any driver of his responsibility in any case of exercising due caution to ascertain that the course is clear before proceeding over such crossing.

2.14 *Precautions at drawbridges.*

2.141 *Vehicles transporting passengers must stop.* Every driver operating any motor vehicle transporting passengers shall, upon approaching any drawbridge, known or marked as such, bring his vehicle to a complete stop, not less than 50 feet from the lip of the draw, and shall proceed only when he has definitely ascertained that the draw is completely closed. A full stop need not be made at any drawbridge protected by a traffic "Stop and Go" signal giving positive indication to approaching vehicles to proceed, or where upon the opening of the draw, traffic is controlled by an attendant or traffic officer.

2.142 *Other vehicles must slow down and be prepared to stop.* Every driver of any other motor vehicle, shall, upon approaching a drawbridge, drive at a rate of speed which will permit said motor vehicle to be stopped before reaching the lip of the draw and shall proceed only when he has definitely ascertained that the draw is completely closed.

2.143 *All drivers must ascertain that the course is clear.* Nothing contained in this rule shall be construed as to relieve any driver of his responsibility in any case of exercising due caution to ascertain that the draw is completely closed.

2.15 *Other users of the highway must not be endangered.* No driver shall, except in case of emergency, stop, suddenly decrease the speed or change the course or direction of the motor vehicle he is driving, unless due caution has been exercised by him to ascertain that such acts can be performed without endangering other users of the highway.

2.16 *Turning.*

2.161 *Vehicle must be in proper position for making turns.* The driver of any motor vehicle intending to make a turn upon any highway shall do so in the following manner:

(a) A right turn shall be made from a position which is as close as practicable to the extreme right side of the traveled portion of the highway.

(b) A left turn upon two-way highways shall be made from a position which is as close as practicable to the center of the traveled portion of the highway. Upon one-way highways and upon highways on which opposing streams of traffic are separated by a dividing strip or zone, such turns shall be made from a position which is as close as practicable to the extreme left side of the traveled portion of such highways.

2.162 *Extreme caution to be exercised in making turns.* The driver of every motor vehicle shall, when making any turn, exercise extreme caution, having due regard to the length of the motor vehicle, any load thereon, the width of

the roadway and other traffic. Prior to and well in advance of making any turn he shall drive the motor vehicle into the proper lane.

2.163 *No "U" turn on curve or crest of a grade.* No driver shall turn any motor vehicle, so as to proceed in the opposite direction, upon any curve, or upon the approach to or near the crest of a grade, where such motor vehicle cannot be seen at the distance of 500 feet by the driver of any other vehicle approaching from either direction.

2.17 *Special care in overtaking or passing.* No driver shall drive a motor vehicle past another vehicle or vehicles proceeding in the same direction unless there is ample visible space ahead to do so without endangering any other user of the highway; if necessary, an audible signal of intention to pass shall be sounded. After passing, the driver shall not return his motor vehicle to the right side of the roadway until safely clear of the overtaken vehicle or vehicles.

2.18 *Overtaking must not be prevented by speeding up.* No driver shall increase the speed of the motor vehicle he is driving in order to prevent being overtaken by another vehicle attempting to pass.

2.19 *Motive power not be disengaged.* No driver shall drive any motor vehicle with the source of motive power disengaged from the driving wheels except when such disengagement is necessary to stop or to shift gears.

2.20 *Overtaking and passing buses.* No driver shall overtake or pass any bus which has stopped to receive or discharge passengers except with extreme caution and only if the course ahead is known to be clear. A complete stop, however, shall be made for a school bus when required by State or local regulations.

2.21 *Precautions when vehicle is left unattended.* No driver shall leave any motor vehicle unattended until the parking brake has been securely set and all reasonable precautions have been taken to prevent the movement of such vehicle.

2.22 *Vehicles when stopped must not interfere with other traffic.* No driver shall stop, park or leave standing, any motor vehicle, whether attended or unattended, upon the traveled portion of any highway outside of a business or residence district, when it is practicable to stop, park or leave such vehicle off the traveled portion of the highway. In the event that conditions make it impracticable to move such motor vehicle from the traveled portion of the highway, the driver shall make every effort to leave all possible width of the highway opposite such standing vehicle for the free passage of other vehicles and he shall take care to provide a clear view of such motor vehicles as far as possible to the front and rear.

2.23 *Emergency signals.*

2.231 *When vehicles are disabled.* Whenever any motor vehicle is disabled upon the traveled portion of any highway or the shoulder thereof, when lighted lamps are required (see Rule 2.24), except in a municipality where there is sufficient highway lighting to make clearly discernible persons and vehicles on the highway at a distance of 500 feet, the following requirements shall be observed:

(a) The driver of such vehicle shall immediately place on the traveled portion of the highway at the traffic side of the disabled vehicle, toward the rear, either a lighted fusee, or lighted red electric lantern, or a red emergency reflector.

(b) Except as provided in subparagraphs (c) and (d) of this rule, as soon thereafter as possible, but in any event within the burning period of the fusee, the driver shall place three liquid-burning flares (pot torches), or three red electric lanterns, or three red emergency reflectors on the traveled portion of the highway in the following order:

(1) One at a distance of approximately 100 feet from the disabled vehicle in the center of the traffic lane occupied by such vehicle and toward traffic approaching in that lane;

(2) One at a distance of approximately 100 feet in the opposite direction from the disabled vehicle in the center of the traffic lane occupied by such vehicle; and

(3) One at the traffic side of the disabled vehicle, not less than 10 feet to the front or rear thereof. If a red electric lantern or red emergency reflector has been placed on the traffic side of the vehicle in accordance with subparagraph (a) of this rule, it may be used for this purpose.

(c) If disablement of any motor vehicle shall occur within 500 feet of a curve, crest of a hill or other obstruction to view, the driver shall so place the warning signal in that direction as to afford ample warning to other users of the highway, but in no case less than 100 feet nor more than 500 feet from the disabled vehicle.

(d) If gasoline or any other flammable or combustible liquid or gas seeps or leaks from a fuel container or a motor vehicle disabled or otherwise stopped upon a highway, no emergency warning signal producing a flame shall be lighted or placed except at such a distance from any such liquid or gas as will assure the prevention of a fire or explosion.

2.232 *When motor vehicles are stopped or parked.* Whenever for any cause other than disablement or necessary traffic stops, any motor vehicle is stopped upon the traveled portion of any highway, or shoulder thereof, during the time lights are required (see Rule 2.24), except within a municipality where there is sufficient highway lighting to make clearly discernible persons and vehicles on the highway at a distance of 500 feet, the following instructions shall be observed:

(a) The driver of such vehicle shall immediately place on the traveled portion of the highway at the traffic side of the vehicle toward the rear, either a lighted fusee, or lighted red electric lantern or red emergency reflector (see Rule 2.231 (a) and (d));

(b) If the stop is to exceed 10 minutes, the driver shall place emergency signals as required and in the manner prescribed by Rule 2.231 (b), (c), and (d).

2.233 *Flame producing emergency signals attached to a motor vehicle prohibited.* No driver shall attach or permit any person to attach a fusee or other flame producing emergency signal to any part of a motor vehicle.

2.234 *Use of red electric lanterns or red emergency reflectors for certain vehicles.* No driver shall use or permit the use of any flame producing emergency signal for any motor vehicle transporting explosives, or 2,500 pounds gross weight or more of any flammable liquid or flammable compressed gases, nor on any cargo tank used for the transportation of any flammable liquid or flammable compressed gas whether loaded or empty. In lieu thereof, red electric lanterns or red emergency reflectors shall be used, the placement of which shall be in the same manner as prescribed in Rule 2.231 (b) and (c).

2.235 *Use of red flags.* During the time when lighted lamps are not required, whenever a motor vehicle is disabled, stopped, or parked upon the traveled portion of any highway or shoulder thereof, except within the business or residence district of a municipality, the driver of such vehicle shall place red flags as follows:

(a) One at a distance of approximately 100 feet from the vehicle in the center of the traffic lane occupied by such vehicle toward traffic approaching in that lane.

(b) One at a distance of approximately 100 feet in the opposite direction from the vehicle in the center of the traffic lane occupied by such vehicle.

2.24 *When lighted lamps are required.*

2.241 *On moving vehicles.* No driver shall drive any motor vehicle upon the highway unless the lamps required by Rule 3.3 are lighted:

(a) During the period of one-half hour after sunset to one-half hour before sunrise;

(b) During any other time when there is not sufficient light to render clearly discernable persons and vehicles on the highway at a distance of 500 feet.

2.242 *On stopped or parked vehicles.* Whenever any motor vehicle is parked or stopped upon the highway within a business or residence district of a municipality, whether attended or unattended, during the times mentioned in Rule 2.241, the driver of said motor vehicle shall cause at least one white or amber light to be displayed on the traffic side of the motor vehicle, visible from a distance of 500 feet to the front of the motor vehicle and at least one red light visible from a distance of 500 feet to the rear; and shall dim or depress headlamp beam of vehicle, if in use: *Provided, however,* That no lights need be lighted if there is sufficient highway lighting to make clearly discernible persons and vehicles at a distance of 500 feet, unless lights are required by local regulations.

2.25 *Not more than four road-lighting lamps to be illuminated.* Every driver operating a motor vehicle equipped with more than four lamps of the character of headlamps, auxiliary road-lighting lamps, or spot lamps, shall not use more than four such lighted lamps at any one time.

2.26 *Use of upper and lower head lamp beams.* During the times when lighted lamps are required, every driver shall obey the following:

2.261 *Upper beam.* He shall use the upper distribution of light when there is no oncoming vehicle within 500 feet: *Provided, however,* That a lower distribution of light may be used when fog, dust, or other atmospheric conditions make it desirable for reasons of safety, and when within the confines of municipalities where there is sufficient light to render clearly discernible persons and vehicles on the highway at a distance of 500 feet ahead.

2.262 *Lower beam.* When within 500 feet of an oncoming vehicle, he shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver, such distribution of light shall also be used when following another vehicle within 500 feet.

2.27 *Minimum visibility requirement for road-lighting lamps.* No driver shall during the times when lights are required, use any distribution of light which will not reveal a person or vehicle at a distance of at least 100 feet ahead under normal atmospheric conditions: *Provided, however,* That depressed head lamp beam may be used in fog, or other abnormal weather or atmospheric conditions, when they tend to promote safety.

2.28 *Spotlight must not blind other users of the highway.* No driver shall use a spotlight so aimed upon approaching another vehicle that any part of the high-intensity portion of the beam therefrom is directed beyond the left side of the motor vehicle upon which the spot lamp is mounted, nor more than 100 feet ahead of such motor vehicle.

2.29 *Extreme caution required under hazardous conditions.* Every driver shall exercise extreme caution in the operation of a motor vehicle when hazardous conditions, such as those caused by snow, ice, sleet, fog, mist, rain, dust or smoke, adversely affect visibility or traction. Speed shall be reduced when such conditions exist. If conditions become sufficiently dangerous, the driver shall discontinue the operation of the vehicle and shall not resume until the vehicle can be safely operated. Whenever compliance with the foregoing provisions of this rule increases hazard to passengers, the motor vehicle may be operated to the nearest point at which the safety of passengers is assured.

2.30 *Duties of driver in case of accident.*

2.301 *All accidents.* Every driver of a motor vehicle involved in an accident from which there results injury to or death of any person or persons, or property damage of any kind, regardless of the amount, shall:

(a) Stop immediately;

(b) Take all necessary precaution to prevent further accident at the scene;

(c) Render all reasonable assistance to injured persons (movement of injured persons by a driver should not be undertaken if likely to cause further injury);

(d) Give to any person demanding the same, his name and address, the name and address of the motor carrier for whom he is then driving, the state tag registration number of the vehicle involved, and if requested, exhibit his chauffeur's or operator's license;

(e) Report all details of the accident as soon as practicable after its occurrence or, in event of a fatal accident, immediately, to the motor carrier then using his services.

2.302 *Upon striking an unattended vehicle.* If a moving vehicle strikes a vehicle standing unattended upon a highway, the driver of the former shall immediately stop and endeavor to locate the custodian of the unattended vehicle, and if his reasonable effort so to do is unsuccessful, the driver of the vehicle doing the striking shall place securely and conspicuously in or on the unattended vehicle his name and address and that of the motor carrier for whom he is then driving.

2.31 *Precautions during fueling process.*

2.311 *Care to prevent igniting of fuel.* During the process of fueling a motor vehicle no driver or any employee of a motor carrier shall:

(a) Fuel or permit a motor vehicle to be fueled with the engine running, except when it is necessary to run the engine to fuel the vehicle;

(b) Smoke or expose any open flame in the vicinity of the vehicle being fueled;

(c) So far as it is practicable, permit any other person to engage in such or other activities which would be likely to result in fire or explosion.

2.312 *Grounding of fuel hoses.* Every driver and every employee of a motor carrier shall throughout the process of fueling keep the nozzle of the fuel hose continuously in contact with the intake pipe of the fuel tank.

2.313 *Reserve fuel supply.* No driver shall carry on any motor vehicle, any supply of fuel for the propulsion of said motor vehicle or for the operation of accessories, except in a properly mounted fuel tank or tanks.

2.314 *Fueling of busses.* No driver or other person shall fuel any bus in a closed building with passengers aboard. The fueling of busses when passengers are being carried shall be reduced to the minimum number of times necessary during such transportation.

2.32 *Lamp(s) or flag(s) on projecting load.* No driver shall, during the time when lights are required, drive any motor vehicle transporting a load extending beyond the width or over 4 feet beyond the rear of such vehicle, or which have tailboards or tailgates extending over four feet beyond the body of a motor vehicle, unless lighted lamps as required by Rule 3.3118 are displayed. At all other times flags as required by Rule 3.3420 shall be displayed.

2.33 *Rear lights or reflectors must not be obscured.* No driver shall drive a motor vehicle when any of the required lights or reflectors are obscured by the tailboard, by any part of the load, by dirt, or otherwise.

2.34 *Transportation of hitch hikers or other unauthorized persons prohibited.* Unless specifically authorized in writing to do so by the motor carrier under whose authority the motor vehicle is being operated, no driver shall transport any person or permit any person to be transported on any motor vehicle other than a bus. When such authorization is issued, it shall state the name of the person to be transported, the points where the transportation is to begin and end, and the date upon which such authority expires. No written authorization, however, shall be necessary for the transportation of:

(1) Employees assigned to a vehicle by a motor carrier;

(2) Any person transported when aid is being rendered in case of an accident or other emergency;

(3) An attendant delegated to care for other than ordinary livestock.

This rule shall not apply to the operation of motor vehicles controlled and operated by any farmer and used in the transportation of his agricultural commodities and products thereof, or in the transportation of supplies to his farm.

2.35 *Driving of a motor vehicle by unauthorized person prohibited.* Except in case of emergency, no driver shall permit a motor vehicle to which he is assigned to be driven by any person not authorized to drive such vehicle by the motor carrier in control thereof.

2.36 *Bus driver prohibited from engaging in unnecessary conversation or other distraction.* No driver while driving a bus shall engage in any unnecessary conversation or other activities tending to distract his attention from the safe operation of such vehicle.

2.37 *Smoking on certain motor vehicles prohibited.* No driver or any person shall smoke on or about any motor vehicle loaded with or transporting explosives; flammable liquids or flammable compressed gases in cargo tanks; nor shall a driver of a bus smoke when passengers are aboard.

2.38 *Towing or pushing of busses with passengers aboard prohibited.* No person shall cause or permit a disabled bus with passengers aboard to be towed or pushed; nor shall any person use or permit to be used a bus with passengers aboard for the purpose of towing or pushing any disabled vehicle, except in a grave emergency where the hazard to passengers would be increased by observance of the foregoing provisions of this rule, and then only in traveling to the nearest point where the safety of the passengers is assured.

2.39 *Riding within closed bodies prohibited unless proper exit is provided.* No driver shall permit any person to ride within the closed body of any motor vehicle unless there are means on the inside thereof of obtaining exit, said means shall be in such condition as to permit ready operation by the occupant.

2.40 *Transferring to or from a sleeper berth while a motor vehicle is in motion prohibited.* No driver or other person shall transfer to or from a sleeper berth while a motor vehicle is in motion unless there is available free, ready, and directly communicating access between the cab and the berth.

2.41 *Use of a motor vehicle when carbon monoxide is detected prohibited.* No person shall dispatch or drive any motor vehicle or permit any passengers thereon, when the following conditions

are known to exist, until such conditions have been remedied or repaired:

(a) Where an occupant has been affected by carbon monoxide;

(b) Where carbon monoxide has been detected in the interior of the vehicle;

(c) When a mechanical condition of the vehicle is discovered which would be likely to produce a hazard to the occupants by reason of carbon monoxide.

2.42 *Use of flame producing heater prohibited when vehicle is in motion.* No driver shall drive nor permit any motor vehicle to be driven laden with any material requiring heating by flame for its loading or unloading, with the heater of such vehicle in operation while the vehicle is in motion.

PROPOSED REVISION OF PART 3—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

Because of the extent of the changes and rearrangement of the rules in Part 3, this part is here shown in its entirety. However, certain rules and specifications marked with an asterisk (*) relating to drive-away operations, adopted by the Commission (Division 5) in Ex Parte No. MC-4 July 7, 1948, will not be the subject of consideration in hearings except as to the arrangement of such rules and specifications.

3.1 Compliance required.
3.2 Additional equipment and accessories allowable.
3.3 Equipment and accessories required.
3.31 Lighting devices, reflectors, and electrical equipment.
3.32 Brakes.
3.33 Glazing and window construction.
3.34 Miscellaneous parts and accessories.
3.35 Emergency parts and accessories.

3.1 *Compliance required.* Every motor carrier, his or its officers, agents, drivers, representatives or employees directly concerned with the installation and maintenance of equipment and accessories, shall comply and be conversant with the requirements of this part and the specifications appended, and no motor carrier shall operate any motor vehicle, or cause or permit it to be operated, unless it is equipped in accordance with said requirements and specifications.

3.2 *Additional equipment and accessories allowable.* Nothing contained in these regulations shall be construed to prohibit the use of additional equipment and accessories, not inconsistent with or prohibited by these regulations, provided such equipment and accessories do not decrease the safety of operation of the motor vehicles on which they are used.

3.3 *Equipment and accessories required.* Motor vehicles shall be equipped as follows:

3.31 *Lighting devices, reflectors, and electrical equipment.*

3.311 *Lights and reflectors.*

3.3111 *Every bus or truck less than 80 inches in over-all width.* (a) On the front, two head lamps:

(b) On the rear, one red tail lamp; one red or amber stop lamp; two red reflectors, one at each side except that the reflector requirement shall not apply to buses having a seating capacity of eight or less persons.

(Diagram to illustrate Rule 3.3111.)

NOTE: Diagrams show clearance and side-marker lamps as mounted separately. Clearance and side-marker lamps may be combined (Rule 3.3122).

3.3112 *Every bus or truck 80 inches or more in over-all width.* (a) On the front, two head lamps; two amber clearance lamps, one at each side;

(b) On the rear, one red tail lamp; one red or amber stop lamp; two red clearance lamps, one at each side; two red reflectors, one at each side;

(c) On each side, one amber side-marker lamp, located at or near the front; one red side-marker lamp, located at or near the rear; one amber reflector, located at or near the front; one red reflector, located at or near the rear.

(Bus Diagram to illustrate Rule 3.3112.)

(Truck Diagram to illustrate Rule 3.3112.)

3.3113 *Every truck-tractor.* (a) On the front, two head lamps; two amber clearance lamps, one at each side;

(b) On the rear, one red tail lamp; one red or amber stop lamp.

(Diagram to illustrate Rule 3.3113.)

3.3114 *Every semitrailer or full trailer 80 inches or more in over-all width:*

(a) On the front, two amber clearance lamps, one at each side;

(b) On the rear, one red tail lamp; one red or amber stop lamp; two red clearance lamps, one at each side; two red reflectors, one at each side;

(c) On each side, one amber side-marker lamp, located at or near the front; one red side-marker lamp, located at or near the rear; one amber reflector, located at or near the front; one red reflector located at or near the rear.

(Diagram to illustrate Rule 3.3114.)

3.3115 *Every semitrailer or full trailer less than 80 inches in over-all width:* (a) On the rear, one red tail lamp; two red reflectors, one at each side; one red or amber stop lamp if the semitrailer or full trailer obscures the stop lamp on the towing vehicle.

(Diagram to illustrate Rule 3.3115.)

3.3116 *Every pole trailer:* (a) On the rear, one red tail lamp; two red reflectors one at each side, placed to indicate extreme width of the pole trailer;

(b) On each side, on the rearmost support for the load, one combination marker lamp showing amber to the front and red to the side and rear, mounted to indicate maximum width of the pole trailer; one red reflector, located at or near the rear; on pole trailers 30 feet or more in over-all length, an amber marker lamp on each side near the center.

(Diagram to illustrate Rule 3.3116.)

3.3117 *Combinations of motor vehicles in drive-away operations.* Combinations of motor vehicles engaged in drive-away operations shall be equipped as follows: (a) On the towing vehicle:

(1) On the front, two headlamps and two amber clearance lamps, one at each side;

(2) On each side and near the front, one amber side-marker lamp;

(3) On the rear, one red tail lamp; one red or amber stop lamp.

(b) On the towed vehicle of a tow-bar combination, the towed vehicle of a single-saddle-mount combination and on the rearmost towed vehicle of a double-saddle-mount combination:

(1) On each side, and near the rear, one red side-marker lamp;

(2) On the rear, two red clearance lamps, one at each side; one red or amber stop lamp; two red reflectors, one at each side.

(c) On the first saddle-mounted vehicle of a double-saddle-mount combination:

(1) On each side, and near the rear, one amber side-marker lamp;

(2) On the rear, one red tail lamp.

(Diagram of "tow-bar" operation.)

(Diagram of single-saddle-mount combination.)

(Diagram of double-saddle-mount combination.)

3.3118 *Lamps on motor vehicles with projecting loads.* Any motor vehicle transporting a load which extends beyond the width or having projections beyond the rear of such vehicle shall be equipped with the following lamps in addition to any other required lamps (see rule 3.3420 for flags on such vehicles).

3.31181 *Loads projecting beyond sides of motor vehicles.* (a) The foremost edge of the projecting load at its outermost extremity shall be marked with an amber lamp visible from the front and side;

(b) The rearmost edge of the projecting load at its outermost extremity shall be marked with a red lamp visible from the rear and side;

(c) If any portion of the projecting load extends beyond either the foremost or rearmost edge, it shall be marked with an amber lamp visible from the front, side, and rear:

(d) If the projecting load is of a type which is not over three feet measured from front to rear, it shall be marked with an amber lamp visible from the front, side, and rear except that if the projection is located at or near the rear, it shall be marked by a red lamp visible from the front, side, and rear.

(e) The provisions of this rule shall apply to projecting loads on both sides of the motor vehicle.

3.31182 *Projections beyond rear of motor vehicles.* Motor vehicles transporting loads which extend over four feet beyond the rear of the motor vehicle or which have tailboards or tailgates extending over four feet beyond the body shall have these projections marked with a red lamp or lamps visible from the sides and rear.

(2) Diagrams—(Rule 3.3118.)

3.3119 *Tail lamps and stop lamps on new vehicles.* On and after ---------- every motor vehicle manufactured subsequent to that date, other than trailers less than 80 inches in overall width, vehicles being transported in driveaway operations, and truck-tractors, shall be equipped with two red tail lamps on the rear, one at each side and either (a) two red or amber stop lamps on the rear, one at each side, or (b) one red or amber stop lamp on the rear which lamp shall not be incorporated in the same housing with any other red lamp.

3.312 *Mounting and combining lamps.*

3.3121 *Clearance lamps to indicate extreme width and height.* Clearance lamps shall, so far as is practicable, be mounted as to indicate the extreme width and height of the motor vehicle; except that clearance lamps on truck-tractors shall be so located as to indicate the extreme width of the truck-tractor cab. (Diagram of "stake-side body" to illustrate mounting of clearance lamps on vehicles without permanent top or sides and one to illustrate mounting on sleeper cabs.)

3.3122 *Side-marker lamps may be combined with clearance lamps.* Side-marker lamps may be in combination with clearance lamps and may use the same light source.

3.3123 *Combining tail lamps and stop lamps.* Except as required by Rule 3.3119, tail lamps may be incorporated in the same housing with stop lamps so long as the requirements for each are fulfilled.

3.313 *Physical and optical requirements of lighting devices and reflectors.*

3.3131 *Lighting devices to be electric.* Lighting devices shall be electric, except that red liquid-burning lanterns may be used on the end of loads in the nature of poles, pipes, and ladders projecting to the rear of the motor vehicle.

3.3132 *Head lamps and auxiliary road lighting lamps.*

3.31321 *Mounting head lamps and auxiliary road lighting lamps.* Head lamps or auxiliary road lighting lamps shall be mounted so that the beams are readily adjustable, both vertically and horizontally, and the mounting shall be such that the aim is not readily disturbed by ordinary conditions of service.

3.31322 *Number and type of head lamps and auxiliary road lighting lamps required.* Every bus, truck, or truck-tractor shall be equipped with (a) two head lamps with an upper and lower distribution of light selectable at the driver's will, or (b) with two single-beam head lamps supplemented by two auxiliary single beam head lamps furnishing respectively, an upper and lower distribution of light, also selectable at the driver's will.

3.31323 *Aiming and intensity of head lamps.* Head lamps shall be constructed and installed so as to provide adequate and reliable illumination and shall conform to the appropriate specification set forth in the SAE Recommended Practices [1] or SAE Standards [1] for "Electric Headlamps for Motor Vehicles" or "Sealed Beam Headlamp Units for Motor Vehicles."

3.3133 *Clearance, side-marker, and other lamps.*

3.31331 *Mounting clearance, side-marker, and other lamps.* Except for temporary side-marker and clearance lamps on motor vehicles being transported in drive-away operations, temporary electric lamps on projecting loads, and temporary marker lamps on pole trailers, all lamps shall be permanently and securely mounted in workmanlike manner on a permanent part of the motor vehicle. All clearance lamps and side-marker lamps must be firmly attached. Electric lamps shall not be mounted on flexible belting or strapping.

3.31332 *Visibility of clearance, side-marker, tail and projecting load-marker lamps.* Clearance, side-marker, tail and projecting load-marker lamps shall be so mounted as to be capable of being seen at all distances between 500 feet and 50 feet under clear atmospheric conditions during the time lamps are required to be lighted. The light from front clearance lamps shall be visible to the front, from side-marker lamps to the side, from rear clearance and tail lamps to the rear of the motor vehicle, and projecting load-marker lamps from those directions required by Rule 3.3118.

3.31333 *Specifications for clearance, side-marker, tail and projecting load-marker lamps.* Clearance, side-marker, tail and projecting load-marker lamps shall be constructed and installed so as to provide an adequate and reliable warning signal. These lamps shall conform to the appropriate requirements set forth in the SAE Recommended Practice [1] for "Clearance, Side-Marker and Identification Lamps," or the SAE Standard [1] for "Tail Lamps" or the Commercial Standard, CS83-41, for "Clearance, Marker, and Identification Lamps for Vehicles" or "Electric Tail Lamps for Vehicles," CS84-41,[2] and projecting load-marker lamps shall conform to the same specifications as clearance and side-marker lamps.

3.31334 *Operation and visibility of stop lamps.* All stop lamps on a motor vehicle or combination of motor vehicles shall be actuated upon application of any of the service brakes except that stop lamps on a towing vehicle need not be actuated when service brakes are applied to the towed vehicle or vehicles only. Stop lamps shall be constructed and installed so as to provide a clear, adequate, and reliable warning signal and shall conform to the requirements set forth, in the SAE Standard [1] for "Stop Lamps" or the Commercial Standard, CS86-41, for "Electric Stop Lamps for Vehicles".[2]

3.31335 *Number of lights limited.* The exterior lighting devices on any motor vehicle, except service vehicles, shall be limited to those required by these regulations plus:

(a) One set of directional signals on the front and one set of directional signals on the rear;

(b) Not over three destinations signs on any bus and not over two identification lamps on a bus having a seating capacity of eight or less persons;

(c) One side-marker lamp located on each side approximately at the center of each truck, semitrailer, full trailer or pole trailer;

(d) Two amber stop lamps on the front of each bus, one at each side;

(e) Two adverse weather lamps on the front;

(f) One spot lamp;

(g) Two backing lamps;

(h) License plate lamps;

(i) One additional stop lamp and one additional tail lamp on the rear of motor vehicles required by these regulations to have only one of such lamps or two stop lamps on the rear of motor vehicles not required to have any stop lamps.

(j) Provided that this rule shall not be construed as to prohibit the presence of additional unlighted lamps.

3.31336 *Color of lighting devices.* The color of exterior lighting devices shall be as follows:

(a) All front clearance lamps, and all side-marker lamps except the one on each side at or near the rear shall when lighted display an amber color.

(b) No red lighting device of any character, shall be mounted at any place other than on the rear or on the sides near the rear.

(c) All rear clearance lamps, the side-marker lamp on each side at or near the rear, and any other lamps mounted on the rear or on the sides near the rear shall display a red color except as permitted by Rule 3.3116, and paragraphs (d), (e), and (f) of this rule.

(d) The stop lamp or lamps on the rear of any motor vehicle shall be red or amber.

(e) A backing lamp or lamps of any color may be mounted on the rear of any motor vehicle if the switch controlling such lamp or lamps be so arranged that it shall be turned off whenever the vehicle on which it is mounted is in any forward gear. The backing lamp or lamps when unlighted shall be covered or otherwise designed or arranged so as not to reflect objectionable glare in the eyes of drivers of vehicles approaching from the rear.

(f) No provision of this rule shall be so construed as to prohibit the use of any white lamp or lamps for the purpose of illuminating license plates or destination signs on busses.

(g) No provision of this rule shall be so construed as to prohibit the use of motor vehicles in combination if such motor vehicles are severally lighted as required by Rules 3.3111 to 3.3116, inclusive.

(h) Wherever reference is made in these regulations to the colors "red", "amber" or "white" the colors omitted shall be as prescribed in the SAE Standard [1] "Color Specification for Electric Lamps".

3.31337 *Lighting devices to be steady-burning.* All exterior lighting devices, except directional signals on any vehicle and warning lamps on emergency and service vehicles shall be of the steady-burning type.

3.3134 *Reflectors.*

3.31341 *Mounting of reflectors.* Reflectors required by these regulations shall be mounted upon the motor vehicle at a height of not less than 24 inches ground on which the motor vehicle stand nor more than 60 inches above the ground on which the motor vehicle stands, except that reflectors shall be mounted as high as practicable on motor

[1] Wherever reference is made in these regulations to SAE Standards or SAE Recommended Practice, they shall be as found in the 1950 edition of the "SAE Hand Book" published by the Society of Automotive Engineers, 29 West 39th Street, New York, N. Y.

[2] Wherever reference is made in these regulations to Commercial Standards, they shall be as found in Commercial Standards, effective January 1, 1941, and revised September 15, 1941, as published by the United States Government Printing Office.

vehicles which are so constructed as to make compliance with the 24 inch requirement impractical. Except for temporary reflectors required for vehicles in drive-away operations, all reflectors shall be permanently and securely mounted in workmanlike manner so as to provide the maximum of stability and the minimum likelihood of damage. Required reflectors otherwise properly mounted may be securely installed on flexible strapping or belting providing that under conditions of normal operation they reflect light in the required directions. Required temporary reflectors mounted on motor vehicles during the time they are in transit in any drive-away operation must be firmly attached.

3.31342 *Visibility of reflectors.* All required reflectors shall be so constructed and installed as to perform their function adequately and reliably. The adequacy and reliability shall be determined by whether or not such reflectors conform to the requirements for Class A reflectors contained in the SAE Recommended Practice[1] "Reflex Reflectors".

3.31343 *Color of reflectors.* All reflectors on the rear and those nearest to the rear on the sides, except those referred to in Rule 3.31344, shall reflect a red color; all other reflectors, except those referred to in Rule 3.31344, shall reflect an amber color, provided that this requirement shall not be construed to prohibit the use of motor vehicles in combination if such motor vehicles are severally equipped with reflectors as required by Rules 3.3111 to 3.3116, inclusive. Wherever reference is made to the colors "red" or "amber" for reflectors, such colors shall correspond to the requirements in SAE Standard[1] "Color Specification for Electric Lamps".

3.31344 *Retroreflective surfaces.* Retroreflective surfaces may be used provided such surfaces comply with the following requirements:

(a) Designs do not resemble traffic control signs, lights, or devices except that striping of types enumerated in (d) may be used;

(b) Designs do not tend to distort the length and/or width of the motor vehicle;

(c) No part of any such surface is closer than three inches from any required lamp or reflector unless of the same color as such adjacent lump or reflector;

(d) Designs on the rear of a motor vehicle shall be limited to:

(1) Lettering or numbering with or without retroreflective background and/or

(2) Single or two-colored straight-edged striping, and/or

(3) An additional area all of which shall be of a single color,

(4) The designs permitted by (2) and (3) shall be so located as to indicate substantially the over-all width of the vehicle;

(e) Green or amber shall not be used on the rear nor red on the front of a motor vehicle;

(f) No provision of this rule shall be so construed as to prohibit the use of retroreflective license plates required by State or local authorities.

3.314 *Requirements for electrical system.*

3.3141 *Electrical conductivity of wiring.* Wiring for both low tension and high tension circuits shall be constructed and installed so as to function reliably and adequately and shall conform with the appropriate requirements in the SAE Standards[1] for "Insulated Cable", and the SAE Recommended Practice for[1] "Automobile Wiring". Required lamps shall be connected to the source of power with stranded wire having an electrical conductivity not less than that of SAE wire size No. 16 copper wire: *Provided,* That if the use of such wire results in a voltage drop of over 10 percent between the source of power and the point of use then stranded wire of such higher conductivity as may be necessary to limit the voltage drop to 10 percent or less shall be used. This shall not be so construed as to prohibit the use of the frame or other metal parts of a motor vehicle as a return ground system provided that for truck-tractor-semitrailer combinations, the truck-tractor is electrically bonded to the semitrailer.

3.3142 *Requirements for insulation, supports, and grommets for wiring.* Wiring shall, when possible, be grouped together and protected by nonmetallic tape, braid, or other covering capable of withstanding severe abrasion or shall be protected by being enclosed in a metallic sheath or tube. Wiring shall be properly supported. Wiring shall not be so located as to be likely to be charred, overheated, or enmeshed in moving parts. Insofar as is practicable, wiring shall not be adjacent to any part of the fuel system. The edges of all holes in metal through which the wiring passes, unless the wiring is metal-covered, shall be rolled or bushed with a rubber (or a suitable substitute) grommet.

3.3143 *Grounding.* Ground connections shall be readily accessible. The contact surfaces of electrical connections shall be clean and free of oxide, paint, or other nonconductive coating.

3.3144 *Battery installation.* Every storage battery shall be either enclosed or covered by a removable enclosure or cover or by a fixed part of the motor vehicle. Removable enclosures or covers shall be substantial and shall be securely latched or fastened. The storage battery compartment and adjacent metal parts shall be painted or coated with an acid-resisting paint or coating and shall have openings to provide ample battery ventilation and drainage. Wherever the cable to the starting motor passes through a metal compartment, the cable shall be protected against grounding by an acid and waterproof insulated bushing. Wherever a battery and a fuel tank are both placed under the driver's seat, they shall be partitioned from each other, and each compartment shall be provided with an independent cover, ventilation, and drainage.

3.3145 *Overload protective devices.* The current to all low tension circuits, except starting motor and primary ignition circuits, shall pass through overload protective devices. The protective devices for electric circuits on every motor vehicle manufactured on or after ----------, except busses having a seating capacity of eight or less persons or motor vehicles being transported in drive-away operations, shall be so arranged that the head lamp circuit or circuits shall not be affected by a short circuit or other electrical difficulties in any of the other lighting circuits on the motor vehicle.

3.3146 *Detachable electrical connections.* Electrical wiring between towing and towed vehicles shall be contained in a cable or cables mechanically and electrically adequate and free of short or open circuits. Suitable provision shall be made in every such detachable connection to afford reasonable assurance against accidental disconnection or connection in an incorrect manner. Detachable connections made by twisting together wires from the towed and towing units are prohibited. Precaution shall be taken to provide sufficient slack in the connecting wire or cable to accommodate without damage all normal motions of the parts to which they are attached.

3.3147 *Wiring to be properly installed.* Electrical wiring shall be systematically arranged and installed in a workmanlike manner. All detachable wiring shall be attached to posts or terminals by means of suitable cable terminals and such cable terminals shall conform to the SAE Standard[1] for "Cable Terminals". The number of wires attached to any post shall be limited to the number such post was designed to accommodate. The presence of bare, loose, dangling, chafing, or poorly connected wires is prohibited.

3.32 Brakes.

3.321 *Adequacy of brakes.* Every bus, truck, and truck-tractor, except as provided in Rule 3.323 (b), shall be equipped with brakes adequate to control the movement of, and to stop and to hold, such vehicle or combination of vehicles of which it may be a part. Two separate means of brake application shall be provided. One such braking means shall be a mechanical parking brake which shall employ a ratchet and pawl or other suitable locking and releasing mechanism. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the vehicle without brakes adequate to stop and to hold such vehicle.

3.322 *Parking brakes.* Every bus, truck, or truck-tractor shall be equipped with parking brakes adequate under any condition of loading to hold such vehicle or combination of vehicles to which such motor vehicle may be attached on any grade on which said vehicle or combination of vehicle is to be operated. The operating controls of such parking brakes shall be independent of the operating controls of the service brakes.

3.323 *Brakes required on all wheels.* Every motor vehicle shall be equipped with brakes on all wheels, except:

(a) Any full trailer, semitrailer, or pole trailer of a gross weight not exceeding 3,000 pounds: *Provided,* That the gross weight of any such full trailer or pole trailer, no part of the load of which rests upon the towing vehicle, shall not exceed 40 percent of the gross weight of the towing vehicle and that the gross weight of any such semitrailer or pole trailer part of the load of which rests upon the towing vehicle, shall not exceed 40 percent of the gross weight of the towing vehicle when connected to such semitrailer or pole trailer;

(b) Any vehicle being towed in a drive-away operation, provided the combination of vehicles is capable of complying with the performance requirements of Rule 3.329; only such brakes on the vehicle or vehicles being towed in drive-away operations need be operative as may be necessary to insure compliance with the performance requirements of Rule 3.329; and

(c) Trucks and truck-tractors having three or more axles which motor vehicles need not have brakes on the front wheels. (This exemption shall be in effect pending the results of tests to determine the relative safety of operation with and without front wheel brakes.)

(Diagrams to illustrate brake requirements for light trailers.)

3.324 *Automatic application of brakes.*

3.3241 *Automatic application of brakes upon breakaway of trailer.* Every full trailer, semitrailer, and pole trailer required to be equipped with brakes, except motor vehicles with hydraulic brakes engaged in driveaway operations, shall be equipped with brakes of such a character as to be automatically applied upon breakaway from the towing vehicle, and means shall be provided to maintain application of the brakes on the trailer in such case for at least 15 minutes. Every truck or truck-tractor manufactured after ----------, shall be provided with means for providing that in case of breakaway of the semitrailer, the service brakes on the towing vehicle will be sufficiently operative to stop the towing vehicle.

3.3242 *Protection for front brake lines.* On every bus manufactured after ----------, the braking system, if equipped with air brakes, shall be so constructed that in the event any brake line forward of the driver's seat or any line to any of the front wheels is broken, the air supply to any such line can be shut off, by either automatic or manual means. In addition, means shall also be provided in the event of such breakage to enable the driver to apply the brakes on the rear wheels. The means used to apply the brakes on the rear wheels shall be adjacent to but neither forward nor to the left of the driver's seat.

3.325 *Brake tubing and hose.*

3.3251 *Adequacy of brake tubing and hose.* Brake tubing and brake hose shall be:

(a) Designed and constructed of proper material and so installed as to insure proper continued functioning;

(b) Sufficiently long and flexible as to accommodate without damage all normal motions of the parts to which they are attached;

(c) Suitably secured against chafing, kinking, or other mechanical injury; and

(d) Brake hose shall be so constructed as to insure adequate and reliable functioning and shall conform to the appropriate specification set forth in the SAE Standards[1] for "Hydraulic Brake Hose," "Air Brake Hose" or "Vacuum Brake Hose."

3.3252 *Construction of connections for brake tubing and hose.* All connections for air, vacuum, or hydraulic braking systems shall be:

(a) Adequate in material and construction to insure proper continued functioning;

(b) Designed, constructed, and installed as to insure, when properly connected, an attachment free of leaks, constrictions or other defects;

(c) Suitable provision shall be made in every detachable connection to afford reasonable assurance against accidental disconnection; and

(d) The vacuum brake engine manifold connection shall be at least a 3/8 inch diameter hole.

3.326 *Brake lining.* The brake lining on every motor vehicle manufactured after ---------- and all replacement brake lining on all motor vehicles shall be adequate for the service in which it is used and shall conform to the requirements of Federal Specification HH-L361A (September 1941), except that the use of different types of testing machines and methods is permitted to determine compliance with this specification if the results are comparable to those arrived at by the procedures contained in the specification.

3.327 *Brake operations.*

3.3271 *Brakes to be operative at all times.* All brakes with which motor vehicles are equipped shall be operative at all times except:

(a) As provided in Rule 3.323 (b):

(b) And except brakes on disabled vehicles being towed; but means may be used for reducing the braking effort on the front wheels of the power unit of a combination of motor vehicles or of removing or reducing the braking effort on the front wheels of a three axle truck or truck-tractor provided that such means for reducing or removing the braking effort shall be used only when operating under adverse road conditions such as wet, snowy, or icy roads.

NOTE: Permission to shut off entirely front wheel brakes on three axle trucks and truck-tractors when operating under adverse weather conditions shall be in effect pending the results of tests to determine the relative safety of operation with and without front wheel brakes.

3.3272 *Single valve to operate all brakes.* Every motor vehicle manufactured after ----------, which is equipped with power brakes, shall have the braking system so arranged with one application valve shall operate all the service brakes on the motor vehicle or combination of motor vehicles; this shall not prohibit motor vehicles from being equipped with an additional valve to be used to operate the brakes on a trailer or trailers. This rule shall not be applicable to drive-away operations unless the brakes on such drive-away operations are designed to be operated by a single valve.

3.328 *Reservoirs and warning devices.*

3.3281 *Reservoirs required on busses, trucks, and truck-tractors.* Every bus, truck, and truck-tractor manufactured after ----------, which is equipped with an air or vacuum brake system, shall be equipped with a reservoir or reservoirs of sufficient capacity to insure a brake application sufficient to stop the vehicle within the stopping distance requirements of Rule 3.329 in the event the engine stops. No such reservoir shall be required if the braking system is so designed and installed as to provide for application of the service brakes through hydraulic or mechanical means in event of failure of the air or vacuum system or source of supply of such systems.

3.3282 *Warning devices.* Every motor vehicle manufactured after ----------, which is required by Rule 3.3231 to be equipped with a reservoir, shall be provided with either an audible or visible warning signal to indicate readily to the driver any loss or lack of air or vacuum sufficient to prevent the vehicle from being stopped. A gage indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement.

3.329 *Brake performance.* Every motor vehicle or combination of motor vehicles shall, upon application of the service brakes, be capable, at all times and under all conditions of loading, of being brought to a stop within a braking distance of 30 feet from a speed of 20 miles per hour when tested on a dry, smooth, level road free from loose material. The braking distance shall be measured by means of an instrument or machine of the decelerometer type capable of being read in feet to stop from 20 miles per hour.

3.33 *Glazing and window construction.* Glazing and window construction shall comply with the requirements of Specification 3.33 contained in the appendix to these regulations.

3.34 *Miscellaneous parts and accessories.*

3.3401 *Windshield wiper.* Every truck, bus, truck-tractor, and every single motor vehicle and the towing motor vehicle of every combination of motor vehicles engaged in drive-away operations, having a windshield, shall be equipped with at least two automatically-operating windshield wiper blades, one on each side of the center line of the windshield, for cleaning rain, snow, or other moisture from the windshield and which shall be in such condition as to provide clear vision for the driver.

Every truck, truck-tractor, and bus, except buses having a seating capacity of eight or less persons, manufactured after ----------, which depends upon vacuum to operate the windshield wipers, shall be so constructed that the operation of the wipers will not be adversely affected by change in the intake manifold pressure.

3.3402 *Defrosting device.* Every truck, bus, truck-tractor, and every single motor vehicle and the towing motor vehicle of every combination of motor vehicles engaged in drive-away operations having a windshield, when operating under conditions such that ice, snow, or frost would be likely to collect

[1] See footnote 1 on p. 31.

[1] See footnote 1 on p. 31.

on the outside of the windshield or condensation on the inside of the windshield, shall be equipped with a device or other means for preventing or removing such obstructions to the driver's view. No manually operated device shall be deemed to meet the requirements of this rule.

3.3403 *Rear-vision mirrors.* Every truck, truck-tractor, bus, and the towing motor vehicle of every combination of motor vehicles engaged in drive-away operations, shall be equipped with two rear-vision mirrors, one at each side firmly attached to the outside of the motor vehicle and so located as to reflect to the driver a view of the highway to the rear along both sides of the vehicle, provided that only such mirror shall be required at the driver's side of trucks which are so constructed that the driver has a view to the rear by means of an interior mirror.

3.3404 *Horn.* Every truck, bus, truck-tractor, and every single motor vehicle and the towing motor vehicle of every combination of motor vehicles engaged in drive-away operations shall be equipped with a horn and actuating elements which shall be in such condition as to give an adequate and reliable warning signal.

3.3405 *Fuel containers for propulsion of motor vehicles.*

3.34051 *Fuel container not to project.* No part of any fuel tank or container or intake pipe shall project beyond the overall width of any motor vehicle upon which it is mounted nor shall any part of any fuel tank be located forward of the front axle of the power unit upon which it is located.

3.34052 *Location of fuel container on bus.* No part of any fuel tank or container or intake pipe shall be located within or above the passenger-carrying portion of any bus unless securely sealed off from such compartment by means of a substantial metal cover. Every bus manufactured after _____, except busses having a seating capacity of eight or less persons, shall have the intake pipe located more than three feet from any passenger door or emergency exit door unless such fuel tank is so designed as to prevent spillage from the intake pipe in the event of overturn.

3.34053 *Gravity or siphon feed prohibited.* No fuel tank on a motor vehicle shall be so located as to permit gravity or syphon feed.

3.34054 *Selector valves.* The fuel feed line on any truck or truck-tractor shall be arranged so as not to draw fuel from two or more tanks simultaneously. A selector valve shall be furnished when more than one tank is used. The selector control valve shall be installed so that either (a) it is in normal reach of the driver so that he can readily operate it without taking his eyes from the road or moving from his customary driving position, or (b) the driver must stop the vehicle and leave his seat in order to operate the valve.

3.34055 *Liquid fuel containers.* Every liquid fuel tank or container containing fuel for the propulsion of the motor vehicle shall be of substantial construction, free from leaks, and securely attached to the motor vehicle in a manner which constitutes good practices.

Side-mounted gasoline tanks on any motor vehicle manufactured after _____, and any replacement side-mounted gasoline tank, shall comply with Specification 3.34055 contained in the appendix to these regulations.

Every gasoline fuel tank except side-mounted gasoline tanks, on any truck or truck-tractor manufactured after _____, and any replacement gasoline tank for such vehicles except side-mounted gasoline tanks, shall comply with all the provisions of Specification 3.34055 contained in the appendix to these regulations except paragraphs 2.0, 3.0, and 5.01 thereof.

3.34056 *Liquefied petroleum gas fuel system.* Every motor vehicle utilizing liquefied petroleum gas for its propulsion shall be equipped with a fuel system which complies with Part IV of the January 1947 edition of the "Standards of the National Board of Fire Underwriters for the Design, Installation and Construction of Containers and Pertinent Equipment for the Storage and Handling of Liquefied Petroleum Gasses" as prepared by the Committee on Gases of the National Fire Protection Association, 60 Batterymarch Street, Boston, Mass.

3.3406 *Coupling devices and methods of towing.*

3.34061 *Coupling devices, except for drive-away operations.*

3.340611 *Mounting of fifth wheel.* The lower half of every fifth wheel mounted on any truck-tractor or dolly shall be securely affixed to the frame thereof by U-bolts of adequate size, securely tightened, or by other means providing at least equivalent security. Such U-bolts shall not be of welded construction. The installation shall be such as not to cause cracking, warping, or deformation of the frame. Adequate means shall be provided positively to prevent the shifting of the lower half of a fifth wheel on the frame to which it is attached.

3.340612 *Securing of fifth wheel parts.* The upper half of every fifth wheel shall be fastened to the motor vehicle with at least the security required for the securing of the lower half to a truck-tractor or dolly.

3.340613 *Adequate locking of fifth wheel.* Locking means shall be provided in every fifth wheel mechanism, including adapters when used, so that the upper and lower halves may not be separated without the operation of a positive manual release. A release mechanism operated by the driver from the cab shall be deemed to meet this requirement. On fifth wheels designed and constructed as to be readily separable, the fifth wheel locking devices shall apply automatically on coupling for any motor vehicle manufactured after _____.

3.340614 *Tow-bar.* Every full trailer shall be equipped with a tow-bar and means of attaching the tow-bar to the towing and towed units which shall be structurally adequate for any weight drawn, properly and securely mounted, without excessive slack but with sufficient play to allow for universal action of the connection, and provided with a suitable locking means to prevent accidental separation of the towed and towing motor vehicles. The mounting of the trailer hitched (pintle-eye or equivalent mechanism) on the towing motor vehicle shall include sufficient reinforcement or bracing of the frame to provide sufficient strength and rigidity and to prevent undue distortion of the frame.

3.340615 *Tracking.* Coupling devices shall be so designed, constructed, and installed, and the vehicles in the combination shall be so designed and constructed, as to insure that any motor vehicle or motor vehicles being towed will follow in the path of the towing vehicle without shifting or swerving from side to side over three inches to each side of the path of the towing vehicle when it is moving in a straight line.

3.340616 *Safety chains.* Every full trailer shall be coupled with a safety chain or chains (stay chains or cables) to the motor vehicle by which it is to be towed. No more slack shall be left in safety chains or cables than shall be necessary to permit proper turning. Chains or cables shall be so connected to the towed and towing vehicle and to the tow-bar as to prevent the tow-bar from dropping to the ground in the event the tow-bar fails. The means of attachment to both the towing and towed vehicles shall be capable of developing the full capacity of the safety chains or cables. Each chain or cable shall have an ultimate strength at least equal to the gross weight of the full trailer being towed. Every full trailer and every dolly used to convert a semi-trailer to a full trailer manufactured after _____ shall be equipped with a chain or cable which is approximately in line with the center line of the tow-bar.

(Diagram of required safety chain on new vehicles.)

3.340617 *Location of lower half of fifth wheel.* The lower half of every fifth wheel shall be so located that, for any condition of loading, the relationship of position of king pin to the rear axle or axles of the towing motor vehicle results in proper distribution of the total gross weight of the motor vehicles to the axles and does not unduly interfere with the steering, braking, or maneuvering of the towing motor vehicle, or otherwise contribute to unsafe operation of the motor vehicles comprising the combination.

3.340618 *Location of upper half of fifth wheel.* The upper half of every fifth wheel shall be so located as to accomplish proper distribution of weight to the axles and safe movement of the combination of motor vehicles in all turning maneuvers.

*3.34062 *Coupling devices and methods of towing, drive-away operations.*

*3.340621 *Number of drive-away vehicles in combination.* No more than two vehicles in combination shall be towed by saddle-mounts. No more than one motor vehicle shall be towed by tow-bar.

*3.340622 *Carrying vehicles on towing vehicle.* When adequately and securely attached by means equivalent in security to that provided in paragraph 2.22 of Specification 3.34062, a motor vehicle or motor vehicles may be full-mounted on the structure of a towing vehicle engaged in any drive-away operation.

*3.340623 *Carrying vehicles on towed vehicles.* No full-mounted motor vehicle shall be towed by a tow-bar. No motor vehicle shall be full-mounted on a motor vehicle towed by means of a saddle-mount unless the center line of the king pin or equivalent means of attachment of such towed vehicle is located forward of the center line of the rear axle of the towing vehicle; and unless a perpendicular to the ground from the center of gravity of the full-mounted vehicle lies forward of the center line of the rear axle of the saddle-mounted vehicle. No motor vehicle shall be full-mounted on either of the vehicles being towed by means of a double saddle-mount.

*3.340624 *Bumper tow-bars on heavy vehicles prohibited.* Tow-bars of the type which depend upon the bumpers as a means of transmitting forces between the vehicles shall not be used to tow a motor vehicle weighing more than 5,000 pounds.

*3.340625 *Front wheels of saddle-mounted vehicles restrained.* A motor vehicle towed by means of a saddle-mount shall have the motion of the front wheels restrained if under any condition of turning of such wheels they will project beyond the widest part of either the towed or towing vehicle.

*3.340626 *Vehicles to be towed in forward position.* Unless the steering mechanism is adequately locked in a straight-forward position, all motor vehicles towed by means of a saddle-mount shall be towed with the front end mounted on the towing vehicle.

*3.340627 *Tow-bar and fifth wheel requirements for drive-away operations.* No motor vehicle shall be towed in drive-away operations by means other than a tow-bar or saddle-mount connection which shall meet the requirements of Specification 3.34062 contained in the appendix to these regulations. For the purposes of these rules, coupling devices such as those used for towing house trailers and employing ball and socket connections shall be considered as tow-bars.

3.3407 *Tires.* No motor vehicle shall be operated without tires of adequate capacity to support its gross weight. The adequacy shall be determined in the following manner. The gross weight of any motor vehicle or combination of motor vehicles divided by the rated capacity of the tires on the motor vehicle as given in appendix 3.3407 shall not exceed 125 percent.

No motor vehicle shall operate on tires which have been worn so smooth as to expose any tread fabric or which have any other defect as would be likely to cause failure. No bus shall operate on tires which have their tread configurations worn smooth or with recapped or retreaded tires on the front wheels.

3.3408 *Drive shaft protection for busses.* Any drive shaft extending lengthways under the floor of the passenger compartment of a bus, except busses having a seating capacity of eight or less persons, shall be protected by means of at least one guard or bracket at that end of the shaft which is provided with a sliding connection (spline or other such device) to prevent the whipping of the shaft in the event of failure thereof or of any of its component parts. A shaft contained within a torque tube shall not require any such device.

3.3409 *Speedometer.* Every bus, truck, and truck-tractor shall be equipped with one speedometer or tachometer which shall be operative with reasonable accuracy.

3.3410 *Wheel flaps.* Every bus, truck, full trailer, semitrailer, and pole trailer manufactured after _____, and every bus, truck, semitrailer, full trailer, and pole trailer after _____, shall be equipped with suitable metal protectors or substantial flexible flaps on the rear-most wheels to prevent, as far as practicable, such wheels from throwing dirt, water, or other materials on the windshields of following vehicles: such protectors or flaps shall have a ground clearance of not more than one-fifth of the distance from the center of the rear-most axle to the center of the flaps under any conditions of loading of the motor vehicle, shall be at least as wide as the tires they are protecting; provided, however, that if the motor vehicle is so designed and constructed that the above requirements are accomplished by means of fenders, body construction, or other means of enclosure, then no such protectors or flaps shall be required; and further provided that rear wheels not covered at the top by fenders, bodies, or other parts of the vehicle shall be covered at the top by protective means extending at least to the center line of the rearmost axle.

3.3411 *Location of exhaust system.* No part of the exhaust system of any motor vehicle shall be so located as would be likely to result in burning, charring or damaging the electrical wiring, the fuel supply, or any combustible part of the motor vehicle. The exhaust system of every bus shall discharge to the atmosphere at or within six inches forward of the rear-most part of the bus. The exhaust system of every truck and truck-tractor shall discharge to the atmosphere at a location to the rear of the cab or if the exhaust projects above the cab, at a location near the rear.

3.3412 *Standee line or bar.* Every bus, which is designed and constructed so as to allow standees, shall be equipped or plainly marked with a means for preventing passengers or indicating to passengers that they are prohibited from standing forward of a perpendicular plane drawn through the rear of the driver's seat and perpendicular to the longitudinal axis of the bus. In addition, every such bus shall have clearly posted at or near the front, a sign stating that it is a violation of the Interstate Commerce Commission's regulations to occupy the prohibited area. This rule shall not apply to any story of the bus other than the story in which the driver is located.

3.3413 *Passenger seats not to interfere with driver.* Any bus may have seats for passengers located in the prohibited area specified by Rule 3.3412 provided such seats are so located that passengers sitting therein will not obstruct the driver's vision or interfere with his operation of the bus.

3.3414 *Aisle seats prohibited.* No bus, except busses having a seating capacity of eight or less persons, shall be equipped with aisle or jump seats unless such seats are so designed and installed as to automatically fold and leave a clear aisle when no one is occupying the seat. No bus shall be operated if any seat therein is not securely fastened to the vehicle.

3.3415 *Floors.* The flooring in all motor vehicles shall be substantially constructed, free of holes, openings, or cracks such as would permit entrance of fumes, exhaust gases, or fire, shall not be permeated with oil or gasoline, and shall have the interior surface in good condition.

3.3416 *Sleeper berths.* Every sleeper berth shall comply with the applicable provisions of Specification 3.3416 contained in the appendix to these regulations.

3.3417 *Heaters.* After January 27, 1945, for busses, and on or after _____, for every other motor vehicle, every heater shall comply with Specification 3.3417 contained in the appendix to these regulations. Hoses for all hot water heaters shall be specifically designed and constructed for that purpose.

3.3418 *Protection against shifting cargo.* Every motor vehicle carrying cargo such as beams, poles, pipes, and heavy rolls, the nature of which is such that the shifting thereof due to rapid deceleration or accident would be likely to result in penetration or crushing of the driver's compartment must, in addition to having the load securely fastened, be provided with head-boards or similar devices of sufficient strength to prevent such shifting and penetration. All motor vehicles shall be so constructed or be equipped with adequate cargo fastening devices so that the load will not penetrate the cargo department wall when subjected to the maximum braking deceleration of which the vehicle is capable.

3.3419 *Rear bumpers.* Every motor vehicle, except truck-tractors, pole trailers, and vehicles engaged in drive-away operations, manufactured after _____, which is so constructed that the body or chassis, if without a body, has a clearance at the rear end of more than 30 inches from the ground when empty, shall be provided with bumpers or similar devices which shall be so constructed and located that (a) the clearance between the bottom of the bumpers and the ground shall not exceed 30 inches with the vehicle empty; (b) the maximum distance between the closest points between bumpers, if more than one bumper is used, shall not exceed 24 inches; (c) the maximum distance from the outside edge of any bumper and the outside rear edge of the body or chassis if without a body shall not exceed 18 inches; (d) the bumpers shall not be located over 24 inches forward of the extreme rear of the vehicle; and (e) the bumpers shall be substantially constructed and firmly attached. Motor vehicles so constructed that the body, chassis or other parts of the vehicle comply with the above requirements

shall be deemed to be in compliance with this rule.

3.3420 *Flags on projecting loads.* Any motor vehicle having a load which extends beyond the sides or more than four feet beyond the rear shall have the extremities of the load marked with a red flag, not less than 12 inches square, at each point where a light is required by Rule 3.3118.

3.3421 *Television receivers.* Any motor vehicle equipped with a television viewer, screen or other means of visually receiving a television broadcast shall have the viewer or screen located in the motor vehicle at a point to the rear of the back of the driver's seat if such viewer or screen is in the same compartment as the driver and the viewer or screen shall be so located as not to be visible to the driver while he is driving the motor vehicle. The operating controls for the television receiver shall be so located that the driver cannot operate them without leaving the driver's seat.

3.3422 *Emergency doors on busses to be marked.* Any bus equipped with an emergency door shall have such door clearly marked in letters at least one inch in height with the words "Emergency Door" or "Emergency Exit." Emergency doors shall also be identified by a red electric lamp readily visible to passengers which lamp shall be kept lit at all times when lamps are required to be lit by Rule 2.25 of these regulations.

3.35 *Emergency parts and accessories.*

3.351 *On all power units.* On every bus, truck, truck-tractor and every single motor vehicle or the towing vehicle of every combination of motor vehicles engaged in drive-away operation, there shall be:

(a) At least one fire extinguisher, labeled with Underwriters' Laboratories, Inc., 207 East Ohio Street, Chicago 11, Ill., approval under Classification B, and utilizing an extinguishing agent which does not need protection from freezing, properly filled, and securely mounted in a bracket. (Minimum size: Two-quart carbon tetrachloride type, four-pound carbon dioxide type, four-pound dry gas type or extinguishers of other approved types having extinguishing capacity equivalent to any of these types of extinguishers. If desired, two extinguishers may be carried to obtain the required capacity.) This requirement shall not apply to any bus having a seating capacity of eight or less persons or any drive-away operation.

(b) At least one spare electric bulb for each kind of electric lamp used for any of the lighting devices required by these regulations. When sealed-beam head lamps are used, a spare "sealed-beam" headlamp shall be required.

(c) At least one spare fuse or other overload protective device, if the devices used are not of a reset type, for each kind and size used for any electrical circuit.

(d) One set of tire chains for at least one driving wheel on each side, during the time when likely to encounter conditions requiring them.

(e) Three flares (liquid-burning pot torches) or three electric lanterns or three red emergency reflectors. Flares (pot torches) shall be adequate and reliable and shall comply with the requirements contained in Commercial Standard C888–41 "Liquid-Burning Flares," effective January 1, 1941.

Electric lanterns shall be adequate and reliable and shall comply with the requirements contained in the SAE Recommended Practice[1] "Electric Emergency Lanterns" or Commercial Standard CS87–41 "Red Electric Warning Lanterns."

Each red emergency reflector shall conform in all respects to the requirements of specification 3.351 (g) contained in the appendix to these regulations.

(f) At least three fusees (only if carrier elects to carry and use flares (pot torches) as warning signals) with standards adequate to maintain the fusees in an upright position under service conditions. Each fusee shall be adequate and reliable, shall comply with the specifications of the Bureau of Explosives, 30 Vesey Street, New York, N. Y., dated _____, and be so marked, and shall be capable of burning at least 15 minutes.

NOTE: Flares (pot torches), fusees, oil lanterns, or any signal produced by a flame, shall not be carried or used as warning signals for motor vehicles used in the transportation of explosives, inflammable liquids or inflammable compressed gases in cargo tanks, or in any motor vehicle using inflammable compressed gases as a motor fuel; but in lieu of such flares and fusees, three electric lanterns or three red emergency reflectors shall be carried.

(g) At least two red cloth flags, not less than 12 inches square, with standards adequate to maintain the flags in an upright position.

(h) Hand tools adequate to effect replacement of lights and fuses.

(i) The fusees, overload protective devices, bulbs, and "sealed-beam" head lamps contained in the towed vehicle of combinations of motor vehicle engaged in drive-away operations, if suitable as replacement parts, are deemed to fulfill the requirements of (b) and (c) above.

3.352 *Additional requirements for busses except busses engaged in drive-away operations.* On every bus there shall be:

(a) All items listed under Rule 3.351, and in addition:

(b) One first-aid kit, heavy duty 10-unit or larger type, complying with specification 3.352 (b) contained in the appendix to these regulations.

(c) One hand ax, except for busses having a seating capacity of eight or less persons.

APPENDIX 3.33—GLAZING AND WINDOW CONSTRUCTION SPECIFICATION

1.0 *Glazing in specified openings.* Whenever glazine is used in the windshield, window, door, or any other glazed opening into a bus, truck, or truck-tractor, it shall be glazing which shall conform to the requirements contained in the "American Standard Safety Code for Safety Glass for Glazing Motor Vehicles Operating on Land Highways, Z26.1 1950," by the American Standards Association.

[1] See footnote 1 on p. 31.

1.1 *Window construction.*

1.11 *Windows in trucks and truck-tractors.* Every truck and truck-tractor shall have, in addition to the area provided by the windshield, at least one window on each side of the driver's compartment which windows shall have sufficient area to contain either an ellipse having a major axis of 18 inches and a minor axis of 13 inches, or an opening containing 200 square inches formed by a rectangle 13 inches by 17¾ inches with corner arcs of six inch maximum radius. The major axis of the ellipse and the long axis of the rectangle shall not make an angle of more than 45 degrees with the surface on which the unladen vehicle stands: however, if the cab is designed with a folding door or doors or with clear openings where doors or windows are customarily located, then no windows shall be required in such locations. If the windows are not of the push-out type, the glazed area shall contain the ellipse or rectangle; if of the push-out type, the area of the opening after the movable sash has been removed shall contain the ellipse or rectangle. No area shall be included in this minimum prescribed area unless it is either glazed with laminated safety glass or complies with paragraph 1.13 of this specification.

1.12 *Window in busses.* Every bus, except busses having a seating capacity of eight or less persons shall have, in addition to the area provided by the windshield, for each seated passenger space provided, inclusive of the drive: (a) at least 67 square inches of glazing if such glazing is not contained in a push-out window; or (b) at least 67 square inches of free opening resulting from opening of a push-out type window. No area shall be included in this minimum prescribed area unless: (a) it will provide an open area sufficient to contain an ellipse having a major axis of 18 inches and a minor axis of 13 inches or an opening containing 200 square inches formed by a rectangle 13 inches by 17¾ inches with corner arcs of six inch maximum radius. The major axis of the ellipse and the long axis of the rectangle shall make an angle of not more than 45 degrees with the surface on which the unladen vehicle stands. The area shall be measured either by removal of the glazing if not of the push-out type or of the movable sash if of the push-out type, and it shall be either glazed with laminated safety glass or comply with paragraph 1.13 of this specification.

No less than 40 percent of such prescribed glazing or opening shall be on one side of any bus.

1.13 *Push-out window requirements.* Every glazed opening in a truck, truck-tractor, or bus, except busses having a seating capacity of eight or less persons, used to satisfy the requirements of paragraphs 1.11 and 1.12 above, if not glazed with laminated safety glass, shall have a frame or sash so designed, constructed, and maintained that it will yield outwardly to provide the required free opening when subjected to the drop test specified in Test 25 of the above Code. The height of drop required to open such push-out windows shall not exceed the height of drop required to break the glass in the same window when glazed with the type of laminated glass specified in Test 25 of the Code. The sash for such windows shall be constructed of such material and be of such design and construction as to be continuously capable of complying with the above requirement. Such windows shall not be secured by latches, locks, or similar fastening devices, if such devices, when fastened, will require a greater effort to push-out the window than is above required.

1.14 *Window obstructions.* Windows, if otherwise capable of complying with paragraphs 1.11 and 1.12 of this specification shall not be obstructed by bars or other such

means located either inside or outside such windows such as would hinder the escape of occupants unless such bars or other such means are so constructed as to provide a clear opening, at least equal to the opening provided by the window to which it is adjacent, when subjected to the same test specified in paragraph 1.13 above. The point of application of such force shall be such as will be most likely to result in the removal of the obstruction.

1.2 *Marking windows.* Each push-out window in a bus, except buses having a seating capacity of eight or less persons, shall be identified as such by clearly legible and visible signs, lettering or decalcomania. Such marking shall include appropriate wording to indicate that it is a push-out window and also the method to be used for obtaining emergency exit. Any window as large as the required size specified in paragraph 1.12 which is not equipped with either laminated safety glass or as a push-out window shall be clearly marked to so indicate and shall also be marked to indicate the nearest window which does comply with the requirements of paragraph 1.13.

APPENDIX 3.34055—GASOLINE FUEL TANKS SPECIFICATION

1.0 *Construction of fuel tank.*

1.01 *Material to be suitable.* Material used in the construction of the tank and its fittings shall be suitable for the purpose intended.

1.02 *Construction of joints.* Joints shall be closed only by arc, gas, seam, or spot welding, brazing, or silver soldering.

1.03 *Provision for fittings.* The tank shall be provided with suitable flanges or spuds for the assembly of all fittings.

1.04 *Threads.* Threads on all fittings shall be American (National) Standard Taper Pipe Thread or SAE Standard Short Dryseal Taper Pipe Thread except that this requirement shall not be applied to the fill-pipe cap. There shall not be less than four full threads in engagement in any fitting.

1.05 *Drains and bottom fittings.* Drains and other bottom fittings shall not extend more than ¾ inch below the lowest part of the tank and shall be designed or guarded to minimize their being torn loose. All drain fittings shall be so designed and located as to permit complete drainage. The drain shall be located in a suitable flange or spud equipped with a suitable pipe plug at least ¾ inch in diameter.

1.06. *Fuel discharge line.* The fitting through which the fuel is drawn from the tank shall be located above the normal full line of the tank.

1.07 *Excess flow valve.* When pressure devices are used to force fuel from the tank, means shall be provided to prevent the continued flow of fuel in the event the fuel feed line is broken.

1.08 *Fill-pipe design.* The fill-pipe shall be designed and located so as to minimize the probability of its being torn loose in the event of an accident. The fill-pipe and its vents shall be so designed and constructed as to permit filling at a rate of 20 gallons per minute without spillage.

1.09 *Air vent.* Every fuel tank shall be equipped with an air vent of a non-spill type (ball check or equivalent). The air vent may be mounted separately or combined with the filler cap or safety vent.

1.10 *Fusible safety vents.* The fuel tank shall be provided with a fusible safety vent or vents which shall be so designed as to limit the pressure rise in the tank under any fire condition to a maximum of 50 pounds per square inch gage. The vent area shall be sufficient to prevent a rise in pressure in the tank of more than 10 percent of the release pressure of the safety vent or vents when the tank is subjected to a fire of any magnitude. If but one fusible safety vent is provided, it shall be located in the top of the tank; if more than one fusible safety vent is provided at least one shall be in the top of the tank.

2.0 *Tank capacity.* The liquid capacity of the tank shall be marked or provided with other means to indicate that it shall not be filled to over 95 percent of its total volume.

3.0 *Tank markings.* Each tank shall be marked to identify its manufacturer and to indicate the approximate date of manufacture by lot number or otherwise.

4.0 *Fuel tank installation.*

4.01 *General requirement.* The fuel tank shall be mounted in accordance with the best commercial practice.

4.02 *Location of fill-pipe.* The fill-pipe shall be outside the cab or body and must be so located as to minimize the likelihood of spillage of fuel during the filling process on the exhaust system or battery.

5.0 *Tests.*

5.01 *Drop tests.* (a) The tank when filled with water equal in weight to that of its fuel capacity shall withstand without leakage a drop of 30 feet falling so as to strike squarely on one corner on concrete or equivalent surface which shall not rupture under the impact. The fill-pipe and cap, fuel gage sending device, and the air intake and safety vents shall not leak more than 1 ounce of water per minute as a result of this test.

(b) The tank when filled with water equal in weight to that of its fuel capacity shall withstand without leakage a drop of 10 feet falling so as to strike squarely on the fill-pipe on concrete or equivalent surface which shall not rupture under the impact. The fill-pipe or cap shall not leak more than 1 ounce of water per minute as a result of this test.

5.02 *Safety vent test.* The safety vent, or vents, shall limit the rise in internal pressure in the tank to a maximum of 50 lbs. per square inch gage when the tank is subjected to the following conditions:

(a) Tank filled to ¾ of rated capacity with standard fuel and placed in inverted position with the fuel feed outlet connection plugged;

(b) An enveloping flame applied to the tank with sufficient intensity to produce an internal fuel temperature rise of 6 to 8 degrees F. per minute starting from a fuel temperature of 50 to 80 degrees F.

5.03 *Leakage under fire.* The tank, fill-pipe, fuel gage, air-intake vent, nor any other opening except blown fusible plugs shall not leak more than 1 ounce of fuel per minute as a result of the test prescribed in paragraph 5.02 of this specification.

5.04 *Rupture test.* The tank and all appurtenances including the fill-pipe, cap, fuel gage, and air intake vent shall withstand without rupture an internal hydrostatic pressure of 150 percent of the maximum at which the safety vent releases in the test prescribed in paragraph 5.02.

5.05 *Spillage test.* At ordinary room temperature the tank when filled to capacity with its normal fuel and turned through an angle of 150 degrees from its normal position, with outlet pipe plugged, shall not spill or leak fuel at a rate greater than 1 ounce per minute. The fill-pipe, cap, fuel gage outlet, air intake vent, safety vent and any other openings shall withstand this test.

6.0 *Certification required.* Every gasoline fuel tank designed and constructed to comply with this specification shall be plainly and permanently marked with the date of manufacture and a certification of the manufacturer that it complies with this specification. The certification shall, for the type of tank to which it is applicable, contain words "Meets ICC requirements—side-mounted—gasoline" or "Meets ICC requirements—truck-gasoline—not side-mounted" or words of similar meaning.

APPENDIX 3.34062—SPECIFICATIONS FOR TOW-BARS AND SADDLE-MOUNTS FOR DRIVE-AWAY OPERATIONS

*1.0 *Specifications for tow-bars.*

*1.01 *Tow-Bars to be structurally adequate and properly mounted.* Every tow-bar shall be structurally adequate and properly installed and maintained. To insure that it is structurally adequate, it must, at least, meet the requirements of the following table:

Gross weight of towed vehicle (pounds) [1]	Longitudinal strength in tension and compression [2]		Strength as a beam (in any direction—concentrated load at center) [2] [3] (pounds)
	All tow-bars (pounds)	New tow-bars acquired and used by a motor carrier after Sept. 30, 1948 (pounds)	
Less than 5,000	3,000	6,000	3,000
5,000 and over, less than 10,000	6,000	(4)	(4)
10,000 and over, less than 15,000	9,000	(4)	(4)

[1] The required strength of tow-bars for towed vehicles of 15,000 pounds and over gross weight and of new tow-bars acquired and used after Sept. 30, 1948, for towed vehicles of 5,000 pounds and over gross weight shall be computed by means of the following formulae:

Longitudinal strength=gross weight of towed vehicle ×1.2.

Strength as a beam=gross weight of towed vehicle× 0.6.

[2] In testing, the whole unit shall be tested with all clamps, joints, and pins so mounted and fastened as to approximate conditions of actual operation.

[3] This test shall be applicable only to tow-bars which are, in normal operation, subjected to a bending movement, such as tow-bars for house trailers.

*1.02 *Tow-bar to be jointed.* The tow-bar shall be so constructed as to freely permit motion in both horizontal and vertical planes between the towed and towing vehicles. The means used to provide the motion shall be such as to prohibit the transmission of stresses under normal operation between the towed and towing vehicles, except along the longitudinal axis of the tongue or tongues.

*1.03 *Tow-bar fastenings.* The means used to transmit the stresses to the chassis or frames of the towed and towing vehicles may be either temporary structures or bumpers or other integral parts of the vehicles; provided, however, that the means used shall be so constructed, installed, and maintained that, when tested as an assembly, failure in such members shall not occur when the weakest new tow-bar which is permissible to use under paragraph 1.01 of this specification is subjected to the tests given in that paragraph.

*1.04 *Means of adjusting length.* On tow-bars, adjustable as to length, the means used to make such adjustment shall fit tightly and not result in any slackness or permit the tow-bar to bend. With the tow-bar supported rigidly at both ends and with a load of 50 pounds at the center, the sag, measured at the center, in any direction shall not exceed 0.25 inch under any condition of adjustment as to length.

*1.05 *Method of clamping.* Adequate means shall be provided for securely fastening the tow-bar to the towed and towing vehicles.

*1.06 *Tow-bar connection to steering mechanism.* The tow-bar shall be provided with suitable means of attachment to and actuation of the steering mechanism, if any, of the towed vehicle. The attachment shall provide for sufficient angularity of movement of the front wheels of the towed vehicle so that it may follow substantially in the path of the towing vehicle without cramping the

tow-bar. The tow-bar shall be provided with suitable joints to permit such movement.

•1.07 *Tracking.* The tow-bar shall be so designed, constructed, maintained, and mounted as to cause the towed vehicle to follow substantially in the path of the towing vehicle. Tow-bars of such design or in such condition as to permit the towed vehicle to deviate more than three inches to either side of the path of a towing vehicle moving in a straight line are prohibited.

•1.08 *Specification for passenger car trailer couplings.* Trailer couplings used for drive-away operations of passenger car trailers shall comply with the SAE Recommended Practice Passenger Car Trailer Couplings.[1]

•1.09 *Marking new tow-bars.* Every new tow-bar acquired and used in drive-away operations by a motor carrier after September 30, 1948, shall be plainly marked with the following certification of the manufacturers thereof (or words of equivalent meaning):

"This tow-bar complies with the requirements of the Interstate Commerce Commission for (maximum gross weight for which tow-bar is manufactured) vehicle, manufactured (month) (year) by (name of manufacturer)."

•1.10 *Safety chains and cables.* The towed vehicle shall be connected to the towing vehicle by means of two safety chains or cables. The tensile strength of such chains or cables and their means of attachment to the vehicles shall be at least equivalent to the corresponding longitudinal strength for new tow-bars required in the table of paragraph 1.01 of this specification. The required strength shall be the combined strength of the combination of chains and cables.

The chains or cables shall be crossed and attached to the vehicles near the points of bumper attachements to the chassis of such vehicles. The length of chain used shall be no more than necessary to permit free turning of the vehicles. The chains shall be attached to the tow-bar at the point of crossing or as close thereto as is practicable.

•2.0 *Specifications for saddle-mount.*

•2.1 *Definitions.*

•2.11 *"Saddle-mount"* means a device, designed and constructed as to be readily demountable, used in drive-away operations to perform the functions of a conventional fifth wheel.

•2.12 *"Upper-half"* of a "saddle-mount" means that part of the device which is securely attached to the towed vehicle and maintains a fixed position relative thereto, but does not include the "king-pin."

•2.13 *"Lower-half"* of a "saddle-mount" means that part of the device which is securely attached to the towing vehicle and maintains a fixed position relative thereto but does not include the "king-pin."

•2.14 *"King-pin"* means that device which is used to connect the "upper-half" to the "lower-half" in such manner as to permit relative movement in a horizontal plane between the towed and towing vehicles.

•2.2 *"Upper-half" specifications.*

•2.21 *Connection of "upper-half" to towed vehicle.* The "upper-half shall be securely attached to the frame or axle of the towed vehicle by means of "U-bolts" or other means providing at least equivalent security.

•2.22 *Construction of "U-bolts" or other means of attachment.* "U-bolts" used to attach the "upper-half" to the towed vehicle shall be made of steel rod, free of defects, so shaped as to avoid at any point a radius of less than one inch: *Provided, however,* That a lesser radius may be utilized if the "U-bolt" is so fabricated as not to cause more than 5 percent reduction in cross-sectional area at points of curvature, in which latter event the minimum radius shall be ⅛ inch. "U-bolts" shall have a diameter not less than required by the following table:

[1] See footnote 1 on p. 31.

Weight in pounds of heaviest towed vehicle	Diameter of U-bolts in inches		
	Double saddle-mount		Single saddle-mount [1]
	Front mount	Rear mount	
Up to 5,000	0.5625	0.500	0.500
5,000 and over	.625	.5625	.5625

[1] If a vehicle is full mounted on the single saddle-mounted vehicle, the total weight of the 2 vehicles being towed shall govern.

If other devices are used to accomplish the same purposes as "U-bolts", they shall have at least equivalent strength of "U-bolts" made of mild steel. Cast iron shall not be used for clamps or any other holding devices.

•2.23 *Location of "U-bolts" and points of support.* The distance between the most widely separated "U-bolts" shall not be less than nine inches. The distance between the most widely separated points where the "upper-half" supports the towed vehicles shall not be less than nine inches, except that saddle-mounts employing ball and socket joints shall employ a device which clamps the axle of the towed vehicle throughout a length of not less than five inches.

•2.24 *Specifications for cradle-type "upper-halves."* "Upper-halves" of the cradle-type using vertical members to restrain the towed vehicle from relative movement in the direction of motion of the vehicles shall be substantially constructed and adequate for the purpose. Such cradle-mounts shall be equipped with at least one bolt or equivalent means to provide against relative vertical movement between the "upper-half" and the towed vehicle. Bolts, if used, shall be at least ½ inch in diameter. Devices using equivalent means shall have at least equivalent strength. The means used to provide against relative vertical motion between the "upper-half" and the towed vehicle shall be such as not to permit a relative motion of over ½ inch. The distance between the most widely separated points of support between the "upper-half" and the towed vehicle shall be at least nine inches.

•2.25 *Provision against lateral movement of towed vehicle.* Towed vehicles having a straight axle or an axle having a drop of less than three inches, unless the saddle-mount is constructed in accordance with paragraph 2.5 of this specification, shall be securely fastened by means of chains or cables to the "upper-half" so as to insure against relative lateral motion between the towed vehicle and the "upper-half". The chains or cables shall be at least 5/16 inch diameter and secured by bolts of at least equal diameter.

Towed vehicles with an axle with a drop of three inches or more, or connected by a saddle-mount constructed in accordance with paragraph 2.5 of this specification, need not be restrained by chains or cables provided that the "upper-half" is so designed as to provide against such relative motion.

Chains or cables shall not be required if the "upper-half" is so designed as positively to provide against lateral movement of the axle.

•2.3 *"Lower-half" specifications.*

•2.31 *Construction of U-bolts or other means of attachment.* "U-bolts" used to attach the "lower-half" to the towing vehicle shall be made of steel rod, free of defects, so shaped as to avoid at any point a radius of less than one inch; provided, however, that a lesser radius may be utilized if the "U-bolt" is so fabricated as not to cause more than five percent reduction in cross-sectional area at points of curvature, in which latter event the minimum radius shall be ⅛ inch. "U-bolts" shall have a total cross-sectional area not less than as required by the following table:

Weight in pounds of heaviest towed vehicle	Total cross-sectional area of U-bolts in square inches		
	Double saddle-mount		Single saddle-mount [1]
	Front mount	Rear mount	
Up to 5,000	1.0	0.8	0.8
5,000 and over	1.2	1.0	1.0

[1] If a vehicle is full-mounted on the single saddle-mounted vehicle, the total weight of the two vehicles being towed shall govern.

If other devices are used to accomplish the same purposes as "U-bolts," they shall have at least equivalent strength of "U-bolts" made of mild steel. Cast iron shall not be used for any clamps or any other holding devices.

•2.32 *Provision against shifting.* Adequate provision shall be made by design and installation to provide against relative movement between the "lower-half" and the towing vehicle especially during periods of rapid acceleration and deceleration. To insure against shifting, designs of the tripod type shall be equipped with adequate and securely fastened hold-back chains or similar devices.

•2.33 *Provision against swaying.* Adequate provision shall be made by design and installation to provide against swaying or lateral movement of the towed vehicle relative to the towing vehicle. To insure against swaying, "lower-halves" designed with cross-members attached to but separable from vertical members shall have such cross-members fastened to the vertical members by at least two bolts on each side. Such bolts shall be of at least equivalent cross-sectional area as those required for "U-bolts" for the corresponding saddle-mount as given in the table in paragraph 2.31 of this specification. The minimum distance between the most widely separated points of support of the cross-member by the vertical member shall be three inches as measured in a direction parallel to the longitudinal axis of the towing vehicle.

The "lower-half" shall have a bearing surface on the frame of the towing vehicle of such dimensions that the pressure exerted by the "lower-half" upon the frame of the towing vehicle shall not exceed 200 pounds per square inch under any conditions of static loading. Hardwood blocks or blocks of other suitable material, such as hard rubber, aluminum or brake lining, if used between the "lower-half" and the frame of the towing vehicle shall be at least ½ inch thick, three inches wide, and a combined length of six inches.

Under no condition shall the highest point of support of the towed vehicle by the "upper-half" be more than 24 inches, measured vertically, above the top of the frame of the towing vehicle, measured at the point where the "lower-half" rests on the towing vehicle.

•2.34 *Limitations on use of wood blocks.* Hardwood blocks, of good quality, may be used to build up the height of the front end of the towed vehicle, provided that the total height of such wood blocks shall not exceed eight inches and not over two separate pieces are placed upon each other to obtain such height; however, hardwood blocks, not over four in number, to a total height not to exceed 14 inches, may be used if the total cross-sectional area of the "U-bolts" used to attach the "lower-half" of the towing vehicle is at least 50 percent greater than that required by the table contained in paragraph 2.31 of this specification, or, if other devices are used in lieu of "U-bolts" they shall provide for as great a resistance to bending as is provided by the larger "U-bolts" above prescribed.

Hardwood blocks must be at least four inches in width and the surfaces between blocks or block and "lower-half" or block and "upper-half" shall be plane and so installed and maintained as to minimize any tendency of the towed vehicle to sway or rock.

•2.35 *Specification for cross-member.*

•2.351 *General requirements for cross-member.* The cross-member, which is that part of the "lower-half" used to distribute the weight of the towed vehicle equally to each member of the frame of the towing vehicle, if used, shall be structurally adequate and properly installed and maintained adequately to perform this function.

•2.352 *Limitation on use of wood.* No materials, other than suitable metals, shall be used as the cross-member, and wood may not be used structurally in any manner that will result in its being subject to tensile stresses. Wood may be used in cross-members if supported throughout its length by suitable metal cross-members.

•2.353 *Strength of "lower-half."* The "lower-half" shall be capable of supporting the loads given in the following table. For purpose of test, the "saddle-mount" shall be mounted as normally operated and the load applied through the "upper-half":

Weight in pounds of heaviest towed vehicle	Minimum test load in pounds		
	Double saddle-mount		Singe saddle-mount [1]
	Front mount	Rear mount	
Up to 5,000	10,000	5,000	5,000
5,000 and over	20,000	10,000	10,000

[1] If a vehicle is full-mounted on the single saddle-mounted vehicle, the total weight of the two vehicles being towed shall govern.

•2.4 *Bearing surface between "upper and lower-half."* The "upper and lower-halves" shall be so constructed and connected that the bearing surface between the two halves shall not be less than 16 square inches under any conditions of angularity between the towing and towed vehicles; provided, however, that "saddle-mounts" using a ball and socket joint shall have a ball of such dimension that the static bearing load shall not exceed 800 pounds per square inch, based on the projected cross-sectional area of the ball; and further provided, that saddle-mounts having the "upper-half" supported by ball, taper, or roller-bearings shall not have such bearings loaded beyond the limits prescribed for such bearings by the manufacturer thereof. The "upper-half" shall rest evenly and smoothly upon the "lower-half" and the contact surfaces shall be lubricated and maintained so that there shall be a minimum of frictional resistance between the parts.

•2.5 *New saddle-mounts to provide for angularity.* All new "saddle-mounts" acquired and used after August 24, 1950, shall provide for angularity between the towing and towed vehicles due to vertical curvatures of the highway. Such means shall not depend upon either the looseness or deformation of the parts of either the "saddle-mount" or the vehicles to provide for such angularity.

•2.6 *Specifications for "king-pin."*

•2.61 *Size of "king-pin."* "King-pins" shall be constructed of steel suitable for the purpose, free of defects, and having a diameter not less than required by the following table:

Weight in pounds of heaviest towed vehicle	Diameter of solid king-pin in inches					
	Double saddle-mount				Single saddle-mount [1]	
	Front mount		Rear mount			
	Mild steel	High tensile steel [2]	Mild steel	High tensile steel [2]	Mild steel	High tensile steel [2]
Up to 5,000	1,000	0.875	0.875	0.750	0.875	0.750
5,000 and over	1,250	1,000	1,000	.875	1,000	.875

[1] If a vehicle is full-mounted on the single saddle-mounted vehicle, the total weight of the two vehicles being towed shall govern.

[2] High tensile steel, that is steel having minimum ultimate strength of 65,000 pounds per square inch.

If a ball and socket joint is used in place of a king-pin, the diameter of the neck of the ball shall be at least equal to the diameter of the corresponding solid king-pin given in the above table. If hollow king-pins are used, the metallic cross-sectional area shall be at least equal to the cross-sectional area of the corresponding solid king-pin.

•2.62 *"King-pin" fit.* If a "king-pin" bushing is not used, the "king-pin" shall fit snugly into the "upper and lower halves" but shall not bind. Those portions of the "upper or lower-halves" in moving contact with the "king-pin" shall be smoothly machined with no rough or sharp edges. The bearing surface thus provided shall not be less in depth than the radius of the "king-pin."

•2.63 *"King-pin" bushing required on new saddle-mounts.* The "king-pin" of all new "saddle-mounts" acquired and used after August 24, 1950, shall be snugly enclosed in a bushing at least along such length of the "king-pin" as may be in moving contact with either the "upper or lower-halves." The bearing surface thus provided shall not be less in depth than the radius of the "king-pin."

•2.64 *"King-pin" to restrain vertical motion.* The "king-pin" shall be so designed and installed as to restrain the "upper-half" from moving in a vertical direction relative to the "lower-half."

•2.7 *Tracking.* The "saddle-mount" shall be so designed, constructed, maintained, and installed that the towed vehicle or vehicles will follow substantially in the path of the towing vehicle without swerving. Towed vehicles shall not deviate more than three inches to either side of the path of the towing vehicle when moving in a straight line.

•2.8 *Location of the "saddle-mount."*

•2.81 *Bending of frame of towing vehicle.* Where necessary, provision shall be made to prevent the bending of the frame of the towing vehicle by insertion of suitable blocks inside the frame channel to prevent kinking. The "saddle-mount" shall not be so located as to cause deformation of the frame by reason of cantilever action.

•2.82 *Prohibition of extension of frame.* No "saddle-mount" shall be located at a point to the rear of the frame of a towing vehicle.

•2.9 *General provisions.*

•2.91 *Nuts to be secured.* All nuts used on bolts, "U-bolts," "king-pins," or in any other part of the "saddle-mount" shall be secured against accidental disconnection by means of cotter-keys, lock-washers, double nuts, safety nuts, or equivalent means. Parts shall be so designed and installed that nuts shall be fully engaged.

•2.92 *Inspection of all parts.* The saddle-mount" shall be so designed that it may be disassembled and each separate part inspected for worn, bent, cracked, broken, or missing parts.

•2.93 *Marking new "saddle-mounts."* Every new "saddle-mount" acquired and used in drive-away operations by a motor carrier after September 30, 1948, shall have the "upper-half" and the "lower-half" separately marked with the following certification of the manufacturer thereof (or words of equivalent meaning):

"This saddle-mount complies with the requirements of the Interstate Commerce Commission for vehicles up to 5,000 pounds (or over 5,000 pounds) — Manufactured (month) (year) by (name of manufacturer)."

APPENDIX 3.3407

Tire size:	Capacity rating in pounds
7:00 x 20—8 ply	2,000
7:50 x 20—8 ply	2,375
8:25 x 20—10 ply	2,900
9:00 x 20—10 ply	3,450
10:00 x 20—12 ply	4,000
10:00 x 22—12 ply	4,275
10:00 x 24—12 ply	4,550
11:00 x 20—12 ply	4,500
11:00 x 22—12 ply	4,750
11:00 x 24—12 ply	5,000
12:00 x 20—14 ply	5,275
12:00 x 22—14 ply	5,600
12:00 x 24—14 ply	5,925

For tire sizes and ply ratings not shown in this appendix, the capacity rating in pounds shall be as decided by the Commission and this information shall be available upon inquiry of the Bureau of Motor Carriers, Interstate Commerce Commission, Washington 25, D. C.

APPENDIX 3.3416—SPECIFICATION FOR SLEEPER BERTHS

1.0 *Sleeper berths to have ready exit.* The sleeper berth shall be so designed, constructed, and maintained as to provide the occupant, without the assistance of other persons, at least two ready means of exit from the motor vehicle on or in which such sleeper berth is mounted: *Provided, however,* That sleeper berths located within the cab need have only one ready means of exit from the sleeper berth. Each required means of exit from the sleeper berth shall have sufficient area to contain an ellipse having a major axis of 24 inches and a minor axis of 16 inches.

2.0 *Sleeper berths to be properly equipped.* The sleeper berth shall be properly equipped for sleeping and shall be equipped with springs and a mattress or an innerspring or air mattress, or a cellular rubber mattress at least four inches in thickness and adequate, clean bed-clothing, and blankets. The sleeper berth shall be so constructed as to permit the ready removal of the mattress and bed-clothing for cleaning purposes.

3.0 *Sleeper berths to have means of communication with driver.* Unless the sleeper berth is located within the driver's compartment and is provided with a ready means of escape directly thereto, there shall be means provided to enable the occupant of the berth to communicate with the driver. Such means may include telephones, speaker tubes, buzzers, pull cords, or other mechanical or electrical means.

4.0 *Sleeper berths to have exit into cab.* Sleeper berths located to the rear of the cab and adjacent thereto shall have a ready means of escape provided into the cab. The dimensions of such an exit shall comply with

that required by paragraph 1.0 of this specification.

5.0 *Sleeper berths to be of adequate size.* The sleeper berth shall be of such dimensions as to provide at least the following inside dimensions: 72 inches long measured on the center line of the longitudinal axis, 18 inches wide at its center, 18 inches deep at its center, measured from top of mattress. The sleeper berth shall be so constructed as not unduly to hinder the ready entrance or exit of the occupant.

6.0 *Sleeper berths to be properly ventilated.* Sleeper berths shall be provided with louvers or other means of providing proper ventilation but shall be reasonably tight against dust and rain.

7.0 *Sleeper berths to be protected against exhaust and fuel systems.* Sleeper berths shall not be so located as to permit the ready entrance of gases from the exhaust system. The sleeper berth shall not be so located as to be overheated or damaged by reason of its proximity to the exhaust system. The sleeper berth shall not be so located that defects in the fuel system would result in leakage on or in the sleeper berth.

8.0 *Sleeper berths in certain locations prohibited.* Sleeper berths shall not be located within the cargo space of motor vehicles except that sleeper berths may be located in the cargo compartment of a truck if it has direct means of access to the cab and is completely and securely compartmentized from the remainder of the cargo compartment.

9.0 *Additional sleeper berths specifications on new vehicles.* On or after ----------, every sleeper berth on any new motor vehicle acquired by a motor carrier shall comply with the following requirements, in addition to those required above:

9.01 *Sleeper berth to be part of cab.* Every sleeper berth shall be located within the cab or be adjacent thereto, and securely fixed with relation to the cab. A direct and ready means of exit, complying with the requirements of paragraph 1.0 of this specification, shall be provided. Sleeper berths, if in compliance with the other rules of these regulations, may be located in the cargo compartment of a truck provided such sleeper berths are completely and securely compartmentized from the remainder of the cargo compartment.

9.02 *Sleeper berths to be of proper dimensions.* The sleeper berth shall be so constructed and maintained as to provide, at least, the following inside dimensions: 75 inches long measured on the center line of the longitudinal axis, 24 inches wide at its center, 24 inches deep at its center measured from the top of the mattress.

APPENDIX 3.3417—SPECIFICATION FOR HEATERS

1.0 *Definition of heater.* The term "heater" means any device or assembly of devices or appliances used to heat the interior of any motor vehicle.

2.0 *Certain type heaters prohibited.* The installation or use of the following types of heaters is prohibited.

(a) *Exhaust heaters.* Any type of exhaust heater in which the engine exhaust gases are conducted into or through any space occupied by persons or any heater which conducts engine compartment air into any such space.

(b) *Unenclosed flame heaters.* Any type of heater employing a flame which is not fully enclosed.

(c) *Heaters permitting fuel leakage.* Any type of heater from the burner of which there could be spillage or leakage of fuel upon the tilting or overturning of the vehicle in which it is mounted.

(d) *Heaters permitting air contamination.* Any heater taking air, heated or to be heated, from the engine compartment or from direct contact with any portion of the exhaust system; or any heater taking air in ducts from the outside atmosphere to be conveyed through the engine compartment, unless said ducts are so constructed and installed as to prevent contamination of the air so conveyed by exhaust or engine compartment gases.

(e) *Solid fuel heaters.* Any stove or other heater employing wood, coal, coke, charcoal, or any other solid fuel.

3.0 *Specification for heaters.* All heaters shall comply with the following specifications:

3.01 *Heating elements to be protected.* Every heater shall be so located or protected as to prevent contact therewith by occupants unless the surface temperature of the protecting grilles or of any exposed portions of the heaters, inclusive of exhaust stacks, pipes, or conduits shall be lower than would cause contact burns. Adequate protection shall be afforded against igniting parts of the vehicle or burning occupants by direct radiation.

3.02 *Moving parts to be guarded.* Effective guards shall be provided for the protection of passengers or occupants against injury by fans, belts, or any other moving parts.

3.03 *Heaters to be secured.* Every heater shall be securely fastened to a substantial part of the vehicle or to any substantial appurtenance itself securely attached to the vehicle by means sufficient to provide against separations from the vehicle during normal usage or in the event the vehicle overturns. Every heater shall be so designed, constructed, and mounted as to minimize the likelihood of disassembly of any of its parts, including exhaust stacks, pipes, or conduits, upon overturn of the vehicle in which it is mounted. That portion of the structure of the vehicle to which the heater is attached shall be sufficiently rigid and substantial to accomplish the above purposes.

3.04 *Relative motion between fuel tank and heater to be provided for.* When either in normal operation or in the event of overturn, there is or is likely to be relative motion between the fuel tank for a heater and a heater or between either such unit and the fuel lines between them, a suitable means shall be provided at the point of greatest relative motion so as to allow this motion without causing failure of the fuel line.

3.05 *Operating controls to be protected.* On every bus, except busses having a seating capacity of eight or less persons, means shall be provided to prevent unauthorized persons from tampering with the operating controls. Such means may include remote control by the driver; installation of controls at inaccessible places; control of adjustments by key or keys; enclosure of controls in a locked space, locking of controls, or other means of accomplishing this purpose.

3.06 *Electrical apparatus to be of adequate size and to be protected.* Every heater employing any electrical apparatus shall be equipped with electrical conductors, switches, connectors, and other electrical parts of ample current-carrying capacity to provide against overheating; any electric motor employed in any heater shall be of adequate size and so located that it will not be overheated; electrical circuits shall be provided with fuses and/or circuit breakers to provide against electrical overloading; and all electrical conductors employed in or leading to any heater shall be secured against dangling, chafing, and rubbing, and shall have suitable protection against any other condition likely to produce short or open circuits.

NOTE: Electrical parts certified as proper for use by Underwriters' Laboratories, Inc., shall be deemed to comply with the foregoing requirements of these specifications.

3.07 *Non-spill filler caps for separate storage batteries.* If a separate storage battery is located within the personnel or cargo space, such battery shall be securely mounted and equipped with non-spill filler caps.

3.08 *Exhaust from combustion heaters to be properly constructed.* Every heater employing the combustion of oil, gas, liquefied petroleum gas, or any other combustible material shall be provided with substantial means of conducting the products of combustion to the outside of the vehicle. The exhaust pipe, stack, or conduit shall be sufficiently substantial and so secured as to provide reasonable assurance against leakage or discharge of products of combustion within the vehicle and, if necessary, shall be so insulated as to make unlikely the burning or charring of parts of the vehicle by radiation or by direct contact. The place of discharge of the products of combustion to the atmosphere and the means of discharge of such products shall be such as to minimize the likelihood of their re-entry into the vehicle under all operating conditions.

3.09 *Provision to be made against leakage of fuel or products of combustion.*

3.091 *Design and construction of combustion chamber to be proper.* The design and construction of any combustion-type heater shall be such as to provide against the leakage of products of combustion into air to be heated and circulated. The material employed in combustion chambers shall be such as to provide against leakage because of corrosion, oxidation, or other deterioration. Joints between combustion chambers and the air chambers with which they are in thermal and mechanical contact shall be so designed and constructed as to prevent leakage between the chambers and the materials employed in such joints shall have melting points substantially higher than the maximum temperatures likely to be attained at the points of jointure.

3.092 *Location and protection of fuel tanks for heaters.* In busses, other than busses having a seating capacity of eight or less persons, fuel tanks for heaters of the combustion type shall be located outside the passenger space of the vehicle in which the heater is mounted and at a height lower than that of the heater and passengers. When necessary, suitable protection shall be afforded by shielding or other means against the puncturing of any such tank or its connections by flying stones or other objects.

3.093 *Automatic fuel control.* Automatic means shall be provided for shutting off the fuel or for reducing such flow of fuel to the smallest practicable magnitude, in the event of overturn of the vehicle. Unless the heater is so located that the fuel would not flow by gravity or syphon in the event of separation, breakage, or disconnection of any of the fuel lines between the supply source and the heater, the fuel line shall be provided with automatic means, at the source of supply, for shutting off the fuel in the event of such separation, breakage, or disconnection.

3.094 *Adequate controls.*

3.0941 *"Tell-tale" indicators for combustion heaters.* Heaters of the combustion type unless provided with the automatic controls listed in paragraph 3.0942 shall be provided with "tell-tale" means to indicate to the driver that the heater is properly functioning. This requirement shall not apply to heaters for the cargo space in semitrailers or full trailers.

3.0942 *Automatic or manual control.* Automatic means, or manual means provided the control is readily accessible to the driver without moving from the driver's seat, shall be provided to shut off the fuel and electrical supply in case of failure of the heater to function for any reason, or in case the heater should function improperly or overheat.

3.095 *Certification required.* Every heater designed and constructed to comply with this specification, shall be marked plainly with the certification of the manufacturer that, insofar as the heater is concerned, it complies with this specification.

APPENDIX 3.351(g)—SPECIFICATION FOR RED EMERGENCY REFLECTORS

1.0 *Multiplicity of reflecting elements required.* Each reflector shall be composed of at least two reflecting elements or surfaces on each side, front and back. The reflecting elements, front and back, shall be approximately parallel.

2.0 *Reflecting elements to be class A.* Each reflecting element or surface shall meet the requirement for a red class A reflector contained in the SAE Recommended Practice[1] for Reflex Reflectors. The aggregate candlepower output of all the reflecting elements or surfaces in one direction shall not be less than 12 when tested in a perpendicular position with observation at one-third degree as specified in the Photometric Test contained in the above-mentioned Recommended Practice.

3.0 *Reflecting surfaces to be protected.* If the reflector or the reflecting elements are so designed or constructed that the reflecting surfaces would be adversely affected by dust, soot, or other foreign matter or contacts with other parts of the reflector or its container, then such reflecting surfaces shall be adequately sealed within the body of the reflector.

4.0 *Reflecting surfaces to be perpendicular.* Every reflector shall be so constructed that, when the reflector is properly placed, every reflecting element or surface is in a plane perpendicular to the plane of the roadway surface. Reflectors which are collapsible shall be provided with means for locking the reflector elements or surfaces in the required position; such locking means shall be readily capable of adjustment without the use of tools or special equipment.

5.0 *Reflectors to be mechanically adequate.* Every reflector shall be of such weight and dimensions as to remain stationary when subjected to a 40-mile-per-hour wind when properly placed on any clean, dry, paved road surface. The reflector shall be so constructed as to withstand reasonable shocks without breakage.

6.0 *Reflectors to be incorporated in holding device.* Each set of reflectors and the reflecting elements or surfaces incorporated therein shall be adequately protected by enclosure in a box, rack, or other adequate container specially designed and constructed so that the reflectors may be readily extracted for use.

7.0 *Certification required.* Every red emergency reflector designed and constructed to comply with this specification shall be plainly marked with the certification of the manufacturer that it complies with this specification.

APPENDIX 3.352 (b)—SPECIFICATION FOR FIRST AID KITS

1.0 *Size of kit.* The kit shall be of the heavy duty 10 or 12 unit type or larger.

2.0 *Construction of case and cover.*

2.1 *Material for case and cover.* The case and cover shall be constructed of sheet steel, wood, fiber, or other durable material. If made of sheet steel, the case and cover shall be of metal at least No. 20 U. S. gage (nominal).

2.2 *Tightness of case.* The case and cover shall be so constructed, including corners, cover, and closure means, that it shall be reasonably dust and weather proof when the cover is in the closed position.

2.3 *Opening and stop for cover.* If made of sheet steel or other metals, the case shall be so designed and constructed that the cover will be capable of being easily opened to an angle of 90° to 100° with the case and a substantial stop shall be provided at the angle of full opening; such stop shall not interfere with the smooth operation of the cover.

2.4 *Method of hinging cover.* If made of metal, the cover shall be attached to the case by, at least, two substantial hinges or by a continuous piano-type hinge. If non-metallic, the cover shall be attached by either a sliding or a hinged joint; if hinged, it shall be as prescribed for metallic construction.

2.5 *Size of case.* The dimensions of the case shall be such that it will permit the contents to be easily extracted and yet maintain the contents in a relatively fixed position.

3.0 *Contents of kit.* The kit shall contain at least the following:

	Packages
4-inch bandage compress	1
2-inch bandage compress	1
1-inch bandage compress	2
40-inch triangular bandage	1
Burn ointment	1
Ammonia inhalants	1
Iodine applicator or applicator of other antiseptic tinctures of at least, equivalent bacteriological properties	1
Wire splint	1
Tourniquet and forceps	1

Each unit package, with its contents, whether required by this specification or in addition thereto, either in number or kind, shall conform to the requirements contained in Federal Specification GG–K–391 (November 6, 1941) and Amendment No. 1 thereto (November 4, 1944) available from the Superintendent of Documents, Washington 25, D. C., at a cost of five cents per copy.

PROPOSED REVISION OF PART V—HOURS OF SERVICE OF DRIVERS

RULE 1 (d). Change "10 minutes" to "15 minutes" wherever it appears.

RULE 1 (g). The term berth means a berth or bunk on the motor vehicle as specified in Appendix 3.3416.

NEW RULE 4. No sleeper berth as referred to in Rule 1 (g) shall be occupied by more than one person at any time.

RULE 4. To be renumbered Rule 5.

NEW RULE 6 (a). When a driver is deadheading to a place of work in a company vehicle for the purpose of commencing a period of driving, such time shall be considered as driving time and entered in Line 3 of the driver's daily log.

NEW RULE 6 (b). When a driver is deadheading from a place of work in a company vehicle after the completion of a period of driving, time thus spent must be recorded in Line 3 of the driver's daily log and included in the computation of total daily driving time unless, upon arrival at his destination, the driver is to be off duty for 8 consecutive hours. If such is the case, the deadheading time may be recorded in Line 4 of the log as on duty time, waiting to be released from work.

NEW RULE 6 (c). When a driver is deadheading to or from a place of work in a public passenger conveyance, time thus spent shall be considered as on duty unless the driver is to be off duty for 8 consecutive hours before again being required to drive or operate a motor vehicle. If such is the case, time so spent may be computed as off duty, and entered in Line 1 of the driver's daily log.

RULE 7 (a) (old Rule 5 (a)). Every motor carrier subject to these regulations shall require that a driver's daily log, Form BMC–59, in duplicate which form and instructions for its use are attached hereto and made a part hereof, shall be kept by every driver employed or used by him or it, and every driver who operates a motor vehicle engaged in transportation in interstate or foreign commerce shall keep such a log. Originals of these logs shall be filed each day at the driver's home terminal and shall be retained by the motor carrier in that terminal for one year. Entries in said driver's log shall be made by the driver, and shall show the place of origin and destination of the trip, the time of reporting for duty and of going off duty, the periods of driving or operating and other work; provided, however, that the foregoing provisions of this rule shall not apply to any driver engaged in the transportation of passengers or property in interstate or foreign commerce wholly within a municipality or between contiguous municipalities or within a zone adjacent to and commercially a part of any such municipality or municipalities, if such drivers are employed or used by carriers who maintain records which show the total number of hours of driving per day, the total number of hours on duty per day, the total number of hours off duty per day, and the total number of hours on duty per week, of each such driver. Every motor carrier shall maintain at all times a record or records which will indicate the arrival and departure times, terminal point to terminal point, of all vehicles used or operated by them, and the names of the drivers of said vehicles at such arrival and departure times. Provided further, however, that this rule shall not apply with respect to drivers of farm trucks or to drivers of motor vehicles of private carriers of property commonly called work trucks or work cars which are especially designed or equipped for use and are used solely in the construction or maintenance of their plants and equipment.

RULE 5 (b). To be renumbered Rule 7 (b).

RULE 6 (a). To be renumbered Rule 8 (a).

RULE 6 (c). To be renumbered Rule 8 (b).

RULE 7. To be renumbered Rule 9.

PROPOSED REVISION OF PART 6—INSPECTION AND MAINTENANCE

Because of the extent of the changes and rearrangement of the rules in Part 6, this part is here shown in its entirety.

6.1 Compliance required.
6.2 Inspection and maintenance required.
6.3 Lubrication required.
6.4 Unsafe operations forbidden.
6.5 Motor vehicles declared of service.
6.6 Damaged vehicles to be inspected.
6.7 Inspection and reports by drivers.
6.8 Inspection of drive-away operations. Recommended practices.

6.1 *Compliance required.* Every motor carrier, his or its officers, drivers, agents, representatives and employees directly concerned with the inspection or maintenance of motor vehicles, shall comply and be conversant with the requirements of this part.

6.2 *Inspection and maintenance required.* Every motor carrier shall in-

spect and maintain all motor vehicles subject to his or its control, and the accessories required by Rule 3.25 to be mounted thereon, to insure that such motor vehicles and accessories are in safe and proper operating condition. Every motor carrier shall institute systematic inspection and maintenance practices. Such practices may be conducted within the carrier's own organization or be contracted for with a competent outside agency. The performance of such inspection and maintenance by an outside agency shall not relieve the motor carrier from the responsibility of having his or its motor vehicles and accessories in safe and proper operating condition. A systematic inspection and maintenance record shall be maintained for each motor vehicle controlled by a motor carrier for the period during which such vehicle is subject to the motor carrier's control. Such inspections, for buses, shall include a test at least once every 30 days of all push-out windows and emergency doors to determine that they are operating properly and that the windows comply with the requirements of Rule 3.33 of these regulations. Such records shall include, at least: (a) An identification of the vehicle, including make, model, serial number, and number of tires, their size, and number of plies; (b) a record of inspection and repairs indicating their date and nature; (c) a lubrication record; (d) a systematic means for indicating for each vehicle the nature and due date of the various inspection and maintenance operations to be performed; and (e) if leased, or otherwise contracted for, such records shall also include an identification of the lessor or contractor furnishing the motor vehicle.

(Suggested system is appended hereto.)

6.3 *Lubrication required.* Every motor carrier shall institute such procedures as may be necessary to insure that motor vehicles are properly lubricated; that proper action is taken to correct oil and grease leaks; that accumulations of grease and oil are investigated, removed, and the cause of such accumulations corrected. Lubrication may be performed by public garages or service stations but this shall not relieve the motor carrier from the responsibility of having his or its motor vehicles properly lubricated.

6.4 *Unsafe operations forbidden.* No motor carrier shall permit or require a driver to drive nor shall any driver drive any motor vehicle revealed by inspection or operation to be in such condition that its operation would be hazardous or likely to result in a breakdown of the vehicle prior to reaching its destination. If while any motor vehicle is being operated on a highway, it is discovered to be in such unsafe condition, it shall be continued in operation only to the nearest place where repairs can safely be effected, and even such operations shall be conducted only if it be less hazardous to the public than permitting the vehicle to remain on the highway.

6.5 *Motor vehicles declared out of service.* No motor carrier shall permit or require a driver to drive nor shall any driver drive any motor vehicle which by reason of its mechanical condition is so imminently hazardous to operate as to be likely to cause an accident and which motor vehicle, because of such condition, has been declared and marked "out of service" by an "out of service notice" served by an authorized employee of this Commission, until the repairs required by such notice have been satisfactorily completed. No person shall remove the "out of service" notice from such a motor vehicle until the required repairs shall have been satisfactorily completed. Every motor carrier shall file a report of completion of such repairs on Form BMC ------, in accordance with the terms prescribed thereon.

6.6 *Damaged vehicles to be inspected.* No motor carrier shall permit or require a driver to drive nor shall any driver drive a motor vehicle which has been damaged in an accident or by other cause until inspection has been made by a person qualified to ascertain the nature and extent of the damage and the relationship of such damages to the safe operation of the motor vehicle, nor shall such motor vehicle be operated until such person has determined it to be in safe operating condition.

6.7 *Inspections and reports by drivers.*

6.71 *Prior to commencing trip.* Every motor carrier shall require every driver subject to his or its control, and every driver is required before driving any motor vehicle, to inspect such vehicle to ascertain that it is in safe operating condition.

(a) Such inspection shall include, at least, the following items: Brakes, both service and parking, including trailer connections; coupling devices; horn; lighting devices and reflectors; rear-vision mirrors; steering mechanism; tires; windshield wipers; tailboards, gates, tarpaulins, and load unless sealed; accessories required by Rule 3.25.

(b) The inspection of the brakes on a motor vehicle equipped with air brakes shall include an observation by the driver before starting to drive to ascertain that the low pressure indicator, if the vehicle is equipped with such a device, indicates that there is adequate pressure available, and if equipped with an air gage but no low pressure indicator, that such gage indicates at least 65 pounds per square inch pressure. A similar inspection shall be made for motor vehicles equipped with vacuum brakes except that the vacuum gage, if any, shall indicate a vacuum of at least 15 inches of mercury before starting to drive.

(c) The inspection of the required accessories shall include an observation by the driver to ascertain that accessories such as the fire extinguishers, spare bulbs, fuses, first aid kit, axe and emergency protective devices such as flares, electric lanterns, emergency reflectors, fusees, are in good condition and readily available for immediate use.

(d) The listing of the above requirements shall not relieve the driver of the responsibility for performing such other inspections as would customarily be performed by a driver before commencing a trip.

6.72 *Report after completion of tour of duty.* Except as provided for drive-away operations in Rule 6.8, every motor carrier operating more than one motor vehicle shall require his or its drivers to report to it, and every driver shall make a report in writing to such motor carrier at the completion of his tour of duty which report shall either list any defect or deficiency of the motor vehicle discovered by said driver or reported to him as would be likely to affect the safety of operation of the motor vehicle or result in its mechanical breakdown or shall indicate that no such defects or deficiencies were discovered or reported to him. Such reports shall be carefully examined, the defects reported thereon shall be checked and the report shall be retained by the motor carrier for a period of at least three months and shall be filed at the terminal of the motor carrier where the motor vehicle is normally maintained or repaired or if not maintained or repaired by the motor carrier at the terminal of the motor carrier where the vehicle is normally garaged.

6.8 *Inspection of drive-away operations.* Every motor carrier, with respect to motor vehicles engaged in drive-away operations, shall comply with Rules 6.81 and 6.82 in addition to Rules 6.1 to 6.72, inclusive, except that no driver's trip report shall be required to be made out for the condition of the vehicle or vehicles being delivered at the completion of the trip by the driver who delivers the motor vehicle to the consignee, nor shall the maintenance records required by Rule 6.2 be required to be kept for such vehicles.

6.81 *Inspection before beginning trip.* Every motor carrier shall institute and maintain practices to insure that before the beginning of any drive-away operation of motor vehicles in combination, inspection has been made to ascertain that the tow-bar or saddle-mount connections are properly secured to the towed and towing vehicles, that they function adequately without cramping or binding of any of the parts, and that the towed motor vehicle follows substantially in the path of the towing vehicle without whipping or swerving.

6.82 *Inspection following trip.* Every motor carrier shall institute and maintain practices to insure that following completion of any trip in a drive-away operation of motor vehicles in combination, and before their use again, the tow-bars and saddle-mounts shall be disassembled and inspected for worn, bent, cracked, broken, or missing parts. Before reuse, suitable repair or replacement shall be made of any defective parts and the devices shall be properly reassembled.

Recommended practices. The following practices and forms are recommended to motor carriers for consideration as one means of establishing the inspection and maintenance practices which are required by Rules 6.2 and 6.7. It is also recommended that every motor vehicle be periodically inspected and maintained in accordance with the recommendations of its manufacturer.

Driver's trip report. As a convenient means of providing for the driver's trip report required by Rule 6.72, the following "Driver's Trip Report" is suggested. The items are arranged in a logical order of inspection. While these regulations do not require a written report of the inspection prior to driving, the form provides for such a report on the reverse side by duplicating the list and using the appropriate heading. Changes may be made to suit the particular carrier's operations, such as by having more than one day's report on a form.

[1] Drivers should (√) items which are satisfactory and (X) items which are not, and explain defects next to the X or if there is insufficient room, at bottom of the form. Items which are marked (X) by the driver must show a (√) with mechanic's initials indicating correction before continuance of operation and a short explanation of the repairs completed either next to the √ of if there is insufficient room, at bottom of form.

Recommended preventive inspection and maintenance procedure. Rule 6.2 requires that motor carriers maintain systematic inspection and maintenance records but the regulations do not require any particular type or form of records. As a convenient means for providing the systematic inspection and maintenance records required by Rule 6.2, the following forms are suggested. Other systems recommended by the vehicle manufacturers are suggested as alternative methods.

It is recommended that a cardboard check sheet for each inspection period for each vehicle be placed in a convenient point in the garage. Under the suggested system, when the four 1,000 mile inspections have been completed, the mechanic will know that he should perform the 5,000 mile inspection according to the 5,000 mile inspection card which is under the card just completed. These forms, especially the mileage intervals, are suitable for the average over-the-road operator but changes may be made to adapt them to the individual operation. The items listed may be too numerous for all operations. In such cases, carriers could select items applicable to their own operations. Carriers are also permitted to revise the inspection periods to suit their needs or to base their inspections on time or gasoline consumption bases instead of mileage. The fundamental requirement is that there be a systematic inspection and maintenance system.

SAFETY REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Qualifications and maximum hours of service of employees of motor carriers and safety of operations and equipment, ex parte No. MC–40; maximum hours of service of motor carrier employees, ex parte No. MC–2; establishing reasonable requirements to promote safety of operation of motor vehicles used in transporting property by private carriers, ex parte No. MC–3; qualifications of employees and safety of operation and equipment of common carriers and contract carriers by motor vehicle, ex parte No. MC–4.

It appearing, that by order of November 6, 1950, *supra*, the Commission in the appendix thereto set forth proposed revisions in certain of the Motor Carrier Safety Regulations (49 CFR 190–197) and ordered that interested persons may, on or before December 29, 1950, submit written data, verified under oath by a person having knowledge of such data, views, or arguments and thereafter consideration will be given to the proposed revisions in the light of the data, views, and arguments which may be submitted;

Upon consideration of the record, and of letters by the American Trucking Associations, Inc., Ernie Adamson, Wholesalers' Food Institute of Iowa, National Truck Tank and Trailer Tank Institute, American Petroleum Institute, Pennsylvania Motor Truck Association, and National Association of Motor Bus Operators, for an extension of time to submit such written data, views, or arguments;

It is ordered, That the date on or before which interested parties may submit written data, verified under oath by a person having knowledge of such data, views, or arguments, be and it is hereby, postponed from December 29, 1950, to March 1, 1951.

And it is further ordered, That notice of this proceeding be duly given.

Dated at Washington, D. C., this 12th day of December A. D. 1950.

By the Commission.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 51-75; Filed, Jan. 2, 1951; 8:57 a. m.]

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board and Maritime Administration

ORGANIZATION AND FUNCTIONS

The statement of organization and functions of the Maritime Administration issued in 15 F. R. 4454–4457 is hereby revoked and the following substituted therefor:

1. *Establishment.* The Federal Maritime Board and the Maritime Administration were established in the Department of Commerce by Reorganization Plan No. 21 of 1950, effective May 24, 1950. In performance of their functions the Federal Maritime Board and the Maritime Administration are guided by the broad declaration of policy stated in Title I of the Merchant Marine Act, 1936 (49 Stat. 1985), reaffirmed in section 2 of the Merchant Ship Sales Act, 1946 (60 Stat. 41), as follows:

> It is necessary for the national defense and development of its foreign and domestic commerce that the United States shall have a merchant marine (a) sufficient to carry its domestic water-borne commerce and a substantial portion of the water-borne export and import foreign commerce of the United States and to provide shipping service on all routes essential for maintaining the flow of such domestic and foreign water-borne commerce at all times, (b) capable of serving as a naval and military auxiliary in times of war or national emergency, (c) owned and operated under the United States flag by citizens of the United States insofar as may be practicable, and (d) composed of the best-equipped, safest, and most suitable types of vessels, constructed in the United States and manned with a trained and efficient citizen personnel. It is hereby declared to be the policy of the United States to foster the development and encourage the maintenance of such a merchant marine.

2. *Organization of the Federal Maritime Board.* The Federal Maritime Board is composed of three members appointed by the President by and with the advice and consent of the Senate. The President designates one of the members to serve as Chairman of the Federal Maritime Board. The Chairman serves as chief executive and administrative officer of the Federal Maritime Board. Any two members in office constitute a quorum for the transaction of the business of the Federal Maritime Board, and the affirmative votes of any two members are sufficient for the disposition of any matter which may come before the Federal Maritime Board.

The Federal Maritime Board has the following organizational components: (a) Office of the Chairman of the Federal Maritime Board; (b) Offices of the Members of the Federal Maritime Board; (c) Secretary's Office; (d) Regulation Office; and (e) Hearing Examiners' Office.

Insofar as he deems desirable, the Chairman of the Federal Maritime Board makes use of the officers and employees of the Maritime Administration to perform activities for the Federal Maritime Board.

3. *Functions of the Federal Maritime Board—(a) Regulatory functions.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is independent of the Secretary of Commerce in the performance of the following functions: (1) All functions under the

provisions of sections 14 to 20, inclusive, and sections 22 to 33, inclusive, of the Shipping Act, 1916, as amended, including such functions with respect to the regulation and control of rates, services, practices, and agreements of common carriers by water and of other persons;

(2) All functions with respect to the regulation and control of rates, fares, charges, classifications, tariffs, regulations, and practices of common carriers by water under the provisions of the Intercoastal Shipping Act, 1933, as amended;

(3) The functions with respect to the making of rules and regulations affecting shipping in the foreign trade to adjust or meet conditions unfavorable to such shipping, and with respect to the approval, suspension, modification, or annulment of rules or regulations of other Federal agencies affecting shipping in the foreign trade, under the provisions of section 19 of the Merchant Marine Act, 1920, as amended, exclusive of subsection (1) (a) thereof;

(4) The functions with respect to investigating discriminatory rates, charges, classifications, and practices in the foreign trade, and with respect to recommending legislation to correct such discrimination, under the provisions of section 212 (e) of the Merchant Marine Act, 1936; and

(5) So much of the functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda, under the provisions of section 21 of the Shipping Act, 1916, as amended, as relates to its functions under items (1) through (4), above.

(b) *Subsidy contracts.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is guided by the general policies of the Secretary of Commerce in performing the following functions: (1) The functions with respect to making, amending, and terminating construction (reconstruction or reconditioning) differential subsidy contracts, including contracts for the construction, reconstruction, or reconditioning of vessels and contracts for the sale of vessels to subsidy applicants or contracts to pay a differential subsidy and the cost of national defense features. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of construction of comparable vessels in the United States and foreign countries and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(2) The functions with respect to making, amending, and terminating operating differential subsidy contracts and, subsequent to entering into an operating differential subsidy contract, making determinations with respect to employment and wage conditions, and taking action on readjustment of operating cost differentials and the sale, assignment, or transfer of the contract. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of operating vessels under the registry of the United States and under foreign registry, and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(3) The functions with respect to investigating and reporting on relative construction and operating costs in the United States and foreign maritime countries, and the relative advantages of operating under United States or foreign registry, and on marine insurance, navigation laws, and vessel mortgages as authorized under section 12 of the Shipping Act, 1916; and

(4) The functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda as relates to its functions as set forth in items (1), (2), and (3), above.

(c) *Charters under the Merchant Ship Sales Act, 1946.* The Federal Maritime Board makes determinations, after public hearings, as to whether the bareboat charter of warbuilt dry cargo vessels owned by the United States is required in the public interest in any service then not adequately served and for which privately owned American-flag vessels are not available for charter by private operators on reasonable conditions and rates, and certifies its findings to the Secretary of Commerce together with any restrictions and conditions which it determines to be necessary or appropriate to protect the public interest in respect to such charters and to protect privately owned vessels against competition from Government vessels chartered by the Secretary of Commerce. All such charters are reviewed annually by the Federal Maritime Board for the purpose of making recommendations to the Secretary of Commerce as to whether conditions exist justifying the continuance of the charters. The functions of the Secretary of Commerce with respect to the chartering of vessels has been delegated to the Maritime Administrator.

(d) *War risk insurance.* Pursuant to Public Law 763, 81st Congress, the Federal Maritime Board makes determinations of the fair and reasonable value of vessels insured under the provisions of Title XII of the Merchant Marine Act, 1936, as amended. The Secretary of Commerce may not settle an insurance claim with respect to a vessel in an amount in excess of the vessel's fair and reasonable value as determined by the Federal Maritime Board.

(e) In carrying out its functions under paragraphs (a), (b), (c) and (d), above, the Federal Maritime Board adopts rules and regulations; makes reports and recommendations to Congress; subpoenas witnesses; administers oaths; takes evidence; requires the production of books, papers and documents as necessary; issues opinions; promulgates orders; engages in enforcement and other legal proceedings; and performs all functions formerly performable by the Maritime Commission, which have been transferred to the Federal Maritime Board pursuant to Reorganization Plan No. 21 of 1950.

4. *Organization of the Maritime Administration—(a) Maritime Administrator.* The Chairman of the Federal Maritime Board is ex officio the Maritime Administrator. When serving as Maritime Administrator, he reports and is responsible to the Secretary of Commerce.

(b) *Deputy Maritime Administrator.* The Maritime Administrator is assisted in his duties by a Deputy Maritime Administrator, who is the Acting Maritime Administrator during the absence or disability of the Maritime Administrator and, unless the Secretary of Commerce designates another person, during a vacancy in the Office of Maritime Administrator. The Deputy Maritime Administrator is appointed by the Secretary of Commerce, after consultation with the Maritime Administrator. The Deputy Maritime Administrator at no time sits as a member of the Federal Maritime Board.

(c) *Organizational components.* The Maritime Administration has the following organizational components: (1) Office of the Maritime Administrator; (2) Staff Offices, including the Office of the General Counsel, the Program Planning Office, the Budget Office, and the Personnel Office; (3) Division of Claims; (4) Office of Subsidy and Government Aid; (5) Office of Maritime Operations; (6) Office of Ship Construction; (7) Office of the Comptroller; and (8) Offices of the Coast Directors.

(d) *Use of officers and employees of the Federal Maritime Board.* Insofar as he deems desirable, the Maritime Administrator makes use of officers and employees of the Federal Maritime Board under his supervision as Chairman to perform activities for the Maritime Administration.

5. *Functions of the Maritime Administrator.* The Maritime Administrator is responsible for the performance of all functions transferred to the Secretary of Commerce under Reorganization Plan No. 21 of 1950, subject to the limitations set forth in Department Order No. 116, as amended, with power of redelegation, and for the performance of activities for the Federal Maritime Board as determined desirable by the Chairman of the Federal Maritime Board.

(a) The Office of the Maritime Administrator directs the activities of the Maritime Administration and includes personnel who render staff services to the Maritime Administrator.

(b) The Office of the General Counsel serves as the law office of the Maritime Administration and Federal Maritime Board, renders legal advice and opinions to them, and represents them in any litigation in which either is interested. The Office of the General Counsel has the following divisions: Division of Contracts, Division of Legislation, and Division of Litigation.

(c) The Program Planning Office develops and recommends long-range merchant marine policy and programs, reviews existing policies and programs in the light of adopted long-range policy, and conducts economic studies connected with policy formulation for the Maritime Administrator and the Federal Maritime Board.

(d) The Budget Office develops and presents budgetary requests and justifications and allots and maintains budget-

ary control of appropriated funds for the Maritime Administration and the Federal Maritime Board.

(e) The Personnel Office administers the personnel functions of the Maritime Administration and the Federal Maritime Board related to employment and position classification, including recruitment, placement, separations, disciplinary actions, counseling and grievance appeal services, training and safety programs, and wage rate studies.

(f) The Division of Claims is responsible for analyzing and recommending the basis of settlement of claims in favor of or against the Maritime Administration arising out of the war-time operations of the former Maritime Commission and War Shipping Administration and other claims referred to it for processing prior to August 22, 1949.

(g) The Office of Subsidy and Government Aid is responsible for the processing of applications to the Federal Maritime Board and the Maritime Administration for subsidy or other government aid and the administration of government aid contracts after their execution, for the coordination of the work of other organizational components in connection therewith, and for the making of recommendations with respect to the policy relating to vessel chartering. The Office of Subsidy and Government Aid has the following divisions: Division of Construction Cost Comparison, Division of Contract Evaluation and Administration, Division of Operating Cost Comparison, and Division of Shipping Data.

(h) The Office of Maritime Operations is responsible for the conduct of activities relating to the charter, operation, repair, reconversion, betterment, reconditioning, and disposal of government-owned merchant vessels; the maintenance of reserve fleets; the training of seagoing personnel; the procurement and disposal of real and personal property; the maintenance or operation of warehouses, marine terminals and reserve shipyards; port development; and the rendering of office services. The Office of Maritime Operations has the following divisions: Division of General Services, Division of Maintenance and Repair, Division of Maritime Training, Division of Vessel Custody, and Division of Vessel Operations.

(i) The Office of Ship Construction is responsible for the conduct of activities of the Maritime Administration and the Federal Maritime Board relating to ship design and construction, and the rendering of technical direction to the Office of Maritime Operations with respect to the reconversion, betterment and reconditioning of Maritime Administration-owned vessels. The Office of Ship Construction has the following divisions: Division of Estimates, Division of Preliminary Design, Division of Production, and Division of Technical Development; and contains the Vessel Trial and Guarantee Survey Boards.

(j) The Office of the Comptroller is responsible for the accounting, auditing, and insurance activities of the Maritime Administration and the Federal Maritime Board. The Office of the Comptroller has the following divisions: Division of Accounts, Division of Audits, Division of Credits and Collections, and Division of Insurance.

(k) The Offices of the Atlantic, Gulf, and Pacific Coast Directors are responsible for maintaining general surveillance over the management of field offices of the various organizational components located on their respective coasts.

6. *Filing of applications and other formal documents.* All applications and other formal documents required to be filed with either the Federal Maritime Board or the Maritime Administration shall be filed with the Secretary's Office, Federal Maritime Board.

(5 U. S. C. 22; R. S. 161; and Reorganization Plan No. 21 of 1950)

[SEAL] CHARLES SAWYER,
Secretary of Commerce.

The statements of organization and functions of the Federal Maritime Board contained in the foregoing have been adopted by the Federal Maritime Board.

E. L. COCHRANE,
Chairman,
Federal Maritime Board.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25700]

ANHYDROUS AMMONIA FROM SOUTHWEST TO LOUISVILLE, KY.

APPLICATION FOR RELIEF

DECEMBER 28, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariff I. C. C. No. 3746.

Commodities involved: Anhydrous ammonia, in tank-car loads.

From: El Dorado, Ark., Military, Kans., Lake Charles, La., and certain other points.

To: Louisville, Ky.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3746, Supp. 59.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25701]

ACETALDEHYDE TO GARFIELD, N. J.

APPLICATION FOR RELIEF

DECEMBER 28, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariffs I. C. C. Nos. 3752 and 3919.

Commodities involved: Acetaldehyde, in tank-car loads.

From: Tallant, Okla., Brownsville, Bishop, Houston, Texas City and Winnie, Tex.

To: Garfield, N. J.

Grounds for relief: Competition with rail carriers. Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3752, Supp. 529; D. Q. Marsh's tariff I. C. C. No. 3919, Supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

Office of Alien Property

AUTHORITY: 40 Stat. 411, 55 Stat. 839, Pub. Laws 322, 671, 79th Cong., 60 Stat. 50, 925; 50 U. S. C. and Supp. App. 1, 616; E. O. 9193, July 6, 1942, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR, 1945 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981.

[Vesting Order 16153]

HELMUT WERNER ET AL.

In re: Rights of Helmut Werner et al., under insurance contract. File No. F-28-25113-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Helmut Werner, Elfriede Hildegard Werner, Joachim Pieter Werner and Ursula Elizabeth Werner, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 1,422,126 issued by the Sun Life Assurance Company of Canada, Montreal, Quebec, Canada, to Helmut Werner, and any and all other benefits and rights of any kind or character whatsoever under or arising out of said contract of insurance except those of the aforesaid Sun Life Assurance Company of Canada together with the right to demand, enforce, receive and collect the same (including without limitation the right to proceed for collection against branch offices and legal reserves maintained in the United States), is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by Helmut Werner or Elfriede Hildegard Werner or Joachim Pieter Werner and Ursula Elizabeth Werner, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order 16710]

OTTO MEYER

In re: Estate of Otto Meyer, also known as Otto Mayer, deceased. File No. F-28-30814-C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Theresia Minder, Franziska Frey, Albert Frey, Thomas Frey, Johann Hans Forg, also known as Johann Hans Foerg, Rosa Rosina Fuchsberger, Centa Schindler, also known as Crescentia (Kreszenz) Schindler, Josef Woerle, Maria Anna Haefelein, Rosa Riedelsheimer, Franziska Meister and Therese Hofmann, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the heirs and next of kin, names unknown, of Otto Meyer, also known as Otto Mayer, deceased, except Ludwig (Louis) Forg, Mary Forg Sadler, Rose Washick, Rudy Wunderlich, and Henry Wunderlich, residents of the United States, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, except Ludwig (Louis) Forg, Mary Forg Sadler, Rose Washick, Rudy Wunderlich and Henry Wunderlich, residents of the United States, in and to the estate of Otto Meyer, also known as Otto Mayer, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Rose Washick, Administratrix, acting under the judicial supervision of the Probate Court of Cook County, State of Illinois;

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the heirs and next of kin, names unknown, of Otto Meyer, deceased, except Ludwig (Louis) Forg, Mary Forg Sadler, Rose Washick, Rudy Wunderlich and Henry Wunderlich, residents of the United States, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 26, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON, *Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order 16711]

CLARA HEDWIG SCHMIDT

In re: Trust for Clara Hedwig Schmidt. File No. F-28-27369; E. T. sec. No. 15517.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Fritz Baethmann, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof in and to a trust created for the benefit of Clara Hedwig Schmidt pursuant to an order of the Orphans' Court of Philadelphia County, Pennsylvania, entered on February 18, 1921, in the matter of the Estate of Otto Schmidt, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by The Pennsylvania Company for Banking and Trusts, as trustee, acting under the judicial supervision of the Orphans' Court of Philadelphia County, Philadelphia, Pennsylvania;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 26, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

LEONIE MIURA ET AL.

In re: Rights of Leonie Miura, et al., under insurance contracts. Files: F-39-5013-H-1 and F-39-5013-H-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Leonie Miura, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Leonie Miura, who there is reasonable cause to believe are residents of Japan, are nationals of a designated enemy country (Japan);

3. That the net proceeds due or to become due under contracts of insurance evidenced by Policies numbered 47940380 and 56045049 issued by The Prudential Insurance Company of America, Newark, New Jersey, to Leonie Miura, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by Leonie Miura or the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Leonie Miura, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Leonie Miura are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 6, 1950.

For the Attorney General.

MASAKATSU MURAKAMI AND TAMAKI MURAKAMI

In re: Rights of Masakatsu Murakami and Tamaki Murakami under insurance contract. File No. F-39-4408-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Masakatsu Murakami and Tamaki Murakami, whose last known address is Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidence by Policy No. 6998 202 issued by the New York Life Insurance Company, New York, New York, to Masakatsu Murakami, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Masakatsu Murakami or Tamaki Murakami, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 6, 1950.

LILLY GREENEBAUM

In re: Rights of Lilly Greenebaum under insurance contract. File No. F-28-23077-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Lilly Greenebaum, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 119 043, issued by the Workmen's Benefit Fund, Brooklyn, New York, to Theodore Greenebaum, together with the right to demand, receive and collect said net proceeds,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy county (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16374]

ERICH JOHANNES GOTTFRIED BURMEISTER AND BERTHA BURMEISTER

In re: Rights of Erich Johannes Gottfried Burmeister and Bertha Burmeister under contract of insurance. File F-28-24589-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Erich Johannes Gottfried Burmeister and Bertha Burmeister, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 203385, issued by the West Coast Life Insurance Company, San Francisco, California, to Erich Johannes Gottfried Burmeister, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Erich Johannes Gottfried Burmeister or Bertha Burmeister, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 51-46; Filed, Jan. 2, 1951; 8:50 a. m.]

[Vesting Order 16379]

STEPHAN GRONSKI

In re: Rights of Stephan Gronski under a contract of insurance. File No. F-28-27116-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Stephan Gronski, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due to Stephan Gronski under a contract of insurance evidenced by Policy No. 4 103 592-C issued by the Metropolitan Life Insurance Company, New York, New York, to Stephan Gronski, together with the right to demand, receive and collect said net proceeds,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16446]

MINNA TEMPEL

In re: Estate of Minna Tempel, deceased. File No. D-28-7477; E. T. sec. 7699.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Herman Meier, Fritz Meier, Wilhelmine Koller, Heinrich Meier, Lina Rieke, Sophie Schmidtpeter, Helene Meier, Auguste Meier, Heinrich Brinkmeier, Fritz Brinkmeier, Herman Brinkmeier, August Brinkmeier, Gustav Brinkmeier, Mina Lefman, Auguste Brinkmeier, Heinrich Kulmeier, Walter Kulmeier, Friedrich Kulmeier, Fritz Kuhfuss, Heinrich Kuhfuss, Lina Woltemathe, Louise Brinkman, Marie Peiper, Minna Tempel, Fritz Tempel, Louis Tempel, Wilhelm Tempel, Maria Schultze and Louise Solle, whose last known address was, on November 3, 1950, Germany, were on such date residents of Germany and nationals of a designated enemy country (Germany);

2. That the sum of $2,973.48 was paid to the Attorney General of the United States by Forrest F. Tempel, the Administrator, D. B. N., C. T. A., of the Estate of Minna Tempel, Deceased;

3. That the sum of $2,973.48 was accepted by the Attorney General of the United States on November 3, 1950, pursuant to the Trading With the Enemy Act, as amended;

4. That the said sum of $2,973.48 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof were not within a designated enemy country, on November 3, 1950, the national interest of the United States required that such persons be treated as nationals of a designated enemy country (Germany) on such date.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property by acceptance as aforesaid.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16466]

KARL BAUNACH

In re: Debt owing to Karl Baunach. F-28-25551-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Karl Baunach, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Karl Baunach, by the Kearny Manufacturing Company, Inc., (formerly American Textile Engineering Inc.), 681 Schuyler Avenue, Kearny, New Jersey, representing unpaid commissions, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Karl Baunach, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

A. G. PAULANERBRAU SALVATOR BRAUEREI AND THOMAS BRAU

In re: Debt owing to A. G. Paulanerbrau Salvator Brauerei and Thomas Brau. F-28-9001/C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That A. G. Paulanerbrau Salvator Brauerei and Thomas Brau, the last known address of which is 42 Ohlmuller Strasse, Munich, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Munich, Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to A. G. Paulanerbrau Salvator Brauerei and Thomas Brau, by Atlantis Importers & Distributors, Inc., 11 West 42 Street, New York, N. Y., in the net amount of $170.73, as of September 3, 1947, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

[Vesting Order 16470]

MARY FABIAN

In re: Claim of Mary Fabian, also known as Marya Fabian. F-28-23561-C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Mary Fabian, also known as Marya Fabian, whose last known address is Breslau, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: All rights and interest in, to and under that certain claim against the New York State Department of Insurance, 160 Broadway, New York City, as liquidator of Hudson Counties Title and Mortgage Company, said claim numbered 341, filed by Mary Fabian, including particularly any and all declared and unpaid liquidating dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the

aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

DR. NICOLAS HEFTER

In re: Bank account owned by the personal representatives, heirs, next of kin, legatees and distributees of Dr. Nicolas Hefter, deceased. F-28-22161.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Dr. Nicolas Hefter, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, arising out of a dollar checking account, entitled Dr. Nicolas Hefter, maintained by the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the personal representatives, heirs, next of kin, legatees and distributees of Dr. Nicolas Hefter, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of Dr. Nicolas Hefter, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

AUGUST AND ELIZABETH DEICHMANN

In re: Real property and claim owned by August Deichmann and Elizabeth Deichmann, his wife. F-28-31042-B-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That August Deichmann and Elizabeth Deichmann, his wife, each of whose last known address is Gertrudenstift, Grossenritte Kassel 7, Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Real property situated in the Township of Brookfield, County of Huron and State of Michigan, particularly described in Exhibit A attached hereto, and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property,

b. That certain debt or other obligation owing to the persons named in subparagraph 1 hereof by Beatrice Fritz, R. F. D. 1, Bad Axe, Michigan, including particularly but not limited to those sums arising from rents collected from the real property described in subparagraph 2-a hereof, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 21, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

All that certain lot or tract of land lying and being in the Township of Brookfield, County of Huron and State of Michigan, bounded and described as follows:

Commencing Fourteen Rods and Eleven feet South of the North West corner of the North East quarter of the North West quarter of Section Two in Township Fifteen North of Range Ten East and thence South to the South West corner of said North East quarter of the North West quarter as aforesaid, thence East Twenty-four rods, thence North to within Fourteen Rods and Eleven feet of the North side of said North East quarter of the North West quarter, thence West to the point of beginning and containing Ten acres of land be the same more or less.

MASATO NISHIKAWA

In re: Real property, property insurance policy, household furnishings, farm equipment and a claim owned by Masato Nishikawa, also known as Masata Nishikawa. F-39-6369.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Masato Nishikawa, also known as Masata Nishikawa, whose last known address is Nagasaki, Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Real property, situated in Fresno County, State of California, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property,

b. All right, title, interest and claim of the person named in subparagraph 1 hereof in and to property insurance policy No. 513231, in the amount of $2,500.00, issued by the American Insurance Company of Newark, New Jersey, 256 Montgomery Street, San Francisco, California, expiring October 18, 1950, which policy insures the improvements on the real property described in subparagraph 2-a hereof, and any and all extensions or renewals of said policy,

c. Household furnishings stored in the dwelling located on the property described in subparagraph 2-a hereof, and more particularly described in Exhibit B, attached hereto and by reference made a part hereof,

d. Farm equipment located on the real property described in subparagraph 2-a hereof, and more particularly described in Exhibit C, attached hereto and by reference made a part hereof, and

e. That certain debt or other obligation owing to Masato Nishikawa, also known as Masata Nishikawa, by Harding & Leggett, P. O. Box 386, Orange Cove, California, arising out of the net income by reason of rental of the property described in subparagraph 2-a hereof, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-b, 2-c, 2-d and 2-e hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 21, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16663]

JOHANNES STAUDENMAIER ET AL.

In re: Interest in real property and property insurance policies owned by Johannes Staudenmaier and others. D-28-12752.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Johannes Staudenmaier, Anna Staudenmaier, Theresia Schweizer, Emilie Staudenmaier, and Eugenie Schullhamen, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. An undivided four-ninths (4/9ths) interest in real property situated in Rusk County, State of Wisconsin, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. All right, title, interest and claim of the persons named in subparagraph 1 hereof, in and to all property insurance policies covering the premises described in subparagraph 2-a hereof and any and all extensions or renewals thereof,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 21, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

All that real property situate in the County of Rusk, State of Wisconsin, described as follows:

The West One-half of the Southwest Quarter (W½ of SW¼), the East One-half of the Southwest Quarter (E½ of SW¼) and Lots Six (6) and Seven (7), all in Section Thirty-one (31), Township Thirty-three (33) North, Range Six (6) West.

FEDERAL REGISTER

VOLUME 16 NUMBER 2

Washington, Thursday, January 4, 1951

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10200

ESTABLISHING THE DEFENSE PRODUCTION ADMINISTRATION

By virtue of the authority vested in me by the Constitution and statutes, including the Defense Production Act of 1950, and as President of the United States and Commander-in-Chief of the armed forces, it is hereby ordered as follows:

PART I. DEFENSE PRODUCTION ADMINISTRATION

SECTION 1. (a) There is hereby created an agency which shall be known as the Defense Production Administration.

(b) There shall be at the head of the Defense Production Administration a Defense Production Administrator, hereinafter referred to as the Administrator, who shall be appointed by the President by and with the advice and consent of the Senate. The Administrator shall perform his duties subject to the direction, control, and coordination of the Director of Defense Mobilization.

SEC. 2. (a) There are hereby delegated to the Administrator the functions conferred upon the President by Titles I and II and section 708 of the Defense Production Act of 1950 (relating respectively to priorities and allocations, requisitioning, and voluntary agreements) which were by the provisions of Part I, section 201 (a) of Part II, and Part VII of Executive Order No. 10161 of September 9, 1950, delegated to the Secretary of Commerce, the Secretary of the Interior, and the commissioner of the Interstate Commerce Commission, respectively, and those which were by the provisions of section 101 of the said Executive Order No. 10161 delegated to the Secretary of Agriculture to the extent that they relate to food which has been determined to be available for industrial needs pursuant to section 3 of this order; and the said delegations made by the said Executive Order No. 10161 are hereby terminated accordingly.

(b) The Administrator shall direct the administration of the functions provided for in sections 302 and 303 of the Defense Production Act of 1950 (relating to expansion of production, capacity, and supply) except as to food; and accordingly, (1) the functions delegated to the Administrator of General Services by the provisions of section 304 of the said Executive Order No. 10161 shall be performed by him only pursuant to certificates of or subject to the approval of the Defense Production Administrator, and (2) that part of section 303 of the said Executive Order No. 10161 which precedes paragraph (a) thereof is hereby amended to read as follows:

"SECTION 303. Within such amounts of funds as may be made available, and upon the certificate of the Secretary of Agriculture in respect of food and of the Defense Production Administrator in respect of other materials and facilities, as to the necessity for loans, purchases, commitments, or exploration, as the case may be:"

(c) In carrying out the functions delegated or otherwise assigned to him by the foregoing provisions of this Executive order, the Administrator shall:

(1) Pending the further order of the President or the Director of Defense Mobilization, and excluding the duties set forth in paragraphs (2) to (5), inclusive, immediately below, provide by redelegation or otherwise for the performance of the said functions by the respective officers and agencies to whom the said functions were delegated by the said Executive Order No. 10161 and their delegates.

(2) Perform the central programming functions incident to the determination of the production programs required to meet defense needs.

(3) Make determinations as to the provision of adequate facilities for defense production and as to the procedures and methods followed by Executive agencies with respect to the accomplishment of defense production programs, including those with respect to purchasing, contracting, and specifications.

(4) Assemble estimated labor supply requirements for the fulfillment of projected defense production programs and furnish them to the Secretary of Labor for use in connection with the functions assigned to him by Part VI of the said Executive Order No. 10161.

(5) Perform, without the power of redelegation, those functions of the Administrator under section 2 (a) of this Executive order (relating to certain voluntary agreements), which were heretofore delegated to the Secretary of Commerce by the provisions of section 701 (b) (1) of the said Executive Order No. 10161, and perform such other func-

tions regarding voluntary agreements as he may determine.

(d) The provisions of sections 902 and 903 of Executive Order No. 10161 (including those with respect to subpoena) are hereby made applicable to the Administrator with respect to his functions.

(e) The Administrator is hereby designated as the certifying authority for the purposes of and within the meaning of subsection (e) of section 124A of the Internal Revenue Code, as added by section 216 of the Revenue Act of 1950, approved September 23, 1950.

SEC. 3. (a) Whenever the available supply of any food is insufficient to meet all needs therefor the Administrator and the Secretary of Agriculture shall jointly determine the division to be made of the available supply of such food as between food for industrial needs and food for human and animal consumption.

(b) In the event of any difference of view between the Administrator and the Secretary of Agriculture relating to the execution of section 3 (a) above, or in the event of any difference in view arising between the Secretary of Agriculture and any other officer or agency of the Government in the administration of functions under the Defense Production Act of 1950 with respect to food or facilities therefor, such difference of view shall be submitted to the Director of Defense Mobilization for decision.

SEC. 4. Section 902 (d) (1) of Executive Order No. 10161 of September 9, 1950 is hereby amended to read as follows:

"(1) Each officer or agency having functions under the said Act delegated or assigned to such officer or agency by or pursuant to this Executive order shall submit to the Chairman of the United States Civil Service Commission such requests for classification of positions in grades 16, 17, and 18 of the General Schedule as may be necessary, and shall accompany any such request with a certificate stating that the duties of the position are essential and appropriate for the administration of the said Act."

SEC. 5. Section 802 of Executive Order No. 10161 of September 9, 1950, is hereby revoked, and the authority of the Chairman of the National Security Resources Board under section 103 (b) of the said Executive Order No. 10161 to approve the designation of officers and agencies as claimants is hereby terminated.

SEC. 6. (a) To the extent that provisions of Executive Order No. 10161 of September 9, 1950 are inconsistent with the provisions of this order the latter shall control, and the said Executive Order No. 10161 is amended accordingly.

Except as modified or made inapplicable by the provisions of this Executive order, provisions of the said Executive Order No. 10161 relating to functions vested in the Administrator hereby shall continue to be applicable to such functions. Executive Order No. 10172 of October 12, 1950 is hereby revoked. Nothing in this Executive order shall affect the validity or force of anything heretofore done under the said Executive Orders Nos. 10161 or 10172.

(b) Any officer or agency having by delegation or otherwise any function under this order shall have all the authority conferred by sections 902 and 903 of Executive Order No. 10161, including the authority with respect to subpoena.

(c) All orders, regulations, rulings, certificates, directives, and other actions relating to any function affected by this Executive order shall remain in effect except as they are inconsistent herewith or are hereafter amended or revoked under proper authority.

(d) Nothing in this Executive order shall be deemed to supersede any provision of Executive Order No. 10193 of December 16, 1950.

SEC. 7. The provisions of sections 2 to 6, inclusive, of this Executive order shall not be effective until the Administrator first appointed hereunder takes office as Administrator.

PART II. DEFENSE MOBILIZATION BOARD

SEC. 8. There is hereby established in the Office of Defense Mobilization (established by Executive Order No. 10193 of December 16, 1950) the Defense Mobilization Board, which shall consist of the Director of Defense Mobilization as Chairman, the Secretaries of Defense, the Treasury, the Interior, Commerce, Agriculture, and Labor, the Chairman of the Reconstruction Finance Corporation, the Chairman of the Board of Governors of the Federal Reserve System, the Chairman of the National Security Resources Board, and such other officials as said Director may from time to time designate. The said Board shall be advisory to the Director of Defense Mobilization.

HARRY S. TRUMAN

THE WHITE HOUSE,
January 3, 1951.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1950 C. C. C. Grain Price Support Bulletin 1, Amdt. 1 to Supp. 1, Barley]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP BARLEY LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 4669 and containing the requirements for the 1950-Crop Barley Price Support Program are hereby amended as follows:

Section 601.54 *Warehouse receipts* is amended by changing the requirements

in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.54 *Warehouse receipts.* Warehouse receipts representing barley in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the barley is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) class, (3) grade (including special grades), (4) test weight, (5) dockage, and (6) any other grading factor(s) when such factor(s), and not test weight, determine the grade. The warehouse receipt or the supplemental certificate must show whether the barley arrived by rail, truck or barge. In the case of warehouse receipts issued for barley delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificates for the car or barge.

(d) If the warehouse receipt states that the barley is stored "identity preserved," the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade and class of barley.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.58 (d).

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat., 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421)

Issued this 29th day of December 1950.

[SEAL] ELMER F. KRUSE,
Vice President,
Commodity Credit Corporation.

Approved:

RALPH S. TRIGG,
President,
Commodity Credit Corporation.

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP CORN LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by Commodity Credit Corporation and the Production and Marketing Administration, published in 15 F. R. 6878 and 7167, and containing the specific requirements for the 1950-Crop Corn Price Support Program are hereby amended as follows:

Section 601.114 *Warehouse receipts* is hereby amended by changing the requirements for grading factors to be shown on the warehouse receipt and the supplemental certificate so that the amended section reads as follows:

§ 601.114 *Warehouse receipts.* Warehouse receipts, representing corn in approved warehouse storage to be placed under loan or delivered under a purchase agreement must meet the requirements below:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the corn is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, (5) moisture, and (6) any other grading factor(s) when such factor(s), and not test weight or moisture, determine the grade. In areas where licensed inspectors are not available at terminal and subterminal warehouses, CCC will accept inspection certificates based on representative samples which have been forwarded to and graded by licensed grain inspector.

(d) In the case of warehouse receipts issued for corn delivered by rail or barge, CCC will accept inbound weight and inspection certificates properly identified with the corn covered thereby in lieu of the information required by paragraph (c) of this section.

(e) If the warehouse receipt states that the corn is stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(f) A separate warehouse receipt must be submitted for each grade and class of corn.

(g) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.118 (c).

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1441, 1421)

Issued this 29th day of December 1950.

[SEAL] ELMER F. KRUSE,
Vice President,
Commodity Credit Corporation.

Approved:

RALPH S. TRIGG,
President,
Commodity Credit Corporation.

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP FLAXSEED LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 3180 and containing the requirements for the 1950-Crop Flaxseed Price Support Program are hereby amended as follows:

Section 601.204 *Warehouse receipts* is amended by changing the requirements in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.204 *Warehouse receipts.* Warehouse receipts representing flaxseed in approved warehouse-storage to be placed under the loan or to be delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the flaxseed is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorms, cyclone and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) grade, (3) test weight, (4) dockage, and (5) percentage of damage when such factor, and not test weight, determines the grade. The warehouse receipt or the warehouseman's supplemental certificate must show whether the flaxseed arrived by rail, truck or barge. In the case of warehouse receipts issued for flaxseed delivered by rail or barge, the grading factors on the warehouse receipt or the warehouseman's supplemental certificate must agree with the inbound inspection certificates for the car or barge.

(d) If the warehouse receipt states that the flaxseed is stored "identity preserved," the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade of flaxseed.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.208 (e).

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat., 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421)

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 4617 and containing the requirements for the 1950-Crop Grain Sorghums Price Support Program are hereby amended as follows:

Section 601.254 *Warehouse receipts* is amended by changing the requirements in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.254 *Warehouse receipts.* Warehouse receipts representing grain sorghums in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below.

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the grain sorghums are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt must show: (1) Gross weight, (2) class, (3) grade (including special grades), (4) test weight, (5) moisture, (6) dockage, and (7) any other grading factor(s) when such factor(s) and not test weight, determine the grade.

The warehouse receipt or the warehouseman's supplemental certificate must show whether the grain sorghums arrived by rail, truck or barge. In the case of warehouse receipts issued for grain sorghums delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificate for the car or barge.

(d) If the warehouse receipt states that the grain sorghums are stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade, class, and subclass of grain sorghums.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.258 (d).

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat., 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421)

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP OATS LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 4621 and containing the requirements for the 1950-Crop Oats Price Support Program are hereby amended as follows:

Section 601.304 *Warehouse receipts* is amended by changing the requirements in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.304 *Warehouse receipts.* Warehouse receipts representing oats in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the oats are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehousemen's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, and (5) any other grading factor(s) when such factor(s) and not test weight determine the grade.

(d) If the warehouse receipt states that the oats are stored "identity preserved," the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade of oats.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.308 (b).

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat., 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421)

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP SOYBEAN LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 6625, and containing the requirements for the 1950-Crop Soybean Price Support Program, are hereby amended as follows:

Section 601.504 *Warehouse receipts* is amended by changing the factors required to be shown on the warehouse receipts and warehouseman's supplemental certificates so that the amended section reads as follows:

§ 601.504 *Warehouse receipts.* Warehouse receipts representing soybeans in approved warehouse-storage to be placed under loan or delivered under a purchase agreement must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the soybeans are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, (5) moisture, and (6) any other grading factor(s) when such factor(s), and not test weight or moisture, determine the grade. For soybeans grading No. 3 or No. 4, the percentage of splits, damage and foreign material, if any, must also be shown. The warehouse receipt or warehouseman's supplemental certificate must show whether the soybeans arrived by

rail, truck or barge. In the case of warehouse receipts issued for soybeans delivered by rail or barge, the grading factors on the warehouse receipt or the warehouseman's supplemental certificate must agree with the inbound inspection certificates for the car or barge.

(d) If the warehouse receipt states that the soybeans are stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade and class of soybeans.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.508 (c).

[1950 C. C. C. Grain Price Support Bulletin 1, Amdt. 2 to Supp. 1, Wheat]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 4869 and 4938 and containing the requirements for the 1950-Crop Wheat Price Support Program are hereby amended as follows:

Section 601.574 *Warehouse receipts* is amended by changing the requirements in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.574 *Warehouse receipts.* Warehouse receipts, representing wheat in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the wheat is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt must show: (1) Gross weight or bushels, (2) class and subclass, (3) grade (including special grades), (4) test weight, (5) dockage, (6) protein content (where determined by protein analysis or station average), and (7) any other grading factor(s) when such factor(s), and not test weight, determine the grade. The moisture content must also be shown except in the States of California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. Where moisture content is required, but it is not customary for country warehousemen to determine the exact moisture percentage, a warehouse receipt representing wheat stored in a country warehouse will be accepted if the moisture content is not shown, provided the grade of wheat does not show the word "tough." In such cases, the warehouseman will be responsible for delivering wheat which does not grade "tough" or "sample" due to moisture content. (Tough wheat is (1) wheat of any of the classes Hard Red Winter Wheat, Soft Red Winter Wheat, or White Wheat, or of the class Mixed Wheat in which wheat of any one of the classes Hard Red Winter Wheat, or Soft Red Winter Wheat, or White Wheat, predominates, which contains more than 14 percent but not more than 15.5 percent of moisture, and (2) wheat of any of the classes Hard Red Spring Wheat, or Durum Wheat, or Red Durum Wheat, or of the class Mixed Wheat in which wheat of any one of the classes Hard Red Spring Wheat, or Durum Wheat, or Red Durum Wheat, predominates, which contains more than 14.5 percent but not more than 16 percent of moisture.)

Also, the warehouse receipt or the warehouseman's supplemental certificate must show whether the wheat arrived by rail, truck, or barge. In the case of warehouse receipts issued for wheat delivered by rail or barge, the grading factors, classes and subclasses, protein content (where determined by protein analysis) on the warehouse receipt must agree with the inbound inspection and protein certificates for the car or barge.

(d) In the case of warehouse receipts issued for wheat delivered by rail or barge, the protein content, as determined by a recognized protein testing laboratory, must be shown on each warehouse receipt (or supplemental certificate accompanying the warehouse receipt) representing wheat of the subclasses of Hard Red Spring and Hard Red Winter and of the subclass Hard White Wheat, except that protein content need not be shown for the subclasses Hard Winter and Yellow Hard Winter produced in States or areas tributary to markets where a showing of protein content is not customarily required.

(e) If the warehouse receipt states that the wheat is stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(f) A separate warehouse receipt must be submitted for each grade and subclass of wheat.

(g) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.578 (d).

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1441, 1421)

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 15 F. R. 4626 and 4869 and containing the requirements for the 1950-Crop Rye Price Support Program are hereby amended as follows:

Section 601.604 *Warehouse receipts* is amended by changing the requirements in paragraph (c) for grading factors to be shown on the warehouse receipt or the supplemental certificate so that the amended section reads as follows:

§ 601.604 *Warehouse receipts.* Warehouse receipts, representing rye in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements of this section.

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the rye is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) grade (including special grades), (3) percentage of ergot for rye containing in excess of 3/10 of 1 percent of ergot, (4) test weight, (5) dockage, and (6) any other grading factor(s) when such factor(s) and not test weight determine the grade. The warehouse receipt or supplemental certificate must show whether the rye arrived by rail, truck, or barge. The moisture content must also be shown, except that where it is not customary for country warehousemen to determine the exact moisture percentage, a warehouse receipt representing rye stored in a country warehouse will be accepted if the moisture content is not shown, provided the grade of rye does not show the word "tough." In such cases, the warehousman will be responsible for delivering rye which does not grade "tough" or "sample" due to moisture content. In the case of warehouse receipts issued for rye delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificates for the car or barge.

(d) If the warehouse receipt states that the rye is stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade of rye.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.608 (d).

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat. 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1447, 1421)

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 723 — CIGAR-FILLER TOBACCO AND CIGAR-FILLER AND BINDER TOBACCO

RESULTS OF MARKETING QUOTA REFERENDA

Basis and purpose. This document is issued to announce the results of the cigar-filler tobacco and cigar-filler and cigar-binder tobacco marketing quota referenda for the marketing year beginning October 1, 1951, and for the three-year period beginning October 1, 1951. Under the provisions of the Agricultural Adjustment Act of 1938, as amended, the Secretary proclaimed a national marketing quota for cigar-filler and cigar-binder tobacco for the 1951–52 marketing year (15 F. R. 8214) and a national marketing quota for cigar-filler tobacco for the 1951–52 marketing year (15 F. R. 8214). The Secretary announced (15 F. R. 8224) that referenda would be held December 20, 1950, to determine whether cigar-filler tobacco producers and cigar-filler and cigar-binder tobacco producers were in favor of or opposed to marketing quotas for the three-year period beginning October 1, 1951. Since the only purpose of this proclamation is to announce the results of the referenda, it is hereby found and determined that with respect to this proclamation application of the notice and procedure provisions of the Administrative Procedure Act is unnecessary.

Proclamation of the results of the cigar-filler tobacco marketing quota referendum for the marketing year beginning October 1, 1951, and for the three-year period beginning October 1, 1951. In a referendum of farmers engaged in the production of the 1950 crop of cigar-filler tobacco held on December 20, 1950, 3,348 farmers voted. Of those voting 396 or 11.8 percent favored quotas for a period of three years beginning October 1, 1951; 326 or 9.8 percent favored quotas for only the one year beginning October 1, 1951; and 2,626 or 78.4 percent were opposed to quotas. Since more than one-third of the farmers voting opposed quotas, the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1951, proclaimed on November 28, 1950 (15 F. R. 8214) becomes ineffective. Therefore, marketing quotas will not be in effect on cigar-filler tobacco for such marketing year and § 723.203 is hereby revoked.

Proclamation of the results of the cigar-filler and cigar-binder tobacco marketing quota referendum for the marketing year beginning October 1, 1951, and for the three-year period beginning October 1, 1951. In a referendum of farmers engaged in the production of the 1950 crop of cigar-filler and cigar-binder tobacco held on December 20, 1950, 5,564 farmers voted. Of these voting 2,440 or 43.85 percent favored quotas for a period of three years beginning October 1, 1951; 1,278 or 22.97 percent favored quotas for only the one year beginning October 1, 1951; and 1,846 or 33.18 percent were opposed to quotas. Therefore, the national marketing quota of 70,900,000 pounds proclaimed on November 28, 1950 (§ 723.204, 15 F. R. 8214), for cigar-filler and cigar-binder tobacco for the 1951–52 marketing year will be in effect for the year beginning October 1, 1951.

Done at Washington, D. C., this 29th day of December 1950. Witness my hand and the seal of the Department of Agriculture.

(Sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interprets or applies sec. 312, 52 Stat. 46, as amended; 7 U. S. C. 1312)

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 727—MARYLAND TOBACCO

PROCLAMATION OF RESULTS OF MARYLAND TOBACCO MARKETING QUOTA REFERENDUM

Basis and purpose. This document is issued to announce the results of the tobacco producers and cigar-filler and cigar-binder tobacco producers were in favor of or opposed to marketing quotas for the three-year period beginning October 1, 1951. Since the only purpose of this proclamation is to announce the results of the referenda, it is hereby found and determined that with respect to this proclamation application of the notice and procedure provisions of the Administrative Procedure Act is unnecessary.

Proclamation of the results of the Maryland tobacco marketing quota referendum for the marketing year beginning October 1, 1951, and for the three-year period beginning October 1, 1951. In a referendum of farmers engaged in the production of the 1950 crop of Maryland tobacco held on December 20, 1950, 6,273 farmers voted. Of those voting 1,133 or 18.1 percent favored quotas for a period of three years beginning October 1, 1951; 1,197 or 19.1 percent favored quotas for only the one year beginning October 1, 1951; and 3,943 or 62.8 percent were opposed to quotas. Since more than one-third of the farmers voting opposed quotas, the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1951, proclaimed on November 27, 1950 (15 F. R. 8181), becomes ineffective. Therefore, marketing quotas will not be in effect on Maryland tobacco for such marketing year and §§ 727.201 and 727.202 are hereby revoked.

(Sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interprets or applies sec. 312, 52 Stat. 46, as amended; 7 U. S. C. 1312)

Done at Washington, D. C., this 29th day of December 1950. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 913—MILK IN THE GREATER KANSAS CITY MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

Sec.
913.0 Findings and determinations.

DEFINITIONS

913.1 Act.
913.2 Secretary.

Sec.
913.3 Department.
913.4 Person.
913.5 Cooperative association.
913.6 Greater Kansas City marketing area.
913.7 Producer.
913.8 Route.
913.9 Approved plant.
913.10 Pool plant.
913.11 Handler.
913.12 Producer-handler.
913.13 Producer milk.
913.14 Other source milk.
913.15 Delivery period.

MARKET ADMINISTRATOR

913.20 Designation.
913.21 Powers.
913.22 Duties.

REPORTS, RECORDS, AND FACILITIES

913.30 Reports of receipts and utilization.
913.31 Payroll reports.
913.32 Other reports.
913.33 Records and facilities.
913.34 Retention of records.

CLASSIFICATION

913.40 Skim milk and butterfat to be classified.
913.41 Classes of utilization.
913.42 Shrinkage.
913.43 Responsibility of handlers and reclassification of milk.
913.44 Transfers.
913.45 Computation of skim milk and butterfat in each class.
913.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

913.50 Basic formula price.
913.51 Class prices.
913.52 Butterfat differentials to handlers.
913.53 Location adjustments to handlers.

APPLICATION OF PROVISIONS

913.60 Producer-handlers.
913.61 Handler operating an approved plant which is not a pool plant.
913.62 Handlers subject to other orders.
913.63 Diversion.

DETERMINATION OF UNIFORM PRICE

913.70 Computation of the value of milk received from producers by each handler at pool plants.
913.71 Computation of uniform price.

PAYMENTS

913.80 Time and method of payment.
913.81 Location adjustment to producers.
913.82 Producer butterfat differential.
913.83 Producer-settlement fund.
913.84 Payments to the producer-settlement fund.
913.85 Payments out of the producer-settlement fund.
913.86 Fall incentive payment.
913.87 Adjustment of accounts.
913.88 Marketing service.
913.89 Expense of administration.
913.90 Termination of obligation.

EFFECTIVE TIME. SUSPENSION OR TERMINATION

913.100 Effective time.
913.101 Suspension or termination.
913.102 Continuing obligations.
913.103 Liquidation.

MISCELLANEOUS PROVISIONS

913.110 Agents.
913.111 Separability of provisions.

AUTHORITY: §§ 913.0 to 913.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 913.0 *Findings and determinations.* The findings and determinations hereinafter set forth are suplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest to make effective promptly this order, amending the said order, as amended, to reflect current marketing conditions. Any delay beyond January 1, 1951, in the effective date of this order amending the order, as amended, will seriously impair orderly marketing of milk in the Greater Kansas City marketing area. The provisions of the order are well known to handlers—the public hearing having been held May 22–25, 1950, and the decision having been executed by the Secretary on December 13, 1950. Therefore, reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order, further amending said order, as amended, effective January 1, 1951, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (see section 4 (C), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended and as hereby further amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Greater Kansas City marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who during the representative period (October 1950), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Greater Kansas City marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 913.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 913.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States as is authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture of the United States.

§ 913.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified herein.

§ 913.4 *Person.* "Person" means any individual, partnership, corporation, association or other business unit.

§ 913.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers as defined in § 913.7, which the Secretary determines after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 8, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has its entire activities under the control of its members; and

(c) Has and is exercising full authority in the sale of milk of its members.

§ 913.6 *Greater Kansas City marketing area.* "Greater Kansas City marketing area" hereinafter called "marketing area" means all of the territory in Jackson County, Missouri; that part of Clay County, Missouri, south of Highway 92, beginning at the Platte County and Clay County line, east to the west section line of section 26 in Washington Township, north to the north section line of said section 26, east to the Clay County and Ray County line; Lee, Waldron, May and Pettis Townships in Platte County, Missouri; Wyandotte County, Kansas; Shawnee and Mission Townships in Johnson County, Kansas; and Delaware, Leavenworth, and that part of Kickapoo and High Prairie Townships east of the 95th principal meridian in Leavenworth County, Kansas.

§ 913.7 *Producer.* "Producer" means any person, other than a producer-handler, who (a) produces milk under a dairy farm permit or rating issued by the applicable health authority of the marketing area for the production of milk to be used for consumption as milk in the marketing area on a dairy farm subject to the regular inspection of such authority, which (1) is received at a pool plant, or (2) is caused to be diverted from a pool plant to a nonpool plant by a handler or cooperative association for the account of such handler or cooperative association, or (b) produces milk acceptable to agencies of the United States Government for fluid consumption in its institutions or bases which is received at a pool plant supplying Class I milk to such an institution or base in the marketing area. This definition shall not include a person with respect to milk produced by him which is received by a handler who is subject to another Federal marketing order and who is partially exempted from this part pursuant to the provisions of § 913.62. As used in this part "dairy farm permit or rating" means one issued by the health authority charged with the inspection of milk for fluid consumption in the part of the marketing area where such milk is sold or disposed of, or was sold or disposed of before being diverted.

§ 913.8 *Route.* "Route" means any delivery (including a sale from a plant or plant store) of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, or cream in fluid form other than a delivery to any milk processing plant.

§ 913.9 *Approved plant.* "Approved plant" means any milk plant (a) which is approved by the applicable health authority of the marketing area for the handling of milk to be disposed of as Class I milk in the marketing area and (1) from which a route is operated in the marketing area, or (2) which is principally used to receive milk from dairy farmers who meet the specifications (other than delivery to a pool plant) of § 913.7 and to prepare such milk for transfer to another approved plant from which a route is operated in the marketing area, or (b) which is supplying Class I milk to a Federal institution or base in the marketing area.

§ 913.10 *Pool plant.* "Pool plant" means an approved plant other than the plant of a producer-handler:

(a) During any delivery period within which an amount of milk equal to 15 percent or more of such plant's receipts of milk from dairy farmers who meet the specifications (other than delivery to a pool plant) of § 913.7 is disposed of from such plant as Class I milk on routes operated in the marketing area; or

(b) During any delivery period of September, October, November, December, January, or February within which an amount of milk equal to 30 percent or more of such plant's receipts of milk from dairy farmers who meet the specifications (other than delivery to a pool plant) of § 913.7 is transferred in bulk to a plant described in paragraph (a) of this section. Any such plant which is a pool plant in each of the delivery periods of September, October, November, December, January, and February shall be a pool plant for each of the following months of March, April, May, June, July, and August, regardless of the quantity of milk then disposed of to other pool plants, if a written request for pool plant status for such six months' period is received from the operator of such plant by the market administrator before March 1.

If a handler operates more than one approved plant, the percentage requirements of this definition shall apply to the combined receipts and disposition of such multiple plant operation except that no plant which was not an approved plant during each of the preceding delivery periods of September through February shall be a pool plant as a part of such multiple plant operation during any of the delivery periods of March through August unless such multiple plant operation qualifies under paragraph (a) of this section for pool plant status for such delivery period.

§ 913.11 *Handler.* "Handler" means (a) the operator of an approved plant (whether or not such approved plant is a pool plant) in his capacity as such, or (b) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from a pool plant to another milk plant for the account of such cooperative association.

§ 913.12 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 913.13 *Producer milk.* "Producer milk" means all milk, produced by a producer, which is received at a pool plant either directly from such producer or from other handlers.

§ 913.14 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 913.15 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this part or any amendment thereto is in effect.

MARKET ADMINISTRATOR

§ 913.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 913.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 913.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 913.89 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 913.88) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days

after the date upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 913.30 through 913.32,

(2) Maintained adequate records and facilities pursuant to § 913.33, or

(3) Made payments pursuant to §§ 913.80 through 913.87.

(i) On or before the 12th day after the end of each delivery period, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each delivery period as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 913.51 (a) and the Class I butterfat differential pursuant to § 913.52 (a), both for the current delivery period; and the minimum price for Class II milk pursuant to § 913.51 (b) and the Class II butterfat differential pursuant to § 913.52 (b), both for the previous delivery period; and

(2) On or before the 10th day of each month the uniform price computed, pursuant to § 913.71 and the producer butterfat differential computed pursuant to § 913.82, both applicable to milk delivered during the previous delivery period; and

(k) Prepare and disseminate to the public such statistics and other information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 913 30 *Reports of receipts and utilization.* On or before the 7th day after the end of each delivery period each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The receipts at each plant of milk from each producer, the pounds of butterfat contained therein, the average butterfat test and the number of days on which milk was received from such producer;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area;

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe; and

(g) The pounds of skim milk and butterfat contained in all milk, skim milk, cream and other Class I products on hand at the beginning and at the end of the delivery period.

§ 913.31 *Payroll reports.* On or before the 20th day of each delivery period, each handler operating a pool plant shall submit to the market administrator his producer payroll for receipts during the preceding delivery period which shall show (a) the total pounds and the average butterfat test of milk received from each producer and cooperative association, (b) the amount of payment to each producer and cooperative association, and (c) the nature and amount of any deductions or charges involved in such payments.

§ 913.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes producer milk to be diverted to any plant shall report, prior to such diversion, to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted.

§ 913.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts of producer milk and other source milk and the utilization of such receipts;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product on hand at the beginning and at the end of each delivery period.

§ 913.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 913.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the delivery period by a handler which is required to be reported pursuant to § 913.30 shall be classified by the market administrator pursuant to the provisions of §§ 913.41 through 913.46.

§ 913.41 *Classes of utilization.* Subject to the conditions set forth in §§ 913.43 and 913.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream (sweet or sour, including any mixture of cream and milk or skim milk containing less butterfat than the regular standard for cream), skim milk and butterfat used in creaming cottage cheese disposed of as creamed cottage cheese, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat: (1) Used to produce butter, plain or sweetened condensed or evaporated milk, spray or roller process nonfat dry milk solids, powdered whole milk, ice cream, ice cream mix, frozen desserts, eggnog, aerated cream products with flavor or sweetening added in containers or dispensers under pressure, casein, margarine and cheese (including skim milk used to produce cottage cheese curd, but not including skim milk and butterfat used in creaming cottage cheese disposed of as creamed cottage cheese); (2) used for starter churning, wholesale baking and candy making purposes; (3) disposed of as livestock feed; and (4) in shrinkage not in excess of 2 percent of total receipts, other than receipts from pool plants of other handlers, of skim milk and butterfat, respectively.

§ 913.42 *Shrinkage.* The market administrator shall prorate shrinkage of skim milk and butterfat classified as Class II milk between the receipts of skim milk and butterfat, respectively, in milk from producers and other source milk.

§ 913.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 913.44 *Transfers.* Skim milk or butterfat transferred from a pool plant shall be classified:

(a) As Class I milk if transferred in the form of milk, skim milk, or cream, to the pool plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by the operators of both plants on or before the 7th day after the end of the delivery period within which such transfer occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 913.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *And provided further*, That if either or both plants have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk if transferred in the form of milk, skim milk or cream to a producer-handler.

(c) As Class I milk if transferred in the form of milk, skim milk or cream to a nonpool plant located more than 150 miles from the pool plant by the shortest highway distance as determined by the market administrator, except that (1) cream as transferred may be classified as Class II milk if its utilization as Class II milk is established through the operation of another Federal order for another milk marketing area; or (2) cream so transferred with prior notice to the market administrator, and with each container labeled or tagged with a certificate of the transferor that such cream is sold as "Grade C cream for manufacturing only", may be classified as Class II milk, subject to such verification of alternate utilization as the market administrator may make.

(d) As Class I milk, if transferred in the form of milk, skim milk or cream to a nonpool plant located less than 150 miles from the pool plant from which transferred, unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classification of all skim milk and butterfat received at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the highest use remaining after subtracting, in series beginning with Class I milk, receipts of skim milk and butterfat at such nonpool plant direct from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such nonpool plant in markets supplied by such plant.

(e) Skim milk or butterfat transferred to a nonpool plant from which fluid milk, skim milk or cream is transferred to a pool plant shall be subject to reclassification to the extent of the amount so transferred from such nonpool plant.

§ 913.45 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct mathematical and other obvious errors in the report of receipts and utilization submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 913.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 913.45 the market administrator shall determine the classification of milk received from producers at the pool plant(s) of each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk prorated to shrinkage in skim milk received from producers pursuant to § 913.42.

(2) Subtract from the pounds of skim milk remaining in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the pounds of skim milk remaining in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the pounds of skim milk remaining in each class the skim milk received from other pool plants according to its classification as determined pursuant to § 913.44 (a);

(4) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) Subtract from the pounds of skim milk remaining in each class any amount by which the pounds of skim milk remaining in both classes exceed the pounds of skim milk in milk received from producers in series beginning with Class II. Such excess shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I milk and of the Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 913.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk for the delivery period shall be the higher of the prices computed pursuant to paragraphs (a) or (b) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department divided by 3.5 and multiplied by 3.8:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) To the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, add 20 percent thereof and multiply by 3.8.

(2) To the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 7.

§ 913.51 *Class prices.* Subject to the provisions of §§ 913.52 and 913.53, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the delivery period shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding delivery period plus $1.00 during each of the delivery periods of March, April, May, June, July, and August, and plus $1.45 during all other delivery periods: *Provided*, That for each of the delivery periods of October, November, and December of each year, such Class I price shall not be less than that for September of the same year, and that for each of the delivery periods of April, May, and June of each year such Class I price shall not be more than that for March of the same year.

(b) *Class II milk.* The basic formula price for the current delivery period during each of the delivery periods of September, October, November, December, January, and February, and such basic formula price less 20 cents during all other delivery periods: *Provided*, That such price shall not be less than the highest price ascertained by the market administrator to have been quoted for ungraded milk of 3.8 percent butterfat content received during such delivery period by any one of the three following plants:

Present Operator and Location

Meyer Sanitary Milk Co., Valley Falls, Kans.
Franklin Ice Cream Co., Tonganoxie, Kans.
Milk Producers Marketing Co., Kansas City, Kans.

§ 913.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to either class pursuant to § 913.46 (c) is more or less than 3.8 percent there shall be added to the respective class price computed pursuant to § 913.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.8 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 3.8 percent, an amount equal to the butterfat differential computed as follows:

(a) For Class I milk, multiply the butter price specified in § 913.50 (b) (1) by 1.3 and divide the result by 10;

(b) For Class II milk (1) during each of the delivery periods of September

through February, multiply the butter price specified in § 913.50 (b) (1) by 1.2 and divide the result by 10; and (2) during each of the delivery periods of March through August, multiply the butter price specified in § 913.50 (b) (1) by 1.15 and divide the result by 10.

§ 913.53 *Location adjustments to handlers.* For milk which is received from producers at a pool plant located more than 50 miles by shortest highway distance, as determined by the market administrator, from the City Hall in Kansas City, Missouri, and which is classified as Class I milk the prices computed pursuant to § 913.51 (a) shall be reduced by 16 cents if such plant is located more than 50 miles but not more than 70 miles from such City Hall and by an additional one-half cent for each 10 miles or fraction thereof that such distance exceeds 70 miles.

In case such pool plant is operated by a handler who also has a plant in the marketing area, milk moved to such plant in the marketing area shall be considered to be Class I milk to the extent that the Class I milk disposed of from such plant in the marketing area exceeds receipts of milk from producers at such plant in the marketing area: *Provided,* That if such handler has two or more pool plants to which location adjustments apply, the milk so classified as Class I milk shall be deemed to have been transferred from such pool plants in the order of their distance from the City Hall in Kansas City.

Location adjustments on milk transferred as Class I milk from a pool plant to the pool plant of another handler shall apply only to that portion of such milk which is not in excess of the amount by which the total Class I sales of the receiving handler are greater than the total receipts of such handler from producers.

APPLICATION OF PROVISIONS

§ 913.60 *Producer-handlers.* Sections 913.40 through 913.45, 913.50 through 913.53, 913.61, 913.70, 913.71, 913.80 through 913.89 shall not apply to a producer-handler.

§ 913.61 *Handler operating an approved plant which is not a pool plant.* Each handler who operates an approved plant which is not a pool plant shall pay, with respect to all skim milk and butterfat other than that transferred to the pool plant of another handler, disposed of as Class I milk within the marketing area, an amount equal to the difference between the value of such skim milk and butterfat at the Class I price and their value at the Class II price. Payments pursuant to this section shall be made to the market administrator for the producer-settlement fund on or before the 12th day after the end of each delivery period.

§ 913.62 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this part shall not apply, except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require, and allow verification of such reports by the market administrator.

(b) Such handler shall pay to the market administrator for the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the excess, if any, by which the value of such skim milk and butterfat as determined pursuant to this part exceeds its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 12th day after the end of each delivery period.

§ 913.63 *Diversion.* (a) Milk diverted for the account of a handler from an approved plant of such handler to a milk plant which is not a pool plant shall be deemed to have been received by such handler at the approved plant from which such milk was diverted.

(b) Milk diverted for the account of a handler from an approved plant of such handler to a pool plant of another handler for not more than 5 days during the delivery period shall be deemed to have been received by the diverting handler at the approved plant from which such milk was diverted; milk received at a pool plant for more than 5 days during the delivery period shall be deemed to have been received at such pool plant by the handler who operates such pool plant.

(c) Milk diverted by a cooperative association that does not operate an approved plant, from a pool plant to another milk plant for the account of such cooperative association shall be deemed to have been received by such cooperative association at a pool plant at the same location as the pool plant from which such milk was diverted.

DETERMINATION OF UNIFORM PRICE

§ 913.70 *Computation of the value of milk received from producers by each handler at pool plants.* The value of milk received during each delivery period by each handler from producers at pool plants shall be a sum of money computed as follows:

(a) Multiply the pounds of milk in each class computed pursuant to § 913.46 (c) by the applicable respective class prices and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 913.46 (a) (5) by the applicable respective class prices; and

(c) For any other source skim milk or butterfat subtracted from Class I milk pursuant to § 913.46 (a) (2) and (b), add an amount equal to the defferences between the values of such skim milk and butterfat at the Class I price and at the Class II price, unless the handler can prove to the satisfaction of the market administrator that such other source skim milk and butterfat was used only to the extent that producer milk was not available.

§ 913.71 *Computation of uniform price.* For each delivery period the market administrator shall compute the uniform price per hundredweight for milk received from producers as follows:

(a) Combine in one total the values computed pursuant to § 913.70 for all handlers who made reports prescribed in § 913.30 and who made the payments pursuant to §§ 913.80 and 913.84 for the preceding delivery period;

(b) Add the aggregate of the values of all allowable location differential adjustments to producers pursuant to § 913.81;

(c) For each of the delivery periods of May, June, and July, subtract an amount equal to 20 cents per hundredweight of the total amount of milk received by handlers from producers and included in these computations, to be retained in the producer-settlement fund for the purpose specified in § 913.86;

(d) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(e) Subtract for each one-tenth percent by which the average butterfat content of the milk included in these computations is greater than 3.8 percent, or add for each one-tenth percent that such average butterfat content is less than 3.8 percent, an amount computed by multiplying the butterfat differential computed pursuant to § 913.82 by the total hundredweight of such milk;

(f) Divide by the total hundredweight of milk included in these computations; and

(g) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price for milk of 3.8 percent butterfat content received at pool plants located less than 50 miles from the City Hall in Kansas City, Missouri.

PAYMENTS

§ 913.80 *Time and method of payment.* Each handler operating a pool plant shall make payment as follows:

(a) On or before the 12th day after the end of each delivery period, to each producer for whom payment is not received from the handler pursuant to paragraph (c) of this section, at not less than the uniform price computed pursuant to § 913.71, adjusted by the butterfat differential computed pursuant to § 913.82, subject to the location adjustment to producers pursuant to § 913.81 and less the amount of (1) the payment made pursuant to paragraph (b) of this section, (2) marketing service deductions pursuant to § 913.88 and (3) deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 913.84, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each delivery period, to each producer for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of this section, for milk received from him during the first 15 days of such delivery period, at the approximate value of such milk.

(c) On or before the 11th day after the end of each delivery period and on or before the 23d day of the delivery period, in lieu of payments pursuant to paragraphs (a) and (b) of this section, to a cooperative association which so requests, with respect to producers on whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers.

(d) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 913.80, 913.81, and 913.82;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 913.88 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

For each producer for whom payment is to be made to a cooperative association as provided in paragraph (c) of this section, each handler shall furnish the above information to the cooperative association on or before the 8th day after the end of the delivery period.

(e) Nothing in this section shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

§ 913.81 *Location adjustment to producers.* In making payments to producers, pursuant to § 913.80 (a), for milk received at a pool plant located 50 miles or more from the City Hall in Kansas City, Missouri, by shortest highway distance as determined by the market administrator, there shall be deducted 16 cents per hundredweight of milk for distances of 50 to 70 miles, inclusive, plus an additional one-half cent for each additional 10 miles or fraction thereof in excess of 70 miles.

§ 913.82 *Producer butterfat differential.* In making payments pursuant to § 913.80, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 3.8 percent, an amount computed by adding 4 cents to the butter price specified in § 913.50 (b) (1), dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 913.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 913.61, 913.62, and 913.84 and all appropriate payments pursuant to § 913.87 and out of which he shall make all payments pursuant to § 913.85 and all appropriate payments pursuant to §§ 913.86 and 913.87: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

§ 913.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers, during such delivery period as determined pursuant to § 913.70 is greater than the amount required to be paid producers by such handler pursuant to § 913.80 before deductions (a) for marketing services pursuant to § 913.88 and (b) authorized by the producer.

§ 913.85 *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each delivery period during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during such delivery period as determined pursuant to § 913.70 is less than the amount required to be paid producers by such handler pursuant to § 913.80 before deductions (a) for marketing services pursuant to § 913.88 and (b) authorized by the producer: *Provided,* That if at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payment and shall complete such payments as soon as the necessary funds are available.

§ 913.86 *Fall incentive payment.* On or before the 15th day after the end of each of the delivery periods of October, November, and December, the market administrator shall pay out of the producer-settlement fund to each producer an amount computed as follows: Divide one-third of the total amount held pursuant to § 913.71 (e) by the hundredweight of producer milk received during the delivery period involved (October, November, or December, as above) and apply the resulting amount per hundredweight to the milk of each producer for such delivery period: *Provided,* That payment under this paragraph due any producer who has given authority to a cooperative association to receive payments for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payment.

§ 913.87 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due the market administrator or any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of the amount due and payment therefor shall be made within 5 days if such amount is due the market administrator, or on or before the next date for making payments to producers or a cooperative association, if such amount is due them. Whenever such audit discloses errors resulting in moneys due such handler from the market administrator, payment shall be made within 5 days.

§ 913.88 *Marketing service*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers other than himself pursuant to § 913.80 (a), shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from and to provide market information to such producers.

(b) *Deductions with respect to members of a cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions from the payments to be made directly to producers pursuant to § 913.80 (a), as are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the association of which such producers are members, accompanied by a statement showing the amount of the deduction and the quantity of milk for which it was computed for each such producer.

§ 913.89 *Expense of administration*—(a) *Payments by handlers.* As his pro rata share of the expense of the administration hereof, each handler shall pay the market administrator, on or before the 12th day after the end of each delivery period, 2 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received from producers during such delivery period.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expenses set forth in this section.

§ 913.90 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the

last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representative all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 913.100 *Effective time.* The provisions of this part or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 913.101.

§ 913.101 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 913.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 913.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 913.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 913.111 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 28th day of December 1950, to be effective on and after the 1st day of January 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-74; Filed, Jan. 3, 1951; 8:46 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

PART 150—DEPORTATION PROCEEDINGS: INVESTIGATION AND ARREST

SUSPENSION OF DEPORTATION

DECEMBER 15, 1950.

The following amendments to Part 150, Chapter I, Title 8 of the Code of Federal Regulations, are hereby prescribed:

1. Section 150.7 is amended to read as follows:

§ 150.7 *Application, prior to hearing, for suspension of deportation*—(a) *Who may apply.* Any alien against whom warrant proceedings have been instituted who believes himself entitled to suspension of deportation may apply therefor prior to hearing by filing Form I-256, in duplicate, properly filled out and executed, together with two photographs as prescribed in § 364.1 of this chapter, at the office of the Service having jurisdiction over the applicant's place of residence.

(b) *Prima facie eligibility not established.* If Form I-256 does not establish that the alien is prima facie eligible to be considered for suspension of deportation, the case shall be referred to a hearing officer for hearing as to deportability.

(c) *Prima facie eligibility established; documents and investigation required.* If Form I-256 establishes that the alien is prima facie eligible to be considered for suspension of deportation, the alien shall be advised to obtain promptly and furnish to the office in which the application was filed such documents as may be required for the disposition of the alien's application. That office shall obtain verifications of such entries of the alien and other persons as are pertinent to the case and shall cause an investigation to be conducted for the purpose of obtaining facts which will bear upon the alien's claim to eligibility for relief. The investigating officer shall make a written report of his investigation to be included in the record.

(d) *Submission of record for examination.* When the necessary entries have been verified and the documents required of the alien and the report of the investigating officer have been submitted, the applicant shall be notified when and where he should appear for examination.

2. Section 150.8 *Definitions* is renumbered § 150.14, and §§ 150.8, 150.9, 150.10, 150.11, 150.12, and 150.13 are added to read as follows:

§ 150.8 *Attorneys.* An applicant for suspension of deportation under the special procedure provided in §§ 150.7 to 150.13 may be represented by an attorney or other persons in accordance with the provisions of Part 95 of this chapter.

§ 150.9 *Evidence; burden of proof.* All evidence adduced during this special procedure may be used in any other proceeding and the alien shall be duly informed of this fact. The burden of proof shall be upon the applicant. In presenting his proof he shall be entitled to the benefit of any disclosable records concerning him which are in the custody of the Service.

§ 150.10 *Examination.* The examination of the applicant and witnesses shall be conducted by any employee of the Service designated by the Commissioner to conduct such examination. At the examination the examiner shall orally review the application with the applicant or, in the case of a child under the age of 18 years, with the parent or guardian. Any necessary changes in the application shall be consecutively numbered by such officer and acknowledged in writing by the applicant or the parent or guardian. The applicant shall be questioned under oath by the examiner for the purpose of identification and to clarify any points in controversy on the basis of the information submitted in the application and other documents. If the sworn application form, supporting documentary evidence, records of the Service, and the testimony of the applicant or the parent or guardian, if applicant is a child under the age of 18 years, establish the applicant's eligibility for suspension of deportation, no other witnesses shall be required. Otherwise, such number of credible witnesses, preferably citizens of the United States, as may be deemed necessary, shall be questioned under oath by the examiner concerning the facts of the applicant's eligibility for the relief requested, or, where such witnesses cannot appear because of remoteness, disability, or any other cause which the officer in charge deems good and sufficient, their affidavits may be accepted without requiring their personal appearance. The testimony of witnesses appearing in person shall be reduced to writing and signed by the person testifying. In the discretion of the examiner, such writing shall be either in verbatim or narrative form.

§ 150.11 *Disposition by examiner*—(a) *Eligibility for relief established.* If, on the basis of the evidence presented, the examiner concludes that the alien has established eligibility for suspension of deportation, he shall prepare a memorandum stating therein the grounds for the alien's deportability and basis of the alien's eligibility for suspension of deportation. The entire record shall then be delivered to the officer in charge of the district for transmittal to the Commissioner.

(b) *Eligibility for relief not established.* If, on the basis of evidence presented, the examiner concludes that the alien has not established eligibility for suspension of deportation, he shall forward the record to the officer in charge of the district together with his reasons for such conclusion.

§ 150.12 *Termination of special procedure.* The special procedure provided for in §§ 150.7 to 150.11 may be terminated forthwith (a) by the officer in charge of the district at any time prior to the transmittal of the record to the Commissioner, upon a determination that the alien may leave for parts unknown, or is failing without cause to prosecute his application, or that the alien's eligibility to be considered for suspension of deportation is questionable; or (b) by the Commissioner at any time. Upon such termination the alien's case shall be referred for hearing in accordance with Part 151 of this chapter. Such termination shall be without prejudice to any application for relief from deportation which may be made by the alien during the course of the hearing under the warrant of arrest.

§ 150.13 *Decision by Commissioner*—(a) *Eligibility established.* If, on the basis of the evidence presented, the Commissioner is satisfied that the alien has established eligibility for suspension of deportation, and if the Commissioner is satisfied that suspension of deportation should be authorized, he shall enter an order directing that the alien's deportation be suspended. A copy of the order shall be served upon the alien or his counsel or representative by personal service or by registered mail. If the applicant does not have counsel or representative, the order shall be served upon him by the appropriate field office of the Service; otherwise the order shall be served by the Commissioner on the applicant's counsel or representative.

(b) *Eligibility not established.* If, on the basis of the evidence presented, the Commissioner is satisfied that the alien has not established his eligibility for suspension of deportation, or if the Commissioner is satisfied that suspension of deportation should not be authorized, he shall terminate the special procedure and further action shall thereupon be taken as provided in § 150.12.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. The requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date are inapplicable for the reason that the regulations hereby prescribed pertain solely to agency procedure.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 102, 222, 458. Interpret or apply secs. 19, 20, 39 Stat. 883, 890, sec. 14, 43 Stat. 162, 54 Stat. 671, 56 Stat. 1044, 57 Stat. 553; 8 U. S. C. 155, 156, 214)

A. R. MACKEY,
Acting Commissioner of Immigration and Naturalization.

Approved: December 28, 1950.

J. HOWARD MCGRATH,
Attorney General.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter C—Procedural Regulations

[Reg., Serial No. PR-9]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

INFORMAL MAIL RATE CONFERENCE PROCEDURE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of December 1950.

It has been suggested that the current provisions of Part 302 relating to nondisclosure or use of information obtained in the informal mail rate conference procedure place an undue interpretative burden on participants in the procedure, and, in addition, that such provisions are, in fact, beyond the Board's legal powers to impose.

The Board, after due consideration of the matter has concluded that it may impose conditions upon the use of information as to its possible future course of action developed in a mail rate conference as a condition precedent to the use of such procedure. The imposition of such a condition is necessary to prevent abuse of a legitimate Board process, and as such is logically necessary for the conduct of the powers granted to this agency.

However, the Board concurs in the opinion expressed as to the burden of interpretation placed upon participants in the conference procedure, and is, therefore, amending the rule in order to define more specifically the obligations of participants in an informal mail rate conference.

In brief, the amendments so define "information" as to limit the restricted material to information regarding the future course of action or position of the Board's staff with respect to the facts or issues discussed at the conference, redefine in more specific terms the responsibility of participants in the conference with respect to nondisclosure of such information; limit the prohibition against dealing in the carrier's securities to those persons within certain categories who actually have knowledge that the information developed in the conference procedure is confidential and subject to restrictions, except that company directors dealing in securities during the period of a mail rate conference are presumed to have such knowledge, and further defines "participant" and the duration of the period when the restrictions are imposed. In addition, provision is made for application for, and issuance of a Board waiver of the limitations where there is no reasonable possibility of abuse.

Since this is a rule of agency procedure and practice, notice and public procedure hereon are not required, and the amendment may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR, Part 302, as amended) effective December 27, 1950.

By amending § 302.19 to read as follows:

§ 302.19 *Informal mail rate conference procedure*—(a) *Invocation of procedure.* Conferences between members of the Board's staff, representatives of air carriers, the Post Office Department and other interested persons may be called by the Board's staff for the purpose of considering and clarifying issues and factual material in pending proceedings for the establishment of rates for the transportation of mail.

(b) *Scope of conferences.* The mail rate conferences shall be limited to the discussion of, and possible agreement on, particular issues and related factual material in accordance with sound rate-making principles. The duties and powers of the Board's staff in rate conferences essentially will not be different, therefore, from the duties and powers it has in the processing of rate cases not involving a rate conference. The staff function in both instances is to present clearly to the Board the issues and the related material facts, together with recommendations. The Board will make an independent determination of the

soundness of the staff's analyses and recommendations.

(c) *Participants in conferences.* The persons entitled to be present in mail rate conferences will be the representatives of the carrier whose rates are in issue, the staff of the Postmaster General, and the Board's staff. No other person will attend unless the Board's staff deems his presence necessary in the interest of one or more purposes to be accomplished, and in such case his participation will be limited to such specific purposes. No person, however, shall have the duty to attend merely by reason of invitation by the Board's staff.

(d) *Conditions upon participation*—(1) *Nondisclosure of information.* As a condition to participation, every participant, during the period of the conferences and for 90 days after its termination, or until the Board takes public action with respect to the facts and issues covered in the conferences, whichever is earlier: (i) shall, except for necessary disclosures in the course of employment in connection with conference business, hold the information obtained in conference in absolute confidence and trust; (ii) shall not deal, directly or indirectly, for the account of himself, his immediate family, members of his firm or company, or as a trustee, in securities of the carrier involved in the rate conference except that under exceptional circumstances special permission may be obtained in advance from the Board; and (iii) shall adopt effective controls for the confidential handling of such information and shall instruct personnel under his supervision, who by reason of their employment come into possession of information obtained at the conference, that such information is confidential and must not be disclosed to anyone except to the extent absolutely necessary in the course of employment, and must not be misused. The word "information," as used in this paragraph, shall refer only to information obtained at the conference regarding the future course of action or position of the Board or the Board's staff with respect to the facts or issues discussed at the conference.

(2) *Signed statement required.* Every representative of a carrier actually present at any conference shall sign a statement that he has read this entire instruction and promises to abide by it and advise any other participant to whom he discloses any confidential information of the restrictions imposed above. Every representative of the Postmaster General actually present at any conference shall, on his own behalf, sign a statement to the same effect.

(3) *Presumption of having conference information.* A director of any carrier, which has had a representative at the conference, who deals either directly or indirectly for himself, his immediate family, members of his firm or company, or as a trustee, in securities of the air carrier involved in the conference, during the restrictive period set forth above, shall be presumed to have come into possession of information obtained at the conference knowing that such information was subject to the restrictions imposed above; but such presumption shall be rebuttable.

(4) *Compliance report required.* Within ten (10) days after the expiration of the time specified for keeping conference matters confidential every participant, as defined in this section, shall file a verified compliance report with the Secretary of the Board stating that he has complied in every respect with the conditions of this section, or if he has not so complied, stating in detail in what respects he has failed to comply.

(5) *Persons subject to the provisions of this paragraph.* For the purposes of this paragraph, participants shall include (i) any representative of any carrier and any representative of the Postmaster General actually present at the conference; (ii) the carrier and the officers of any carrier which has had a representative at the conference; (iii) the directors of any carrier, which has had a representative at the conference, the members of any firm of attorneys or consultants, which has had a representative at the conference, and the members of the Postmaster General's staff, who come into possession of information obtained at the conference, knowing that such information is subject to the restrictions imposed above.[1]

(e) *Information to be requested from carrier.* With respect to the rate for the future period, the carrier will be requested to submit detailed estimates as to traffic, revenues and expenses by appropriate periods and the investment which will be required to perform the operations for a full future year. Full and adequate support shall be presented for all estimates, particularly where such estimates deviate materially from the carrier's past experience. With respect to the rate for a past period, essentially the same procedure shall be followed. Other information or data likewise may be requested by the Board's staff. All data submitted by the carrier shall be certified by a responsible officer.

(f) *Staff analyses of data for submission of answers thereto.* After a careful analysis of these data, the Board's staff will, in most cases, send the carrier what might be termed a statement of exceptions showing areas of differences. Where practicable, the carrier may submit its answer to these exceptions. Conferences will then be scheduled to work out a clear understanding and resolution of the issues and facts from the standpoint of sound rate-making principles.

(g) *Availability of data to Post Office Department.* The representatives of the Postmaster General shall have access to all conference data and, insofar as practicable, shall be furnished copies of all pertinent data prepared by the Board's staff and the carrier, and a reasonable time shall be allowed to get acquainted with the facts and issues and to make any presentation deemed necessary.

(h) *Post-conference procedure.* The rate conferences not being in the nature of proceedings, no briefs, or argument, or any formal steps, will be entertained by the Board. The form, content and time of the staff's presentation to the Board are entirely matters of internal procedure. Any participant is at liberty, however, further to urge his contentions by way of memoranda addressed to the Board's staff and may request that such memoranda be presented to the Board as a more effective way of stating his position.

(i) *Effect of conference agreements.* No agreements or understandings reached in rate conferences as to facts or issues shall in any respect be binding on the Board or any participant. Any party to the mail rate proceedings will have the same rights to file an answer and take other procedural steps as though no rate conference had been held. The fact, however, that rate conferences were held and cetain agreements or understandings may have been reached on certain facts and issues renders it proper to provide that upon the filing of an answer by any party to the rate proceeding all issues going to the establishment of a rate shall be open, except insofar as limited in prehearing conference in accordance with § 302.7.

(j) *Waiver of paragraphs (c) and (d) of this section.* After the termination of a mail rate conference hereunder, the carrier, whose rates were in issue, may petition the Board for a release from the obligations imposed upon it and all other persons by paragraphs (c) and (d) of this section. The Board will grant such petition only after a detailed and convincing showing is made in the petition and supporting exhibits and documents that there is no reasonable possibility that any of the abuses sought to be prevented will occur or that the Board's processes will in any way be prejudiced. There will be no hearing or oral argument on the petition and the Board will grant or deny the request without assigning reasons therefor.

(k) *Time of commencing and terminating conference.* At the commencement of an informal mail rate conference pursuant to this section, the members of the Board's staff conducting such conference shall issue to each person present at such conference a written statement to the effect that such conference is being conducted pursuant to this section and stating the time of commencement of such conference; and at the termination of such conference the members of the Board's staff conducting such conference shall note in writing on such statement the time of termination of such conference.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 1001, 52 Stat. 1017, 49 U. S. C. 641)

NOTE: The reporting requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

[F. R. Doc. 51-93; Filed, Jan. 3, 1951; 8:48 a. m.]

[1] Restrictions upon the Board's staff on disclosure of confidential information and dealing in air carrier securities have existed for some time under limitations established pursuant to the Civil Aeronautics Act of 1938, as amended, page C2-27 of the Federal Personnel Manual of the Civil Service Commission, and section 93 of the Criminal Code.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 335]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 331]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

OREGON

Amendment 335 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 331 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respect:

Schedule A, Item 256, is amended to describe the counties in the Defense-Rental Area as follows:

Clackamas County, except the Cities of Milwaukie, Molalla, Oregon City and West Linn, and all unincorporated localities; and Washington County, except the Cities of Beaverton, Forest Grove and Hillsboro, and all unincorporated localities.

Clark County, except the Town of Washougal and all unincorporated localities.

This decontrols (1) the City of Portland in Multnomah County, Oregon, a portion of the Portland-Vancouver, Oregon, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, said City of Portland being the major portion of said Defense-Rental Area, based on a resolution submitted with respect to said City of Portland in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the remainder of said Multnomah County, on the Housing Expediter's own initiative under section 204 (c) of said act.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall be effective December 29, 1950.

Issued this 29th day of December 1950.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 51-89; Filed, Jan. 3, 1951; 8:48 a. m.]

TITLE 30—MINERAL RESOURCES

Chapter II—Geological Survey, Department of the Interior

PART 226—UNIT OR COOPERATIVE AGREEMENTS

Part 226 is revised to read as follows:

Sec.
226.1 Introduction.
226.2 Definitions.
226.3 Designation of unit area; depth of test well.
226.4 Preliminary consideration of certain unit or cooperative agreements.
226.5 Parties to unit or cooperative agreement.
226.6 Qualifications of unit operator.
226.7 State land.
226.8 Approval of unit or cooperative agreement.
226.9 Filing of papers and number of counterparts.
226.10 Bonds.
226.11 Appeals.
226.12 Form of unit agreement for unproved areas.
226.15 Form of collective bond.
226.16 Form of designation of successor unit operator by working interest owners.
226.17 Form of change in unit operator by assignment.

AUTHORITY: §§ 226.1 to 226.17 issued under sec. 32, 41 Stat. 450; 30 U. S. C. 189. Interpret or apply sec. 5, 60 Stat. 952; 30 U. S. C. 226e.

§ 226.1 *Introduction.* The regulations in this part prescribe the procedure to be followed and the requirements to be met by holders of Federal oil and gas leases (see § 226.2 (d)) and their representatives who wish to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan for the development of any oil or gas pool, field, or like area, or any part thereof (see 43 CFR 192.20, 192.21).

§ 226.2 *Definitions.* The following terms, as used in this part or in any agreement approved under the regulations in this part, shall have the meanings here indicated unless otherwise defined in such agreement:

(a) *Unit agreement.* An agreement or plan of development and operation for the recovery of oil and gas made subject thereto as a single consolidated unit without regard to separate ownerships and for the allocation of costs and benefits on a basis as defined in the agreement or plan.

(b) *Cooperative agreement.* An agreement or plan of development and operation for the recovery of oil and gas made subject thereto in which separate ownership units are independently operated without allocation of production.

(c) *Agreement.* For convenience, the term "agreement" as used in the regulations in this part refers to both a unit or a cooperative agreement as defined in paragraphs (a) and (b) of this section unless otherwise indicated.

(d) *Federal lease.* A lease issued under the act of February 25, 1920, as amended (41 Stat. 437, as amended; 30 U. S. C. 181, et seq.), or the act of August 7, 1947 (61 Stat. 913; 30 U. S. C. 351, et seq.).

(e) *Unit area.* The area described in an agreement as constituting the land logically subject to development under such agreement.

(f) *Unitized land.* The part of a unit area committed to an agreement.

(g) *Unitized substances.* Deposits of oil and gas recoverable by operation under and pursuant to an agreement.

(h) *Unit operator.* The person, association, partnership, corporation, or other business entity designated under a unit agreement to conduct operations on unitized land as specified in such agreement.

(i) *Participating area.* That part of a unit area to which production is allocated in the manner described in a unit agreement.

(j) *Working interest.* The interest held in unitized substances or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in a unit or cooperative agreement, the owner of such interest is vested with the right to explore for, develop, and produce such substances. The right delegated to the unit operator as such by the unit agreement is not to be regarded as a working interest.

(k) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(l) *Director.* The Director of the Geological Survey.

(m) *Supervisor.* The oil and gas supervisor of the Geological Survey for the region in which a unit area is situated.

§ 226.3 *Designation of unit area; depth of test well.* An application for designation of an area as logically subject to development under a unit or cooperative agreement and for determination of the depth of a test well may be filed by any proponent of such an agreement. Such application shall be accompanied by a map or diagram on a scale of not less than 1 inch to 1 mile, outlining the area sought to be designated under this section. The Federal, State, and privately owned land should be indicated by distinctive symbols or colors. Federal oil and gas leases and lease applications should be identified by lease serial numbers. Geologic information, including the results of any geophysical surveys, and any other available information showing that unitization is necessary and advisable in the public interest should be furnished. If requested, geologic information so furnished will be treated as confidential. These data will be considered by the Director and the applicant will be informed of the decision reached. The designation of an area, pursuant to an application filed under this section, shall not create an exclusive right to submit an agreement for such area, nor preclude the inclusion of such area or any part thereof in another unit area.

§ 226.4 *Preliminary consideration of certain unit or cooperative agreements.* The form of unit agreement set forth in § 226.12, is acceptable for use in unproved areas. The use of this form is not mandatory, but any substantial departure therefrom should be submitted for preliminary consideration and for such revision as may be deemed necessary prior to the execution of the agreement by the interested parties. In areas proposed for unitization in which a discovery of oil or gas has been made, or where a cooperative agreement is contemplated, modification of the form of unit agreement set forth in § 226.12 will be necessary. Any such proposed agreement should likewise be submitted for preliminary consideration and for such revision as may be deemed necessary in advance of execution by the interested parties.

§ 226.5 *Parties to unit or cooperative agreement.* The owners of any right, title, or interest in the oil and gas deposits to be unitized are regarded as proper

parties to a proposed agreement. All such parties must be invited to join the agreement. If any party fails or refuses to join the agreement, the proponent of the agreement, at the time it is filed for approval, must submit evidence of reasonable effort made to obtain joinder of such party and the reasons for nonjoinder. The address of each signatory party to the agreement should be inserted below the signature. Each signature should be attested by at least one witness, if not notarized. Corporate or other signatures made in a representative capacity must be accompanied by evidence of the authority of the signatories to act unless such evidence is already a matter of record in the Department. The parties may execute any number of counterparts of the agreement with the same force and effect as if all parties signed the same document, or may execute a ratification or consent in a separate instrument with like force and effect.

§ 226.6 *Qualifications of unit operator.* A unit operator must qualify as to citizenship in the same manner as those holding interests in oil and gas leases under the Mineral Leasing Act (see 43 CFR 192.42). The unit operator may be an owner of a working interest in the unit area or such other party as may be selected by the owners of working interests. The unit operator shall execute an acceptance of the duties and obligations imposed by the agreement. No designation of or change in a unit operator will become effective unless and until approved by the Secretary or the Director and no such approval will be granted unless the unit operator is deemed qualified to fulfill the duties and obligations prescribed in the agreement.

§ 226.7 *State land.* Where State-owned land is to be unitized, approval of the agreement by appropriate State officials must be obtained prior to its submission to the Department for final approval. When authorized by the laws of the State in which the unitized land is situated, appropriate provision may be made in the agreement accepting such laws to the extent that they are applicable to non-Federal unitized land.

§ 226.8 *Approval of unit or cooperative agreement.* (a) A unit or cooperative agreement will be approved by the Secretary, or his duly authorized representative, upon a determination that such agreement is necessary or advisable in the public interest and is for the purpose of more properly conserving natural resources. Such approval will be incorporated in a certificate appended to the agreement. No such agreement will be approved unless at least one of the parties is a holder of a Federal lease in the unit area and unless the parties signatory to the agreement hold sufficient interests in the unit area to give reasonably effective control of operations.

(b) Whenever the Federal land involved in a unit or cooperative agreement accounts for less than 50 percent of the acreage of the unitized lands, and whenever, if the field involved is fully developed, the Federal land has less than 50 percent of the estimated recoverable unitized substances, the agreement may, with the approval of the Secretary or his duly authorized representative, make portions of the Operating Regulations, Part 221 of this chapter, inapplicable to operations under the agreement with respect to Federal land.

(c) Any modification of an approved agreement will require like approval.

§ 226.9 *Filing of papers and number of counterparts.* (a) All papers, instruments, documents, and proposals submitted under this part should be filed in the office of the oil and gas supervisor for the region in which the unit area is situated unless otherwise provided in this part or otherwise instructed by the Director.

(b) An application for designation of a proposed unit area and determination of the required depth of test well should be filed in triplicate. A like number of counterparts should be filed of any geologic data and any other information submitted in support of such application.

(c) Where substantial modification of the form of unit agreement set forth in § 226.12 is proposed, triplicate copies of the proposed agreement with all modifications plainly marked and with exhibits A and B included, should be submitted for preliminary consideration.

(d) Where a duly executed agreement is submitted for final Departmental approval a minimum of six signed counterparts should be filed. If State lands are involved, an additional counterpart should be provided for delivery to the appropriate State authority. The same number of counterparts must be filed for documents supplementing, modifying, or amending an agreement, including change of operator, designation of new operator, designation of a participating area, and notice of surrender, relinquishment, or termination.

(e) Four counterparts of a substantiating geologic report, including structure-contour map, cross sections, and pertinent data, shall accompany each application for approval of a participating area or amendment thereof under an approved agreement.

(f) Four counterparts are required of a plan of further development and operation submitted for approval under an approved agreement.

(g) One approved counterpart of each instrument or document submitted for approval will be returned to the operator by the approving official or his representative, together with such additional counterparts as may have been furnished for that purpose.

§ 226.10 *Bonds.* In lieu of separate bonds required for each Federal lease committed to a unit agreement, the unit operator may furnish and maintain a collective corporate surety bond or a personal bond conditioned upon faithful performance of the duties and obligations of the agreement and the terms of the leases subject thereto. Personal bonds shall be accompanied by a deposit of negotiable Federal securities in a sum equal at their par value to the amount of the bond, and by a proper conveyance to the secretary of full authority to sell such securities in case of default in the performance of the obligations assumed. The liability under the bond shall be for such amount as the Director shall determine to be adequate to protect the interests of the United States, and additional bond may be required whenever deemed necessary. The bond may be filed with the manager of the district land office, the Director of the Bureau of Land Management, or the Supervisor. Evidence must be furnished the supervisor that such bond has been accepted by the Bureau of Land Management before operations will be authorized. A form of corporate surety bond is set forth in § 226.15. In case of change of unit operator a new bond must be filed or consent of surety to such change must be furnished.

§ 226.11 *Appeals.* An appeal may be taken to the Secretary, pursuant to § 221.66 of this chapter, from any decision, order, or ruling of the Director under the regulations in this part.

§ 226.12 *Form of unit agreement for unproved areas.*

UNIT AGREEMENT FOR THE DEVELOPMENT AND OPERATION OF THE ---------- UNIT AREA, COUNTY OF ----------, STATE OF ----------, I-Sec. No. ------

This agreement, entered into as of the ------- day of ---------- 19----, by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto,"

WITNESSETH: Whereas the parties hereto are the owners of working, royalty, or other oil and gas interests in the unit area subject to this agreement; and

Whereas the Act of February 25, 1920, 41 Stat. 437, as amended by the Act of August 8, 1946, 60 Stat. 950, 30 U. S. C. Secs. 181 et seq., authorizes Federal lessees and their representatives to unite with each other, or jointly or separately with others, in collectively adopting and operating a cooperative or unit plan of development or operation of any oil or gas pool, field, or like area, or any part thereof, of the purpose of more properly conserving the natural resources thereof whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and

Whereas the parties hereto hold sufficient interests in the ---------- Unit Area covering the land hereinafter described to give reasonably effective control of operations therein; and

Whereas it is the purpose of the parties hereto to conserve natural resources, prevent waste, and secure other benefits obtainable through development and operation of the area subject to this agreement under the terms, conditions, and limitations herein set forth;

Now, therefore, in consideration of the premises and the promises herein contained, the parties hereto commit to this agreement their respective interests in the below-defined unit area, and agree severally among themselves as follows:

1. *Enabling act and regulations.* The act of February 25, 1920, as amended, supra, and all valid pertinent regulations, including operating and unit plan regulations, heretofore issued thereunder or valid pertinent and reasonable regulations hereafter issued thereunder are accepted and made a part of this agreement as to Federal lands, provided such regulations are not inconsistent with the terms of this agreement; and as to non-Federal lands, the oil and gas operating regulations in effect as of the effective date hereof governing drilling and producing operations, not inconsistent with the terms hereof or the laws of the State in which the non-Federal land is located, are hereby accepted and made a part of this agreement.

2. *Unit area.* The following-described land is hereby designated and recognized as constituting the unit area:

Exhibit A attached hereto is a map showing the unit area and the boundaries and identity of tracts and leases in said area to the extent known to the Unit Operator. Exhibit B attached hereto is a schedule showing to the extent known to the Unit Operator the acreage, percentage, and kind of ownership of oil and gas interests in all land in the unit area. However, nothing herein or in said schedule or map shall be construed as a representation by any party hereto as to the ownership of any interest other than such interest or interests as are shown in said map or schedule as owned by such party. Exhibits A and B shall be revised by the Unit Operator whenever changes in the unit area render such revision necessary, or when requested by the Oil and Gas Supervisor, hereinafter referred to as "Supervisor," and not less than six copies of the revised exhibits shall be filed with the Supervisor.

The above-described unit area shall when practicable be expanded to include therein any additional tract or tracts regarded as reasonably necessary or advisable for the purposes of this agreement, or shall be contracted to exclude lands not within any participating area whenever such expansion or contraction is necessary or advisable to conform with the purposes of this agreement. Such expansion or contraction shall be effected in the following manner:

(a) Unit Operator, on its own motion or on demand of the Director of the Geological Survey, hereinafter referred to as "Director," shall prepare a notice of proposed expansion or contraction describing the contemplated changes in the boundaries of the unit area, the reasons therefor, and the proposed effective date thereof.

(b) Said notice shall be delivered to the Supervisor, and copies thereof mailed to the last known address of each working interest owner, lessee, and lessor whose interests are affected, advising that 30 days will be allowed for submission to the Unit Operator of any objections.

(c) Upon expiration of the 30-day period provided in the preceding item (b) hereof, Unit Operator shall file with the Supervisor evidence of mailing of the notice of expansion or contraction and a copy of any objections thereto which have been filed with the Unit Operator.

(d) After due consideration of all pertinent information, the expansion or contraction shall, upon approval by the Director, become effective as of the date prescribed in the notice thereof.

All land committed to this agreement shall constitute land referred to herein as "unitized land" or "land subject to this agreement."

3. *Unitized substances.* All oil and gas in any and all formations of the unitized land are unitized under the terms of this agreement and herein are called "unitized substances."

4. *Unit operator.* ---------- is hereby designated as Unit Operator and by signature hereto as Unit Operator agrees and consents to accept the duties and obligations of Unit Operator for the discovery, development, and production of unitized substances as herein provided. Whenever reference is made herein to the Unit Operator, such reference means the Unit Operator acting in that capacity and not as an owner of interest in unitized substances, and the term "working interest owner" when used herein shall include or refer to Unit Operator as the owner of a working interest when such an interest is owned by it.

5. *Resignation or removal of unit operator.* Unit Operator shall have the right to resign at any time prior to the establishment of a participating area or areas hereunder, but such resignation shall not become effective so as to release Unit Operator from the duties and obligations of Unit Operator and terminate Unit Operator's rights as such for a period of 6 months after notice of intention to resign has been served by Unit Operator on all working interest owners and the Director, and until all wells then drilled hereunder are placed in a satisfactory condition for suspension or abandonment whichever is required by the Supervisor, unless a new Unit Operator shall have been selected and approved and shall have taken over and assumed the duties and obligations of Unit Operator prior to the expiration of said period.

Unit Operator shall have the right to resign in like manner and subject to like limitations as above provided at any time a participating area established hereunder is in existence, but until a successor unit operator is selected and approved as hereinafter provided, the working interest owners shall be jointly responsible for performance of the duties of unit operator, and shall not later than 30 days before such resignation becomes effective appoint a common agent to represent them in any action to be taken hereunder.

The resignation of Unit Operator shall not release Unit Operator from any liability for any default by it hereunder occurring prior to the effective date of its resignation.

The Unit Operator may, upon default or failure in the performance of its duties or obligations hereunder, be subject to removal by the same percentage vote of the owners of working interests determined in like manner as herein provided for the selection of a new Unit Operator. Such removal shall be effective upon notice thereof to the Director.

The resignation or removal of Unit Operator under this agreement shall not terminate its right, title, or interest as the owner of a working interest or other interest in unitized substances, but upon the resignation or removal of Unit Operator becoming effective, such Unit Operator shall deliver possession of all equipment, materials, and appurtenances used in conducting the unit operations and owned by the working interest owners to the new duly qualified successor Unit Operator or to the owners thereof if no such new Unit Operator is elected, to be used for the purpose of conducting unit operations hereunder. Nothing herein shall be construed as authorizing removal of any material, equipment and appurtenances needed for the preservation of any wells.

6. *Successor unit operator.* Whenever the Unit Operator shall tender his or its resignation as Unit Operator or shall be removed as herein-above provided, the owners of the working interests in the participating area or areas according to their respective acreage interests in such participating area or areas, or, until a participating area shall have been established, the owners of the working interests according to their respective acreage interests in all unitized land, shall by majority vote select a successor Unit Operator: *Provided*, That, if a majority but less than 75 per cent of the working interests qualified to vote are owned by one party to this agreement, a concurring vote of one or more additional working interest owners shall be required to select a new operator. Such selection shall not become effective until (a) a Unit Operator so selected shall accept in writing the duties and responsibilities of Unit Operator, and (b) the selection shall have been approved by the Director. If no successor Unit Operator is selected and qualified as herein provided, the Director at his election may declare this unit agreement terminated.

7. *Accounting provisions and unit operating agreement.* If the Unit Operator is not the sole owner of working interests, costs and expenses incurred by Unit Operator in conducting unit operations hereunder shall be paid and apportioned among and borne by the owners of working interests, all in accordance with the agreement or agreements entered into by and between the Unit Operator and the owners of working interests, whether one or more, separately or collectively. Any agreement or agreements entered into between the working interest owners and the Unit Operator as provided in this section, whether one or more, are herein referred to as the "unit operating agreement." Such unit operating agreement shall also provide the manner in which the working interest owners shall be entitled to receive their respective proportionate and allocated share of the benefits accruing hereto in conformity with their underlying operating agreements, leases, or other independent contracts, and such other rights and obligations as between Unit Operator and the working interest owners as may be agreed upon by Unit Operator and the working interest owners; however, no such unit operating agreement shall be deemed either to modify any of the terms and conditions of this unit agreement or to relieve the Unit Operator of any right or obligation established under this unit agreement, and in case of any inconsistency or conflict between the unit agreement and the unit operating agreement, this unit agreement shall prevail. Three true copies of any unit operating agreement executed pursuant to this section shall be filed with the Supervisor.

8. *Rights and obligations of Unit Operator.* Except as otherwise specifically provided herein, the exclusive right, privilege, and duty of exercising any and all rights of the parties hereto which are necessary or convenient for prospecting for, producing, storing, allocating, and distributing the unitized substances are hereby delegated to and shall be exercised by the Unit Operator as herein provided. Acceptable evidence of title to said rights shall be deposited with said Unit Operator and, together with this agreement, shall constitute and define the rights, privileges, and obligations of Unit Operator. Nothing herein, however, shall be construed to transfer title to any land or to any lease or operating agreement, it being understood that under this agreement the Unit Operator, in its capacity as Unit Operator, shall exercise the rights of possession and use vested in the parties hereto only for the purposes herein specified.

9. *Drilling to discovery.* Within 6 months after the effective date hereof, the Unit Operator shall begin to drill an adequate test well at a location approved by the Supervisor, unless on such effective date a well is being drilled conformably with the terms hereof, and thereafter continue such drilling diligently until the ---------- formation has been tested or until at a lesser depth unitized substances shall be discovered which can be produced in paying quantities (to wit: quantities sufficient to repay the costs of drilling, and producing operations, with a reasonable profit) or the Unit Operator shall at any time establish to the satisfaction of the Supervisor that further drilling of said well would be unwarranted or impracticable, provided, however, that Unit Operator shall not in any event be required to drill said well to a depth in excess of ---- feet. Until the discovery of a deposit of unitized substances capable of being produced in paying quantities, the Unit Operator shall continue drilling diligently one well at a time, allowing not more than 6 months between the completion of one well and the beginning of the next well, until a well capable of producing unitized substances in paying quantities is completed to the satisfaction of said Supervisor, or until it is reasonably proved that the unitized land is incapable of producing unitized substances in paying quantities in the formations drilled hereunder. Nothing in this section shall be deemed to limit the right of the Unit Operator to resign as provided in Section 5 hereof, or as requiring Unit Op-

erator to commence or continue any drilling during the period pending such resignation becoming effective in order to comply with the requirements of this section. The Director may modify the drilling requirements of this section by granting reasonable extensions of time when, in his opinion, such action is warranted.

Upon failure to comply with the drilling provisions of this section, the Director may, after reasonable notice to the Unit Operator, and each working interest owner, lessee, and lessor at their last known addresses, declare this unit agreement terminated.[1]

10. *Plan of further development and operation.* Within 6 months after completion of a well capable of producing unitized substances in paying quantities, the Unit Operator shall submit for the approval of the Supervisor an acceptable plan of development and operation for the unitized land which, when approved by the Supervisor, shall constitute the further drilling and operating obligations of the Unit Operator under this agreement for the period specified therein. Thereafter, from time to time before the expiration of any existing plan, the Unit Operator shall submit for the approval of the Supervisor a plan for an additional specified period for the development and operation of the unitized land. Any plan submitted pursuant to this section shall provide for the exploration of the unitized area and for the determination of the area or areas thereof capable of producing unitized substances in paying quantities in each and every productive formation and shall be as complete and adequate as the Supervisor may determine to be necessary for timely development and proper conservation of the oil and gas resources of the unitized area and shall (a) specify the number and locations of any wells to be drilled and the proposed order and time for such drilling; and (b) to the extent practicable specify the operating practices regarded as necessary and advisable for proper conservation of natural resources. Separate plans may be submitted for separate productive zones, subject to the approval of the Supervisor. Said plan or plans shall be modified or supplemented when necessary to meet changed conditions or to protect the interests of all parties to this agreement. Reasonable diligence shall be exercised in complying with the obligations of the approved plan of development. The Supervisor is authorized to grant a reasonable extension of the 6-month period herein prescribed for submission of an initial plan of development where such action is justified because of unusual conditions or circumstances. After completion hereunder of a well capable of producing any unitized substance in paying quantities, no further wells, except such as may be necessary to afford protection against operations not under this agreement or such as may be specifically approved by the Supervisor, shall be drilled except in accordance with a plan of development approved as herein provided.

11. *Participation after discovery.* Upon completion of a well capable of producing unitized substances in paying quantities or as soon thereafter as required by the Supervisor, the Unit Operator shall submit for approval by the Director a schedule, based on subdivisions of the public-land survey or aliquot parts thereof, of all unitized land then regarded as reasonably proved to be productive of unitized substances in paying quantities; all lands in said schedule on approval of the Director to constitute a participating area, effective as of the date of first production. Said schedule also shall set forth the percentage of unitized substances to be allocated as herein provided to each unitized tract in the participating area so established, and shall govern the allocation of production from and after the date the participating area becomes effective. A separate participating area shall be established in like manner for each separate pool or deposit of unitized substances or for any group thereof produced as a single pool or zone, and any two or more participating areas so established may be combined into one with the consent of the owners of all working interests in the lands within the participating areas so to be combined, on approval of the Director. The participating area or areas so established shall be revised from time to time, subject to like approval, whenever such action appears proper as a result of further drilling operations or otherwise, to include additional land then regarded as reasonably proved to be productive in paying quantities,[2] **or to to exclude land then regarded as reasonably proved not to be productive** and the percentage of allocation shall also be revised accordingly. The effective date of any revision shall be the first of the month in which is obtained the knowledge or information on which such revision is predicated, unless a more appropriate effective date is specified in the schedule. No land shall be excluded from a participating area on account of depletion of the unitized substances.

It is the intent of this section that a participating area shall represent the area known or reasonably estimated to be productive in paying quantities; but, regardless of any revision of the participating area, nothing herein contained shall be construed as requiring any retroactive adjustment for production obtained prior to the effective date of the revision of the participating area.

In the absence of agreement at any time between the Unit Operator and the Director as to the proper definition or redefinition of a participating area, or until a participating area has, or areas have, been established as provided herein, the portion of all payments affected thereby may be impounded in a manner mutually acceptable to the owners of working interests, except royalties due the United States, which shall be determined by the Supervisor and the amount thereof deposited, as directed by the Supervisor, to be held as unearned money until a participating area is finally approved and then applied as earned or returned in accordance with a determination of the sum due as Federal royalty on the basis of such approved participating area.

Whenever it is determined, subject to the approval of the Supervisor, that a well drilled under this agreement is not capable of production in paying quantities and inclusion of the land on which it is situated in a participating area is unwarranted, production from such well shall, for the purposes of settlement among all parties other than working interest owners, be allocated to the land on which the well is located so long as such land is not within a participating area established for the pool or deposit from which such production is obtained. Settlement for working interest benefits from such a well shall be made as provided in the unit operating agreement.

12. *Allocation of production.* All unitized substances produced from each participating area established under this agreement, except any part thereof used in conformity with good operating practices within the unitized area for drilling, operating, camp and other production or development purposes, for repressuring or recycling in accordance with a plan of development approved by the Supervisor, or unavoidably lost, shall be deemed to be produced equally on an acreage basis from the several tracts of unitized land of the participating area established for such production and, for the purpose of determining any benefits accruing under this agreement, each such tract of unitized land shall have allocated to it such percentage of said production as the number of acres of such tract included in said participating area bears to the total acres of unitized land in said participating area. It is hereby agreed that production of unitized substances from a participating area shall be allocated as provided herein regardless of whether any wells are drilled on any particular part or tract of said participating area. If any gas produced from one participating area is used for repressuring or recycling purposes in another participating area, the first gas withdrawn from such last-mentioned participating area for sale during the life of this agreement shall be considered to be the gas so transferred until an amount equal to that transferred shall be so produced for sale and such gas shall be allocated to the participating area from which initially produced as constituted at the time of such final production.

13. *Development or operation of nonparticipating land or formations.* Any party hereto owning or controlling the working interest in any unitized land having thereon a regular well location may with the approval of the Supervisor, at such party's sole risk, cost, and expense drill a well to test any formation for which a participating area has not been established or to test any formation for which a participating area has been established if such location is not within said participating area, unless within 90 days of receipt of notice from said party of his intention to drill the well the Unit Operator elects and commences to drill such well in like manner as other wells are drilled by the Unit Operator under this agreement.

If any well drilled as aforesaid by a working interest owner results in production such that the land upon which it is situated may properly be included in a participating area, such participating area shall be established or enlarged as provided in this agreement and the well shall thereafter be operated by Unit Operator in accordance with the terms of this agreement and the unit operating agreement.

If any well drilled as aforesaid by a working interest owner obtains production in quantities insufficient to justify the inclusion in a participating area of the land upon which such well is situated, such well may be operated and produced by the party drilling the same subject to the conservation requirements of this agreement. The royalties in amount or value of production from any such well shall be paid as specified in the underlying lease and agreements affected.

14. *Royalty settlement.* The United States and any State and all royalty owners who, under existing contract, are entitled to take in kind a share of the substances now unitized hereunder produced from any tract, shall hereafter be entitled to the right to take in kind their share of the unitized substances allocated to such tract, and Unit Operator, or in case of the operation of a well by a working interest owner as herein in special cases provided for, such working interest owner, shall make deliveries of such royalty share taken in kind in conformity with the applicable contracts, laws, and regulations. Settlement for royalty interest not taken in kind shall be made by working interest owners responsible therefor under existing contracts, laws, and regulations, on or before the last day of each month for unitized substances produced during the preceding calendar month; provided, however, that nothing herein contained shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any royalties due under their leases.

If gas obtained from lands not subject to this agreement is introduced into any participating area hereunder, for use in repressuring, stimulation of production, or increasing ultimate recovery, which shall be in conformity with a plan first approved by the Supervisor, a like amount of gas, after settlement as herein provided for any gas transferred from any other participating area and with due allowance for loss or depletion from any cause, may be withdrawn from the formation into which the gas was introduced, royalty free as to dry gas, but not as to the products extracted therefrom; provided that such withdrawal shall be at such time as may be provided in the plan of operations or as may otherwise be consented to by the Supervisor as conforming to good petroleum engineering practice; and provided further, that such right of withdrawal shall terminate on the termination of this unit agreement.

Royalty due the United States shall be computed as provided in the operating regulations and paid in value or delivered in kind as to all unitized substances on the basis of the amounts thereof allocated to unitized Federal land as provided herein at the rates specified in the respective Federal leases, or at such lower rate or rates as may be authorized by law or regulation; provided, that for leases on which the royalty rate depends on the daily average production per well, said average production shall be determined in accordance with the operating regulations as though each participating area were a single consolidated lease.

15. *Rental settlement.* Rental or minimum royalties due on leases committed hereto shall be paid by working interest owners responsible therefor under existing contracts, laws, and regulations, provided that nothing herein contained shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any rental or minimum royalty in lieu thereof due under their leases. Rental or minimum royalty for lands of the United States subject to this agreement shall be paid at the rate specified in the respective leases from the United States unless such rental or minimum royalty is waived, suspended, or reduced by law or by approval of the Secretary or his duly authorized representative.

With respect to any lease on non-Federal land containing provisions which would terminate such lease unless drilling operations were within the time therein specified commenced upon the land covered thereby or rentals paid for the privilege of deferring such drilling operations, the rentals required thereby shall, notwithstanding any other provision of this agreement, be deemed to accrue and become payable during the term thereof as extended by this agreement and until the required drilling operations are commenced upon the land covered thereby or some portion of such land is included within a participating area.[3]

16. *Conservation.* Operations hereunder and production of unitized substances shall be conducted to provide for the most economical and efficient recovery of said substances without waste, as defined by or pursuant to State or Federal law or regulation.

17. *Drainage.* The Unit Operator shall take appropriate and adequate measures to prevent drainage of unitized substances from unitized land by wells on land not subject to this agreement or pursuant to applicable regulations pay a fair and reasonable compensatory royalty as determined by the Supervisor.

18. *Leases and contracts conformed and extended.* The terms, conditions, and provisions of all leases, subleases, and other contracts relating to exploration, drilling, development, or operation for oil or gas of lands committed to this agreement are hereby expressly modified and amended to the extent necessary to make the same conform to the provisions hereof, but otherwise to remain in full force and effect; and the parties hereto hereby consent that the Secretary shall and by his approval hereof, or by the approval hereof by his duly authorized representative, does hereby establish, alter, change, or revoke the drilling, producing, rental, minimum royalty, and royalty requirements of Federal leases committed hereto and the regulations in respect thereto to conform said requirements to the provisions of this agreement, and, without limiting the generality of the foregoing, all leases, subleases, and contracts are particularly modified in accordance with the following:

(a) The development and operation of lands subject to this agreement under the terms hereof shall be deemed full performance of all obligations for development and operation with respect to each and every part or separately owned tract subject to this agreement, regardless of whether there is any development of any particular part or tract of the unit area, notwithstanding anything to the contrary in any lease, operating agreement or other contract by and between the parties hereto, or their respective predecessors in interest, or any of them.

(b) Drilling and producing operations performed hereunder upon any tract of unitized lands will be accepted and deemed to be performed upon and for the benefit of each and every tract of unitized land, and no lease shall be deemed to expire by reason of failure to drill or produce wells situated on the land therein embraced.

(c) Suspension of drilling or producing operations on all unitized lands pursuant to direction or consent of the Secretary or his duly authorized representative shall be deemed to constitute such suspension pursuant to such direction or consent as to each and every tract of unitized land.

(d) Each lease, sublease or contract relating to the exploration, drilling, development or operation for oil or gas of lands other than those of the United States, committed to this agreement, which, by its terms might expire prior to the termination of this agreement, is hereby extended beyond any such term so provided therein so that it shall be continued in full force and effect for and during the term of this agreement.

(e) Any Federal lease for a fixed term of twenty (20) years or any renewal thereof or any part of such lease which is made subject to this agreement shall continue in force beyond the term provided therein until the termination hereof. Any other Federal lease committed hereto shall continue in force beyond the term so provided therein or by law as to the committed land so long as such land remains committed hereto, provided unitized substances are discovered in paying quantities within the unit area prior to the expiration date of the primary term of such lease.

(f) Each sublease or contract relating to the operation and development of unitized substances from lands of the United States committed to this agreement, which by its terms would expire prior to the time at which the underlying lease, as extended by the immediately preceding paragraph, will expire, is hereby extended beyond any such term so provided therein so that it shall be continued in full force and effect for and during the term of the underlying lease as such term is herein extended.

(g) Any lease having only a portion of its lands committed hereto shall be segregated as to the portion committed and the portion not committed, and the terms of such lease shall apply separately to such segregated portions commencing as of the effective date hereof. In the event any such lease provides for a lump-sum rental payment, such payment shall be prorated between the portions so segregated in proportion to the acreage of the respective tracts.

19. *Covenants run with land.* The covenants herein shall be construed to be covenants running with the land with respect to the interest of the parties hereto and their successors in interest until this agreement terminates, and any grant, transfer, or conveyance, of interest in land or leases subject hereto shall be and hereby is conditioned upon the assumption of all privileges and obligations hereunder by the grantee, transferee, or other successor in interest. No assignment or transfer of any working interest, royalty, or other interest subject hereto shall be binding upon Unit Operator until the first day of the calendar month after Unit Operator is furnished with the original, photostatic, or certified copy of the instrument of transfer.

20. *Effective date and term.* This agreement shall become effective upon approval by the Secretary or his duly authorized representative and shall terminate on[4] unless (a) such date of expiration is extended by the Director, or (b) it is reasonably determined prior to the expiration of the fixed term or any extension thereof that the unitized land is incapable of production of unitized substances in paying quantities in the formations tested hereunder and after notice of intention to terminate the agreement on such ground is given by the Unit Operator to all parties in interest at their last known addresses, the agreement is terminated with the approval of the Director, or (c) a valuable discovery of unitized substances has been made on unitized land during said initial term or any extension thereof, in which event the agreement shall remain in effect for such term and so long as unitized substances can be produced in paying quantities, i. e., in this particular instance in quantities sufficient to pay for the cost of producing same from wells on unitized land within any participating area established hereunder and, should production cease, so long thereafter as diligent operations are in progress for the restoration of production or discovery of new production and so long thereafter as the unitized substances so discovered can be produced as aforesaid, or (d) it is terminated as heretofore provided in this agreement.

This agreement may be terminated at any time by not less than 75 per centum, on an acreage basis, of the owners of working interests signatory hereto, with the approval of the Director; notice of any such approval to be given by the Unit Operator to all parties hereto.

21. *Rate of prospecting, development, and production.* The Director is hereby vested with authority to alter or modify from time to time in his discretion the quantity and rate of production under this agreement when such quantity and rate is not fixed pursuant to Federal or State law or does not conform to any state-wide voluntary conservation or allocation program, which is established, recognized, and generally adhered to by the majority of operators in such State, such authority being hereby limited to alteration or modification in the public interest, the purpose thereof and the public interest to be served thereby to be stated in the order of alteration or modification. Without regard to the foregoing, the Director is

[1] The following paragraph may be substituted for the last paragraph of Section 9:

"Upon failure to commence any well provided for in this section within the time allowed including any extension of time granted by the Director, this agreement will automatically terminate; upon failure to continue drilling diligently, the Director may, after reasonable notice to the Unit Operator, and each working interest owner, lessee, and lessor, declare this unit agreement terminated."

[2] Alternative: Clause between double asterisks may be omitted if the working interests are owned by more than one party and such interests are divided.

[3] Alternative: Paragraph between double asterisks optional if non-Federal land included.

[4] The termination date to be specified in section 20 should not be more than 5 years from the effective date of the agreement.

also hereby vested with authority to alter or modify from time to time in his discretion the rate of prospecting and development and the quantity and rate of production under this agreement when such alteration or modification is in the interest of attaining the conservation objectives stated in this agreement and is not in violation of any applicable Federal or State law.

Powers in this section vested in the Director shall only be exercised after notice to Unit Operator and opportunity for hearing to be held not less than 15 days from notice.

22. *Determinations by unit operator and review thereof.*[3] Whenever a determination is required to be made in order to carry out the express terms of this agreement and the agreement does not specify by whom such determination shall be made, the Unit Operator is hereby authorized to make the necessary determination subject to approval of the Director in the manner hereinafter provided. Notice of any such determination by the Unit Operator, accompanied by data in support thereof, shall be furnished to the Director through the Supervisor. If, after reviewing all the available evidence, the Director finds that the determination reviewed is incorrect he shall advise the Unit Operator accordingly, stating the reasons therefor, and thereupon such determination shall be of no force and effect.

The Unit Operator shall then make a new determination in conformity with the finding of the Director or appeal to the Secretary as provided in the Operating Regulations. All determinations made by the Unit Operator pursuant to this section shall be effective unless and until altered, modified, or rescinded as herein provided.

Any party hereto shall have the right to request the Director (such request to be accompanied by appropriate supporting evidence) to review any determination made by the Unit Operator pursuant to this section not previously reviewed on appeal to the Secretary. Such request will be granted or denied in the discretion of the Director within 60 days after being received. If denied, the requesting party shall have the right to appeal to the Secretary. If the request for review is granted and thereafter the Director finds that the determination should be altered, modified, or rescinded, the Unit Operator shall be advised accordingly and shall either comply with the finding of the Director or appeal to the Secretary.

23. *Appearances.* Unit Operator shall, after notice to other parties affected, have the right to appear for or on behalf of any and all interests affected hereby before the Department of the Interior and to appeal from orders issued under the regulations of said Department or to apply for relief from any of said regulations or in any proceedings relative to operations before the Department of the Interior or any other legally constituted authority; provided, however, that any other interested party shall also have the right at his own expense to be heard in any such proceeding.

24. *Notices.* All notices, demands or statements required hereunder to be given or rendered to the parties hereto shall be deemed fully given if given in writing and personally delivered to the party or sent by postpaid registered mail, addressed to such party or parties at their respective addresses set forth in connection with the signatures hereto or to the ratification or consent hereof or to such other address as any such party may have furnished in writing to party sending the notice, demand or statement.

25. *No waiver of certain rights.* Nothing in this agreement contained shall be construed as a waiver by any party hereto of the right to assert any legal or constitutional right or defense as to the validity or invalidity of any law of the State wherein said unitized lands are located, or of the United States, or regulations issued thereunder in any way affecting such party, or as a waiver by any such party of any right beyond his or its authority to waive.

26. *Unavoidable delay.* All obligations under this agreement requiring the Unit Operator to commence or continue drilling or to operate on or produce unitized substances from any of the lands covered by this agreement shall be suspended while, but only so long as, the Unit Operator despite the exercise of due care and diligence is prevented from complying with such obligations, in whole or in part, by strikes, acts of God, Federal, State, or municipal law or agencies, unavoidable accidents, uncontrollable delays in transportation, inability to obtain necessary materials in open market, or other matters beyond the reasonable control of the Unit Operator whether similar to matters herein enumerated or not.

27. *Fair employment.* The Unit Operator shall not discriminate against any employee or applicant for employment because of race, creed, color or national origin, and an identical provision shall be incorporated in all subcontracts.

28. *Loss of title.* In the event title to any tract of unitized land shall fail and the true owner cannot be induced to join in this unit agreement, such tract shall be automatically regarded as not committed hereto and there shall be such readjustment of future costs and benefits as may be required on account of the loss of such title. In the event of a dispute as to title as to any royalty, working interest, or other interests subject thereto, payment or delivery on account thereof may be withheld without liability for interest until the dispute is finally settled: provided, that, as to Federal land or leases, no payments of funds due the United States should be withheld, but such funds shall be deposited as directed by the Supervisor to be held as unearned money pending final settlement of the title dispute, and then applied as earned or returned in accordance with such final settlement.

Unit Operator as such is relieved from any responsibility for any defect or failure of any title hereunder.

29. *Non-joinder and subsequent joinder.* If the owner of any substantial interest in a tract within the unit area fails or refuses to subscribe or consent to this agreement, the owner of the working interest in that tract may withdraw said tract from this agreement by written notice to the Director and the Unit Operator prior to the approval of this agreement by the Director. Any oil or gas interests in lands within the unit area not committed hereto prior to submission of this agreement for final approval may thereafter be committed hereto by the owner or owners thereof subscribing or consenting to this agreement, and, if the interest is a working interest, by the owner of such interest also subscribing to the unit operating agreement. After operations are commenced hereunder, the right of subsequent joinder, as provided in this section, by a working interest owner is subject to such requirements or approvals, if any, pertaining to such joinder, as may be provided for in the unit operating agreement. After final approval hereof joinder by a non-working interest owner must be consented to in writing by the working interest owner committed hereto and responsible for the payment of any benefits that may accrue hereunder in behalf of such non-working interest. Prior to final approval hereof, joinder by any owner of a non-working interest must be accompanied by appropriate joinder by the owner of the corresponding working interest in order for the interest to be regarded as effectively committed hereto. Except as may otherwise herein be provided subsequent joinders to this agreement shall be effective as of the first day of the month following the filing with the Supervisor of duly executed counterparts of all or any papers necessary to establish effective commitment of any tract to this agreement unless objection to such joinder is duly made within 60 days by the Director.

30. *Counterparts.* This agreement may be executed in any number of counterparts no one of which needs to be executed by all parties or may be ratified or consented to by separate instrument in writing specifically referring hereto and shall be binding upon all those parties who have executed such a counterpart, ratification, or consent hereto with the same force and effect as if all such parties had signed the same document and regardless of whether or not it is executed by all other parties owning or claiming an interest in the lands within the above-described unit area.

31. *Surrender.*[4] Nothing in this agreement shall prohibit the exercise by any working interest owner of the right to surrender vested in such party in any lease, sub-lease, or operating agreement as to all or any part of the lands covered thereby, provided that each party who will or might acquire such working interest by such surrender or by forfeiture as hereafter set forth, is bound by the terms of this agreement.

If as a result of any such surrender, the working interest rights as to such lands become vested in any party other than the fee owner of the unitized substances, said party shall forfeit such rights and no further benefits from operations hereunder as to said land shall accrue to such party, unless within ninety (90) days thereafter said party shall execute this agreement and the unit operating agreement as to the working interest acquired through such surrender, effective as though such land had remained continuously subject to this agreement and the unit operating agreement. And in the event such agreements are not so executed, the party next in the chain of title shall be and become the owner of such working interest at the end of such ninety (90) day period, with the same force and effect as though such working interest had been surrendered to such party.

If as the result of any such surrender or forfeiture the working interest rights as to such lands become vested in the fee owner of the unitized substances, such owner may:

(1) Execute this agreement and the unit operating agreement as a working interest owner, effective as though such land had remained continuously subject to this agreement and the unit operating agreement.

(2) Again lease such lands but only under the condition that the holder of such lease shall within thirty (30) days after such lands are so leased execute this agreement and the unit operating agreement as to each participating area theretofore established hereunder, effective as though such land had remained continuously subject to this agreement and the unit operating agreement.

(3) Operate or provide for the operation of such land independently of this agreement as to any part thereof or any oil or gas deposits therein not then included within a participating area.

If the fee owner of the unitized substances does not execute this agreement and the unit operating agreement as a working interest owner or again lease such lands as above provided with respect to each existing participating area, within six (6) months after any such surrender or forfeiture, such fee owner shall be deemed to have waived the right to execute the unit operating agreement or lease such lands as to each such participating area, and to have agreed, in consideration for the compensation hereinafter provided, that operations hereunder as to any such participating area or areas shall not be affected by such surrender.

[3] Section 22 entitled "Determinations by Unit Operator and Review Thereof" may be omitted at the option of the parties.

[4] Section 31 entitled "Surrender" may be omitted at the option of the parties.

For any period the working interest in any lands are not expressly committed to the unit operating agreement as the result of any such surrender or forfeiture, the benefits and obligations of operations accruing to such lands under this agreement and the unit operating agreement shall be shared by the remaining owners of unitized working interests in accordance with their respective participating working interest ownerships in any such participating area or areas, and such owners of working interests shall compensate the fee owner of unitized substances in such lands by paying sums equal to the rentals, minimum royalties, and royalties applicable to such lands under the lease in effect when the lands were unitized, as to such participating area or areas.

Upon commitment of a working interest to this agreement and the unit operating agreement as provided in this section, an appropriate accounting and settlement shall be made, to reflect the retroactive effect of the commitment, for all benefits accruing to or payments and expenditures made or incurred on behalf of such surrendered working interest during the period between the date of surrender and the date of recommitment, and payment of any moneys found to be owing by such an accounting shall be made as between the parties then signatory to the unit operating agreement and this agreement within thirty (30) days after the recommitment. The right to become a party to this agreement and the unit operating agreement as a working interest owner by reason of a surrender or forfeiture as provided in this section shall not be defeated by the non-existence of a unit operating agreement and in the event no unit operating agreement is in existence and a mutually acceptable agreement between the proper parties thereto cannot be consummated, the Supervisor may prescribe such reasonable and equitable agreement as he deems warranted under the circumstances.

Nothing in this section shall be deemed to limit the right of joinder or subsequent joinder to this agreement as provided elsewhere in this agreement. The exercise of any right vested in a working interest owner to reassign such working interest to the party from whom obtained shall be subject to the same conditions as set forth in this section in regard to the exercise of a right to surrender.

NOTE

(a) At the option of the parties a section may be included covering the payment of taxes.

(b) Unit Operator should sign both as Unit Operator and as a working interest owner.

(c) Only those who are parties to the Unit Operating and Accounting Agreement should sign as working interest owners.

(d) A carried working interest owner should sign under the heading of OTHER PARTIES.

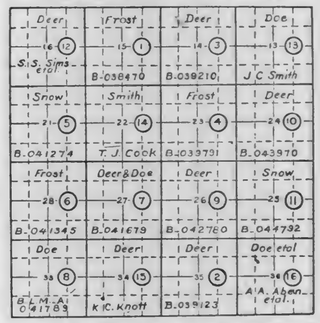
NOTE: The following is a sample form of approval certificate to be attached to each executed copy of unit agreement submitted for approval.

CERTIFICATION—DETERMINATION

Pursuant to the authority vested in the Secretary of the Interior, under the act approved February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat. 950, and delegated to the Director of the Geological Survey pursuant to Departmental Order No. 2365 of October 8, 1947, 43 CFR § 4.611, 12 F. R. 6784, I do hereby:

A. Approve the attached agreement for the development and operation of the ---------- Unit Area, State of ----------.

B. Certify and determine that the unit plan of development and operation contemplated in the attached agreement is necessary and advisable in the public interest for the purpose of more properly conserving the natural resources.



C: Certify and determine that the drilling, producing, rental, minimum royalty, and royalty requirements of all Federal leases committed to said agreement are hereby established, altered, changed, or revoked to conform with the terms and conditions of this agreement.

Dated: ----------

Director, United States Geological Survey.

Total: 16 tracts 10,240.00 acres in entire unit area.
NOTE: Group lands by types, listing Federal leases by order of serial number.
Tract numbers are merely for simple and convenient reference.
Consents should be identified (in pencil if desired) by tract numbers as listed in Exhibit B and assembled in that order as far as practical.
For patented land tracts, the lease expiration date may be shown in lieu of the lease date.

§ 226.15 *Form of collective bond.*

COLLECTIVE CORPORATE SURETY BOND

Know all men by these presents, That we, ----------, signing as
(Name of unit operator)
Principal, for and on behalf of the record owners of unitized substances now or hereafter covered by the unit agreement for the ----------, approved ----------,
(Name of unit) (Date)
----------, as Surety
(Name and address of Surety)
are jointly and severally held and firmly bound unto the United States of America in the sum of ---------- Dollars, lawful
(Amount of bond)
money of the United States, for the use and benefit of and to be paid to the United States and any entryman or patentee of any portion of the unitized land, heretofore entered or patented with the reservation of the oil or gas deposits to the United States, for which payment, well and truly to be made, we bind ourselves, and each of us, and each of our heirs, executors, administrators, successors, and assigns by these presents.

The condition of the foregoing obligation is such, that, whereas the Secretary of the Interior on ---------- approved under the provisions of the act of February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat 950, a unit agreement for the development and operation of the ----------; and

(Date)

(Name of unit and State)

Whereas said Principal and record owners of unitized substances, pursuant to said unit agreement, have entered into certain covenants and agreements as set forth therein, under which operations are to be conducted; and

Whereas said Principal as Unit Operator has assumed the duties and obligations of the respective owners of unitized substances as defined in said unit agreement; and

Whereas said Principal and Surety agree to remain bound in the full amount of the bond for failure to comply with the terms of the unit agreement, and the payment of rentals, minimum royalties, and royalties due under the Federal leases committed to said unit agreement; and

Whereas the Surety hereby waives any right of notice of and agrees that this bond may remain in force and effect notwithstanding:

(a) Any additions to or change in the ownership of the unitized substances herein described;

(b) Any suspension of the drilling or producing requirements or waiver, suspension, or reduction of rental or minimum royalty payments or reduction of royalties pursuant to applicable laws or regulations thereunder; and

Whereas said Principal and Surety agree to the payment of compensatory royalty under the regulations of the Interior Department in lieu of drilling necessary offset wells in the event of drainage; and

Whereas nothing herein contained shall preclude the United States from requiring an additional bond at any time when deemed necessary:

Now, therefore, if the said Principal shall faithfully comply with all of the provisions of the above-identified unit agreement and with the terms of the leases committed thereto, then the above obligation is to be of no effect; otherwise to remain in full force and virtue.

Signed, sealed, and delivered this ------ day of ----------, 19----, in the presence of:

Witnesses:

---------- (Principal)

---------- (Surety)

§ 226.16 *Form of designation of successor unit operator by working interest owners.*

Designation of successor Unit Operator ---------- Unit Area, County of ---------- State of ---------- I-Sec. No. -------.

This indenture, dated as of the ------ day of ----------, 19----, by and between ---------- hereinafter designated as "First Party," and the owners of unitized working interests, hereinafter designated as "Second Parties."

WITNESSETH: Whereas under the provisions of the act of February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat. 950, the Secretary of the Interior, on the ------ day of ----------, 19----, approved a unit agreement for the ---------- Unit Area, wherein ---------- is designated as Unit Operator; and

Whereas said ---------- has resigned as such Operator,[1] and the designation of a successor Unit Operator is now required pursuant to the terms thereof; and

Whereas the First Party has been and hereby is designated by Second Parties as Unit Operator, and said First Party desires to assume all the rights, duties, and obligations of Unit Operator under the said unit agreement:

Now, therefore, in consideration of the premises hereinbefore set forth and the promises hereinafter stated, the First Party hereby covenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of the ---------- unit agreement, and the Second Parties covenant and agree that, effective upon approval of this indenture by the Director of the Geological Survey, First Party shall be granted the exclusive right and privilege of exercising any and all rights and privileges as Unit Operator, pursuant to the terms and conditions of said unit agreement; said unit agreement being hereby incorporated herein by reference and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

---------- ----------
---------- (First Party)
(Witnesses)

---------- ----------
---------- (Second Parties)
(Witnesses)

I hereby approve the foregoing indenture designating ---------- as Unit Operator under the unit agreement for the ---------- Unit Area, this ----- day of ----------, 19---.

Director of the Geological Survey.

§ 226.17 *Form of change in unit operator by assignment.*

Change in Unit Operator ---------- Unit Area, County of ----------, State of ----------, I-Sec. No. -------.

This indenture, dated as of the ------ day of ----------, 19----, by and between ---------- hereinafter designated as "First Party," and ---------- hereinafter designated as "Second Party."

WITNESSETH: Whereas under the provisions of the act of February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat. 950, the Secretary of the Interior, on the ------ day of ----------, 19----, approved a unit agreement for the ---------- Unit Area, wherein the First Party is designated as Unit Operator; and

Whereas the First Party desires to transfer, assign, release, and quitclaim, and the Second Party desires to assume all the rights, duties, and obligations of Unit Operator under the unit agreement; and

Whereas for sufficient and valuable consideration, the receipt whereof is hereby acknowledged, the First Party has transferred, conveyed, and assigned all his its rights under certain operating agreements involving lands within the area set forth in said unit agreement unto the Second Party:

Now, therefore, in consideration of the premises hereinbefore set forth, the First Party does hereby transfer, assign, release, and quitclaim unto Second Party all of First Party's rights, duties, and obligations as Unit Operator under said unit agreement; and

Second Party hereby accepts this assignment and hereby covenants and agrees to fulfill the duties and assume the obligations of Unit Operator under and pursuant to all the terms of said unit agreement to the full extent set forth in this assignment, effective upon approval of this indenture by the Director of the Geological Survey; said unit agreement being hereby incorporated herein by reference and made a part hereof as fully and effectively as though said unit agreement were expressly set forth in this instrument.

In witness whereof, the parties hereto have executed this instrument as of the date hereinabove set forth.

---------- ----------
---------- (First Party)
(Witnesses)

---------- ----------
---------- (Second Party)

I hereby approve the foregoing indenture designating ---------- as Unit Operator under the unit agreement for the ---------- Unit Area, this --- day of ---------- 19---.

Director of the Geological Survey.

NOTE: The record keeping or reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189. Interpret or apply sec. 5, 60 Stat. 952; 30 U. S. C. 226e)

Dated: December 22, 1950.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 51-156; Filed, Jan. 3, 1951; 8:55 a. m.]

[1] Where the designation of a successor Unit Operator is required for any reason other than resignation, such reason shall be substituted for the one stated.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

[1951 Dept. Circular 1]

PART 129—VALUES OF FOREIGN MONEYS

QUARTER BEGINNING JANUARY 1, 1951

JANUARY 1, 1951.

§ 129.14 *Calendar year 1951—(a) Quarter beginning January 1, 1951.* Pursuant to section 522, title IV, of the Tariff Act of 1930, reenacting section 25 of the act of August 27, 1894, as amended, the following estimates by the Director of th Mint of the values of foreign monetary units are hereby proclaimed to be the values of such units in terms of the money of account of the United States that are to be followed in estimating the value of all foreign merchandise exported to the United States during the quarter beginning January 1, 1951, expressed in any such foreign monetary units: *Provided, however,* That if no such value has been proclaimed, or if the value so proclaimed varies by 5 per centum or more from a value measured by the buying rate in the New York market at noon on the day of exportation, conversion shall be made at a value measured by such buying rate as determined and certified by the Federal Reserve Bank of New York and published by the Secretary of the Treasury pursuant to the provisions of section 522, title IV, of the Tariff Act of 1930.

The value of foreign monetary units, as shown below in terms of United States money, is the ratio between the legal gold content of the foreign unit and the legal gold content of the United States dollar. It should be noted that this value, with respect to most countries, varies widely from the present exchange rates. Countries not having a legally defined gold monetary unit, or those for which current information is not available, are omitted.

Country	Monetary unit	Value in terms of U. S. money	Remarks
Canada	Dollar	$1.0031	Redemption of notes into gold suspended. Export of gold prohibited except under license.
Colombia	Peso	.5128	Monetary Law No. 90 of Dec. 16, 1948, effective Dec. 18, 1948, content of peso 0.59637 gram of gold 9/10 fine. Obligation to sell gold suspended Sept. 24, 1931.
Costa Rica	Colon	.1781	Parity of 0.158267 fine gram gold established by decree law effective Mar. 22, 1947.
Denmark	Krone	.1537	Conversion of notes into gold suspended Sept. 29, 1931.
Dominican Republic	Peso	1.0000	By Monetary Law No. 1528 effective Oct. 9, 1947, gold content of peso equal to 0.888671 gram fine.
Ethiopia	Dollar	.4025	New unit established by Proclamation of the Emperor on May 25, 1945, effective July 23, 1945.
Finland	Markka	.0126	Conversion of notes into gold suspended Oct. 12, 1931.
Guatemala	Quetzal	1.0000	Decree No. 203 of Dec. 10, 1945, defined the monetary unit as 15.5/21 grains gold 9/10 fine. Conversion of notes into gold suspended Mar. 6, 1933.
Haiti	Gourde	.2000	National bank notes redeemable on demand in U. S. dollars.
Hungary	Forint	.0852	New unit based on 13,210 forint per kilogram fine gold, effective July 1946.
Ireland	Pound	4.0297	Conversion of notes into gold suspended Sept. 21, 1931.
Peru	Sol	.4740	Conversion of notes into gold suspended May 18, 1932; exchange control established Jan. 23, 1945.
Philippines	Peso	.5000	International value according to the Central Bank Act approved June 15, 1948. Exchange control established.
Sweden	Krona	.1537	Conversion of notes into gold suspended Sept. 29, 1931.
Union of Soviet Socialist Republics	Ruble	.2500	By decree of Council of Ministers ruble equal to 0.222168 fine gram gold, effective Mar. 1, 1950.
Uruguay	Peso	.0583	Present gold content of 0.58308 gram fine established by law of Jan. 18, 1938. Conversion of notes into gold suspended Aug. 2, 1914; exchange control established Sept. 7, 1931.
Venezuela	Bolivar	.3267	Exchange control established Dec. 12, 1936.

(Sec. 25, 28 Stat. 552; sec. 403, 42 Stat. 17; sec. 522, 42 Stat. 974; sec. 522, 46 Stat. 739; 31 U. S. C. 372)

[SEAL] E. H. FOLEY, JR.,
Acting Secretary of the Treasury.

[F. R. Doc. 51-91; Filed, Jan. 3, 1951; 8:48 a. m.]

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[Dept. Circular 530, 6th Rev., Amdt. 8, Feb. 13, 1945]

PART 315—UNITED STATES SAVINGS BONDS

CALCULATION OF AMOUNT

DECEMBER 28, 1950.

Pursuant to section 22 (a) of the Second Liberty Bond Act, as amended (55 Stat. 7, 31 U. S. C. 757c), § 315.9 (d) (4) of Department Circular No. 530, Sixth Revision, dated February 13, 1945 (31 CFR Part 315), as amended, is hereby further amended, effective January 1, 1951, to read as follows:

§ 315.9 *Calculation of amount.* • • •

(d) • • •

(4) With respect to bonds of Series E, those purchased with the proceeds of matured bonds of Series A, Series C–1938, Series D–1939, Series D–1940, and Series D–1941, where such matured bonds are presented by an individual (natural person in his own right) owner or coowner for that purpose and the Series E bonds are registered in his name in any form of registration authorized for that series.

(Sec. 22, 49 Stat. 41, as amended; 31 U. S. C. 757c)

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be impracticable and unnecessary with respect to these regulations.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

[F. R. Doc. 51-90; Filed, Jan. 3, 1951; 8:48 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chaper VI—Defense Minerals Administration, Department of the Interior

[MO 1]

PART 1009—DESIGNATION OF SCARCE MATERIALS

Pursuant to the provisions of section 102 of the Defense Production Act of 1950 (Public Law 774, 81st Congress), Executive Order 10161 (15 F. R. 6105), and the delegation of December 18, 1950, by the Secretary of Commerce to the Secretary of the Interior (NPA Delegation 5, 15 F. R. 9195), the materials specified on the attached list are hereby designated as scarce materials. These materials are therefore subject to said section 102 which provides in part that in order to prevent hoarding, no person shall accumulate such materials (1) in excess of the reasonable demands of business, personal, or home consumption, or (2) for the purpose of resale at prices in excess of prevailing market prices.

Special circumstances have rendered consultation with industry representatives, including trade associations, prior to the formulation of this order, impracticable and contrary to the interest of the national defense.

§ 1009.1 *Designation of scarce materials.*

Iron ore, concentrates, sinter, Pyrites cinder.
Manganese ores, concentrates.
Chromium ores, concentrates.
Cobalt ores, concentrates.
Nickel ores, concentrates.
Tungsten ores, concentrates.
Molybdenum ores, concentrates.
Vanadium ores, concentrates, flue dust.
Fluorspar ores.
Miscellaneous ferro-alloy ores, concentrates (including Boron, Columbium, Ferro-Titanium, Ferro-Zirconium, Ferro-Tantalum, etc.).
Beryllium ores.
Cerium and other rare-earth metal ores.
Columbium ores.
Germanium concentrates, residues.
Lithium ores.
Platinum-group unrefined materials, including grain, nuggets, ores, concentrates.
Selenium anode slimes.
Tantalum ores.
Tellurium bearing anode slimes and lead residues.
Thallium: Cottrell dusts, residues from zinc, cadmium and lithopone works. Ores (Mercur, Utah).
Aluminum (crude), dried and calcined bauxite, aluminum pig, alumina.
Magnesium: Dolomite, magnesium chloride, magnesium pig, crystals.
Titaniferous ores, titanium metal sponge, chips, powder.
Zirconium-bearing ores, zirconium metal sponge.
Antimony ores, concentrates, residues.
Bismuth concentrates, base bullion, residues.
Cadium concentrates, flue dusts, residues.
Copper ores, concentrates, matte, blister, anodes.
Lead ores, concentrates, base bullion, matte, speiss, residues.
Mercury ores, concentrates.
Tin ores, concentrates.
Zinc ores, concentrates, fumes, residues.
Corundum ores, concentrates, crystals.
Emery ores.
Grinding pebbles, mill liners (crude).
Asbestos, unmilled.
Barite, witherite (crude).
Borates ores, brines (crude).
Bromine.
Fuller's earth, crude.
Cryolite ores.
Graphite, crude.
Quartz, crystals, raw.
Strontium ores.
Sulphur, pyrites.
Talc, pyrophyllite, crude.
Topaz, crude.
Wollastonite.
Kyanite and other mullite-forming minerals, synthetic mullite.
Mica, crude, trimmed, scrap.
Monazite, bastnasite.
Nitrogen compounds (natural).
Potash, crude.

(Sec. 704, Pub. Law 774, 81st Cong. Interprets or applies sec. 102, Pub. Law 774, 81st Cong.)

Dated: December 29, 1950.

JAMES BOYD,
Administrator,
Defense Minerals Administration.

Approved: December 29, 1950.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 51-183; Filed, Jan. 3, 1951; 10:35 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9671]

PART 17—CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA TOWERS AND/OR THEIR SUPPORTING STRUCTURES

I. *Introduction.* On May 23, 1950, pursuant to the authority set forth in sections 4 (i), 301, 303 (q) and 309 of the Communications Act of 1934, as amended, the Commission issued a notice of proposed rule making, published 15 F. R. 3426, June 1, 1950, looking toward the promulgation of a new Part 17 of the rules concerning the Construction, Marking, and Lighting of Antenna Towers and/or their Supporting Structures. The proposal set forth procedures and standards with respect to the Commission's consideration of proposed antenna structures as a guide to persons applying for radio station licenses. Interested persons were given until July 3, 1950, to file comments, which period was subsequently extended, by an appropriate order, to July 17, 1950. The time to file comments has now expired. Twenty-one comments have been received. The comments, but for a few exceptions, appear to favor the purpose of the proposal, urging, however, a number of specific changes ranging from editorial modifications of the text to substantial revisions of the scope of coverage of the rules. Four commentators directed their remarks solely to the legal basis for the new rules, contending that the proposal transcends the authority contained in the Communications Act.

The comments, together with changes considered acceptable and included in the finalized rules, are, for convenience, grouped into five categories, and discussed in sections of this report numbered to conform with the categories as follows:

II. Comments directed toward the definitions and scope of landing areas, control zones, airport approach areas, etc. (Subpart A of the proposal);

III. Comments regarding the height criteria for determining whether antenna structures would require aeronautical study (Subpart B of the proposal);

IV. Comments concerning the painting and lighting specifications (Subpart C of the proposal)";

V. Comments with respect to the Commission's legal authority to adopt the proposed rules; and

VI. Comments advocating exemption of amateur stations from the proposal.

In summary, only editorial revisions have been made in the text of Subpart A. Two new sections have been added to Subpart B; one exempting antenna structures under 20 feet in height from the requirement of aeronautical study; the other providing that the fact that natural formations or existing man-made structures may shield antennas, will be taken into account in all cases requiring aeronautical study. The remaining modifications of this subpart have been editorial in nature. Aside from editorial changes in Subpart C, a section has been added thereto providing that upon a proper showing, the Commission may modify the mandatory marking required thereunder. In addition, a provision has been made authorizing the use of automatic devices to detect failure of antenna lights. All changes conform to the basic purpose of the proposal. Objections to the Commission's jurisdiction to promulgate Part 17 are without merit. Similarly, no basis exists for exemption of amateur stations from the purview of the new rules.

II. *Comments directed toward the definitions and scope of landing areas, control zones, airport approach areas, etc.* Subpart A of Part 17 contains a series of definitions, setting forth in detail the measurements on the basis of which safety areas in the proximity of airports are delimited and minimum flight altitudes designated. These definitions are based on the relevant CAA regulations. Several minor changes, principally editorial in character and not affecting the substance of the rules as proposed, have been incorporated in the final text in accordance with the more significant suggestions of the interested parties. The sections so revised are §§ 17.2 (a), (c), (c) (2), (c) (3), (d), (1), (n), and 17.4.

III. *Comments regarding the height criteria for determining whether antenna structures would require aeronautical study.* The criteria as proposed and made final require no aeronautical study of proposed antennas less than 170 feet above ground, except when the proposed location is in the vicinity of airports and approach areas under the conditions set forth in § 17.15 (§ 17.14 of the proposed rules). Similarly, no such study is required of proposed antennas under 500 feet in height, except, in addition to the above, in certain parts of the airways system (§ 17.12). Antennas coming within these exceptions and all proposed antennas over 500 feet in height require special aeronautical study before an authorization for the erection thereof is granted.

Comments from certain broadcasters urged the elimination of the 500 feet criterion on the ground that it is an arbitrary choice and inconsistent with the Commission's rules which, under certain circumstances, recommend the use of antennas over 500 feet (e. g., § 3.604 (b) of this chapter).

The 500 feet figure is significant only as a criterion for determining whether a special aeronautical study shall be required irrespective of the antenna's proposed location. It neither limits the applicant's freedom in adapting the height of his antenna to the technical requisites of his station, nor prevents the Commission from authorizing such antenna heights as might be warranted by the dictates of the public interest, convenience or necessity. Accordingly, the 500 feet dividing line has only a procedural significance and, of itself, does not determine the merits of an application. In this light, it is difficult to see how this height criterion can be considered to be inconsistent with the Commission's rules recommending antennas over 500 feet for certain stations. The purpose of one is to insure the safety of air navigation; of the other, to provide broader coverage for television stations. These objectives appear capable of a harmonious coexistence under the safeguards to the aviation interests—which the proposed Part 17 is intended to provide.

The 500 feet criterion was fully discussed at the conferences which preceded the issuance of the proposed rules and was selected after a careful consideration of the interests of both the radio and aviation industries. The Civil Air Regulations (14 CFR 60.17) provide that the minimum altitude for instrument flight operations shall not be less than 1,000 feet above the highest obstacle within a horizontal distance of 5 miles from the center line of the course intended to be flown. Enroute cruising altitudes are calculated in increments of 500 feet. Accordingly, where a 500 feet antenna is the controlling obstacle, the minimum flight altitude in that area would be 1,500 feet; an over-500 feet (500 to 1,000) radio tower would raise such flight altitude to 2,000 feet. The percentage of radio antennas which could be expected to exceed 500 feet appears to be very small,[1] and is not considered substantial enough to warrant an increase in the minimum flight altitude.

The provisions relating to the height criteria (Subpart B of the rules) have been edited and revised in accordance with the more significant comments as follows:

(a) The heading of Subpart B has been changed to reflect more clearly the purpose of the rules.

(b) Section 17.12 has been edited in order to include therein all cases where aeronautical study would be required for antennas of 170 to 500 feet in height, and, at the same time, integrate into this section the criteria applicable to structures in airport and approach areas set forth in § 17.14 of the proposed rules.

(c) It is believed that under certain circumstances small antennas should be exempt from the requirement of a special aeronautical study. It appears that such an exemption would, for example, eliminate the need of processing through the Airspace Subcommittee of many amateur applications which otherwise would require such a referral if the proposed antenna were to be located in the vicinity of airports or approach areas. At the same time, it does not appear that an exception

[1] During the conferences preceding the publication of the proposed Part 17, the broadcast industry proposed to raise the 500 feet limit to 650 feet. In order to determine whether such a change was justified, a study was made of (1) all existing broadcast (AM, FM, TV) stations and CP's in the New York, San Francisco and Washington areas, (2) all broadcast applications received by the Commission during May 1949, all non-broadcast applications received during one week in May 1949, and (3) five typical common carrier antenna farms. The study encompassed 176 existing or proposed broadcast antenna structures and 131 non-broadcast towers. Only three of the broadcast antenna towers were over 500 feet in height and only one of these would have escaped aeronautical study if the limit were raised to 650 feet. None of the non-broadcast antennas or those in the common carrier antenna farms were over 500 feet in height.

in favor of such small antennas would jeopardize the safety of air navigation. In any event, in those exceptional cases where such small towers could menace air navigation, the Commission could order the marking thereof under section 303 (q) of the act, notwithstanding the exemption. Accordingly, a new § 17.14 has been added which reads as follows:

§ 17.14 Antenna structures mounted on top of natural formations or existing man-made structures will not require special aeronautical study, if, as a result of such mounting, the over-all height of such natural formations or existing man-made structures has not increased more than 20 feet.

(d) As a result of the addition, § 17.14 of the proposal has been renumbered § 17.15 and the references thereto in other provisions of Part 17 have been revised accordingly.

(e) Minor editorial and clarifying changes have been made in the text of the renumbered § 17.15 and paragraph (a) of that section.

(f) Paragraph (d) of the renumbered § 17.15 has been subdivided for clarity into two paragraphs, (d) and (e).

(g) Section 17.15 of the proposed rules has been renumbered § 17.17, and a new § 17.16 applicable to the entire Subpart B has been added. This new section is substantially identical with the last sentence of § 17.11, which, accordingly, has been eliminated. The new section insures that in all cases requiring special aeronautical study, the circumstances that the antenna would be shielded by natural formations or man-made structures will be taken into account. Under the proposal, this provision, having been a part of § 17.11 of Subpart B, appeared applicable only to antennas over 500 feet in height. There seems to be no reason for such a restriction.

IV. *Comments concerning the painting and lighting specifications.* Subpart C of Part 17 contains specifications for obstruction marking and lighting of antenna structures. Section 17.21 thereof provides that antenna towers shall be painted and illuminated when: (a) they require special aeronautical study, or (b) they exceed 170 feet in height above the ground. Numerous comments have been directed toward this section pointing out that in some cases, depending on the location of the antenna, a mandatory requirement of painting and lighting would not be warranted, and urging an appropriate modification of its provisions.

It is believed that in a proper case the mandatory requirement of § 17.21 might be either dispensed with or modified. Accordingly, the following paragraph (c) has been added to § 17.21:

(c) The Commission may modify the above requirement for painting and/or lighting of antenna structures, when it is shown by the applicant that the absence of such marking would not impair the safety of air navigation, or that a lesser marking requirement would insure the safety thereof.

Section 17.29 of the proposed rules would require that a visual inspection of tower lights be made at least once each 24 hours. Several comments suggested that a provision be made permitting the use of automatic devices designed to detect any failure of such lights. Such an alternative to visual inspections appears desirable. Accordingly, an appropriate revision of § 17.29 (a) has been made. Similarly, changes necessary to insure proper maintenance and inspection of such automatic detecting devices, and the required recording of failures detected thereby, have been made in the appropriate places (e. g., §§ 17.29 (c), 17.30 (c), (c) (3), and (d) (1)).

In addition, the following minor changes, urged by the interested parties, have been made in the provisions of Subpart C for the sake of clarification:

(a) The use of 111 watt lamp as an alternative to 100 watts and 620 watt lamp as an alternative to 500 watts has been expressly authorized, in order to conform with the requirements of the specifications to the recommendation contained in § 17.34, footnote 5. The sections so modified are §§ 17.23 (a) (3), 17.24 (a) (2) and (3), 17.25 (a) (2) and (3), and 17.26 (a) (2) and (4). Footnote 5 of § 17.34 has been appropriately edited to conform to the above revisions.

(b) Sections 17.25 (a) (4) and 17.26 (a) (5) governing the time during which the lights illuminating the antenna structures must be on, have been modified in order to permit, when it is so desired, to burn such lights continuously.

(c) Editorial revisions have been made in the portions of §§ 17.24 (a) (1) and 17.26 (a) (1) concerning the dimensions of the international orange and white bands.

(d) The word "special" preceding "aeronautical study" has been inserted in § 17.22 (a) and (b).

V. *Comments with respect to the Commission's legal authority to adopt the proposed rules.* The contention that Part 17 transcends the authority contained in the Communications Act has been given careful consideration and we conclude that it is without foundation. The bases for the contention appear to be two-fold:

(a) Part 17 delegates to agencies outside the Commission authority to make determinations which will form the basis for the adjudications of applications for radio facilities.

(b) Part 17 would permit denial of applications for radio facilities on the basis of aeronautical considerations, an outcome not contemplated by the Communications Act.

No reasonable analysis or construction of Part 17 can lead to a conclusion that the procedure provided thereby constitutes a delegation of the Commission's authority to other agencies. Part 17 contemplates no more than a referral of applications requiring aeronautical study to the Airspace Subcommittee of the Air Coordinating Committee who will act as an expert in an advisory capacity. The determination of this body will merely aid the Commission in deciding whether a grant of the application involved in such a study would be in the public interest. This determination is one which only the Commission can make, and it has not been delegated in any way to any other agency. Moreover, section 309 (a) of the Communications Act insures that an applicant shall be afforded an opportunity for hearing on any issue which may be adverse to the grant of the application without hearing. The new procedure simplifies the long established practice of referring applications proposing a construction of antenna structures over 150 feet to the Civil Aeronautics Administration for recommendations.[2]

By a denial of applications for radio facilities on the basis of aeronautical considerations, it is presumably meant a denial where it has been determined, after hearing or opportunity for a hearing has been afforded, that the erection of the proposed antenna at the proposed site would constitute a menace to air navigation, which menace could not be removed by the painting and illumination of the obstruction. A denial of an application under these circumstances is contemplated by the Communications Act. It has been so held in Simmons v. FCC (D. C. App. 1944), 145 F. (2d) 578, where, in disposing of this issue, the court said: "We think that public convenience, interest and necessity clearly require the Commission to deny applications for construction which would menace air navigation."

VI. *Comments advocating exemption of amateur stations from the proposal.* The American Radio Relay League has contended that amateur stations should be excluded from the purview of Part 17. The League has based this claim on the statutory exemption of amateur stations from the requirement of a construction permit (section 319 (b) of the Communications Act).

It is quite clear that the exemption of amateurs from the construction permit requirements of section 319 of the Communications Act was not intended to except amateurs as a class from other valid considerations of the public interest. The purpose of section 319 was to prevent potential applicants from investing large sums of money in a station prior to Commission consideration of the proposed operation. In the case of amateurs where in most instances the cost of equipment is comparatively small this problem did not exist. Accordingly, the requirement that a CP be obtained before construction of the station was not imposed on this group. There is clearly no basis for the assumption that this exemption was intended to preclude the consideration of other criteria of the public interest, including the potential effect of antenna towers on safety of air navigation, in connection with the licensing of such stations.

The League admits that "where an amateur's tower constitutes a menace to air navigation, steps may be taken by the appropriate agency to cause the tower to be painted and lighted as in

[2] See § 1.377 of Part 1 of this chapter which provides: "Applications for radio facilities which involve the erection of proposed antennas or changes in the height or location of existing antennas are referred to the Civil Aeronautics Administration for the recommendation of that agency as to whether the antenna in question constitutes a meance to air navigation."

the case of other aerial obstructions such as tall buildings or smokestacks", but asserts that amateur antennas "should be classified with types of structures other than radio transmitting structures contemplated by the proposed rules." This argument pays lip service to the cause of the safety of air navigation, for there is, at the present time, no "appropriate agency" which can compel obstructions other than radio transmitting antennas to be marked. The Commission, within the limits of the Communications Act, is the only repository of federal authority with respect to the painting and lighting of aerial obstructions, and no comparable authority has been conferred on any other agency.

VII. It appears from the foregoing that the comments raised neither new nor important issues of facts concerning the proposed rules. The contentions questioning the legality of the proposal have been carefully considered and in view of the clarity of the law on those points it is not believed that either oral argument or hearing would materially contribute to a decision in the matter.

Accordingly, it is ordered, This 13th day of December 1950, that Part 17, rules concerning the construction, Marking and Lighting of Antenna Towers and Supporting Structures, shall become effective February 15, 1951, as set forth below.

Released: December 22, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

SUBPART A—GENERAL INFORMATION

Sec.
17.1 Basis and purpose.
17.2 Definitions.
17.3 Form to be used to describe proposed antenna structures.
17.4 Commission consideration of proposed antenna structure with respect to possible hazard to air navigation.

SUBPART B—CRITERIA FOR DETERMINING WHETHER APPLICATIONS FOR RADIO TOWERS LIMITATION IN CONNECTION WITH AIR NAVIGATION REQUIRE SPECIAL AERONAUTICAL STUDY

17.11 Antenna structures over 500 feet in height.
17.12 Antenna structures over 170 feet up to and including 500 feet in height.
17.13 Antenna structures 170 feet in height and under.
17.14 Certain antenna structures exempt from special aeronautical study.
17.15 Antenna structures in airports and approach areas.
17.16 Shielded antenna structures.
17.17 Existing structures.

SUBPART C—SPECIFICATIONS FOR OBSTRUCTION MARKING AND LIGHTING OF ANTENNA STRUCTURES

17.21 Painting and lighting, when required.
17.22 Particular specifications to be used.
17.23 Antenna structures 100 feet and under in height.
17.24 Antenna structures above 100 feet up to and including 170 feet in height.
17.25 Antenna structures over 170 feet up to and including 400 feet in height.
17.26 Antenna structures over 400 feet up to and including 500 feet in height.
17.27 Antenna structures over 500 feet in height.
17.28 Antenna farms and multiple structure antena arrays.
17.29 Inspection of tower lights and associated control equipment.
17.30 Recording of tower light inspections in the station record.
17.31 Cleaning and repainting.
17.32 Time when lights shall be exhibited.
17.33 Spare lamps.
17.34 Lighting equipment.
17.35 Painting and lighting existing structures.

AUTHORITY: §§ 17.1 to 17.35 issued under sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 309, 48 Stat. 1081, 1082, 1086; 47 U. S. C. 301, 303, 309.

SUBPART A—GENERAL INFORMATION

§ 17.1 *Basis and purpose.* (a) The rules in this part are issued pursuant to the authority contained in Title 3 of the Communications Act of 1934, as amended, which vests authority in the Federal Communications Commission to issue licenses for radio stations when it is found that the public interest, convenience or necessity would be served thereby, and to require the painting and/or illumination of radio towers if and when in its judgment such towers constitute, or there is a reasonable possibility that they may constitute, a menace to air navigation.

(b) The purpose of the rules in this part is to prescribe certain procedures and standards with respect to the Commission's consideration of proposed antenna structures which will serve as a guide to persons intending to apply for radio station licenses. The standards have been worked out in conjunction with the Civil Aeronautics Administration, the Department of Defense and other Government agencies.

§ 17.2 *Definitions.*—(a) *Airport reference point.* The airport reference point is a point selected and marked at the approximate center of the airport landing area.

(b) *Antenna structures.* The term "antena structures" includes the radiating system and its supporting structures.

(c) *Approach surfaces and approach areas.* The approach surface is an imaginary inclined plane through the air space located directly above the approach area. The dimensions of the approach area are measured horizontally. This inclined plane extends upward and outward from the beginning of the approach area starting at the elevation of the runway end.

(1) *Length.* The approach area has a length of 10,000 feet beginning 200 feet (1,000 feet for regular Department of Defense Air Bases) from the end of each runway and extending outward, ending at a point 10,200 feet (11,000 feet for regular Department of Defense Air Bases) from the end of the runway on the extended center line of the runway. In addition the approach areas of all runways which may be used for instrument operation shall extend outward an additional 40,000 feet. The approach area requirements for instrument runways shall apply to all runways which may be used for instrument operations and to both ends of such runways.

(2) *Width.* The approach area is symmetrically located with respect to the extended runway center line, and for all instrument runways has a total width of 1,000 feet (1,500 feet for regular Department of Defense Air Bases) at the end adjacent to the runway. The approach area flares uniformly to a total width of 4,000 feet at the end of the 10,000-foot section and to a total width of 16,000 feet at the end of the additional 40,000-foot section. For all other runways not designated for instrument operation, the approach area has a total width at the end adjacent to the runway, and at the approach end, respectively, as follows: For express air carrier service and larger airports, 500 feet and 2,500 feet; for trunk line air carrier service airports, 400 feet and 2,400 feet; for feeder air carrier service airports, 300 feet and 2,300 feet; for secondary airports, 250 feet and 2,250 feet and for personal airports, 200 feet and 2,200 feet.

(3) *Slope.* For instrument runways the slope of the approach surface along the runway center line extended is 50:1 (an elevation of 1 foot for each 50 feet of horizontal distance) for the inner 10,000-foot section and 40:1 (an elevation of 1 foot for each 40 feet of horizontal distance) for the outer 40,000-foot section. All other runways, not designated for instrument operation, which meet or exceed the minimum runway length requirements for feeder air carrier service shall have a slope of 40:1. On airports with shorter runway lengths than those specified for feeder air carrier service, the slope of the appoach surface is 20:1 (an elevation of 1 foot for each 20 feet of horizontal distance) for all runways.

(d) *Conical surface.* The conical surface is an imaginary surface through the air space extending upward and outward from the periphery of the horizontal surface and having a slope of 20:1 measured in a vertical plane passing through the airport reference point. Measuring radially outward, from the periphery of the horizontal surface, the conical surface extends for a horizontal distance of 7,000 feet for intercontinental express airports, intercontinental airports and Department of Defense Air Bases; and 5,000 feet for continental, express, trunk line and feeder airports, and 3,000 feet for all smaller airports.

(e) *Designated air traffic control areas.* Areas established and designated by the Administrator of Civil Aeronautics for air traffic control purposes. Information concerning the location of these areas can be obtained from CAA publications and by contacting the CAA regional office.

(f) *Established airport elevation.* The established elevation of the airport is the elevation of the highest point of the usable landing area.

(g) *Established coastal corridors.* Certain established corridors in which low level flight is required for Department of Defense and Coast Guard air operations conducted from air stations located within 20 statute miles of the Atlantic, Pacific and Gulf Coast. These corridors will be ten miles in width extending from coastal air stations to the nearby sea coast. Information with respect to these established corridors will be published along with the information on civil airways.

(h) *Civil airways.* A system of aerial routes designated by the Administrator of Civil Aeronautics for Air Navigation and Traffic Control purposes. Information concerning the location of civil airways can be obtained from aeronautical charts, CAA publications, and by contacting the CAA regional offices.

(i) *Final approach minimum flight altitude.* An altitude designated by appropriate federal authority which is normally established from the highest point within five statute miles of the center line of the final approach course of the radio facility used for final let-down for an airport, and extending for a distance of ten statute miles along this course outward from the radio facility. The radio facilities used for final let-down and the final approach minimum flight altitudes are published in Instrument Approach and Landing Charts and the Flight Information Manual.

(j) *Horizontal surface.* The horizontal surface is an imaginary plane through the air space, circular in shape, with its height 150 feet above the established airport elevation and having a radius from the airport reference point as indicated in the following table:

	Feet
Intercontinental express airports and Department of Defense air bases	13,000
Intercontinental airports	11,500
Continental airports	10,000
Express airports	8,500
Trunk line airports	7,000
Feeder airports	6,000
All smaller airports	5,000

The category of every airport in accordance with the above classification is designated by the Administrator of Civil Aeronautics.

(k) *Instrument approach area.* An approach area where instrument approaches are authorized. The dimensions of the approach area and instrument approach area are contained in paragraph (c) of this section.

(l) *Landing area.* A landing area means any locality, either of land or water, including airports and intermediate landing fields, which is used, or approved for use,[1] for the landing and take-off of aircraft whether or not facilities are provided for the shelter, servicing, or repair of aircraft, or for receiving or discharging passengers or cargo.

(m) *Minimum flight altitude.* Minimum altitudes designated by the Administrator of Civil Aeronautics to provide aircraft a safe clearance of all obstructions within the area designated. The necessary information concerning the locations of these areas and the established minimum flight altitude can be obtained from the CAA publications and by contacting the CAA regional offices.

(n) *Transitional surfaces.* The transitional surfaces are imaginary inclined planes through the air space having a slope of 7:1 (an elevation of 1 foot for each 7 feet of horizontal distance) measured upward and outward in a vertical plane at right angles to the axis of the runway. The transitional surfaces, symmetrically located on either side of the runway, extend upward and outward from a line on either side of the runway which is parallel to and level with the runway center line. These parallel lines are at a horizontal distance from the runway center line equal to one-half of the minimum width of the approach area indicated in paragraph (c) (2) of this section. Transitional surfaces extend from the edges of all approach surfaces upward and outward to the intersection with the horizontal surface or the conical surface. The approach surfaces for instrument runways projecting through and beyond the limits of the conical surface shall have 7:1 transitional surfaces extending a distance of 5,000 feet measured horizontally from the edge of the approach surfaces and at right angles to the runway axis.

§ 17.3 *Form to be used to describe proposed antenna structures.* All applications for radio facilities shall be accompanied by FCC Form 401A (revised) for services other than broadcast[2] in all cases when:

(a) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, or

(b) The antenna structures proposed to be erected will exceed an over-all height of one foot above ground for each 200 feet of distance, or fraction thereof, from the nearest boundary of any landing area.

§ 17.4 *Commission consideration of proposed antenna structure with respect to possible hazard to air navigation.* (a) All applications which in the light of the criteria set forth below require aeronautical study will be referred by the Commission through appropriate channels to the Airspace Subcommittee of the Air Coordinating Committee for its recommendation.

(b) All applications which do not require aeronautical study in view of the criteria set forth below will be deemed not to involve a hazard to air navigation and will be considered by the Commission without reference to the Airspace Subcommittee of the Air Coordinating Committee.

(c) Whenever a recommendation for approval of any application that has been submitted to the Airspace Subcommittee of the Air Coordinating Committee has been received from that Committee, the application will be deemed not to involve a hazard to air navigation and will be processed by the Commission accordingly.

(d) Whenever a report recommending denial of any application or any report which indicates a lack of agreement among the members of the Airspace Subcommittee of the Air Coordinating Committee has been received from that Committee, the applicant will be so advised and the Commission will take such further action as might be appropriate.

[1] Consideration to aeronautical facilities not in existence at the time of the filing of the application for radio facilities will be given only when proposed airport construction or improvement plans are on file with the CAA as of the filing date of the application for such radio facilities.

[2] FCC Form 301, section V–G (antenna) shall be submitted with all broadcast applications.

SUBPART B—CRITERIA FOR DETERMINING WHETHER APPLICATIONS FOR RADIO TOWERS LIMITATION IN CONNECTION WITH AIR NAVIGATION REQUIRE SPECIAL AERONAUTICAL STUDY

§ 17.11 *Antenna structures over 500 feet in height.* Antenna structures over 500 feet in height above the ground will require special aeronautical study irrespective of their location.

§ 17.12 *Antenna structures over 170 feet up to and including 500 feet in height.* Antenna structures over 170 feet up to and including 500 feet in height above the ground will not require special aeronautical study except:

(a) Where antenna structures less than 500 feet in height would necessitate the raising of the minimum flight altitude within the Civil Airways and designated air traffic control areas in the country.

(b) In areas of established coastal corridors.

(c) Where the antenna structure would project above the landing area, or the limiting heights or surfaces, specified in § 17.15, of all airports now in existence or provided for in approved plans.[1]

§ 17.13 *Antenna structures 170 feet in height and under.* Antenna structures 170 feet and under in height above the ground will not require special aeronautical study, except in the areas outlined in § 17.15.

§ 17.14 *Certain antenna structures exempt from special aeronautical study.* Antenna structures mounted on top of natural formations or existing man-made structures will not require special aeronautical study, if, as a result of such mounting, the over-all height of such natural formations or existing man-made structures has not increased more than 20 feet.

§ 17.15 *Antenna structures in airports and approach areas.* Antenna structures in the vicinity of airports and approach areas will require aeronautical study if they project above the following heights above ground or surfaces (in case of conflict the lowest height will prevail).

(a) In instrument approach areas, more than 100 feet above the ground or 100 feet above the elevation of the approach end of the runway, whichever gives the higher elevation of the structure, within three statute miles of the runway end, and increasing in height above ground in the proportion of 25 feet for each additional statute mile of distance outward from the runway but not to exceed 250 feet within ten miles of the runway end. The approach area requirements for instrument runways shall apply to both ends of such runways.

(b) More than 170 feet above the ground or the established airport elevation, whichever gives the higher elevation of the structure within three statute miles of the reference point of a feeder or larger class airport and increasing in height above ground in the proportion of 100 feet for each additional statute mile of distance from the airport but not to exceed a maximum of 500 feet above ground.

(c) Antenna structures of an elevation which would increase the final approach minimum flight altitude.

(d) In addition to the requirements mentioned above, antenna structures which project above the landing area or any of the following imaginary surfaces will require special aeronautical study:

(1) Approach surface.
(2) Horizontal surface.
(3) Conical surface.
(4) Transitional surface.

(e) Under most conditions, the limits prescribed in paragraphs (a), (b) and (c) of this section will be the determining factor. However, in the areas immediately adjacent to the runways and under certain conditions where the terrain rises rapidly in the airport area, the surfaces specified in paragraph (d) of this section become a more limiting factor from the absolute height of requirements.

§ 17.16 *Shielded antenna structures.* In any special aeronautical study conducted under the provisions of this subpart, the circumstances that the antenna structure will be shielded by natural formations or existing man-made structures will be taken into account.

§ 17.17 *Existing structures.* (a) Nothing in these criteria concerning antenna structures or locations shall apply to those structures now existing or to those structures authorized prior to the effective date of these criteria.

(b) No change in any of these criteria or relocation of airports shall at any time impose a new restriction upon any then existing or authorized antenna structure or structures.

SUBPART C—SPECIFICATIONS FOR OBSTRUCTION MARKING AND LIGHTING OF ANTENNA STRUCTURES

§ 17.21 *Painting and lighting, when required.* Antenna structures shall be painted and lighted when:

(a) They require special aeronautical study; or

(b) They exceed 170 feet in height above the ground.

(c) The Commission may modify the above requirement for painting and/or lighting of antenna structures, when it is shown by the applicant that the absence of such marking would not impair the safety of air navigation, or that a lesser marking requirement would insure the safety thereof.

§ 17.22 *Particular specifications to be used.* (a) Where special aeronautical study is not required, the Commission will assign painting and lighting specifications as set forth hereafter.

(b) Where special aeronautical study is required, the Commission will, in so far as is consistent with the safety of life and property in the air, also assign painting and lighting specifications listed hereafter.

(c) However, where antenna installations are of such a nature that their painting and lighting in accordance with these specifications are confusing or endanger rather than assist airmen, the Commission will specify the type of painting and lighting to be used in the individual situation.

§ 17.23 *Antenna structures 100 feet and under in height.* (a) Antenna structures 100 feet and under in height above the ground, located in areas set forth in § 17.15 shall be painted and lighted as follows:

(1) The structure shall be painted throughout its height with alternate bands of international orange and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be approximately one-seventh the height of the structure and the white bands shall be approximately one-half of the width of the international orange bands, provided, the international orange bands shall not be more than 40 feet nor less than 5 feet in width.

(2) The number of bands may be reduced for structures less than 35 feet in height but the minimum width of 5 feet for each international orange band shall be maintained.

(3) For night marking there shall be installed at the top of the tower two 100 or 111-watt lamps (#100–A21/TS or #111–A21/TS, respectively), enclosed in aviation red Fresnel or prismatic (heat resisting preferred) obstruction light globes. The two lights shall burn simultaneously and shall be positioned so as to insure unobstructed visibility of at least one of the lights from aircraft at any angle of approach.

§ 17.24 *Antenna structures above 100 feet up to and including 170 feet in height.* (a) Antenna structures above 100 feet up to and including 170 feet in height above the ground located in areas set forth in § 17.15 shall be painted and lighted as follows:

(1) The structure shall be painted throughout its height with alternate bands of international orange and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be approximately one-seventh the height of the structure and the white bands shall be approximately one-half the width of the international orange bands, provided, the international orange bands shall not be more than 40 feet nor less than 5 feet in width.

(2) For night marking there shall be installed at the top of the tower two 100 or 111-watt lamps (#100 A21/TS or #111 A21/TS, respectively) enclosed in aviation red Fresnel or prismatic (heat resisting preferred) obstruction light globes. The two lights shall burn simultaneously and shall be positioned so as to insure unobstructed visibility of at least one of the lights from aircraft at any angle of approach.

(3) For night marking there shall be installed at the top of the tower two 100 or 111-watt lamps (#100–A21/TS or #111–A21/TS, respectively), enclosed in aviation red Fresnel or prismatic (heat resisting preferred) obstruction light globes. The two lights shall burn simultaneously and shall be positioned so as to insure unobstructed visibility of at least one of the beacons from aircraft at any angle of approach. The beacon shall be equipped with a flashing mechanism producing not more than 40 flashes per minute nor less than 12 flashes per minute with a period of darkness equal to ½ of the luminous period.

(3) On levels at approximately two-thirds and one-third of the over-all height of the tower there shall be installed at least two 100- or 111-watt lamps (#100A21/TS or #111A21/TS, respectively) enclosed in aviation red Fresnel or prismatic (heat resisting preferred) obstruction light globes. Each light shall be mounted so as to insure unobstructed visibility of at least one light at each level from aircraft at any angle of approach.

(4) All lights shall burn continuously or shall be controlled by a light sensitive device adjusted so that the lights will be turned on at a north sky light intensity level of about thirty-five foot candles and turned off at a north sky light intensity level of about fifty-eight foot candles.

§ 17.25 *Antenna structures over 170 feet up to and including 400 feet in height.* (a) Antenna structures over 170 feet up to and including 400 feet in height above the ground shall be painted and lighted as follows:

(1) The structure shall be painted throughout its height with alternate bands of international orange and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be approximately one-seventh the height of the structure and the white bands shall be approximately one-half the width of the international orange bands, provided, the international orange bands shall not be more than 40 feet.

(2) For night marking there shall be installed at the top of the structure one 300 m/m electric code beacon equipped with two 500- or 620-watt lamps (PS–40, Code Beacon type), both lamps to burn simultaneously, and equipped with aviation red color filters. Where a rod or other construction of not more than 20 feet in height and incapable of supporting this beacon is mounted on top of the structure and it is determined that this additional construction does not permit unobstructed visibility of the code beacon from aircraft at any angle of approach, there shall be installed two such beacons positioned so as to insure unobstructed visibility of at least one of the beacons from aircraft at any angle of approach. The beacon shall be equipped with a flashing mechanism producing not more than 40 flashes per minute nor less than 12 flashes per minute with a period of darkness equal to ½ of the luminous period.

(3) On levels at approximately two-thirds and one-third of the over-all height of the tower there shall be installed at least two 100- or 111-watt lamps (#100A21/TS or #111A21/TS, respectively) enclosed in aviation red Fresnel or prismatic (heat resisting preferred) obstruction light globes. Each light shall be mounted so as to insure unobstructed visibility of at least one light at each level from aircraft at any angle of approach.

(4) All lights shall burn continuously or shall be controlled by a light sensitive device adjusted so that the lights will be turned on at a north sky light intensity level of about thirty-five foot candles and turned off at a north sky light intensity level of about fifty-eight foot candles.

§ 17.26 *Antenna structures over 400 feet up to and including 500 feet in height.* (a) Antenna structures over 400 feet up to and including 500 feet in height above the ground shall be painted and lighted as follows:

(1) The structure shall be painted throughout its height with alternate bands of international orange and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be approximately 40 feet and the width of the white bands shall be approximately 20 feet.

(2) For night marking there shall be installed at the top of the structure one 300 m/m electric code beacon equipped with two 500- or 620-watt lamps (PS–40, Code Beacon type), both lamps to burn simultaneously, and aviation red color filters. Where a rod or other construction of not more than 20 feet in height and incapable of supporting this beacon is mounted on top of the structure and it is determined that this additional construction does not permit unobstructed visibility of the code beacon from aircraft at any angle of approach, there shall be installed two such beacons positioned so as to insure unobstructed visibility of at least one of the beacons from aircraft at any angle of approach.

(3) At approximately one-half of the over-all height of the tower, one similar flashing 300 m/m electric code beacon shall be installed in such position within the tower proper that the structural members will not impair the visibility of this beacon from aircraft at any angle of approach.

(4) On levels at approximately three-fourths and one-fourth of the over-all height of the tower, at least one 100- or 111-watt lamp (#100 A21/TS or #111 A21/TS, respectively) enclosed in aviation red Fresnal or prismatic (heat resisting preferred) obstruction light globe shall be installed on each outside corner of the tower at each level.

(5) All lights shall burn continuously or shall be controlled by a light sensitive device adjusted so that the lights will be turned on at a north sky light intensity level of about thirty-five foot candles and turned off at a north sky light intensity level of about fifty-eight foot candles.

§ 17.27 *Antenna structures over 500 feet in height.* Antenna structures over 500 feet in height above the ground shall be painted and lighted in accordance with specifications to be determined by the Commission after aeronautical study.

§ 17.28 *Antenna farms and multiple structure antenna arrays.* In the case of antenna structures which are so grouped as to present a common potential menace to air navigation, the foregoing requirements for painting and lighting may be modified as a result of aeronautical study.

§ 17.29 *Inspection of tower lights and associated control equipment.* The licensee of any radio station which has an antenna structure requiring illumination pursuant to the provisions of section 303 (q) of the Communications Act of 1934, as amended, as outlined elsewhere in this part:

(a) (1) Shall make an observation of the tower lights at least once each 24 hours either visually or by observing an automatic and properly maintained indicator designed to register any failure of such lights, to insure that all such lights are functioning properly as required; or alternatively,

(2) Shall provide and properly maintain an automatic alarm system designed to detect any failure of such lights and to provide indication of such failure to the licensee.

(b) Shall report immediately by telephone or telegraph to the nearest Airways Communication Station or office of Civil Aeronautics Administration any observed or otherwise known failure of a code or rotating beacon light or top light not corrected within thirty minutes, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given immediately upon resumption of the required illumination.

(c) Shall inspect at intervals not to exceed three months all automatic or mechanical control devices, indicators and alarm systems associated with the tower lighting to insure that such apparatus is functioning properly.

§ 17.30 *Recording of tower light inspections in the station record.* The licensee of any radio station which has an antenna structure requiring illumination shall make the following entries in the station record of the inspections required by § 17.29:

(a) The time the tower lights are turned on and off each day if manually controlled.

(b) The time the daily check of proper operation of the tower lights was made.

(c) In the event of any observed or otherwise known failure of a tower light:

(1) Nature of such failure.

(2) Date and time the failure was observed, or otherwise noted.

(3) Date, time and nature of the adjustments, repairs, or replacements were made.

(4) Identification of Airways Communication Station (Civil Aeronautics Administration) notified of the failure of any code or rotating beacon light not corrected within thirty minutes, and the date and time such notice was given.

(5) Date and time notice was given to the Airways Communication Station (Civil Aeronautics Administration) that the required illumination was resumed.

(d) Upon completion of the periodic inspection required at least once each three months:

(1) The date of the inspection and the condition of all tower lights and associated tower lighting control devices, indicators and alarm systems.

(2) Any adjustments, replacements, or repairs made to insure compliance with the lighting requirements and the date such adjustments, replacements, or repairs were made.

§ 17.31 *Cleaning and repainting.* All towers shall be cleaned or repainted as often as necessary to maintain good visibility.

§ 17.32 *Time when lights shall be exhibited.* All lighting shall be exhibited from sunset to sunrise unless otherwise specified.

§ 17.33 *Spare lamps.* A sufficient supply of spare lamps shall be maintained for immediate replacement purposes at all times.

§ 17.34 *Lighting equipment.* The lighting equipment, color of filters, and shade of paint referred to in the specifications are further defined in the following government and/or Army-Navy Aeronautical Specifications, Bulletins, and Drawings (lamps are referred to by standard numbers):

Aviation red	Army-Navy Specification	AN–C–56.[1]
Outside white	Federal Specifications	TT–P–40, Type 1 or 2.[2]
International orange	Federal Specifications	TT–P–59.[2]
Code beacon	CAA Specification	466 (Sec. II–d–Style 4).[4]
100 watt lamp		#100 A21/TS.[4]
111 watt lamp		#111 A21/TS (3,000 hours).
500 watt lamp		#500 PS 40/45.[4]
620 watt lamp		#620 PS 40/45 (3,000 hours).
Obstruction light globe, prismatic	Army-Navy Drawing	AN2541–2.[1]
Obstruction light globe, Fresnel	Army-Navy Drawing	AN2541–12.[1]
Single multiple obstruction light fitting assembly.	Army-Navy Drawing	AN2547–2.[1]
Obstruction light fitting assembly	Army-Navy Drawing	AN2547–4.[1]

[1] Copies of Army-Navy specifications or drawings can be obtained by contacting Commanding General, Air Matériel Command, Wright Field, Dayton, Ohio, or the Bureau of Aeronautics, Navy Department, Washington 25, D. C. Information concerning Army-Navy specifications or drawings can also be obtained from the Office of Federal Airways, Civil Aeronautics Administration, Department of Commerce, Washington 25, D. C.

[2] Copies of this specification can be obtained from the Government Printing Office for 5 cents.

[3] At the Air Routes and Ground Aids Division Meeting of the International Civil Aviation Organization during November 1949, the designation "Aviation Surface Orange," was adopted to replace "International Orange."

[4] Copies of this specification can be obtained from the Office of Federal Airways, Civil Aeronautics Administration, Department of Commerce.

[5] It is strongly recommended that the 111-watt and 620-watt, 3,000 hour lamps, be used instead of the 100-watt and 500-watt lamps wherever possible in view of the extended life, lower maintenance cost, and greater safety which they provide.

§ 17.35 *Painting and lighting existing structures.* Nothing in the criteria set forth in §§ 17.11 to 17.17 concerning antenna structures or locations shall apply to painting and lighting those structures authorized prior to the effective date of these criteria, except where lighting and painting requirements are reduced by these criteria, in which case the lesser requirements may apply.

[Docket No. 9818]

PART 19—CITIZENS RADIO SERVICE

APPLICATION FOR CONSTRUCTION PERMIT USING NON-TYPE APPROVED EQUIPMENT AND FREQUENCY TOLERANCE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of December 1950.

The Commission having under consideration its notice of proposed rule making adopted October 23, 1950, which would relax the tolerance requirements for Class B citizens radio transmitting equipment and set forth in more detail the procedure to be followed in making application for the use of non-type approved equipment in the Citizens Radio Service.

It appearing, that, in accordance with the requirement of section 4 (a) of the Administrative Procedures Act, general notice of proposed rule-making in the above entitled matter was duly published in the FEDERAL REGISTER on November 2, 1950; and

It further appearing, that the period in which interested persons were af-

forded an opportunity to submit comments expired on November 20, 1950, and that all comments filed favored the adoption of the proposed amendments; and

It further appearing, that the public interest, convenience and necessity will be served by the adoption of amendments as proposed and that authority therefor is contained in sections 4 (i), 303 (e), (f), (g), and (r) of the Communications Act of 1934, as amended.

It is ordered, That effective February 5, 1951, §§ 19.14 (b) and 19.33 of the rules governing the Citizens Radio Service are amended to read as shown below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: December 27, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 19.14 (b) is amended to read as follows:

(b) *Application for construction permit using non-type approved equipment.* Application for construction permit authorization for a station in the citizens radio service proposing to employ equipment which is not type-approved by the Commission shall be submitted on FCC Form 505 to the Federal Communications Commission, Washington 25, D. C. Such applications shall be accompanied by data describing in detail the design and construction of the transmitter and the methods employed in testing it to determine compliance with the technical requirements set forth elsewhere in these rules.

2. Section 19.33 is amended to read as follows:

§ 19.33 *Frequency tolerance.* The carrier frequency of a station in the Citizens Radio Service shall be maintained as follows:

Class A stations—within plus or minus 0.02% of the frequency on which the transmitter is adjusted for operation.

Class B stations—all operation (including tolerance and communication band) shall be confined to within plus or minus 0.5% of 465 Mc.

[F. R. Doc. 51-117; Filed, Jan. 3, 1951; 8:52 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 954]

[Docket No. AO-153-A5]

HANDLING OF MILK IN DULUTH-SUPERIOR MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO ORDER, AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Duluth, Minnesota, on November 29, 1950, pursuant to notice thereof which was issued on November 9, 1950 (15 F. R. 7723) upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Duluth-Superior marketing area.

The material issues on the record related to (1) extending the marketing area, (2) revising the classification of milk, (3) increasing the Class I price, (4) providing an incentive for more uniform production by means of a deduction from the uniform price in the spring months and the addition of the sums deducted to the uniform price in the fall months, (5) changing the method of accounting, (6) increasing the administrative assessment from 3 cents to 4 cents, (7) other minor changes of an administrative nature, and (8) whether the facts presented on the record warrant the omission of a recommended decision and exceptions thereto.

Findings and conclusions. The following findings and conclusions on these issues are based upon the evidence introduced at the hearing and the record pertaining thereto.

(1) The marketing area should not be changed. It was proposed to extend the marketing area to include all of Douglas County, Wisconsin, Carlton County, Minnesota, and the city of Two Harbors and the village of Proctor, both in Minnesota. The evidence, however, indicates that the health regulations in these areas are not comparable to those in force in the present marketing area and that, except for milk currently regulated by the order, much of the milk distributed there would not meet the standards prevailing in the present marketing area. A large proportion of the unregulated milk sold there is distributed by plants which are primarily manufacturing plants and dispose of as fluid milk only a small proportion of their total receipts. If all milk disposed of in the proposed area were to be regulated, it would result in pooling together two quite different grades of milk and would substantially reduce the uniform price received by producers since the bulk of the additional milk would be used for manufacturing. If the regulation were to be restricted to milk meeting the standards of the present marketing area an extension of the area would be meaningless since none of the milk not presently regulated is required to comply with the standards of the present area. Accordingly, it must be concluded that no change be made in the extent of the marketing area.

(2) The classification of milk should be revised to provide only 2 classes of milk instead of the 3 classes currently provided. Milk used for cream which is now the only product in Class II should be included in Class I. All three health ordinances in the marketing area require that milk used for fluid cream must comply with exactly the same standards and come from the same farms as milk disposed of for consumption in fluid form as milk. Likewise buttermilk should be included in Class I. The witness who testified with respect to this proposal was uncertain as to whether buttermilk was required by the ordinance to be made from milk meeting the same standards as fluid milk. The copy of the ordinance which was introduced in evidence indicates that buttermilk is required to conform to the standards established for milk. Customarily all buttermilk sold in the market is made from inspected milk. It must be concluded, therefore, that cream and buttermilk should be included in Class I and the present Class III should be redesignated as Class II.

(3) The Class I price should be increased raising the differential over the basic prices an average of 23 cents per hundredweight (½ cent per quart). This would be accomplished by increasing the differential from 60 cents to $1.00 during the months of May, June, July, and August and from $1.00 to $1.15 during the remaining months. Because of the acute situation existing in the market, an immediate increase should be effected and continued with the beginning of the period of flush production. Accordingly, the differential should be fixed at $1.23 from the effective date of the amendment until May 1, 1951. With the beginning of the flush production period the differentials proposed above coupled with the seasonal incentive plan discussed below should return to producers an amount sufficient to encourage an adequate supply of milk.

At the hearing producers and producer representatives testified in support of a price increase substantially higher than either those proposed in the notice of hearing or recommended herein. Some of the witnesses indicated that they felt that the Class I price should be as high as $1.50 over the basic price during all months of the year. The only proprietary handler to testify agreed that prices should be raised and suggested a year around differential of $1.40 over the basic price.

The evidence presented in support of the proposed Class I differentials does not justify such an increase over the present level. For with the so-called Louisville Plan, also proposed and supported by all parties, a year around Class I price differential of $1.40 or $1.50 would increase not only winter producer prices much more than prevailing supply conditions seem to warrant but also producer prices for summer milk which, judging from the extremely heavy production of recent years should not be increased at this time. With the Louisville Plan, the differential of $1.00 for the summer months and $1.15 for the other eight months will result in producer prices for fall and winter months in line with the higher costs encountered by producers in recent months. Producer prices any higher than these would afford a considerable inducement to handlers of Grade "A" milk at locations tributary to other markets—where producer prices are much lower—to look to the Duluth-Superior area for a market.

The record of the hearing clearly shows the situation. Since August 1950 receipts of producer milk have run 4 or 5 percent under those of the same period last year, when receipts were hardly more than adequate. With sales a little higher this fall (1950) than last, the current data on utilization indicate that the market is short of producer milk. During the first seven months of 1950 monthly receipts from producers averaged 15 percent higher than for the previous year due to an increase in the number of producers with about the same average daily production per producer. But since mid-summer 1950 the number of producers has declined steadily and the average production per producer has declined from 232 pounds in August to 165 pounds in October as compared with 234 pounds in August to 175 pounds in October of 1949.

The explanation for this adverse change in the supply situation is given in the testimony of producers. Conversion to the production of inspected milk among dairymen in the milkshed has been arrested and production per farm has sharply declined because prices have not kept pace with rising costs and dairymen are able to find more lucrative employment in the mines, mills, and factories of the region. The price of feed customarily purchased by producers was on the average about 13 percent higher in November 1950 than a year ago. Prices for farm machinery and equipment, supplies, and materials required by dairy farmers ranged mostly from 10 to 20 percent higher. Indications are that there will be no reduction in costs of this nature in the foreseeable future. The labor situation, already serious, is being further aggravated by the step-up in industrial activity in the area. It appears that by spring there will be an acute labor shortage and producers will be at a distinct disadvantage in competing with industry for the available supply of workers.

As indicated by the hearing record a critical situation exists in the market which requires that prices be raised immediately approximately ½ cent per quart or 23 cents per hundredweight during the remainder of the season when there are no pastures and cows must be fed entirely on stored or purchased hay and other feeds. Unless this action is taken to arrest the liquidation of dairy herds in the area, the supply of milk will be seriously endangered and the market faced with an acute shortage of milk during the next fall and winter. Accordingly, the differential should be fixed at $1.23 over the basic price for all delivery periods prior to May 1, 1951, and the proposed price should be made effective on January 1, 1951, or as soon thereafter as possible.

(4) The so-called Louisville Plan should be adopted as a means of levelling out seasonal production. Under this plan, 8 percent of the funds in the pool would be deducted in computing the uniform price during each of the months of May, June, and July, and ⅓ of the total amount deducted would be added back in computing the uniform price during each of the months of October, November, and December.

Production of milk for the Duluth-Superior market has been highly seasonal in character, production during June having averaged almost exactly twice that of the following November. As a consequence the market has had an extremely burdensome surplus in the flush months, often overtaxing the manufacturing facilities in the area. Likewise from October through December there is seldom enough milk to meet the fluid requirements of the market and it has been necessary to augment local supplies from outside the normal supply area.

For some time there has been a difference of 40 cents in the Class I price between spring and fall prices. This has proved inadequate as an incentive to bring about fall production. Both producer and handler representatives feel that the proposed plan will provide the necessary incentive. During the past 4 years, the average difference in the uniform price between June and November has approximated 65 cents. It is estimated that the proposed plan will result in a difference of more than $1.75 in the uniform prices between June and November. A change in Class I differentials in excess of $1.50 would be necessary to achieve the same effect through seasonal changes in the Class I price, assuming receipts and sales remained at the current levels. The resulting Class I price in the fall months might be so high as to adversely affect sales and thus lower returns to producers. Accordingly, it is felt that the recommended plan of a deduction from the pool in the spring months and the addition in the fall of the moneys deducted will provide the most effective method of encouraging fall production.

(5) The method of computing the amount of milk in each class should be changed to provide a more exact accounting for skim milk and butterfat. The present order provides that Class I shall be accounted for on the actual volume of milk contained in Class I products, but in the lower classes the amount of milk is determined by taking the whole milk equivalent of the butterfat contained in each class. If the sum of the resulting figures varies from receipts an adjustment is made in the lowest class. Accordingly, the resulting figures do not represent the actual utilization in these classes and result in a distortion of market statistics. It is also possible that it may result in minor differences in costs of milk to handlers when there are variations in the test of the milk received or the products sold. The recommended procedure will reflect the exact utilization of all skim milk and butterfat received by handlers and will remove any possibility of variation in costs to handlers for products sold.

(6) The administrative assessment should be increased from 3 cents to a maximum of 4 cents per hundredweight. The costs of operating the office of the market administrator have increased materially in recent years because of the increased costs of office supplies and equipment, rent, wages, etc. For the past several months the total income has been less than operating expenses, resulting in a serious depletion of the operating reserves of the office. Unless the income of the office is increased there will soon be insufficient funds to operate the office. An increase of 1 cent in the assessment will provide ample funds for the administration of the order. Since it is a maximum figure it may be reduced at any time with the approval of the Secretary. Should conditions so change that the increased revenue were more than sufficient to operate the office, the amount of the assessment could be reduced as has been done in past years when conditions were such as to warrant it.

(7) The entire order should be renumbered and reissued to conform to the numbering system now required by the Federal Register. Although the provisions of the order have been rearranged and, in a few instances, redrafted, and the basic butterfat test used in computing prices has been changed from 4 percent to 3.5 percent, this action will have no substantive effect except as to those provisions of the order which specifically should be amended as aforesaid. The issuance of a complete amended order at this time with section numbering conforming to Federal Register requirements is desirable so that all of the provisions of the order, as amended, will be readily accessible in a single document.

(8) The due and timely execution of the function of the Secretary of Agriculture under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator, Production and Marketing Administration, and exceptions thereto.

Immediate action must be taken if an amendment is to meet effectively the urgent supply and demand problem sought to be alleviated and relieve the disorderly marketing conditions which threaten the stability of the market. With respect to such problem, the critical situation will be aggravated on and after January 1, 1951. The delay necessarily involved in the preparation, filing, and publication of a recommended decision and exceptions thereto would defeat the purposes of the amendment.

Every point covered in the brief filed by interested parties was carefully considered along with the record evidence in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the brief are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions

is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

(9) *General findings and conclusions.* (a) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to section 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the tentative marketing agreement and order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and order, as amended, and hereby proposed to be further amended, regulate the handling of milk in the same manner as and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said tentative marketing agreement upon which the hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Duluth-Superior Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Duluth-Superior Marketing Area," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order, amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 28th day of December 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Amending the Order Regulating the Handling of Milk in the Duluth-Superior, Marketing Area

§ 954.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR, Supp., 900.1 et seq.), a public hearing was held at Duluth, Minnesota, on November 29, 1950, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Duluth-Superior, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions of said order, as hereby amended, will tend to effectuate the declared policy of the act.

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8c of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Duluth-Superior marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended; and the aforesaid order is hereby amended to read as follows:

DEFINITIONS

§ 954.1 *Duluth-Superior marketing area.* "Duluth-Superior marketing area," hereinafter called "marketing area," means the cities of Duluth and Cloquet in the State of Minnesota, and the city of Superior in the State of Wisconsin.

§ 954.2 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 954.3 *Producer.* "Producer" means any person, irrespective of whether such person is also a handler, who, under certification by the proper health authorities, produces milk which is received at the plant of a handler from which milk is disposed of in the marketing area: *Provided*, That if such person did not regularly distribute milk in the marketing area, or dispose of milk to a plant from which milk was distributed within the marketing area, during a period of 30 days immediately prior to the effective date hereof, but begins the regular delivery of milk to a handler, he shall be known as a "new producer" for a period beginning with the date of his first delivery and including two full calendar months following such first delivery to a handler, after which he shall be known as a "producer." This definition shall be deemed to include any person who produces milk which a handler causes to be diverted temporarily to a plant from which no milk is disposed of in the marketing area.

§ 954.4 *Handler.* "Handler" means any person who on his own behalf or on behalf of others, disposes of milk as milk in the marketing area and who engages in such handling of milk as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products.

§ 954.5 *Market administrator.* "Market administrator" means the agency which is described in §§ 954.20 to 954.22, inclusive, for the administration hereof.

§ 954.6 *Delivery period.* "Delivery period" means the period from the effective date hereof to the end of the calendar month in which such effective date occurs, and thereafter such term shall mean any calendar month.

§ 954.7 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 954.8 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 954.9. *Emergency milk.* "Emergency milk" means milk received by a handler from sources other than producers or new producers under a permit to receive such milk issued to him by the proper health authorities.

MARKET ADMINISTRATOR

§ 954.20 *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary, who shall be entitled to such reasonable compensation as may be determined by and shall be subject to removal at the discretion of the Secretary. The market administrator, within 45 days following the date upon which he enters upon his duties, shall execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

§ 954.21 *Powers.* The market administrator shall have the power to:

(a) Administer the terms and provisions hereof, and

(b) Report to the Secretary complaints of violations hereof.

§ 954.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Keep such books and records as will clearly reflect the transactions provided for herein;

(b) Submit his books and records to examination by the Secretary at any and all times;

(c) Furnish such information and verified reports as the Secretary may request;

(d) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(e) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to §§ 954.30 to 954.33, or made payments pursuant to § 954.80;

(f) Prepare and disseminate for the benefit of producers, new producers, consumers, and handlers such statistics and information concerning the operation hereof as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof; and

(h) Pay, out of the fund received pursuant to § 954.87, the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will be incurred necessarily by him for the maintenance and functioning of his office and in the performance of his duties.

§ 954.23 *Announcement of prices.* The market administrator shall compute and publicly announce prices as follows:

(a) Not later than the end of each delivery period, the prices for Class I and Class II milk and the butterfat differentials to be effective for the following delivery period.

(b) Not later than the 12th day after the end of each delivery period, the uniform price computed pursuant to § 954.71.

REPORTS AND RECORDS

§ 954.30 *Reports of receipts and utilization.* Each handler including each handler who is also a producer, who receives milk from producers, new producers or associations of producers, with respect to all milk received during each delivery period, shall report to the market administrator in the detail and on forms prescribed by the market administrator on or before the 7th day after the end of such delivery period (a) the receipts at each plant of milk from producers, new producers, associations of producers, other handlers, and from own farm production, if any, (b) the utilization of all receipts of milk during the delivery period, and (c) the name and address of each new producer.

§ 954.31 *Reports of producers.* Each handler who is required to file reports pursuant to § 954.30 shall further report to the market administrator as follows:

(a) Within 10 days after the market administrator's request, with respect to any producer or new producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator (1) the name and address, (2) the total pounds of milk received, (3) the average butterfat test of such milk, and (4) the number of days upon which milk was received.

(b) On or before the 25th day after the end of such delivery period, his producer payroll which shall show for each producer and new producer (1) the total quantity of milk received with the average butterfat test thereof, (2) the net amount of the payments to such producer or new producer made pursuant to § 954.80, and (3) any deductions or charges made by the handler. Any deductions or charges made by the handler from payments due producers and new producers shall be accompanied by authorizations therefor.

§ 954.32 *Reports of emergency milk.* Each handler who receives emergency milk shall report to the market administrator as follows:

(a) On or before the day such handler receives emergency milk, his intention to receive such milk.

(b) On or before the 7th day after the end of such delivery period, the receipts of emergency milk as follows: (1) The amount of such milk, (2) the date or dates upon which such milk was received, (3) the plant from which such milk was shipped, (4) the price per hundredweight paid, or to be paid, for such milk, and (5) such other information with respect thereto as the market administrator may request.

§ 954.33 *Other reports.* Each handler who is not required to submit reports pursuant to § 954.30 shall submit such reports with respect to his handling of milk or milk products at the time and in such manner as the market administrator may request and shall permit the market administrator to verify such reports.

§ 954.34 *Verification of reports.* Each handler shall make available to the market administrator or his agent during the usual hours of business (a) those records, including records relating to milk and milk products received from sources other than producers, new producers, associations of producers, or other handlers, which are necessary for the verification of the information contained in the reports submitted in accordance with §§ 954.30 to 954.32, and (b) those facilities necessary for the check-weighing, check-testing, and sampling of milk, and for determining the utilization of milk by the handler.

§ 954.35 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain, except that all such books and records pertaining to transactions before August 1, 1946, shall be retained until October 1, 1949: *Provided*, That if, within such three year period or before October 1, 1949, whichever is applicable, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 954.40 *Basis of classification.* All skim milk and butterfat received during each delivery period by a handler, including milk produced by him, if any, shall be classified by the market administrator pursuant to the provisions of §§ 954.41 to 954.43.

§ 954.41 *Classes of utilization.* The classes of utilization of milk shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk and flavored milk drinks, and cream for fluid consumption (including any mixture of cream and milk or skim milk containing less butterfat than the minimum requirement for cream) and all skim milk and butterfat not specifically accounted for as used to produce a Class II product.

(b) Class II milk shall be all skim milk and butterfat used to produce a milk product other than those specified in Class I and actual plant shrinkage up to 2 percent of the total receipts of skim milk and butterfat: *Provided*, That plant shrinkage established with respect to skim milk or butterfat in milk received by a handler from producers and new producers shall be the proportion of the total plant shrinkage determined by applying to total plant shrinkage of skim milk or butterfat the percentage which the skim milk or butterfat in milk received from producers and new producers bears to the total quantity of skim milk or butterfat received.

§ 954.42 *Interhandler and handler to nonhandler sales.* (a) Skim milk and butterfat disposed of by a handler to another handler in the form of milk, skim milk or cream shall be classified as Class I milk, subject to verification by the market administrator: *Provided*, That milk or skim milk disposed of by a handler to a handler who receives no milk from producers or new producers other than milk of his own production shall be Class I milk.

(b) Skim milk and butterfat disposed of by a handler to a nonhandler in the form of milk or skim milk shall be classified (1) as Class I milk if such handler disposes of any skim milk and butterfat as milk for human consumption, and (2) as Class II milk if such nonhandler disposes of no skim milk and butterfat as milk for human consumption.

(c) Skim milk and butterfat disposed of by a handler to a nonhandler in the

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and orders have been met.

form of cream shall be classified (1) as Class I if such nonhandler disposes of any skim milk and butterfat as cream for human consumption and (2) as Class II milk if such nonhandler disposes of no skim milk and butterfat as cream for human consumption.

§ 954.43 *Allocation of skim milk and butterfat classified.* After determining the total pounds of skim milk and butterfat utilized in each class by each handler the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the pounds of skim milk in Class II the pounds of skim milk contained in milk, other than emergency milk, which were received from sources other than producers and new producers (including such handler's own production), and handlers who purchase or receive milk from producers or new producers: *Provided*, That if the pounds of skim milk so received are greater than the total pounds of skim milk classified as Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I.

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers and reported as used in that class.

(3) Subtract pro rata from the remaining pounds of skim milk in each class, the pounds of skim milk contained in emergency milk received by the handler.

(4) Subtract pro rata from the remaining pounds of skim milk in each class the pounds of skim milk contained in the milk of the handler's own farm production.

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, an amount equal to the difference shall be subtracted from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 954.50 *Class prices.* Each handler shall pay at the time and in the manner set forth in § 954.80 not less than the following prices per hundredweight adjusted by the butterfat differential provided in § 954.51.

(a) *Class I milk.* For each of the delivery periods prior to May 1, 1951, the Class II price for such delivery period plus $1.23. For each delivery period subsequent to May 1, 1951, the Class II price for such delivery period plus $1.00 during the months of May, June, July, and August, and plus $1.15 during all other months.

(b) *Class II milk.* For each delivery period the price which results from the following computation by the market administrator: (1) Determine the simple average of the daily wholesale selling prices per pound of Grade A (92-score) bulk creamery butter as reported by the United States Department of Agriculture for the Chicago market during the period from the 25th day of the month second preceding such delivery period through the 24th day of the month immediately preceding such delivery period; (2) multiply by 3.5; (3) add 25 percent thereof; and (4) add an additional 7/10 cent for each 1/10 cent that the average f. o. b. gross factory price per pound of nonfat dry milk solids for human consumption as reported to the United States Department of Agriculture by the American Dry Milk Institute, Inc., for the month second preceding such delivery period is above 7 cents.

§ 954.51 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to Class I or Class II is more or less than 3.5 percent there shall be added to the respective class price computer pursuant to § 954.50 for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.5 percent or subtracted for each one-tenth of 1 percent that the average butterfat content of such milk is below 3.5 percent an amount computed as follows: Multiply by 1.25 the simple average of the daily wholesale selling prices per pound of Grade A (92-score) bulk creamery butter as reported by the United States Department of Agriculture for the Chicago market during the period from the 25th day of the month second preceding such delivery period through the 24th day of the month immediately preceding such delivery period, and divide the result by 10.

§ 954.52 *Emergency price provisions.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk or product associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

APPLICATION OF PROVISIONS

§ 954.60 *Handlers who are also producers.* Sections 954.40 to 954.43, 954.50 to 954.52, 954.70 and 954.71, and 954.80 to 954.88 shall not apply to a handler who receives no milk from producers or new producers other than milk of his own production.

§ 954.61 *Receipts from handlers who are also producers.* In computing the value of milk received by a handler the market administrator shall consider as Class II milk any skim milk or butterfat whatsoever received from a handler who during the delivery period received no milk from producers or new producers other than milk of his own production. If the receiving handler has disposed of such skim milk or butterfat as Class I milk, the market administrator shall add to the total value computed for such handler pursuant to § 954.70 the difference between the value of such skim milk or butterfat at the Class II price and its value at the Class I price.

§ 954.62 *Receipts from sources other than producers or other handlers.* In computing the value of milk received by a handler the market administrator shall consider as Class II milk any skim milk or butterfat (other than that in emergency milk) received by a handler from sources other than producers, new producers or other handlers. If the receiving handler has disposed of such skim milk or butterfat as Class I milk the market administrator shall add to the total value computed for such handler pursuant to § 954.70 the difference between the value of such skim milk or butterfat at the Class II price and its value at the Class I price. This proviso shall not apply to skim milk and butterfat if used in Class I only to the extent that milk of producers was not available for such use.

DETERMINATION OF UNIFORM PRICE

§ 954.70 *Computation of the value of milk for each handler.* For each delivery period the market administrator shall compute the value of milk received by each handler from producers and new producers by multiplying the pounds of such milk in each class by the applicable class prices, adding together the resulting amounts and adding any amounts that may be applicable pursuant to §§ 954.51 and 954.52: *Provided*, That if the handler had overage of either skim milk or butterfat there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 954.43 by the applicable class prices.

§ 954.71 *Computation of uniform price.* For each delivery period the market administrator shall compute the uniform price per hundredweight of milk in the following manner:

(a) Combine in one total the respective values of milk, computed pursuant to § 954.70 for each handler who made the reports prescribed pursuant to § 954.30 and who has made the payments prescribed by § 954.80.

(b) Subtract from such sum an amount representing the value of all milk received by handlers from new producers, computed at the Class II price.

(c) Add an amount representing the unobligated cash balance in the producer-settlement fund exclusive of the amount retained in such fund pursuant to paragraph (e) of this section.

(d) Subtract if the average butterfat content of the net pooled milk of all handlers whose reports are included in this computation is greater than 3.5 percent, or add if such average butterfat content is less than 3.5 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 954.81.

(e) For each of the delivery periods of May, June, and July, subtract 8 percent of the resulting sum.

(f) For each of the delivery periods of October, November, and December, add one-third of the total amount subtracted pursuant to paragraph (e) of this section.

(g) Divide the resulting amount by the total hundredweight of milk of producers, not including new producers, received by handlers whose reports are included in this computation.

(h) Subtract not less than 4 cents nor more than 5 cents per hundredweight to provide a reserve against errors in reports and payments and delinquencies in payments by handlers. This result shall be known as the uniform price for milk containing 3.5 percent butterfat.

PAYMENTS

§ 954.80 *Time and method of payment.* On or before the 20th day after the end of each delivery period, each handler shall make payments as follows:

(a) To each producer from whom milk was received during the delivery period at not less than the uniform price per hundredweight computed pursuant to § 954.71 adjusted by the butterfat differential computed pursuant to § 954.81.

(b) To each new producer from whom milk was received during the delivery period at not less than the Class II price adjusted by the butterfat differential computed pursuant to § 954.81.

§ 954.81 *Butterfat differential to producers.* If any handler has received from any producer or new producer milk having an average butterfat content other than 3.5 percent, in making payments pursuant to § 954.80 there shall be added to the applicable price for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.5 percent or subtracted for each one-tenth of 1 percent that the average butterfat content of such milk is below 3.5 percent an amount equal to the butterfat differential computed pursuant to § 954.51.

§ 954.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 954.83 and 954.85, together with the amounts subtracted pursuant to § 954.71 (e) and out of which he shall make payments to handlers pursuant to §§ 954.84 and 954.85, as well as the amounts added in the computation of the uniform price pursuant to § 954.71 (b).

§ 954.83 *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator the amount by which the total of the milk received by him from producers and new producers during the delivery period is greater than the sum of the payments required to be made to producers and new producers by such handler pursuant to § 954.80.

§ 954.84 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of each delivery period the market administrator shall pay to each handler for payment to producers and new producers the amount, if any, by which the total value of milk received from producers and new producers by such handlers is less than the sum of the payments required to be made to producers and new producers by such handler pursuant to § 954.80. If at such time the balance in the producer-settlement fund, exclusive of the amount retained there pursuant to § 954.71 (e), is insufficient to make all payments required by this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler, who has not received on the 20th day after the end of each delivery period the balance of the payments due him from the market administrator, shall be deemed to be in violation of § 954.80 if he reduces his payments to producers and new producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 954.85 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to § 954.83, the market administrator shall promptly bill such handler for any unpaid amount and such handler, within 5 days after billing, shall make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to § 954.84, the market administrator shall make payment to such handler within 5 days. Whenever verification of the payment by a handler for milk received from producers or new producers discloses payment of less then is required by this section, the handler shall make up such payment to the producer or new producer not later than the time of making payments to producers and new producers next following such disclosure.

§ 954.86 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers and new producers pursuant to § 954.80, with respect to all milk received from each producer and new producer at a plant not operated by a cooperative association qualified under paragraph (b) of this section of which such producer or new producer is a member, shall deduct an amount not exceeding 3 cents per hundredweight (the exact amount to be determined by the market administrator subject to review by the Secretary) from the payments made direct to such producers and new producers, and such handler shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be expended by the market administrator for market information to and for verification of weights, sampling and testing of milk received from such producers and new producers.

(b) *Deductions with respect to members of a cooperative association.* In the case of milk of producers and new producers who are members of a cooperative association determined by the Secretary (1) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" and (2) to be actually performing the services described in paragraph (a) of this section, which is received at a plant not operated by such cooperative association, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made direct to such producers and new producers, pursuant to § 954.80, as are authorized by such producers and new producers and, on or before the 15th day after the end of each delivery period, pay on such deductions to such cooperative association.

§ 954.87 *Expense of administration.* As his pro rata share of the expense of the administration hereof, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, an amount not exceeding 4 cents per hundredweight with respect to all milk received by him during such delivery period from producers and new producers, including milk of such handler's own production, the exact amount to be determined by the market administrator: *Provided*, That each cooperative association which is a handler shall pay to the market administrator such pro rata share of expense of administration on only that milk of producers and new producers which is received at a plant operated by such association.

§ 954.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order, shall except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall

contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may within the two year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the two year period with respect to such obligation shall not begin to run until the first day of the calendar month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 954.90 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 954.91.

§ 954.91 *Suspension or termination.* The Secretary may suspend or terminate this order for any provision hereof whenever he finds this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 954.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations hereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 954.93 *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 954.100 *Market advisory committee—(a) Representation, selection, approval, and removal.* Subsequent to the effective date hereof, representatives of producers, handlers, and consumers may certify to the Secretary the selection of three individuals by each group for membership on the market advisory committee. Upon approval of the Secretary, the nine individuals so selected shall constitute the market advisory committee. Each member of the market advisory committee shall serve for a term of 1 year, unless sooner removed by the Secretary. After the market advisory committee has been constituted, vacancies in the membership thereof shall be filled in the same manner as the original selections were made.

(b) *Powers.* The market advisory committee shall have the power to recommend to the Secretary amendments hereto originating within such committee or submitted to it by interested parties after a study of the facts available to the market advisory committee.

§ 954.101 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

[7 CFR, Part 965]

[Docket No. AO 166-A 13]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING

Proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, Marketing Area.

Pusuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a hearing to be held at the Sinton Hotel, Fourth and Vine Streets, Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., January 8, 1951, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

1. Proposed by The Co-operative Pure Milk Association:

Delete § 965.51 (a) and (b) and substitute therefor the following:

(a) The price for Class I milk shall be the basic formula price plus $1.35 for the months of April through July and $1.65 for the months of August through March.

(b) The price for Class II milk shall be the basic formula price plus $0.90 for the months of April through July and $1.20 for the months of August through March.

2. Proposed by The Cincinnati Sales Association, Inc.:

Add to § 965.51 (c) the following proviso: *"Provided*, That for any of the months of October through February which is immediately preceded by a month in which, on a market-wide basis, the percentage of milk utilized in Classes I and II is in excess of 80 percent of producer milk, the price for Class III milk shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph plus 30 cents."

It has been represented that an emergency exists in the market with respect to these proposals. Accordingly, this hearing has been called for the purpose of receiving evidence with relation thereto.

Copies of this notice of hearing, the said order, as amended, and the said marketing agreement may be procured from the Market Administrator, 152 East Fourth Street, Cincinnati, Ohio, or from the Hearing Clerk, Room 1353, South Agriculture Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 21, 1951, at Washington, D. C.

[SEAL] JOHN I. THOMPSON, *Assistant Administrator.*

[7 CFR, Part 972]

[Docket No. AO 177-A9]

HANDLING OF MILK IN TRI-STATE MARKETING AREA

NOTICE OF HEARING

Proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tri-State Marketing Area.

Pursuant to the Agricultural Marketing Agreement of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a hearing to be held at the office of the market administrator, 64 State Street, Gallipolis, Ohio, beginning at 10:00 a. m., e. s. t., January 10, 1951, for the purpose of receiving evidence with respect to a proposed amendment hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Tri-State Marketing Area. This proposed amendment has not received the approval of the Secretary of Agriculture.

Proposed by Scioto County Cooperative Milk Producers Association; Huntington Interstate Milk Producers Association; Marietta Cooperative Milk Producers Association; and Athens Milk Sales, Inc.:

Add to the first proviso contained in § 972.5 (b) immediately after the word "January," the following: "February and March."

It has been represented that an emergency exists in the market, with respect to this proposal. Accordingly, this hearing has been called for the purpose of receiving evidence with respect to the economic and emergency conditions with relation thereto.

Copies of this notice of hearing, the said order, as amended, and the said marketing agreement may be procured from the Market Administrator, 64 State Street, Gallipolis, Ohio, or from the Hearing Clerk, Room 1353, South Agriculture Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 2, 1951, at Washington, D. C.

[SEAL] JOHN I. THOMPSON, *Assistant Administrator.*

ADMINISTRATOR OF CIVIL AERONAUTICS

DELEGATION OF AUTHORITY WITH RESPECT TO SECURITY CONTROL OF AIR TRAFFIC

Pursuant to section 1201 of the Civil Aeronautics Act of 1938, as amended, (64 Stat. 825; 49 U. S. C. 701) the President has, by Executive Order No. 10197, dated December 20, 1950, directed the Secretary of Commerce to exercise by rule, regulation or order, the powers, duties and responsibilities authorized in section 1203 of the Civil Aeronautics Act of 1938, as amended, respecting the security control of air traffic.

Effective October 24, 1950, the powers, duties and responsibilities of the Secretary of Commerce as authorized in section 1203 of the Civil Aeronautics Act of 1938, as amended by the act of September 9, 1950 (Public Law 778, 81st Congress), were delegated to the Administrator of Civil Aeronautics. The Administrator was further authorized to redelegate this authority and to prescribe necessary limitations, restrictions, and conditions on the exercise of such authority.

[SEAL] CHARLES SAWYER, *Secretary of Commerce.*

[F. R. Doc. 51-80; Filed, Jan. 3, 1951; 8:46 a. m.]

POST OFFICE DEPARTMENT

CERTAIN OFFICIALS IN BUREAU OF ACCOUNTS AND BUREAU OF FINANCE

DELEGATIONS OF AUTHORITY WITH RESPECT TO SIGNING CHECKS OR WARRANTS WITHDRAWING FUNDS FROM CERTAIN SYMBOL ACCOUNTS

Pursuant to authority delegated to the Comptroller, Bureau of Accounts, by paragraph (j) (1) of § 1.9, as amended (15 F. R. 8165), the Comptroller, Bureau of Accounts, has delegated authority to the following officials in the Bureau of Accounts to countersign, in name of the Comptroller, all checks or warrants withdrawing funds from Symbol Account Nos. 47001 and 48050.

Assistant Comptroller.
Director, Division of Accounts.
Chief, Accounting Section, Postal Accounts Division.
Assistant Chief, Accounting Section, Postal Accounts Division.
Chief, Electrical Accounting Section, Postal Accounts Division.
Chief, Miscellaneous Section, Postal Accounts Division.
Assistant Chief, Miscellaneous Section, Postal Accounts Division.

Pursuant to authority delegated to the Assistant Postmaster General in Charge of the Bureau of Finance, by paragraph (a) of § 1.12, as amended (15 F. R. 8165), the Assistant Postmaster General in Charge of the Bureau of Finance has delegated authority to the Executive Director of the Bureau of Finance, the Assistant Executive Directors, Bureau of Finance, and the Director of the Division of Money Orders to sign, on behalf of and in the name of the Postmaster General, all checks or warrants withdrawing funds from symbol 48050. The Assistant Postmaster General in Charge of the Bureau of Finance also has delegated authority to the Executive Director of the Bureau of Finance, the Assistant Executive Directors, Bureau of Finance, and the Director of the Division of Finance to sign, on behalf of and in the name of the Postmaster General, all checks or warrants withdrawing funds from symbol 47001.

[SEAL] J. M. DONALDSON, *Postmaster General.*

CIVIL AERONAUTICS BOARD

[Docket No. 3758 et al.]

ROSCOE CHARTER SERVICE ET AL.; ADDITIONAL SERVICE TO STATE OF KANSAS

NOTICE OF HEARING

In the matter of the applications of Roscoe Charter Service and other applicants for the issuance or amendment of certificates of public convenience and necessity.

Pursuant to the Civil Aeronautics Act of 1938, as amended, notice is hereby given that a hearing in the above-entitled proceeding is assigned to be held on January 8, 1951, at 10:00 a. m., e. s. t., in Room E-214, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner James S. Keith.

Without limiting the scope of the issues presented in said proceeding, particular attention will be directed to the following matters and questions:

1. Does the public convenience and necessity require the establishment of the air transportation proposed by the applicants?

2. Are the applicants fit, willing and able to perform such transportation?

3. If the public convenience and necessity require such proposed transportation and a selection of carriers is necessary, which applicant or applicants meeting the issues above are required by the public interest to perform the services to be authorized?

Notice is further given that any person other than the parties and intervenors of record as of December 28, 1950, desiring to be heard in this proceeding may file with the Board, on or before January 8, 1951, a statement setting forth the issues of fact and law raised by this proceeding which he desires to controvert and such person may appear and participate in the hearing in accordance with § 302.6 (a) of the procedural regulations under Title I of the Civil Aeronautics Act, as amended.

Dated at Washington, D. C., December 28, 1950.

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS, *Acting Secretary.*

[F. R. Doc. 51-78; Filed, Jan. 3, 1951; 8:46 a. m.]

[Docket No. 2724]

COLONIAL AIRLINES, INC., FINAL MAIL RATE

NOTICE OF ORAL ARGUMENT

In the matter of the compensation for the transportation of mail by aircraft,

the facilities used and useful therefor, and the services connected therewith, of Colonial Airlines, Inc., over routes 71, 71–F, 72, and 72–F.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, particularly sections 406 and 1001 of said act, that oral argument in the above-entitled proceeding is assigned to be held on January 23, 1951, at 10:00 a. m., e. s. t., in room 5042, Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before the Board.

Dated at Washington, D. C., December 28, 1950.

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

ECONOMIC STABILIZATION AGENCY

[Gen. Order 1]

FUNCTIONS WITH RESPECT TO PRICE STABILIZATION TO BE PERFORMED BY THE DIRECTOR OF PRICE STABILIZATION

By virtue of the authority vested in the Economic Stabilization Administrator by Executive Order 10161 (15 F. R. 6105), it is hereby determined as follows:

SECTION 1. That beginning on this 2d day of January, 1951, and continuing thereafter until otherwise determined, the Director of Price Stabilization shall perform all the functions with respect to price stabilization which were delegated to the Economic Stabilization Administrator by Executive Order 10161 (15 F. R. 6105).

SEC. 2. All functions delegated or assigned by or pursuant to the provisions of this order shall be performed by the Director of Price Stabilization, subject to such general supervision, direction and control as the Administrator deems expedient.

SEC. 3. The term "functions" as used in section 1 hereof includes powers, duties, authority, responsibilities, and discretion.

ALAN VALENTINE,
Economic Stabilization Administrator.

JANUARY 2, 1951.

FEDERAL COMMUNICATIONS COMMISSION

ANTENNA STRUCTURES

NOTICE TO APPLICANTS CONCERNING CONSTRUCTION, PAINTING AND LIGHTING

DECEMBER 22, 1950.

Part 17 of the rules, issued today,[1] is designed to aid applicants in planning their proposed antenna structures in a manner which will result in a minimum of difficulty from the point of view of safety to air navigation, and should, in many instances, result in more expeditious processing of applications considered by the Commission. The rules prescribe the conditions under which proposals for antenna structures will be referred to the Air Coordinating Committee for aeronautical studies and provides specifications for the painting and lighting of antenna structures. The Air Coordinating Committee (ACC) was created by Executive order to provide for the development and coordination of aviation policies. The ACC group which will make the aeronautical study contemplated by Part 17 is the Airspace Subcommittee. This group coordinates proposals by government agencies, private individuals, and industry which may involve conflict in the navigable airspace. The Airspace Subcommittee functions through the medium of regional groups located in New York, Atlanta, Chicago, Fort Worth, Kansas City, Los Angeles, Seattle, Anchorage and Honolulu. These regional subcommittees are composed of experts in the aeronautical field, familiar with the requirements of air safety in their area, who will provide local coordination of radio tower application problems. The Subcommittees are located in the Civil Aeronautics Administration's regional offices listed at the end of this notice.

The CAA regional offices and the commanding officers of nearby Department of Defense air bases will be able to provide assistance to applicants in applying the criteria and in the selection of sites which will satisfy the requirements of the criteria.

Applicants will find the following charts and publications of assistance to them in determining where their proposed antenna sites lie with respect to airport and approach areas.

(1) Sectional Aeronautical Charts.
(2) Location Aeronautical Charts.
(3) Instrument Approach and Landing Charts.
(4) Radio Facility Charts.
(5) Flight Information Manual.
(6) Airmans Guide. (By-monthly publication.)

Except for the Flight Information Manual and the Airmans Guide, these charts may be purchased from the United States Coast and Geodetic Survey, Department of Commerce, Washington 25, D. C. The Flight Information Manual and the Airmans Guide may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

DIRECTORY OF CAA REGIONAL OFFICES

First Region: Regional Administrator, Civil Aeronautics Administration, International Airport, Jamaica, Long Island. Region includes: Connecticut, Delaware, District of Columbia, Maine, Pennsylvania, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Virginia, and West Virginia.

Second Region: Regional Administrator, Civil Aeronautics Administration, 84 Marietta Street NW., Atlanta 3, Ga. Region includes: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee (Puerto Rico and Virgin Islands).

Third Region: Regional Administrator, Civil Aeronautics Administration, Chicago International Airport, Park Ridge, Ill. Region includes: Illinois, Indiana, Kentucky, Michigan, Minnesota, North Dakota, Ohio and Wisconsin.

Fourth Region: Regional Administrator, Civil Aeronautics Administration, Post Office Box 1689, Fort Worth 1, Tex. Region includes: Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

Fifth Region: Regional Administrator, Civil Aeronautics Administration, City Hall Building, Kansas City 6, Mo. Region includes: Colorado, Iowa, Missouri, Kansas, Nebraska, South Dakota, and Wyoming.

Sixth Region: Regional Administrator, Civil Aeronautics Administration, 5651 West Manchester Avenue, Los Angeles 45, Calif. Region includes: Arizona, California, Nevada, and Utah.

Seventh Region: Regional Administrator, Civil Aeronautics Administration, Post Office Box 3224, Seattle 14, Wash. Region includes: Idaho, Montana, Oregon, and Washington.

Eighth Region: Regional Administrator, Civil Aeronautics Administration, P. O. Box 440, Anchorage, Alaska. Region includes: Territory of Alaska.

Ninth Region: Regional Administrator, Civil Aeronautics Administration, P. O. Box 4009, Honolulu 12, T. H. Region includes: Territory of Hawaii.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary

[F. R. Doc. 51–118; Filed, Jan. 3, 1951; 8:52 a. m.]

ANTENNA STRUCTURES

PROCEDURE FOR SPECIAL AERONAUTICAL STUDIES

DECEMBER 22, 1950.

On December 13, 1950, the Commission adopted its new Part 17[1] of the rules and regulations concerning the construction, lighting and marking of antenna structures. The rules prescribe the circumstances under which proposals for antenna structures will be referred to the Air Coordinating Committee for aeronautical study. The following procedure, set forth for the information of interested persons, will be followed by the ACC in the conduct of aeronautical studies:

1. All applications requiring aeronautical study to be submitted by the FCC to the appropriate Regional ACC/ASP Subcommittee.

2. The Secretariat of the Regional Airspace Committee will endeavor to obtain informal clearance. If informal clearance is obtained, the case will be forwarded with the clearance to the FCC in Washington, D. C.

NOTE: If a single objection is interposed, either by a voting member or liaison representative, the case will be processed in the manner outlined in the succeeding paragraphs.

3. If informal clearance is not obtained, the case will be placed on the agenda for consideration at the next meeting of the Regional Airspace Subcommittee.

[1] See F. R. Document 51–120, in Title 47, Chapter I, *supra*.

4. When the case is considered by the Regional Subcommittee:

a. The applicant will be expected to appear at the meeting and explain in full detail the reasons for his choice of site and the necessity for the construction of the proposed tower.

b. Those having objections will be required to appear in person and explain in detail the reasons for their objections (objectors should appreciate that, in event of failure to reach agreement, they should be prepared to appear as a witness at any subsequent proceedings and fully justify their objections).

5. The Regional ASP Subcommittee will submit its recommendations to the Washington ASP Subcommittee and will simultaneously send copies of such findings directly to the FCC with the understanding that the FCC will withhold action thereon for a period of nine days after receipt by the Secretary of the Washington Airspace Subcommittee. Unless otherwise advised by ASP, before the expiration of this period, the FCC will consider that ACC unanimously approved the findings of the Regional Subcommittee.

6. The Washington ASP Subcommittee will notify the FCC direct of its action on all cases considered even though the action to be reported was not arrived at by unanimous decision of the Subcommittee.

7. The FCC to notify the applicant of approval or disapproval or if requested by the applicant, the current status of the pending application.

8. It will be further understood and agreed if either the Regional Subcommittee in its initial findings, or the ASP Subcommittee in its review thereof, recommends disapproval of the application, reasons therefor must be given.

9. Whenever ASP reports unanimous agreement regarding a radio tower application, it may be considered by the FCC as an ACC decision; however, findings which indicate a lack of agreement among the ASP members may also be submitted to the FCC with the understanding that such findings only represent the separate views of the member agencies.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51–119; Filed, Jan. 3, 1951; 8:52 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G–1565]

EQUITABLE GAS CO.

NOTICE OF APPLICATION

DECEMBER 28, 1950.

Take notice that on December 19, 1950, Equitable Gas Company (Applicant), a Pennsylvania corporation having its principal office in Pittsburgh, Pennsylvania, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas facilities in Union Township, Washington County, Pennsylvania:

A new compressor station named "New Denniston Station" consisting of 3 gas engine driven 1,100 hp. compressor units and connecting pipelines together with housing facilities, a glycol dehydration plant, gas scrubbers, and auxiliary equipment consisting of two 150 kilowatt gas engine driven generators.

Applicant states that the new compressor station will replace the existing Denniston Compressor Station located near the proposed site of the new station for compression of natural gas into Applicant's Finleyville, Tepe and Bunola storage pools; that the new station will have a compression capacity of 31,000 Mcf daily with an inlet pressure of 185 psig and a discharge pressure of 1000 psig, and a compression capacity of 45,000 Mcf daily with an inlet pressure of 3000 psig and a discharge pressure of 1000 psig.

The application recites that the Tepe and Finleyville storage pools have been repressured to 850 and 950 psi respectively and Bunola to only 395 psi; that to increase pressure in the Bunola pool to 975 psi approximately 13,000,000 Mcf of gas will be required, and for which purpose the new facilities are proposed; that with 13,000,000 Mcf in storage the maximum daily delivery capacity of Bunola will be approximately 80,000 Mcf daily. Increases in demand upon Applicant's existing system necessitate the new facilities according to the application.

The estimated total cost of the new compressor station and connecting lines will be approximately $1,045,000, a substantial part of which, Applicant expects to finance from funds available from company operation, and the balance, subject to regulatory approval, from the sale of securities in an amount and type not yet determined.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of January 1951. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51–68; Filed, Jan. 3, 1951; 8:45 a. m.]

[Docket No. G–1563]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

DECEMBER 28, 1950.

Take notice that on December 18, 1950, Cities Service Gas Company (Applicant), a Delaware corporation with its principal place of business in Oklahoma City, Oklahoma, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described natural gas facilities:

(1) A meter and regulator setting and approximately 2 miles of 2-inch gas pipeline from a point on Applicant's Tecumseh 8-inch line to a point in Jefferson County, Kansas, near the Town of Meriden.

(2) A meter and regulator setting and approximately 0.75 mile of 2-inch gas pipeline from a point on Applicant's Ottawa 12-inch line to a point in Cass County, Missouri, near the Town of Cleveland.

The application recites that the facilities will be utilized in connection with the sale of gas by Applicant to The Gas Service Company for resale to customers of The Gas Service Company in and about the Towns of Meriden and Cleveland; that estimated peak day sales will be 25 Mcf in Meriden to 80 domestic customers and 9 Mcf in Cleveland to 30 domestic customers; and that estimated annual sales will total 7,200 Mcf in Meriden and 2,700 Mcf in Cleveland.

The estimated total over-all capital cost of the proposed facilities will be $14,255 which will be paid by cash contribution from The Gas Service Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rule of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 17th day of January 1951. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51–69; Filed, Jan. 3, 1951; 8:45 a. m.]

[Docket No. G–1562]

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATION

DECEMBER 28, 1950.

Take notice that Arkansas Louisiana Gas Company (Applicant), a Delaware corporation of Shreveport, Louisiana, filed on December 15, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the purchase and acquisition from Skelly Oil Company, and Sunray Oil Corporation of approximately 24,278 feet of 8⅝ inch O. D. and 24,353 feet of 4-inch O. D. pipeline extending from points in the NW¼ of Section 5, T. 19 N., R. 6 W., in the Athens field to a point on Applicant's 20-inch line "F" in Section 29, T. 19 N., R. 6 W., all in Claiborne Parish, Louisiana, or in the alternative, that the Commission issue its order that the proposed purchase of said facilities is not subject to the jurisdiction of the Commission under the provisions of the Natural Gas Act.

The application recites that the proposed purchase of facilities is to be made in accordance with the terms of an agreement which Applicant entered into on October 31, 1950, with Skelly Oil Company, Sunray Oil Corporation, Power Oil Company, and M. A. Halsey for the purchase of gas produced in the Athens field for a period beginning November 1, 1950, and ending December 21, 1972. Under this agreement Applicant agreed to purchase and acquire the facilities used to deliver said gas at a price of

$89,819.40. In part payment Applicant has agreed to sell and deliver to the oil companies metering equipment owned by Applicant, located at certain producing wells, at a price of $40,705.00.

Protests or petitfons to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of January 1951. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-70; Filed, Jan. 3, 1951; 8:45 a. m.]

GENERAL SERVICES ADMINISTRATION

HOUSING AND HOME FINANCE ADMINISTRATOR

DELEGATION OF AUTHORITY WITH RESPECT TO ALLEVIATION OF DISASTER CAUSED BY RECENT FLOODS IN AREA IN AND NEAR CITY OF RENO, NEV.

1. Whereas, the President on December 16, 1950, found pursuant to Public Law 759, 81st Congress, approved September 6, 1950, that the hardship and suffering in the City of Reno and the surrounding area, including the Town of Sparks in the State of Nevada, caused by the flooding of the Truckee River and its tributaries, are of sufficient severity and magnitude as to warrant emergency assistance by the Federal Government and designated the General Services Administration, acting through the Community Facilities Service of the Housing and Home Finance Agency, as the Agency of the Government authorized to expend funds to alleviate hardship and suffering caused thereby, and to enter into agreements with the Governor of the State of Nevada giving assurance as required by law, of the expenditure of a reasonable amount of the funds of the Government of such State, local governments therein, or other agencies, for the same or similar purposes with respect to such catastrophe, and authorized the Administrator of General Services to delegate such authority as he deems necessary.

Now, therefore, the Administrator of General Services hereby delegates to the Housing and Home Finance Administrator, acting through the Community Facilities Service, an organizational unit within the Office of the Administrator of the Housing and Home Finance Agency, the following authorizations:

Pursuant to Public Law 759, 81st Congress, and the delegation of authority of the President thereunder dated December 16, 1950, the authority to expend the sum of $75,000 which is hereby allocated, which sum may be expended in alleviating damage and suffering in the City of Reno and surrounding areas, including the Town of Sparks in the State of Nevada, occasioned by the disaster, and the authority to enter into agreements with the Governor of the State of Nevada giving assurance as required by law of the expenditure of a reasonable amount of State or local funds in conjunction with the expenditure of the funds hereby allocated. The funds hereby allocated shall be expended in accordance with the provisions of the aforesaid law for the making of emergency repairs to sewer lines and treatment plant, removing debris and sand bags, cleaning main drainage ditches, street and sidewalk repair and cleanup, and for necessary nondepartmental administrative and travel expense; however, no part of such funds shall be used for departmental personal services or for permanent construction. It is desirable that all possible efforts of the State and local agencies and the American National Red Cross be exercised prior to any expenditure from this allocation.

2. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration.

3. Grants or other expenditures of funds allocated from the Emergency Fund for the President shall be accounted for as expenditures of the General Services Administration under allotments established by it within the scope of this delegation.

4. This delegation of authority shall be effective as of December 16, 1950.

Dated: December 19, 1950.

JESS LARSON,
Administrator.

Consented to:

RAYMOND M. FOLEY,
Administrator, Housing and Home Finance Agency.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25709]

CLASS AND COMMODITY RATES OF ATLANTIC AND DANVILLE RAILWAY

APPLICATION FOR RELIEF

DECEMBER 29, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Atlantic and Danville Railway Company for itself and on behalf of connecting carriers.

Commodities involved: Class and commodity rates.

Between: Stations on the Atlantic and Danville Railway and other points in the United States.

Grounds for relief: Competition with rail carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25711]

ACETALDEHYDE FROM OKLAHOMA AND TEXAS TO ST. LOUIS, MICH.

APPLICATION FOR RELIEF

DECEMBER 29, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariffs I. C. C. Nos. 3752 and 3919.

Commodities involved: Acetaldehyde, in tank-car loads.

From: Points in Oklahoma and Texas.

To: St. Louis, Mich.

Grounds for relief: Circuitous routes and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3752, Supp. 527. D. Q. Marsh's tariff I. C. C. No. 3919, Supp. 19.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 25715]

CANNED GOODS FROM NEW ORLEANS, LA., TO MONTGOMERY, ALA.

APPLICATION FOR RELIEF

DECEMBER 29, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1166.

Commodities involved: Canned goods, carloads.

From: New Orleans, La., and points grouped therewith.

To: Montgomery, Ala.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1166, Supp. 26.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary

relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[4th Sec. Application 25716]

LESS THAN CARLOAD FREIGHT IN CONTAINERS TO OR FROM POINTS IN ARKANSAS

APPLICATION FOR RELIEF

DECEMBER 29, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Missouri Pacific Railroad Company for itself and on behalf of Doniphan, Kensett & Searcy Railway.

Commodities involved: Less than carload freight in containers furnished by the carrier.

Between: Memphis, Tenn., and stations in Arkansas.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates: Mo. Pac. RR. tariff I. C. C. No. A-10199.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2525]

CENTRAL PUBLIC UTILITY CORP. AND CONSOLIDATED ELECTRIC AND GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 27th day of December A. D. 1950.

Central Public Utility Corporation ("Central Public"), a registered holding company, and Consolidated Electric and Gas Company ("Consolidated"), a registered holding company and a direct subsidiary of Central Public, having filed a joint application-declaration pursuant to sections 9, 10 and 12 of the act and Rules U-8, U-20, U-24 and U-43 thereunder with respect to the following proposed transactions:

Consolidated owns directly all of the capital stock of Carolina Coach Company ("Carolina"), a North Carolina corporation engaged in intrastate and interstate motor bus transportation in North Carolina and Virginia. Carolina in turn owns all of the capital stock of Carolina Coach Company of Virginia ("Virginia"), a Virginia corporation also operating motor busses in North Carolina and Virginia. It is proposed that Virginia be merged into Carolina and that the merged company become incorporated under the laws of the State of Virginia and have the same capital structure that Carolina now has, namely, 8,300 shares of no par value $7 preferred stock, 2,500 shares of no par value Class A common stock and 5,000 shares of no par value Class B common stock. The filing states "* * * that subject to all regulatory action having then been taken, it [i. e., Central Public] will, within six months after the acquisition thereof, change the described shares [of the merged company], or cause the same to be changed, into a single class of common stock."

The Interstate Commerce Commission has issued an order approving the proposed merger and reserving decision with respect to the accounting treatment of the proposed transactions on the books of Carolina.

Said application-declaration having been duly filed and notice of said filing having been duly given in the form and manner directed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice or otherwise, and not having ordered a hearing thereon and the Commission deeming it appropriate in the public interest and in the interests of investors and consumers to grant and permit such application-declaration to become effective;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the said act, that said application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

[F. R. Doc. 51-72; Filed, Jan. 3, 1951; 8:46 a. m.]

[File Nos. 70-2536, 70-2537]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 28th day of December A. D. 1950.

In the matter of Pennsylvania Gas & Electric Corporation, North Penn Gas Company, Allegany Gas Company, File No. 70-2536; New York State Natural Gas Corporation, File No. 70-2537.

Pennsylvania Gas & Electric Corporation, a registered holding company, North Penn Gas Company ("North Penn"), a registered holding company and a public utility subsidiary of Pennsylvania Gas & Electric Corporation, and Allegany Gas Company ("Allegany"), also a registered holding company and a direct public utility subsidiary of North Penn, having filed a declaration pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 (the "act"), and Rule U-44 thereunder, and New York State Natural Gas Corporation ("New York Natural"), a subsidiary of Consolidated Natural Gas Company, also a registered holding company, having filed an application with this Commission pursuant to sections 9 (a) (1) and 10 of the act with respect to the following proposed transactions:

Allegany proposes to sell, and New York Natural proposes to purchase certain properties located in Potter County, Pennsylvania, and Steuben County, New York, within the Harrison Gas Field, consisting of approximately 588 acres of oil and gas leaseholds and fee estates, 5½ gas wells, approximately 31,500 feet of pipelines and other production and field gathering facilities, for a cash consideration of $250,000 if the closing is effected prior to January 1, 1951, or $280,000 if the closing is effected on or subsequent to January 1, 1951. According to the filings, the provision for a lower price prior to January 1, 1951 has been agreed upon because the capital gain to Allegany from the proposed sale, if realized in 1950, can be entirely offset in a consolidated tax return of Pennsylvania Gas & Electric Corporation by credits for capital losses heretofore sustained.

The Pennsylvania Public Utility Commission which, according to the filings, is the only State Commission having jurisdiction over the proposed transactions, has issued an order authorizing the proposed sale.

Said declaration having been filed on November 28, 1950, said application having been filed on December 1, 1950, and an amendment to the declaration having been filed on December 21, 1950; and

Notice of said filings having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said declaration, as amended, and with respect to said application within the period specified in said notice or otherwise, and not having ordered a hearing thereon and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit such amended declaration to become effective and to grant such application:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that the said amended declaration and the application be, and the same hereby are, granted and permitted to become effective forthwith, subject, however, to the terms and conditions prescribed by Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order 16314]

JOSEF JEKA ET AL.

In re: Bank accounts owned by Josef Jeka, Herman Rinck, Ignaz Erhard and Josef Scherbel and debts owing to Friedrich Jaich, and the personal representatives, heirs, next of kin, legatees and distributees of Friedrich Neumann. F-28-987, F-28-5566, F-28-30292, F-28-30293, F-28-30294, F-28-30295.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ignaz Erhard, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That Josef Jeka, Herman Rinck, Josef Scherbel, Friedrich Jaich and the personal representatives, heirs, next of kin, legatees and distributees of Friedrich Neumann, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation of Hoboken Bank for Savings, Washington Street, Corner First Street, Hoboken, New Jersey, arising by reason of a savings account, account number 225744, entitled "Society for the Care of German Seamen in the Port of New York, Trustee for Josef Jeka," maintained at said bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Josef Jeka, the aforesaid national of a designated enemy country (Germany);

4. That the property described as follows: That certain debt or other obligation of Hoboken Bank for Savings, Washington Street, corner First Street, Hoboken, New Jersey, arising by reason of a savings account, account number 225743, entitled "Society for the Care of German Seamen in the Port of New York, Trustee for Herman Rinck," maintained at said bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Herman Rinck, the aforesaid national of a designated enemy country (Germany);

5. That the property described as follows: That certain debt or other obligation of Hoboken Bank for Savings, Washington Street, corner First Street, Hoboken, New Jersey, arising by reason of a savings account, account number 213245, entitled "Society for the Care of German Seamen in the Port of New York, Trustee for Ignaz Erhard," maintained at said bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Ignaz Erhard, the aforesaid national of a designated enemy country (Germany);

6. That the property described as follows: That certain debt or other obligation of Hoboken Bank for Savings, Washington Street, Corner First Street, Hoboken, New Jersey, arising by reason of a savings account, account number 225742, entitled "Society for the Care of German Seamen in the Port of New York, Trustee for Josef Scherbel," maintained at said bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Josef Scherbel, the aforesaid national of a designated enemy country (Germany);

7. That the property described as follows: That certain debt or other obligation of the Society for the Care of German Seamen in the Port of New York, 64 Hudson Street, Hoboken, New Jersey, in the amount of $119.54, constituting a portion of the funds on deposit with Hoboken Bank for Savings, Washington Street, Corner First Street, Hoboken, New Jersey, in a savings account, account number 229912, entitled "Society for the Care of German Seamen in the Port of New York, Special Fund," and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Friedrich Jaich, the aforesaid national of a designated enemy country (Germany);

8. That the property described as follows: That certain debt or other obligation of the Society for the Care of German Seamen in the Port of New York, 64 Hudson Street, Hoboken, New Jersey, in the amount of $70.00, constituting a portion of the funds on deposit with Hoboken Bank for Savings, Washington Street, Corner First Street, Hoboken, New Jersey, in a savings account, account number 229912, entitled "Society for the Care of German Seamen in the Port of New York, Special Fund," and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the personal representatives, heirs, next of kin, legatees and distributees of Friedrich Neumann, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

9. That to the extent that the persons named in subparagraphs 1 and 2 hereof and the personal representatives, heirs, next of kin, legatees and distributees of Friedrich Neumann are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 8, 1950.

For the Attorney General.

[Vesting Order 16327]

ALFRED NEUMANN

In re: Debt owing to Alfred Neumann. F-28-13222-C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Alfred Neumann, whose last known address is Hamburg, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: All rights and interests of Alfred Neumann in, to and under marine and war risk policies issued by the Fireman's Fund Insurance Company, 401 California Street, San Francisco 20, California, covering shipments aboard S/S "Portland" arising on account of port of refuge expenses incurred by said vessel, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 8, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

BERLINER KRAFT UND LICHT (BEWAG) AKTIENGESELLSCHAFT

In re: Bank accounts owned by Berliner Kraft und Licht (Bewag) Aktiengesellschaft, also known as Berlin Power and Light Corporation. F-28-4901-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Berliner Kraft und Licht (Bewag) Aktiengesellschaft, also known as Berlin Power and Light Corporation, the last known address of which is 22 Schiffbauerdamm, Berlin, N. W. 7, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of Dillon, Read & Co., 28 Nassau Street, New York, New York, arising out of a Coupon Deposit Account, entitled "Berlin City Electric Co., Inc., 6 percent Debentures due 1955", maintained with the aforesaid Dillon, Read & Co., and any and all rights to demand, enforce and collect the same,

b. That certain debt or other obligation of Dillon, Read & Co., 28 Nassau Street, New York, New York, arising out of a Coupon Deposit Account, entitled "Berlin City Electric Co., Inc., 6½ percent Debentures due 1951", maintained with the aforesaid Dillon, Read & Co., and any and all rights to demand, enforce and collect the same,

c. That certain debt or other obligation of Dillon, Read & Co., 28 Nassau Street, New York, New York, arising out of a Coupon Deposit Account, entitled "Berlin City Electric Co. Inc. 6½ percent Debentures due 1959", maintained with the aforesaid Dillon, Read & Co., and any and all rights to demand, enforce and collect the same,

d. That certain debt or other obligation of Dillon, Read & Co., 28 Nassau Street, New York, New York, arising out of a Sinking Fund Account, entitled "Berlin City Electric Co. Inc., 6½ percent Debentures due 1951", maintained with the aforesaid Dillon, Read & Co., and any and all rights to demand, enforce and collect the same, and

e. That certain debt or other obligation of Dillon, Read & Co., 28 Nassau Street, New York, New York, arising out of a Sinking Fund Account, entitled "Berlin City Electric Co. Inc., 6½ percent Debentures due 1959", maintained with the aforesaid Dillon, Read & Co., and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Berliner Kraft und Licht (Bewag) Aktiengesellschaft, also known as Berlin Power and Light Corporation, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

EMMY TERLINDEN ET AL.

In re: Voting trust certificates owned by Emmy Terlinden, Margarete Klose, and by Franz Vogel and Julia Vogel. F-28-25047-D-1, F-28-26008-D-1, F-28-26009-D-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Emmy Terlinden, Margarete Klose, Franz Vogel and Julia Vogel, whose last known addresses are Germany, are residents of Germany and are nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. All rights and interests evidenced by trust certificate No. 506, for two (2) shares of no par value capital stock of Garfield Arms Inc., 135 South La Salle Street, Chicago, Illinois, registered in the name of Emmy Terlinden, together with all declared and unpaid dividends thereon and all rights in, to and under said voting trust certificate,

b. All rights and interests evidenced by trust certificate No. 333 for one (1) share of no par value capital stock of 5240 Sheridan Road Liquidating Trust, registered in the name of Margarete Klose, together with all declared and unpaid dividends thereon and all rights in, to and under said trust certificate, and

c. All rights and interests evidenced by trust certificate No. 532 for five (5) shares of no par value capital stock of Sheridan Argyle Hotel Co., registered in the names of Franz Vogel and Julia Vogel, jointly, together with all declared and unpaid dividends thereon, and all rights in, to and under said trust certificate,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

[Vesting Order 16340]

MARIE LOUISE WILLENBROCK

In re: Securities owned by Marie Louise Willenbrock. F-28-28496-D-1; D-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Marie Louise Willenbrock, who on or since the effective date of Execu-

tice Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Ten (10) shares of $50.00 par value capital stock of The Pennsylvania Railroad Company, 1617 Pennsylvania Boulevard, Philadelphia, Pennsylvania, a corporation organized under the laws of Pennsylvania, evidenced by certificates numbered N 408993 and P 776428, for 4 and 6 shares respectively, registered in the name of Marie Louise Willenbrock, and presently in the custody of Percy H. Clark, 1500 Walnut Street, Philadelphia 2, Pennsylvania, together with all declared and unpaid dividends thereon, and

b. Two (2) Declaration of Trust certificates issued by City Bank Farmers Trust Company, 22 William Street, New York 15, New York, pursuant to a Plan of Uniform Trusts, Series B, one certificate numbered 690, dated May 7, 1930, in the face value of $5,000.00 and the other certificate numbered 1220, dated November 8, 1930, in the face value of $1,000.00, said certificates registered in the name of Marie Louise Willenbrock, and presently in the custody of Percy H. Clark, 1500 Walnut Street, Philadelphia 2, Pennsylvania, together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Marie Louise Willenbrock, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 8, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16346]

AMALIA ROHDE

In re: Rights of Amalia Rohde under insurance contract. File No. F-28-22717-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Amalia Rohde, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 538 524, issued by the New York Life Insurance Company, New York, New York, to Wilhelm Rohde, together with the right to demand, receive and collect said net proceeds,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 11, 1950.

For the Attorney General.

MARILYN D. HELMHOLZ

In re: Rights of Marilyn D. Helmholz also known as Marilyn Helmholz under contracts of insurance. Files Nos. F-28-29631-H-1 and F-28-29631-H-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Marilyn D. Helmholz also known as Marilyn Helmholz, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Marilyn D. Helmholz, also known as Marilyn Helmholz, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the net proceeds due or to become due unde a contract of insurance evidenced by Policy No. 116 617 742 issued by the Metropolitan Life Insurance Company, New York, New York, to Marilyn D. Helmholz, and under a contract of insurance evidenced by Policy No. 101 802 774 issued by the Metropolitan Life Insurance Company, New York, New York, to Marilyn Helmholz, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, Marilyn D. Helmholz, also known as Marilyn Helmholz or the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Marilyn D. Helmholz, also known as Marilyn Helmholz, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Marilyn D. Helmholz, also known as Marilyn Helmholz, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

VOLUME 16 NUMBER 3

Washington, Friday, January 5, 1951

TITLE 3—THE PRESIDENT

PROCLAMATION 2916

ALLOCATING TARIFF QUOTA ON CERTAIN PETROLEUM PRODUCTS UNDER THE VENEZUELAN TRADE AGREEMENT

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

1. WHEREAS (pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 (a) of the Tariff Act of June 12, 1934 (ch. 474, 48 Stat. 943), the period for the exercise of the authority under the said section 350 (a) having been extended by the joint resolution approved March 1, 1937 (ch. 22, 50 Stat. 24), until the expiration of three years from June 12, 1937), the President of the United States of America entered into a definitive trade agreement with the President of the United States of Venezuela on November 6, 1939 (54 Stat. 2377) and proclaimed such trade agreement by proclamations dated November 16, 1939 (54 Stat. 2375) and November 27, 1940 (54 Stat. 2402).

2. WHEREAS Article II of the said definitive trade agreement with Venezuela provides as follows:

Articles the growth, produce or manufacture of the United States of Venezuela, enumerated and described in Schedule II annexed to this Agreement and made a part thereof, shall, on their importation into the United States of America, be exempt from ordinary customs duties in excess of those set forth and provided for in the said Schedule. The said articles shall also be exempt from all other duties, taxes, fees, charges or exactions, imposed on or in connection with importation, in excess of those imposed on the day of the signature of this Agreement or required to be imposed thereafter under laws of the United States of America in force on the day of the signature of this Agreement;

3. WHEREAS Schedule II annexed to the said definitive trade agreement with Venezuela provides in part as follows:

Internal Revenue Code Section	Description of article	Rate of import tax
3422	Crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil... *Provided*, That such petroleum and fuel oil entered, or withdrawn from warehouse, for consumption in any calendar year in excess of 5 per centum of the total quantity of crude petroleum processed in refineries in continental United States during the preceding calendar year, as ascertained by the Secretary of the Interior of the United States, shall not be entitled to a reduction in tax by virtue of this item, but the rate of import tax thereon shall not exceed	½¢ per gal. ½¢ per gal.

4. WHEREAS, by virtue of Proclamation No. 2901 of September 6, 1950 (15 F. R. 6063), the United States customs treatment to be applied on and after January 1, 1951, to imports of crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil will be that indicated in the third recital of this proclamation;

5. WHEREAS Article VII of the said definitive agreement with Venezuela reads as follows:

In the event the Government of the United States of America or the Government of the United States of Venezuela regulates imports of any article in which the other country has an interest either as regards the total amount permitted to be imported or as regards the amount permitted to be imported at a specified rate of duty, the Government taking such action shall establish in advance, and give public notice of, the total amount permitted to be imported from all countries during any specified period, which shall not be shorter than three months, and of any increase or decrease in such amount during the period, and if shares are allocated to countries of export, the share allocated to the other country shall be based upon the proportion of the total imports of such article from all foreign countries supplied by the other country in a previous representative period, account being taken in so far as practicable in appro-

priate cases of any special factors which may have affected or may be affecting the trade in that article;

6. WHEREAS (pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 (a) of the Tariff Act of 1930, as amended by section 1 of the said act of June 12, 1934, by the joint resolution approved June 7, 1943, and by sections 2 and 3 of the act of July 5, 1945 (ch. 118, 57 Stat. 125; ch. 269, 59 Stat. 410 and 411), the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said act of July 5, 1945, until the expiration of three years from June 12, 1945), on October 30, 1947, I (1.) entered into a trade agreement with the Governments of the Commonwealth of Australia, the Kingdom of Belgium, the United States of Brazil, Burma, Canada, Ceylon, the Republic of Chile, the Republic of China, the Republic of Cuba, the Czechoslovak Republic, the French Republic, India, Lebanon, the Grand Duchy of Luxemburg, the Kingdom of the Netherlands, New Zealand, the Kingdom of Norway, Pakistan, Southern Rhodesia, Syria, the Union of South Africa, and the United Kingdom of Great Britain and Northern Ireland, which trade agreement consists of the General Agreement on Tariffs and Trade and the related Protocol of Provisional Application thereof, together with the Final Act Adopted at the Conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment which authenticated the texts of the said General Agreement and the said Protocol (61 Stat. (Parts 5 and 6) A7, A11, and A2051); and (2.) by Proclamation No. 2761A[1] of December 16, 1947 (61 Stat. 1103), proclaimed such modifications of existing duties and other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States of America as were then found to be required or appropriate to carry out such trade agreement;

7. WHEREAS Article XIII of the said General Agreement provides in part as follows:

2. In applying import restrictions to any product, contracting parties shall aim at a distribution of trade in such product approaching as closely as possible to the shares which the various contracting parties might be expected to obtain in the absence of such restrictions, and to this end shall observe the following provisions:

* * * * *

(d) In cases in which a quota is allocated among supplying countries, the contracting party applying the restrictions may seek agreement with respect to the allocation of shares in the quota with all other contracting parties having a substantial interest in supplying the product concerned. In cases in which this method is not reasonably practicable, the contracting party concerned shall allot to contracting parties having a substantial interest in supplying the product shares based upon the proportions, supplied by such contracting parties during a previous representative period, of the total quantity or value of imports of the product, due account being taken of any special factors which may have affected or may be affecting the trade in the product. No conditions or formalities shall be imposed which would prevent any contracting party from utilizing fully the share of any such total quantity or value which has been alloted to it, subject to importation being made within any prescribed period to which the quota may relate.

* * * * *

3. (c) In the case of quotas allocated among supplying countries, the contracting party applying the restrictions shall promptly inform all other contracting parties having an interest in supplying the product concerned of the shares in the quota currently allocated, by quantity or value, to the various supplying countries and shall give public notice thereof.

* * * * *

5. The provisions of this Article shall apply to any tariff quota instituted or maintained by any contracting party, * * *;

[1] 12 F. R. 8863.

8. WHEREAS, after consultation with the Government of the United States of America, the Government of the United States of Venezuela has requested the allocation among the countries of export of the quantity of crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil entitled to a reduction in duty by virtue of the said item 3422 of Schedule II annexed to the said definitive trade agreement with Venezuela:

9. WHEREAS I find that, taking into account special factors affecting the trade, imports into the United States of America from all countries of such crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil during the calendar years 1946 through 1949 were representative of the trade in such products:

10. WHEREAS I find that the proportions of total imports into the United States of America of such petroleum and fuel oil supplied by Venezuela, by the Kingdom of the Netherlands (including its overseas territories), and by other foreign countries, respectively, during the years 1946 through 1949 were as follows:

	Per centum
United States of Venezuela	59.4
Kingdom of the Netherlands (including its overseas territories)	18.7
Other foreign countries	21.9

NOW THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended, do proclaim that, of the total aggregate quantity of crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil, entitled, during the calendar year 1951, to a reduction in the rate of import tax by virtue of the said item 3422 of Schedule II of the said definitive trade agreement with Venezuela, no more than 59.4 per centum shall be the produce or manufacture of the United States of Venezuela, nor more than 18.7 per centum, the produce or manufacture of the Kingdom of the Netherlands (including its overseas territories), nor more than 21.9 per centum, the produce or manufacture of other foreign countries.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 29th day of December in the year of our Lord nineteen hundred and [SEAL] fifty, and of the Independence of the United States of America the one hundred and seventy-fifth.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

RULES AND REGULATIONS

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration, Department of Agriculture

Subchapter A—Administrative Provisions

PART 5—SURPLUS PROPERTY DISPOSAL

REVOCATION OF PART

The designation of the Department of Agriculture to act as a disposal agency for all surplus real property classified as "agricultural property" having been terminated by the Administrator of General Services by amendment of 44 CFR 101.41 published August 2, 1950 (15 F. R. 4945); all of Part 5 of Chapter 1, Title 6, of the Code of Federal Regulations is hereby revoked.

Dated: December 26, 1950.

[SEAL] I. W. DUGGAN,
Governor.

Approved: December 29, 1950.

CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-141; Filed, Jan. 4, 1951; 8:48 a. m.]

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter A—Farm Housing Loans and Grants

PART 305—PROCESSING LOANS AND GRANTS

SUBPART B—SUBSEQUENT LOANS AND GRANTS

Part 305 in Title 6, Code of Federal Regulations (14 F. R. 6554), is amended to add Subpart B as follows:

Sec.
305.21 General.
305.22 Reappraisal of farms.
305.23 County Committee recommendations.
305.24 Title evidence.
305.25 Approval of subsequent Farm Housing loans and grants.
305.26 Closing of a loan or grant.

AUTHORITY: §§ 305.21 to 305.26 issued under sec. 510, 63 Stat. 437; 42 U. S. C. 1480. Interpret or apply secs. 502–504, 63 Stat. 433, 434; 42 U. S. C. 1472–1474.

DERIVATION: §§ 305.21 to 305.26 contained in FHA Instruction 443.13.

§ 305.21 *General*—(a) *Purposes.* Sections 305.21 to 305.26 prescribe the authorities, policies, and procedures for making subsequent Farm Housing loans or grants to complete development items previously planned in connection with initial Farm Housing loans or grants. Subsequent loans or grants for development items or land purchase not previously planned are not authorized. Any advance to pay a recoverable cost charge for such items as taxes and property insurance premiums is not a subsequent loan or grant.

(b) *Types.* The following types of subsequent Farm Housing assistance may be made:

(1) *Subsequent section 502 loan.* A subsequent section 502 loan may be made only to a borrower who is indebted for a section 502 loan.

(2) *Subsequent section 503 loan.* A subsequent section 503 loan may be made only to a borrower who is indebted for a section 503 loan.

(3) *Subsequent section 504 assistance.* A subsequent section 504 loan or grant may be made only to a person who previously received section 504 assistance.

(i) Subsequent section 504 assistance may be made in the form of either a loan or grant, irrespective of the type of section 504 assistance initially extended. The type of subsequent section 504 assistance will be detemined solely by the type of subsequent advance to be made.

(ii) The cumulative amount advanced to any one individual as initial and subsequent section 504 assistance will not exceed $1,000, and the cumulative amount advanced as grants will not exceed $500.

(c) If subsequent Farm Housing assistance not authorized by this section is needed by a Farm Housing borrower, complete information on the case, including all pertinent facts and a narrative justification, will be submitted to the Administrator for consideration.

(d) Prior approval of the Administrator is required for each subsequent Farm Housing loan or grant when the amount of Farm Housing funds needed to complete any development item exceeds 25 percent of the total cash cost of the item, as shown in column 8 of Form FHA-442, "Farm Housing Development Plan", prepared in connection with the initial advance. In such a case, the complete subsequent loan or grant docket, together with a narrative justification by the State Director, will be submitted to the Administrator for consideration.

§ 305.22 *Reappraisal of farms.* For any subsequent Farm Housing loan, a new appraisal report will be required only when:

(a) The County Committee requests a new appraisal report; or

(b) The State Field Representative or the County Supervisor determines that there have been physical changes in the farm or in the economic conditions in the area which appear to have altered significantly the normal market value of the farm or that such changes are likely to result if the subsequent loan is made.

§ 305.23 *County Committee recommendations.* The County Committee will make findings again, on Form FHA-439, "County Committee Recommendations," as to what the reasonable value of the farm will be after the contemplated improvements are made with the proceeds of the subsequent advance. In connection with each application for a subsequent loan, the County Committee will take into consideration any available information on farm production as well as the normal market value indicated on the latest Form FHA-440, "Farm Housing Appraisal Report," in finding what the reasonable value of the farm will be after the contemplated improvements are made. It is expected that only in exceptional cases will this value differ from the reasonable value found by the County Committee in connection with the initial loan. In each such exceptional case a justification signed by the County Committee will be attached to Form FHA-439. The remainder of the Form will be completed in the usual manner.

§ 305.24 *Title evidence.* The same title evidence prescribed in § 305.2 will be required for subsequent loans, except that the examination will cover only the period since the previous Farm Housing mortgage was filed for record.

§ 305.25 *Approval of subsequent Farm Housing loans and grants.* The State Field Representative is authorized to approve or disapprove subsequent Farm Housing loans and grants, and to execute the same documents he executes in connection with initial loans and grants. The State Director also is authorized to approve or disapprove Farm Housing loans and grants in accordance with Farmers Home Administration regulations pertaining to Farm Housing assistance.

§ 305.26 *Closing of a loan or grant.* A subsequent Farm Housing loan or grant will be closed in the same manner as provided in §§ 305.5 and 305.6.

(a) A subsequent Farm Housing loan will be considered closed when the mortgage securing the subsequent loan is filed for record.

(b) A subsequent Farm Housing grant will be considered closed when the subsequent grant funds are deposited in the borrower's supervised bank account.

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

NOVEMBER 28, 1950.

Approved: December 29, 1950.

CHARLES F. BRANNAN,
Secretary of Agriculture.

Subchapter B—Farm Ownership Loans

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS AND INVESTMENT LIMITS; KANSAS

For the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm management units and investment limits for the counties identified below are determined to be as herein set forth. The average values and investment limits heretofore established for said counties, which appear in the tabulations of average values and investment limits under § 311.30, Chapter III, Title 6 of the Code of Federal Regulations (13 F. R. 9381), are hereby superseded by the average values and investment limits set forth below for said counties.

KANSAS

County	Average value	Investment limit
Anderson	$15,000	$12,000
Bourbon	15,000	12,000
Cherokee	15,500	12,000
Crawford	15,500	12,000
Douglas	17,500	12,000
Franklin	15,000	12,000
Harvey	20,000	12,000
Leavenworth	17,000	12,000
Linn	15,000	12,000
Miami	17,000	12,000
Sedgwick	20,000	12,000

(Sec. 41, 60 Stat. 1066; 7 U. S. C. 1015. Applies secs. 3, 44, 60 Stat. 1074, 1069; 7 U. S. C. 1003, 1018)

Issued this 29th day of December 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Export and Diversion Programs

[Amdt. 3]

PART 524—HONEY

SUBPART A—HONEY DIVERSION PROGRAM (MARKETING SEASON 1950)

The "Honey Diversion Program (Marketing Season 1950)," 15 F. R. 2793, as amended 15 F. R. 4705, 15 F. R. 5222 and the "Application Under Honey Diversion Program (Marketing Season 1950) and for Approval of Diversion Product" attached thereto, are hereby amended in the manner provided below:

1. Section 524.103 is hereby amended to read as follows:

§ 524.103 *Periods for diversion.* No payment under this program will be made in connection with any honey diverted by the applicant or sold into an approved diversion outlet unless the diversion was accomplished by the applicant or the sales contract was entered into within one of the following periods: (a) After the effective date hereof and prior to 12 o'clock midnight, e. s. t., June 30, 1950, or (b) on or after July 1, 1950, and prior to 12 o'clock midnight, e. s. t., March 31, 1951. Separate funds are available in each of these periods for payments under this program. Where diversion is by a manufacturer other than the applicant, the time for diversion shall extend to 12 o'clock midnight, e. s. t., April 30, 1951.

2. Section 524.108 is hereby amended to read as follows:

§ 524.108 *Period for filing claims.* Applicants hereunder shall file claim for payment not later than May 31, 1951.

3. That portion of § 524.109 containing the address of R. M. Walker is hereby amended as follows:

R. M. Walker, P. O. Box 3638 (335 Fell Street), San Francisco 2, California.

4. Section 524.110 is hereby amended to read as follows:

§ 524.110 *Records and accounts.* Each applicant shall maintain accurate records showing the honey he diverts, and for the honey he sells for diversion, the quantities, sales prices, dates of delivery, and the dates of completion of diversion. Such records, accounts, and other documents relating to any transactions in connection with this program shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture and shall be preserved until at least March 31, 1953. Each applicant shall also obtain and furnish to the Director, or his designee, a statement signed by the person who diverts the honey, when the diverter is a person other than applicant, (a) that he will keep records showing, in respect to each lot of honey received, the quantity, weight, date of receipt, price paid, date when diversion was completed, and manner of diversion; (b) that such records shall be available during regular business hours for inspection by authorized employees of the United States Department of Agriculture; (c) that the records pertaining to such diversion shall be preserved until at least March 31, 1953; and (d) that the diversion plant shall be available for inspection by such authorized employees.

5. That portion of § 524.116 containing the address of R. M. Walker is hereby amended as follows:

R. M. Walker, P. O. Box 3638 (335 Fell Street), San Francisco 2, California.

6. Subparagraph 2 of paragraph A of the "Application Under Honey Diversion Program (Marketing Season 1950) and for Approval of Diversion Product" is hereby amended to read as follows:

2. Diversion shall be completed within the period designated (check one):
---- May 9, 1950 through June 30, 1950.
---- July 1, 1950 through March 31, 1951.

Effective date. This amendment shall become effective at 12:01 a. m., e. s. t., January 1, 1951.

(Sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c)

Dated this 29th day of December 1950.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 51-176; Filed, Jan. 4, 1951; 8:53 a. m.]

[Amdt. 4]

PART 524—HONEY

SUBPART B—HONEY EXPORT PROGRAM (MARKETING SEASON 1950)

The "Honey Export Program (Marketing Season 1950)," 15 F. R. 2796, as amended, 15 F. R. 4707, 15 F. R. 5222, 15 F. R. 7522 is hereby amended in the manner provided below:

1. Section 524.132 is hereby amended to read as follows:

§ 524.132 *Eligibility for payment.* Payments will be made to any United States exporter of honey (except as provided in § 524.147), (a) who executes an application in triplicate, on the form attached hereto, covering a firm sales contract dated not later than March 31, 1951, and which is received by the Director within the 15-day period following the execution of the sales contract, or who confirms the execution of a firm sales contract resulting from a prior sales negotiation, the application for which has been previously submitted to the Director in triplicate, on the form attached hereto, and approved by the Director, if such confirmation is received by the Director within the 15-day period following the execution of the firm sales contract, which must be executed not later than March 31, 1951; (b) whose application has been approved by the Director; (c) who sells honey for export pursuant to this program, and who furnishes evidence of exportation of such honey as required by § 524.140; and (d) who otherwise complies with all the terms and conditions of this program. Applications based on firm sales contracts will be approved in the order in which they are submitted within each of the periods for export sales (see § 524.133) and as long as funds are available. Applications based on sales negotiations will be approved in the same manner. The confirmation of completion of a sales negotiation shall include a statement of the quantity of honey, floral source, destination, and name and address of buyer named in the final sales contract. If a firm sales contract resulting from a prior sales negotiation, the application for which has been previously approved by the Director, is not executed within 15 days following the date of approval of said application, the Director may cancel the approval of the application. The Director reserves the right to withdraw approval of any application based on sales negotiations, but such withdrawal must be made prior to receipt of notice of completion of the sales negotiations.

2. Section 524.133 is hereby amended to read as follows:

§ 524.133 *Period for export sales.* (a) Sales contracts for the exportation of honey under this program must be entered into within one of the following periods: (1) On or after the effective date hereof and prior to 12 o'clock midnight, e. s. t., June 30, 1950, or (2) on or after July 1, 1950, and prior to 12 o'clock midnight, e. s. t., March 31, 1951. Separate funds are available in each of these periods for payments under this program.

(b) Approval may be given to any application based on a sales contract entered into pursuant to the issuance of the press release dated March 30, 1950, entitled "U. S. Department of Agriculture To Assist in Expanding Honey Outlets," and prior to May 9, 1950, notwithstanding provisions to the contrary in §§ 524.132 and 524.145 if (1) an application is filed prior to July 31, 1950, with the Authorized Representative of the Secretary, (2) the sale and exportation are otherwise in conformity with this

part, and (3) evidence satisfactory to the Authorized Representative of the Secretary is submitted by the exporter that such sale was induced by the press release referred to above.

3. Section 524.134 is hereby amended to read as follows:

§ 524.134 *Period for exportation.* Exportation from continental United States in fulfillment of export sales under this program shall be accomplished on or after the date of the sales contract and prior to 12 o'clock midnight, e. s. t., April 30, 1951.

4. Section 524.139 is hereby amended to read as follows:

§ 524.139 *Period for filing claims.* The exporter shall file claim for payment hereunder by mailing it or delivering it directly to the offices in § 524.140 not later than May 31, 1951.

5. That portion of § 524.140 containing the address of R. M. Walker is hereby amended as follows:

R. M. Walker, P. O. Box 3638 (335 Fell Street), San Francisco 2, California.

6. Section 524.141 is hereby amended to read as follows:

§ 524.141 *Records and accounts.* Each exporter shall maintain accurate records and preserve them until at least March 31, 1953, showing the quantities, sales prices, and deliveries of honey exported or to be exported in connection with this offer. Such records, accounts, and other documents relating to any transaction in connection herewith shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture.

Effective date. This amendment shall be effective as of 12:01 a. m., e. s. t., January 1, 1951.

(Sec. 32, 49 stat. 774, as amended; 7 U. S. C. 612c)

Dated this 29th day of December 1950.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 51-177; Filed, Jan. 4, 1951; 8:53 a. m.]

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter H—Determination of Wage Rates

[Sugar Determination 866.3]

PART 866—SUGARCANE; HAWAII

CALENDAR YEAR 1951

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948 (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearings held in Honolulu and in Hilo, Territory of Hawaii, on September 8 and 11, 1950, respectively, the following determination is hereby issued:

§ 866.3 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1951*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1951, if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm shall have been paid in full for production, cultivation, or harvesting work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and laborer.

(b) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined herein through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the Director of the Hawaiian Area Office, Production and Marketing Administration, U. S. Department of Agriculture, Honolulu 13, T. H., against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available in the Area Office. Upon receipt of a wage claim the Director of the Hawaiian Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer and, after making such investigation as he deems necessary, shall notify the producer and laborer in writing of his recommendation for settlement of the claim. If the recommendation of the Director of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. All such appeals shall be filed within 15 days after receipt of the recommended settlement from the Director of the Area Office; otherwise, such recommended settlements will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Branch, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed in the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1951, as one of the conditions for payment under the act. In this statement, the foregoing determination, as well as determinations for prior years, will be referred to as "wage determination", identified by the calendar year for which effective.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates, it is required under the act that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among the various sugar producing areas.

Public hearings were held in Honolulu and Hilo, Territory of Hawaii, on September 8 and 11, 1950, respectively, at which time interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1951. In addition, investigations have been made of the conditions affecting such wage rates. In this determination consideration has been given to testimony presented at the hearings and to information resulting from investigations. The primary factors which have been considered are: (1) Price of sugar and by-products; (2) income from sugarcane; (3) cost of production; (4) cost of living; and (5) relationship of labor costs to total costs. Other economic influences also have been considered.

(c) *Background.* Determinations of fair and reasonable wage rates for Hawaii have been issued since 1937. In that year average daily wage rates during the last four months of the year were increased from 5 to 20 percent. The 1938 wage determination required the payment of wages not less than those resulting from the inclusion of bonus payments for the entire calendar year. Wage determinations from 1939 to 1944 included provisions for an annual average wage per day for all adult workers (excluding operators of mechanical equipment) on a farm and a minimum average daily wage for individual adult males and adult females for each pay period. In some of these years a wage increase based on increases in raw sugar price above a stipulated level was a provision of the determination. In wage determinations from 1941 to 1944, wage rates per day were provided for workers between 14 and 16 years of age and hourly rates were stipulated for operators of mechanical equipment. To simplify a complicated and involved method for determining wage payments and to establish more practicable wage provisions in the wage determination, the 1945 and 1946 wage determinations provided time rates for all workers at stated amounts per hour. Piecework rates during these two years were to be those agreed upon between producer and laborer provided that the average hourly earnings resulting from the agreed upon rates were not less than the stipulated hourly rates.

During 1945, the first collective bargaining agreement on wages, hours and working conditions was negotiated between the committee representing the International Longshoremen's and Warehousemen's Union (CIO) sugar locals and units, and a committee representing the sugar producing companies. The initial agreement of August 1945, provided minimum wage rates of 43½ cents per hour on all islands except Hawaii, where the minimum was 41 cents. These minimum rates were increased to 70½ cents per hour in a renegotiated agreement effective in November 1946, were further increased by a collective bargaining agreement effective August 1, 1947, to 78½ cents per hour and were again increased to 80 cents per hour by an agreement effective January 1, 1950. This latter agreement also contains a provision whereby wages increase 1½ cents per hour for each $2.00, or fraction thereof, that the average price of raw sugar exceeds $116.00 per ton for a three-month payroll period. If average raw sugar prices are lower than $116.00 per ton basic minimum wage rates remain at the "floor". On three plantations the collective bargaining agreements specified slightly higher minimums in accordance with historical differentials. No re-openings on any matters are provided in the agreement unless changes are made in the Sugar Act which would result in decreased income to the producers, at which time the plantations reserve the right to re-open the contracts on the matter of wages. This agreement expires August 31, 1951.

Two plantation companies do not negotiate collective bargaining agreements for field workers with the labor union. In both cases, however, workers receive the union scale of wage rates. On one of these plantations a deduction is made for perquisites furnished by the plantation. In addition, none of the adherent planters negotiate collective bargaining agreements. This group of producers, however, produce only about 10 percent of the sugarcane and perform much of their own labor. Most of the labor which is hired by these planters is furnished by the plantation companies and is paid by the plantations for the account of the planter at the union scale of wages. It is reported that such labor as is hired directly by the planter is paid approximately the same rates as required by the collective agreements.

Producers who have entered into collective bargaining agreements, as well as those who are not parties thereto but have arrived at individual agreements with their laborers, are required to pay the wage rates of such formal or informal agreements in order to comply with the requirement of payment "in full" as provided in the act. The wage rates indicated by the standards customarily considered under the act would not have exceeded the rates arrived at through the collective bargaining agreements effective during the years from 1946 through 1950.

The wage determinations for 1947, 1948, 1949, and 1950, provided that producers were deemed to have complied with the wage provisions of the act if workers on either a time or piecework basis were paid in full at rates agreed to by producer and worker.

(d) *1951 wage determination.* The 1951 wage determination continues unchanged the provisions of the 1950 wage determination.

At the public hearings a representative of the producers recommended the establishment of a fair and reasonable wage rate which would be lower than the basic minimum wage rate provided in the present collective bargaining agreement. A representative of the workers, on the other hand, recommended the establishment of a fair and reasonable minimum wage which is higher than the minimum now provided in the collective agreement. Consideration has been given to both recommendations. It is not deemed necessary, however, to establish specific wage rates in this determination since wage rates are set forth in collective bargaining agreements which have been negotiated between producers and workers. An examination of pertinent economic data affecting sugarcane field workers' wage rates in Hawaii reveals that the level of wages indicated by the standards customarily employed under the Sugar Act, does not exceed the level of wages agreed upon in collective bargaining agreements between producers and workers. Since the act requires that workers shall be paid "in full" for work performed, payment of "agreed upon" wage rates is required to meet this provision of the act. While it is recognized that the current wage rates of the collective bargaining agreements may be altered through negotiations during the period covered by this determination, it is expected that any revisions in the rates will conform to significant economic changes. Although a small minority of workers are not covered by collective bargaining agreements, the existence of such agreements covering the majority of workers influences the general wage level and thereby provides an adequate measure of wage protection.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 929; 7 U. S. C. Sup., 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup., 1131)

Issued this 2d day of January 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 51-179; Filed, Jan. 4, 1951; 8:54 a. m.]

[Sugar Determination 868.3]

PART 868—SUGARCANE; VIRGIN ISLANDS

CALENDAR YEAR 1951

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948 (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 9, 1950, the following determination is hereby issued:

§ 868.3 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1951*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in the Virgin Islands for the calendar year 1951, if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the laborer, but after the date of issuance of this determination, not less than the following:

(i) *Basic time rates.* The basic rates per hour for the first 8 hours of work performed in any 24 hour period shall be as follows:

Class of work:	*Basic rate per hour*
A—All kinds of work not classified below	$0.30
B—Spraying weeds with chemicals	.33
C—Operation of tractors and trucks	.40
D—Operation of mechanical loaders	.50

(ii) *Overtime.* Persons employed in excess of 8 hours in any 24-hour period or in excess of 44 hours in any one week shall be paid for the overtime work at a rate not less than one and one-half times the applicable hourly rate provided in subdivision (i) of this subparagraph: *Provided*, That this provision shall be inapplicable to workers who are employed under extraordinary emergencies as defined in section 4 (c) of Municipal Council Bill No. 2, passed by the Municipal Council of St. Croix, Virgin Islands on January 5, 1950.

(iii) *Piecework rates.* If work is performed on a piecework rate basis, the average earnings for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable hourly rate provided under subdivisions (i) and (ii) of this subparagraph.

(2) *Perquisites.* In addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a dwelling, garden plot, pasture lot and medical services.

(b) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined herein through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico, against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the Caribbean Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer and, after making such investigation as it deems necessary, shall notify the producer and laborer in writing of its recommendation for settlement of the claim. If the recommendation of the Caribbean Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. Such appeal shall be filed within 15 days after receipt of the recommended settlement from the Area Office; otherwise, such recommended settlement will be applied

in making payment under the act. If a claim is appealed to the Director of the Sugar Branch, his decision shall be binding on all parties insofar as payment under the act is concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1951, as one of the conditions for payment under the act. In this statement, the foregoing determination, as well as determinations for prior years, will be referred to as "wage determination" identified by the calendar year for which effective.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates, it is required under the act that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among the various sugar producing areas.

A public hearing was held in Christiansted, St. Croix, Virgin Islands, on October 9, 1950, at which interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1951. In addition, investigations have been made of the conditions affecting wage rates in the Virgin Islands. In this determination, consideration has been given to testimony presented at the hearing and to information resulting from investigations. The primary factors which have been considered are: (1) Prices of sugar and by-products; (2) income from sugarcane; (3) cost of production; (4) cost of living; and (5) relationship of labor cost to total cost. Other economic influences also have been considered.

(c) *Background.* Determinations of fair and reasonable wage rates have been issued for the Virgin Islands each year beginning with 1942. The determinations have varied with respect to content and applicability. In general, a basic wage rate per day has been stipulated.

Wage rates per day in 1941 were reported to be 88 cents for nonharvest work and $1.04 for harvest work. The 1942 determination provided minimum wages of $1.04 per 8-hour day for nonharvest work and $1.36 per 8-hour day for harvest work. In 1944 on the recommendation of producers and laborers, a single basic day rate for both harvesting and nonharvesting work was issued. The practice of issuing a single rate has been continued in subsequent determinations. In 1950 the basic time rate per 8-hour day was $2.00, an increase of approximately 121 percent over 1941 and 84 percent over 1942, the first year of issuance of a wage determination.

In 1946 piecework rates were specified for cutting and loading sugarcane. Piecework rates in all other years have been stated to be those agreed upon between the producer and the laborer: *Provided*, That average earnings for the time involved on each separate unit of piecework be not less than the basic time rates. The 1947 wage determination provided for a wage bonus of 6 cents per day for each 25 cents that the New York price of raw sugar, used as a basis for sale, averaged more than $5.94 per one hundred pounds. The bonus provision was replaced in the 1948 wage determination by a modified wage-price escalator scale which provided for wage increases of 3.5 cents per day above the basic day wage rate for each 10 cents, or fraction thereof, increase in the weekly average price of raw sugar above $6.00 per one hundred pounds.

(d) *1951 wage determination.* The 1951 wage determination establishes wage rates for four separate classes of workers. The rates range from 30 cents per hour for unskilled workers to 50 cents per hour for operators of mechanical loading equipment. In addition, overtime rates are provided for work in excess of 8 hours per day or 44 hours per week. The 1950 wage determination provided a minimum rate of $2.00 per 8-hour day for all classes of workers and contained no provision for overtime.

The Virgin Islands, historically, has been a low wage and low income area. The many hazards to agricultural production, such as insufficient rainfall, inadequate yields of sugarcane, and low recovery of sugar are primarily responsible for these conditions. The Virgin Islands Corporation, owned by the Federal government and created primarily to promote the general welfare of the inhabitants of the Islands through economic development, has in the past sustained substantial losses, although, because of improved methods of production and unusually favorable crop yields, there was a marked improvement in the Corporation's financial position for the fiscal year ending June 30, 1950. The Corporation is the Islands' only sugar manufacturer and is the largest employer of field workers. Because of the unusual conditions existing in the Islands it has not been possible to apply the standards customarily used in establishing fair and reasonable wage rates.

During early 1950, the Municipal Council of St. Croix promulgated minimum wage and maximum hour legislation for all workers on the Island of St. Croix. Agricultural workers are covered under unskilled, semi-skilled and skilled worker categories. The local ordinance became effective in March 1950 and the Virgin Islands Corporation and producers increased the prevailing wage rates to conform with the legislation. In view of this the Corporation and independent producers paid the wage rates which are established in the 1951 wage determination during most of 1950.

At the public hearing, the representative of the Virgin Islands Corporation recommended that the wage rates provided in the municipal council ordinance be established in the 1951 wage determination. Representatives of independent producers indicated that the wage rates for 1951 should be at least as high as those provided in the ordinance.

The wages provided in the 1951 wage determination reflect the needs of workers for additional income to meet rising living costs. In addition, the income position of producers should improve in view of the recent strength shown in sugar and molasses prices and the utilization of more efficient methods of production.

In recognition of the foregoing factors, and in view of the fact that payment of the wage rates established by municipal law is required to meet the "payment in full" provision of the Sugar Act, the rates established in the 1951 wage determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 2d day of January 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Subchapter I—Determination of Prices

[Sugar Determination 878.3]

PART 878—SUGARCANE; VIRGIN ISLANDS

1951 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948 (herein referred to as "act"), after investigation, and due consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 9, 1950, the following determination is hereby issued:

§ 878.3 *Fair and reasonable prices for the 1951 crop of Virgin Islands sugarcane.* A processor-producer of sugarcane in the Virgin Islands who applies for payment under the act shall be deemed to have complied with the provisions of section 301 (c) (2) of the act with respect to the 1951 crop, if the requirements of this determination are met.

(a) *Definitions.* For the purpose of this determination, the term:

(1) "Raw sugar" means 96° raw sugar.

(2) "Settlement period" means the period in which sugarcane is delivered by the producer to the processor-producer. Such period shall be two weeks and shall extend from Monday of the first week through Sunday of the following week.

(3) "Average price of raw sugar" means the simple average of the daily spot quotations of raw sugar of the New York Coffee and Sugar Exchange (domestic contract), adjusted to a duty paid basis by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, for the period on which settlement is based, except that, if the Director of the Sugar Branch determines that for any such period such average price does not reflect the true market value of raw sugar, because of inadequate volume or other factors, the Director may designate the average price to be effective under this determination. Average prices of raw sugar for successive settlement periods shall be computed from Monday of the first week grinding commences.

(4) "F. o. b. mill price" means the average price of raw sugar minus selling and delivery expenses (converted to a pound unit) actually incurred by the processor-producer in the marketing of raw sugar (other than bags or storage in company warehouses).

(5) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of sugarcane determined for each settlement period in accordance with the following formula:

$$R = (S - 0.3B)F$$

where:

R = Recoverable sugar yield, 96° polarization.

S = Polarization of the crusher juice obtained from the sugarcane of each producer.

B = Brix of the crusher juice obtained from the sugarcane of each producer.

F = Factor obtained from the fraction whose numerator is the average yield of sugar 96° polarization obtained from the aggregate grinding during each settlement period in which the sugarcane of the producer has been ground, and whose denominator is the average polarization of the crusher juice minus three-tenths of the brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the settlement period in which the sugarcane of the producer has been round.

(b) *Basic payment* (1) The basic payment for sugarcane delivered by a producer to the processor-producer during a settlement period shall be not less than the money value of that portion of the raw sugar determined by applying the following applicable percentage to the yield of raw sugar from the producer's sugarcane (such portion is herein referred to as "producer's share"):

Yield of raw sugar per 10 pounds of sugarcane (pounds):	Percentage
6.0	59.0
7.0	60.0
8.0	61.0
9.0	62.0
10.0	63.0
11.0	64.0
12.0	65.0

Intermediate points within the scale are to be calculated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(2) The processor-producer shall pay, or contract to pay, the producer for sugarcane delivered during a settlement period the money value of the producer's share of raw sugar determined in the following manner:

(i) For the producer's share of raw sugar which is within the statutory quota for the Virgin Islands during the period from the commencement of grinding until the termination of grinding of all 1951 crop Virgin Islands sugarcane, the average price of raw sugar for the settlement period, converted to the f. o. b. mill price.

(ii) For the producer's share of raw sugar which is within an increase in the statutory quota for the Virgin Islands occurring after the termination of grinding of all 1951 crop Virgin Islands sugarcane, the average price of raw sugar for the marketing days within the thirty-day period (commencing with the first marketing day) immediately following the effective date of the order permitting the marketing of such raw sugar, converted to the f. o. b. mill price.

(iii) For the producer's share of raw sugar which is not within the statutory quota for the Virgin Islands in the calendar year 1951, the average price of raw sugar for the period January 1, 1952, through January 31, 1952, converted to the f. o. b. mill price, and further by deducting storage, handling costs, insurance, personal property taxes levied on raw sugar, and other related costs actually incurred on such raw sugar for the period January 1, 1952 through January 31, 1952.

(iv) For the purpose of subdivisions (i) and (iii) of this subparagraph the portion of the producer's share of raw sugar within and not within the statutory quota for the Virgin Islands shall be calculated for each settlement period, subject to adjustment after final data are available. Such portions shall be determined by applying to the producer's share of raw sugar produced from his sugarcane during the settlement period the percentages obtained by dividing the quantities of raw sugar within and not within, respectively, the statutory quota for the Virgin Islands by the total quantity of raw sugar produced by the processor-producer. For the purpose of subdivision (ii) of this subparagraph, the portion of the producer's share of such raw sugar within an increase in the statutory quota for the Virgin Islands occurring after the termination of grinding of all 1951 crop Virgin Islands sugarcane shall be determined by applying to the producer's share of raw sugar produced from his sugarcane for the 1951 crop the percentage obtained by dividing the quantity of raw sugar within an increase in the statutory quota for the Virgin Islands by the total quantity of raw sugar produced by the processor-producer.

(c) *Molasses payment.* The processor-producer shall pay the producer for each 100 pounds of sugarcane delivered an amount computed by applying the following applicable percentage to the net proceeds derived from the sale of blackstrap molasses produced per 100 pounds of sugarcane for the 1951 crop:

Yield of raw sugar per 100 pounds of sugarcane (pounds):	Percentage
6.0	86.0
7.0	80.0
8.0	74.0
9.0	68.0
10.0	62.0
11.0	56.0
12.0	50.0

Intermediate points within the scale are to be calculated to the nearest one-tenth point. Points below 8 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(d) *General.* (1) The processor-producer shall submit in duplicate to the Caribbean Area Office of the Production and Marketing Administration, San Juan, Puerto Rico, a certified statement of the actual deductions made in determining the f. o. b. mill value of sugar and molasses.

(2) The processor-producer shall not reduce returns to the producer below those determined herein through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable prices to be paid by a processor-producer (i. e. a producer who is directly or indirectly a processor of sugarcane—hereinafter referred to as "processor") for sugarcane of the 1951 crop purchased from other producers. It prescribes the minimum requirements with respect to prices for sugarcane which must be met as one of the conditions for payment under the act. In this statement the foregoing determination, as well as determinations for previous years, will be referred to as "price determination," identified by the crop year for which effective.

(b) *Requirements of the act.* In determining fair and reasonable prices, the act requires that a public hearing be held and investigations be made. Accordingly, on October 9, 1950, a public hearing was held in Christiansted, St. Croix, Virgin Islands, at which time interested parties presented testimony with respect to fair and reasonable prices for the 1951 crop of sugarcane. In addition, investigations have been made of conditions relating to the sugar industry in the Virgin Islands. In this price determination consideration has been given to testimony presented at the hearing and to information resulting from investigations.

(c) *Background.* The Sugar Act was made applicable to the Virgin Islands beginning with the 1942 crop of sugarcane. Under the price determinations for the 1942, 1943, and 1944 crops, producers were paid the f. o. b. mill value of 6 pounds of raw sugar for each one hundred pounds of sugarcane delivered regardless of the quality of the cane. This sharing relationship continued that which was in effect in years prior to 1942. Beginning with the 1944 crop, recovery of raw sugar from sugarcane was improved through the operation of a more efficient mill. Since the operating results were significantly better than the results obtained in prior years, the 1945 price determination provided that the producers' share of the f. o. b. mill value of raw sugar per one hundred pounds of sugarcane would be 65 percent when the average outturn of raw sugar for the season represented 12 percent or more of the weight of sugarcane, or 63 percent when the average outturn represented from 10 to 12 percent of the weight of sugarcane. When the average outturn was less than 10 percent of the weight of sugarcane, it was provided that producers were to receive the f. o. b. mill value of 6 pounds of 96° raw sugar per one hundred pounds of sugarcane. This sharing relationship has been continued in the price determination for each crop since that time.

Price determinations since 1942 have provided for payment to producers of a molasses bonus equal to one-half of the amount by which the net proceeds from

blackstrap molasses of the current crop exceeded such proceeds from the 1941 crop.

During the last half of the calendar year 1950, the price determination was amended to provide for producer participation in the price received for raw sugar marketed in excess of the statutory quota for the Virgin Islands of 6,000 short tons, raw value. This action was taken because the unusual condition which affected the marketing of raw sugar at that time resulted in raw sugar prices somewhat higher than those prevailing during the settlement period in which the sugarcane was delivered.

(d) *1951 price determination.* The 1951 price determination contains the following basic changes in the sharing relationship between producers and processors:

(1) A sliding settlement scale based upon the yield of sugarcane has been adopted. The scale provides a sharing ratio of 65 percent for producers and 35 percent for processors for sugarcane yielding 12 pounds of sugar per 100 pounds of sugarcane. The producer's share increases or decreases one-tenth of one percent for each one-tenth pound change above or below a 12 pound yield of raw sugar. Under this provision settlement will be made on the basis of the quality of sugarcane delivered by individual producers. The adoption of a sliding settlement scale will result in settlements more accurately reflecting the true value of the sugarcane delivered by each producer than did the former "flat rate" sharing basis. Although this change will result in increased or decreased sharing to individual producers, depending upon the quality of sugarcane delivered, producers as a whole should receive a larger share of the sugar returns than under the 1950 price determination.

(2) A sliding scale for sharing molasses, based on the yield of sugar, also has been adopted. The net proceeds of the molasses from sugarcane yielding 12 pounds of sugar per 100 pounds of sugarcane are shared equally between the producer and the processor. Above and below this point the producers' share varies inversely with yield. The producers' share of molasses increases or decreases six-tenths of one percent for each one-tenth pound change below or above a 12 pound yield of raw sugar. Under this provision producers will receive a much larger share of the net proceeds from molasses than they would have received under the 1950 price determination. In the 1950 price determination, producer participation did not commence until the net proceeds from molasses were in excess of 8 cents per gallon whereas under this determination producers participate in the entire net proceeds. Moreover, under this determination producer participation varies with the quality of sugarcane delivered. Since molasses production per ton of sugarcane varies inversely with the yield of raw sugar, producers delivering low quality sugarcane will receive larger molasses payments than producers delivering high quality sugarcane. Producers delivering high quality sugarcane will, however, receive larger payments for sugar from sugarcane. Under this determination, for sugarcane yielding 10 to 12 pounds of sugar per 100 pounds of sugarcane producers will receive from 62 to 50 percent of the net proceeds from molasses, while under the 1950 price determination they would have received only 30 percent of the net proceeds.

(3) Separate and distinct provisions are made for settlements for sugarcane from which was made (i) raw sugar within the statutory quota for the Virgin Islands prior to the termination of grinding the 1951 crop, (ii) raw sugar within an increase in the statutory quota for the Virgin Islands occurring after the termination of grinding of the 1951 crop, and (iii) raw sugar not within the statutory quota for the Virgin Islands for the calendar year 1951. These settlement methods will provide for an equitable sharing between producers and the processor of variable market prices and costs which result from the operation of the quota provisions of the act.

(4) The definition of settlement period has been revised to provide for a uniform period for settlement of two weeks. Under this definition the settlement period will extend from Monday of one week through Sunday of the following week.

An examination of conditions within the sugar industry in the Virgin Islands indicates that the standards customarily considered in price determinations cannot be applied. The Virgin Islands Corporation (formerly the Virgin Islands Company), under the direction of the Department of Interior, is the only purchaser of sugarcane in the Islands. This project was developed and has continued to operate primarily to provide employment to the people of the Islands. The financial results of the operations of the Corporation with respect to sugar have been generally unfavorable, due in large part to the small volume and low quality sugarcane. The annual losses on sugar operations for the past nine years have been very significant, although definite improvement was made in 1950 because of the unusually large crop harvested during that year. The Corporation is, however, attempting to reduce its losses on future crops through continued improvements in agricultural and milling operations.

Congressional action in 1949 provided for the reorganizaton of the Virgin Islands Corporation primarily for the purpose of promoting the welfare of the inhabitants of the Islands through economic development. Following this, officials of the Corporation indicated at the hearing for the 1950 crop that consideration was being given to several changes in the method of purchasing sugarcane from independent growers, primarily to encourage the growth of better quality sugarcane in the Islands. Although the changes in the methods of purchasing sugarcane were not adopted for the 1950 crop, the Corporation now believes that marked progress can be made by adopting the system of payment used in other sugarcane areas, i. e., relating payments for sugarcane to the quality of sugarcane delivered by each grower.

At the hearing representatives of the Virgin Islands Coporation recommended the raw sugar and molasses sharing scales contained in this determination. Representatives of producers generally opposed the changes on the grounds that certain small producers—especially those who produce low quality sugarcane—might receive less for their sugarcane than they did under the "flat rate" basis of settlement. While it is obvious that under a quality payment scale payments for low quality sugarcane will be less than under a "flat rate" basis, an examination of available data shows that in view of the conditions likely to prevail for the 1951 crop, producers generally will be in a much better financial position under this determination than under the 1950 price determination. Further, to the extent that producers improve the quality of the sugarcane delivered to the processor, ultimately their economic position will be improved materially under the provisions of this determination.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup., 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 2d day of January 1951.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration

[Amdt. 39]

PART 600—DESIGNATION OF CIVIL AIRWAYS

MISCELLANEOUS AMENDMENTS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.15 is amended to read:

§ 600.15 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.).* From the Los Angeles, Calif., radio range station via the Riverside, Calif., radio range station; the intersection of the east course of the Riverside, Calif., radio range and the west course of the Blythe, Calif., radio range; Blythe, Calif., radio range station; Phoenix, Ariz., radio range station; the intersection of the south course of the Phoenix, Ariz., radio range and the northwest course of the Tucson, Ariz., radio range; Tucson, Ariz., radio range station; the intersection of the southeast course of the Tucson, Ariz., radio range and the west course of the Cochise, Ariz., radio range; Cochise, Ariz., radio range station; Rodeo, N. Mex., radio range; Columbus, N. Mex., radio range station; El Paso, Tex., radio range station; Salt Flat, Tex., radio range station; Wink, Tex., radio range station; Big Spring, Tex., radio range station; Abilene, Tex., radio range station; Fort Worth, Tex., radio range station; Texarkana, Ark., radio range station; Memphis, Tenn., radio range station; Jackson, Tenn., radio range station; Nashville, Tenn., radio range station; the intersection of the northeast course of the Nashville, Tenn., radio range and the northwest course of the Smithville, Tenn., radio range; Smithville, Tenn., radio range station; the intersection of the southeast course of the Smithville, Tenn., radio range and the west course of the Knoxville, Tenn., radio range; Knoxville, Tenn., radio range station; Tri-City, Tenn., radio range station; Pulaski, Va., radio range station; Roanoke, Va., radio range station; Gordonsville, Va., radio range station; the intersection of the northeast course of the Gordonsville, Va., radio range and the south course of the Washington, D. C., radio range; Andrews, Md., radio range station; Millville, N. J., radio range station; the intersection of the northeast course of the Millville, N. J., radio range and the southwest course of the Mitchel Field, N. Y. (AFB), radio range; the Mitchel Field, N. Y. (AFB), radio range station; the intersection of the northeast course of the Mitchel Field, N. Y. (AFB), radio range and the southwest course of the Boston, Mass., radio range to the intersection of the southwest course of the Boston, Mass., radio range and the southeast course of the Westfield, Mass., radio range.

2. Section 600.208 is amended to read:

§ 600.208 *Red civil airway No. 8 (Dayton, Ohio, to Williamsport, Pa.).* From the intersection of the west course of the Wright-Patterson AFB radio range, Fairfield, Ohio, and the northwest course of the Cincinnati, Ohio, radio range via the Wright-Patterson AFB radio range station; the intersection of the east course of the Wright-Patterson AFB radio range and the south course of the Columbus, Ohio, radio range; the Zanesville, Ohio, non-directional radio beacon; the Bergholz, Ohio, non-directional radio beacon; the Butler, Pa., non-directional radio beacon; the Brookville, Pa., non-directional radio beacon; the intersection of the southwest course of the Elmira, N. Y., radio range and the west course of the Williamsport, Pa., radio range to the Williamsport, Pa., radio range station.

3. Section 600.221 is amended to read:

§ 600.221 *Red civil airway No. 21 (Pittsburgh, Pa., to Boston, Mass.).* From the intersection of the northeast course of the Pittsburgh, Pa., radio range and the north course of the Altoona, Pa., radio range to the Selinsgrove, Pa., non-directional radio beacon. From the Williamsport, Pa., radio range station to the Newark, N. J., radio range station. From the intersection of the east course of the New York (La Guardia), N. Y., radio range and the southwest course of the Bridgeport, Conn., radio range via the Bridgeport, Conn., radio range station to the intersection of the northeast course of the Bridgeport, Conn., radio range and the southeast course of the Hartford, Conn., radio range. From the intersection of the southeast course of the Hartford, Conn., radio range and the west course of the Quonset Point, R. I. (Navy), radio range via the intersection of the west course of the Quonset Point, R. I. (Navy), radio range and the southwest course of the Providence, R. I., radio range; Providence, R. I., radio range station, excluding that portion more than 2 miles east of the southwest course of the Providence, R. I., radio range; Squantum, Mass. (Navy), radio range station, excluding that portion which lies more than 4 miles east of the southwest course of the Squantum, Mass. (Navy), radio range between the Providence, R. I., radio range station and a point 5 miles northeast to the intersection of the northeast course of the Squantum, Mass. (Navy), radio range and the east course of the Boston, Mass., radio range.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. January 8, 1951.

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-122; Filed, Jan. 4, 1951; 8:45 a. m.]

[Amdt. 42]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

MISCELLANEOUS AMENDMENTS

The control area and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore, is not required. Part 601 is amended as follows:

1. Section 601.208 is amended by changing caption to read: *"Red civil airway No. 8 control areas (Dayton, Ohio, to Williamsport, Pa.)."*

2. Section 601.4208 is amended by changing caption to read: *"Red civil airway No. 8 (Dayton, Ohio, to Williamsport, Pa.)."*

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. January 8, 1951.

[SEAL] DONALD W. NYROP,
Administrator of Civil Aeronautics.

[F. R. Doc. 51-123; Filed, Jan. 4, 1951; 8:45 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 374—PROJECT LICENSES

EDITORIAL NOTE: Supplement 1 to Part 373 (15 F. R. 8925, Dec. 15, 1950) is designated as § 373.51 *Supplement 1; time schedules for submission of applications for licenses to export certain positive list commodities,* and Supplement 1 to Part 374 (15 F. R. 8078, Nov. 25, 1950) is designated as § 374.51 *Supplement 1; list of restricted commodities.*

[5th Gen. Rev. of Export Regs., Amdt. P. L. 32 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MILITARY APPAREL OF ALL TYPES

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
999930	Miscellaneous commodities, n. e. s.: Military apparel of all types, including insignia, and footwear (new and used)	-------	TEXT	None	RO

Validated licenses are required for the exportation of the above commodities to all destinations if the exporting carrier has not obtained clearance from the final port of departure in the United States for a foreign port.

This amendment shall become effective as of 3:00 p. m., e. s. t., December 22, 1950.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5731]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

UNITED PRESSED PRODUCTS CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or other relevant facts.* In connection

[1] This amendment was published in Current Export Bulletin No. 599, dated December 28, 1950.

with the offering for sale, sale or distribution of respondents' crystal radio receiving sets in commerce, (1) representing that under ordinary and usual conditions respondents' radios have a receiving range of from 25 to 50 miles or greater distances, or otherwise representing that the ordinary and usual receiving range of such sets is in excess of their actual capacity to provide reception only for powerful, local broadcasting stations; or, (2) representing that respondents' radios will afford increased selectivity by use of a condenser; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, United Pressed Products Co. et al., Docket 5731, Oct. 24, 1950]

In the Matter of United Pressed Products Company, a Corporation, and Harry Raffles, Frank Raffles, and Julius Raffles, Individually, and as Officers of United Pressed Products Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all of the material allegations of fact set forth in the complaint and waive all intervening procedure and further hearings as to said facts, and the Commission having made its findings as to the facts and conclusion that respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent United Pressed Products Company, a corporation, and its officers, agents, representatives, and employees, and respondents Harry Raffles, Frank Raffles, and Julius Raffles, and their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of respondents' crystal radio receiving sets in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing that under ordinary and usual conditions respondents' radios have a receiving range of from 25 to 50 miles or greater distances, or otherwise representing that the ordinary and usual receiving range of such sets is in excess of their actual capacity to provide reception only for powerful, local broadcasting stations.

(2) Representing that respondents' radios will afford increased selectivity by use of a condenser.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: October 24, 1950.

By the Commission.

[Docket 5730]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

JAMES H. CHRISTIE DBA UNITED SURVEYS

Subpart—*Misrepresenting oneself and goods—Goods:* § 3.1625 *Free goods; Price;* § 3.1825 *Usual as reduced or to be increased.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1955 *Free goods;* § 3.1985 *Individual's special selection or situation;* § 3.2070 *Special offers, savings and discounts.* In connection with the offering for sale, sale and distribution of books or other publications, of whatever nature, in commerce, representing, directly or by implication, (1) that respondent's combination offer of the New Standard Encyclopedia and the supplements published for the purpose of keeping the encyclopedia current is an introductory or special offer for advertising purposes; (2) that such offer is at a reduced or special price, substantially lower than the usual or regular selling price, for the books and publications included therein; (3) that such offer is made only to selected persons in a particular community or area; or, (4) that any other books or publications are given without cost to the purchaser when the price of the offer has been fully paid; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 3, 38 Stat. 719, as amended; 15 U. S. C., 45) [Cease and desist order, James H. Christie dba United Surveys, Docket 5730, Oct. 26, 1950]

This proceeding was heard by Frank Hier, trial examiner theretofore designated by the Federal Trade Commission for that purpose, upon the complaint of the Commission, the answer of the respondent, and testimony and other evidence in support of and in opposition to the allegations of the complaint, introduced before the above named trial examiner, which were duly recorded and filed in the office of the Commission;

Thereafter the proceeding regularly came on for final consideration by said trial examiner on the complaint, the answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by all counsel; and said trial examiner, having duly considered the record in said cause, and having found that said proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts and conclusions drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII, became the decision of the Commission on October 26, 1950.

The said order to cease and desist is as follows:

It is ordered, That James H. Christie, his employees, representatives, or agents, trading under the name United Surveys, or under any other name, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of books or other publications, of whatever nature, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That respondent's combination offer of the New Standard Encyclopedia and the supplements published for the purpose of keeping the encyclopedia current is an introductory or special offer for advertising purposes.

2. That such offer is at a reduced or special price, substantially lower than the usual or regular selling price, for the books and publications included therein.

3. That such offer is made only to selected persons in a particular community or area.

4. That any other books or publications are given without cost to the purchaser when the price of the offer has been fully paid.

By "Decision of the Commission and Order to File Report of Compliance", Docket 5730, October 26, 1950, which announced fruition of said initial decision, report of compliance with the order was required as follows:

It is ordered, That the respondent, James J. Christie, shall within sixty (60) days after service upon him of this order file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: October 26, 1950.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 51-155; Filed, Jan. 4, 1951; 8:50 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5824]

PART 178—WINE

PART 183—PRODUCTION OF DISTILLED SPIRITS

PART 184—PRODUCTION OF BRANDY

PART 185—WAREHOUSING OF DISTILLED SPIRITS

TEMPORARY USE OF TANK TRUCKS

1. In order to authorize the temporary use of tank trucks, as an emergency measure, upon the showing of the unavailability of tank cars, for the transportation of distilled spirits (including brandy), produced at 160 degrees of proof or more, transferred in bond between registered distilleries, fruit distilleries, and internal revenue bonded warehouses and of brandy withdrawn from fruit distilleries or internal revenue bonded warehouses for the fortification of wine, the following regulations are hereby prescribed:

2. Regulations 4 "Production of Distilled Spirits" (26 CFR Part 183; 15 F. R. 5334) are amended as follows:

SUBPART W—TAX-PAYMENT, REMOVAL, AND TRANSFER OF DISTILLED SPIRITS FROM CISTERN ROOM

* * * * *

TEMPORARY USE OF TANK TRUCKS FOR TRANSFERS IN BOND

Sec.
183.506a General.
183.506b Type of motor carrier.
183.506c Construction of tank trucks.
183.506d Bond; transportation by motor carrier.
183.506e Bond; transportation by consignor or consignee.
183.506f Removal in tank trucks.
183.506g Receipts in tank trucks.

AUTHORITY: §§ 183.506a to 183.506g issued under 53 Stat. 375; 26 U. S. C. 3176. Interpret or apply 53 Stat. 314, 335, as amended; 26 U. S. C. 2820, 2883.

§ 183.506a *General.* Upon a showing of the unavailability of tank cars for the transportation of distilled spirits, produced at 160 degrees of proof or more, authorized by §§ 183.483 (b) (3), 183.486 (b), 183.487 (c) (3), 183.491 (b), 183.492 (b) (2), 183.495 (b), 183.496 (a) (2), 183.499 (b), 183.500 (b) (3), and 183.503 (b), the district supervisor, as an emergency measure, may authorize the temporary use of tank trucks for such transportation, subject to the provisions of §§ 183.506b–183.506g and the applicable provisions of this part governing the transfer in bond of distilled spirits in tank cars.

§ 183.506b *Type of motor carrier.* Transportation by tank trucks authorized by § 183.506a shall be made (a) by a motor carrier licensed under the Motor Carrier Act of 1935 or an applicable state law, or a private carrier employed by, or acting as agent for, the consignor or consignee, who is actively and regularly engaged generally in the legitimate business of transportation, who possesses adequate facilities to insure safe delivery at destination of any distilled spirits transported by him, and who is approved by the district supervisor; or (b) by the consignor or consignee acting as a private carrier.

§ 183.506c *Construction of tank trucks.* Every tank truck used to transport distilled spirits in bond must conform to the following requirements: The tank shall be securely and permanently attached to the frame or chassis of the truck or trailer and shall be securely constructed. Interior bulkheads or stiffeners must have proper drainage cutouts. Manhole covers, outlet valves, vents or pressure relief valves, and all other openings shall be equipped for sealing so as to prevent unauthorized access to the contents of the tank. Outlets of each compartment must be so arranged that delivery of any compartment will not afford access to the contents of any other compartment. Partial delivery, by meter or otherwise, will not be permitted. There shall be but one consignor per load and the entire contents of all compartments shall be delivered to one consignee, unless the district supervisor, for good cause, authorizes the use of separate compartments for different consignors or consignees. Calibrated charts, prepared or certified by competent and recognized authorities or engineers, showing the capacity of each compartment in wine gallons for each inch of depth shall be carried in each truck. Each tank truck shall also be equipped with a route board, at least 10 by 12 inches, constructed of substantial material and permanently attached thereto by round-headed or carriage bolts, nutted and riveted, battered or welded. Each tank truck must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name of the owner, in letters at least four inches in height. If the tank truck consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A", "B", etc., and the capacity in wine gallons of each compartment must be marked thereon. Provision shall also be made for protection, against the weather, of the label by the use of celluloid or equally substantial material. The prescribed label (as required by § 183.506f) will be affixed to such route board. Tank trucks shall be so constructed that the contents of each compartment will drain completely, even when the ground is not perfectly level. Suitable ladders and cat walks, permanently attached, must be provided in order to permit ready examination of manholes and other openings. Provision shall be made for the proper grounding of tank trucks when filling or emptying.

§ 183.506d *Bond; transportation by motor carrier.* Motor carriers, as defined in § 183.506b, desiring to transport distilled spirits in bond, in tank trucks, must file with the district supervisor a bond on Form 49, "Bond to Transport Specially Denatured or Tax-free Alcohol," modified to read "Bond to Transport Distilled Spirits". The penal sum of the bond shall be at the rate of $75,000 for each such tank truck and not more than $200,000 for the total of all tank trucks used. The bond shall be filed in triplicate, appropriately modified.

§ 183.506e *Bond; transportation by consignor or consignee.* A consignor or consignee, in order to transport distilled spirits in bond, in tank trucks controlled and operated by such consignor or consignee, must file with the district supervisor a bond on Form 49, properly modified, in the penal sum specified in § 183.506d: *Provided*, That in lieu of filing such bond, the consignor or consignee may file consent of surety, Form 1533, on his bond, Form 30, 30½, or Form 1571, as the case may be, extending the terms thereof to cover the tax, together with penalties and interest, for which he may become liable, on all distilled spirits transported by him in tank trucks. If the transportation is by the consignor or consignee distiller and the maximum of his bond is not sufficient when computed as set forth in § 183.506d, an additional bond on Form 49 in a sufficient penal sum must be furnished to cover the additional liability. If the transportation is by the consignee warehouseman and the maximum of his bond is not sufficient when computed as set forth in § 183.506d, an additional bond on Form 49 or 1571 in a sufficient penal sum must be furnished to cover the additional liability.

§ 183.506f *Removal in tank trucks.* Tank trucks used for the transportation of distilled spirits in bond must be filled in the immediate presence of the storekeeper-gauger. Prior to filling, the storekeeper-gauger shall determine whether the tank truck is properly marked and may be effectively sealed. If the tank truck does not meet such requirements, its use for the transportation of distilled spirits in bond will not be permitted. Immediately after filling, the storekeeper-gauger shall seal the tank truck in such a manner as will secure all openings affording access to the contents of the tank. The storekeeper-gauger will enter on Form 1520, covering the description and gauge of the distilled spirits, the number of inches of distilled spirits loaded into each compartment and the temperature thereof at the time of filling, the name of the carrier, the number of the tank truck, the state license number of the truck, the driver's full name, and the driver's permit number and State issuing the same, the destination, the date of shipment, and the serial numbers of the cap seals used. Forms 236 and 1520 will be disposed of in accordance with § 183.572 or 183.580, as the case may be. The consignor shall securely attach to the route board of the tank truck a label showing the name, registry number and location (city or town and state) of the shipping registered distillery; the name, registry number and location (city or town and state) of the receiving internal revenue bonded warehouse, fruit distillery, or other registered distillery, as the case may be, followed by the date of shipment; and the quantity in wine and proof gallons contained in each compartment. (Such label shall be destroyed upon emptying the tank truck.)

§ 183.506g *Receipts in tank trucks.* Where distilled spirits for redistillation are received in tank trucks from a distillery or from an internal revenue bonded warehouse, the seals must be broken by the storekeeper-gauger at the receiving distillery and no distilled spirits may be removed from the tank truck except in the presence of such officer. The storekeeper-gauger will carefully examine the tank truck for evidence of loss, and gauge and report the quantity received in accordance with the applicable provisions of § 183.439. When the gauge of spirits received discloses discrepancies between the shipping and receiving gauges, the applicable procedure prescribed by § 183.440 will be followed.

3. Regulations 5 "Production of Brandy" (26 CFR Part 184; 15 F. R. 5552) are amended as follows:

SUBPART X—TAX-PAYMENT, REMOVAL AND TRANSFER OF BRANDY FROM DISTILLERY

* * * * * *

TEMPORARY USE OF TANK TRUCKS FOR TRANSFERS IN BOND AND REMOVALS FOR FORTIFICATION OF WINE

Sec.
184.553a General.
184.553b Type of motor carrier.
184.553c Construction of tank trucks.

Sec.
184.553d Bond; transportation by motor carrier.
184.553e Bond; transportation by consignor or consignee.
184.553f Removal in tank trucks.
184.553g Receipts in tank trucks.

AUTHORITY: §§ 184.553a to 184.553g, issued under 53 Stat. 375; 26 U. S. C. 3176. Interpret or apply 53 Stat. 316, as amended, 335 as amended; 26 U. S. C. 2825, 2883.

§ 184.553a *General.* Notwithstanding the prohibition in § 184.553, and upon a showing of the unavailability of tank cars for the transportation of brandy, produced at 160 degrees of proof or more, authorized by §§ 184.535 (b) (2), 184.537 (b) and 184.539 (b), the district supervisor, as an emergency measure, may authorize the temporary use of tank trucks for such transportation, subject to the provisions of §§ 184.553b–184.553g and the applicable provisions of this part governing the transfer in bond of brandy and the removal of brandy for the fortification of wine, in tank cars.

§ 184.553b *Type of motor carrier.* Transportation by tank trucks authorized by § 184.553a shall be made (a) by a motor carrier licensed under the Motor Carrier Act of 1935 or an applicable state law, or a private carrier employed by, or acting as agent for, a consignor or consignee, who is actively and regularly engaged generally in the legitimate business of transportation, who possesses adequate facilities to insure safe delivery at destination of any brandy transported by him, and who is approved by the district supervisor; or (b) by the consignor or consignee acting as a private carrier.

§ 184.553c *Construction of tank trucks.* Every tank truck used to transport brandy in bond, or for removal for the fortification of wine, must conform to the following requirements: The tank shall be securely and permanently attached to the frame or chassis of the truck or trailer and shall be securely constructed. Interior bulkheads or stiffeners must have proper drainage cut-outs. Manhole covers, outlet valves, vents or pressure relief valves, and all other openings shall be equipped for sealing so as to prevent unauthorized access to the contents of the tank. Outlets of each compartment must be so arranged that delivery of any compartment will not afford access to the contents of any other compartment. Partial delivery, by meter or otherwise, will not be permitted. There shall be but one consignor per load and the entire contents of all compartments shall be delivered to one consignee, unless the district supervisor, for good cause, authorizes the use of separate compartments for different consignors or consignees. Calibrated charts, prepared or certified by competent and recognized authorities or engineers, showing the capacity of each compartment in wine gallons for each inch of depth shall be carried in each truck. Each tank truck shall also be equipped with a route board at least 10 by 12 inches, constructed of substantial material and permanently attached thereto by round-headed or carriage bolts, nutted and riveted, battered or welded. Each tank truck must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name of the owner, in letters at least four inches in height. If the tank truck consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A", "B", etc., and the capacity in wine gallons of each compartment must be marked thereon. Provision shall also be made for protection, against the weather, of the label by the use of celluloid or equally substantial material. The prescribed label (as required by § 184.553f) will be affixed to such route board. Tank trucks shall be so constructed that the contents of each compartment will drain completely, even when the ground is not perfectly level. Suitable ladders and cat walks, permanently attached, must be provided in order to permit ready examination of manholes and other openings. Provision shall be made for the proper grounding of tank trucks when filling or emptying.

§ 184.553d *Bond; transportation by motor carrier.* Motor carriers, as defined in § 184.553b, desiring to transport, in tank trucks, brandy in bond or for removal for fortification of wine, must file with the district supervisor a bond on Form 49, "Bond to Transport Specially Denatured or Tax-free Alcohol," modified to read "Bond to Transport Distilled Spirits". The penal sum of the bond shall be at the rate of $75,000 for each tank truck and not more than $200,000 for the total of all tank trucks used. The bond shall be filed in triplicate, appropriately modified.

§ 184.553e *Bond; transportation by consignor or consignee.* A consignor or consignee, in order to transport brandy in bond, or to remove brandy for fortification of wine, in tank trucks controlled and operated by such consignor or consignee, must file with the district supervisor, a bond on Form 49, properly modified, in the penal sum specified in § 184.553d: *Provided*, That in lieu of filing such bond, the consignor distiller or consignee distiller or warehouseman may file consent of surety, Form 1533, on his bond, Form 30, Form 30½, or Form 1571, as the case may be, extending the terms thereof to cover the tax, together with penalties and interest for which be may become liable, on all brandy transported by him in tank trucks. If the transportation is by the consignor or consignee distiller and the maximum of his bond, Form 30 or Form 30½, is not sufficient when computed as set forth in § 184.553d, an additional bond on Form 49 in a sufficient penal sum must be furnished to cover the additional liability. If the transportation is by the consignee warehouseman, and the maximum of his bond, Form 1571, is not sufficient when computed as set forth in § 184.553d, an additional bond on Form 49 or on Form 1571, in a sufficient penal sum must be furnished to cover the additional liability. If the transportation is by the consignee winemaker, he may file a consent of surety on his bond, Form 700–A, and an additional bond on Form 49 in a sufficient penal sum to cover the additional liability.

§ 184.553f *Removal in tank trucks.* Tank trucks used for the transportation of brandy in bond or for removal of brandy for fortification of wine must be filled in the immediate presence of the storekeeper-gauger. Prior to filling, the storekeeper-gauger shall determine whether the tank truck is properly marked and may be effectively sealed. If the tank truck does not meet such requirements, its use for the transportation of brandy will not be permitted. Immediately after filling, the storekeeper-gauger shall seal the tank truck in such a manner as will secure all openings affording access to the contents of the tank. The storekeeper-gauger will enter on Form 1520, covering the description and gauge of the brandy, the number of inches of brandy loaded into each compartment and the temperature thereof at the time of filling, the name of the carrier, the number of the tank truck, the state license number of the truck, the driver's full name, and the driver's permit number and State issuing the same, the destination, the date of shipment, and the serial numbers of the cap seals used. Forms 236 and 1520 will be disposed of in accordance with § 184.612 or § 184.620, as the case may be. The consignor shall securely attach to the route board of the tank truck a label showing the name, registry number and location (city or town and state) of the shipping fruit distillery; the name, registry number and location (city or town and state) of the receiving internal revenue bonded warehouse, registered distillery, or other fruit distillery, or bonded winery, as the case may be, followed by the date of shipment; and the quantity in wine and proof gallons contained in each compartment. (Such label shall be destroyed upon emptying the tank truck.)

§ 184.553g *Receipts in tank trucks.* Where brandy for redistillation is received in tank trucks from a distillery or an internal revenue bonded warehouse, the seals must be broken by a storekeeper-gauger at the fruit distillery and no brandy may be removed from the tank truck except in the presence of such officer. The storekeeper-gauger will carefully examine the tank truck for evidence of loss, and gauge and report the quantity received in accordance with the applicable provisions of § 184.484. Where the gauge of brandy received discloses discrepancies between the shipping and receiving gauges, the applicable procedure prescribed by § 184.485 will be followed.

4. Regulations 7 "Production, Fortification, Tax-payment, Etc., of Wines" (26 CFR Part 178; 10 F. R. 12307) are amended as follows:

SUBPART B—THE FORTIFICATION OF WINE

* * * * *

MANNER OF PROCURING BRANDY FROM FRUIT DISTILLERIES AND INTERNAL REVENUE BONDED WAREHOUSES

* * * * *

Temporary Use of Tank Trucks for Procurement of Brandy

Sec.
178.467a General.
178.467b Receipts in tank trucks.

AUTHORITY: §§ 178.467a and 178.467b issued under 53 Stat. 375, 477; 26 U. S. C. 3176, 3901. Interpret or apply 53 Stat. 335, as amended, 348, as amended, 350, as amended, 351, 352, as amended, 355, as amended; 26 U. S. C. 2883, 3031, 3032, 3033, 3036, 3044, 3045.

§ 178.467a *General.* Upon a showing of the unavailability of tank cars for the transportation of brandy, produced at 160 degrees of proof or more, from fruit distilleries and internal revenue bonded warehouses to a bonded winery for the fortification of wine, authorized by §178.449, the district supervisor, as an emergency measure, may authorize the temporary use of tank trucks for such transportation, subject to the provisions of Regulations 5 (26 CFR Part 184) or Regulations 10 (26 CFR Part 185), as the case may be, and the applicable provisions of this part governing the procuring of brandy from fruit distilleries and internal revenue bonded warehouses in tank cars.

§ 178.467b *Receipts in tank trucks.* Where brandy is received in tank trucks from a fruit distillery or internal revenue bonded warehouse the seals must be broken by a Government officer assigned to the bonded winery and no brandy may be removed from the tank truck except in the presence of such officer. The Government officer will carefully examine the tank truck for evidence of loss, and gauge and report the quantity received in accordance with the applicable provisions of § 178.466. Where the gauge of brandy received discloses discrepancies between the shipping and receiving gauges, the applicable procedure prescribed by § 178.467 will be followed.

5. Regulations 10 "Warehousing of Distilled Spirits" (26 CFR Part 185; 15 F. R. 5233) are amended as follows:

SUBPART AA—WITHDRAWAL OF DISTILLED SPIRITS FROM WAREHOUSE

TEMPORARY USE OF TANK TRUCKS FOR TRANSFERS IN BOND AND REMOVALS FOR FORTIFICATION OF WINE

Sec.
185.579a General.
185.579b Type of motor carrier.
185.579c Construction of tank trucks.
185.579d Bond; transportation by motor carrier.
185.579e Bond; transportation by consignor or consignee.
185.579f Removal in tank trucks.
185.579g Receipts in tank trucks.

AUTHORITY: §§ 185.579a to 185.579g issued under 53 Stat. 375, 492; 26 U. S. C. 3176, 4017. Interpret or apply 53 Stat. 332, 335, as amended; 26 U. S. C. 2875, 2883. Other statutory provisions interpreted or applied are cited to text in parentheses.

§ 185.579a *General.* Notwithstanding the prohibition in § 185.561, and upon a showing of the unavailability of tank cars for the transportation of distilled spirits, produced at 160 degrees of proof or more, authorized by §§ 185.690 (d), 185.725, and 185.868, the district supervisor, as an emergency measure, may authorize the temporary use of tank trucks for such transportation, subject to the provisions of §§ 185.579b–185.579g and the applicable provisions of this part governing the transfer in bond of distilled spirits and the removal of brandy for fortification of wine, in tank cars.

§ 185.579b *Type of motor carrier.* Transportation by tank trucks authorized by § 185.579a shall be made (a) by a motor carrier licensed under the Motor Carrier Act of 1935 or an applicable state law, or a private carrier employed by, or acting as agent for, the consignor or consignee, who is actively and regularly engaged generally in the legitimate business of transportation, who possesses adequate facilities to insure safe delivery at destination of any distilled spirits transported by him, and who is approved by the district supervisor; or (b) by the consignor or consignee acting as a private carrier.

§ 185.579c *Construction of tank trucks.* Every tank truck used to transport distilled spirits in bond must conform to the following requirements: The tank shall be securely and permanently attached to the frame or chassis of the truck or trailer and shall be securely constructed. Interior bulkheads or stiffeners must have proper drainage cut-outs. Manhole covers, outlet valves, vents or pressure relief valves, and all other openings shall be equipped for sealing so as to prevent unauthorized access to the contents of the tank. Outlets of each compartment must be so arranged that delivery of any compartment will not afford access to the contents of any other compartment. Partial delivery, by meter or otherwise, will not be permitted. There shall be but one consignor per load and the entire contents of all compartments shall be delivered to one consignee, unless the district supervisor, for good cause, authorizes the use of separate compartments for different consignors or consignees. Calibrated charts, prepared or certified by competent and recognized authorities or engineers, showing the capacity of each compartment in wine gallons for each inch of depth shall be carried in each truck. Each tank truck shall also be equipped with a route board, at least 10 by 12 inches, constructed of substantial material and permanently attached thereto by round-headed or carriage bolts, nutted and riveted, battered or welded. Each tank truck must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name of the owner in letters at least four inches in height. If the tank truck consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A", "B", etc., and the capacity in wine gallons of each compartment must be marked thereon. Provision shall also be made for protection, against the weather, of the label by the use of celluloid or equally substantial material. The prescribed label (as required by § 185.579f) will be affixed to such route board. Tank trucks shall be so constructed that the contents of each compartment will drain completely, even when the ground is not perfectly level. Suitable ladders and cat walks, permanently attached, must be provided in order to permit ready examination of manholes and other openings. Provision shall be made for the proper grounding of tank trucks when filling or emptying.

§ 185.579d *Bond; transportation by motor carrier.* Motor carriers, as defined in § 185.579b, desiring to transport distilled spirits in bond, in tank trucks, must file with the district supervisor a bond on Form 49, "Bond to Transport Specially Denatured or Taxfree Alcohol," modified to read "Bond to Transport Distilled Spirits". The penal sum of the bond shall be at the rate of $75,000 for each such tank truck and not more than $200,000 for the total of all tank trucks used. The bond shall be filed in triplicate, appropriately modified.

§ 185.579e *Bond; transportation by consignor or consignee.* A consignor or consignee, in order to transport distilled spirits in bond, or to remove brandy for fortification of wine, in tank trucks controlled and operated by such consignor or consignee, must file with the district supervisor, a bond on Form 49, properly modified, in the penal sum specified in § 185.579d: *Provided*, That in lieu of filing such bond, the consignor warehouseman or consignee distiller or warehouseman may file consent of surety, Form 1533, on his bond, Form 30, Form 30½, or Form 1571, as the case may be, extending the terms thereof to cover the tax, together with penalties and interest, for which he may become liable, on all distilled spirits transported by him in tank trucks. If the transportation is by the consignor or consignee warehouseman and the maximum of his bond, Form 1571, is not sufficient when computed as set forth in § 185.579d, an additional bond on Form 49 or 1571 in a sufficient penal sum must be furnished to cover the additional liability. If the transportation is by the consignee distiller, and the maximum of his bond, Form 30 or Form 30½, is not sufficient when computed as set forth in § 185.579d, an additional bond on Form 49 or on Form 30, or Form 30½, as the case may be, in a sufficient penal sum must be furnished to cover the additional liability. If the transportation is by the consignee winemaker, he may file a consent of surety on his bond, Form 700–A, and an additional bond on Form 49 in a sufficient penal sur.. to cover the additional liability.

§ 185.579f *Removal in tank trucks.* Tank trucks used for the transportation of distilled spirits in bond or for removal of brandy for the fortification of wine must be filled in the immediate presence of the storekeeper-gauger. Prior to filling, the storekeeper-gauger shall determine whether the tank truck is properly marked and may be effectively sealed. If the tank truck does not meet such requirements, its use for the transportation of distilled spirits (including brandy) will not be permitted. Immediately after filling, the storekeeper-gauger shall seal the tank truck in such a manner as will secure all openings affording access to the contents of the tank. The storekeeper-gauger will enter on Form 1520, covering the description and gauge of the distilled spirits, the number of inches of distilled spirits loaded into each compartment and the temperature thereof at the time of filling, the name of the carrier, the number of the tank truck, the state license number of the truck, the driver's full name, and

the driver's permit number and State issuing the same, the destination, the date of shipment, and the serial numbers of the cap seals used. Forms 236 and 1520 will be disposed of in accordance with § 185.706 or 185.711, as the case may be. The consignor shall securely attach to the route board of the tank truck a label showing the name, registry number and location (city or town and state) of the shipping internal revenue bonded warehouse; the name, registry number and location (city or town and state) of the receiving internal revenue bonded warehouse, registered distillery, fruit distillery, or bonded winery, as the case may be, followed by the date of shipment; and the quantity in wine and proof gallons contained in each compartment. (Such label shall be destroyed upon emptying the tank truck.)

§ 185.579g *Receipts in tank trucks.* Where distilled spirits are received in tank trucks from a distillery or another internal revenue bonded warehouse, the seals must be broken by a storekeeper-gauger at the warehouse and no distilled spirits may be removed from the tank truck except in the presence of such officer. The storekeeper-gauger will carefully examine the tank truck for evidence of loss, and gauge and report the quantity received in accordance with the applicable provisions of § 185.369. Where the gauge of distilled spirits received discloses discrepancies between the shipping and receiving gauges, the applicable procedure prescribed by § 185.486 will be followed.

(53 Stat. 333, 340, as amended; 26 U. S. C. 2879, 2901)

6. It is found that compliance with the notice, public rule-making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001 et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

7. This Treasury decision will be effective upon the date of publication in the FEDERAL REGISTER.

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: December 29, 1950.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 51-157; Filed, Jan. 4, 1951; 8:51 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Order M-12 as amended Dec. 30, 1950]

PART 29—COPPER AND COPPER-BASE ALLOYS

SUBPART B—USE OF COPPER AND COPPER-BASE ALLOYS

This amendment to NPA Order M-12, dated November 29, 1950, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

This amendment affects NPA Order M-12 as follows: Paragraph (c) of § 29.23 is revised; a new § 29.27 is added and present §§ 29.27 through 29.33 are redesignated §§ 29.28 through 29.34; references to §§ 29.27 and 29.28 are changed to read "§ 29.28" and "§ 29.29", respectively, whenever they occur; a new § 29.35 *List A* is added.

As amended, Order M-12 is revised to read as follows:

Sec.
29.21 What this subpart does.
29.22 Definitions.
29.23 Copper forms and products to which this subpart applies.
29.24 Application of subpart.
29.25 Production of brass mill products, copper wire mill products and foundry products.
29.26 Use of copper forms and products.
29.27 Use of copper in manufacture and construction.
29.28 Maintenance, repair and operating supplies.
29.29 Exemptions.
29.30 Inventories.
29.31 Applications for adjustment.
29.32 Records and reports.
29.33 Communications.
29.34 Violations.
29.35 List A.

AUTHORITY: §§ 29.21 to 29.35 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, F. R. 6105.

§ 29.21 *What this subpart does.* The purpose of this subpart is to describe how the copper remaining after allowing for the requirements of national defense may be distributed and used in the civilian economy. It is the policy of the National Production Authority that copper and articles made of copper, not required to fill rated orders, shall be distributed equitably through normal channels of distribution, and that due regard shall be given by suppliers to the needs of new and small business. It is the intent of this subpart that other materials which are not in short supply shall be substituted for copper and copper-base alloy wherever possible.

§ 29.22 *Definitions.* As used in this subpart:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Base period" means the six-months period ending June 30, 1950.

(c) "Manufacture" means to put into process, machine, incorporate into products, fabricate or otherwise alter the forms and products of copper defined in § 29.23 by physical or chemical means, and includes the use of copper in plating.

(d) "Maintenance" means the minimum upkeep necessary to continue a building, machine, piece of equipment or facility in sound working condition, and "repair" means the restoration of a building, machine, piece of equipment or facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided, however,* Neither maintenance nor repair includes the improvement of any such item with materials of a better kind, quality or design.

(e) "Operating supplies" means any copper or copper-base alloy forms or products listed in § 29.23 which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies.

§ 29.23 *Copper forms and products to which this subpart applies.* This subpart applies to the following forms and products of copper: Copper, copper-base alloy, brass mill products, copper wire mill products, and foundry copper products and copper-base alloy products. For the purpose of this subpart, these items are defined as follows:

(a) "Copper" means unalloyed copper. (It includes electrolytic copper, fire refined copper and all unalloyed copper in any form including scrap.)

(b) "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40 percent of the total weight of the alloy. (It shall include fired and demilitarized cartridge and artillery cases, and all copper-base alloy, as specified above, in any form including scrap.) It does not include alloyed gold produced in accordance with U. S. Commercial standard CS67-38.

(c) "Brass mill product" means sheet, including strip and plate; rod, including bars, forgings (rough as forged), and extruded shapes; wire; or tube, including pipe; made from copper or copper-base alloy. This does not include copper wire mill products.

(d) "Copper wire mill product" means bare wire, insulated wire and cable whatever the outer protective coverings may be, and uninsulated wire and cables, where the conductors are made from copper, copper-base alloy, or copper clad steel containing over 20 percent copper by weight. All copper wire mill products should be measured in terms of pounds of copper content.

(e) "Foundry products" means cast copper and copper-base alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding or forging. (Includes the removal of gates, risers and sprues, and sandblasting, tumbling, or dipping, but excludes any further machining or processing.)

§ 29.24 *Application of subpart.* Subject to the exemptions stated in § 29.29, this subpart applies to all persons who produce brass mill products, copper wire mill products or foundry products as listed in § 29.23, or who use any of the forms and products of copper defined in paragraphs (a), (b), (c), (d), and (e) of § 29.23 for the purpose of manufacture, use in installation or construction, or for maintenance, repair or operating supplies. This subpart does not apply to persons who use copper or copper-base alloy in the production of other metals or metal alloys.

§ 29.25 *Production of brass mill products, copper wire mill products and foundry products.* Subject to the exemptions stated in § 29.29, or unless specifically directed by the National Production Authority:

(a) No person shall produce during the following months a total quantity by weight of brass mill products and copper wire mill products in excess of the percentages specified with respect to each month of his average monthly production of such products during the base period:

	Percent
January, 1951	85
February, 1951	85
March, 1951	80

(b) During the calendar quarter commencing on January 1, 1951, no person shall produce a total quantity by weight of foundry products in excess of 100 percent of this average quarterly production of foundry products during the base period.

§ 29.26 *Use of copper forms and products.* Subject to the exemptions stated in § 29.29, or unless specifically directed by the National Production Authority, no person shall manufacture, or use in installation or construction:

(a) During December 1950, a total quantity by weight of the forms and products of copper defined in paragraphs (a), (b), (c), (d) and (e) of § 29.23 in excess of 100 percent of his average monthly use of such material in October and November 1950.

(b) During the following months a total quantity by weight of the forms and products of copper defined in paragraphs (a), (b), (c), and (d) of § 29.23 in excess of the percentages specified with respect to each month of his average monthly use of such material during the base period:

	Percent
January, 1951	85
February, 1951	85
March, 1951	80

(c) During the calendar quarter commencing on January 1, 1951, a total quantity by weight of foundry products in excess of 100 percent of his average quarterly use of such products during the base period.

§ 29.27 *Use of copper in manufacture and construction.* (a) Commencing on March 1, 1951, copper in the forms and products defined in § 29.23 may not be used in the manufacture of any item included in § 29.35 (List A) except as indicated therein; *Provided, however,* That any such items may be completed if they were in the process of manufacture on or before March 1, 1951 and such completion is effected not later than April 30, 1951, and any such items so completed may be sold after April 30, 1951.

(b) During each of the months of January and February, 1951, subject to the limitations on use in manufacture stated in § 29.26, no person may use in the manufacture of the items on § 29.35 (List A) a total quantity by weight of the copper forms or products defined in paragraphs (a), (b), (c) and (d) of § 29.23 in excess of 85 percent, or of the foundry products defined in paragraph (e) of said section in excess of 100 percent, of his average monthly use of such material during the base period.

(c) Any person who uses in construction any brass mill product as such for any item included in § 29.35 (List A) may not accept delivery of or use such product for this purpose after April 30, 1951.

(d) The following items included in § 29.35 (List A) shall be exempt from the application of this section if they are used on vessels other than pleasure craft: (1) Furnishings, fittings and fixtures when located within the sphere of the magnetic compasses; and (2) builders hardware, building materials and snap hooks where the properties supplied by copper are essential and satisfactory substitutes not available.

(e) Commencing on March 1, 1951, no person may use: (1) In the manufacture of any item, including components and parts therefor, a greater quantity or better grade of the copper forms and products defined in § 29.23 than is necessary for the functional operation of such items; or (2) any such copper forms or products for decorative purposes.

(f) The exemptions contained in § 29.29 relating to the filling of rated orders and the use of small quantities of copper forms and products are not applicable to the items included in § 29.35 (List A).

§ 29.28 *Maintenance, repair and operating supplies.* Unless specifically directed by the National Production Authority, during the calendar quarter commencing on January 1, 1951, and each calendar quarter thereafter, no person shall use for maintenance, repair and operating supplies a quantity by weight of the forms and products of copper defined in paragraphs (a), (b), (c), (d) and (e) of § 29.23 in excess of 100 percent of his average quarterly use for such purposes during the base period.

§ 29.29 *Exemptions.* (a) The production of brass mill, wire mill and foundry products is permitted to fill rated orders, or to meet any mandatory order of the National Production Authority, in addition to the production permitted by the provisions of § 29.25.

(b) Copper forms and products defined in § 29.23 acquired with ratings or to meet a National Production Authority scheduled program may be used in addition to the quantities permitted by the provisions of §§ 29.26 and 29.28.

(c) The provisions of §§ 29.25, 29.26 and 29.27 do not apply to persons who use less than 1,000 lbs. of the copper forms and products defined in § 29.23 during any calendar quarter: *Provided, however,* That persons who by reason of the provisions of § 29.26 would be permitted to use less than 1,000 lbs. during any calendar quarter, may use during such period a quantity up to 1,000 lbs.

§ 29.30 *Inventories.* In addition to the provisions of Part 10 of this chapter (NPA Reg. 1) relating to Inventory Controls, it is considered that a more exact requirement applying to producers of brass mill products, copper wire mill products and foundry products, and to users of the copper forms and products definied in § 29.23 is necessary.

(a) No person producing brass mill products, copper wire mill products or foundry products may receive or accept delivery of copper or copper-base alloy if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this subpart during the succeeding 45-day period, or in excess of a "practicable minimum working inventory" (as defined in Part 10 of this chapter (NPA Reg. 1)), whichever is less.

(b) No person obtaining copper forms or products defined in § 29.23 for use in manufacture, installation or construction, or for maintenance, repair or operating supplies, may receive or accept delivery of a quantity of such forms and products if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this Order during the succeeding 60-day period, or in excess of a "practicable minimum working inventory" (as defined in Part 10 of this chapter (NPA Reg. 1)), whichever is less.

(c) For the purpose of this section, any copper forms and products defined in § 29.23, in which minor changes or alterations have been effected, shall be included in inventory. Part 10 of this chapter (NPA Reg. 1) will apply to all such forms and products except as modified by this section.

§ 29.31 *Applications for adjustment.* Any person affected by any provision of this subpart may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this subpart, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 29.32 *Records and reports.* (a) Persons subject to this subpart shall preserve the records which they have maintained of production, inventories, receipts, deliveries and uses of copper

forms and products defined in § 29.23 commencing with January 1, 1950.

(b) Persons subject to this subpart shall make records and submit such reports to the National Production Authority as it shall require subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139–139F).

§ 29.33 *Communications.* All communications concerning this subpart shall be addressed to the National Production Authority, Washington 25, D. C. Ref: M–12.

§ 29.34 *Violations.* Any person who wilfully violates any provisions of this subpart or any other order or regulation of the National Production Authority or wilfully conceals a material fact or furnishes false information in the course of operation under this subpart is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

§ 29.35 *List A.* (See § 29.27.) The use of the forms and products of copper as defined in § 29.23 in the items listed under the descriptive sub-headings below (excluding repair parts) is prohibited except to the extent permitted by this order, or as specified on this list.

BUILDERS HARDWARE

Butts, hinges and related items.
Checking floor closers, overhead concealed, semi-concealed and surface door closers (except gland nuts, regulating screw assemblies and fusible links).
Closers, hanging brackets for.
Closers, screen door.
Cabinet hardware, including cabinet hinges.
Hangers, track and related items including—
- Sliding door hardware
- Folding door hardware
- Sliding—Folding door hardware
- Folding Partition hardware
- Upward Acting door hardware
- Fire door hardware (except bearings and fusible links).

Locks and lock trim (except that brass mill products may be used for cylinder assemblies and keys, for essential working parts of locks and and latches, for faces of locks and latches and for trim of cylinder lock sets).
Sash, screen, transom, casement hardware and shelf hardware items.
Spring hinges.
Sash balances.
Door holding devices.
Kick plates.
Push plates.
Door pulls.
Push bars.
House numbers.
Door knockers.
Letter boxes.
Nameplates.

BUILDING MATERIALS

Anchors and dowels (except safety anchors).
Bands on pipe insulation.
Bathtub enclosures and shower enclosures.
Blinds, including fixtures and fittings (except where essential for operating parts).
Caulking anchors.
Cement flooring and composition flooring (except that crude arsenical copper precipitate may be used for flooring in hospital operating and anesthesia rooms, for places where explosives are handled or stored and for places where explosive vapors may be present).
Chimneys and flues.
Conduits (except for instrument assemblies).
Cornices.
Door sills.
Door frames.
Doors.
Downspouts and accessories thereto.
Drains (except strainer grids for showers and urinals).
Drip pans.
Elevators and escalators (except for worm gears and parts necessary for conducting electricity).
Escutcheons and plates for floor, ceiling and wall use.
Fences and gates.
Food waste disposal units (except for current carrying parts, bearings and controls).
Gratings.
Grids (except for flooring in hospital operating rooms and anesthesia rooms, and for places where explosives are handled or stored and for places where explosive vapors may be present).
Grilles and shields, including fresh air inlet boxes and radiator and convector enclosures.
Gutters and accessories thereto.
Holdback hooks for curtains.
I. P. S. waste nipples.
Lavatory legs (excluding hospital types).
Leaders and accessories thereto.
Linoleum stripping.
Louvres.
Marquees.
Metal siding.
Mouldings for joining cabinet sinks.
Ornamental metal work; including grille work, railings, and fittings.
Pipe, I. P. S. and fittings (except for industrial process piping, chemical gas equipment, underground water and gas service connections and except for solder nipples, solder bushing and ferrules).
Tube, tubing and fittings for interior piping systems or for lawn sprinkling systems. This restriction does not apply to the use of tube, tubing and fittings for underground water or gas service connections or for chemical gas equipment, and industrial process tube, tubing and fittings.
Radiator covers and shields.
Railings and fittings.
Reglets, moulding and trim.
Rim protectors for fixtures.
Robe hooks.
Roofing.
Roofing nails (not including staples, clips and similar devices designed for the purpose of protecting shingles and siding against wind damage).
Shower curtain rods or bars (excluding hospital).
Shower door frames.
Shower goosenecks.
Skylights.
Stair and threshold treads, nosing and edgings.
Store fronts.
Straps and hangers for pipe supports.
Supply pipes, I. P. S. for plumbing fixtures such as lavatories, sinks and water closets.
Switch plates.
Tanks for automatic storage water heaters.
Traps, (except tube traps in 20 gauge without cleanouts and except traps cast from secondary metal).
Thresholds, and saddles.
Towel bars and brackets.
Unit heaters, unit ventilators, unit ventilator inlet wall boxes, and convectors, space or local heaters, and blast heating coils, or any apparatus using such coils as part of its construction (except that copper or copper base alloys may be used for valves, controls, bearings or parts necessary for conducting electricity, for fins, and for water or steam courses and headers).
Ventilators.
Vents.
Weatherstripping.
Window frames.
Window sills.
Windows.

BURIAL EQUIPMENT

Burial urns.
Burial vaults.
Caskets and casket hardware, (except copper or brass flash plate treatment necessary to prevent corrosion during period of manufacture and warehousing).
Memorial tablets.

CLOTHING AND DRESS ACCESSORIES, NOT INCLUDING SAFETY EQUIPMENT

Buckles.
Buttons, (except for utility buttons and for flash coatings).
Dress ornaments and trimmings.
Fittings: belt, corset, garter, glove, hand bag and purse, supports, suspenders (except zippers).
Insignia.
Metal cloths, laces, tassels, braids, embroidery, ribbons.
Millinery accessories and frames.
Artificial flowers.
Snaps, snap buttons, hooks and eyes (except for work clothing and industrial safety clothing, and except for utility fasteners where the weight is not more than five pounds per thousand units).

FURNISHINGS AND EQUIPMENT

Andirons, fireplace screens and fittings.
Candlesticks.
Curtain fasteners, rods and rings.
Cuspidors.
Gas heater and stove installation connections (except parts essential for proper functioning).
Lamp shades.
Mops.
Mud scrapers.
Portable heaters (except electric portable heaters).
Scrubbing boards.
Stoves and ranges for household cooking use—gas (except for burner valves and oven thermostats and for oil reservoirs).
Stoves and ranges other than gas stoves and ranges for household cooking use (except when the only copper products or copper base alloy products used are for valves, ferrules for compression fittings, controls, and parts necessary for conducting electricity or necessary for proper functioning).
Trays.
Upholsterers supplies, including nails and tacks.
Vases, pitchers, bowls, and artcraft (except laboratory).
Washing tubs and washing boilers.
Waste baskets, humidors and similar items

FURNITURE AND FIXTURES

Barber shop and beauty parlor furniture.
Household furniture.
Mattresses and bedsprings (except hospital).
Partitions, shelving and fixtures (except hospital and laboratory).
Public building and office furniture.
Reed and rattan furniture.
Restaurant furniture.
Venetian blinds (except where essential for operating parts).

HARDWARE, MISCELLANEOUS

Collars and other harness for pets.
Cutlery, table, kitchen, butcher and meat packing (except when the only copper or copper base alloy products used are for rivets).
Fireplace fixtures and equipment.
Furniture (except protective brass plating where other types of finishes are impracticable and except that brass mill products may be used in cylinder assemblies and keys and for essential working parts of locks).
Band saw screws, nuts and washers for attaching saw blades to the handles.
Hand service tools, including hammers, pliers, wrenches, screw drivers, etc. (except nonsparking tools necessary to prevent explosion hazards).
Passenger transportation equipment, decorative hardware and ornamental metal work and trim and general hardware (except for locks, and for brass protective plating).
Pleasure boat decorative hardware.
Pocket knives (except where copper products used are for rivets and linings).
Puttying and scraping knives.
Saddlery and harness hardware (except for brass protective plating).
Scissors, shears, hedge and other trimmers, tinners and other snips.
Stairs and threshold treads and edgings.
Trunk and luggage hardware (except for brass protective plating and except that brass mill products may be used in cylinder assemblies and keys and for essential working parts of locks.

HOUSEHOLD ELECTRICAL APPLIANCES

(Except where copper products or copper base alloy products are used for functional parts where the properties supplied by the copper are essential and satisfactory substitutes are not available)
Domestic electrical appliances including but not limited to:
Laundry equipment.
Vacuum cleaners.
Refrigerators.
Floor and furniture polishers.
Food mixers.
Electric irons.
Electric razors.
Hair driers.
Toasters (except where copper products or copper base alloy products are used for control and bearing parts or for parts necessary for conducting electricity).

JEWELRY, GIFTS AND NOVELTIES

All jewelry (except operational attachments such as screw and snap posts; wire pegs; screws and/or rivets; spring pins for wrist watches; catches and pin stems; and copper seal interlinings to prevent "bleeding" of silver through gold).
Book ends.
Jewelry and instrument cases, including cosmetic.
Lighters (except necessary operational parts).
Medals and emblems, including decorations (excluding religious goods).
Mirrors and picture frames.
Napkin rings.
Signs and advertising displays.
Smokers' accessories, including ash trays and humidors.
Souvenirs.

MOTOR VEHICLE: PASSENGER AUTOMOBILES INCLUDING TAXICABS, STATION WAGONS, AMBULANCES, HEARSES, TRUCKS, TRUCK TRACTORS, TRUCK TRAILERS, MOTORCYCLES AND BUSES

Decorative Mouldings, both internal and external; decorative mouldings do not include glass run channels, window-glass frames, external windshield and rear window external mouldings.
Defrosters and Heaters (except when the only copper products or copper base alloy products used are (1) for parts necessary for conducting electricity and (2) for radiators (heat exchangers) and for supply and return hot water lines and (3) for parts used in the operating controls of the heating and defrosting systems).
Gas Tank Caps (except valves and springs).
Horns (except when the only copper products or copper base alloy products used are for parts necessary for diaphragms, vibrators and conducting electricity).
Lighters (except for parts necessary for conducting electricity).
Lights, Lamps, Headlamps and Lighting Accessories (except when the only copper products or copper base alloy products used are for doors, bezels, adjusting and attaching screws, retaining rings, and for parts necessary for conducting electricity including light bulbs).
Motor Vehicle Hardware (excluding door handles, ventilator and regulator handles, working parts for locks, ventilator window latches, external lock cylinder caps and covers, external windshield wiper arm and blade assemblies and screws).
Rear-View Mirrors and Brackets.
Smokers Accessories, including ash trays.
Wheel Discs and Wheel Trim Rings.

PASSENGER TRANSPORTATION EQUIPMENT

(Including railroad cars, street and interurban cars, busses, and trailers, but excluding locomotives)
All items under the heading "Furnishings and Equipment."
Bands on pipe coverings.
Door knockers, checks, pulls and stops.
Doors and windows, door and window frames and window sills.
Drinking water reservoirs.
Shower rods and pans.
Sinks and drainboards.
Towel and luggage racks.
Water containers for humidification.
Weatherstripping and insulation.

MISCELLANEOUS

Alarm and protective systems (except when the only copper products or copper base alloy products used are for parts necessary for conducting electricity or where the use of such products is essential to the proper service or functioning of the parts).
Antique reproductions.
Arch supports.
Atomizers (except atomizers for medicinal purposes and for use in the preparation of dried milk and dried eggs).
Barrels, boxes, cans, jars, and other containers.
Badges (except for use for identification and industrial security purposes).
Bar and counter equipment and fittings.
Barber shop equipment and supplies.
Barrel hooks.
Bathroom accessories (including grab bars, tumbler holders, tooth brush holders, paper holders, and shelf brackets).
Beauty parlor equipment and supplies (except for repair and replacement parts of commercial permanent wave equipment and commercial hair driers).
Beverage dispensing units and parts thereof (except for carbonators and except for self-contained drinking water coolers).
Bicycles, and similar vehicles and equipment therefor (except valves for bicycle tires and tubes).
Binoculars (except precision types) and opera glasses.
Bird and pet cages and stands.
Branding, marking, and labeling devices and stock for same (except engraved burning branding dies; and except where the devices and the stock are for affixing governmental, notarial and corporate seals).
Brushes (except for the types used in electric motors and generators; and except for industrial brushes).
Carpet rods.
Chimes and bells (except for any bells when the only copper products or copper base alloy products used are for parts necessary for conducting electricity and except for bells for use on board ship when the only copper products or copper base alloy products used are for parts necessary for conducting electricity or where the use of such products is essential to the proper functioning of the parts).
Clips, paper.
Cleaning and polishing accessories, such as brooms, carpet sweepers, crumbing sets, dust pans, mops, pot scourers, whisk brooms and floor and furniture polishers.
Clock cases (except for marine use).
Clothes line pulleys and reels.
Cocktail shakers.
Cooking utensils (except for commercial processing machinery).
Daubers for shoe polish.
Dispensers, hand, for hand lotions, paper products, soap and straws.
Flower pots, boxes and holders for same.
Fountain pens (except that copper products or copper base alloy products may be used as an undercoating in the plating of outside functional parts and for clips).
Furniture grommets.
Garden tools and equipment (except that copper products or copper base alloy products may be used in parts necessary for functional parts).
Hair curlers, hair brushes and combs.
Ice cream freezers for use in the home.
Ink, bronze.
Juke boxes (except for copper products and copper base alloy products for conducting electricity).
Kitchen utensils, devices and machines (except electrical appliances).
Lace tips.
Lamps, portable electric (except that copper products or copper base alloy products may be used for parts necessary for conducting electricity and plating).
Lamps, other than electric (except when the only copper products or copper base alloy products used are for valves, controls, and wicks, and for burners for mantle type kerosene lamps).
Lanterns (except for functional parts).
Letter boxes and mail chutes.
Lighting fixtures (except for: (1) current-carrying parts, plating, rivets, eyelets, screws, small fasteners, (2) the threaded parts, clamping, sealing or attachment devices of exterior, explosion proof, dust tight and vapor tight fixtures, (3) Marine and airport).
Loose-leaf binders.
Manicure implements.
Match and pattern plates, matrices, and flasks.
Mattress buttons and furniture glides.
Name plates, not including instruction and data plates and not including identification plates for use on machinery or equipment.
Nonoperating or decorative uses of copper or copper base alloy, or the use of the same in such parts of installations and equipment (mechanical or otherwise) as bases, frames, guards, standards and supports.
Package handles and holders.
Pari-mutuel gambling and gaming machines, devices and accessories.
Pencils, mechanical (except that copper products or copper base alloy products may be used for the part or parts the function of which is to eject or retract the lead, and as an undercoating in the plating of outside functional parts).
Pins, (except when the only copper products or copper base alloy products used are for common or safety pins and except for laundry net and laundry identification pins or for safety catches on products otherwise permitted under this order).

Plating. The use of copper products or copper base allow products for plating any article not on List A or excepted on that list, and the plating of parts (including repair parts) for such an article is permitted Provided, That: (a) Such plating is not for decorative purposes, or part of a decoration. (b) The use of, or the normal wear on such article or parts would make impracticable any other form of coating for protective purposes or functional operation).

Pleasure boat fastenings and fittings.

Razors operated by electricity (except for repair parts and when the only copper products or copper base alloy products used are for functional parts and parts necessary for conducting electricity).

Razors not operated by electricity (except when the only copper products or copper base alloy products used in making safety razors or parts are for heads, functional parts for head, and for plating, and, in making straight razors or parts are for rivets, pins and washers).

Razor blade magazines.

Reflectors (except photographic and except that copper products or copper base alloy products may be used as an undercoating or an overcoating in electroplating in connection with silvering or chromium).

Refrigerator display cases.

Slot, game and vending machines (except when the only copper products or copper base alloy products used are for tumblers for locks).

Soda fountain equipment (except for carbonators).

Sporting goods and equipment (except fishing equipment and supplies for commercial fishing use, ammunition, and except reel gears, bearings and spools, swivels and snaps, rod mountings and copper for plating of baits and lures for sport fishing use.

Staplers and stapler machines (not including foot-operated or power-driven stitching machines).

Stationery supplies:
Desk accessories.
Office supplies.
Pencils (except for ferrules).
Pens and penholders.

Statues and statuettes (except religious and artists' originals).

Sundials.

Tent poles and parts.

Tobacco pipes.

Toys (except copper in motors and essential operating parts).

Unions and union fittings (except seats, and except for other parts of unions and union fittings (1) where and to the extent that the physical and chemical properties of the liquid or gas passing through the union or union fittings make the use of any other material dangerous or impractical, or (2) where the valve is of a type designed for use in an air conditioning or refrigeration "system", or (3) where use of copper and tubing and/or brass pipe is permitted).

Umbrellas and parasols.

Vacuum bottles and jugs.

Valve handles (except plumbing fixture trim).

Walking sticks and canes.

Weather vanes.

Weight reducing and exercising machines (except where copper products or copper base alloy products are necessary for electrical conduction).

Wool (except metal sponges intended for use in dairy products processing plants and by the canning industry and for filtering purposes).

This subpart as amended shall take effect on December 30, 1950.

TITLE 45—PUBLIC WELFARE

Chapter IV — Office of Vocational Rehabilitation, Federal Security Agency

PART 401—PLANS AND PROGRAMS OF VOCATIONAL REHABILITATION

INDIVIDUAL'S REHABILITATION PLAN

Pursuant to the authority conferred by the Vocational Rehabilitation Amendments of 1943, Public Law 113, 78th Congress, 1st session, approved July 6, 1943, paragraph (b) of § 401.11 (formerly § 600.11) of the regulations published on July 29, 1948 (13 F. R. 4353) is hereby amended by substituting a colon for the period at the end of such paragraph and adding the following: *"Provided, however,* That in view of the existing emergency, and until otherwise ruled, the foregoing need not apply in the case of any individual who can be made fit to meet an urgent employment need without being provided the full range of services as indicated by the case diagnosis."

(Sec. 7, 57 Stat. 374; 29 U. S. C. 37)

Dated: December 29, 1950.

LYKES BROS. SS CO., INC.

NOTICE OF HEARING ON APPLICATION TO BAREBOAT CHARTER WAR-BUILT, DRY-CARGO VESSELS FOR USE IN THE GULF, U. K. CONTINENT AND MEDITERRANEAN SERVICES

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held in Room 4821, Commerce Building, Washington, D. C., on January 10, 1951, at 10:00 a. m. before the Federal Maritime Board, upon application of the above company to charter war-built, dry-cargo vessels for use in the Gulf, U. K. Continent and Mediterranean services of said company.

The purpose of the hearing is to receive evidence with respect to whether such services are required in the public interest and are not adequately served, and with respect to the availability of privately owned American-flag vessels on reasonable conditions and at reasonable rates for these services.

All persons having an interest in such application should arrange to be present.

Dated: January 3, 1951.

By order of the Federal Maritime Board.

National Production Authority

[NPA Delegation 1, as Amended Dec. 29, 1950]

DELEGATION OF AUTHORITY TO THE SECRETARY OF DEFENSE

Pursuant to the authority of the Defense Production Act of 1950 (P. L. 774, 81st Cong.) and Executive Order 10161 (15 F. R. 6105) there is hereby delegated to the Secretary of Defense the authority to apply ratings to direct Government contracts and purchase orders in order to meet authorized procurement and construction programs of the Department of Defense, the Mutual Defense Assistance Program, or authorized programs of such other Government agencies as the National Production Authority may designate by special direction to the Secretary of Defense.

The Secretary of Defense is also authorized to assign the right to apply ratings:

1. To persons placing orders for materials to be delivered to or for the account of the Department of Defense or other Government agencies specially designated as provided above to meet authorized programs;

2. To certain prime or subcontractors on orders for delivery of production equipment specifically required to support authorized procurement programs of the Department of Defense or such other specially designated Government agencies; and

3. To certain contractors on orders for delivery of construction equipment for use on construction outside of the Zone of Interior.

This authority may be redelegated by the Secretary of Defense to appropriate agencies of the Department of Defense or to its authorized agents or to such other Government agencies specially designated as provided above.

The exercise of this authority shall conform to the terms of the regulations and orders of the National Production Authority and also to priorities and allocations policy directives issued by the Munitions Board and subject to approval by the National Production Authority.

In applying ratings on direct contracts and purchase orders, the certification and procedure stated in NPA Reg. 2 shall be used. In assigning the right to apply ratings on contracts and orders, the following certification shall be used: "By authority of the National Production Authority, rating DO (2 digit program code) is assigned to the deliveries on this purchase order or contract." This certification shall be authenticated with the signature of an authorized official of the Department of Defense or its authorized agents or of the appropriate other Government agency designated as provided above.

The use of this authority is limited to such quantitative allocations as may be assigned by the National Production Authority to the Department of Defense, and to such conditions as may be imposed by the National Production Authority on use, records and reports.

This authority shall not be used to rate direct procurement or contractors' purchase of construction equipment for use on construction in the Zone of Interior; civilian type items for resale in Post Exchanges and Ship Stores; purchases from exclusively retail establishments, except in emergency situations and only for small amounts to prevent imminent stoppage; or procurement of any of the following items: commercial office equipment and supplies; flags, bunting, flagstaffs, pennants, insignia and medals; vending machines; portable household fans; commercial type luggage; barber chairs; card tables; books, maps and periodicals; brooms and mops for household use; and domestic-type dishwashing machinery.

This amended delegation shall take effect on December 29, 1950.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

Department of the Navy

[No. 12]

FRIGATES

RANGE LIGHTS

Whereas section 360, Title 33, United States Code, provides that any requirement as to the number, position, range of visibility, or arc of visibility of navigation lights, required to be displayed by naval vessels under acts of Congress, as enumerated in said section 360, Title 33, United States Code, shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility, or arc of visibility of navigation lights; and

Whereas a study of the arrangement and position of the navigation lights of that type of naval vessels known as Frigates, PF3 Class, has been made in the Navy Department and, as a result of such study, it has been determined that because of their special construction it is not possible for Frigates, PF3 Class, to comply with the requirements of the statutes enumerated in said section 360, Title 33, United States Code;

Now, therefore, I, Francis P. Matthews, Secretary of the Navy, as a result of the aforesaid study do hereby find and certify that the type of naval vessels known as Frigates, PF3 Class, are naval vessels of special construction and that on such vessels, with respect to the position of the additional white light (commonly termed the range light), it is not possible to comply with the requirements of the statutes enumerated in section 360, title 33, United States Code.

Further, I do find and certify that it is feasible to locate the said additional white light (commonly termed the range light), if such light is installed, forward of the masthead light in such position that the said additional white light and the masthead light shall be in line with the keel and the after light shall be at least fifteen feet higher than the forward light and the vertical distance between the two lights shall be less than the horizontal distance. I further direct that the aforesaid additional white light, if such light is installed, shall be located in the manner above described and I further certify that such location constitutes compliance as closely with the applicable statutes as I hereby find to be feasible.

Dated at Washington, D. C., this 20th day of December A. D. 1950.

FRANCIS P. MATTHEWS,
Secretary of the Navy.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA RAILROAD TOWNSITES

NOTICE OF SALE OF LOTS AT PORTAGE TOWNSITE, ALASKA

DECEMBER 29, 1950.

Notice is hereby given that there will be offered at public sale to the highest bidder at 12:00 noon on Tuesday, February 6, 1951, at the Railroad Depot, Portage, the following lots at stated appraised value:

Block 1:	
Lot 1	$60.00
Lot 2-7 (inclusive)	50.00
Lot 8	60.00
Lot 9-15 (inclusive)	30.00
Lot 16	60.00
Block 2:	
Lot 1	60.00
Lot 2-7 (inclusive)	50.00
Lot 8	60.00
Lot 9-16 (inclusive)	30.00
Block 3:	
Lot 7	50.00
Lot 8	60.00
Lot 9-16 (inclusive)	30.00
Block 4:	
Lot 1	60.00
Lot 2-7 (inclusive)	50.00
Lot 8	60.00
Lot 9-16 (inclusive)	30.00

No lot will be sold for less than the appraised price. No bid exceeding that amount will be accepted unless made in multiples of five dollars.

For each lot offered, the lot, block number and the appraised value will be announced by the superintendent of sales. Bids may then be offered by all who may care to do so, and when there will be no further offers the lot will be declared sold to the last and highest bidder. The successful bidder may make full payment at the time of sale or may pay one-third of the bid price down, with the remainder to be paid to the Manager of the U. S. Land Office in Anchorage within ten days after the date of sale.

The successful bidder will receive from the officer conducting the sale a Memorandum Certificate, Form 4-013A, stating that he is the successful bidder for the lot, amount of the bid and description of the lot. The certificate together with an Application to Purchase, Form 4-013, must be presented to the Manager of the U. S. Land Office, Anchorage, within ten days after date of issue, and must be accompanied by the remainder of the purchase price if full payment was not made at the time of sale. Thereupon, if all else is regular, the Manager will issue a certificate of sale. Patent will be issued by the Bureau of Land Man-

agement, Washington, D. C., and will contain a reservation of fissionable materials.

The officer conducting the sale is authorized to reject any and all bids for any lot, and to suspend, adjourn, or postpone the sale of any lot or lots. After all lots have been offered the sale will be adjourned or closed, as the officer in charge may deem proper. If the sale is closed, unsold lots will be subject to private entry for cash at the appraised prices.

All persons are warned against violation of the provisions of 18 U. S. C. 1860 prohibiting unlawful combination or intimidation of bidders.

LOWELL M. PUCKETT,
Regional Administrator and Superintendent of Sales, Alaska Railroad Townsites.

Office of the Secretary

[Order 2611]

BUREAU OF MINES

REDELEGATION OF AUTHORITY WITH RESPECT TO MANGANESE PROGRAM

DECEMBER 28, 1950.

SECTION 1. *Authority redelegated.* (a) The authority delegated by the Administrator of General Services to the Secretary of the Interior on December 6, 1950, to make negotiated purchases and contracts in carrying out the manganese program of the Department of the Interior where the facts are such as to bring the purchase or contract within the provisions of subsections (2), (9), or (10) of section 302 (c) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., 1946 ed., Supp. III, sec. 252) is redelegated to the following officials of the Bureau of Mines to be exercised in accordance with the provisions of paragraph (b) of this section:

Director.
Chief, Administrative Division,
Each Regional Director.

(b) The officials designated in paragraph (a) are authorized:

(1) To make negotiated purchases and contracts for the purpose of carrying out the manganese program of the Bureau of Mines pursuant to the provisions of Title III of the aforesaid act (41 U. S. C., 1946 ed., Supp. III, secs. 251–260) provided that the facts are such as to bring the purchase or contract in question within the provisions of subsections (2), (9), or (10) of section 302 (c) of the act and that the determinations required under subparagraphs (2) and (3) of this paragraph have first been made.

(2) To determine that the facts are such as to bring the purchase or contract in question within the provisions of subsections (2) or (9) of section 302 (c) of the act.

(3) To determine with respect to contracts which will not require the expenditure of more than $25,000 that the facts are such as to bring the purchase or contract in question within the provisions of subsection (10) of section 302 (c) of the act.

(4) The approval and legal review of contracts negotiated under this authority shall be in accordance with instructions of the Director, Bureau of Mines.

SEC. 2. *Determinations by Secretary.* Determinations as to whether the facts are such as to bring the purchase or contract in question within the provisions of subsection (10) of section 302 (c) of the act, if the purchase or contract is over $25,000, will be made by the Secretary. Such purchases or contracts shall not be negotiated or approved until after the requisite determinations have been made by the Secretary.

(Sec. 307, 63 Stat. 396; 41 U. S. C., 1946 ed., Supp. III, sec. 257)

OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

NOTICE OF ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of regulations Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in those regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166; as amended September 25, 1950; 15 F. R. 5701; 6326).

Anvil Brand, Inc., 318 Willowbrook Street, High Point, N. C., effective 12–13–50 to 6–12–51; 100 learners for expansion purposes (cotton work shirts and pants).

Anvil Brand, Inc., 140 South Hamilton Street, High Point, N. C., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers (overalls and dungarees).

Anvil Brand, Inc., 140 South Hamilton Street, High Point, N. C., effective 12–13–50 to 6–12–51; 81 learners for expansion purposes only (overalls and dungarees).

Ainsbrooke, Inc., Dothan, Ala., effective 12–14–50 to 12–13–51; 10 percent of the productive factory workers for normal labor turnover (men's woven shorts and pajamas).

Brookfield Manufacturing Co., 145 West Pine Street, Warrensburg, Mo., effective 12–14–50 to 12–13–51; for normal labor turnover, 10 percent of the productive factory workers, or 10 learners, whichever is greater (cotton work pants, shirts, shop coats and one-piece suits).

The Buckeye Overall Co., Versailles, Ohio, effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers (men's and boys' dungarees).

Samuel Cooperman & Sons, 970 Ridge Avenue, Scranton, Pa., effective 12–16–50 to 12–15–51; 10 percent of total productive factory workers, not including office or sales personnel (ladies' cotton dresses).

Samuel Cooperman & Sons, River Street, Peckville, Pa., effective 12–16–50 to 12–15–51; 10 percent of total productive factory workers, not including office or sales personnel (cotton dresses).

J. Freezer & Son, Inc., Rural Retreat, Va., effective 12–14–50 to 12–13–51; for normal labor turnover, 10 percent of the productive factory workers (men's dress shirts and shorts).

J. Freezer & Son, Inc., Floyd, Va., effective 12–14–50 to 12–13–51; for normal labor turnover, 10 percent of the productive factory workers (men's sport shirts).

J. Freezer & Son, Inc., Radford, Va., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers (shirts and shorts).

Goldsboro Corp., Etters P. O., Goldsboro, York County, Pa., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers, or 10 learners, whichever is greater (juvenile and boys' shirts).

Gregory Sportswear Co., 461–71 Washington Avenue, Burlington, N. J., effective 12–19–50 to 12–18–51; for normal labor turnover, 10 percent of the productive factory workers (dungarees and coveralls).

Guin Manufacturing Corp., Guin, Ala., effective 12–15–50 to 6–14–51; 50 learners for expansion purposes (men's and boys' sport shirts and night wear).

Haspel Bros. Inc., 2527 St. Bernard Avenue, New Orleans, La., effective 12–16–50 to 12–15–51; not to exceed 10 percent of the productive factory force (men's summer suits and odd trousers).

The Kahan Co., 3339 West Main Street, Parsons, Kans., effective 12–13–50 to 6–12–51; 30 learners for expansion purposes only (boys' pants, shirts, sportswear, and wind breakers).

Kensington Dress Co., 155 West Lehigh Avenue, Philadelphia 33, Pa., effective 12–15–50 to 12–14–51; five learners (blouses contracting).

Lady Ester Lingerie Co., Berwick, Pa., effective 12–16–50 to 12–15–51; for normal labor turnover, 10 percent of the productive factory workers (ladies' and children's cotton and rayon slips and aprons).

McKinney Pant Manufacturing Co., McKinney, Tex., effective 12–14–50 to 12–13–51; 10 percent of the productive factory workers, for normal labor turnover (single pants).

Manhattan Shirt Co., South Norwalk, Conn., effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers (shirts).

Manhattan Shirt Co., Paterson, N. J., effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers (shirts, neckwear and handkerchiefs).

Manhattan Shirt Co., Scranton, Pa., effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers (sportswear).

The Manhattan Shirt Co., Americus, Ga., effective 12–14–50 to 12–13–51; for normal labor turnover, 10 percent of the productive factory workers (shirts).

Martin Manufacturing Co., Inc., Martin, Tenn., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers, for normal labor turnover (men's dress and sport shirts).

Matawan Undergarment Co., Inc., 26 Wayne Street, Jersey City, N. J., effective 12–18–50 to 12–17–51; for normal labor turnover, 10 percent of the productive factory workers (children's underwear).

Matawan Undergarment Co., Inc., 5 Johnson Avenue, Matawan, N. J., effective 12–15–50 to 12–14–51; 10 percent of the productive factory workers, for normal labor turnover (children's underwear).

Meyersdale Manufacturing Co., Inc., Meyersdale, Pa., effective 12–14–50 to 12–13–51; 10 percent of the productive factory workers (shirts).

Miller & Co., 1549 Lawrence Street, Denver, Colo., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers (shirts).

Model Blouse Co., Wheat Road, Vineland, N. J., effective 12–13–50 to 12–12–51; five learners (boys' sport shirts).

Oswego Manufacturing Co., 355 West First Street, Oswego, N. Y., effective 12–14–50 to 6–13–51; nine additional learners for expansion purposes only (brassieres and slips).

Oswego Manufacturing Co., 355 West First Street, Oswego, N. Y., effective 12–14–50 to 12–13–51; for normal labor turnover, 10 percent of the productive factory workers (brassieres and slips).

Palm Beach Co., Blankville, S. C., effective 12–13–50 to 12–12–51; 10 percent of the productive factory workers (men's and boys' odd slacks).

Palm Dress Manufacturing Co., Inc., 57 Palm Street, Nashua, N. H., effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers, or 10 learners, whichever is greater (misses' and women's dresses).

Publix Shirt Corp., Mechanicsburg, Pa., effective 12–13–50 to 12–12–51; for normal labor turnover, 10 percent of the productive factory workers (nightwear and sport shirts).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Regulations, Part 522.

Signed at Washington, D. C., this 27th day of December 1950.

VERL E. ROBERTS,
Authorized Representative of the Administrator.

[F. R. Doc. 51-126; Filed, Jan. 4, 1951, 8:46 a. m.]

LEARNERS EMPLOYMENT CERTIFICATES

NOTICE OF ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of regulations Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in those regulations.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations Part 522.

Signed at Washington, D. C., this 21st day of December 1950.

ISABEL FERGUSON,
Authorized Representative of the Administrator.

EMPLOYMENT OF HANDICAPPED CLIENTS BY SHELTERED WORKSHOPS

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES

Notice is hereby given that special certificates authorizing the employment of handicapped clients at hourly wage rates lower than the minimum wage rates applicable under section 6 of the Fair Labor Standards Act of 1938, as amended, and section 1 (b) of the Walsh-Healey Public Contracts Act, as amended, have been issued to the sheltered workshops hereinafter mentioned, under section 14 of the Fair Labor Standards Act of 1938, as amended (sec. 14, 52 Stat. 1068; 29 U. S. C. 214; as amended 63 Stat. 910) and Part 525 of the regulations issued thereunder, as amended (29 CFR Part 525), and under sections 4 and 6 of the Walsh-Healey Public Contracts Act (secs. 4, 6, 49 Stat. 2038; 41 U. S. C. 38, 40) and Article 1102 of the regulations issued pursuant thereto (41 CFR 201.1102).

The names and addresses of the sheltered workshops to which certificates were issued, wage rates, and the effective and expiration dates of the certificates are as follows:

Sheltered Workshop Rehabilitation Center For the Physically Handicapped, 10 Wall Street, Stamford, Connecticut; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 20 cents per hour, whichever is higher, and a rate of not less than 10 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective November 1, 1950, and expires October 31, 1951.

Buffalo Association for the Blind, 864 Delaware Avenue, Buffalo 9, New York; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 50 cents per hour, whichever is higher; certificate is effective December 1, 1950, and expires November 30, 1951.

Elmira Association For the Blind, Inc., 717 Lake Street, Elmira, New York; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 50 cents per hour, whichever is higher; certificate is effective December 1, 1950, and expires November 30, 1951.

The New York Association for the Blind, Occupational Department, 111 East 59th Street, New York 22, N. Y.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 5 cents per hour, whichever is higher; certificate is effective December 1, 1950, and expires November 30, 1951.

Goodwill Industries of Detroit, 6522 Brush Street, Detroit, Michigan; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 30 cents per hour, whichever is higher, and a rate of not less than 25 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective November 16, 1950, and expires August 31, 1951.

The Montefiore Home, 3151 Mayfield Road, Cleveland Heights, Ohio; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 15 cents per hour, whichever is higher, and a rate of not less than 10 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective December 1, 1950, and expires November 30, 1951.

Marion County Society for Crippled Children and Adults, Inc., 3001 North New Jersey Street, Indianapolis 5, Ind.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 25 cents an hour, whichever is higher, and a rate of not less than 10 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective December 1, 1950, and expires November 30, 1951.

The Chicago Lighthouse for the Blind, 3323 West Cermak Road, Chicago 23, Ill.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 30 cents an hour, whichever is higher, and a rate of not less than 20 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective December 1, 1950, and expires November 30, 1951.

Iowa Society for Crippled Children and Adults, Inc., 2917 Grand Avenue, Des Moines, Iowa; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 35 cents an hour, whichever is higher, and a rate of not less than 20 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective December 1, 1950, and expires May 31, 1951.

Goodwill Industries, 312 South Wall Street, Sioux City 19, Iowa; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 45 cents an hour, whichever is higher, and a rate of not less than 25 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective December 1, 1950, and expires November 30, 1951.

Nebraska Goodwill Industries, 1013 North 16th Street, Omaha, Nebraska; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 40 cents an hour, whichever is higher, and a rate of not less than 10 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective November 22, 1950, and expires July 31, 1951.

Goodwill Industries, 1817 Campbell Street, Kansas City, Missouri; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 50 cents an hour, whichever is higher, and a rate of not less than 35 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective November 21, 1950, and expires October 31, 1951.

Goodwill Industries of Kentucky, 214 South Eighth Street, Louisville, Kentucky; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 25 cents an hour, whichever is higher, and a rate of not less than 20 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective August 1, 1950, and expires July 31, 1951.

The employment of handicapped clients in the above-mentioned sheltered workshops under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 525 of the regulations, as amended. These certificates have been issued on the applicants' representations that they are sheltered workshops as defined in the regulations and that special services are provided their handicapped clients. A sheltered workshop is defined as, "A charitable organization or institution conducted not for profit, but for the purpose of carrying out a recognized program of rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, and to provide such individuals with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature."

These certificates may be cancelled in the manner provided by the regulations, as amended. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 12th day of December 1950.

JACOB I. BELLOW,
Assistant Chief of Field Operations.

FEDERAL POWER COMMISSION

[Docket No. G-1566]

NORTHEASTERN GAS TRANSMISSION CO.

NOTICE OF APPLICATION

DECEMBER 28, 1950.

Take notice that on December 21, 1950, Northeastern Gas Transmission Company (Applicant), a Delaware corporation with its principal office at 31 Hillman Street, Springfield, Massachusetts, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of facilities necessary to enable Applicant to provide natural gas service to New England areas which Applicant is not now authorized to serve, as more fully set out in exhibits attached to the application.

Applicant states that the proposed project will be interconnected and integrated with, and will constitute a part of the pipe line system which it is now authorized to construct and operate, and that under the operating conditions set out in Exhibit A attached to the application, the integrated system will have a delivery capacity of approximately 414,000 Mcf daily. Applicant also states that Tennessee Gas Transmission Company has advised Applicant that it is willing to supply the additional gas required and that it will file an application for authority to construct the facilities necessary to deliver a total of 350,000 Mcf of natural gas per day to Applicant. Transcontinental Gas Pipe Line Corporation has been authorized to supply 64,000 Mcf daily to Applicant.

The total estimated over-all capital cost of the new facilities proposed is $14,029,224, which is to be financed by the sale of equity securities in the amount of 25 percent of the total capital cost and by the sale of first mortgage bonds.

Applicant proposes to render natural gas service from the additional facilities on the same terms and conditions as such service is proposed to be rendered to customers which it is now authorized to serve.

Protests or petitions to intervene should be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 18th day of January 1951.

The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-131; Filed, Jan. 4, 1951; 8:47 a. m.]

[Docket No. G-1574]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

DECEMBER 29, 1950.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation with its principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, filed on December 29, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural-gas transmission pipeline facilities hereinafter described.

Applicant proposes to construct and operate approximately 12.3 miles of 14-inch diameter natural-gas pipeline and appurtenant facilities beginning at Pure Oil Company's platform located in Block No. 32 and extending in a southwesterly direction to end at the Magnolia Petroleum Company, Continental Oil Company and Newmont Oil Company's platform in Block No. 45; and, subject to the conditions contained in a letter dated November 10, 1950, from Magnolia Petroleum Company to Applicant, to construct and operate, or in the alternative to acquire and operate, approximately 14.4 miles of 10-inch diameter natural-gas pipeline beginning at Block No. 45 and extending in a southerly direction to end at Magnolia Petroleum Company, Continental Oil Company and Newmont Oil Company's platform in Block No. 110, all of the above being in the Gulf of Mexico, Eugene Island Area, offshore Louisiana. Applicant estimates the capacity of the 14-inch natural-gas pipeline at the Block 32 Field will be approximately 150,000 Mcf per day. Applicant further estimates that in the event it constructs the 10-inch natural-gas pipeline extending from the Block 45 Field to the Block 110 Field that line will have a capacity at the Block 45 Field of approximately 38,000 Mcf per day.

Applicant proposes by means of the facilities described to (a) provide the facilities necessary to comply with the gas purchase contract it is presently negotiating with Magnolia Petroleum Company and associates, (b) provide an outlet for the gas produced in the fields referred to, and (c) augment the reserves of gas available to Applicant's enlarged system by connecting a new source of supply.

The estimated over-all capital cost of the proposed facilities is approximately $2,502,000.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of January, 1951. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-132; Filed, Jan. 4, 1951; 8:47 a. m.]

[Docket No. G-1525]

SOUTHERN NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

DECEMBER 28, 1950

On November 2, 1950, Southern Natural Gas Company (Applicant), a Delaware corporation having its principal office in Birmingham, Alabama, filed an application, and an amendment thereto on December 8, 1950, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural-gas transmission facilities for the transportation and the sale of natural gas to Oak Ridge, Alabama, subject to the jurisdiction of the Commission, as fully described in said application and amendment on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) [18 CFR 1.32 (b)] of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 22, 1950 (15 F. R. 7994).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's Rules of Practice and Procedure, a hearing be held on January 30, 1951, at 9:45 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application and amendment: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: December 29, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 51-133; Filed, Jan. 4, 1951; 8:47 a. m.]

[Project No. 553]

THE CITY OF SEATTLE, WASHINGTON.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE (MAJOR)

DECEMBER 29, 1950.

Public notice is hereby given that The City of Seattle, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for amendment of its license for Project No. 553 to reduce the authorized ultimate installed capacity of the Diablo portion of the project from 240,000 kilowatts (320,000 horsepower) to the existing capacity of 120,000 kilowatts (160,000 horsepower).

Any protest against the approval of this application or request for hearing thereon, with the reason for such protest or request and the name and address of the party or parties so protesting or requesting should be submitted on or before February 9, 1951, to the Federal Power Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-1475, Docket No. G-1488]

NIAGARA MOHAWK POWER CORP. AND NEW YORK STATE NATURAL GAS CORP.

NOTICE OF FINDINGS AND ORDER

JANUARY 2, 1951.

In the matters of Niagara Mohawk Power Corp., Docket No. G-1475, and New York State Natural Gas Corp., Docket No. G-1488.

Notice is hereby given that, on December 29, 1950, the Federal Power Commission issued its findings and order entered December 28, 1950, issuing certificates of public convenience and necessity in the above-designated matters.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-148; Filed, Jan. 4, 1951; 8:49 a. m.]

[Order 157]

STATEMENT OF ORGANIZATION

APPROVING AND MAKING EFFECTIVE REVISION

DECEMBER 18, 1950.

The Administrative Procedure Act (61 Stat. 37, 5 U. S. C. 1002), in section 3 (a), provides that every agency of the Federal Government shall separately state and currently publish in the FEDERAL REGISTER descriptions of its central and field organization including delegations by the agency of final authority and the established places at which, and method whereby, the public may secure information or make submittals or requests. Such a statement was previously approved and made effective as Part 01 of the Commission's general rules and regulations, including rules of practice and procedure, by Commission Order No. 132, effective September 11, 1946 (11 F. R. 487) and codified as 18 CFR Part 01–Organization (12 F. R. 8462). By Commission order No. 147, codification of Part 01–Organization was discontinued and it was provided that amendments to the Organizational Statement should in the future be published in the notice section of the FEDERAL REGISTER.

The Commission finds: (1) It is appropriate that the Statement of Organization of the Commission be revised because of changes since promulgation of the original statement and because of the organizational changes provided for by Presidential Reorganization Plan No. 9, effective May 24, 1950.

(2) Notice and public procedure hereon are unnecessary.

The Commission orders:

(A) Pursuant to the authority vested in the Commission by the Federal Power Act (49 Stat. 838; 16 U. S. C. 791a), particularly section 309 thereof, and the Natural Gas Act (52 Stat. 821; 15 U. S. C. 717), particularly section 16 thereof, and the Administrative Procedure Act (61 Stat. 37; 5 U. S. C. 1002), the Commission hereby approves and adopts the attached revised Statement of Organization.

(B) The Secretary of the Commission shall cause prompt publication of the attached notice to be made in the FEDERAL REGISTER.

Date of issuance: December 29, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

STATEMENT OF ORGANIZATION

Sec.
1. Introduction.
2. Nature and authority of Commission.
3. Functions.
4. Organization.
5. Delegations of final authority.
6. Offices of Commission; information; requests and submittals.
7. Duties of Commission staff groups.

1. *Introduction.* This statement describes, pursuant to section 3 (a) (1) of the Administrative Procedure Act (61 Stat. 37; 5 U. S. C. 1002), the current central and field organization of the Federal Power Commission, including delegations of final authority and the established places at which, and methods whereby, the public may secure information or make submittals or requests. The present organizational statement supersedes the previous statement adopted by Commission Order No. 132, effective September 11, 1946, published in 11 F. R. 487. The previous statement was codified as 18 CFR Part 01–Organization by Commission Order No. 141 (12 F. R. 8462–8464), but was later decodified by Commission Order No. 147 (13 F. R. 8259), issued December 17, 1948.

2. *Nature and authority of Commission.* (a) The Commission is an independent agency composed of five commissioners, nominated by the President and confirmed by the Senate. Presidential Reorganization Plan No. 9, which became effective May 24, 1950, provides that the Chairman shall be chosen by the President from among the members of the Commission. The Chairman is designated as the principal executive officer of the Commission by statute and is vested generally with the executive and administrative functions of the Commission, to the extent provided in Reorganization Plan No. 9.

(b) The Commission is charged with the administration and enforcement of the provisions of the Federal Power Act and the Natural Gas Act, and the duties delegated to it under the Flood Control Acts of 1938, 1939, 1941, 1944, and 1946, the River and Harbor Acts of 1945 and 1946, and the River, Harbor, and Flood Control Acts of 1948 and 1950, the Bonneville Act, Tennessee Valley Authority Act, Fort Peck Act, Boulder Canyon Project Act, the Acts of 1928 and

1929 relating to the Fort Apache, White Mountain, and Flathead Indian Reservations.

(c) The Commission is also charged with certain duties under Executive Order 8202 concerning physical interconnections at the international boundary for the tranmission of electric energy between the United States and foreign countries and the exportation and importation of natural gas from and into the United States.

3. *Functions.* The principal functions of the Commission are:

(a) The licensing of water power projects on waters over which Congress has jurisdiction, or on lands of the United States, or at Government dams.

(b) The regulation of the transmission and sale for resale of electric energy in interstate commerce, and of the accounts, rates, certain security issues, dispositions of properties, mergers and consolidations, depreciation practices, and interconnection and coordination of facilities of electric public utilities; the compilation and publication of statistical and other information concerning the electric utility industry in the United States, and surveys of present and future markets for electric power.

(c) The regulation of the transportation and sale for resale of natural gas in interstate commerce, including the issuance of certificates of public convenience and necessity for the construction and operation of facilities, and the regulation of the accounts, rates, and depreciation practices of natural-gas companies and the compilation and publication of statistical and other information concerning the natural gas industry in the United States.

(d) The making of surveys and studies of the comprehensive development of river basins for hydroelectric power and other purposes; and recommendations with respect to hydroelectric power installations in Federal river development projects.

(e) The approval of rates, accounts, and related matters for certain Federal hydroelectric power projects, including those under the control of the War Department.

4. *Organization.* The staff of the Commission is organized in the following groups, all of which report directly to the Commission, except that, as to administrative and housekeeping matters, they report to the Chairman.

The Office of the Secretary; the Bureau of Power; the Bureau of Accounts, Finance and Rates; the Bureau of Law; the Division of Examiners; the Office of the Chief Engineer; the Division of Budget and Finance; and the Division of Personnel and Administrative Services.

5. *Delegations of final authority.* The Commission has authorized:

(a) The Secretary, or, in his absence, the Acting Secretary, to pass upon questions of extending time for electric public utilities, licensees, natural gas companies, and other persons to file required reports, data and information and to do other acts required or allowed to be done at or within a specific time by any rule, regulation, license, permit, certificate, or order of the Commission, not to exceed in any event an extension of six months beyond the time or period originally prescribed.

(b) The Secretary, or, in his absence, the Acting Secretary, without regard to any other requirements of the Commission's rules and regulations, to prescribe the time for filing by electric public utilities, licensees, natural gas companies, and other persons, answers to complaints, petitions, motions, and other pleadings and documents, but in no case shall answers be required to be filed in less than ten days after the date of service of the pleading or document to which answer is to be made.

(c) The Secretary, or, in his absence, the Acting Secretary, to schedule hearings and issue notices thereof.

(d) The Secretary, or, in his absence, the Acting Secretary, to accept service of process upon behalf of the Commission.

(e) The Secretary, or, in his absence, the Acting Secretary, to (1) reject petitions to intervene filed in a period later than ten days next preceding the date the matter is set for hearing, unless good cause is shown for the late filing, but accept for filing, subject to the order of the Commission, notices of intervention and petitions to intervene by State commissions and Federal agencies; (2) deny motions or requests for extensions of time filed later than the time prescribed by the rules unless good cause is shown for the late filing; and (3) reject all pleadings, briefs, and other documents filed later than the time prescribed by an order, rule, or regulation of the Commission unless good cause is shown for the late filing.

(f) The Secretary, or, in his absence, the Acting Secretary, to waive the requirements of the Commission's rules and regulations, when consistent with the public interest in a particular case.

(g) The Chief of the Bureau of Power, or, in his absence, the Acting Chief, to interpret schedules of power system statements of electric utilities (Forms No. 12, etc.) and to obtain supplemental information required to assure complete and adequate statements; and Regional Engineers to grant 30-day extensions of time for filing such statements.

(h) The Chief of the Bureau of Accounts, Finance and Rates, or, in his absence, the Acting Chief, to issue interpretations of the Uniform Systems of Accounts for Public Utilities, Licensees, and Natural Gas Companies; to suspend the requirements of Account 901—Charges by Associated Companies—Clearing; to interpret schedules of annual reports of electric public utilities, licensees, and natural gas companies (Forms Nos. 1, 2, etc.) and obtain supplemental information required to assure complete and accurate reports.

(i) The Chief Examiner and the Examiners designated to preside at hearings, to exercise the powers and functions stated and enumerated for presiding officers in the Commission's rules and regulations, particularly its rules of practice and procedure.

6. *Offices of Commission; information; requests and submittals.* (a) The principal office of the Commission is located in the Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington 25, D. C. Regional Offices of the Commission are maintained in Atlanta, Chicago, Fort Worth, New York, and San Francisco and a section of the Division of Accounts of the Bureau of Accounts, Finance and Rates in San Francisco, as described below.

(b) Official information concerning any matter pending before, or action taken by, the Commission may be secured by written or personal request to the Secretary.

(c) Information concerning matters assigned to the Regional Offices may be obtained by written or personal request and certain submittals may be made thereto as provided below.

(d) All formal requests or submittals to the Commission should be addressed to the Secretary pursuant to 18 CFR 1.2 (c).

(e) The types of official records in the files of the Commission, and their availability to the public, are described more particularly in 18 CFR 1.36.

7. *Duties of Commission staff groups.* The duties of the various groups into which the staff of the Commission is organized are described as follows:

(a) *The Office of the Secretary.* The Office of the Secretary, under the direction of the Secretary, receives, records, assigns, and distributes all matters filed with and brought before the Commission for action. In addition to the duties specified in section 5 (a) through (f), the Secretary serves the orders, rules, regulations, and notices of Commission action; acts as official liaison officer in contacts between the Commission and the public, parties to proceedings, and public officials. The Office of the Secretary includes a public reference section where official dockets and records are maintained, and are available for public inspection. Through its section of publications, the Office of the Secretary edits Commission publications and handles their sale and other distribution and serves as the coordinator of the total publication program of the Commission; prepares and distributes general information concerning the activities of the Commission; and assists the Commission in contacts with the public.

(b) *The Bureau of Power.* The Bureau of Power under the direction of the Chief of the Bureau, performs the engineering phases of the licensed project, electrical, and river basin work of the Commission. The duties of the Chief include those specified in section 5 (g). The Bureau is composed of three functional divisions. The work of each is as follows:

(1) *The Division of Licensed Projects.* The Division of Licensed Projects studies and reports on declarations of intentions, applications for preliminary permits and for licenses for water power projects, and related matters; inspects and reports on the construction, operation, and maintenance of such projects; investigates and reports on unlicensed water power developments; studies and reports on applications for restoration of or rights-of-way over power site lands. The Division also develops and analyzes detailed factual basic cost data covering

the construction, maintenance, and operation of water power plants, fuel plants, and transmission facilities.

(2) *The Division of Electrical Resources and Requirements.* The Division of Electrical Resources and Requirements studies and reports on power markets, adequacy of power supply, interconnection and coordination of power systems, electrical system planning and related matters; collects and checks power system statements submitted by electric utilities; investigates and reports on the engineering features of applications for the approval of security issues, consolidations, mergers, acquisitions, and property disposals of utilities subject to the jurisdiction of the Commission and the jurisdictional status of electric utility system; makes electrical studies in connection with Commission approval of rate filings for Federal hydroelectric power projects.

(3) *The Division of River Basins.* The Division of River Basins studies and reports on the comprehensive utilization of river basins for development of hydroelectric power alone and in connection with flood control, navigation, irrigation, and other beneficial purposes; makes investigations and prepares reports to be used as the basis for recommendation to other Federal agencies on provisions for hydroelectric power development at proposed multiple-purpose projects; and makes hydroelectric studies in connection with the approval of rate filings for Federal power projects.

(4) *Regional Offices.* Five Regional Offices of the Commission are operated as part of the Bureau of Power, under the general direction of the Chief of the Bureau. Their locations and the territories they serve are:

(i) Atlanta Regional Office, 417 Grant Building, Atlanta 3, Ga.: Alabama, Florida, Georgia, Kentucky, eastern half of Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

(ii) Chicago Regional Office, U. S. Customhouse, 610 South Canal Street, Chicago 7, Ill.: Illinois, Indiana, Iowa, Michigan, Minnesota, parts of Missouri and Montana, North Dakota, South Dakota, Nebraska, and Wisconsin.

(iii) Fort Worth Regional Office, Seventh and Lamar Streets, Fort Worth 2, Tex.: Arkansas, Colorado, Kansas, Louisiana, parts of Mississippi and Missouri, New Mexico, Oklahoma, Texas, and Wyoming.

(iv) New York Regional Office, Park-Murray Building, 11 Park Place, New York 7, N. Y.: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and West Virginia.

(v) San Francisco Regional Office, Room 411, Customhouse, 555 Battery Street, San Francisco 11, Calif.: Arizona, California, Idaho, part of Montana, Nevada, Oregon, Utah, and Washington.

Each Regional Office is under the direction of a Regional Engineer, who is responsible for the activities of the Bureau within the particular territory, including cooperation with other governmental agencies in those activities. He is also responsible for the duties specified in section 5 (g) above.

The Regional Office activities include the investigation of proposed multiple-purpose river basin projects; assisting applicants in complying with requirements for preliminary permits and licenses; field supervision of licensed projects; receipt and checking of annual power system statements submitted by electric utilities; power market surveys; reports on power requirements and supply, interconnection and coordination of electric utility systems, and regional power pools; investigation of interruptions to electric service; and representation of the Commission on field committees.

(c) *The Bureau of Accounts, Finance and Rates.* The Bureau of Accounts, Finance and Rates, under the direction of the Chief of the Bureau, performs the accounting, finance, statistical, rate, and gas certificate phases of the Commission work. The duties of the Chief include those specified in section 5 (h) above. The Bureau is composed of four divisions, the work of which is described as follows:

(1) *The Division of Accounts.* The Division of Accounts performs all work relating to the accounting practices of electric public utilities, licensees, and natural gas companies; prepares, reviews, and interprets the Uniform Systems of Accounts for Public Utilities, Licensees, and Natural Gas Companies; makes accounting studies and investigations in rate cases; makes depreciation studies; prepares, reviews, and interprets the annual financial reports prescribed by the Commission; and makes special accounting studies as ordered by the Commission. The Division also reviews, investigates, and reports on the reclassification and original cost studies of electric public utilities and natural gas companies and the disposition of related accounting adjustments; and reviews, investigates, and reports on claimed net investment in licensed projects and the disposition of related accounting adjustments. A section of the Division of Accounts, located in the San Francisco Regional Office described above, audits and reports on the statements of claimed net investment in licensed projects in the western United States.

(2) *The Division of Finance and Statistics.* The Division of Finance and Statistics analyzes and reports on matters relating to electric utility finance, rate of return, security issues, sales and mergers of electric public utility properties; gathers and publishes financial, rate, cost, production, and other statistical information relating to the electric and natural gas industries.

(3) *The Division of Rates.* The Division of Rates performs the engineering work in rate investigations of electric public utilities, licensees and natural gas companies including studies of system operations, service lives of property, natural gas depletion rates, cost allocations, rate structures, service conditions and discriminatory practices; analyzes reports on and makes recommendations regarding tariffs, rate schedules and contracts filed by electric utilities, natural gas companies and certain Federal hydroelectric power projects.

(4) *The Division of Gas Certificates.* The Division of Gas Certificates handles matters relating to applications by natural gas companies and others for certificates of public convenience and necessity and the determination of service areas, the exportation and importation of natural gas, and the jurisdictional status of natural gas companies.

(d) *The Bureau of Law.* The Bureau of Law, under the direction of the General Counsel, performs the legal work related to the activities of the Commission. The Bureau is composed of four divisions, the work of which is described as follows:

(1) *The Division of Electric Power.* The Division of Electric Power performs the legal work under the Federal Power Act and the duties delegated to the Commission under the Bonneville Act, Tennessee Valley Authority Act, Fort Peck Act, and the other authorizations specified in sections 2 (b) and (c), except those matters handled by the Division of Hydroelectric Projects.

(2) *The Division of Natural Gas.* The Division of Natural Gas performs the legal work under the Natural Gas Act and the other authorizations conferring duties or jurisdiction upon the Commission with respect to natural gas.

(3) *The Division of Hydroelectric Projects.* The Division of Hydroelectric Projects performs the legal work under Part I of the Federal Power Act and under the duties delegated to the Commission under the Flood Control Acts and the River and Harbor Acts specified in section 2 (b) (other than the determination of net investment in licensed projects, rate and service matters, and security issues of licensees under Part I of the Federal Power Act and rate matters under the Flood Control Act of 1944, which are handled by the Division of Electric Power).

(4) *The Division of Interpretation and Research.* The Division of Interpretation and Research prepares legal interpretations and conducts legal research for the General Counsel and the Bureau generally; assists in the preparation of briefs, regulations, and reports on proposed legislation.

(e) *The Division of Examiners.* The Division of Examiners is under the direction of the Chief Examiner. Examiners, when duly designated, preside at prehearing conferences and make recommendations as to stipulations reached therein by counsel; preside at public hearings, and rule on the admission of evidence and all procedural questions arising in the course of such hearings; hear oral arguments; consider briefs, report to the Commission on the cases heard, and make initial or recommended decisions supported by findings of fact and conclusions of law. When serving as presiding officers, Examiners may exercise the functions specified in section 5 (i).

(f) *The Office of the Chief Engineer.* The Office of the Chief Engineer, under the direction of the Chief Engineer, advises the Commission on special engineering matters, including economic

studies and reports on the allocation of costs of multiple-purpose water control projects, and advises with the Bureau of Law on special engineering matters in connection with litigation relating to water power projects.

(g) *The Division of Budget and Finance.* The Division of Budget and Finance, under the direction of the Chief of the Division, handles all budget, fiscal, and related matters of the Commission; solicits bids, awards contracts, and purchases supplies, equipment and other materials; assists the Commission in contacts with the Bureau of the Budget, the Comptroller General, and the Appropriation Committees of Congress.

(h) *The Division of Personnel and Administrative Services.* The Division of Personnel and Administrative Services, under the direction of the Chief of the Division, performs all personnel functions for the Commission, including recruitment; and designated administrative services, including the preparation of illustrative and duplicative material for the other staff groups of the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25717]

COFFEE FROM NORTH ATLANTIC PORTS TO DUNKIRK, N. Y., AND SUNBURY, OHIO

APPLICATION FOR RELIEF

JANUARY 2, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to fourth-section application No. 25291.

Commodities involved: Coffee, green or roasted, carloads.

From: North Atlantic ports.

To: Dunkirk, N. Y., and Sunbury, Ohio.

Grounds for relief: Circuitous routes and port relationships.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A-913, Supp. 2. I. N. Doe's tariff I. C. C. No. 597, Supp. 1. P. W. Phillips' tariff I. C. C. No. 223, Supp. 29.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 51-145; Filed, Jan. 4, 1951; 8:49 a. m.]

[4th Sec. Application 25718]

PETROLEUM PRODUCTS FROM FARMER SPUR, LA.

APPLICATION FOR RELIEF

JANUARY 2, 1951.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for carriers parties to his tariffs named on the attached sheet.

Commodities involved: Petroleum products, carloads.

From: Farmer Spur, La.

To: Points in Illinois, official, southern, southwestern and western trunk line territories.

Grounds for relief: Competition with rail carriers. To maintain grouping.

Schedules filed containing proposed rates:

	I. C. C. No.	Supp. No.
D. Q. Marsh's Tariff	3585	443
	3821	62
	3802	79
	3825	92
	3651	246
	3724	129
	3494	210

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

ELMER E. BAUER ET AL.

SUPPLEMENTAL ORDER APPROVING CERTAIN MATTERS WITH RESPECT TO PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 27th day of December 1950.

In the matter of Elmer E. Bauer, Trustee of Pittsburgh Railways Company, debtor; and Philadelphia Company, File No. 52-28; Philadelphia Company, File No. 54-183.

The Commission, by orders dated March 27, 1950, and August 23, 1950 (Holding Company Act Release Nos. 9759 and 10058) and the United States District Court for the Western District of Pennsylvania, by orders dated May 1, 1950, and September 14, 1950, having approved a plan ("Combined Plan") which was filed jointly by Elmer E. Bauer ("Bauer"), Trustee of Pittsburgh Railways Company ("Railways"), Debtor, and by Philadelphia Company, a registered holding company, for the reorganization of the Railways System under Chapter X of the Bankruptcy Act and section 11 (f) of the Public Utility Holding Company Act of 1935 ("Holding Company Act") and for the discharge, pursuant to section 11 (e) of the Holding Company Act, of Philadelphia Company's guarantees affecting certain securities of companies included in the Railways System, and the Commission having reserved jurisdiction in its said orders over certain matters in connection with final consummation of the Combined Plan; and

Bauer and Philadelphia Company having requested a hearing on certain of the matters as to which jurisdiction had been so reserved; and

Public hearings having been held, after appropriate notice, and the Commission having considered the record, and having this day issued its Findings and Opinion herein:

It is ordered, Pursuant to sections 11 (e), 11 (f) and other applicable provisions of the Holding Company Act, that:

(1) The proposal that the Trustees of Railways turn over to New Company, for delivery by it to the sinking fund, any balance of funds remaining in their hands after payment of all charges, as more fully set forth in our Findings and Opinion this day issued, is hereby approved;

(2) The proposed initial issuance and authorization of $5,853,750 of new bonds by New Company is hereby approved;

(3) The proposal to pay the accrued bond interest for 1950 as soon after January 1, 1951, as is practicable is hereby approved;

(4) The proposed indenture of mortgage is hereby approved, subject to its qualification under the Trust Indenture Act of 1939;

(5) The proposed accounting entries on the books and balance sheet of New Company are approved, subject to the condition that the balance sheet item captioned:

"Excess of the Book Value of Assets Acquired (including property, plant and equipment at original cost) over the Aggregate of the Liabilities Assumed and the Face Amount of Bonds and Stated Value of Common Capital Stock ($10 per share) Issued."

be revised to read as follows:

"Excess of the Book Value of Assets Acquired Initially (including property, plant and equipment at original cost) over the Aggregate of the Liabilities Assumed and the Face Amount of Bonds and Stated Value of Common Capital Stock ($10 per share) Issued. If such assets were stated at the value of $17,000,000 as found in 1950 by the Securities and Exchange Commission and the United States District Court for the Western District of Pennsylvania for reorganization purposes, there would be no such excess."

It is further ordered, That jurisdiction be, and hereby is, continued with respect to the accounting entries proposed by Philadelphia Company on its books; with respect to any and all fees and expenses incurred or to be incurred in connection with the proceedings under section 11 (e) of the Holding Company Act; and also to entertain such further proceedings, to make such supplemental findings, to take such further action, and to enter such further orders as the Commission may deem necessary or appropriate in these proceedings.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 54-50, 54-82, 59-10, 59-39, 70-1369]

NORTH AMERICAN CO. ET AL.

SUPPLEMENTAL ORDER APPROVING CERTAIN TRANSACTIONS AND RESERVING JURISDICTION TO ENTER FUTURE ORDERS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 28th day of December 1950.

In the matter of the North American Company and its subsidiary companies, File No. 59-10; The North American Company, File No. 54-82; North American Light & Power Company, Holding Company System, and The North American Company, File No. 59-39; North American Light & Power Company, File No. 54-50; North American Light & Power Company, File No. 70-1369.

The Commission having issued its order on December 30, 1941, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 ("act") directing the liquidation and dissolution of North American Light & Power Company ("Light & Power"), a registered holding company; and

The Commission having issued its order on June 25, 1947 (File Nos. 59-10, 54-82, 59-39, and 54-50), approving, subject to certain conditions, Amended Plan I filed pursuant to section 11 (e) of the act by The North American Company ("North American"), also a registered holding company, and joined in by its subsidiary, Light & Power, providing for the liquidation and dissolution of Light & Power; and

An order approving said plan and directing enforcement thereof having been entered by the United States District Court for the District of Delaware on November 6, 1947, said order having been affirmed by the United States Court of Appeals for the Third Circuit on November 5, 1948, and no petition to the Supreme Court of the United States for a writ of certiorari to review said affirmance having been filed, and the time within which to file such petition having expired; and

The Commission having issued its supplemental orders dated August 4, 1947, January 10, 1949, May 13, 1949, and July 20, 1949, amending its said order, dated June 25, 1947, so as to include certain recitals conforming to the requirements of Supplement R of Chapter I of section 1808 (f) of Chapter 11 of the Internal Revenue Code, as amended, and having reserved jurisdiction in said supplemental orders to enter such other or further orders conforming to the requirements of Supplement R of Chapter I and section 1808 (f) of Chapter 11 of the Internal Revenue Code, as amended, as might appear to the Commission to be appropriate; and

The said plan having been partially consummated so that North American is now the sole stockholder of Light & Power, and, in connection with and as a part of its final liquidation and dissolution, as contemplated by the plan, Light & Power having filed, on September 26, 1950, pursuant to Rule U-44 (c) of the rules and regulations under the act, (File No. 70-1369) a Notice of Intention to distribute and transfer to North American, as the holder of all the outstanding stock of Light & Power, 1,500,000 shares of the outstanding Common Stock, $5 par value, of Missouri Power & Light Company ("Missouri Power"), and Light & Power having requested that the Commission issue a supplemental order containing the recitals, findings and orders hereinafter set forth; and

The Commission having considered said request and deeming it appropriate in the public interest and in the interest of investors and consumers that said request be granted; and

The Commission having examined the filing pursuant to Rule U-44 (c) and having determined that the proposed transactions as contemplated by the said plan constitute a reasonable and appropriate method of compliance with said order of December 30, 1941, directing that Light & Power liquidate and dissolve and having determined that it is unnecessary to require the filing of a declaration with respect to the proposed transactions:

It is ordered, That the order dated June 25, 1947, in the consolidated proceedings bearing File Nos. 59-10, 54-82, 59-39, and 54-50 as heretofore amended by supplemental orders dated August 4, 1947, January 10, 1949, May 13, 1949, and July 20, 1949, be, and the same hereby is further amended by adding thereto the following provisions:

It is further ordered and recited and the Commission finds, That the proposed transfer and distribution by North American Light & Power Company to The North American Company, as the holder of all of the outstanding common stock of North American Light & Power Company, of 1,500,000 shares of Common Stock, $5 par value, of Missouri Power & Light Company (represented by Certificate Nos. 6, 7, 8, 11, 12, 13, 14, 16 and 17), all in connection with and as a part of the final liquidation and dissolution of North American Light & Power Company and all as authorized or permitted by the Commission's order of June 25, 1947, and in obedience thereto, are necessary or appropriate to the integration of the holding company system of which The North American Company and North American Light & Power Company are members and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

It is further ordered, That jurisdiction be, and hereby is reserved to enter such other or further orders, conforming to the requirements of Suplement R of Chapter 1 and section 1808 (f) of the Internal Revenue Code, as amended, as may appear to the Commission to be appropriate.

By the Commission.

[F. R. Doc. 51-139; Filed, Jan. 4, 1951; 8:48 a. m.]

[File No. 54-51]

NATIONAL POWER AND LIGHT CO. ET AL.

ORDER REGARDING REORGANIZATION FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 28th day of December A. D. 1950.

In the matter of National Power & Light Company, Lehigh Valley Transit Company, Lehigh Valley Transportation Company, Easton Transit Company, Easton & South Bethlehem Transportation Company, File No. 54-51.

The Commission having on August 25, 1948, approved an amended plan for the reorganization of Lehigh Valley Transit Company ("Lehigh"), filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by Lehigh and its parent, National Power & Light Company ("National"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and said order having reserved jurisdiction with respect to the payment of all fees and expenses incurred or to be incurred in connection with the said plan or the transactions recited therein; and

Applications having been filed for compensation and reimbursement of expenses from Lehigh and National in connection with said plan; a public hearing having been held, the Commission having considered the record and having this day made and filed its Memorandum Opinion herein:

It is ordered, That the following applications are hereby approved in the amounts as indicated and not otherwise:

(a) To be paid by National: Simpson, Thatcher & Bartlett, counsel for National—$13,500 for fees and $157.64 for disbursements.

Reid & Priest, counsel for National—$7,500 for fees and $1,990.11 for disbursements.

(b) To be paid by Lehigh: Reid & Priest, counsel for Lehigh—$22,500 for fees and $3,257.19 for disbursements.

Lehigh Valley Trust Company, trustee under the Lehigh indenture and exchange agent under the plan—$11,321 for fees.

Snyder, Wert & Wilcox, local counsel for Lehigh—$1,000 for fees.

It is further ordered, That National and Lehigh shall pay the amounts indicated less the amounts heretofore paid to such applicants on account.

It is further ordered, That the applications for compensation and reimbursement of disbursements of the firms of Nutter, McClennan & Fish and Rawle & Henderson be, and the same hereby, are denied.

By the Commission.

[File Nos. 54-168, 59-12]

ELECTRIC BOND AND SHARE CO. ET AL.

ORDER APPROVING TRANSFER AND SALE OF CERTAIN COMMON STOCK

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 27th day of December A. D. 1950.

In the matter of Electric Bond and Share Company, American Power & Light Company, File No. 54-168; In the matter of Electric Bond and Share Company, American Power & Light Company, et al., File No. 59-12.

Electric Bond and Share Company ("Bond and Share"), a registered holding company, having notified the Commission, pursuant to paragraph (c) of Rule U-44 promulgated pursuant to the Public Utility Holding Company Act of 1935, that it intends to carry out the following transaction:

Bond and Share now owns 146,956 shares (3.34 percent) of the common stock of Texas Utilities Company ("Texas Utilities"), which holdings constitute 3.34 percent of the total voting power of all of the securities of Texas Utilities now outstanding. These 146,956 shares of said common stock are the remainder of the 343,844 shares (7.2 percent) of the Texas Utilities common stock acquired, together with other securities of former utility subsidiaries of American Power & Light Company ("American"), in exchange for Bond and Share's holdings of former preferred and common stocks of American pursuant to a section 11 (e) plan of American approved by this Commission on October 4, 1949, and made effective February 15, 1940. The acquisition of the securities, including the common stock of Texas Utilities, by Bond and Share under the above mentioned section 11 (e) plan was subject to a commitment by Bond and Share to dispose of such securities within one year from the effective date of the plan. On December 13, 1950, Bond and Share paid a dividend to its stockholders of 196,888 shares of Texas Utilities common stock (File No. 70-2510). Bond and Share now proposes to sell the remaining 146,956 shares of common stock of Texas Utilities through Shields & Company as agent and for the account of Bond and Share, said Shields & Company agreeing to purchase any unsold balance as principal. Bond and Share proposes to pay Shields & Company, as its agent, 72 cents per share for each share of Texas Utilities common stock sold for the account of Bond and Share. Said common stock is to be sold at a price determined by the average bid and asked price on a date to be selected by Bond and Share. In its notice to this Commission, Bond and Share states that it may consummate the above described transaction on or about January 2, 1951. Also in said notice, Bond and Share requests the entry of an order finding that the proposed sale of the common stock of Texas Utilities is necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

The Commission having advised Bond and Share that the proposed sale did not appear to require the filing of an application or declaration with the Commission under the act, and the Commission finding that the requested order can properly be entered:

It is ordered and recited, That the sale and transfer by Electric Bond and Share Company of 146,956 shares of common stock of Texas Utilities Company through Shields & Company, as agent or as principal, is necessary or appropriate to the integration and simplification of the holding company system of which Electric Bond and Share Company is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

[File No. 59-10, 70-2066]

NORTH AMERICAN CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE AND MODIFYING PRIOR ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 28th day of December 1950.

In the matter of the North American Company and its Subsidiary Companies, Respondents, File No. 59-10; In the matter of the North American Company, Union Electric Company of Missouri, File No. 70-2066.

The Commission, having on April 14, 1942, entered an order (File No. 59-10), pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935 ("act"), permitting The North American Company ("North American"), a registered holding company, to retain as its principal system the integrated electric utility system of its subsidiary, Union Electric Company of Missouri ("Union"), a registered holding company and a public utility company, and directing North American to sever its relationship, direct or indirect, with Missouri Power & Light Company ("Missouri"), a public utility subsidiary of North American and formerly a subsidiary of North American Light & Power Company ("Light & Power"), an intermediate holding company in the North American holding company system; and

The Commission having issued its Findings and Opinion in connection with its aforesaid order of April 14, 1942, and having therein stated:

• • • our order requiring North American to divest itself of its interest in • • • Light & Power's subsidiaries does not foreclose the filing of applications in the future looking to the possible integration of any of these properties with the retainable properties of North American; and

North American and Union having filed a joint application-declaration and amendments thereto (File No. 70-2066) pursuant to the act and the rules and regulations thereunder, with respect to the transfer by North American to Union of all of the outstanding common stock, consisting of 1,500,000 shares, par value $5 per share, of Missouri in exchange for 600,000 additional shares of common stock, without par value, of Union; and

The applicants-declarants having requested that the Commission's aforesaid order of April 14, 1942, be modified so as to permit consummation of the transactions proposed in connection with the joint application-declaration, as amended; and

Said application-declaration and amendments thereto having been duly filed, and public hearings having been held thereon after appropriate notice, and the Commission having examined the record and having filed its Findings and Opinion herein with respect thereto:

It is ordered, Pursuant to the applicable provisions of the act and the rules thereunder, that said application, as amended, be, and the same hereby is granted, and that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the following additional terms, conditions and reservations of jurisdiction:

(1) That within six months after receipt by Union of the Missouri common stock, or such further time as the Commission may grant upon good cause shown, Union shall cause the disposition of its interest in Missouri's water and ice properties and businesses and Missouri's electric properties located at Clinton, Missouri; and that North American shall cause Union to take such action;

(2) Jurisdiction be and hereby is generally reserved to the Commission to reexamine the retainability by applicants-declarants of Missouri's gas utility system if, as, and when additional gas becomes available to Missouri in sufficient quantity, in which connection applicants-declarants shall file with the Commission, beginning June 30, 1951, semiannual reports relative to the status of Missouri's gas supply, and to entertain such further proceedings, to take such further action as the Commission may deem appropriate in connection therewith to effectuate the provisions of section 11 (b) of the act; and

(3) Jurisdiction be, and hereby is, reserved to examine and require appropriate accounting entries to be made by Union in connection with its recordation of its investment in the common stock of Missouri after the disposition of the Clinton electric properties and the water and ice properties and businesses of Missouri.

It is further ordered and recited and the Commission finds, That the proposed sale and transfer by The North American Company to Union Electric Company of Missouri of 1,500,000 shares of common stock, $5 par value, of Missouri Power & Light Company (represented by Certificate Nos. 6, 7, 8, 11, 12, 13, 14, 16, and 17), and the issue and delivery in exchange therefor by Union Electric Company of Missouri to The North American Company of 600,000 shares of common stock without par value of Union Electric Company of Missouri (represented by Certificate No. NC 39), all as authorized or permitted by this order of the Commission, and in obedience thereto, are necessary and appropriate to the integration of the holding company system of which The North American Company, Union Electric Company of Missouri and Missouri Power & Light Company are members, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

It is further ordered, That the Commission's order dated April 14, 1942, be, and the same hereby is, modified to the extent necessary to permit consummation of the transactions herein proposed, subject to the terms, conditions, and reservations of jurisdiction above set forth.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 51-138; Filed, Jan. 4, 1951; 8:48 a. m.]

[File No. 70-2541]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER PROHIBITING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of December A. D. 1950.

In the matter of Pennsylvania Gas & Electric Corporation, North Penn Gas Company, Allegany Gas Company, File No. 70-2541.

Pennsylvania Gas & Electric Corporation, a registered holding company, and two of its subsidiaries, North Penn Gas Company, a public utility company and a registered holding company, and Allegany Gas Company ("Allegany"), a public utility company and a registered holding company which is a direct subsidiary of North Penn Gas Company, having filed a declaration pursuant to section 12 of the Public Utility Holding Company Act of 1935 (the "act") and Rule U-44 thereunder with respect to the proposed sale by Allegany to Springfield Union Employees Beneficial Fund and Republican Daily News Employees Beneficial Fund of all of the outstanding capital stock of Crystal City Gas Company ("Crystal City"), a public utility subsidiary of Allegany, consisting of 2,639 shares of capital stock with a par value of $100 a share, for a cash consideration of $650,000; and

The Commission having issued its notice of filing and order for hearing with respect to said declaration, and notice of said hearing having been given to all known security holders of Pennsylvania Gas & Electric Corporation and to all interested persons, and public hearings having been duly held at which security holders of Pennsylvania Gas & Electric Corporation and other interested persons were afforded opportunity to be heard, and the Commission having heard oral argument; and

The Commission having considered the record and having arrived at its determination with respect to whether the declaration should be permitted to become effective, but in view of the fact that the record was not closed until December 28, 1950, the Commission not having completed its preparation of its findings and opinion herein, and the Commission being aware of the necessity of issuing its order with respect to the proposed transactions prior to the end of 1950; and

The Commission deeming it appropriate in the public interest and in the interest of investors that its order herein be entered forthwith without awaiting completion of its findings and opinion and being of the opinion that the aforesaid declaration should not be permitted to become effective:

It is ordered, Pursuant to the applicable provisions of the act and the rules and regulations thereunder that the aforesaid declaration shall not be permitted to become effective.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 51-135; Filed, Jan. 4, 1951; 8:47 a. m.]

[File No. 70-2269, 70-2334]

OHIO EDISON CO. AND OHIO PUBLIC SERVICE CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO FEES OF FINANCIAL ADVISOR

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 29th day of December A. D. 1950.

In the matter of Ohio Edison Company, File No. 70-2269; Ohio Edison Company, the Ohio Public Service Company, File No. 70-2334.

Ohio Edison Company ("Ohio"), a registered holding company and a public utility company, having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935 (the "act") relating to, among other things, the proposed acquisition by Ohio of 2,000,000 shares of common stock of The Ohio Public Service Company ("Public Service") owned by Cities Service Company, a registered holding company, said purchase to be financed primarily through the issuance and sale by Ohio of additional shares of its $3 par value common stock; and Ohio and Public Service having, upon such acquisition, filed joint applications-declarations pursuant to the act for approval of certain transactions incident to the merger of Public Service into and with Ohio; and

The Commission having granted said applications and permitted said declarations to become effective by its orders dated December 2, 1949, and December 5, 1949, File No. 70-2269 (Holding Company Act Release Nos. 9539 and 9543), and by its Orders dated March 29, 1950, and May 17, 1950, File No. 70-2334 (Holding Company Act Release Nos. 9771 and 9866), and said orders having contained a reservation of jurisdiction over fees and expenses, incurred or to be incurred with respect to the proposed transactions, including the fee to be paid Morgan Stanley & Co. for its services as financial advisor to Ohio in connection with these matters; and

The record having been completed with respect to this fee, showing therein that Morgan Stanley & Co. request compensation of $37,500 payable by Ohio for their services as financial advisor; and

The Commission having examined the information furnished with respect to such fee and it appearing that such requested fee is not unreasonable:

It is ordered, That the jurisdiction heretofore reserved with respect to the fee to be paid Morgan Stanley & Co., by our previous orders herein be, and the same hereby is, released.

It is further ordered, That the jurisdiction heretofore reserved with respect to all other fees and expenses incurred or to be incurred with respect to the proposed transactions be, and the same hereby is, continued.

By the Commission.

[Vesting Order 16347]

TOKIO AND UMEKICHI TAKAHASHI

In re: Rights of Tokio Takahashi and Umekichi Takahashi under insurance contract. File No. F-39-4500-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Exec-

utive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Tokio Takashashi and Umekichi Takahashi, whose last known address is Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 7 631 012, issued by the New York Life Insurance Company, New York, New York, to Tokio Takahashi, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Tokio Takahashi or Umekichi Takahashi, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 11, 1950.

For the Attorney General.

[Vesting Order 7868, Amdt.]

MARY DAMBACH ET AL.

In re: Stock owned by Mary Dambach, also known as Mary Arpten Dambach, and others. F-28-2115-D-4, F-28-23629-D-1, F-28-23630-D-1, F-28-23631-D-1, F-28-23632-D-1, F-28-23633-D-1, F-39-291-D-1, D-66-2263-D-1.

Vesting Order 7868, dated October 14, 1946, is hereby amended as follows and not otherwise:

By deleting subparagraph 3 of said Vesting Order 7868 and substituting therefor the following:

3. That the property described as follows:

a. Three hundred fifty-five (355) shares of $1.00 par value common capital stock of Paramount Pictures, Inc., 1501 Broadway, New York, New York, a corporation organized under the laws of the State of New York, evidenced by the certificates listed below, registered in the names of and owned by the persons listed below in the amounts appearing opposite each name as follows:

Registered owner	Certificate Nos.	Number of shares
Mrs. Mary Dambach	C144517	100
Do	C0149095	96
Do	C0151661	7
Theodora P. Cochrane	C016041	76
Do	T021393	76

together with all declared and unpaid dividends thereon, and, without limitation, any and all rights to receive shares of Paramount Pictures Corporation and United Paramount Theatres, Inc., allocable to the above-described shares of Paramount Pictures, Inc., pursuant to a plan of reorganization of said Paramount Pictures, Inc., approved March 3, 1949, together with all declared and unpaid dividends on said shares of Paramount Pictures Corporation, and United Paramount Theatres, Inc., and

b. Sixteen (16) shares of no par value common capital stock of Paramount Publix Corporation, 1501 Broadway, New York, New York, a corporation organized under the laws of the State of New York, evidenced by the certificates listed below, registered in the names of and owned by the persons listed below in the amounts appearing opposite each name as follows:

Registered owner	Certificate No.	Number of shares
Miss Frieda Flegel	45195	5
Miss Martha Heuschel	45197	2
Willi Hoffmann	45194	5
Mrs. Mary Tyroler	045190	3
Do	089234	1

together with all declared and unpaid dividends thereon, and any and all rights allocable to the above-described shares under a plan or reorganization of said Paramount Publix Corporation of June 1935, whereby, among other things, one (1) share of $1.00 par value common stock of Paramount Pictures, Inc., was issuable for each four (4) shares of stock of said Paramount Publix Corporation, and any and all rights allocable to the shares of Paramount Pictures, Inc., so issuable under a stock split of said Paramount Pictures, Inc., of July 8, 1946, together with all declared and unpaid dividends on the shares so issuable and any and all rights to receive shares of Paramount Pictures Corporation and United Paramount Theatres, Inc., allocable to the above-described shares of Paramount Pictures, Inc., pursuant to a plan of reorganization of said Paramount Pictures, Inc., approved March 3, 1949, together with all declared and unpaid dividends on said shares of Paramount Pictures Corporation and United Paramount Theatres,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

All other provisions of said Vesting Order 7868, and all actions taken by or on behalf of the Alien Property Custodian and the Attorney General of the United States in reliance thereon, pursuant thereto and under authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16334]

ELIZABETH SUNDERBRINK

In re: Mortgage participation certificates and debts owned by Elizabeth Sunderbrink. F-28-4029; A-1; G-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Elizabeth Sunderbrink, whose last known address is 8 Arndtstrasse, Muelheim-Ruhr, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. All rights and interests evidenced by Mortgage Participation Certificates of Series B-K, issued by New York Title and Mortgage Company, numbered 1147, due April 1, 1939, and numbered 6857, due August 1, 1941, registered in the name of Wilhelm Muhlig, including any and all distributions of principal and interest, due, or to become due thereon, together with any and all rights to demand, enforce and collect the same, and

b. All checks in the possession of Trust Company of North America, 115 Broadway, New York, New York, as Transfer and Distribution Disbursing Agent for the Trustees of Mortgage Participation Certificates of Series B-K, issued by New York Title and Mortgage Company, drawn for payments of principal and interest on the certificates described in subparagraph 2-a hereof, including but not limited to those checks described in Exhibit A, attached hereto and by reference made a part hereof, and the rights to possession and presentation for payment of all such checks,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account or, or owing to, or which is evidence of ownership or control by, Elizabeth Sunderbrink, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 8, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16306]

DEUTSCHE BANK

In re: Bank accounts owned by and debts owing to Deutsche Bank, Berlin, Germany, Deutsche Bank, Istanbul, Turkey, and Deutsche Bank in der Tschechoslovakai, Prague, Czechoslovakia. F-28-852-C-4; E-1; E-4; E-14; F-28-852-E-17; E-21; E-25; E-28; E-30.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Deutsche Bank, the last known address of which is Berlin, Germany, is a corporation, partnership, association, or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany and is a national of a designated enemy country (Germany);

2. That Deutsche Bank, the last known address of which is Istanbul, Turkey, is a branch of Deutsche Bank, Berlin, Germany, and is, or on or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Deutsche Bank, Berlin, Germany, and is a national of a designated enemy country (Germany);

3. That Deutsche Bank in der Tschechoslovakai, the last known address of which is Prague, Czechoslovakia, is a branch of Deutsche Bank, Berlin, Germany, and is, or on or since the effective date of Executive Order 8389, as amended, has been controlled by the aforesaid Deutsche Bank, Berlin, Germany, and is a national of a designated enemy country (Germany);

4. That the property described as follows:

a. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The American Express Company, 65 Broadway, New York City, New York, arising out of overdrafts as shown by the books of The American Express Company, in its free marks account maintained with the Deutsche Bank, Berlin, Germany, and any and all rights to demand, enforce and collect the same,

b. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by the Chase National Bank of the City of New York, 18 Pine Street, New York, New York, arising out of an account entitled inactive dollar checking account in the name of Deutsche Bank, Berlin, Germany, maintained with the aforesaid The Chase National Bank of the City of New York, and any and all rights to demand, enforce and collect the same,

c. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, arising out of an account entitled an unclaimed dollar deposit account, in the name of Deutsche Bank, Berlin, Germany, maintained with the aforesaid The Chase National Bank of the City of New York, and any and all rights to demand, enforce and collect the same,

d. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The Grace National Bank of New York, 7 Hanover Square, New York 5, New York, arising out of a checking account, entitled Deutsche Bank, Berlin, Germany, maintained at the aforesaid Grace National Bank of New York, and any and all rights to demand, enforce and collect the same,

e. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by Mellon National Bank, Pittsburgh 36, Pennsylvania, arising out of a regular dollar account, entitled Deutsche Bank, Berlin, Germany, maintained at the aforesaid Mellon National Bank, and any and all rights to demand, enforce and collect the same,

f. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The Tradesmens National Bank & Trust Co., 320 Chestnut Street, Philadelphia 1, Pennsylvania, arising out of an account, entitled Deutsche Bank, Berlin, Germany, maintained at the aforesaid Bank, and any and all rights to demand, enforce and collect the same,

g. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The Washington Loan and Trust Company, 900 F Street, N. W., Washington 4, D. C., arising out of a checking account, entitled Deutsche Bank, Berlin, Germany, maintained at the aforesaid The Washington Loan and Trust Company, and any and all rights to demand, enforce and collect the same,

h. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The Riggs National Bank, Washington, D. C., arising out of a checking account, entitled Deutsche Bank, Berlin, Germany, maintained at the aforesaid The Riggs National Bank, and any and all rights to demand, enforce and collect the same, and

i. That certain debt or other obligation owing to Deutsche Bank, Berlin, Germany, by The New York Trust Company, 100 Broadway, New York, New York, arising out of a certain checking account, entitled Deutsche Bank, Mainz, Germany, maintained at the aforesaid The New York Trust Company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Deutsche Bank, Berlin, Germany, the aforesaid national of a designated enemy country (Germany);

5. That the property described as follows: That certain debt or other obligation owing to Deutsche Bank, Istanbul, Turkey, by the National City Bank of New York, 55 Wall Street, New York, New York, arising out of an unpresented draft account, entitled Deutsche Bank, Istanbul, Turkey, maintained at the aforesaid National City Bank of New York, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Deutsche Bank, Istanbul, Turkey, the aforesaid national of a designated enemy country (Germany);

6. That the property described as follows: That certain debt or other obligation owing to Deutsche Bank in der Tschechoslovakai, Prague, Czechoslovakia, by the National City Bank of New York, 55 Wall Street, New York, New York, arising out of an unpresented draft account, entitled Deutsche Bank in der Tschechoslovakai, Prague, Czechoslovakia, maintained at the aforesaid National City Bank of New York, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by

Deutsche Bank, in der Tschechoslovakai, Prague, Czechoslovakia, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

7. That Deutsche Bank, Berlin, Germany, Deutsche Bank, Istanbul, Turkey, and Deutsche Bank in der Tschechoslovakai, Prague, Czechoslovakia, are controlled by, or acting for or on behalf of a designated enemy country (Germany) or persons within such country and are nationals of a designated enemy country (Germany);

8. That to the extent that the persons named in subparagraphs 1, 2 and 3, hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 8, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

KREDITBANK

In re: Bank accounts owned by Kreditbank, also known as Deutsch-Bulgarische Kreditbank and as Banque de Credit. F-28-1791, F-28-1791-E-1, F-28-1791-E-2, F-28-1791-E-3, F-28-1791-E-4.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Deutsche Bank, the last known address of which is Berlin, Germany, is a corporation organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany, and is a national of a designated enemy country (Germany);

2. That Kreditbank, also known as Deutsch-Bulgarische Kreditbank and as Banque de Credit, is a corporation organized under the laws of Bulgaria, whose principal place of business is located at Sofia, Bulgaria, and is or, since the effective date of Executive Order 8389, as amended, has been controlled by or acting or purporting to act, directly or indirectly, for the benefit or on behalf of the aforesaid Deutsche Bank, and is a national of a designated enemy country (Germany);

3. That the property described as follows: Those certain debts or other obligations of the banks whose names and addresses are set forth in Exhibit A, attached hereto and by reference made a part hereof, arising out of the accounts described in said Exhibit A, maintained at said banks, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Kreditbank, also known as Deutsch-Bulgarische Kredit bank and as Banque de Credit, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That Kreditbank, also known as Deutsch-Bulgarische Kreditbank and as Banque de Credit, is controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany); and

5. That to the extent that the persons named in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 16479]

AUGUSTA KULLA

In re: One-third interest in securities owned by Augusta Kulla. F-28-30644.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Augusta Kulla, whose last known address is Hannoversche, Munden, Germany, Am Plam 13, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. A one-third interest in that certain debt or other obligation, matured or unmatured, evidenced by a trust receipt of the Seaboard Trust Company, 95 River Street, Hoboken, New Jersey, in the amount of $3,920.88, registered in the name of Norbert Kulla, numbered TR-3840, together with a one-third interest in any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same.

b. A one-third interest in that certain debt or other obligation, matured or unmatured, evidenced by a trust certificate of the Seaboard Trust Company, 95 River Street, Hoboken, New Jersey, of $356.44 face value, registered in the name of Norbert Kulla and numbered TC-3844, together with a one-third interest in any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same, and

c. An undivided one-third of all rights, interests and claims in and to, and arising out of or under a voting trust certificate for 37 shares of capital stock of Seaboard Trust Company, 95 River Street, Hoboken, New Jersey, said certificate numbered VT-2906,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Augusta Kulla, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

[Vesting Order 16484]

L. F. WILL & CO.

In re: Bank account and portions of bank accounts owned by and debt owing to L. F. Will & Co. F-28-28704 and C-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hiag-Verein Holzverkohlungs-Industrie G. m. b. H., the last known address of which is Frankfurt am Main, Germany, is a corporation organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That A. G. fur Waldverwertung is a corporation organized under the laws of Switzerland, whose principal place of business is located at Zurich, Switzerland, and is or, since the effective date of Executive Order 8389, as amended, has been controlled by or acting or purporting to act directly or indirectly for the benefit or on behalf of the aforesaid Hiag-Verein Holzverkohlungs-Industrie G. m. b. H., and is a national of a designated enemy country (Germany);

3. That L. F. Will & Co. is a limited partnership organized under the laws of Holland, whose principal place of business is located at Amsterdam, Holland, and is or, since the effective date of Executive Order 8389, as amended, has been controlled by or acting or purporting to act directly or indirectly for the benefit or on behalf of the aforesaid A. G. fur Waldverwertung, and is a national of a designated enemy country (Germany);

4. That the property described as follows:

a. That certain debt or other obligation of The National City Bank of New York, 55 Wall Street, New York, New York, arising out of a blocked account entitled L. F. Will & Co. N. V., maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

b. That certain debt or other obligation of The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, in the amount of $10,525.92, constituting a portion of a blocked account in the name of Rotterdamsche Bank N. V., maintained at said The Chase National Bank of the City of New York, and any and all rights to demand, enforce and collect the same,

c. That certain debt or other obligation of The National City Bank of New York, 55 Wall Street, New York, New York, in the amount of $603.06, constituting a portion of a blocked account in the name of Amsterdamsche Bank N. V., maintained at said The National City Bank of New York, and any and all rights to demand, enforce and collect the same, and

d. That certain debt or other obligation owing to L. F. Will & Co. by the Southern Chemical Cotton Company, 45th & Central Avenue, Chattanooga 10, Tennessee, in the amount of $3,234.19, as of May 24, 1949, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by L. F. Will & Co., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

7. That A. G. fur Waldverwertung and L. F. Will & Co. are controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and are nationals of a designated enemy country (Germany);

8. That to the extent that the persons named in subparagraphs 1, 2 and 3 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have

the meanings prescribed in section 10 of Executive Order 9193, as amended.

Beginning at a pipe on the south corner of this parcel of land, the coordinates of said point of beginning referred to Government Survey Triangulation Station "Olaa" being 12,606.45 feet south and 14,411.97 feet west, thence running by azimuths measured clockwise from true south:

1. 144°47'30" 1,000.80 feet along Land Court Application 1057 to a pipe;
2. 236°55'20" 519.00 feet to an iron rail;
3. 325°49'50" 1,027.68 feet to a pipe;
4. 65°11' 291.40 feet to a pipe;
5. 53°02' 213.50 feet to the point of beginning and containing a gross area of 11.715 acres and a net area of 11.355 acres after deducting 0.36 acre for a 30-foot road and railroad right of way, owned by the Olaa Sugar Company, Ltd., across this lot.

Parcel No. 2. That certain piece or parcel of land situate at Olaa, Puna, Hawaii, being a portion of Royal Patent No. 4981, known as Lot 7, and more particularly described by metes and bounds as follows:

Beginning at the north corner of Lot 7, the coordinates of said point referred to Government Survey Station known as Volcano Road Station No. 5, South 7821.35 feet and West 1824.21 feet, thence running by true azimuths.

1. 311°15' 111.53 feet along 20 foot right of way;
2. 42°02' 480.00 feet along Grant 5055;
3. 131° 15' 111.53 feet along Grant 4941;
4. 222°02' 480.00 feet to point of beginning, and containing an area of 1.23 acres.

Parcel No. 3. Beginning at the North corner of this piece of land, the coordinates of said point of beginning referred to Government Survey Trig. Station (Olaa) being South 7,453.65 feet and West 2,244.16 feet.

Thence running by true azimuths and distances as follows:

1. 311°15' 111.53 feet along Grant 4981;
2. 42°02' 480.00 feet along Grant 4981;
3. 131°15' 111.53 feet along Grant 4941;
4. 222°02' 480.00 feet along Grant 4981 to the point of beginning and containing an area of 1.23 acres.

Parcel No. 4. Beginning at the north corner of this piece of land, the coordinates of said point of beginning referred to Government Survey Trig. Station (Olaa), being south 7674.27 feet and west 1992.61 feet.

Thence running by true azimuths and distances as follows:

1. 311°15' 111.53 feet along Grant 4981;
2. 42°02' 480.00 feet along Grant 4981;
3. 131°15' 111.53 feet along Grant 4941;
4. 222°02' 480 feet along Grant 4981 to the point of beginning and containing an area of 1.23 acres.

Parcel No. 5. Beginning at the north corner of this piece of land, the coordinates of said point of beginning referred to Government Survey Trig. Station (Olaa) being South 7600.73 feet and West 2076.46 feet:

Thence running by true azimuths and distances as follows:

1. 311°15' 111.53 feet along Grant 4981;
2. 42°03' 480.00 feet along 4981;
3. 131°15' 111.53 feet along Grant 4941;
4. 222°02' 480 feet along Grant 4981 to the point of beginning and containing an area of 1.23 acres.

Parcel No. 6. Beginning at the north corner of that certain piece or parcel of Grant 4981, the coordinates of said point referred to Government Survey Station known as Olaa, Volcano Road, Station No. 5, South 7381.37 feet and west 2326.58 ft., thence running by true azimuths and distances as follows:

1. 311°15' 109.62 feet along 20 foot right of way;
2. 42°02' 480.00 feet along lot 3 of Grant 4981;
3. 131°15' 98.24 feet along Grant 4941;
4. 222°02' 208.71 feet along Kimura's Lot;
5. 131°15' 11.38 feet along Kimura's Lot;
6. 222°02' 271.29 feet to point of beginning and containing an area of 1.23 acres.

Parcel No. 7. Begining at the north corner of this piece of land, the coordinates of said point referred to Government Survey Trig. Station (Olaa) being south 7527.19 feet and west 2160.31 feet. Thence running by true azimuths and distances as follows:

1. 311°15' 111.53 feet along Grant 4981;
2. 42°02' 480.00 feet along Grant 4981;
3. 131°15' 111.53 feet along Grant 4981;
4. 222°02' 480.00 feet along Grant 4981 to the point of beginning and containing an area of 1.23 acres.

[Vesting Order 16713]

FANNY BAUER

In re: Real property owned by Fanny Bauer. F-28-31036-B-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Fanny Bauer, whose last known address is (13b) Sackgasse 12 I, Freising-Bayern, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows

a. Real property situated in the Town of Oyster Bay, County of Nassau, and State of New York, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 26, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

All that certain piece or parcel of land situate, lying and being in the Town of Oyster Bay, County of Nassau and State of New York, known and designated as lots No. nineteen (19) and twenty (20) in Block 265 on a certain plan of lots called "Nassau Shores," Section No. Two, situate in the County of Nassau, surveyed by Chester R. Nichols, Licensed State Surveyor, May, 1926, and filed in the Clerk's Office of Nassau County, aforesaid, on the 22nd day of May 1926, as Map No. 605, bounded and described as follows:

Beginning at a point on the westerly side of West Shore Drive distant two hundred and forty and forty-four one-hundredths (240.44) feet southerly from the corner formed by the intersection of the westerly side of West Shore Drive with the southerly side of Orlando Street as shown on said plan; running thence westerly parallel with said Orlando Street one hundred and twenty (120) feet more or less to Unqua River; thence southwesterly along Unqua River fifty-six (56) feet more or less; thence easterly on a radial line one hundred and sixty (160) feet more or less to the westerly side of West Shore Drive; thence northerly along the said westerly side of West Shore Drive forty (40) feet to the point or place of beginning, be said measurements and area more or less.

[Vesting Order 16715]

HILAR VOITH ET AL.

In re: Real property and bank account owned by Hilar Voith and others. F-28-4602, F-28-4602-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the persons whose names and last known addresses appear below, are residents of Germany and nationals of a designated enemy country (Germany):

Name and Address

Elsa M. Voith, Harras near Prien, Germany.
Hilar Voith, Altbeuern near Rosenheim, Germany.
Erwin Malblanc, 63 Kaiserstrasse Reutlingen, Wuerttemberg, Germany;

2. That Thea Voith, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been acting or purporting to act directly or indirectly for the benefit or on behalf of a designated enemy country (Germany) or nationals of such country and is a national of a designated enemy country (Germany);

3. That the property described as follows: Real property, situated in Township of Empire, County of Leelanau, State of Michigan, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

4. That the property described as follows: All those debts or other obligations owing to Hilar Voith and Erwin Malblanc, by Christian F. Benz, 35 Puritan Avenue, Tuckahoe 7, New York, including particularly but not limited to a portion of the sum of money on deposit with the Corn Exchange Bank Trust Co., 13 William Street, New York, New York, in a checking account entitled Christian F. Benz, Special, maintained at the branch office of the aforesaid bank located at 157 East 42nd Street, New York, New York, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Hilar Voith and Erwin Malblanc, the aforesaid nationals of a designated enemy country;

and it is hereby determined:

5. That the person named in subparagraph 2 hereof is controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is a national of a designated enemy country (Germany);

6. That to the extent that the persons named in subparagraphs 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, but not subject to any rights therein of American Voith Contact Co., Inc., a New York Corporation, and/or of Christian F. Benz, 35 Puritan Avenue, Tuckahoe 7, New York, and,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 4 hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 26, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

EXHIBIT A

All that plot of land lying and being in the Township of Empire, County of Leelanau, State of Michigan, described as follows:

The southwest quarter (S. W. ¼) of the southwest quarter (S. W. ¼) of Section 12 Township 28 North, Range 14 West of the Michigan Meridian. Containing 40.0 acres more or less.

Also the southeast quarter (S. E. ¼) of the southwest quarter (S. W. ¼) of the southeast quarter (S. E. ¼) of Section 11 Township 28 North, Range 14 West of the Michigan Meridian. Containing 10.0 acres more or less.

Also a part of Government Lots 1, 2, and 3 of Section 11 Township 28 North, Range 14 West of the Michigan Meridian more fully described as follows: Beginning at the southwest corner of Government Lot 2 of said Section 11; thence north along the west line of said Government Lot (2) 1333.65 feet to th southeast corner of Government Lot 3 of said Section 11; thence west along the south line of said Government Lot (3) 353.5 feet; thence north 28 degrees 41 minutes east (new bearing north 26 degrees 45 minutes east) 797.10 feet to the shore of Glen Lake; thence south 45 degrees 45 minutes east along said shore 105.8 feet; thence south 49 degrees 27 minutes east along said shore 89.9 feet; thence south 67 degrees 45 minutes east along said shore 109.0 feet; thence south 48 degrees 06 minutes east along said shore 87.6 feet; thence south 62 degrees 51 minutes east along said shore 144.0 feet; thence south 42 degrees 01 minute east along said shore 140.9 feet; thence south 58 degrees 26 minutes east along said shore 7.3 feet; thence south 48 degrees 45 minutes west 173.8 feet to the north line of a public road; thence south 48 degrees 51 minutes east along the north line of said public road 762.00 feet to a point of curve; thence to the right along the north and east line of said public road and being along a curve convex northeasterly and having a radius of 233.0 feet a distance of 351.50 feet; thence north 46 degrees 06 minutes east 410.8 feet to the shore of Glen Lake; thence south 42 degrees 58 minutes east along said shore 113.20 feet; thence southeast following said shore the chord line of which bears south 51 degrees 44 minutes east 1515.7 feet to the south line of said Section 11; thence west along the said south line 2611.0 feet to the point of beginning. Containing 60.26 acres more or less.

The three tracts containing in all 110.26 acres more or less.

[Vesting Order 16716]

ROSA AMELUNG AND ELIZABETH BEYER

In re: Funds payable and owing to Rosa Amelung and Elizabeth Beyer. D-28-12929.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Rosa Amelung and Elizabeth Beyer, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany),

2. That the personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Rosa Amelung and Elizabeth Beyer, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the property described as follows: Those certain funds in the custody of the United States District Court for the District of Columbia, payable and owing to Rosa Amelung and Elizabeth Beyer arising out of the condemnation of real property in the District of Columbia, described as Lots 17 and 18 in Square 6155 and Lots 41 and 43 in Square 6156, in proceedings numbered 2746 in the United States District Court for the District of Columbia, and any and all rights to demand, enforce, and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Rosa Amelung and Elizabeth Beyer and/or the personal representatives, heirs, next of kin, legatees and distributees of Rosa Amelung and Elizabeth Beyer, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 and referred to in subparagraph 2 hereof, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 26, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Tangerine Reg. 103]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.501 *Tangerine Regulation 103*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR, Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than January 8, 1951. Shipments of tangerines, grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 23, 1950, and will so continue until January 8, 1951; the recommendation and supporting information for continued regulation subsequent to January 7 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 3; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 8, 1951, and ending at 12:01 a. m., e. s. t., January 15, 1951, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Bronze; or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Bronze" and "standard pack" shall have the same meaning as when used in the United States Standards for Tangerines (7 CFR 51.416).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 4th day of January 1951.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

[Lemon Reg. 364]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.471 *Lemon Regulation 364*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on January 3, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 7, 1951, and ending at 12:01 a. m., P. s. t., January 14, 1951, is hereby fixed as follows:

(i) District 1: 30 carloads;

(ii) District 2: 230 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 363 (15 F. R. 9429), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 4th day of January 1951.

Sec.
954.90 Effective time.
954.91 Suspension or termination.
954.92 Continuing obligations.
954.93 Liquidation.

MISCELLANEOUS PROVISIONS

954.100 Market advisory committee.
954.101 Agents.

AUTHORITY: §§ 954.1 to 954.101 issued under sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c.

§ 954.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR, Supp., 900.1 et seq.), a public hearing was held at Duluth, Minnesota, on November 29, 1950, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Duluth-Superior, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions of said order, as hereby amended, will tend to effectuate the declared policy of the act.

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than January 1, 1951. Any delay beyond January 1, 1951, in the effective date of this order, amending the order, as amended, will seriously disrupt the orderly marketing of milk for the Duluth-Superior marketing area. The changes effected by this order, amending the order, as amended, do not require of persons affected, substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order effective January 1, 1951 (see sec. 4 (c) Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order amending the order, as amended, which is marketed within the Duluth-Superior marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practicable means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the Duluth-Superior marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (November 1950) were engaged in the production of milk for sale in the Duluth-Superior marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Duluth-Superior marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended; and the aforesaid order is hereby amended to read as follows:

DEFINITIONS

§ 954.1 *Duluth-Superior marketing area.* "Duluth-Superior marketing area," hereinafter called "marketing area," means the cities of Duluth and Cloquet in the State of Minnesota, and the city of Superior in the State of Wisconsin.

§ 954.2 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 954.3 *Producer.* "Producer" means any person, irrespective of whether such person is also a handler, who, under certification by the proper health authorities, produces milk which is received at the plant of a handler from which milk is disposed of in the marketing area: *Provided*, That if such person did not regularly distribute milk in the marketing area, or dispose of milk to a plant from which milk was distributed within the marketing area, during a period of 30 days immediately prior to the effective date hereof, but begins the regular delivery of milk to a handler, he shall be known as a "new producer" for a period beginning with the date of his first delivery and including two full calendar months following such first delivery to a handler, after which he shall be known as a "producer." This definition shall be deemed to include any person who produces milk which a handler causes to be diverted temporarily to a plant from which no milk is disposed of in the marketing area.

§ 954.4 *Handler.* "Handler" means any person who on his own behalf or on behalf of others, disposes of milk as milk in the marketing area and who engages in such handling of milk as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products.

§ 954.5 *Market administrator.* "Market administrator" means the agency which is described in §§ 954.20 to 954.22, inclusive, for the administration hereof.

§ 954.6 *Delivery period.* "Delivery period" means the period from the effective date hereof to the end of the calendar month in which such effective date occurs, and thereafter such term shall mean any calendar month.

§ 954.7 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 954.8 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 954.9. *Emergency milk.* "Emergency milk" means milk received by a handler from sources other than producers or new producers under a permit to receive such milk issued to him by the proper health authorities.

MARKET ADMINISTRATOR

§ 954.20 *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary, who shall be entitled to such reasonable compensation as may be determined by and shall be subject to removal at the discretion of the Secretary. The market administrator, within 45 days following the date upon which he enters upon his duties, shall execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

§ 954.21 *Powers.* The market administrator shall have the power to:

(a) Administer the terms and provisions hereof, and

(b) Report to the Secretary complaints of violations hereof.

§ 954.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Keep such books and records as will clearly reflect the transactions provided for herein;

(b) Submit his books and records to examination by the Secretary at any and all times;

(c) Furnish such information and verified reports as the Secretary may request;

(d) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(e) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to §§ 954.30 to 954.33, or made payments pursuant to § 954.80;

(f) Prepare and disseminate for the benefit of producers, new producers, consumers, and handlers such statistics and information concerning the operation hereof as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof; and

(h) Pay, out of the fund received pursuant to § 954.87, the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will be incurred necessarily by him for the maintenance and functioning of his office and in the performance of his duties.

§ 954.23 *Announcement of prices.* The market administrator shall compute and publicly announce prices as follows:

(a) Not later than the end of each delivery period, the prices for Class I and Class II milk and the butterfat differentials to be effective for the following delivery period.

(b) Not later than the 12th day after the end of each delivery period, the uniform price computed pursuant to § 954.71.

REPORTS AND RECORDS

§ 954.30 *Reports of receipts and utilization.* Each handler including each handler who is also a producer, who receives milk from producers, new producers or associations of producers, with respect to all milk received during each delivery period, shall report to the market administrator in the detail and on forms prescribed by the market administrator on or before the 7th day after the end of such delivery period (a) the receipts at each plant of milk from producers, new producers, associations of producers, other handlers, and from own farm production, if any, (b) the utilization of all receipts of milk during the delivery period, and (c) the name and address of each new producer.

§ 954.31 *Reports of producers.* Each handler who is required to file reports pursuant to § 954.30 shall further report to the market administrator as follows:

(a) Within 10 days after the market administrator's request, with respect to any producer or new producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator (1) the name and address, (2) the total pounds of milk received, (3) the average butterfat test of such milk, and (4) the number of days upon which milk was received.

(b) On or before the 25th day after the end of such delivery period, his producer payroll which shall show for each producer and new producer (1) the total quantity of milk received with the average butterfat test thereof, (2) the net amount of the payments to such producer or new producer made pursuant to § 954.80, and (3) any deductions or charges made by the handler. Any deductions or charges made by the handler from payments due producers and new producers shall be accompanied by authorizations therefor.

§ 954.32 *Reports of emergency milk.* Each handler who receives emergency milk shall report to the market administrator as follows:

(a) On or before the day such handler receives emergency milk, his intention to receive such milk.

(b) On or before the 7th day after the end of such delivery period, the receipts of emergency milk as follows: (1) The amount of such milk, (2) the date or dates upon which such milk was received, (3) the plant from which such milk was shipped, (4) the price per hundredweight paid, or to be paid, for such milk, and (5) such other information with respect thereto as the market administrator may request.

§ 954.33 *Other reports.* Each handler who is not required to submit reports pursuant to § 954.30 shall submit such reports with respect to his handling of milk or milk products at the time and in such manner as the market administrator may request and shall permit the market administrator to verify such reports.

§ 954.34 *Verification of reports.* Each handler shall make available to the market administrator or his agent during the usual hours of business (a) those records, including records relating to milk and milk products received from sources other than producers, new producers, associations of producers, or other handlers, which are necessary for the verification of the information contained in the reports submitted in accordance with §§ 954.30 to 954.32, and (b) those facilities necessary for the check-weighing, check-testing, and sampling of milk, and for determining the utilization of milk by the handler.

§ 954.35 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain, except that all such books and records pertaining to transactions before August 1, 1946, shall be retained until October 1, 1949: *Provided*, That if, within such three year period or before October 1, 1949, whichever is applicable, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 954.40 *Basis of classification.* All skim milk and butterfat received during each delivery period by a handler, including milk produced by him, if any, shall be classified by the market administrator pursuant to the provisions of §§ 954.41 to 954.43.

§ 954.41 *Classes of utilization.* The classes of utilization of milk shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk and flavored milk drinks, and cream for fluid consumption (including any mixture of cream and milk or skim milk containing less butterfat than the minimum requirement for cream) and all skim milk and butterfat not specifically accounted for as used to produce a Class II product.

(b) Class II milk shall be all skim milk and butterfat used to produce a milk product other than those specified in Class I and actual plant shrinkage up to 2 percent of the total receipts of skim milk and butterfat: *Provided*, That plant shrinkage established with respect to skim milk or butterfat in milk received by a handler from producers and new producers shall be the proportion of the total plant shrinkage determined by applying to total plant shrinkage of skim milk or butterfat the percentage which the skim milk or butterfat in milk received from producers and new producers bears to the total quantity of skim milk or butterfat received.

§ 954.42 *Interhandler and handler to nonhandler sales.* (a) Skim milk and butterfat disposed of by a handler to another handler in the form of milk, skim milk or cream shall be classified as Class I milk, subject to verification by the market administrator: *Provided*, That milk or skim milk disposed of by a handler to a handler who receives no milk from producers or new producers other than milk of his own production shall be Class I milk.

(b) Skim milk and butterfat disposed of by a handler to a nonhandler in the form of milk or skim milk shall be classified (1) as Class I milk if such handler disposes of any skim milk and butterfat as milk for human consumption, and (2) as Class II milk if such nonhandler disposes of no skim milk and butterfat as milk for human consumption.

(c) Skim milk and butterfat disposed of by a handler to a nonhandler in the form of cream shall be classified (1) as Class I if such nonhandler disposes of any skim milk and butterfat as cream for human consumption and (2) as Class II milk if such nonhandler disposes of no skim milk and butterfat as cream for human consumption.

§ 954.43 *Allocation of skim milk and butterfat classified.* After determining the total pounds of skim milk and butterfat utilized in each class by each handler the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the pounds of skim milk in Class II the pounds of skim milk contained in milk, other than emergency milk, which were received from sources other than producers and new

producers (including such handler's own production), and handlers who purchase or receive milk from producers or new producers: *Provided*, That if the pounds of skim milk so received are greater than the total pounds of skim milk classified as Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I.

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers and reported as used in that class.

(3) Subtract pro rata from the remaining pounds of skim milk in each class, the pounds of skim milk contained in emergency milk received by the handler.

(4) Subtract pro rata from the remaining pounds of skim milk in each class the pounds of skim milk contained in the milk of the handler's own farm production.

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, an amount equal to the difference shall be subtracted from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 954.50 *Class prices.* Each handler shall pay at the time and in the manner set forth in § 954.80 not less than the following prices per hundredweight adjusted by the butterfat differential provided in § 954.51.

(a) *Class I milk.* For each of the delivery periods prior to May 1, 1951, the Class II price for such delivery period plus $1.23. For each delivery period subsequent to May 1, 1951, the Class II price for such delivery period plus $1.00 during the months of May, June, July, and August, and plus $1.15 during all other months.

(b) *Class II milk.* For each delivery period the price which results from the following computation by the market administrator: (1) Determine the simple average of the daily wholesale selling prices per pound of Grade A (92-score) bulk creamery butter as reported by the United States Department of Agriculture for the Chicago market during the period from the 25th day of the month second preceding such delivery period through the 24th day of the month immediately preceding such delivery period; (2) multiply by 3.5; (3) add 25 percent thereof; and (4) add an additional 7/10 cent for each 1/10 cent that the average f. o. b. gross factory price per pound of nonfat dry milk solids for human consumption as reported to the United States Department of Agriculture by the American Dry Milk Institute, Inc., for the month second preceding such delivery period is above 7 cents.

§ 954.51 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to Class I or Class II is more or less than 3.5 percent there shall be added to the respective class price computer pursuant to § 954.50 for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.5 percent or subtracted for each one-tenth of 1 percent that the average butterfat content of such milk is below 3.5 percent an amount computed as follows: Multiply by 1.25 the simple average of the daily wholesale selling prices per pound of Grade A (92-score) bulk creamery butter as reported by the United States Department of Agriculture for the Chicago market during the period from the 25th day of the month second preceding such delivery period through the 24th day of the month immediately preceding such delivery period, and divide the result by 10.

§ 954.52 *Emergency price provisions.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk or product associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

APPLICATION OF PROVISIONS

§ 954.60 *Handlers who are also producers.* Sections 954.40 to 954.43, 954.50 to 954.52, 954.70 and 954.71, and 954.80 to 954.88 shall not apply to a handler who receives no milk from producers or new producers other than milk of his own production.

§ 954.61 *Receipts from handlers who are also producers.* In computing the value of milk received by a handler the market administrator shall consider as Class II milk any skim milk or butterfat whatsoever received from a handler who during the delivery period received no milk from producers or new producers other than milk of his own production. If the receiving handler has disposed of such skim milk or butterfat as Class I milk, the market administrator shall add to the total value computed for such handler pursuant to § 954.70 the difference between the value of such skim milk or butterfat at the Class II price and its value at the Class I price.

§ 954.62 *Receipts from sources other than producers or other handlers.* In computing the value of milk received by a handler the market administrator shall consider as Class II milk any skim milk or butterfat (other than that in emergency milk) received by a handler from sources other than producers, new producers or other handlers. If the receiving handler has disposed of such skim milk or butterfat as Class I milk the market administrator shall add to the total value computed for such handler pursuant to § 954.70 the difference between the value of such skim milk or butterfat at the Class II price and its value at the Class I price. This proviso shall not apply to skim milk and butterfat if used in Class I only to the extent that milk of producers was not available for such use.

DETERMINATION OF UNIFORM PRICE

§ 954.70 *Computation of the value of milk for each handler.* For each delivery period the market administrator shall compute the value of milk received by each handler from producers and new producers by multiplying the pounds of such milk in each class by the applicable class prices, adding together the resulting amounts and adding any amounts that may be applicable pursuant to §§ 954.51 and 954.52: *Provided*, That if the handler had overage of either skim milk or butterfat there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 954.43 by the applicable class prices.

§ 954.71 *Computation of uniform price.* For each delivery period the market administrator shall compute the uniform price per hundredweight of milk in the following manner:

(a) Combine in one total the respective values of milk, computed pursuant to § 954.70 for each handler who made the reports prescribed pursuant to § 954.30 and who has made the payments prescribed by § 954.80.

(b) Subtract from such sum an amount representing the value of all milk received by handlers from new producers, computed at the Class II price.

(c) Add an amount representing the unobligated cash balance in the producer-settlement fund exclusive of the amount retained in such fund pursuant to paragraph (e) of this section.

(d) Subtract if the average butterfat content of the net pooled milk of all handlers whose reports are included in this computation is greater than 3.5 percent, or add if such average butterfat content is less than 3.5 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 954.81.

(e) For each of the delivery periods of May, June, and July, subtract 8 percent of the resulting sum.

(f) For each of the delivery periods of October, November, and December, add one-third of the total amount subtracted pursuant to paragraph (e) of this section.

(g) Divide the resulting amount by the total hundredweight of milk of producers, not including new producers, received by handlers whose reports are included in this computation.

(h) Subtract not less than 4 cents nor more than 5 cents per hundredweight to provide a reserve against errors in reports and payments and delinquencies in payments by handlers. This result shall be known as the uniform price for milk containing 3.5 percent butterfat.

PAYMENTS

§ 954.80 *Time and method of payment.* On or before the 20th day after the end of each delivery period, each handler shall make payments as follows:

(a) To each producer from whom milk was received during the delivery period at not less than the uniform price per hundredweight computed pursuant to § 954.71 adjusted by the butterfat differential computed pursuant to § 954.81.

(b) To each new producer from whom milk was received during the delivery period at not less than the Class II price adjusted by the butterfat differential computed pursuant to § 954.81.

§ 954.81 *Butterfat differential to producers.* If any handler has received from any producer or new producer milk having an average butterfat content other than 3.5 percent, in making payments pursuant to § 954.80 there shall be added to the applicable price for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.5 percent or subtracted for each one-tenth of 1 percent that the average butterfat content of such milk is below 3.5 percent an amount equal to the butterfat differential computed pursuant to § 954.51.

§ 954.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 954.83 and 954.85, together with the amounts subtracted pursuant to § 954.71 (e) and out of which he shall make payments to handlers pursuant to §§ 954.84 and 954.85, as well as the amounts added in the computation of the uniform price pursuant to § 954.71 (b).

§ 954.83 *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator the amount by which the total of the milk received by him from producers and new producers during the delivery period is greater than the sum of the payments required to be made to producers and new producers by such handler pursuant to § 954.80.

§ 954.84 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of each delivery period the market administrator shall pay to each handler for payment to producers and new producers the amount, if any, by which the total value of milk received from producers and new producers by such handlers is less than the sum of the payments required to be made to producers and new producers by such handler pursuant to § 954.80. If at such time the balance in the producer-settlement fund, exclusive of the amount retained there pursuant to § 954.71 (e), is insufficient to make all payments required by this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler, who has not received on the 20th day after the end of each delivery period the balance of the payments due him from the market administrator, shall be deemed to be in violation of § 954.80 if he reduces his payments to producers and new producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 954.85 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to § 954.83, the market administrator shall promptly bill such handler for any unpaid amount and such handler, within 5 days after billing, shall make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to § 954.84, the market administrator shall make payment to such handler within 5 days. Whenever verification of the payment by a handler for milk received from producers or new producers discloses payment of less then is required by this section, the handler shall make up such payment to the producer or new producer not later than the time of making payments to producers and new producers next following such disclosure.

§ 954.86 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers and new producers pursuant to § 954.80, with respect to all milk received from each producer and new producer at a plant not operated by a cooperative association qualified under paragraph (b) of this section of which such producer or new producer is a member, shall deduct an amount not exceeding 3 cents per hundredweight (the exact amount to be determined by the market administrator subject to review by the Secretary) from the payments made direct to such producers and new producers, and such handler shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be expended by the market administrator for market information to and for verification of weights, sampling and testing of milk received from such producers and new producers.

(b) *Deductions with respect to members of a cooperative association.* In the case of milk of producers and new producers who are members of a cooperative association determined by the Secretary (1) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" and (2) to be actually performing the services described in paragraph (a) of this section, which is received at a plant not operated by such cooperative association, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made direct to such producers and new producers, pursuant to § 954.80, as are authorized by such producers and new producers and, on or before the 15th day after the end of each delivery period, pay on such deductions to such cooperative association.

§ 954.87 *Expense of administration.* As his pro rata share of the expense of the administration hereof, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, an amount not exceeding 4 cents per hundredweight with respect to all milk received by him during such delivery period from producers and new producers, including milk of such handler's own production, the exact amount to be determined by the market administrator: *Provided*, That each cooperative association which is a handler shall pay to the market administrator such pro rata share of expense of administration on only that milk of producers and new producers which is received at a plant operated by such association.

§ 954.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this part, shall except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may within the two year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a han-

dier, the two year period with respect to such obligation shall not begin to run until the first day of the calendar month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 954.90 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 954.91.

§ 954.91 *Suspension or termination.* The Secretary may suspend or terminate this part for any provision hereof whenever he finds this part or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 954.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations hereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 954.93 *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 954.100 *Market advisory committee—(a) Representation, selection, approval, and removal.* Subsequent to the effective date hereof, representatives of producers, handlers, and consumers may certify to the Secretary the selection of three individuals by each group for membership on the market advisory committee. Upon approval of the Secretary, the nine individuals so selected shall constitute the market advisory committee. Each member of the market advisory committee shall serve for a term of 1 year, unless sooner removed by the Secretary. After the market advisory committee has been constituted, vacancies in the membership thereof shall be filled in the same manner as the original selections were made.

(b) *Powers.* The market advisory committee shall have the power to recommend to the Secretary amendments hereto originating within such committee or submitted to it by interested parties after a study of the facts available to the market advisory committee.

§ 954.101 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 29th day of December 1950, to be effective on and after the 1st day of January 1951.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 51-144; Filed, Jan. 4, 1951; 8:49 a. m.]

PART 959—IRISH POTATOES IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR 959.1 et seq.), regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath, and Lake in Oregon, and Modoc and Siskiyou in California was published in the FEDERAL REGISTER (15 F. R. 8168). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the Oregon-California Potato Committee (established pursuant to said agreement and order), the following rules and regulations are hereby approved.

§ 959.203 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114 and Order No. 59, as amended, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and order and regulations duly issued thereunder, during the fiscal year ending June 30, 1951, will amount to $13,500.00.

(b) The rate of assessment, to be paid by each handler who first ships potatoes, shall be one-fourth of one cent per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year.

(c) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114 and Order No. 59, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 3d day of January 1951, to become effective 30 days after publication hereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 51-278; Filed, Jan. 5, 1951; 8:56 a. m.]

[Orange Reg. 353]

PART 966—ORANGES GROWN IN CALIFORNIA OR IN ARIZONA

LIMITATION OF SHIPMENTS

§ 966.499 *Orange Regulation 353—(a) Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on January 4, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) Subject to the size requirements in Orange Regulation 347 (7 CFR 966.493; 15 F. R. 8153), the quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m. P. s. t., January 7, 1951, and ending at 12:01 a. m., P. s. t., January 14, 1951, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1: No movement;

(b) Prorate District No. 2: Unlimited movement;

(c) Prorate District No. 3: No movement;

(d) Prorate District No. 4: No movement;

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1: 550 carloads;

(b) Prorate District No. 2: 175 carloads;

(c) Prorate District No. 3: 55 carloads;

(d) Prorate District No. 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," "Prorate District No. 3," and "Prorate District No. 4" shall each have the same meaning as given to the respective terms in § 966.107, as amended (15 F. R. 8712), of the current rules and regulations (7 CFR 966.103 et seq.), as amended (15 F. R. 8712).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 5th day of January 1951.

[SEAL] M. W. BAKER, *Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

REQUIRED RESERVES

1. Section 204.5 (Supplement to Regulation D) is amended to read as follows:

§ 204.5 *Supplement: Reserves required to be maintained by member banks with Federal Reserve Banks.* Pursuant to the provisions of section 19 of the Federal Reserve Act and § 204.2 (a), the Board of Governors of the Federal Reserve System hereby prescribes the following reserve balances which each member bank of the Federal Reserve System is required to maintain on deposit with the Federal Reserve Bank of its district:

(a) If not in a reserve or central reserve city:

(1) 5 percent of its time deposits until the opening of business on January 16, 1951, and 6 percent of its time deposits thereafter, plus

(2) 12 percent of its net demand deposits until the opening of business on January 16, 1951, 13 percent of its net demand deposits from January 16, 1951, to January 31, 1951, inclusive, and 14 percent of its net demand deposits thereafter.

(b) If in a reserve city (except as to any bank located in an outlying district of a reserve city or in territory added to such city by the extension of the city's corporate limits, which, by the affirmative vote of five members of the Board of Governors of the Federal Reserve System, is permitted to maintain the reserves specified in paragraph (a) of this section):

(1) 5 percent of its time deposits until the opening of business on January 11, 1951, and 6 percent of its time deposits thereafter, plus

(2) 18 percent of its net demand deposits until the opening of business on January 11, 1951, 19 percent of its net demand deposits from January 11 to January 24, 1951, inclusive, and 20 percent of its net demand deposits thereafter.

(c) If in a central reserve city (except as to any bank located in an outlying district of a central reserve city or in territory added to such city by the extension of the city's corporate limits, which, by the affirmative vote of five members of the Board of Governors of the Federal Reserve System, is permitted to maintain the reserves specified in paragraph (a) or (b) of this section):

(1) 5 percent of its time deposits until the opening of business on January 11, 1951, and 6 percent of its time deposits thereafter, plus

(2) 22 percent of its net demand deposits until the opening of business on January 11, 1951, 23 percent of its net demand deposits from January 11 to January 24, 1951, inclusive, and 24 percent of its net demand deposits thereafter.

2. This amendment is issued pursuant to the authority granted to the Board of Governors by section 19 of the Federal Reserve Act with primary regard to the general credit and business situation. The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act, and the prior publication described in section 4 (c) of such act, are impracticable, unnecessary and contrary to the public interest in connection with this amendment for the reasons and good cause found as stated in § 262.2 (e) of the Board's rules of procedure, and especially because such notice, procedure and prior publication would prevent the action from becoming effective as promptly as necessary, and would serve no useful purpose.

(Sec. 11, 38 Stat. 262; 12 U. S. C. 248. Interpret or apply secs. 11, 19, 38 Stat. 261, 270, as amended; 12 U. S. C. 248, 461, 462, 462a-1, 462b, 464, 465)

Approved this 28th day of December 1950.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs. Amdt., 24-3]

PART 24—MECHANIC CERTIFICATES

ANNUAL EXPERIENCE REPORTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of December 1950.

Currently effective Part 24 requires holders of aircraft mechanic certificates to transmit to the Administrator, annually, during the month of January, a report for the preceding 12-month period, setting forth the amount and type of their aeronautical experience and such other pertinent data as the Administrator may require. The Board has been advised that these reports no longer serve the purpose for which they were intended and that the Administrator can effectively obtain the information furnished by these reports from the individuals themselves in the event of need. In this connection it should be noted that revised Part 25 which we recently adopted does not require the filing of annual experience reports by parachute riggers.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 24 of the Civil Air Regulations (14 CFR, Part 24, as amended) effective immediately.

By rescinding § 24.45.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, 62 Stat. 1216; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

[F. R. Doc. 51-190; Filed, Jan. 5, 1951; 8:46 a. m.]

[Civil Air Regs., Amdt. 26-2]

PART 26—AIR TRAFFIC CONTROL-TOWER OPERATOR CERTIFICATES

ANNUAL EXPERIENCE REPORTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of December 1950.

Currently effective Part 26 requires holders of air-traffic control-tower operator certificates to transmit to the Administrator, annually, during the month of January, a report for the preceding 12-month period, setting forth the amount and type of their aeronautical experience and such other pertinent data as the Administrator may require. The Board has been advised that these reports no longer serve the purpose for which they were intended and that the Administrator can effectively obtain the information furnished by these reports from the individuals themselves in the event of need. In this connection it should be noted that revised Part 25 which we recently adopted does not require the filing of annual experience reports by parachute riggers.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 26 of the Civil Air Regulations (14 CFR, Part 26, as amended) effective immediately.

By rescinding § 26.37.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, 62 Stat. 1216; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

[F. R. Doc. 51-191; Filed, Jan. 5, 1951; 8:46 a. m.]

[Civil Air Regs., Amdt. 27-2]

PART 27—AIRCRAFT DISPATCHER CERTIFICATES

ANNUAL EXPERIENCE REPORTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of December 1950.

Currently effective Part 27 requires holders of aircraft dispatcher certificates to transmit to the Administrator, annually, during the month of January, a report for the preceding 12-month period, setting forth the amount and type of their aeronautical experience and such other pertinent data as the Administrator may require. The Board has been advised that these reports no longer serve the purpose for which they were intended and that the Administrator can effectively obtain the information furnished by these reports from the individuals themselves in the event of need. In this connection it should be noted that revised Part 25 which we recently adopted does not require the filing of annual experience reports by parachute riggers.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 27 of the Civil Air Regulations (14 CFR, Part 27, as amended) effective immediately.

By rescinding § 27.15.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, 62 Stat. 1216; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

[F. R. Doc. 51-192; Filed, Jan. 5, 1951; 8:46 a. m.]

[Civil Air Regs., Amdt. 51-1]

PART 51—GROUND INSTRUCTOR RATING

ANNUAL EXPERIENCE REPORTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of December 1950.

Currently effective Part 51 requires holders of ground instructor certificates to transmit to the Administrator, annually, during the month of January, a report for the preceding 12-month period, setting forth the amount and type of their aeronautical experience and such other pertinent data as the Administrator may require. The Board has been advised that these reports no longer serve the purpose for which they were intended and that the Administrator can effectively obtain the information furnished by these reports from the individuals themselves in the event of need. In this connection it should be noted that revised Part 25 which we recently adopted does not require the filing of annual experience reports by parachute riggers.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 51 of the Civil Air Regulations (14 CFR, Part 51, as amended) effective immediately.

By rescinding § 51.6.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, 62 Stat. 1216; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] FRED A. TOOMBS,
Acting Secretary.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CERTAIN STATES

Amendment 336 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 332 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said regulations are amended in the following respects:

1. Schedule A, Item 26a, is amended to describe the counties in the Defense-Rental Area as follows:

Alameda County, except the City of Hayward and the Town of Pleasanton.

This decontrols the Town of Pleasanton in Alameda County, California, a portion of the Alameda County, California, Defense-Rental Area.

2. Schedule A, Item 38, is amended to describe the counties in the Defense-Rental Area as follows:

San Francisco County; San Mateo County, except the Cities of Burlingame, Menlo Park, Millbrae, San Bruno and South San Francisco, and the Town of Atherton; and Sonoma County, except (i) the Cities of Healdsburg and Santa Rosa, (ii) the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) and (iii) that portion of Analy Judicial Township lying west of the Monte Rio-Valley Ford Highway and lying between Redwood Judicial Township on the north and the northern line of Marin County on the south.

This decontrols the City of Burlingame in San Mateo County, California, a portion of the San Francisco Bay, California, Defense-Rental Area.

3. Schedule A, Item 89, is amended to describe the counties in the Defense-Rental Area as follows:

Rock Island County.
Scott County, except the City of Davenport and the Town of Buffalo.

This decontrols the Town of Buffalo in Scott County, Iowa, a portion of the Quad Cities, Illinois, Defense-Rental Area.

4. Schedule A, Item 110b, is amended to describe the counties in the Defense-Rental Area as follows:

In Marshall County, the City of Marshalltown.

This decontrols (1) the City of Ames in Story County, Iowa, a portion of the Ames-Marshalltown, Iowa, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the remainder of said Story County, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

5. Schedule A, Item 130, is amended to read as follows:

(130) [Revoked and decontrolled.]

This decontrols (1) the City of Baton Rouge in East Baton Rouge Parish, Louisiana, a portion of the Baton Rouge, Louisiana, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, based on a resolution submitted with respect to said City of Baton Rouge in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Baton Rouge being the major portion of said Defense-Rental Area, and (2) the remainder of said Defense-Rental Area, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

6. Schedule A, Item 168b, is amended to read as follows:

(168b) [Revoked and decontrolled.]

This decontrols (1) the City of Columbia in Boone County, Missouri, a portion of the Columbia, Missouri, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and (2) the remainder of said Defense-Rental Area, consisting of the remainder of said Boone County, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

7. Schedule A, Item 188a, is amended to describe the counties in the Defense-Rental Area as follows:

Camden County, except the Borough of Haddonfield; Gloucester County; and Burlington County, except the Townships of Bass River, Tabernacle, Shamong, Woodland and Washington, and the Borough of Medford Lakes in Medford Township.

This decontrols the Borough of Haddonfield in Camden County, New Jersey, a portion of the Southern New Jersey Defense-Rental Area.

8. Schedule A, Item 191, is amended to describe the counties in the Defense-Rental Area as follows:

Warren County, except the Borough of Washington, the Town of Belvidere, and the Townships of Pahaquarry, Hardwick and Frelinghausen.
The Counties of Hunterdon and Mercer.

This decontrols the Borough of Washington in Warren County, New Jersey, a portion of the Trenton, New Jersey, Defense-Rental Area.

9. Schedule A, Item 212d, is amended to describe the counties in the Defense-Rental Area as follows:

Orange County, except the Town of Chapel Hill.

This decontrols the Town of Chapel Hill in Orange County, North Carolina, a portion of the Chapel Hill, North Carolina, Defense-Rental Area.

10. Schedule A, Item 237, is amended to describe the counties in the Defense-Rental Area as follows:

Portage County, except the City of Kent and the Village of Aurora.

This decontrols the City of Kent in Portage County, Ohio, a portion of the Ravenna, Ohio, Defense-Rental Area.

All decontrols effected by this amendment, except Items 4, 5 and 6 thereof, are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup., 1894)

This amendment shall be effective January 4, 1951.

Issued this 3d day of January 1951.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 51-197; Filed, Jan. 5, 1951; 8:47 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Subtitle A—Office of the Secretary of the Treasury

PART 12—STANDARDS AND PROCEDURES FOR THE SPECIAL ENROLLMENT OF FORMER TREASURY OFFICERS AND EMPLOYEES

The Committee on Practice, pursuant to the provisions of § 10.3 (j) of this subtitle, relating to special enrollment, has adopted the following standards and procedures which will govern the enrollment of former officers and employees upon a non-competitive basis by reason of their education, training and experience in the Treasury Department:

§ 12.1 *Standards and procedures adopted by the Committee on Practice.* Former employees of the Treasury Department, upon application for special enrollment for the presentation of a particular class of matters or of matters before a particular bureau, unit, or other division of the Department, may be specially enrolled by the Committee on Practice under § 10.3 (j) of this subtitle, in cases where their service in the Department has qualified them for such enrollment, as follows:

(a) Application for special enrollment on account of former service in the Treasury Department shall be made to the Committee on Practice. Each applicant will be supplied a form by the Committee, which shall indicate the information required respecting the applicant's qualifications. In addition to the applicant's name, address, citizenship, age, educational experience, etc., such information shall specifically include a detailed account of the applicant's employment in the Treasury Department, which account shall show (1) positions held, (2) date of each appointment and termination thereof, (3) nature of services rendered in each position, and (4) name of supervisor in such positions, together with such other information regarding the experience and training of the applicant as may be relevant.

(b) Upon receipt of each such application, it shall be transmitted to the appropriate officer of the Treasury Department with the request that a detailed report of the nature and rating of the applicant's services in the Treasury Department, accompanied by the recommendation of the superior officer in the particular bureau or division of the Treasury that such employment does or does not qualify the applicant for the desired authorization, be furnished to the Committee on Practice. (Such report shall be requested in addition to the usual reports requested in cases of application for enrollment.)

(c) In examining the qualifications of an applicant for special enrollment on account of Treasury service, the Committee will be governed by the following policies:

(1) Special enrollment cards will be issued for the presentation of matters only of the particular class or only before the particular bureau, unit, or division of the Treasury Department for which his former Treasury service has qualified the applicant.

(2) In the case of employees separated from employment in the Treasury Department, application for special enrollment on account of such employment must be made within two years after the termination thereof. Provided that, in the case of employees separated from employment in the Treasury Department after May 24, 1939, and prior to January 1, 1951, the Committee on Practice will consider applications presented to the Committee on or before December 31, 1952, for special enrollment on account of former service in the Treasury Department.

(3) In the case of applicants who have been employed in the Civil Service, a minimum of seven years' continuous employment in the Treasury Department shall be requisite for Special Enrollment on account of Treasury service, except, however, that seven years' continuous employment shall not be requisite in the case of any applicant who has held in the Bureau of Internal Revenue the office of Commissioner, Assistant Commissioner, Deputy Commissioner, Collector, Head of the Technical Staff, Chief of the Intelligence Unit, Internal Revenue Agent in Charge, Special Agent in Charge, or Head of a Technical Staff Division.

(4) For the purposes of subparagraph (3) of this paragraph, an aggregate of ten or more years of employment, at least three of which occurred within the five years preceding the date of application, shall be deemed the equivalent of seven years' continuous employment.

(Sec. 3, 23 Stat. 258; 5 U. S. C. 261)

[SEAL] JOHN L. GRAVES,
Chairman,
Committee on Practice.

AUTHORITY: §§ 861.1151 to 861.1177 issued under R. S. 161; sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22 and Sup., 171a. Interpret or apply secs. 32, 35, 41 Stat. 776, 780, as amended, 40 Stat. 72, as amended; 10 U. S. C. and Sup., 361, 369, 371, 371b, 422, 426, 427.

DERIVATION: AFR's 35-76; 35-76A; 45-27; 45-27A; 173-4.

SHORT TOURS OF ACTIVE DUTY FOR TRAINING OF INDIVIDUALS AND UNITS

§ 861.1151 *Purpose.* Sections 861.1151 to 861.1168 establish the qualifications of officers (other than general officers), and airmen, male and female, of the United States Air Force Reserve who may be recalled to active duty for short tours for individual training, attendance at schools, and training with units; and establish the procedures relating to the issuance of orders for such training.

§ 861.1152 *Policy.* To obtain the maximum benefit to the United States Air Force Reserve, eligible individuals of the United States Air Force Reserve may be authorized active duty for training purposes as specified in §§ 861.1153 and 861.1154, or any combination thereof.

§ 861.1153 *Definitions.* — (a) *Short tour.* A short tour is a tour of active duty for training for the purpose of maintaining unit or individual proficiency.

(b) *Special tour.* A special tour is a tour of active duty for training for the convenience of the Government. Such tours must be in connection with projects relating solely to the Reserve Program and must benefit the United States Air Force Reserve. Request for approval of these tours must be justified in detail to Headquarters United States Air Force. These tours will be granted only if no other qualified personnel on extended active duty are available for and capable of performing the duties required to be performed by such Reservists, and if the duties to be performed are beyond the normal responsibility of the Regular Air Force to the Reserve Program.

(c) *Attendance at Schools.* Reservists may be ordered to duty for training purposes to attend service schools.

§ 861.1154 *Duration of tours.*—(a) *Short tours.* Short tours will be of 15 consecutive days' duration, including travel time. No Reservist may receive more than one short tour of active duty in any fiscal year.

(b) *Special tours.* Special tours of active duty may be of not more than 90 days' duration. Such tours will be approved only by Headquarters United States Air Force, and must be justified as specified in § 861.1153 (b).

(c) *Attendance at schools.* Normally, Reservists will be ordered to active duty for attendance at schools for a period of not to exceed 90 consecutive days, including travel time. However, because of excess travel time involved in certain cases and variance in the duration of instruction, Reservists may be authorized active duty of sufficient time, including travel time, to complete the course they are selected to attend.

§ 861.1155 *Place of duty.* All Reservists ordered to active duty for a short tour will perform duty at the place to which assigned, unless otherwise ordered by the commanders listed in § 861.1159 or unless otherwise required to permit the Reservists to maintain flying proficiency.

§ 861.1156 *Eligibility for training.* All officers and airmen, male and female, of the United States Air Force Reserve, except the following, will be eligible for short tour active duty training:

(a) Members of the Voluntary Air Reserve.

(b) Female personnel with dependents under 18 years of age. (The fact that such personnel do not have legal custody of the dependents does not remove this disqualification.)

(c) Members of the Air National Guard of the United States.

(d) Reservists who are drawing a pension, disability allowance, or disability compensation and who have not waived such pension, allowance, or compensation. (Such a waiver will be executed in accordance with the provisions of § 861.1160 (c).)

(e) Reservists drawing retired pay from the Government of the United States. (Retired pay may not be waived.)

(f) Officers of the United States Air Force Reserve currently serving in warrant or enlisted status in the United States Air Force.

(g) Officers of the Inactive Air Reserve.

(h) Officers on the Honorary Air Reserve List.

(i) Officer and airman Reservists whose appointment or enlistment will expire prior to the completion of a tour of duty. (See § 861.1157 for authority to re-enlist personnel falling within this category.)

§ 861.1157 *Re-enlistment of airman Reservists.* For the purpose of qualifying airman Reservists disqualified under the provisions of § 861.1156 (i) the commanders listed in § 861.1159 are authorized to discharge such airman Reservists

prior to the expiration of enlistment for the purpose of re-enlisting them to qualify for active duty training.

§ 861.1158 *Employees of the United States Government or District of Columbia.* (a) A Reservist who is an employee of the Federal Government will not be ordered to active duty training to perform the same or similar duties to those he performs in his civilian capacity.

(b) Employees of the United States Government or District of Columbia who are members of the United States Air Force Reserve and are granted annual leave upon expiration of the 15 days military leave which is authorized by law, for the purpose of performing further military duty, are entitled to receive the compensation of their civilian position for the period of such annual leave in addition to the pay and allowances authorized for the military duty without regard to dual compensation laws.

§ 861.1159 *Authority to issue orders.* The commanders of the organizational elements listed in paragraphs (a) through (e) of this section are responsible for the issuance of Air Force Reserve Orders.

(a) Those regular establishment organizations required to maintain Reservists Field Personnel Records for the Organized Air Reserve, Volunteer Air Reserve Training Units (VARTU), and Mobilization Designees; and those regular establishment organizations required to maintain Master Personnel Records for Inactive, Honorary, and Volunteer (not assigned to Volunteer Air Reserve Training Units) Reservists.

(b) Headquarters United States Air Force only.

(c) Headquarters, Continental Air Command or headquarters of the appropriate numbered air force of Continental Air Command only.

(d) Those regular establishment organizations with which short tours of active duty for the benefit of the Air Force will be performed.

(e) Those regular establishment organizations not included in paragraph (a) of this section, effecting enlistments or re-enlistments.

§ 861.1160 *Application for duty.* Each individual Reservist desiring a short tour of active duty for training purposes will submit a letter application, in duplicate, requesting such duty, using § 861.1168 (a) as a guide. The application must be complete, and will be submitted to the unit of assignment in sufficient time to insure its receipt thereat not later than 45 days prior to the expected effective date of active duty. Applications will be forwarded as follows:

(a) *Reservists assigned to a Mobilization Assignment Reserve Section.* Reservists assigned to a Mobilization Assignment Reserve Section will forward their applications through the Mobilization Assignment Reserve Section to the organization, unit, or headquarters with which they perform mobilization training duty.

(b) *Reservists assigned to an Air Force Reserve Training Center or corollary unit.* Reservists assigned to Air Force Reserve Training Centers or corollary units will forward their application through the appropriate Reserve organization commander and the commander of the Regular establishment unit or headquarters supervising the training of such Reservists.

(c) *Reservists who are drawing pension etc.* Reservists who are drawing pension, disability allowance, or disability compensation must waive such pension, allowance, or compensation prior to entry on active duty. Prior to making application for active duty, these personnel will notify the appropriate Veterans' Administration regional office in writing of their desire to waive such pension, allowance, or compensation for the purpose of entering upon active duty. A copy of that letter must be inclosed with the application for active duty. Upon receipt of orders for active duty, Reservists will forward a copy of the orders to the appropriate Veterans' Administration regional office, for the purposes of suspending payment of the pension, allowance, or compensation for the period of active duty involved.

§ 861.1161 *Physical examination*—(a) *Physical requirements.* All applicants for active duty must be physically qualified for active military service and must meet the appropriate physical requirements prescribed by current directives.

(b) *For tours not in excess of 30 days.* Reservists selected for short tours of active duty for periods not in excess of 30 days will be ordered to active duty without prior physical examination, except as provided in paragraph (d) of this section.

(c) *For tours in excess of 30 days.* Reservists applying for short tour duty for periods in excess of 30 days will be required to undergo a final-type physical examination without expense to the Government for travel or pay. This examination will be accomplished not more than 90 days from, and not less than 45 days prior to, the expected date of entry on active duty. It may be performed at the military medical installation nearest the Reservist's place of residence having the facilities to accomplish such an examination.

(d) *Action to be taken upon reporting.* Upon reporting for active duty, each Reservist, if he honestly considers himself qualified for full military duty, will execute, in duplicate, a typewritten certificate exactly as shown in §861.1168 (b) (1). If he does not consider himself so qualified and, therefore, cannot conscientiously execute the certificate, he will be ordered by the commander of the base at which training is to be accomplished to submit to a final-type physical examination. In any event, if a Reservist upon reporting for active duty possesses an obvious physical disability, is ill, has been injured in any way since last taking a final-type physical examination, or is drawing a pension, disability allowance, or disability compensation, he must submit to a final-type physical examination.

(e) *Action to be taken upon relief.* Upon relief from active duty, each Reservist will execute a typewritten certificate exactly as shown in § 861.1168 (b) (2). However, if the Reservist believes that his physical condition has materially changed during his active duty tour, or if he is suffering from any disability or defect that was not present at the beginning of his tour, he will be ordered by the commander of his training station to submit to a final-type physical examination. If this examination is made, particular attention will be given to recording the defects or conditions which have arisen during his tour of duty as they may form the basis of a claim against the Government.

(f) *Inapplicable portions of final-type physical examination.* Unless his or her physical condition indicates the necessity therefor, a Reservist who is required to submit to a final-type physical examination will not be required to undergo serology, chest X-ray, electrocardiogram, audiogram, microscopic urinalysis, or lens correction examination, or pelvic examination in the case of female personnel.

(g) *Injury, disease, death, or hospitalization.* Appropriate Air Force Regulations will apply in the event of injury, disease, death, or hospitalization.

§ 861.1162 *Waivers of physical defects*—(a) *Authority to approve.* The commanders mentioned in § 861.1159 are authorized to approve waivers of physical defects if a Reservist is found to be below the prescribed physical standards for general service, as outlined in applicable regulations. Due consideration will be given to the granting of waivers for physical defects which in the opinion of the reviewing authority:

(1) Are static in nature.

(2) Are not subject to complications or aggravation by reason of military duty.

(3) Will not interfere with the satisfactory performance of full military duty.

(4) Will not involve hospitalization and/or time lost from duty.

(5) In the case of rated personnel, will in no way compromise performance of unlimited flying duty, flying safety, or the person's own well-being.

(b) *Personnel granted waivers.* Reservists granted waivers for physical defects under the provisions of paragraph (a) of this section, will be considered as falling within the physical classification of "General Service with Waiver."

(c) *Personnel presenting questionable defects.* Persons presenting defects which, in the opinion of the reviewing authority, are questionable in nature with regard to criteria outlined in paragraph (a) of this section, may be forwarded to the next higher headquarters for decision.

§ 861.1163 *Reservists physically disqualified.* Reservists on active duty who undergo a physical examination and who are found physically disqualified will be relieved from active duty by the commander of the base where physical examination is taken, if waiver of physical defect is not approved by the reviewing authority.

§ 861.1164 *Pay and allowances*—(a) *Officers.* Officers of the Air Force Reserve when on active duty in the service of the United States shall be entitled to receive the same pay and allowances as

are authorized for persons of corresponding grade and length of services in the Regular Air Force.

(b) *Airmen.* Enlisted personnel of the Air Force Reserve when on active duty in the service of the United States shall receive the same pay and allowances as enlisted men of like grades and length of service in the Regular Air Force.

§ 861.1165 *Travel.* Additional travel time required to travel by privately-owned automobile over that required to travel by normal surface common carrier is not authorized. Active duty orders will not authorize travel by privately-owned automobile. This will not be interpreted as prohibiting travel by privately-owned vehicle if the person so desires and if no delay in reporting for duty is occasioned thereby.

§ 861.1166 *Leave.* Reservists ordered to active duty for 30 days or more are authorized leave as indicated in current directives.

§ 861.1167 *Supply.* Necessary clothing and individual equipment for enlisted Reservists will be furnished as prescribed in current directives.

§ 861.1168 *Attachments*—(a) *Letter of application.*

SPECIAL SHORT TOURS OF ACTIVE DUTY FOR MEDICAL AND DENTAL OFFICERS

§ 861.1171 *Purpose.* Sections 861.1171 to 861.1177 set forth the procedure whereby doctors of medicine and dentistry who are United States Air Force Reserve officers may be called to active duty to fill vacancies in Air Force base medical activities. Where the vacancy and need exist, arrangements may be made at base level for intermittent service—on a certain day or on certain days each week for example—such arrangements being adaptable to the requirements of the person's civilian practice.

§ 861.1172 *Eligibility.* To be eligible to participate in this program, persons must be medical or dental officers in the United States Air Force Reserve or the Air National Guard of the United States. Those persons desiring to participate in this phase of the program who are not so commissioned may apply for appointment in the United States Air Force Reserve or the Air National Guard of the United States under the provisions of existing regulations. The eligibility provisions of §§ 861.1156 (d) and (e), 861.1158, 861.1162, 861.1163 and 861.1168 are applicable.

§ 861.1173 *Grade.* Officers selected for duty under the provisions of §§ 861.1171 to 861.1177 will be called to duty in the grade in which currently commissioned in the United States Air Force Reserve or the Air National Guard of the United States.

§ 861.1174 *Limitations*—(a) *Existing vacancies.* An officer will be placed on active duty under the authority of §§ 861.1171–861.1177 only to fill an actual requirement within the total medical or dental authorizations for the medical activity concerned.

(b) *Length.* In no case will any individual tour of duty exceed 29 consecutive days. The cumulative total will not exceed 90 days in any one fiscal year.

(c) *Travel.* Mileage allowances will be authorized as prescribed by current directives. Reimbursement for transportation of dependents and movement of household goods is not authorized.

(d) *Leave.* Persons ordered to active duty under this authority will not be granted leave or paid compensation in place thereof.

§ 861.1175 *Application for duty.* (a) United States Air Force Reserve medical or dental officers will submit typed letter applications, in duplicate (using § 861.1167 (a) as a guide), requesting duty, to the commander of the Air Force base at which duty is desired. The actual dates the applicant will be available for duty will be indicated in the "Remarks" section. The commander of the base will determine the need for the Reservist's services and indorse the application for approval to the commander of the regular establishment organization maintaining the Reservist's field records.

(b) Air National Guard of the United States medical and dental officers will submit typed letter applications, in duplicate (using § 861.1167 (a) as a guide), indicating in the "Remarks" section, the actual dates the applicant will be available for duty. The application will be submitted through the Air National Guard organization of assignment to the commander of the Air Force at which duty is desired. The base commander, upon determination that the officer's services can be effectively utilized, will forward the application to the appropriate State adjutant general. The State adjutant general will verify the applicant's status and return the application to the base commander indicating his approval or disapproval.

§ 861.1176 *Physical qualifications.* Physical qualifications will be determined under the provisions of § 861.1161.

§ 861.1177 *Issuance of orders.* (a) Orders for these special short tours of active duty may be issued by the commander of the base at which duty is desired, provided that such orders have been authorized by the commander of the Regular establishment organization required to maintain the applicant's field personnel records.

(b) Officers of the Air National Guard of the United States participating in this program will be ordered to active duty by the commander of the base at which duty is desired upon receipt of the approved application from the appropriate State adjutant general.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Acting Air Adjutant General.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9363]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration its report and order in the above-entitled matter, adopted on October 5, 1950, which set forth certain amendments to Parts 2 and 4 of the Commission's rules and regulations; and

It appearing, that the above-mentioned amendments to Parts 2 and 4 of the Commission's rules and regulations

omitted the appropriate station symbols which normally follow the name of a class of station in § 2.1 of the rules and regulations and that § 2.101 was not amended to reflect the changes in nomenclature and in the definitions contained in § 2.1 of the rules; and

It further appearing, that it is desirable to correct these omissions; and

It further appearing, that authority for these actions is contained in sections 303 (a), (b), (c), (d), (e), (f), (g), (j), (l), (n), (p), (q), (r) and 4 (i) of the Communications Act of 1934, as amended; and

It further appearing, that the amendments herein ordered are editorial in nature and therefore general notice of proposed rule making in accordance with section 4 (a) of the Administrative Procedure Act is unnecessary and the action herein may be made effective immediately under the provisions of section 4 (c) of that act):

It is ordered, That, effective immediately, §§ 2.1 and 2.101 of Part 2 of the Commission's rules and regulations are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: December 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 2.1 of Part 2 is amended as follows:

a. After the definition title *"Television inter-city relay station"*, add *"(FXN)"*.

b. After the definition title *"Television pickup station"*, add *"(MLT)"*.

c. After the definition title *"Television STL station (Studio-transmitter link)"*, add *"(FXT)"*.

2. Section 2.101 of Part 2 is amended as follows:

a. Opposite the symbol "FXN" change "Interim television relay station" to read "Television inter-city relay station".

b. Delete "MOT Television pickup station" and after the symbol "ML" add "MLT" Television pickup station".

[F. R. Doc. 51-201; Filed, Jan. 5, 1951, 8:47 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 911]

HANDLING OF MILK IN SUBURBAN ST. LOUIS, MO., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at East St. Louis, Illinois, on February 23 and 24 and February 27 to March 3, 1950, all dates inclusive, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 327).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on October 27, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on November 1, 1950 (15 F. R. 7317). The closing date for filing exceptions was November 21, 1950.

The material issues considered at the hearing were concerned with the following:

A. Whether the handling of milk in the Suburban St. Louis, Missouri, marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk or its products:

B. Whether marketing conditions justify the issuance of a marketing agreement or order regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area; and

C. If issuance of such an agreement or order is justified, what its provisions should be.

The evidence on this last issue involved the following:

(1) The extent of the marketing area;

(2) The definition of "producer," "handler," "pool plant," "other source milk," and other terms;

(3) The classification and allocation of milk;

(4) The determination and level of class prices;

(5) Payments to producers;

(6) Administrative provisions necessary to effectuate the purposes of the order.

Rulings on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and full considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing, it is hereby found and concluded that:

(A) The handling of milk produced for the Suburban St. Louis, Missouri, marketing area is in the current of interstate commerce and directly burdens, obstructs, or affects interstate commerce in milk and its products.

The Suburban St. Louis marketing area lies adjacent to the St. Louis, Missouri, marketing area, the handling of milk in which is regulated under Order No. 3, as amended. Suburban St. Louis handlers purchase their milk in nearby Illinois counties in competition with St. Louis (Order No. 3) handlers. This competition affects interstate commerce in milk since St. Louis handlers also regularly obtain supplies from producers in Illinois as well as in Missouri and Arkansas and they dispose of such milk in fluid uses in the City of St. Louis and in surrounding areas both in Missouri and Illinois. Interstate commerce is also manifested in the fact that certain distributors who would be handlers under the suburban order and who are located in Illinois bottle milk which is disposed of to local distributors in Jefferson County, Missouri. Other distributors located in Alton, Illinois, which would be included in the suburban marketing area, bottle milk which is sold in grocery stores in various counties in Missouri. In addition suburban handlers located in Illinois sell sweet cream to dealers in St. Louis, Missouri, who in turn dispose of such cream to local distributors operating in Jefferson County, Missouri, and to other outlets for ice cream uses. Sweet cream and bulk condensed milk derived from the milk purchased in competition with supplies for fluid uses in the Suburban area are disposed of in interstate commerce through outlets in Tennessee and Florida. Butter made from locally produced milk, including surplus milk of local handlers, is sold on the national market both within and without the State of Illinois and butter and nonfat dry milk solids from local manufacturing plants are purchased by the Government under its price support operations.

From the foregoing, it is clear that a substantial volume of the milk in the Suburban St. Louis market is moved physically in interstate commerce in the form of milk, cream, and manufactured dairy products and that the handling of milk in the market directly burdens, obstructs, and affects interstate commerce in milk and its products.

(B) Marketing conditions in the Suburban St. Louis, Missouri, market justify the issuance of a marketing agreement and order.

Producers on the Suburban St. Louis market are not being paid for their milk on a use basis and there is no uniform pricing plan being followed by the several handlers with the result that producer prices for milk of similar quality and use vary substantially as among the several handlers in the market.

The recent sale of the retail routes of one of the larger distributors in Alton, Illinois, resulted in the cutting off of every producer who had been shipping to this dairy for a period of years and in the displacement of the milk of these producers, who had been producing under a quality program, with milk from a condensery purchased at condensery prices. This tended to depress prices to

producers and the orderly marketing of producer milk was disrupted. Under the circumstances of this market cooperative associations have been unable to bargain effectively for the sale of milk of their members on the basis of the use made of such milk. This also has tended to depress prices to producers. Consequently, there is much unrest among producers and much shifting of producers among handlers where this is possible.

Adequate statistics and market information with reference to prices paid for milk, plant receipts, and plant utilization of milk are necessary to enable producers to bargain effectively with handlers in the sale of their milk. No such information is available at this time; however, the issuance of an order would provide the medium for developing the market information necessary for efficient marketing of producer milk and would enable producers to participate more actively and effectively in improving marketing conditions.

Handlers contend that there is no need for an order, arguing that the market is already adequately supplied with milk, an indication that present prices are satisfactory. Producers do not dispute that there are sufficient milk supplies at the present time but contend that they should share in the use value of the milk. The issuance of a marketing order will provide a more realistic pricing structure which is needed to return to producers a fair value for their milk and guarantee adequate supplies in the future.

(C) From the evidence it is concluded that the proposed marketing agreement and order which are hereinafter set forth, and all of the terms and conditions thereof, meet the needs of the Suburban St. Louis, Missouri, market and will tend to effectuate the declared policy of the act. The following findings and conclusions are made with respect to the several provisions of the proposed marketing agreement and order:

(1) *Extent of the marketing area.* The marketing area should be defined to include all of the territory lying within the Counties of Jersey, Madison, Monroe, Pond, Clinton (except the Townships of East Fork, Meridian, and Brookside), St. Clair (except East St. Louis, Centerville, Canteen, and Stites Townships and Scott Air Force Base), and Macoupin, (except the Townships of Scottville, Barr, North Palmyra, South Palmyra, North Otter, South Otter, Virden, Girard, and Nilwood) and the Townships of Bluffdale, Carrollton, Linder, Rockbridge, Woodville, and Kane in Greene County; all in the State of Illinois.

Madison and St. Clair Counties represent the area of heaviest concentration of population and the principal area of competition between major handlers serving the area herein proposed. The inclusion of Jersey, Bond, and Monroe Counties and parts of Macoupin, Greene, and Clinton Counties incorporates an area of secondary concentration of population which is primarily served by the major handlers operating in Madison and St. Clair Counties. The principal distributors serving Jersey and the southern half of Macoupin and Greene Counties are also major distributors in the Town of Alton and surrounding territory in Madison County. In the same manner the principal distributors serving Bond and Monroe Counties and the major portion of Clinton County are also major distributors in Belleville, Highland, Edwardsville, and other towns in Madison and St. Clair Counties. The extension of the marketing area to include any of the additional territory proposed at the hearing would go beyond the area of normal competition among the handlers involved and would bring under the order additional handlers doing the bulk of their business beyond the area boundaries.

It was proposed that the marketing area include the territory within St. Charles and Jefferson Counties, Missouri, and that part of St. Louis County, Missouri, not presently included under Order No. 3. The record fails to establish the Missouri area as a part of the area of normal competition of Illinois handlers and there was no indication that Missouri handlers, other than Order No. 3 handlers, compete for sales in the Illinois area. Accordingly, it is concluded that the Missouri area should not be included.

Exception was taken to the recommended decision of the Assistant Administrator, Production and Marketing Administration, by one large handler who would be subject to the provisions of the proposed order. In this exception, it was contended that the area of competition among handlers involved included that portion of Greene and Macoupin Counties south of State Aid Route 108 and the Cities of Carrollton and Carlinville, Illinois. On a review of the record, it is concluded that this area does constitute a part of the area of normal competition and should be included in the marketing area.

(2) *Definitions.* A definition of "pool plant" is necessary to establish which dairy farmers are to participate in the market pool. It is intended that any producer who is delivering milk to a plant which is a regular supplier of milk for Class I use should be included in the pool. Accordingly, a "pool plant" should be designated as a plant, other than that of a producer-handler, which is used in the processing and packaging of milk disposed of on routes within the delivery period as Class I milk in the marketing area, or a plant which receives milk which is regularly disposed of as milk to a plant which distributes Class I milk in the marketing area.

In many instances local health authorities are relied upon to define the regular source of supply for the market. The designation of a pool plant under these circumstances is based upon the receipt of milk from dairy farms holding farm inspection permits issued by the local health authority. Plants handling only milk from other sources but which are permitted by the local health authority to supply Class I milk to the market on an emergency basis are not considered a regular source of supply and are not regulated under an order.

In the marketing area as herein proposed the health regulations cannot be used to define generally the regular source of supply for the market and it is necessary to devise other means of designating the type of plant operations which are to be regulated. It is concluded that all plants distributing 10 percent or more of the Class I milk in such plant on routes in the area and all other plants regularly supplying milk for Class I use in the area should be designated as pool plants. Accordingly, any plant distributing Class I milk in the marketing area during the delivery period in a quantity equivalent to 10 percent or more of the Class I milk in such plant is designated a pool plant. The exemption of a distributing plant from which less than 10 percent of the Class I milk in such plant is disposed of on routes in the marketing area is necessary in this market, as pointed out in the exceptions of producers and handlers, to eliminate the influence on returns to producers caused by distributors who are causally associated with the marketing area and to prevent undue hardship upon such distributors in applying the provisions of the proposed order to the total supply of milk of such handlers who are, in fact, more closely associated with other markets. In order to prevent disorderly marketing, however, such distributors should be required to pay into the producer-settlement fund the difference between the Class I and the Class II price of such milk disposed of in the marketing area. Furthermore, such distributor also should be required to pay to the market administrator the administrative assessment on the quantity of Class I milk and Class II milk received from dairy farmers and disposed of in the marketing area, to make reports to the market administrator, and to keep books and records of his receipts and utilization and permit verification thereof.

Any plant which is used in the receipt of milk and from which milk is regularly disposed of to a distributing plant is also designated as a pool plant. Both handlers and producers contended in their exceptions to the recommended decision of the Assistant Administrator, Production and Marketing Administration, that the definition of such plant permitted the pooling of plants which were not regular suppliers of milk. In order to assure that only those plants which are regularly associated with the market will be pooled, the definition as contained in the proposed order is revised. Provision is made for the pooling of such plants beginning with the third delivery period within which such plant supplies 10 percent or more of its receipts from dairy farmers and conditioned upon the filing of written application to the market administrator for pool plant status. This provision will make it possible for plants to supply milk on an emergency basis without being subject to the regulatory provisions of the order. In order to permit stand-by plants to keep milk in the country during the flush production months and continue to share in the pool, it is provided that any plant which met the requirements for pooling during each of the delivery periods of October through February shall be pooled during the subsequent delivery periods of March through September; however, to

pool the following October such plant must have met the 10 percent requirement during the delivery periods of August and September.

The term "producer" should be defined as any person, except a producer-handler, who produces milk which is received at a pool plant, or is diverted from a pool plant to any milk distributing or manufacturing plant. The definition of such term facilitates the designation of the milk which is to be subject to the pricing provisions of the order. Since the order applies to deliveries of whole milk by producers it is not intended that a person be considered a producer with reference to deliveries to a pool plant of sweet or sour cream. In order to eliminate possible conflicts between this order and other orders regulating the handling of milk in adjacent areas a person should not qualify as a producer under two orders on the same milk. Accordingly, it is provided, That a person who is a producer under the provisions of another milk marketing order issued under the act, shall not be a producer for the same milk under the terms of this order.

Milk disposed of as fluid milk in the marketing area may be produced under rigid health inspection or may be ungraded milk which is not regulated by an ordinance of the state or any local health authority. Since separate pooling and pricing are proposed for Grade A milk and ungraded milk produced and disposed of as fluid milk in the marketing area it is necessary that producers be differentiated in accordance with the health regulation under which such milk is produced. Producers are therefore defined as either "Grade A" or "Nongrade A."

The term "handler" should include a producer-handler and any person in his capacity as operator of a pool plant. A definition of "handler" is necessary in order to specify the types of processors and distributors subject to regulation. Milk diverted from a pool plant to a nonpool plant for the account of the handler is considered to have been received at the pool plant since producers of such milk would ordinarily be regular suppliers of the market and as such should be assured the market blend price for their milk. "Handler" should also include any cooperative association of producers which diverts producer milk for the account of such association. It was proposed that diversion by a cooperative association be limited to specified months of flush production but it was not shown that such a limitation would be in the best interest of orderly marketing. If this limitation were imposed handlers could be adversely affected and certain producers discriminated against on week-ends or holidays or at other times when unseasonable production during the restricted period might upset the supply-demand balance in the market because proprietary handlers are not in a position to accept milk from all producers under these conditions. The definition should also include the operator of a distributing plant from which less than 10 percent of the Class I milk in such plant is disposed of in the marketing area. This is necessary in order to obtain reports and require payment to the producer-settlement fund and the administrative fund.

"Other source milk" should be defined to include all skim milk and butterfat from a producer-handler or from a source other than producers or other handlers. However, nonfluid milk products received and disposed of in the same form should be excepted. Furthermore, receipts of Grade A producer milk from handlers as defined under Orders Nos. 3, 16, and 77, regulating the handling of milk in the St. Louis, Missouri, Southern Illinois, and Paducah, Kentucky, marketing areas should be excluded. This is in keeping with transfer and allocation provisions which permit interchange of Grade A supplies between such markets. Since producer-handlers normally dispose of their milk during most of the year in Class I, and since sales of Class I by these handlers would not be pooled the pooling of surplus milk purchased by handlers from producer-handlers would result in a preferential market for producer-handlers as compared with regular producers. Milk purchased from producer-handlers should be treated therefore as other source milk and it would remain unpriced under this proposed order. Nonfluid milk products received and disposed of in the same form are not included as other source milk because they would not affect the classification of producer milk.

The terms "act," "person," "Secretary," "Department," "cooperative association," and "delivery period" are defined in order to facilitate the drafting of other provisions of the order. These terms are common to Federal milk marketing orders and no differences developed at the hearing regarding their definition.

(3) *Classification and allocation of milk.* The classification of milk should be as follows: Class I milk should include all skim milk and butterfat disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, milk drinks (both plain and flavored), cream (including sour cream), any mixture of cream and milk or skim milk (except bulk ice cream mix, eggnog, and reddi-wip, instant whip, super whip, and similar products), and all skim milk and butterfat not specifically accounted for as Class II milk. Class II milk should include all skim milk and butterfat used to produce any product other than those specified in Class I milk, disposed of for livestock feed, in actual plant shrinkage of skim milk and butterfat received in producer milk (but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively), and actual plant shrinkage of skim milk and butterfat, respectively, in other source milk received.

The products to be classified as Class I are those normally associated with a fluid milk business, all being disposed of in fluid form in the marketing area through the same retail and wholesale channels as bottled fluid milk. Their physical characteristics, purposes, values, and uses are more nearly similar to those of fluid milk than to the products to be classified as Class II milk. Furthermore, these products are normally made from a higher quality of milk than that disposed of in manufactured products. Under the terms of the Belleville ordinance they are required to be made from Grade A milk.

The products to be classified in Class II are those which normally are competitively priced on a national market. It is necessary that a lower pricing be provided for milk so utilized in order to assure free movement of excess supplies into manufacturing channels without burdensome competitive disadvantages to affected handlers.

Handlers contended that the fluid products other than fluid milk, which are herein proposed to be classified as Class I, are disposed of in smaller volume and at higher handling costs than fluid milk and should carry a lower classification and pricing. They also proposed a lower pricing for fluid milk and fluid milk products sold outside of the marketing area. The pricing herein proposed recognizes the variation in the butterfat content of milk products and results in a lower pricing for those products with a lower butterfat content. A lower classification resulting in a lower price for fluid milk sold outside the marketing area is not justified. Milk disposed of by suburban handlers outside the marketing area is the same quality as that disposed of within the area and is subject to the same transportation costs in moving from the farm to the handler's plant. Out-of-area fluid sales represent a continuing and regular demand throughout the year and have no aspects of an outlet for a seasonal surplus of producer milk.

Handlers proposed a maximum 3 percent shrinkage allowance in the lowest use class. Shrinkage experience under Order No. 3, as amended (which regulates handlers similarly situated), since 1945 indicates that in no year has shrinkage for St. Louis handlers amounted to as much as 2.5 percent and in one year, 1948, was substantially under 2 percent. A maximum allowable shrinkage of 2 percent on producer milk should be included in Class II. Any shrinkage in excess of that amount should be classified as Class I. No limit is provided for shrinkage of other source milk allowed in Class II since such milk is deducted from the lowest use class under the allocation provisions.

It is not administratively feasible to segregate the actual plant shrinkage on producer milk from shrinkage on other source milk in the same plant. Consequently, in such cases shrinkage of skim milk and butterfat, respectively, allocated to Grade A producer milk, Nongrade A producer milk, or other source milk should be computed pro rata according to the proportions of the volumes of skim milk and butterfat, respectively, received from such sources, to their totals.

In establishing the classification of milk the responsibility should be placed upon the handler who first receives milk from producers to account for all skim milk and butterfat received at his pool plant and to prove to the market administrator that such skim milk and butterfat should be classified as other than Class I. The handler who first receives milk from producers is responsible for

reporting the proper utilization of such milk and making full payment for it. He must therefore maintain records to furnish adequate proof of utilization to the market administrator. For the protection of both producers and handlers, skim milk or butterfat classified in one class should be reclassified if used or reused by such handler, or by another handler in another class.

Provisions should be included in the order covering the classification of skim milk and butterfat which is transferred from a pool plant to another pool plant or to a nonpool plant. In the case of transfers between pool plants classification should be on the basis of written agreement between the affected handlers to the extent of utilization in the agreed use in the transferee plant. This provision affords suitable flexibility in the pricing, classification, and accounting for milk transferred. It does not affect producer returns because all of the milk is accounted for in the pool computation in any event. In order to assure adequate protection of producers in the classification of their milk it should be provided that in case other source milk is received in either or both plants the classification of milk in each plant shall be made in such a manner as will return the higher class utilization to producer milk.

The allocation provisions as hereinafter proposed give priority to Grade A producer milk over Nongrade A producer milk. *Accordingly, it should be further provided*, That when Grade A producer milk is received at either plant involved in an interhandler transfer the milk so disposed of shall be classified at both plants to return the higher class utilization to Grade A producer milk.

Transfers to a producer-handler should be classified as Class I milk. Producer-handlers ordinarily carry on only fluid operations; hence any milk which they might purchase from a handler would normally be for such use and it is unnecessary to provide for the classification of such a transfer in a lower class use.

Transfers to a nonpool plant, except in the case of transfers of milk or skim milk to a plant located 150 miles or more airline distance from the City Hall at St. Louis, should be classified on the basis of written agreement in the same manner as outlined for interhandler transfers. This would facilitate the movement of skim milk and butterfat in excess of Class I needs and at the same time protect producers in the classification of milk by required adequate records to prove to the market administrator that an equivalent amount of skim milk and butterfat was actually used in the claimed class.

Transfers of milk or skim milk to a nonpool plant located 150 miles or more airline distance from the City Hall in St. Louis should be classified as Class I. Ordinarily such transfers for distances of as much as 150 miles cannot economically be made for manufacturing uses. There are numerous plants with manufacturing facilities within the 150 mile zone. Under these circumstances it should not be necessary to move milk or skim milk great distances in order to find a surplus outlet. The limitation on distance in which such transfers are permitted as other than Class I will simplify the job of the market administrator in the classification of milk, save considerable expense which would otherwise be necessary to check utilization in distant plants, and affords reasonable protection for producers in the classification of their milk.

The allocation provisions should provide that other source milk, which is unpriced, be allocated to the lowest use in the handler's plant. This is done to prevent other source milk from displacing the milk of producers which constitutes the regular supply of the market. In the allocation of producer milk, Grade A milk should be assigned to the highest utilization. A handler customarily utilizes the highest quality milk in his plant for fluid purposes and hence the assignment of this milk to the highest class is consistent with the preferential use given to this milk by handlers.

Both producers and handlers took exception to the Assistant Administrator's recommended decision in that it did not provide for free transfer of milk between the St. Louis, Missouri, Southern Illinois, Paducah, Kentucky, and Suburban St. Louis, Missouri, markets. By reason of the close association between handlers subject to the orders regulating the handling of milk in these markets and the overlapping of sales routes of such handlers there should be no obstruction to the free flow of milk between these markets to the end that producers of like grades of milk in all of these markets may be assured of the highest possible Class I utilization at all times and so that handlers will be relieved insofar as possible of the uncertainty of the classification of milk transferred to handlers in the other markets. It is concluded that transfers should be permitted on the basis of written agreement between the transferer and the transferee so long as such transfers do not replace Class I sales allocated to the receipts from Grade A producers in the transferee plant.

Certain handlers proposed that Class II utilization in an amount not to exceed 5 percent of producer receipts be allocated to producer milk contending that handlers should not be penalized for the use of other source milk necessitated by day-to-day fluctuations in production and in Class I sales. While such a provision is contained in the St. Louis order the need for such a provision was not established in this record. An ample supply of producer milk is available in the Suburban St. Louis market. Any temporary shortage would be the result of an erroneous decision on the part of handlers as to the quantity of regular milk which they procure. Producers should not be required to share the cost of importing other source milk for an individual handler, to alleviate a shortage resulting from his own erroneous decision.

(4) *Class prices.* Class I milk prices should be determined by using the basic formula price as computed under the pricing provisions of Order No. 3, as amended, and adding specified differentials. Class II milk prices should be the basic formula price as computed under the pricing provisions of Order No. 3, as amended, except that for the months of April through July 1951 the Class II price should be such basic formula price less 15 cents.

Both producers and handlers proposed that the Suburban St. Louis Class I price be related to the St. Louis price in recognition of the direct competition between the two markets for milk supplies and for retail sales. Producers proposed the same differentials in pricing Grade A milk under this order as those established under the St. Louis order.

Illinois Grade A milk, while produced under the Illinois Grade A milk law, is not accepted by the health authorities of St. Louis or the East Side Health District for sale as Grade A milk. It appears that a greater investment is necessary to provide facilities to meet the requirements for the production of milk qualified for the St. Louis market, and that greater day-to-day costs must be incurred in the care of cows and equipment and in the production of milk under the St. Louis ordinance. The use of the same basic formula price will maintain a direct relationship in prices between the two markets. However, in recognition of the lower production costs incurred in the production of Illinois Grade A milk as compared to milk produced for the St. Louis market, the Illinois Grade A milk should be priced somewhat below the prices specified in the St. Louis order. Accordingly, it is concluded that the Grade A Class I price should be the basic formula price as computed under the pricing provisions of the St. Louis order plus the following differentials: $1.35 for the delivery periods of July through December, $0.90 for the delivery periods of January through March, and $0.50 for the delivery periods of April through June. The resulting prices will average approximately $0.15 under the St. Louis price for Class I milk on an annual basis but will result in a greater seasonal differential in price which is needed to promote a more uniform pattern of milk production consistent with the demand pattern for milk for Class I use in the marketing area.

Nongrade A Class I milk should be priced 40 cents under the Grade A price. This pricing results in a Class I price for Nongrade A milk which varies seasonally from 10 cents over the St. Louis basic formula price during the months of April, May, and June to 95 cents over such price during the months of July through December. These differentials are designed to cover the extra costs of producing the quality of milk required by handlers for bottling purposes and the additional transportation costs involved in delivering milk to the fluid milk market, to promote a more uniform seasonal production pattern, and to assure an adequate supply of milk over a period of time.

The Class I price differentials proposed herein are the same as those proposed for the Southern Illinois marketing area. This is in conformity with the conclusion that transfers of milk under specified conditions between handlers, who would be subject to such orders, should be per-

mitted to be classified on the basis of a written agreement between such handlers. Differences in class prices between the two markets under such conditions could create disorderly marketing of milk.

The price for Class II milk proposed herein is the same as that provided for under the order regulating the handling of milk in the St. Louis marketing area, except for the months of April through July 1951. The St. Louis market obtains its supplies of milk from an area which encompasses the supply area for the Suburban marketing area. The disposition of surplus milk in much of the Illinois portion of the St. Louis supply area and in the supply area for the Suburban market is through the same manufacturing facilities and in the same uses. The prices for surplus milk under the St. Louis Order and under the Suburban Order should, therefore, be the same.

Producers proposed that the Class II price be the average price paid for milk at a small group of local condenseries and manufacturing plants, including a few of the 23 herein proposed. Handlers concurred in this proposal except that they suggested a price of 25 cents less than the price paid at the local condenseries, contending that the small operations of local handlers and transportation costs to manufacturing plants would necessitate a lower price. The prices paid by local condenseries have been substantially less than those paid at condenseries located in Wisconsin and Michigan and substantially less than the Class II price established by the St. Louis Order. Since manufactured products compete on the national market and the Department of Agriculture is presently supporting milk prices through purchases of all offers of nonfat dry milk solids, butter, cheese, and evaporated milk at specified prices which should result in producer prices for ungraded manufacturing milk substantially in excess of the current local condensery price, it is concluded that the Class II prices need not be established on the basis of these local condenseries. The Class II price under these conditions should be the same as the price of Class II milk under the St. Louis Order, however, in view of the lack of information regarding the utilization of milk and the facilities for handling surplus milk by certain handlers, such price should be reduced 15 cents per hundredweight for the months of April through July 1951. This will assure a market for producer milk for the flush production of 1951 and will permit further study of the problem when more adequate data are available.

The price computed for each class on the basis of milk containing 3.5 percent butterfat should be adjusted to reflect the weighted average butterfat content of the several products classified in the respective classes. The Class I Grade A differential should be 1.25 times the price of 92-score butter at Chicago and the Class I Nongrade A differential should be 1.22 times the price of 92-score butter at Chicago. The Class II differential should be 1.20 times the price of 92-score butter at Chicago. These differentials appear to provide an appropriate division of the price between skim milk and butterfat and should encourage the maximum utilization of producer butterfat.

The pricing of Class I milk on the basis of the f. o. b. St. Louis price adjusted by a location allowance which varies according to the distance between St. Louis and the pool plant was supported by both producers and handlers and it will serve to maintain a direct relationship between prices under the St. Louis Order and under the Suburban St. Louis Order. The allowances established are the same as are used under the St. Louis Order.

(5) *Payments to producers.* The "market-wide" type of pool should be established in this order for the purpose of distributing among producers returns from the sale of their milk. Under the market-wide pooling arrangement all producers receive the same uniform price for their milk irrespective of the utilization made of such milk by the handler to whom they sell.

The alternative to the market-wide pool is the use of individual-handler pools. Under this system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. A cooperative association representing the majority of producers in the market expressed its intent to become a handler when necessary to market the surplus milk of its members. To do so under an individual-handler pool would result in an unequal sharing of the market among producers and would not be conducive to orderly marketing. It is therefore concluded that a market-wide pool is necessary to distribute the returns from the sale of milk equally among producers and to create orderly marketing of producer milk.

Because of the different grades of milk distributed in the marketing area it will be necessary to maintain two separate pools—one for Grade A milk and one for Nongrade A milk.

In the computation of the value of producer milk, provision should be made for the inclusion of the value of milk classified in excess of reported receipts from producers, other handlers, and other sources. This provision is found in other milk orders and it is necessary to cover discrepancies between the reported and actual weights and tests of milk received from producers. In case a handler having excess skim milk or butterfat has received both Grade A and Nongrade A milk during a delivery period it should be provided that such excess shall be ratably apportioned between the two grades of milk.

In the event that a handler has received other source milk allocated to Class I and which is not priced under another Federal marketing agreement or order, an amount should be added to the value of the lowest grade of producer milk received by such handler computed as follows: Multiply the quantity of such other source milk by the difference between the applicable prices for Class I and Class II milk. As previously indicated, all sources of milk regularly used for Class I will be included in the pool. Irregular sources of supply are exempt and such payment is necessary for the reasons heretofore discussed in connection with plants to be pooled and persons to be defined as handlers. The pool plant definition affords opportunity to any handler to develop an adequate supply of producer milk for his Class I needs. There should be no reason for an insufficient supply of producer milk under such circumstances. If any handler elects to use other source milk in preference to utilizing an available source of producer milk, local producers should not be penalized. *Accordingly, it is provided,* That such handler pay into the pool, for distribution among regular producers, the difference between the Class I and the Class II prices on other source milk so utilized. Such a provision gives assurance to both producers and handlers that all milk utilized for fluid purposes is purchased on a use basis at minimum order prices. Other source milk priced under another marketing order is exempt because such milk would be priced on a use basis commensurate with its value as determined under the other order.

Provision should be made for the adjustment to reflect the actual test of the milk received from a producer and the location of the pool plant where such milk is received in the applicable uniform price payable to producers. The producer butterfat differential and the location allowances, both of which apply to all producer milk received irrespective of use, should be the same as presently provided under the St. Louis Order; thus maintaining the direct relationship to St. Louis prices established for the individual class prices. The producer butterfat differential and the location allowances are merely means of prorating returns to producers and do not affect handler costs for milk.

Payment should be made to producers on a monthly basis on the 15th day after the close of the delivery period. This is the usual method of settlement currently employed by handlers in the area. All dates covering reports of handlers, computation and announcement of uniform prices, and payments to and out of the producer-settlement funds are set in appropriate relation to the payment date. All payments made directly to producers or an association of producers, or through the producer-settlement fund, should be adjusted for errors made in such payment for preceding delivery periods.

The market administrator in making payments to any handler from the producer-settlement fund should offset such payments by the amount of payment due from such handler. Without this provision, the market administrator might be required to make payments to a handler who may have obtained money from the producer-settlement fund by filing fraudulent reports or who owes money to the producer-settlement fund but who is financially unable to make full payment of all his debts.

(6) Certain other provisions should be adopted to enable proper and efficient administration of the order.

(a) *Administrative assessment.* Each handler should be required to pay to the market administrator, as his pro rata share of the cost of administration of the order, 4 cents per hundredweight, or such lesser sum as the Secretary may from time to time prescribe, on all receipts of producer milk at a pool plant.

Both handlers and producers recognize that the market administrator should have the necessary funds to enable him to administer properly the terms of the order and the act provides that the administration of the order be financed through assessment against handlers. In view of the anticipated volume of milk on which the rate would apply it is concluded that a maximum rate of 4 cents per hundredweight is necessary at this time to guarantee sufficient administrative funds. In the event at a later date a lesser amount proves to be sufficient for proper administration, provision is made to enable the Secretary to reduce the assessment accordingly.

(b) *Deductions for marketing services.* Provision should be made for the dissemination of market information to producers and for the verification of weights, sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association and a reasonable charge assessed in payment thereof. This provision is specifically authorized by the act. Accordingly, it is concluded that 6 cents per hundredweight, or such lesser rate as the Secretary may determine, should be deducted by handlers from the payment to producers and turned over to the market administrator to finance such services. This rate was proposed by producer interests who have had experience in this market with check sampling, weighing, and testing programs. In the event any qualified cooperative association of producers is determined to be performing such services for its members, handlers should be required to pay to the cooperative association such deductions as are authorized by the members of the association. Handlers proposed in connection with the marketing service provision that in the case of two qualified cooperative associations, each having a membership contract with a particular producer, the market administrator be required to determine to which association such deduction should be paid. Such a proposal is not feasible since there is nothing contained in the marketing agreement act to preclude a producer from holding membership in more than one cooperative association, if he so desires, and it is not intended that under the marketing agreement and order herein proposed he should be so precluded. The order merely provides that the handler deduct and pay to any qualified cooperative association whatever deduction is authorized by the members of the association.

(c) *Other administrative provisions.* The other provisions of the order are of a general administrative nature which are common to all Federal milk orders, and incidental to the other provisions of the order, and are necessary for proper and efficient order administration. They should provide for the selection of the market administrator, define his powers and duties, prescribe the information to be reported by handlers each month and the length of time that records must be retained. A plan for liquidation of the order in the event of its suspension or termination should also be provided.

Producer-handlers should be exempt from the regulatory provisions of the order except that they should be required to file reports as requested by the market administrator. Since a producer-handler may change his status from time to time it is necessary that the market administrator have authority to require such reports as will enable him to verify his current status as a producer-handler and to supplement other market information.

A pool plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act and which the Secretary determines disposes of a greater volume of its Class I milk in such other marketing area than in this marketing area should be partially exempt from the provisions of this order. It would be impractical to attempt regulation of a handler under two separate orders with respect to the same milk. Accordingly, it should be provided that if a pool plant disposes of a greater volume of its Class I milk in a marketing area regulated by another Federal marketing order than is disposed of in this marketing area such plant shall be exempt from the reporting, pricing, payment, administrative assessment, and marketing service provisions of this order except that the operator of such plant shall make such reports with respect to receipts and utilization of milk as the market administrator may require.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time which obligations under the order shall terminate. The proposal made in this regard is identical with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of October 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Suburban St. Louis, Missouri, Marketing Area," and "Order Regulating the Handling of Milk in the Suburban St. Louis, Missouri, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., January 3, 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order [1] Regulating the Handling of Milk in the Suburban St. Louis, Missouri, Marketing Area

Sec.
911.0 Findings and determinations.

DEFINITIONS

911.1 Act.
911.2 Secretary.
911.3 Department.
911.4 Person.
911.5 Suburban St. Louis, Missouri, marketing area.
911.6 Delivery period.
911.7 Cooperative association.
911.8 Pool plant.
911.9 Nonpool plant.
911.10 Handler.
911.11 Producer.
911.12 Grade A producer.
911.13 Nongrade A producer.
911.14 Other source milk.
911.15 Producer-handler.

MARKET ADMINISTRATOR

911.20 Designation.
911.21 Powers.
911.22 Duties.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

REPORTS, RECORDS, AND FACILITIES

Sec.
911.30 Delivery period reports of receipts and utilization.
911.31 Other reports.
911.32 Records and facilities.
911.33 Retention of records.

CLASSIFICATION

911.40 Skim milk and butterfat to be classified.
911.41 Classes of utilization.
911.42 Responsibility of handlers and reclassification of milk.
911.43 Transfers.
911.44 Computation of skim milk and butterfat in each class.
911.45 Allocation of skim milk and butterfat classified.
911.46 Allocation of producer milk classified.

MINIMUM PRICES

911.50 Class prices.
911.51 Butterfat differentials to handlers.
911.52 Location differential to handlers.

APPLICATION OF PROVISIONS

911.60 Producer-handlers.
911.61 Pool plants subject to other orders.
911.62 Handlers operating nonpool plants.

DETERMINATION OF UNIFORM PRICES

911.70 Computation of value of milk.
911.71 Computation of uniform prices.

PAYMENTS

911.80 Time and method of payment for milk.
911.81 Producer-butterfat differential.
911.82 Location differential to producers.
911.83 Producer-settlement funds.
911.84 Payments to the producer-settlement funds.
911.85 Payments out of the producer-settlement funds.
911.86 Adjustment of accounts.
911.87 Marketing services.
911.88 Expense of administration.
911.89 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

911.90 Effective time.
911.91 Suspension or termination.
911.92 Continuing obligations.
911.93 Liquidation.

MISCELLANEOUS PROVISIONS

911.100 Agents.
911.101 Separability of provisions.

AUTHORITY: §§ 911.0 to 911.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 911.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held February 23 and 24 and February 27 to March 3, 1950, at East St. Louis, Illinois, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) The necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe with respect to all producer milk (including such handler's own production) received during the month.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Suburban St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITION

§ 911.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 911.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties pursuant to the act of the Secretary of Agriculture.

§ 911.3 *Deparment.* "Department" means the United States Department of Agriculture or other Federal agency authorized to perform the price reporting functions specified herein.

§ 911.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 911.5 *Suburban St. Louis, Missouri, marketing area.* "Suburban St. Louis, Missouri, marketing area," hereinafter called the "marketing area," means all of the territory within Jersey, Madison, Monroe, and Bond Counties; the Townships of Bluffdale, Carrollton, Linder, Rockbridge, Woodville, and Kane in Greene County; Macoupin County, except the Townships of Scottville, Barr, North Palmyra, South Palmyra, North Otter, South Otter, Virden, Girard, and Nilwood; Clinton County, except the Townships of East Fork, Meridian, and Brookside; and St. Clair County, except the Townships of East St. Louis, Centerville, Canteen, and Stites, and the Scott Air Force Base; all in the State of Illinois.

§ 911.6 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this part is in effect.

§ 911.7 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 911.8 *Pool plant.* "Pool plant" means:

(a) Any plant which is used in the processing and packaging of milk and from which 10 percent or more of the Class I milk in such plant is disposed of on wholesale or retail routes (including plant stores or through vendors) within the delivery period as Class I milk in the marketing area, except the plant of a producer-handler and any plant from which the only Class I milk so disposed of in the marketing area is milk approved by the appropriate health authority for sale as Class I milk in the St. Louis, Missouri, marketing area; or

(b) Any plant which is used in the receipt of milk from farmers and from which milk in bulk is disposed of in a quantity equivalent to 10 percent or more of such receipts from farmers during the delivery period to one or more plants described in paragraph (a) of this section: *Provided*, That milk was so disposed of from such plant during each of the two immediately preceding delivery periods and the operator of such plant has made written application, on or before the 30th day prior to the first day of the current delivery period, to the market administrator for pool plant status: *And provided further*, That this definition shall include during the delivery periods of March through September any plant which was used in the receipt of milk and from which milk in bulk was so disposed of to one or more plants described in paragraph (a) of this section during each of the immediately preceding delivery periods of October through February.

§ 911.9 *Nonpool plant.* "Nonpool plant" means any milk processing or distributing plant other than a pool plant.

§ 911.10 *Handler.* "Handler" means:

(a) Any person in his capacity as operator of a pool plant;

(b) A producer-handler;

(c) Any person, other than a producer-handler, in his capacity as operator of a nonpool plant which is used in the processing and packaging of milk, any portion of which is disposed of from such plant on wholesale or retail routes (including plant stores or through vendors) within the delivery period as Class I milk in the marketing area, except any plant from which the only Class I milk so disposed of in the marketing area is milk approved by the appropriate health authority for sale as Class I milk in the St. Louis, Missouri, marketing area; or

(d) Any cooperative association with respect to the milk of any producer which it causes to be diverted from a pool plant to a nonpool plant for the account of such association.

§ 911.11 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is:

(a) Received at a pool plant; or

(b) Diverted from a pool plant to any milk distributing or milk manufacturing plant for the account of a handler: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted: *And provided further*, That a person who is a producer under the provisions of any other milk marketing order issued under the act, shall not be a producer for the same milk under the provisions of this part.

§ 911.12 *Grade A producer.* "Grade A producer" means a producer whose milk complies with the quality requirements of the Grade A milk ordinance of the applicable political subdivision of the State of Illinois or the Grade A milk and Grade A milk products laws of the State of Illinois and is permitted by the Illinois State Health Department to be sold under a Grade A label as fluid milk in the marketing area.

§ 911.13 *Nongrade A producer.* "Nongrade A producer" means a producer other than a Grade A producer.

§ 911.14 *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form from a producer-handler or from a source other than producers or other handlers except:

(a) Any nonfluid milk product received and disposed of in the same form;

(b) Milk of producers received by handlers as defined under Orders Nos. 3 and 77, as amended, regulating the handling of milk in the St. Louis, Missouri, and Paducah, Kentucky, marketing areas, respectively; and

(c) Milk of Grade A producers received at a pool plant of a handler as defined under Order No. 16 regulating the handling of milk in the Southern Illinois marketing area.

§ 911.15 *Producer-handler.* "Producer-handler" means any person who processes milk from his own farm production any portion of which is disposed of within the marketing area as Class I milk, and who receives no milk from producers.

MARKET ADMINISTRATOR

§ 911.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 911.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 911.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 911.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 911.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each delivery period as follows:

(1) On or before the 6th day after the end of such delivery period, the minimum class prices and the butterfat differentials for each class computed pursuant to §§ 911.50 and 911.51; and

(2) On or before the 11th day after the end of such delivery period, the uniform prices computed pursuant to § 911.71 and the butterfat differential computed pursuant to § 911.81;

(i) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 3 days after the day upon which he is required to perform such acts, has not made: (1) Reports pursuant to §§ 911.30 and 911.31; or (2) payments pursuant to §§ 911.80 through 911.86;

(j) On or before the 15th day after the end of each delivery period, report to each cooperative association which so requests the amount and class utilization of milk caused to be delivered by such cooperative association, either directly or from producers who are members of such cooperative association, to each handler to whom the cooperative association sells milk. For the purpose of this report, the milk caused to be so delivered by a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class; and

(k) Prepare and disseminate publicly such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 911.30 *Delivery period reports of receipts and utilization.* On or before the 7th day after the end of each delivery period each handler shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of Grade A and Nongrade A skim milk and butterfat contained in all receipts at his pool plant(s) within such delivery period (1) of producer milk, (2) from other handlers, (3) of other source milk, and (4) from handlers as defined under Orders Nos. 3, 16, and 77;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section; and

(c) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 911.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows:

(a) On or before the 20th day after the end of each delivery period his producer payroll for such delivery period, which shall show:

(1) The total pounds of milk received from each producer or cooperative association, with the average butterfat test thereof, and

(2) The net amount of such handler's payment to each producer or cooperative association, together with the price, deductions, and charges involved.

§ 911.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, all accounts and records of his operations and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat;

(b) The weights, samples, and tests for butterfat and for other content of all milk, skim milk, cream, and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk

product on hand at the beginning and end of each delivery period.

§ 911.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the books and records are no longer necessary in connection therewith.

CLASSIFICATION

§ 911.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the delivery period by a handler and which is required to be reported pursuant to §§ 911.30 or 911.62 (a) shall be classified by the market administrator pursuant to the provisions of §§ 911.41 through 911.46.

§ 911.41 *Classes of utilization.* Subject to the conditions set forth in §§ 911.42 and 911.43 the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, milk drinks (whether plain or flavored), cream (including sour cream), any mixture of cream and milk, or skim milk (except bulk ice cream mix, eggnog, and reddiwip, instant whip, super whip, and similar products), and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat accounted for (1) as having been used or disposed of in any product other than those specified in paragraph (a) of this section; (2) as disposed of for livestock feed; (3) in actual plant shrinkage of skim milk and butterfat received in producer milk, but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively; and (4) in actual plant shrinkage of skim milk and butterfat in other source milk received: *Provided*, That if milk from more than one source (Grade A producer milk, Nongrade A producer milk, and other source milk) is received at a pool plant during the same delivery period the shrinkage of skim milk and butterfat, respectively, allocated to each source shall be computed pro rata according to the proportions of the volumes of skim milk and butterfat, respectively, received from such sources to their totals.

§ 911.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk, unless the handler who first received such skim milk and butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

(b) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 911.43 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a pool plant of another handler (except a producer-handler) unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the delivery period within which such transaction occurred, but in no event shall the amount classified in Class II exceed the total use in such class by the transferee-handler: *Provided*, That if either or both handlers have received other source milk, such milk so disposed of shall be classified at both plants so as to return the higher available class utilization to producer milk: *And provided further*, That if either or both handlers have received Grade A producer milk, such milk so disposed of shall be classified at both plants so as to return the higher available class utilization to Grade A producer milk.

(b) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk, except as provided in paragraphs (d) and (e) of this section, if transferred or diverted in the form of milk, skim milk, or cream to a nonpool plant (other than that of a producer-handler) unless:

(1) The handler claims Class II on the basis of a utilization mutually indicated in writing to the market administrator by both the operator of the nonpool plant and the handler on or before the 7th day after the end of the delivery period within which such transfer occurred.

(2) The operator of the nonpool plant maintains books and records showing utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and

(3) Not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant in the use indicated in such statement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I milk.

(d) As Class I milk if transferred or diverted in the form of milk or skim milk to a nonpool plant located 150 miles or more airline distance from the City Hall in St. Louis, Missouri.

(e) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream which was received in the form of milk from Grade A producers to a pool plant as defined under Order No. 16, regulating the handling of milk in the Southern Illinois, marketing area, unless utilization in Class II is mutually indicated in writing to the market administrator by both the handler and the operator of the transferee-plant on or before the 7th day after the end of the delivery period within which such transaction occurred, but in no event shall the amount classified in Class II exceed the total use in such class by the transferee-plant: *Provided*, That if such milk, skim milk, or cream is classified under the provisions of such other order in a class other than the class mutually indicated in writing such milk, skim milk, or cream shall be classified in the class as determined by the provisions of such other order.

§ 911.44 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 911.45 *Allocation of skim milk and butterfat classified.* The pounds of skim milk and butterfat remaining in each class after making the following computations for each handler for each delivery period shall be the pounds of skim milk and butterfat in such class allocated to producer milk received by such handler during such delivery period;

(a) Skim milk shall be allocated as follows:

(1) Subtract from the pounds of skim milk in each class the total pounds of skim milk received by such handler in milk from producers as defined under Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area and assigned to such class pursuant to the provisions of such order;

(2) Subtract from the total pounds of skim milk in Class II the plant shrinkage of skim milk in milk received from producers computed pursuant to § 911.41 (b) (3);

(3) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk;

(4) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from other handlers and assigned to such class pursuant to § 911.43 (a);

(5) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (2) of this paragraph; or if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II.

(b) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

§ 911.46 *Allocation of producer milk classified.* For each delivery period the market administrator shall allocate the pounds of skim milk and butterfat in each class for each handler computed pursuant to § 911.45 to Grade A producer milk and to Nongrade A producer milk received by such handler during such delivery period.

(a) Skim milk shall be allocated as follows:

(1) Allocate to Class II skim milk the plant shrinkage of skim milk in Grade A producer milk computed pursuant to § 911.41 (b) (3);

(2) Allocate the remaining pounds of skim milk in Grade A producer milk in series beginning with Class I;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from sources defined in § 911.14 (b) and (c) and assigned to such class pursuant to the applicable provisions of Orders Nos. 3, 16, and 77, regulating the handling of milk in the St. Louis, Missouri, Southern Illinois, and Paducah, Kentucky, marketing areas, respectively;

(4) The pounds of skim milk remaining in each class shall be the pounds of skim milk in such class allocated to Nongrade A producer milk received by such handler during such delivery period.

(b) Butterfat shall be allocated in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to Grade A producer milk in each class, respectively, and the pounds of skim milk and the pounds of butterfat allocated to Nongrade A producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in Grade A producer milk and Nongrade A producer milk, respectively, in each class.

MINIMUM PRICES

§ 911.50 *Class prices.* Subject to the provisions of §§ 911.51 and 911.52 each handler shall pay producers at the time and in the manner set forth in §§ 911.80 through 911.86 not less than the following prices per hundredweight of milk:

(a) *Class I milk*—(1) *Grade A.* The price for Grade A Class I milk shall be the basic formula price computed in accordance with the pricing provisions of Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, plus the following amounts per hundredweight: $1.35 for the delivery periods of July through December; $0.90 for the delivery periods of January through March; and $0.50 for the delivery periods of April through June.

(2) *Nongrade A.* The price for Nongrade A Class I milk shall be the price computed for Grade A milk pursuant to subparagraph (1) of this paragraph, less 40 cents.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price computed in accordance with the pricing provisions of Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, except that for the delivery periods of April, May, June, and July 1951 the price for Class II milk shall be such basic formula price less 15 cents.

§ 911.51 *Butterfat differentials to handlers.* If the weighted average butterfat test of Grade A producer milk or Nongrade A producer milk, respectively, classified in Class I milk or Class II milk for a handler pursuant to § 911.46 (c) is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the appropriate class price for such grade of milk, for each one-tenth of one percent that such weighted average butterfat test of milk in such class is above or below 3.5 percent, a butterfat differential calculated as follows:

(a) *Class I milk*—(1) *Grade A.* Multiply by 1.25 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, and divide the result by 10.

(2) *Nongrade A.* Multiply by 1.22 the average price of butter described in subparagraph (1) of this paragraph, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.20 the average price of butter described in paragraph (a) (1) of this section, and divide the result by 10.

§ 911.52 *Location differential to handlers.* With respect to skim milk and butterfat contained in milk which is received from producers at a pool plant located outside of the St. Louis, Missouri, marketing area, as defined in Order No. 3, as amended, and which is classified as Class I milk, a handler shall be allowed the amount per hundredweight set forth in the schedule below for the airline distance from the City Hall at St. Louis, Missouri, to the pool plant where such milk was received from producers: *Provided*, That such an allowance shall not result in a Class I price, f. o. b. pool plant, which is less than the Class II price computed pursuant to § 911.50 (b):

Distance from the City Hall at St. Louis, Mo.	Amount per hundredweight (cents)
Not more than 10 miles	6
More than 10 but not more than 20 miles	12
More than 20 but not more than 30 miles	14
More than 30 but not more than 40 miles	16
Within each 10-mile zone thereafter—an additional 1 cent.	

APPLICATION OF PROVISIONS

§ 911.60 *Producer-handlers.* Sections 911.30, 911.31, 911.40 through 911.46, 911.50 through 911.52, 911.70, 911.71, and 911.80 through 911.88 shall not apply to a producer-handler, except that such producer-handler shall make reports of his receipts and utilization to the market administrator at such time and in such manner as the market administrator may request.

§ 911.61 *Pool plants subject to other orders.* In the case of any pool plant which is subject to the regulatory provisions of another milk marketing agreement or order (other than Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area) issued pursuant to the act and which the Secretary determines disposes of a greater volume of its Class I milk in the marketing area as defined by such other agreement or order than is disposed of in the marketing area as defined by this part, §§ 911.30, 911.31, 911.50 through 911.52, 911.70, 911.71, and 911.80 through 911.88 shall not apply, except that the operator of such pool plant shall make reports to the market administrator, with respect to his total receipts and utilization of skim milk and butterfat, at such time and in such manner as the market administrator may require.

§ 911.62 *Handlers operating nonpool plants.* Sections 911.30, 911.31, 911.50 through 911.52, 911.60, 911.70, 911,71, 911.80 through 911.85, 911.87, and 911.88 shall not apply to a handler in his capacity as the operator of a nonpool plant described in § 911.10 (c), except that such handler shall:

(a) Make reports to the market administrator, with respect to his total receipts and utilization of skim milk and butterfat, at such time and in such manner as the market administrator may request;

(b) Pay to the market administrator, on or before the 13th day after the end of each delivery period, for deposit in the producer-settlement fund an amount of money computed by multiplying the quantity of Class I milk disposed of in the marketing area during the delivery period by the difference between the price of Class II milk and the price of Class I milk, adjusted for the differentials set forth in §§ 911.51 and 911.52, for the highest grade of milk received in such plant in a quantity equivalent to the quantity of Class I milk so disposed of; and

(c) Pay to the market administrator, on or before the 15th day after the end of the delivery period, for the expense of administration of this part, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts of milk, from dairy farmers, used to produce products disposed of in the marketing area during the delivery period.

DETERMINATION OF UNIFORM PRICES

§ 911.70 *Computation of value of milk.* The value of Grade A producer milk and of Nongrade A producer milk, respectively received during each delivery period by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices, subject to the differentials set forth in §§ 911.51 and 911.52, and adding together the resulting amounts: *Provided*, That if the handler had an overage of either skim milk or butterfat, such excess as deducted from each class pursuant to § 911.45 (a) (5) or (b) shall be ratably apportioned between the receipts of Grade A and Nongrade A producer milk, and there shall be added to the respective values computed above an amount computed by multiplying the pro rata pounds of such overages by the applicable class prices,

subject to the differentials set forth in §§ 911.51 and 911.52: *And provided further*, That if the handler has received other source milk, other than milk priced under another marketing agreement or order issued pursuant to the act, during the delivery period, which is allocated to Class I milk pursuant to paragraph (a) (3) or (b) of § 911.45, an amount computed by multiplying the quantity of such Class I milk by the difference between the applicable price, subject to the differentials set forth in §§ 911.51 and 911.52, of Class I milk and Class II milk for the lowest grade of milk received from producers at the plant of such handler, shall be added to the value computed pursuant to this section for the lowest grade of milk.

§ 911.71 *Computation of uniform prices.* For each delivery period the market administrator shall compute separately the uniform prices per hundredweight for Grade A milk and Nongrade A milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into separate totals the values of Grade A milk and Nongrade A milk computed pursuant to § 911.70 for all handlers who made the reports pursuant to § 911.30 for such delivery period, except those in default of payments pursuant to § 911.84 for the preceding delivery period;

(b) Add to the respective values computed pursuant to paragraph (a) of this section the amount of any location adjustment required to be made pursuant to § 911.82 with respect to such milk;

(c) Add amounts representing the cash balances on hand in the respective producer-settlement funds less the total amounts of contingent obligations to handlers pursuant to § 911.85;

(d) Subtract if the weighted average butterfat content of the milk included in the respective computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 911.81 and multiply the respective result by the total hundredweight of such milk represented by the values included in paragraph (a) of this section;

(e) Divide the resulting amounts by the total hundredweight of Grade A and Nongrade A milk, respectively, represented by the values included in paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents from the amounts per hundredweight computed pursuant to paragraph (e) of this section. The resulting figures shall be the uniform prices for Grade A and Nongrade A milk, respectively, of 3.5 percent butterfat content received from producers.

PAYMENTS

§ 911.80 *Time and method of payment for milk.* Each handler shall make payment on or before the 15th day after the end of each delivery period, to each producer or cooperative association for all milk received during such delivery period from such producer or from producers who are members of such cooperative association at not less than the applicable uniform price for such delivery period computed pursuant to § 911.71 subject to the following adjustments: (a) The butterfat differential pursuant to § 911.81; (b) the location differential pursuant to § 911.82; (c) less marketing service deductions pursuant to § 911.87; (d) less deductions authorized by the producer; and (e) any error in calculating payments to such individual producer for past delivery periods: *Provided*, That if by such date such handler has not received full payment for such delivery period for any grade of milk pursuant to § 911.85 he may reduce uniformly per hundredweight for all producers from whom such grade of milk was received his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

§ 911.81 *Producer-butterfat differential.* In making payments pursuant to § 911.80, each handler shall add to or subtract from the applicable uniform price for each one-tenth of one percent that the average butterfat content of the milk received from such producer is above or below 3.5 percent, an amount computed by multiplying the average price of butter described in § 911.51 (a) (1), by 1.20, and dividing the result by 10.

§ 911.82 *Location differential to producers.* In making payments to producers pursuant to § 911.80, each handler shall deduct from the applicable uniform price for such producer with respect to milk received from the producer at a pool plant located outside of the St. Louis, Missouri, marketing area, as defined in Order No. 3, the applicable amounts set forth below for the airline distance from the City Hall at St. Louis, Missouri, to the pool plant where such milk was received from producers:

Distance from the City Hall at St. Louis, Mo.	Amount per hundredweight (cents)
Not more than 10 miles	6
More than 10 but not more than 20 miles	12
More than 20 but not more than 30 miles	14
More than 30 but not more than 40 miles	15
Within each 10-mile zone thereafter—an additional 1 cent.	

§ 911.83 *Producer-settlement funds.* The market administrator shall establish and maintain two separate funds known as the "Grade A producer-settlement fund" and the "Nongrade A producer-settlement fund," respectively, into which he shall deposit all payments made by handlers pursuant to §§ 911.62, 911.84, and 911.86 and out of which he shall make all payments to handlers pursuant to §§ 911.85 and 911.86: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 911.84 *Payments to the producer-settlement funds.* On or before the 13th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the utilization value of the respective grade of milk received from producer by such handler during the delivery period as computed pursuant to § 911.70 is greater than an amount computed by multiplying the hundredweight of milk received from such producers by the applicable uniform price adjusted by the butterfat differential provided for in § 911.81 and the location differential provided for in § 911.82.

§ 911.85 *Payments out of the producer-settlement funds.* On or before the 14th day after the end of each delivery period, the market administrator shall pay to each handler the amount, if any, by which the utilization value of the respective grade of milk received from producers by such handler during the delivery period as computed pursuant to § 911.70 is less than an amount computed by multiplying the hundredweight of milk received from such producers by the applicable uniform price adjusted by the butterfat differential provided for in § 911.81 and the location differential provided for in § 911.82: *Provided*, That if the balance in such producer-settlement fund is insufficient to make all payments with respect to such grade of milk pursuant to this section the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 911.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provision under which such error occurred.

§ 911.87 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 911.80 shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers during the delivery period and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from, and to provide market information to, such producers. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Deductions with respect to members of a cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and on or before the 15th day after the end of such delivery period shall pay such deductions to the cooperative association rendering such services.

§ 911.88 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of the delivery period, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts at his pool plant within the delivery period of milk from producers, including such handler's own production: *Provided*, That each cooperative association which is a handler shall also pay such pro rata expense on that milk from producers which it causes to be diverted from a pool plant to a nonpool plant for the account of such association.

§ 911.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 911.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 911.91.

§ 911.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 911.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 911.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 911.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 911.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[Docket No. AO–217]

HANDLING OF MILK IN SUBURBAN ST. LOUIS, MO., MARKETING AREA

ORDER OF SECRETARY DIRECTING THAT A REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION THAT MONTH OF OCTOBER 1950 IS A REPRESENTATIVE PERIOD; AND DESIGNATION OF AN AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c(19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c(19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area) who, during the month of October 1950, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.[1]

The month of October 1950 is hereby determined to be a representative period for the conduct of such referendum.

Fred L. Shipley is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

Done at Washington, D. C., this 3d day of January 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[7 CFR, Part 916]

HANDLING OF MILK IN SOUTHERN ILLINOIS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of

1937, as amended (7 U. S. C. 601 et seq.), and the aplicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Murphysboro, Illinois, on March 7 to 11, 1950, inclusive, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 800).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on October 27, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on November 1, 1950 (15 F. R. 7327). The closing date for filing exceptions was November 21, 1950.

The material issues considered at the hearing were concerned with the following:

A. Whether the handling of milk in the Southern Illinois marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk or its products;

B. Whether marketing conditions justify the issuance of a marketing agreement or order regulating the handling of milk in the Southern Illinois marketing area; and

C. If issuance of such an agreement or order is justified, what its provisions should be.

The evidence on this last issue involved the following:

(1) The extent of the marketing area;

(2) The definition of "producer," "handler," "pool plant," "other source milk," and other terms;

(3) The classification and allocation of milk;

(4) The determination and level of class prices;

(5) Payments to producers;

(6) Administrative provisions necessary to carry out the foregoing provisions.

Rulings on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing, it is hereby found and concluded that:

(A) The handling of milk produced for the Southern Illinois marketing area is in the current of interstate commerce and directly burdens, obstructs, or affects interstate commerce in milk and its products.

Southern Illinois handlers purchase much of their milk supply in surrounding Illinois counties in competition with St. Louis, Missouri (Order No. 3), handlers who also obtain supplies from Missouri and Arkansas and who dispose of such milk in fluid uses in St. Louis and the surrounding area in both Missouri and Illinois. Milk purchased and bottled in Indiana, Kentucky, and Missouri is distributed in the proposed marketing area in direct competition with locally produced and bottled milk. Prairie Farms Creamery of Carbondale, the largest handler in the area, disposes of approximately 50 percent of its fluid receipts in manufactured uses in addition to large volumes of sour cream similarly disposed of. At least 45 percent of its plant receipts are disposed of as butter, cream, condensed products, and nonfat dry milk solids throughout the southeastern states on regular wholesale routes and from company operated trucks. Surplus butterfat is regularly obtained from Nashville, Memphis, and Dyersburg, Tennessee, and processed into creamery butter and sold throughout the southeastern states. Ice cream manufactured in St. Louis, Missouri, from ingredients purchased on the open market is sold in Southern Illinois in competition with ice cream manufactured from locally produced milk by local handlers.

From the foregoing it is clear that a substantial volume of the milk in the Southern Illinois market is moved physically in interstate commerce in the form of milk, cream, and manufactured dairy products, and that the handling of milk in the market directly burdens, obstructs, and affects interstate commerce in milk and its products.

(B) Milk marketing conditions in the Southern Illinois market justify the issuance of a marketing agreement and order.

Producers on the Southern Illinois market are not being paid for their milk on a use basis and there is no uniform pricing plan as among the several handlers with the result that producer prices for milk of similar quality and use vary substantially. Producers generally are not being returned a price for their milk used for fluid purposes which is significantly different from prevailing condensery prices.

Prairie Farms Creamery of Carbondale, Illinois, a cooperative association of producers and the largest handler in the market supplies distributors who handle approximately 50 percent of the fluid milk sales in the market with all of their milk requirements, but does not itself bottle or distribute on retail routes. It does, however, represent the primary surplus outlet for the market and the greater part of the producer milk not needed for fluid uses is processed through this plant. As a result approximately 50 percent of Prairie Farms Creamery's whole milk receipts are actually utilized in other than fluid uses whereas the combined utilization of other handlers, excluding those wholly supplied by Prairie Farms, is 90 percent in fluid uses and 10 percent in other uses. Notwithstanding, the record shows no significant differences between the pay prices of Prairie Farms and those of other receiving handlers in the market. Under these circumstances it is obvious that producers are not being paid for their milk on a use basis and the record indicates that the prices which have been paid to producers are substantially lower than appears economically justified. Unless prices paid for milk for fluid uses reflect the added costs of producing such milk as compared to milk for manufacturing uses it is inevitable that in the long run serious market shortages will result and that prices higher than would otherwise be warranted will prevail.

At the present time the market information necessary to enable producers to effectively bargain with handlers in the sale of their milk is not available. Data are completely inadequate with reference to prices paid, plant receipts, and plant utilization. The issuance of a marketing order will provide the medium for developing the market information necessary for efficient marketing of producer milk and will enable producers to participate more actively and effectively in improving marketing conditions. In addition, the proposed order will provide a pricing structure which will return to producers a value for their milk which is appropriately related to market supply and demand conditions and to an adequate long-run supply of pure and wholesome milk in the market.

(C) From the evidence, it is concluded that the proposed marketing agreement and order which are hereinafter set forth and all of the terms and conditions thereof, meet the needs of the Southern Illinois market and will tend to effectuate the declared policy of the act. The following findings and conclusions are made with respect to the several provisions of the proposed marketing agreement and order:

(1) *Extent of the marketing area.* The marketing area should be defined to include the Counties of Randolph, Perry, Franklin, Jackson, Williamson, Saline, Union, Johnson, Pope, Hardin, Alexander, Pulaski, and Massac, all in the State of Illinois.

Proponents proposed that the marketing area also include the territory within Hamilton County. They contend that the area which they proposed is a compact area of similar agriculture, climate, topography, soil fertility, industrial development, and population pattern and represents the smallest practical area of regulation.

Handlers proposed that the area be limited to Perry, Jackson, Union, Franklin, Williamson, and Saline Counties, contending that this area contains 63 percent of the population and 71 percent of the effective buying power in the producers' proposed 14 county area. They further contend that Pope, Hamilton, Massac, and Hardin Counties are small and barren with respect to business opportunities and that the southern tip of the 14 county area which embraces Alexander and Pulaski Counties is a different trading area separated from the balance of the area by hill country.

The area herein decided upon is a relatively homogeneous market bounded by natural water boundaries on the west and south and limited on the east and north by operations of large distributors who under any further extension of the area to include additional territory as proposed at the hearing would become handlers under this proposed order while having a preponderance of their business outside the marketing area. The area as herein proposed represents the principal area covered by handlers to whom Prairie Farms Creamery of Carbondale supplies milk. The limiting of the area to that proposed by the handlers could leave unregulated certain handlers in Cape Girardeau, Metropolis, and Chester, each of whom does substantial business in competition with handlers regulated because of their distribution in other parts of the area. To so limit the area could also tend to create inequities by excluding from the area of regulation the State Penitentiary which represents a substantial outlet for fluid milk, supply contracts for which are awarded on a bid basis.

(2) *Definitions.* A definition of "pool plant" is necessary to establish which dairy farmers are to participate in the market pool. It is intended that any producer who is delivering milk to a plant which is a regular supplier of milk for Class I use should be included in the pool.

In many instances the local health authority is relied upon to define the regular source of supply for the market. Accordingly, the designation of a pool plant is usually dependent upon the receipt of milk from dairy farms holding farm inspection permits issued by the local health authority. Plants handling only milk from other sources but which are permitted by the local health authority to supply Class I milk to the market on an emergency basis are not considered as a regular source of supply and are not regulated under an order.

In the marketing area as herein proposed the health regulations cannot be used to define generally the regular source of supply for the market. It is, therefore, necessary to devise other means of designating the type of plant operations which are to be regulated. It is concluded that all plants distributing 10 percent or more of the Class I milk in such plant on routes in the area and all other plants regularly supplying milk to plants distributing Class I in the area should be designated as pool plants. Accordingly, any plant distributing Class I milk in the marketing area during the delivery period in a quantity equivalent to 10 percent or more of the Class I milk in such plant, is designated a pool plant. The exemption of a distributing plant from which less than 10 percent of the Class I milk in such plant is disposed of on routes in the marketing area is necessary in this market, as pointed out in the exceptions of producers and handlers, to eliminate the influence on returns to producers caused by distributors who are causally associated with the marketing area and to prevent undue hardship upon such distributors in applying the provisions of the proposed order to the total supply of milk of such handlers who are, in fact, more closely associated with other markets. In order to prevent disorderly marketing, however, such distributors should be required to pay into the producer-settlement fund the difference between the Class I and the Class II price of such milk disposed of in the marketing area. Furthermore, such distributor also should be required to pay to the market administrator the administrative assessment on the quantity of Class I milk and Class II milk received from dairy farmers and disposed of in the marketing area, to make reports to the market administrator, and to keep books and records of his receipts and utilization and permit verification thereof.

Any plant which is used in the receipt of milk and from which milk is regularly disposed of to a distributing plant is also designated as a pool plant. Both handlers and producers contended in their exceptions to the recommended decision of the Assistant Administrator, Production and Marketing Administration that the definition of such plant permitted the pooling of plants which were not regular suppliers of milk. In order to assure that only those plants which are regularly associated with the market will be pooled, the definition as contained in the proposed order is revised. Provision is made for the pooling of such plants beginning with the third delivery period within which such plant supplies 10 percent or more of its receipts from dairy farmers and conditioned upon the filing of written application to the market administrator for pool plant status. This provision will make it possible for plants to supply milk on an emergency basis without being subject to the regulatory provisions of the order. In order to permit stand-by plants to keep milk in the country during the flush production months and continue to share in the pool, it is provided that any plant which met the requirements for pooling during each of the delivery periods of October through February shall be pooled during the subsequent delivery periods of March through September; however, to pool the following October such plant must have met the 10 percent requirement during the delivery periods of August and September.

There is at present a large manufacturing plant located within the marketing area and operated by a cooperative association. This plant furnishes the total fluid requirements of several handlers who distribute a combined total of approximately 50 percent of the Class I business in the marketing area. It also represents the primary outlet for the surplus milk of the area and in the past has handled the bulk of the surplus for the market. As long as this plant maintains its association with the fluid milk market it should retain pool plant status.

Any milk distributing or processing plant excluded under any of the conditions described above is defined as a "nonpool plant."

The term "producer" should be defined as any person, except a producer-handler, who produces milk which is received at a pool plant, or is diverted from a pool plant to any milk distributing or manufacturing plant. The definition of such term facilitates the designation of the milk which is to be subject to the pricing provisions of the order. Since the order applies to deliveries of whole milk by producers it is not intended that a person be considered a producer with reference to skim milk or butterfat which he delivers to a pool plant in the form of sweet or sour cream. In order to eliminate possible conflicts between this order and other orders regulating the handling of milk in adjacent areas a person should not qualify as a producer under two orders on the same milk. Accordingly, it is provided that a person who is a producer under the provisions of another milk marketing order issued under the act shall not be a producer for the same milk under the terms of this order.

Milk disposed of as fluid milk in the marketing area may be approved Grade A under the Illinois Grade A law of Nongrade A milk which is not regulated by an ordinance of the State or any local health authority. Separate pooling and pricing is proposed for Grade A milk and for Nongrade A milk. Accordingly, producers are defined as either Grade A producers or Nongrade A producers.

The term "handler" should include a producer-handler and any person in his capacity as operator of a pool plant. A definition of handler is necessary in order to specify the types of processors and distributors who are to be subject to regulation. Milk diverted from a pool plant to a nonpool plant for the account of the handler is considered to have been received at the pool plant since producers of such milk would ordinarily be regular suppliers of the market and as such should be assured the market blend price for their milk. The term should also include any cooperative association of producers which might divert producer milk for the account of such association. The inclusion in the definition of a cooperative association, even though it might not operate a plant, will promote efficient utilization of producer milk in the highest available use class since such an arrangement will permit the cooperative association to divert milk for Class I uses which might otherwise be used by proprietary handlers in Class II. The definition should also include the operator of a distributing plant from which less than 10 percent of the Class I milk in such plant is disposed of on routes in the marketing area. This is necessary in order to obtain reports and require payments to the producer-settlement fund and the administrative fund.

"Other source milk" should be defined to include all skim milk and butterfat from a producer-handler or from a source other than producers or other handlers. However, nonfluid milk products received and disposed of in the same form should be excepted. Furthermore, receipts of Grade A producer milk from handlers as defined under Orders Nos. 3, 11, and 77, regulating the handling of milk in the St. Louis, Missouri, Suburban St. Louis, and Paducah, Kentucky, marketing areas should be excluded. This in in keeping with the transfer and allocation provisions which permit interchange of Grade A supplies between such markets. Since producer-handlers normally dispose of their milk during most of the year in Class I products and since sales of Class I milk by these handlers would not be pooled the pooling of any surplus milk purchased by handlers from producer-handlers would result in a preferential market for producer-handlers as compared with regular producers. Milk purchased from pro-

ducer-handlers should be treated therefore as other source milk and would be unpriced under this proposed order. Nonfluid milk products received and disposed of in the same form are not included as other source milk because they would not affect the classification of producer milk.

The terms "act," "person," "Secretary," "Department," "cooperative association," and "delivery period" are defined in order to facilitate the drafting of other provisions of the order. These terms are common to Federal milk marketing orders issued pursuant to the act and no differences developed at the hearing regarding their definition.

(3) *Classification and allocation of milk.* The classification of milk should be as follows: Class I milk should include all skim milk and butterfat disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, milk drinks (both plain and flavored), cream (including sour cream), any mixture of cream and milk or skim milk (except bulk ice cream mix, eggnog, and reddi-wip, instant whip, super whip, and similar products), and all skim milk and butterfat not specifically accounted for as Class II milk. Class II milk should include all skim milk and butterfat used to produce any product other than those specified in Class I, disposed of for livestock feed, in actual plant shrinkage of skim milk and butterfat received in producer milk (but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively), and actual plant shrinkage of skim milk and butterfat, respectively, in other source milk received.

Producers proposed a three-class classification scheme which would divide Class II as outlined above, placing skim milk and butterfat utilized in ice cream, ice cream mix, and evaporated milk in hermetically sealed cans in a separate class priced above milk disposed of in other manufactured products. Handlers on the other hand, while also proposing three classes, would divide Class I as outlined above, placing skim milk and butterfat disposed of as fluid cream and cream mixtures containing not less than 6 percent butterfat in a separate class priced lower than milk disposed of in other fluid products.

The products to be classified as Class I are those normally associated with a fluid milk business, and are all disposed of in the marketing area in fluid form through the same retail and wholesale channels as bottled fluid milk. Their physical characteristics, purposes, values, and uses are more nearly similar to those of fluid milk than to the products to be classified as Class II and they are normally made from a higher quality of milk than that disposed of in manufactured products. Skim milk and butterfat contained in cream and cream mixtures is subject to the same production costs as milk for other fluid uses. Furthermore, milk so utilized is the same quality of milk as is disposed of in other Class I products and is subject to the same transportation costs in moving from the farm to the handler's plant.

The products to be classified in Class II are those which normally are competitively priced on a national market. It is necessary that a lower pricing be provided for milk so utilized in order to assure free movement of excess supplies into manufacturing channels without burdensome competitive disadvantages to affected handlers.

The classification of skim milk and butterfat disposed of in ice cream, ice cream mix, and evaporated milk, in hermetically sealed cans in a separate class priced somewhat above milk disposed of in other manufactured products could result in serious inequities to local handlers. Much of the ice cream disposed of within the marketing area and in the surrounding territory is handled by distributors who would not be handlers under this proposed order and who consequently would not be regulated as to prices paid. Their skim milk and butterfat requirements are purchased competitively on a national market. Furthermore, the milk so utilized for sale in the proposed marketing area is not subject to any particular health requirements.

Producers proposed a 2 percent maximum shrinkage allowance in the lowest use class, the same as under the St. Louis, Missouri, marketing order. Handlers did not contest a 2 percent allowance on butterfat but argued for a 5 percent allowance on skim milk contending that such an allowance was needed to take care of necessary dumpage of skim milk including route returns. Losses through unusable route returns are a normal business risk which the handlers should not expect the producer to assume. The record indicates that there are ample manufacturing facilities in the area for disposal of all excess skim milk and butterfat and it is not believed that the dumping of any significant volume of either skim milk or butterfat should be necessary. A maximum allowable shrinkage of 2 percent on producer milk should be included in Class II. Any shrinkage in excess of that amount should be classified as Class I. No limit is provided for shrinkage of other source milk allowed in Class II since such milk is deducted from the lowest use class under the allocation provisions.

It is not administratively feasible to segregate the actual plant shrinkage on producer milk from shrinkage on other source milk in the same plant. Consequently, in such cases, the shrinkage of skim milk and butterfat, respectively, allocated to Grade A producer milk, Nongrade A producer milk, and other source milk should be computed pro rata according to the proportions of the volumes of skim milk and butterfat, respectively, received from such sources.

In establishing the classification of milk the responsibility should be placed upon the handler who first receives milk from producers to account for all skim milk and butterfat received at his pool plant and to prove to the market administrator that such skim milk and butterfat should be classified as other than Class I. The handler who first receives milk from producers is responsible for reporting the proper utilization of such milk and making full payment for it. He must therefore maintain records to furnish adequate proof of utilization to the market administrator. For the protection of both producers and handlers skim milk or butterfat classified in one class should be reclassified if used or reused by such handler or by another handler in another class.

Provision should be made in the order to cover the classification of skim milk and butterfat transferred from a pool plant to another pool plant or to a nonpool plant. In the case of transfers between pool plants classification should be on the basis of written agreement between the affected handlers to the extent of utilization in the agreed use in the transferee plant. This provision affords suitable flexibility in the pricing, classification, and accounting for of milk transferred. It does not affect producer returns because all of the milk is accounted for in the pool computation in any event. In order to assure adequate protection of producers in the classification of their milk it should be provided that in case other source milk is received in either or both plants the classification of milk in each plant shall be made in such a manner as will return the higher class utilization to producer milk. The allocation provisions as hereinafter proposed give priority to Grade A producer milk over Nongrade A producer milk. Accordingly, it should be further provided that when Grade A producer milk is received at either plant involved in an interhandler transfer the milk so disposed of shall be classified at both plants to return the higher class utilization to Grade A producer milk.

Transfers to a producer-handler should be classified as Class I milk. Producer-handlers ordinarily carry on only fluid operations. Any milk which they purchase from a handler would normally be for fluid uses and it is unnecessary to provide for the classification of such a transfer in a lower use class.

Transfers to a nonpool plant, except in the case of transfers of milk or skim milk to a plant located 110 miles or more airline distance from the marketing area, should be classified on the basis of written agreement in the same manner as outlined for interhandler transfers. This would facilitate the movement of skim milk and butterfat in excess of Class I needs and at the same time protect producers in the classification of milk by requiring adequate records to prove to the market administrator that an equivalent amount of skim milk and butterfat was actually used in the claimed class.

Transfers of milk or skim milk to a nonpool plant located 110 miles or more airline distance from the nearest point of the marketing area should be classified as Class I. Ordinarily such transfers for distances of as much as 110 miles cannot economically be made for manufacturing uses. There are numerous plants with manufacturing facilities within the 110 mile zone. Under these circumstances it should not be necessary to move milk or skim milk great distances in order to find a surplus outlet. The limitation on distance within which such transfers are permitted as other than Class I will simplify the job of the market administrator in the classification of milk, save considerable expense

which would otherwise be necessary to check utilization in distant plants, and affords protection for producers in the classification of their milk.

The allocation provisions should provide that other source milk, which is unpriced, be allocated to the lowest use in the handler's plant. This is done to prevent other source milk from displacing the milk of producers which constitute the regular supply of the market. In the allocation of producer milk, Grade A milk should be assigned the highest utilization. A handler customarily utilizes the highest quality milk in his plant for fluid purposes and hence the assignment of this milk to the highest class is consistent with the preferential use given to this milk by handlers.

Both producers and handlers took exception to the Assistant Administrator's recommended decision in that it did not provide for free transfer of milk between the St. Louis, Missouri, Southern Illinois, Paducah, Kentucky, and Suburban St. Louis, Missouri markets. By reason of the close association between handlers subject to the orders regulating the handling of milk in these markets and the overlapping of sales routes of such handlers there should be no obstruction to the free flow of milk between these markets to the end that producers of like grades of milk in all of these markets may be assured of the highest possible Class I utilization at all times and so that handlers will be relieved insofar as possible of the uncertainty of the classification of milk transferred to handlers in the other markets. It is concluded that transfers should be permited on the basis of written agreement between the transferor and the transferee so long as such transfers do not replace Class I sales allocated to the receipts from Grade A producers in the transferee-plant.

Handlers proposed that Class II utilization in an amount not to exceed 5 percent of producer receipts be allocated to producer receipts. While such a provision is contained in the St. Louis order the need for such a provision was not established in this record. An ample supply of producer milk is available in the Southern Illinois market. Any temporary shortage would be the result of an erroneous decision on the part of handlers as to the quantity of regular milk which they procure. Producers should not be required to share the cost of importing other source milk for an individual handler to alleviate a shortage resulting from his own erroneous decision.

(4) *Class prices.* Class I milk prices should be determined by using the basic formula price as computed under the pricing provisions of Order No. 3, as amended, and adding specified differentials.

Both producers and handlers proposed that the Southern Illinois Class I price be related to the St. Louis (Order No. 3) price in recogntion of the direct competition between the two markets for milk supplies. While producers proposed the use of differentials in pricing Grade A milk under this order which would result in prices approximating those established under the St. Louis Order, it appears that a greater investment is necessary to provide facilities to meet the requirements for the production of milk qualified for the St. Louis market, and that greater day-to-day costs must be incurred in the care of cows and equipment and in the production of milk under the St. Louis ordinance. The use of the same basic formula price will maintain a direct relationship in prices between the two markets. However, in recognition of the lower production costs incurred in the production of Illinois Grade A milk as compared to milk produced for the St. Louis market, the Illinois Grade A milk should be priced somewhat below the prices specified in the St. Louis Order. Accordingly, it is concluded that differentials of $1.35 for the delivery periods of July through December, $0.90 for the delivery periods of January through March, and $0.50 for the delivery periods of April through June should be added to the basic formula price to establish the level of prices for Grade A milk disposed of in Class I. The resulting prices will average approximately $0.15 under the St. Louis price on an annual basis but would carry a substantially greater seasonality which is needed to promote a more uniform pattern of milk production consistent with the demand pattern for milk for Class I use in the marketing area.

Nongrade A Class I milk should be priced 40 cents under the Grade A price. The resulting prices for Nongrade A Class I milk will vary seasonally from 10 cents over the basic formula price during the months of April through June to 95 cents over the basic formula price during the months of July through December. These differentials are designed to cover the extra costs of producing the quality of milk required by handlers for bottling purposes and the additional transportation costs in delivering milk to the fluid milk market, to promote a more uniform seasonal production pattern, and to assure an adequate supply of quality milk over a period of time.

The Class I prices herein proposed would have returned producers of Grade A milk an average price of $4.15 per hundredweight, during the year of 1949, which was approximately the price received by such producers during this period.

Producers proposed a supply-demand adjustment factor for inclusion in the Class I price formula. However, the effective date of such a provision should be delayed until a reasonable period has elapsed to determine the effect of the pricing herein proposed. Moreover, at the present time there are no available data on the volume of Class I sales in the marketing area or on the month-to-month production of producer milk. Such data are necessary to determine the volume of milk needed to supply Class I needs of the market during all seasons of the year. If at a later time a supply-demand adjustment factor still appears desirable further consideration can be given when more complete data on production and Class I sales are available.

The price for Class II milk should be the basic formula price as computed under the pricing provisions of Order No. 3, as amended, except that for the months of April through July 1951 the price for Class II milk should be such basic formula price less 15 cents.

Such a pricing, which is based upon the higher of the prices paid by the 23 condenseries or a butter-powder formula, maintains a direct relationship between surplus prices under the St. Louis marketing order and this order. The St. Louis market obtains its supplies of milk from an area which encompasses a portion of the Southern Illinois supply area and the disposition of surplus milk in both areas is substantially in the same uses. The prices for surplus milk under both the St. Louis Order and this order should, therefore, be substantially the same, however, in view of the lack of information regarding the utilization of milk and the facilities for handling surplus milk by certain handlers, such price should be reduced 15 cents for the months of April through July 1951. This will assure a market for producer milk for the flush production of 1951 and will permit further study of the problem when more data are available.

The price computed for each class on the basis of milk containing 3.5 percent butterfat should be adjusted to reflect the weighted average butterfat content of the several products classified in the respective classes. The Class I Grade A differential should be 1.25 times the price of 92-score butter at Chicago and the Class I Nongrade A differential should be 1.22 times the price of 92-score butter at Chicago. The Class II differential should be 1.20 times the price of 92-score butter at Chicago. A Class I Grade A differential of 1.25 prices Grade A butterfat at the same level as that under Order No. 3 which is the nearest supplemental supply of Grade A butterfat. A Class I Nongrade A differential of 1.22 reflects the higher-valued use of butterfat for fluid uses as compared to manufactured uses. A Class II differential of 1.20 reflects the general value of butterfat for manufacturing uses. These differentials as herein proposed appear to provide an appropriate division of the price between skim milk and butterfat and should encourage the maximum utilization of producer butterfat.

The pricing of Class I milk on the basis of an f. o. b. marketing area price adjusted by a location allowance in case of milk received at a pool plant located beyond the limits of the marketing area is in accord with handlers' proposal for the inclusion of a location differential. A location differential is necessary to reflect the different values of milk delivered at different distances from the market. The allowance also takes into consideration the necessity for maintaining country receiving facilities for milk delivered at points outside of the marketing area.

(5) *Payments to producers.* The "market-wide" type of pool should be established in this order for the purpose of distributing among producers returns from the sale of their milk. Under the market-wide pooling arrangement all producers receive the same uniform price for their milk irrespective of the utiliza-

tion made of such milk by the handlers to whom they sell.

The alternative to the market-wide pool is individual-handler pools. Under the latter system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. Prairie Farms Creamery of Carbondale, a cooperative association and a handler in the market, represents the principal outlet for surplus milk in the market and under an individual-handler pool the price paid by Prairie Farms probably would be less than prices paid by other handlers despite the fact that producers at Prairie Farms delivered the same quality milk and their production is readily available for the market. A market-wide pooling arrangement would provide for equal prices for milk of equal quality delivered for sale in the marketing area.

Under market-wide pooling two separate producer settlement funds for making adjustments in payments as among handlers will be set up. One fund will be for Grade A milk, the other will be for Nongrade A milk. All handlers will pay producers of the same grade of milk the same uniform price per hundredweight, and each handler will pay into or draw from the producer-settlement fund the difference between the actual use value of his milk (as determined by the prices fixed for milk used in each class) and the announced uniform price (the average use value of milk received by all handlers) which he pays to his producers.

In the computation of the value of producer milk, provision should be made for the inclusion of the values of milk classified in excess of reported receipts from producers, handlers, and other sources. Federal milk orders frequently contain this provision in order to cover discrepancies between the reported and actual weights and tests of milk received from producers. In case a handler having excess skim milk or butterfat has received Grade A and Nongrade A milk during the delivery period, such excess would be ratably apportioned between the several grades of milk received.

In the event that a handler has received other source milk allocated to Class I and which is not priced under another marketing agreement or order an amount should be added to the value of the lowest grade of producer milk received by such handler computed as follows: Multiply the quantity of such other source milk by the difference between the applicable prices for Class I and Class II milk. As previously indicated, all sources of milk regularly used for Class I will be included in the pool. Irregular sources of supply are exempt and such payment is necessary for the reasons heretofore discussed in connection with plants to be pooled and persons to be defined as handlers. The pool plant definition affords opportunity to any handler to develop an adequate supply of producer milk for his Class I needs. There should be no reason for an insufficient supply of producer milk under such circumstances. If any handler elects to use other source milk in preference to utilizing an available source of producer milk, local producers should not be penalized. Accordingly, it is provided that such handler pay into the pool for distribution among regular producers, the difference between the Class I and the Class II prices on other source milk so utilized. Such a provision gives assurance to both producers and handlers that all milk utilized for fluid purposes is purchased on a use basis at minimum order prices. Other source milk priced under another marketing order is exempt because such milk would be priced on a use basis commensurate with its value as determined under the other order.

Provision should also be made in the payment of producers for the adjustment of the applicable uniform price to reflect the actual test of the milk received from a producer and the location of the pool plant where such milk is received. The producer butterfat differential should be fixed at one-tenth of the price of 92-score butter on the Chicago market multiplied by 1.2. This is the same as the handler butterfat differential for Class II and approximates the average value of butterfat for manufacturing uses. The location allowances to producers should be the same as those established for handlers for milk used in Class I which are estimated to equal the cost of moving milk to the marketing area. All producers accordingly would receive the same price for the same test of milk f. o. b. marketing area. The producer butterfat differential and location allowances are merely means of prorating returns to producers and do not affect handlers' costs for milk.

Payments to producers should be made on a monthly basis on the 15th day after the close of the delivery period. This is the method of settlement currently being followed in making payment to the majority of producers and there was no evidence that any other payment schedule would be more practical. All dates covering reports of handlers, computation and announcement of uniform prices, and payments into and out of the producer-settlement funds should be set to enable payment at such time. Payments due to a cooperative association for milk of its members should be made on the 13th day after the close of the delivery period. This will enable the association to pay its members on the 15th, the same date that other producers are paid. Handlers can comply with such a provision because it involves the writing of only a single check for the milk of all association members. All payments made directly to producers or an association of producers, or through the producer-settlement fund should be adjusted for errors made in such payments for preceding delivery periods.

The market administrator in making payments to any handler from the producer-settlement fund should offset such payments by the amount of payment due from such handler. Without this provision, the market administrator might be required to make payments to a handler who may have obtained money from the producer-settlement fund by filing fraudulent reports or who owes money to the producer-settlement fund but who is financially unable to make full payment of all of his debts.

(6) Certain other provisions should be adopted to enable proper and efficient administration of the order.

(a) *Administrative assessment.* Each handler should be required to pay to the market administrator as his pro rata share of the cost of administration 4 cents per hundredweight or such lesser sum as the Secretary may from time to time prescribe on all receipts of producer milk at a pool plant. The market administrator must have the necessary funds to enable him to administer properly the terms of the order and the act provides that the administration be financed through assessment against handlers. In view of the anticipated volume of milk on which the rate would apply, it is concluded that a maximum rate of 4 cents per hundredweight is necessary at this time to provide sufficient administrative funds. In the event a lesser amount proves to be sufficient provision is made to enable the Secretary to reduce the assessment at a later date.

(b) *Deductions for marketing services.* Provision should be made for the dissemination of market information to producers and for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. This provision, including the assessing of producers in payment thereof, is specifically authorized by the act. Six cents per hundredweight or such lesser rate as the Secretary may determine should be deducted by handlers from the payment to producers and turned over to the market administrator to finance such services. This rate was proposed by producer groups who have had experience with check sampling, weighing, and testing programs in the marketing area. In the event any qualified cooperative association is determined to be performing such services for any producer, handlers should pay to the cooperative association such deductions as are authorized by such producer in lieu of the payment to the market administrator.

(c) *Other administrative provisions.* The other provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of the market administrator, define his powers and duties, prescribe the information to be reported by handlers each month and the length of time that records must be retained. A plan for liquidation of the order in the event of its suspension or termination should also be provided.

Producer-handlers should be exempt from the regulatory provisions of the order except that they should be required to file reports as requested by the market administrator. Since a producer-handler may change his status from time to time it is necessary that the market administrator have authority to require such reports as will enable him to verify

the current status of a producer-handler and to supplement other market information.

A pool plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act and which the Secretary determines disposes of a greater volume of its Class I milk in such other marketing area than in this marketing area should be partially exempt from the provisions of this order. It would be impractical to attempt to regulate a handler under two separate orders with respect to the same milk. Accordingly, it should be provided that if a pool plant disposes of a greater volume of its Class I milk in a marketing area, regulated by another Federal milk marketing order, than is disposed of in this marketing area such plant shall be exempt from the reporting, pricing, payment, administrative assessment, and marketing service provisions of this order. Such a handler, however, should make reports with respect to receipts and utilization as the market administrator may require.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of October 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order regulating the handling of milk in the Southern Illinois marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents, entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Southern Illinois Marketing Area," and "Order Regulating the Handling of Milk in the Southern Illinois Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 3d day of January 1951.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the Southern Illinois Marketing Area

Sec.
916.0 Findings and determinations.

DEFINITIONS

916.1 Act.
916.2 Secretary.
916.3 Department.
916.4 Person.
916.5 Southern Illinois marketing area.
916.6 Delivery period.
916.7 Cooperative association.
916.8 Pool plant.
916.9 Nonpool plant.
916.10 Handler.
916.11 Producer.
916.12 Grade A producer.
916.13 Nongrade A producer.
916.14 Other source milk.
916.15 Producer-handler.

MARKET ADMINISTRATOR

916.20 Designation.
916.21 Powers.
916.22 Duties.

REPORTS, RECORDS, AND FACILITIES

916.30 Delivery period reports of receipts and utilization.
916.31 Other reports.
916.32 Records and facilities.
916.33 Retention of records.

CLASSIFICATION

916.40 Skim milk and butterfat to be classified.
916.41 Classes of utilization.
916.42 Responsibility of handlers and reclassification of milk.
916.43 Transfers.
916.44 Computation of skim milk and butterfat in each class.
916.45 Allocation of skim milk and butterfat classified.
916.46 Allocation of producer milk classified.

MINIMUM PRICES

916.50 Class prices.
916.51 Butterfat differentials to handlers.
916.52 Location differential to handlers.

APPLICATION OF PROVISIONS

916.60 Producer-handlers.
916.61 Pool plants subject to other orders.
916.62 Handlers operating nonpool plants.

DETERMINATION OF UNIFORM PRICES

916.70 Computation of value of milk.
916.71 Computation of uniform prices.

PAYMENTS

916.80 Time and method of payment for milk.
916.81 Producer-butterfat differential.
916.82 Location differential to producers.
916.83 Producer-settlement funds.
916.84 Payments to the producer-settlement funds.
916.85 Payments out of the producer-settlement funds.
916.86 Adjustment of accounts.
916.87 Marketing service.
916.88 Expense of administration.
916.89 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

916.90 Effective time.
916.91 Suspension or termination.
916.92 Continuing obligations.
916.93 Liquidation.

MISCELLANEOUS PROVISIONS

916.100 Agents.
916.101 Separability of provisions.

AUTHORITY: §§ 916.0 to 916.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 916.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held March 7 to 11, 1950, inclusive, at Murphysboro, Illinois, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Southern Illinois marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

agreement upon which a hearing has been held;

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) The necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe with respect to all producer milk (including such handler's own production) received during the month.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Southern Illinois marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 916.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 916.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties pursuant to the act of the Secretary of Agriculture.

§ 916.3 *Department.* "Department" means the United States Department of Agriculture or other Federal agency authorized to perform the price-reporting functions specified in this part.

§ 916.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 916.5 *Southern Illinois marketing area.* "Southern Illinois marketing area," hereinafter called the "marketing area," means all of the territory within the Counties of Randolph, Perry, Franklin, Jackson, Williamson, Saline, Union, Johnson, Pope, Hardin, Alexander, Pulaski, and Massac, all in the State of Illinois.

§ 916.6 *Delivery period.* "Delivery period" means a calendar month, or the portion thereof, during which this part is in effect.

§ 916.7 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 916.8 *Pool plant.* "Pool plant" means:

(a) Any plant which is used in the processing and packaging of milk and from which 10 percent or more of the Class I milk in such plant is disposed of on wholesale or retail routes (including plant stores or through vendors) within the delivery period as Class I milk in the marketing area, except the plant of a producer-handler and any plant from which the only Class I milk so disposed of in the marketing area is milk approved by the appropriate health authority for sale as Class I milk in the St. Louis, Missouri, marketing area, or the Paducah, Kentucky, marketing area;

(b) A milk processing plant of a cooperative association located inside the marketing area; or

(c) Any plant which is used in the receipt of milk from farmers and from which milk in bulk is disposed of in a quantity equivalent to 10 percent or more of such receipts from farmers during the delivery period to one or more plants described in paragraph (a) of this section: *Provided,* That milk was so disposed of from such plant during each of the two immediately preceding delivery periods and the operator of such plant has made written application, on or before the 30th day prior to the first day of the current delivery period, to the market administrator for pool plant status: *Provided further,* That this definition shall include during the delivery periods of March through September any plant which was used in the receipt of milk and from which milk was so disposed of to one or more plants described in paragraph (a) of this section during each of the immediately preceding delivery periods of October through February: *And provided further,* That this definition shall include, during each delivery period from the effective date hereof through September 1951, the following plants:

Harrisburg Dairy Products, Olney, Ill.
Midwest Dairy Products Corporation, Murphysboro, Ill.
Midwest Dairy Products Corporation, New Athens, Ill.

§ 916.9 *Nonpool plant.* "Nonpool plant" means any milk processing or distributing plant other than a pool plant.

§ 916.10 *Handler.* "Handler" means:

(a) Any person in his capacity as operator of a pool plant;

(b) A producer-handler;

(c) Any person, other than a producer-handler, in his capacity as operator of a nonpool plant which is used in the processing and packaging of milk, any portion of which is disposed of from such plant on wholesale or retail routes (including plant stores or through vendors) within the delivery period as Class I milk in the marketing area, except any plant from which the only Class I milk so disposed of in the marketing area is milk approved by the appropriate health authority for sale as Class I milk in the St. Louis, Missouri, or the Paducah, Kentucky, marketing area; or

(d) Any cooperative association with respect to the milk of any producer which it causes to be diverted from a pool plant to a nonpool plant for the account of such association.

§ 916.11 *Producer.* "Producer" means any person other than a producer-handler, who produces milk which is: (a) Received at a pool plant; or (b) diverted from a pool plant to any milk distributing or milk manufacturing plant for the account of a handler: *Provided,* That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted: *And provided further,* That a person who is a producer under the provisions of any other milk marketing order issued under the act, shall not be a producer for the same milk under the provisions of this part.

§ 916.12 *Grade A producer.* "Grade A producer" means a producer whose milk complies with the quality requirements of the Grade A milk ordinance of the applicable political subdivision of the State of Illinois or the Grade A milk and Grade A milk products laws of the State of Illinois and is permitted by the Illinois State Health Department to be sold under a Grade A label as fluid milk in the marketing area.

§ 916.13 *Nongrade A producer.* "Nongrade A producer" means a producer other than a Grade A producer.

§ 916.14 *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form from a producer-handler or from a source other than producers or other handlers except: (a) Any nonfluid milk product received and disposed of in the same form; (b) milk of producers received by handlers as defined under Orders Nos. 3 and 77, as amended, regulating the handling of milk in the St. Louis, Missouri, and Paducah, Kentucky, marketing areas, respectively; and (c) milk of Grade A producers received at a pool plant of a handler as defined under Order No. 11 regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area.

§ 916.15 *Producer-handler.* "Producer-handler" means any person who processes milk from his own farm production any portion of which is disposed of within the marketing area as Class I milk, and who receives no milk from producers.

MARKET ADMINISTRATOR

§ 916.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 916.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its term and provisions; and

(d) To recommend amendments to the Secretary.

§ 916.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 916.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 916.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each delivery period as follows:

(1) On or before the 6th day after the end of such delivery period, the minimum class prices and the butterfat differentials for each class computed pursuant to §§ 916.50 and 916.51; and

(2) On or before the 11th day after the end of such delivery period, the uniform prices computed pursuant to § 916.71 and the butterfat differential computed pursuant to § 916.81;

(i) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 3 days after the day upon which he is required to perform such acts, has not made: (1) Reports pursuant to §§ 916.30 and 916.31, or (2) payments pursuant to §§ 916.80 through 916.86;

(j) On or before the 15th day after the end of each delivery period, report to each cooperative association which so requests the amount and class utilization of milk caused to be delivered by such cooperative association, either directly or from producers who are members of such cooperative association, to each handler to whom the cooperative association sells milk. For the purpose of this report, the milk caused to be so delivered by a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class; and

(k) Prepare and disseminate publicly such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 916.30 *Delivery period reports of receipts and utilization.* On or before the 7th day after the end of each delivery period each handler shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of Grade A and Nongrade A skim milk and butterfat contained in all receipts at his pool plant(s) within such delivery period (1) of producer milk, (2) from other handlers, (3) of other source milk, and (4) from handlers as defined under Order Nos. 3, 11, and 77;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section:

(c) The name and address of each producer from whom milk was received for the first time and the date on which such milk was first received;

(d) The name and address of each producer who discontinued deliveries of milk and the date on which delivery ceased;

(e) The total pounds of milk, with the average butterfat test thereof, received from each producer for whom a cooperative association is to receive payment pursuant to § 916.80 (b); and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 916.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows:

(a) On or before the 20th day after the end of each delivery period his producer payroll for such delivery period, which shall show:

(1) The total pounds of milk received from each producer or cooperative association, with the average butterfat test thereof, and

(2) The net amount of such handler's payment to each producer or cooperative association, together with the price, deductions, and charges involved.

§ 916.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, all accounts and records of his operations and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat;

(b) The weights, samples, and tests for butterfat and for other content of all milk, skim milk, cream, and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and end of each delivery period.

§ 916.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if within such three year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the books and records are no longer necessary in connection therewith.

CLASSIFICATION

§ 916.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the delivery period and which is required to be reported pursuant to §§ 916.30 or 916.62 (a) shall be classified by the market administrator pursuant to the provisions of §§ 916.41 through 916.46.

§ 916.41 *Classes of utilization.* Subject to the conditions set forth in §§ 916.42 through 916.43 the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, milk drinks (whether plain or flavored), cream (including sour cream), any mixture of cream and milk, or skim milk (except bulk ice cream mix, eggnog, reddi wip, instant whip, super whip, and other similar products), and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat accounted for (1) as having been used or disposed of in any product other than those specified in paragraph (a) of this section; (2) as disposed of for livestock feed; (3) in actual plant shrinkage of skim milk and butterfat received in producer milk, but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively, and (4) in actual plant shrinkage of skim milk and butterfat in other source milk received: *Provided,* That if milk from more than one source (Grade A producer milk, Nongrade A producer milk, and other source milk) is received at a pool plant during the same delivery period the shrinkage of skim milk and butterfat, respectively, allocated to each source shall be computed pro rata according to the proportions of the volumes of skim milk and butterfat, respectively, received from such sources to their total.

§ 916.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified

as Class I milk, unless the handler who first received such skim milk and butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

(b) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 916.43 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a pool plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the delivery period within which such transaction occurred, but in no event shall the amount classified in Class II exceed the total use in such class by the transferee-handler: *Provided*, That if either or both handlers have received other source milk, such milk so disposed of shall be classified at both plants so as to return the higher available class utilization to producer milk: *And provided further*, That if either or both handlers have received Grade A producer milk, such milk so disposed of shall be classified at both plants so as to return the higher available class utilization to Grade A producer milk.

(b) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk, except as provided in paragraphs (d) and (e) of this section, if transferred or diverted in the form of milk, skim milk, or cream to a nonpool plant (other than that of a producer-handler) unless:

(1) The handler claims Class II on the basis of a utilization mutually indicated in writing to the market administrator by both the operator of the nonpool plant and the handler on or before the 7th day after the end of the delivery period within which such transfer occurred;

(2) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) Not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant in the use indicated in such statement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I.

(d) As Class I milk if transferred or diverted in the form of milk or skim milk to a nonpool plant located 110 miles or more airline distance from the marketing area.

(e) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream which was received in the form of milk from Grade A producers to a pool plant as defined under Order No. 11, regulating the handling of milk in the Suburban St. Louis, Missouri, marketing area, unless utilization in Class II is mutually indicated in writing to the market administrator by both the handler and the operator of the transferee plant on or before the 7th day after the end of the delivery period within which such transaction occurred, but in no event shall the amount classified in Class II exceed the total use in such class by the transferee plant: *Provided*, That if such milk, skim milk, or cream is classified under the provisions of such other order in a class other than the class mutually indicated in writing such milk, skim milk, or cream shall be classified in the class as determined by the provisions of such other order.

§ 916.44 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 916.45 *Allocation of skim milk and butterfat classified.* The pounds of skim milk and butterfat remaining in each class after making the following computations for each handler for each delivery period shall be the pounds of skim milk and butterfat in such class allocated to producer milk received by such handler during such delivery period;

(a) Skim milk shall be allocated as follows:

(1) Subtract from the pounds of skim milk in each class the total pounds of skim milk received by such handler in milk from producers as defined under Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, and Order No. 77, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area, and assigned to such class pursuant to the provisions of such order;

(2) Subtract from the total pounds of skim milk in Class II the plant shrinkage of skim milk in milk received from producers computed pursuant to § 916.41 (b) (3);

(3) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk;

(4) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from other handlers and assigned to such class pursuant to § 916.43 (a);

(5) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (2) of this paragraph; or if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II.

(b) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

§ 916.46 *Allocation of producer milk classified.* For each delivery period the market administrator shall allocate the pounds of skim milk and butterfat in each class for each handler computed pursuant to § 916.45 to Grade A producer milk and to Nongrade A producer milk received by such handler during such delivery period.

(a) Skim milk shall be allocated as follows:

(1) Allocate to Class II skim milk the plant shrinkage of skim milk in Grade A producer milk computed pursuant to § 916.41 (b) (3);

(2) Allocate the remaining pounds of skim milk in Grade A producer milk in series beginning with Class I;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from sources defined in § 916.14 (b) and (c) and assigned to such class pursuant to the applicable provisions of Orders Nos. 3, 11, and 77, regulating the handling of milk in the St. Louis, Missouri, Suburban St. Louis, Missouri, and Paducah, Kentucky, marketing areas, respectively;

(4) The pounds of skim milk remaining in each class shall be the pounds of skim milk in such class allocated to Nongrade A producer milk received by such handler during such delivery period.

(b) Butterfat shall be allocated in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to Grade A producer milk in each class, respectively, and the pounds of skim milk and the pounds of butterfat allocated to Nongrade A producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in Grade A producer milk and Nongrade A producer milk, respectively, in each class.

MINIMUM PRICES

§ 916.50 *Class prices.* Subject to the provisions of §§ 916.51 and 916.52 each handler shall pay producers at the time and in the manner set forth in §§ 916.80 through 916.86 not less than the following prices per hundredweight of milk:

(a) *Class I milk*—(1) *Grade A.* The price for Grade A Class I milk shall be the basic formula price computed in accordance with the pricing provisions of Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, plus the following amounts per hundredweight: $1.35 for the delivery periods of July through December; $0.90 for the delivery periods of January through March; and $0.50 for the delivery periods of April through June.

(2) *Nongrade A.* The price for Nongrade A Class I milk shall be the price computed for Grade A milk pursuant to subparagraph (1) of this paragraph, less 40 cents.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price computed in accordance with the pricing provisions of Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, except that for the delivery periods of April, May, June, and July 1951 the price for Class II milk shall be such basic formula price less 15 cents.

§ 916.51 *Butterfat differential to handlers.* If the weighted average butterfat test of Grade A producer milk or Nongrade A producer milk, respectively, classified in Class I milk or Class II milk for a handler pursuant to § 916.46 (c) is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the appropriate class price for such grade of milk, for each one-tenth of one percent that such weighted average butterfat test of milk in such class is above or below 3.5 percent, a butterfat differential calculated as follows:

(a) *Class I milk*—(1) *Grade A.* Multiply by 1.25 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, and divide the result by 10.

(2) *Nongrade A.* Multiply by 1.22 the average price of butter described in subparagraph (1) of this paragraph, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.20 the average price of butter described in paragraph (a) (1) of this section, and divide the result by 10.

§ 916.52 *Location differential to handlers.* With respect to skim milk and butterfat contained in milk which is received from producers at a pool plant located outside of the marketing area and which is classified as Class I milk, a handler shall be allowed the amount per hundredweight set forth in the schedule below: *Provided*, That such an allowance shall not result in a Class I price, f. o. b. pool plant, which is less than the Class II price computed pursuant to § 916.50 (b):

Nearest distance from the marketing area (airline miles):	*Amount per hundredweight (cents)*
Not more than 10 miles	6
More than 10 but not more than 20 miles	12
More than 20 but not more than 30 miles	14
More than 30 but not more than 40 miles	16
More than 40 but not more than 50 miles	18
More than 50 but not more than 60 miles	20
More than 60 but not more than 70 miles	22

APPLICATION OF PROVISIONS

§ 916.60 *Producer-handlers.* Sections 916.30, 916.31, 916.40 through 916.46, 916.50 through 916.52, 916.70, 916.71, and 916.80 through 916.88 shall not apply to a producer-handler, except that such producer-handler shall make reports of his receipts and utilization to the market administrator at such time and in such manner as the market administrator may request.

§ 916.61 *Pool plants subject to other orders.* In the case of any pool plant which is subject to the regulatory provisions of another milk marketing agreement or order (other than Order No. 3, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area, or Order No. 77, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area) issued pursuant to the act and which the Secretary determines disposes of a greater volume of its Class I milk in the marketing area as defined by such other agreement or order than is disposed of in the marketing area as defined by this part, §§ 916.30, 916.31, 916.50 through 916.52, 916.70, 916.71, and 916.80 through 916.88 shall not apply, except that the operator of such pool plant shall make reports to the market administrator, with respect to his total receipts and utilization of skim milk and butterfat, at such time and in such manner as the market administrator may require.

§ 916.62 *Handlers operating nonpool plants.* Sections 916.30, 916.31, 916.50 through 916.52, 916.60, 916.70, 916.71, 916.80 through 916.85, 916.87, and 916.88 shall not apply to a handler in his capacity as the operator of a nonpool plant described in § 916.10 (c), except that such handler shall:

(a) Make reports to the market administrator, with respect to his total receipts and utilization of skim milk and butterfat, at such time and in such manner as the market administrator may request;

(b) Pay to the market administrator, on or before the 13th day after the end of each delivery period, for deposit in the producer-settlement fund an amount of money computed by multiplying the quantity of Class I milk disposed of in the marketing area during the delivery period by the difference between the price of Class II milk and the price of Class I milk, adjusted for the differentials set forth in §§ 916.51 and 916.52, for the highest grade of milk received in such plant in a quantity equivalent to the quantity of Class I milk so disposed of; and

(c) Pay to the market administrator, on or before the 15th day after the end of the delivery period, for the expense of administration of this part, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts of milk, from dairy farmers, used to produce products disposed of in the marketing area during the delivery period.

DETERMINATION OF UNIFORM PRICE

§ 916.70 *Computation of value of milk.* The value of Grade A producer milk and of Nongrade A producer milk, respectively, received during each delivery period by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices, subject to the differentials set forth in §§ 916.51 and 916.52, and adding together the resulting amounts: *Provided*, That if the handler had an overage of either skim milk or butterfat, such excess as deducted from each class pursuant to § 916.45 (a) (5) or (b) shall be ratably apportioned between the receipts of Grade A and Nongrade A producer milk and there shall be added to the respective values computed above an amount computed by multiplying the pro rata pounds of such overages by the applicable class prices, subject to the differentials set forth in §§ 916.51 and 916.52: *And provided further*, That if the handler has received other source milk, other than milk priced under another marketing agreement or order issued pursuant to the act, during the delivery period, which is allocated to Class I milk pursuant to paragraph (a) (3) or (b) of § 916.45, an amount computed by multiplying the quantity of such Class I milk by the difference between the applicable price, subject to the differentials set forth in §§ 916.51 and 916.52, of Class I milk and Class II milk, for the lowest grade of milk received from producers at the plant of such handler, shall be added to the value computed pursuant to this section for the lowest grade of milk.

§ 916.71 *Computation of uniform prices.* For each delivery period the market administrator shall compute separately the uniform prices per hundredweight for Grade A milk and Nongrade A milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into separate totals the values of Grade A milk and Nongrade A milk computed pursuant to § 916.70 for all handlers who made the reports pursuant to § 916.30 for such delivery period, except those in default of payments pursuant to § 916.84 for the preceding delivery period;

(b) Add to the respective values computed pursuant to paragraph (a) of this section the amount of any location adjustment required to be made pursuant to § 916.82 with respect to such milk;

(c) Add amounts representing the cash balances on hand in the respective producer-settlement funds less the total amount of contingent obligations to handlers pursuant to § 916.85;

(d) Subtract if the weighted average butterfat content of the milk included in the respective computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 916.81 and multiply the respective results by the total hundredweight of such milk represented by the values included in paragraph (a) of this section;

(e) Divide the resulting amounts by the total hundredweight of Grade A and Nongrade A milk, respectively, represented by the values included in paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents from the amounts per hundredweight computed pursuant to paragraph (e) of this section. The resulting figures shall be the uniform prices for Grade A milk and Nongrade A

milk, respectively, of 3.5 percent butterfat content received from producers.

PAYMENTS

§ 916.80 *Time and method of payment.* Each handler shall make payments as follows:

(a) On or before the 15th day after the end of each delivery period, to each producer, except producers for whom payment is received from the handler by a cooperative association pursuant to paragraph (b) of this section, for all milk received during such delivery period from such producer at not less than the applicable uniform price for such delivery period computed pursuant to § 916.71, subject to the following adjustments: (1) The butterfat differential pursuant to § 916.81; (2) less marketing service deductions pursuant to § 916.87; (3) less the location differentials computed pursuant to § 916.82; (4) less deductions authorized by the producer; and (5) any error in calculating payments to such individual producer for past delivery periods: *Provided*, That if by such date such handler has not received full payment for such delivery period for any grade of milk pursuant to § 916.85, he may reduce uniformly per hundredweight for all producers from whom such grade of milk was received his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) On or before the 13th day after the end of each delivery period, if so requested, to a cooperative association with respect to producers whose milk was caused to be delivered to such handler during such delivery period by such cooperative association which is authorized to collect payment for such milk, an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with paragraph (a) of this section.

§ 916.81 *Producer-butterfat differential.* In making payments pursuant to § 916.80, each handler shall add to or subtract from the applicable uniform price for each one-tenth of one percent that the average butterfat content of the milk received from such producer is above or below 3.5 percent, an amount computed by multiplying the average price of butter described in § 916.51 (a) (1), by 1.20, and dividing the result by 10.

§ 916.82 *Location differential to producers.* In making payments to producers pursuant to § 916.80, each handler shall deduct from the applicable uniform price for such producer with respect to milk received from such producer at a pool plant located beyond the limits of the marketing area, the applicable amount set forth below:

Nearest distance from the marketing area (airline distance):	*Amount per hundredweight (cents)*
Not more than 10 miles	6
More than 10 but not more than 20 miles	12
More than 20 but not more than 30 miles	14
More than 30 but not more than 40 miles	16
More than 40 but not more than 50 miles	18
More than 50 but not more than 60 miles	20
More than 60 but not more than 70 miles	22
More than 70 miles	24

§ 916.83 *Producer-settlement funds.* The market administrator shall establish and maintain two separate funds known as the "Grade A producer-settlement fund" and the "Nongrade A producer-settlement fund," respectively, into which he shall deposit all payments made by handlers pursuant to §§ 916.62, 916.84, and 916.86 and out of which he shall make all payments to handlers pursuant to §§ 916.85 and 916.86: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 916.84 *Payments to the producer-settlement funds.* On or before the 13th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the utilization value of the respective grade of milk received from producers by such handler during the delivery period as computed pursuant to § 916.70 is greater than an amount computed by multiplying the hundredweight of milk received from such producers by the applicable uniform price adjusted by the butterfat differential provided for in § 916.81 and the location differential provided for in § 916.82.

§ 916.85 *Payments out of the producer-settlement funds.* On or before the 14th day after the end of each delivery period, the market administrator shall pay to each handler the amount, if any, by which the utilization value of the respective grade of milk received from producers by such handler during the delivery period as computed pursuant to § 916.70 is less than an amount computed by multiplying the hundredweight of milk received from such producers by the applicable uniform price adjusted by the butterfat differential provided for in § 916.81 and the location differential provided for in § 916.82: *Provided*, That if the balance in such producer-settlement fund is insufficient to make all payments with respect to such grade of milk pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 916.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 916.87 *Marketing service*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 916.80 shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers during the delivery period and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from, and to provide market information to, such producers. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Deductions with respect to members of a cooperative association.* In the case of producers who are members of a cooperative association, or who have given written authorization for the rendering of marketing services and the taking of deductions therefor by a cooperative association, and for whom the Secretary determines such association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and on or before the 15th day after the end of such delivery period shall pay over such deductions to the cooperative association rendering such service.

§ 916.88 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the delivery period, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts at his pool plant within the delivery period of milk from producers, including such handler's own production: *Provided*, That each cooperative association which is a handler shall also pay such pro rata expense on that milk of producers which it causes to be diverted from a pool plant to a nonpool plant for the account of such association.

§ 916.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in

writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 916.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 916.91.

§ 916.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 916.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 916.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 916.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 916.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[7 CFR, Part 916]

[Docket No. AO-215]

HANDLING OF MILK IN THE SOUTHERN ILLINOIS MARKETING AREA

ORDER OF SECRETARY DIRECTING REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION THAT MONTH OF OCTOBER 1950 IS REPRESENTATIVE PERIOD; AND DESIGNATION OF AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Southern Illinois marketing area) who, during the month of October 1950, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.[1]

The month of October 1950 is hereby determined to be a representative period for the conduct of such referendum.

Fred L. Shipley is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

Done at Washington, D. C., this 3d day of January 1951.

[SEAL] CHARLES F. BRANNON, *Secretary of Agriculture.*

[F. R. Doc. 51-276; Filed, Jan. 5, 1951; 8:55 a. m.]

[7 CFR, Parts 941, 965, 991]

[Docket Nos. AO-101-A11, AO-172-A5, AO-194-A3]

HANDLING OF MILK IN CHICAGO, ILL., SUBURBAN CHICAGO, ILL., AND ROCKFORD-FREEPORT, ILL., MARKETING AREAS

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENTS AND TO ORDERS, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), notice is hereby given of a joint public hearing to be held in the Palmer House, Chicago, Illinois, beginning at 10:00 a. m., c. s. t., January 22, 1951, for the purpose of receiving evidence with respect to economic and marketing conditions in each of the marketing areas specified above which relate to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreements heretofore approved by the Secretary of Agriculture and to the orders, as now in effect, regulating the handling of milk in such marketing areas. This notice (1) amends and expands the notice of hearing issued by the Assistant Administrator, Production and Marketing Administration, on November 15, 1950 (15 F. R. 7891; 8053), by including certain additional proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, and (2) gives notice with respect to certain proposed amendments to the tentative marketing agreements and to the orders, as amended, regulating the handling of milk in the Suburban Chicago, Illinois, and Rockford-Freeport, Illinois, marketing areas, including a proposal of certain Rockford handlers to merge the provisions of Order 91 (Rockford-Freeport) with those of Orders 41 and 69.

[1] See F. R. Document 51-277, *supra*.

Such evidence will be received with respect to all proposals contained in the November 15 notice as well as to those proposals set forth below.

None of the proposed amendments to be considered has received the approval of the Secretary of Agriculture.

Attention is called to the reference "§ 941.50 (a) and (b)" contained in the second paragraph beginning in column 1, 15 F. R. 7892, relating to the November 15 notice. Such reference is corrected to read "§ 941.51 (a) and (b)."

Additional proposals with respect to Order No. 41—Chicago:

Submitted by the Pure Milk Association:

Proposal No. 11. Amend § 941.5 (b) (1) and (2) to read as follows:

(1) *Class I milk.* (i) The price for Grade A Class I milk shall be the basic formula price, plus the following amount for the delivery period indicated:

May and June	$0.50
April	.70
August, September, October, and November	1.30
All others	.90

and

(ii) The price for Grade B Class I milk shall be the price for Grade A Class I milk, less 10 cents.

(2) *Class II milk.* (i) The price for Grade A Class II milk shall be the basic formula price, plus the following amount for the delivery period indicated:

May and June	$0.30
April	.40
August, September, October, and November	.70
All others	.50

and

(ii) The price for Grade B Class II milk shall be the price for Grade A Class II milk, less 10 cents.

Proposal No. 12. Amend 941.5 (c) (1) to include the following: "For milk purchased or received from producers at a pool plant located within the marketing area, add 4 cents per hundredweight, or if such plant is located outside the marketing area and not more than 55 miles from the City Hall in Chicago, Illinois, add 2 cents per hundredweight."

Proposal No. 13. Amend § 941.8 (b) to read as follows:

(b) *Location adjustments to producers.* In making payments pursuant to paragraph (a) (2) of this section, for all milk purchased or received from producers at a pool plant; each handler shall:

(1) Add 10 cents per hundredweight if such plant is located in the marketing area;

(2) Add 2 cents per hundredweight if such plant is located outside the marketing area and not more than 55 miles; and

(3) Deduct 2 cents per hundredweight for each 15 miles or fraction thereof that such plant is located more than 70 miles from the City Hall in Chicago, Illinois. All such mileages shall be computed by the market administrator by rail or highway distance, whichever is shorter.

NOTE: The above 3 proposals are revisions of previous proposals by the Pure Milk Association.

Proposed by the Consolidated Badger Cooperative:

Proposal No. 14. Amend § 941.5 (b) (4) (iii) to provide that: "The figure of 67 cents as stated in this subdivision shall be revised monthly to reflect changes in the cost of fuel and labor, as determined by the index figures of these items, such revision to be effective when the change indicated equals ½0 of one cent or more."

Proposed by Pure Milk Products Cooperative:

Proposal No. 15. Delete § 941.7 (b) and substitute therefor the following:

(b) *Computation of the uniform price and excess price.* The Market Administrator shall compute the uniform price per hundredweight of milk for each delivery period in the following manner:

(1) Combine into one total the net pool obligations of all handlers, computed pursuant to paragraph (a) of this section;

(2) Add the aggregate of the values of all allowable location adjustments computed at the applicable rates as set forth in § 941.8 (b);

(3) Compute the total quantity of milk which represents the delivered bases producers (excluding new producers) and which is included in the computations made pursuant to paragraph (a) of this section;

(4) Compute the total value of the milk (including all milk received from new producers) which is in excess of the delivered bases of producers determined pursuant to subparagraph (3) of this paragraph and which is included in the computations pursuant to paragraph (a) of this section, by multiplying such quantity of milk by the Class IV price;

(5) Compute the total value of the milk represented by delivered bases of producers by subtracting the value obtained in subparagraph (3) of this paragraph from the value obtained in subparagraph (2) of this paragraph;

(6) Add to the value computed pursuant to subparagrah (5) of this paragraph the cash balance in the producer-settlement fund;

(7) Divide the value obtained in subparagraph (6) in this paragraph by the quantity of milk represented by the delivered bases of producers as determined in subparagraph (3) of this paragraph;

(8) Subtract from the figure obtained in subparagraph (7) of this paragraph not less than 4 cents or more than 5 cents per hundredweight of milk to provide against contingencies of errors in reports and payment of delinquencies in payments by handlers. The result shall be known as the uniform base price per hundredweight for such delivery period for milk of 3.5 percent butterfat received from producers at plants located not more than 70 miles from the City Hall in Chicago: *Provided*, That if such resulting amounts exceeds the Class I price of 3.5 milk the excess thereof shall be included in the total value of excess milk as computed in subparagraph (4) of this paragraph.

Proposal No. 16. Add the following to § 941.1 (f): "*Provided*, That if such person did not regularly distribute milk in the marketing area or dispose of milk to a handler or to persons within the marketing area during a period of 30 days prior to the effective date hereof, but thereafter begins the regular delivery of milk to a handler, he shall be known as a "new producer" for a period beginning with the date of his first delivery of milk to a handler and including the first two full calendar months of regular delivery following the first delivery of milk to a handler, after which he will be known as a producer."

Proposal No. 17. Include in Order 41 a new section to read as follows:

Determination of base. For each delivery period the base of each producer shall be a quantity of milk calculated in the following manner:

(a) Multiply the applicable figure, computed pursuant to paragraph (b) of this section, by the number of days on which milk was received from such producer during such delivery period.

(b) Effective May 1, 1951, and each subsequent year thereafter, the daily base of each producer for the ensuing year shall be determined by the market administrator from reports filed by handlers pursuant to § 941.3 in the following manner:

(1) Determine for each producer that month during the preceding calendar year when his daily average deliveries of milk were the lowest. Determine the 3 months of the preceding calendar year when the daily average deliveries of milk of all producers were the lowest;

(2) Determine for each producer his total deliveries of milk during each of the 4 months of the previous calendar year described in subparagraph (1) of this paragraph and add together the resulting amounts;

(3) Divide the sum obtained for each producer in subparagraph (2) of this paragraph by the number of days of such 4 calendar months;

(4) Add together in one sum all the daily average amounts computed in accordance with subparagraph (3) of this paragraph;

(5) Determine the daily average utilization of Class I milk and Class II milk during the month of the preceding year when such utilization of Class I was greatest and add to such daily average an amount not to exceed 10 percent thereof; the month for Class II utilization shall be the same as that month having the greatest Class I utilization;

(6) Divide the amount determined pursuant to subparagraph (5) of this paragraph by the sum determined pursuant to subparagraph (4) of this paragraph; and

(7) Multiply the daily average amount for each producer determined in subparagraph (3) of this paragraph by the percentage figure computed pursuant to subparagraph (6) of this paragraph. This result shall be known as the producer's allotted daily base.

(c) *Base rules.* The following rules shall be observed by the market administrator with respect to the administration of the base plan:

(1) Bases allotted to producers pursuant to paragraph (b) of this section shall not be transferable: *Provided*, That bases allotted under a tenant and landlord relationship shall be combined and may be divided only if such relationship is terminated;

(2) As soon as bases are allotted to producers pursuant to paragraph (b) of this section, the market administrator shall notify each handler of the bases of producers from whom such handler received milk;

(3) Any producer who ceases to market milk to a handler for a period of more than 45 consecutive days shall forfeit his base. In the event that he thereafter commences to market milk to a handler he shall receive a base computed in the manner provided in subparagraph (10) of this paragraph for the allotment of bases to producers who have been new producers, and shall be treated for the purposes of this section as if he had been a new producer;

(4) In the event a producer delivers an average quantity of milk less than 85 percent of his allotted daily base for each of 3 consecutive calendar months, such producer shall be reallotted a base equal to his daily average deliveries of milk of his own production for the 3 consecutive months involved;

(5) A producer, whether landlord or tenant of a farm, may retain his base when moving his entire herd of cows from one farm to another farm: *Provided*, That at the beginning of a tenant and landlord relationship the allotted base of such tenant and landlord shall be a combined base;

(6) A landlord who rents on shares shall be entitled to the entire base to the exclusion of the tenant, if the landlord owns the entire herd. Likewise, the tenant who rents on shares shall be entitled to the entire base to the exclusion of the landlord, if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the base shall be divided between the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship;

(7) The base of any producer shall be automatically canceled at the beginning of any delivery period during which such producer reports milk not produced by him as being milk of his own production for the purpose of maintaining or increasing his allotted base. Such producer shall be reallotted a base computed in the manner provided in subparagraph (10) of this paragraph for the allotment of bases to producers who have been new producers, and shall be treated for the purposes of this section as if he had been a new producer;

(8) Any producer, upon giving notice to the market administrator, may relinquish his base at the beginning of the delivery period following that during which notice is given. In the event that the producer thereafter requests the market administrator to allot him a base he shall be allotted a base in the manner provided in subparagraph (10) of this paragraph for the allotment of bases to producers who have been new producers, and shall be treated for the purposes of this section as if he had been a new producer;

(9) If a producer, who has notified the market administrator within 5 days prior to his participation, enters into a program of disease eradication supervised by either county, State, or Federal authorities, the market administrator, in making his determination of that month of the preceding year when such producer's daily average deliveries of milk were the lowest, pursuant to subparagraph (1) of paragraph (b) of this section, shall disregard any month in which such disease eradication program was being performed;

(10) In the event of allotment of a base to a producer who has shipped milk as a new producer, the market administrator shall determine the daily average deliveries of milk by such producer for the first 2 full calendar months immediately preceding the time when such producer became a producer. Such daily average deliveries of milk shall be multiplied by the percentage that base deliveries were to total deliveries of milk to the market during such 2 calendar months by all base-holding producers on the market during that period; and

(11) In the case of a producer who distributes the milk he produces and who disposes of all or a part of his delivery routes to a handler, the market administrator shall determine a figure representing the average daily Class I milk and Class II milk produced, and disposed of during the previous 3 months on the delivery routes of such producer, which such producer and such handler jointly report as involved in the transaction, subject to verification by the market administrator. Any base so determined shall be effective from its determination until the end of the then current calendar year and thereafter shall be superseded by a figure determined pursuant to paragraph (b) of this section.

Proposal No. 18. Amend § 941.5 (b) (1) and (2) to provide a Class I price differential (over basic formula price) of $1.10 and a Class II price differential of $0.60 for each month of the year beginning at such time as the proposed base rating plan is adopted.

Proposed by the Dairy Branch, Production and Marketing Administration:

Proposal No. 19. Amend § 941.4 (d) (2) to read as follows:

(2) Any milk reported by a handler as having been used or disposed of in any class which is found by the market administrator to have been reused or redisposed of (whether in original or other form) in a different class by such handler, by any other handler, or by the first unapproved plant located within the surplus milk manufacturing area to which such milk was moved, shall be reclassified by the market administrator in accordance with such latter use or disposition: *Provided, however,* That milk classified pursuant to paragraph (a) (1), (2), (3) and (4) of this section shall not be reclassified.

Proposals with respect to Order No. 69—Suburban Chicago:

Submitted by Pure Milk Association:

Proposal No. 20. Amend § 969.5 (b) (1) and (2) to read as follows:

(1) *Class I milk.* (i) The price for Grade A Class I milk shall be the basic formula price, plus the following amount for the delivery period indicated:

May and June	$0.50
April	.70
August, September, October, and November	1.30
All others	.90

and

(ii) The price for Grade B Class I milk shall be the price for Grade A Class I milk, less 10 cents.

(2) *Class II milk.* (i) The price for Grade A Class II milk shall be the basic formula price, plus the following amount for the delivery period indicated:

May and June	$0.30
April	.40
August, September, October and November	.70
All others	.50

and

(ii) The price for Grade B Class II milk shall be the price for Grade A Class II milk, less 10 cents.

Proposed by the Dairy Branch, Production and Marketing Administration:

Proposal No. 21. In light of the proposed merger of Orders Nos. 41 and 69, reconsider the requirements for order liquidation set forth in § 969.12 (d).

Proposal No. 22. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto or with any consolidation of orders that may result from this hearing.

Proposals with respect to orders 41, 69, and 91. Proposed by Central Dairy Company, Farm Dairy, Inc., Kishwaukee Dairy, Muller's Union Dairy, Pinehurst Farms, Inc., and Sunlite Dairy Company of Rockford, Illinois:

Proposal No. 23. To consolidate Order 91 with Orders 41 and 69 and make such changes in Order No. 91 as will make it conform with all provisions of such other orders as consolidated.

Proposed by the Dairy Branch, Production and Marketing Administration:

Proposal No. 24. In light of the proposed merger of Orders No. 41, 69, and 91, reconsider the requirements for order liquidation set forth in § 991.90 (d).

Copies of this notice of hearing, the notice of hearing issued November 15, 1950, the said orders as now in effect, and the said tentative marketing agreements may be procured from the Market Administrator, 135 South La Salle Street, Chicago 3, Illinois, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 3, 1951.

[SEAL] JOHN I. THOMPSON,
Assistant Administrator.

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING

Correction

In Federal Register Document 51-152, published on page 98 of the issue for Thursday, January 4, 1951, the date at the end, now reading "January 21, 1951," should read "January 2, 1951".

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Parts 1, 3]

[Docket No. 9873]

TIME OF FILING APPLICATIONS FOR RENEWAL OF BROADCAST STATION LICENSES AND LICENSE PERIODS OF STANDARD BROADCAST, FM BROADCAST AND TELEVISION BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. Sections 1.320 (a), 3.220 (a), 3.620 (a) of the Commission's rules provide in part that applications for renewal of broadcast station licenses shall be filed at least 60 days prior to the expiration of the license sought to be renewed. Section 3.218 (a) of the Commission's rules provides that all initial licenses covering construction permits for new FM broadcast stations will be issued for a minimum period of one year and a maximum period of one year and eleven months to expire in accordance with the schedule set forth therein. Sections 3.34 and 3.218 (b) provide, respectively, that all standard broadcast station licenses will be issued for a normal period of three years and at three year intervals thereafter, and that all renewals of FM broadcast station licenses will be issued for a maximum period of three years and at three year intervals thereafter in accordance with the schedules set forth therein. Section 3.618 of the Commission's rules provides that television broadcast station licenses shall be issued for a period of one year.

3. It is proposed to amend §§ 1.320 (a), 3.220 (a), and 3.620 (a) of the Commission's rules to require the filing of renewal applications 90 days prior to the expiration of the license sought to be renewed. It is proposed to amend § 3.218 (a) to provide a normal license period of three years for FM broadcast station licenses. It is also proposed to amend §§ 3.34, 3.218 (b) and 3.618 of the Commission's rules to provide for the determination of the expiration dates of the normal station license periods on a geographical basis so that the licenses of stations located in contiguous areas will expire at the same time. The proposed amendments are set forth below.

4. The Commission has conducted an inquiry into the operation of §§ 1.320 (a), 3.220 (a), 3.620 (a), 3.34, 3.218 (a), (b) and 3.618 and has concluded that the proposed amendments will result in substantial economies for the Commission and for station licensees.

5. The proposal to amend §§ 1.320 (a), 3.220 (a), 3.620 (a) of the Commission's rules will result in a better distribution of the Commission's work load. The proposal to amend § 3.218 (a) to provide for a normal license period of three years for FM broadcast stations appears to be justified by the present state of developments of the FM art. In addition that proposal will reduce substantially the number of applications required to be filed by licensees and acted upon by the Commission.

6. The proposal to amend §§ 3.34, 3.218 (b) and 3.618 of the Commission's rules to determine the expiration dates of standard broadcast, FM broadcast and TV broadcast station licenses on a geographical basis rather than on the basis of the frequencies assigned to such stations will result in substantial benefits.

7. Approximately 85 percent of all FM broadcast stations are owned and operated by licensees who also own and operate AM broadcast stations. Data and reports required to be filed in connection with FCC Form 303 (Renewal Application) would under the proposed plan be filed by such licensees at the same time for all broadcast stations licensed to them, thus eliminating duplicate review by the Commission and repetitive filings by the licensees. This proposal will also result in other savings to the Commission in that the proposed schedule has been formulated with a view to providing for a more even distribution of the work load.

8. The Commission's inquiry reveals that applications for renewal of licenses of stations located in contiguous areas sometimes present common problems. The proposed plan would facilitate the consideration of such problems.

9. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 303 (r), 307 (a), (b), (d) and (e) and 308 (a) and (b) and 319 of the Communications Act of 1934, as amended.

10. Any interested party who is of the opinion that the proposal herein referred to should or should not be adopted or should not be adopted in the form set forth herein may file on or before February 15, 1951, a written statement or brief setting forth his comments. Comments or briefs in reply to the original comments or briefs may be filed on or before March 1, 1951. The Commission will consider all comments, briefs and replies presented before taking final action with respect to the proposed rules.

11. Fifteen copies of each brief, written statement or reply should be filed in accordance with § 1.764 of the Commission's rules and regulations.

Adopted: December 20, 1950.

Released: December 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

1. Section 1.320 (a) of the Commission's rules is proposed to be amended as follows:

(a) Unless otherwise directed by the Commission, each application for renewal of license of a broadcast station shall be filed at least 90 days prior to the expiration date of the license sought to be renewed; and each application for renewal of license of a nonbroadcast station shall be filed at least 60 [4] days prior to the expiration date of the license sought to be renewed. No application for renewal of license of a broadcast station will be considered unless there is on file with the Commission the information currently required by §§ 1.341 to 1.344, reference to which by date and file number shall be included in the application.

2. Section 3.220 (a) of the Commission's rules is proposed to be amended as follows:

(a) Unless otherwise directed by the Commission, each application for renewal of an FM broadcast station license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed (Form FCC No. 303). No application for renewal of license of an FM broadcast station will be considered unless there is on file with the Commission, the information currently required by §§ 1.341 to 1.344 of this chapter, reference to which by date and file number shall be included in the application.

3. Section 3.620 (a) is proposed to be amended as follows:

(a) Unless otherwise directed by the Commission, each application for renewal of a television broadcast station will be considered unless there is on file with the Commission the information currently required by §§ 1.341 to 1.344 of this chapter, reference to which by date and file number shall be included in the application.

4. Section 3.34 (a) of the Commission's rules is proposed to be amended as follows:

(a) All standard broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule (see Attachment A) and at three-year intervals thereafter: [1]

5. Section 3.218 (a) of the Commission's rules is proposed to be amended and paragraph (b) is proposed to be deleted:

(a) All FM broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule (see Attachment A) and at three-year intervals thereafter: [1]

6. Section 3.618 of the Commission's rules is proposed to be amended as follows: "All television broadcast station licenses will be issued for a normal license period of one year. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule (see attachment B) and at one-year intervals thereafter:" [2]

[2] Broadcast authorizations (as of June 9, 1950) set forth to show application of proposed rule.
[3] All licenses expire on the first day of the month specified.

[1] See footnote on page 195.
[4] The 60-day requirement does not apply to amateurs.

[1] Renewals of licenses will be granted for the period specified in the rule: *Provided, however*, That if as a result of the transition from the present schedule to the proposed schedule the period for which a license is renewed is 4 months or less the licensee may within 30 days of the expiration date of such renewed license file, in lieu of renewal application (FCC Form 303), a written application under oath for the next renewal of license which shall consist of (1) a request that its license be renewed and (2) a statement that no substantial changes have been made in its operations or in its plans for future operations since its last renewal application; or if changes have been made or proposed a statement specifying such changes. Upon review of such statement the Commission may grant a renewal of license for the full period provided for in the rule; or if the Commission requires additional information it may require the filing of renewal application (FCC Form 303).

[2] Renewals of licenses will be granted for the period specified in the rule: *Provided, however*, That if as a result of the transition from the present schedule to the proposed schedule the period for which a license is renewed is 6 months or less the licensee may within 30 days of the expiration date of such renewed license file, in lieu of renewal application (FCC Form 303), a written application under oath for the next renewal of license which shall consist of (1) a request that its license be renewed and (2) a statement that no substantial changes have been made in its operations or in its plans for future operations since its last renewal application; or if changes have been made or proposed a statement specifying such changes. Upon review of such statement the Commission may grant a renewal of license for the full period provided for in the rule, or if the Commission requires additional information it may require the filing of renewal application (FCC Form 303).

[Docket Nos. 8736, 8975, 8976, 9175]

TELEVISION BROADCAST SERVICE AND BROADCASTING

RESERVATION OF CHANNELS FOR NON-COMMERCIAL EDUCATIONAL TELEVISION STATIONS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for Television Broadcasting, Docket No. 8976.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration a petition filed by the National Association of Broadcasters (NAB) on December 8, 1950, requesting leave to participate and present testimony in the above proceedings with respect to Issue E contained in the Commission's Notice of Revised Order of Testimony (FCC 50-1228) entitled "Reservation of Channels for Non-Commercial Educational Television Stations"; and

It appearing, that NAB claims that it was taken by surprise by some of the testimony heretofore presented during the hearings on the above issue inasmuch as the comments filed herein in August 1949, relating to Issue E did not contain recommendations which would indicate that such testimony was forthcoming; and

It further appearing, that good and sufficient reasons have been advanced by petitioner for a grant of the instant petition;

It is ordered, That the petition herein is granted; that petitioner is made a party to Issue E in the above proceedings; and that petitioner will be permitted to participate in the further hearing on said issue scheduled to be resumed on January 15, 1951.

Released: December 21, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-200; Filed, January 5, 1951; 8:47 a. m.]

[47 CFR, Parts 7, 8]

[Docket No. 9797]

COASTAL AND MARINE RELAY AND SHIP SERVICES

EXTENSION OF TIME FOR FILING OF WRITTEN COMMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of December 1950;

The Commission having under consideration requests filed for extension of time within which written comments or briefs may be filed with the Commission in connection with the proposed revision of Parts 7 and 8 of the Commission's rules governing Coastal and Marine Relay Services, and Ship Services, respectively; and

It appearing, that on September 13, 1950, the Commission adopted a notice of proposed rule making with respect to the revision of Parts 7 and 8 of the Commission's rules governing Coastal and Marine Relay Services, and Ship Services, respectively, and afforded any interested party who is of the opinion that the proposed rules should not be adopted, or should not be adopted in the form set forth therein, an opportunity to file with the Commission on or before November 15, 1950, a written statement or brief setting forth his comments; and

It further appearing, that on November 13, 1950, the Commission adopted a further notice of proposed rule making which amended the said proposed revision and extended the time within which comments could be filed from November 15 to December 15, 1950, and that statements or briefs in reply to the original statements or briefs were permitted to be filed on or before January 2, 1951; and

It further appearing, that those parties requesting the said extension of time have each filed comments within the time allowed by the Commission's orders of September 13 and November 13, 1950; and

It further appearing, that each of the parties who filed comments stated that the comments which were submitted were not complete and the reasons advanced for not submitting complete comments were (a) the magnitude and complexity of the said proposed revision, and (b) the fact that since the proposed revision contained no explanation as to the reasons for the proposed revision, much time would be required to compare the proposed revision with existing rules of the Commission before comments could be formulated; and

It further appearing, that the Commission is of the opinion that the three months period heretofore allowed was sufficient time within which to submit the said comments; and

It further appearing, that it would be desirable to place many stations and services which are now operating in the experimental services on a regular basis, which will be done when the proposed revision is finalized;

It is ordered, That the said requests be denied and consideration of the comments thus far submitted be undertaken by the Commission's staff immediately.

Released: December 27, 1950.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

NOTICE OF ORDER PERMITTING NATIONALS OF GERMANY AND JAPAN TO PARTICIPATE IN STEAMSHIP CONFERENCE AND OTHER AGREEMENTS

Notice is hereby given that on December 20, 1950, the Federal Maritime Board, Department of Commerce, duly entered a certain order which reads as follows:

Whereas, in compliance with order of the United States Maritime Commission dated December 11, 1941, the parties to agreements approved pursuant to section 15 of the Shipping Act, 1916, as amended, eliminated from participation in such agreements nationals of Germany and Japan, and

Whereas, Nationals of these countries have since been permitted by United States and/or Occupation Authorities, including the Supreme Commander for Allied Powers (Japan) and the Inter Allied High Commission for Germany, to begin the reactivation of their merchant marines, and the nationals of such countries now desire to participate in steamship conference and other agreements subject to section 15,

It is ordered, That the nationals and/or their agents or representatives of Germany and Japan be allowed to participate in steamship conference and other agreements subject to section 15 of the Shipping Act, 1916, as amended, for the period of time and to the extent that the merchant marine activities of such countries are permitted by United States and/or Occupation Authorities, including the Supreme Commander for Allied Powers (Japan) and the Inter Allied High Commission for Germany.

Dated: January 3, 1951.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 7170, 7955, 8045]

HARMCO, INC. (KROY) ET AL.

ORDER CONTINUING HEARING

In re applications of Harmco, Inc. (KROY), Sacramento, California, Docket No. 7170, File No. BP-4253; Palo Alto Radio Station, Inc. (KYA), San Francisco, California, Docket No. 7955, File No. BP-4452; Edmond Scott, Gordon D. France, Hugh Smith and Merwyn F. Planting, a Partnership, d/b as SAN MATEO COUNTY BROADCASTERS (KVSM), San Mateo, California, Docket No. 8045, File No. BP-5536; for construction permits.

The Commission having under consideration a petition filed December 14, 1950, by Palo Alto Radio Station, Inc., licensee of Station KYA, San Francisco, California, requesting a 60-day continuance of the further hearing on its above-

entitled application, now scheduled for January 8, 1951 in Washington, D. C.; and

It appearing that substantial engineering issues have been raised in this proceeding which involve, among other things, the reconsideration of the transmitter site specified in the application of Palo Alto Radio Station, Inc. (KYA); that since the original hearing in this proceeding there has been a transfer of control of Station KYA, necessitating an amendment to that application so as to reflect the new owners of KYA; and that said new owners are investigating the feasibility of other sites and are endeavoring to determine what additional construction and engineering costs are involved; that the additional time requested is necessary to accomplish such matters; and

It appearing, that all parties to this proceeding and Commission counsel have indicated that they have no objection to a grant of this petition and have consented to a waiver of § 1.745 of the Commission's rules and regulations so as to permit early consideration of this motion; and that good cause for a grant thereof appears therein;

It is ordered, This 18th day of December 1950, that the motion of Palo Alto Radio Station, Inc. (KYA for continuance is granted; and that the further hearing on the above-entitled applications is hereby continued to 10:00 o'clock, Monday, March 12, 1951.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary,

[Docket Nos. 8001, 8685, 8830, 9130, 9222]

UNITY CORP., INC. (WTOD), ET AL.

ORDER SCHEDULING FURTHER HEARING

In the Matter of applications of Unity Corporation, Incorporated (WTOD), Toledo, Ohio, Docket No. 8001, File No. BP-5071; The Midwestern Broadcasting Company, Toledo, Ohio, Docket No. 8685, File No. BP-6421; The Toledo Blade Company, Toledo, Ohio, Docket No. 8830, File No. BP-6534; The Rural Broadcasting Company of Ohio, Oak Harbor, Ohio, Docket No. 9130, File No. BP-6758; Radio Corporation of Toledo, Toledo, Ohio, Docket No. 9222, File No. BP-7057; for construction permits.

It is ordered, This 26th day of December 1950 that the further hearing in the above-entitled matter is hereby scheduled for 10:00 o'clock a. m., Monday, February 26, 1951, in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-215; Filed, Jan. 5, 1951; 8:49 a. m.]

[Docket No. 8381]

GILA BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Gila Broadcasting Company, Winslow, Arizona, for construction permit; Docket No. 8381, File No. B5-P-5406.

The Commission having under consideration a petition filed December 15, 1950, by the Gila Broadcasting Company, Winslow, Arizona, requesting that the hearing on this application, presently scheduled on January 2, 1951, be continued for a period of sixty days in order to permit applicant time to work out site and engineering problems; and

It appearing that no opposition to this petition has been filed by the General Counsel, there are no other parties to this proceeding, and good cause has been shown for a grant of this petition;

It is therefore ordered, This 22d day of December 1950 that the petition of the Gila Broadcasting Company be and it is hereby granted and the hearing herein is hereby continued to March 5, 1951, at 10:00 a. m., in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 9267, 9868]

NATIONAL BROADCASTING CO., INC. (KOA) AND TACOMA BROADCASTERS, INC. (KTBI)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of National Broadcasting Company, Inc. (KOA), Denver, Colorado, Docket No. 9267, File No. BP-4685; Tacoma Broadcasters, Incorporated (KTBI), Tacoma, Washington, Docket No. 9868, File No. BP-7700; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration the above-entitled application of Tacoma Broadcasters Incorporated requesting a construction permit to change the facilities of Station KTBI, Tacoma, Washington from frequency 810 kilocycles, 1 kilowatt power, daytime only to frequency 850 kilocycles, 500 watts 1 kilowatt-LS power, unlimited time, to change transmitter location and install directional antenna for night use; and

It appearing, that the Commission on March 23, 1949, designated for hearing the above-entitled application of National Broadcasting Company, Incorporated requesting a construction permit to replace the vertical antenna of station KOA and to mount FM antenna on AM tower and that on November 9, 1949, hearing on the said application was continued indefinitely;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application of Tacoma Broadcasters, Incorporated, is designated for hearing in a consolidated proceeding with the application of National Broadcasting Company, Incorporated (KOA) at 10:00 a. m., on February 14, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial, and other qualifications of the corporate applicants, their officers, directors and stockholders to construct and operate Stations KOA and KTBI as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Stations KOA and KTBI as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KTBI as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Stations KOA and KTBI as proposed would involve objectionable interference each with the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KTBI as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the assignment of stations where objectionable interference would be received to a field intensity contour greater than that specified for a station of its class and to nighttime coverage of the city of Tacoma, Washington, and the Tacoma Metropolitan District.

7. To determine on a compartive basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's Order of March 23, 1949, designating for hearing the above-entitled application of National Broadcasting Company, Incorporated is amended to include the above-entitled application of Tacoma Broadcasters, Incorporated and to include all pertinent issues herein; and

It is further ordered, That all party respondents and party intervenors to the proceeding on the said application of National Broadcasting Company, Incorporated shall be parties only with reference to the application of National Broadcasting Company, Incorporated.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-210; Filed, Jan. 5, 1951; 8:48 a. m.]

[Docket Nos. 9566, 9871]

GOOD NEIGHBOR BROADCASTING CO., INC. (KIWW) AND WINTER GARDEN BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Good Neighbor Broadcasting Co., Inc. (KIWW), San Antonio, Texas, Dooket No. 9871, File No. BP-7880; John H. Mayberry d/b as Winter Garden Broadcasting Company, Crystal City, Texas, Docket No. 9566, File No. BP-7255; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration the above-entitled applications of Good Neighbor Broadcasting Co. requesting a change in facilities of Station KIWW at San Antonio, Texas to 1240 kilocycles, 250 watts power, unlimited time and of John H. Mayberry d/b as Winter Garden Broadcasting Company for a new standard broadcast station to operate on 1240 kilocycles, with 250 watts power, unlimited time at Crystal City, Texas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 19, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicant, its officers, directors and stockholders to construct and operate Station KIWW as proposed and the legal, technical, financial and other qualifications of the individual applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KIWW, as proposed, would involve objectionable interference with station KORA, Bryan, Texas or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either of the applications in this consolidated proceeding should be granted.

It is further ordered, That David C. Jones, Jr., tr/as Bryan Broadcasting Company, licensee of Station KORA, Bryan, Texas, is made a party to this proceeding.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9587]

PRATT BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Clem Morgan and Robert E. Schmidt, d/b as Pratt Broadcasting Company, Pratt, Kansas, for construction permit; Docket No. 9587, File No. BP-7395.

The Commission having under consideration a petition filed on December 18, 1950, by Clem Morgan and Robert E. Schmidt d/b as Pratt Broadcasting Company, Pratt, Kansas, requesting Leave to Amend the above entitled application so as to show revised financial data for the applicant and the partners; and that the hearing in the above entitled proceeding now scheduled for January 9, 1951, be continued; and

It appearing, That no opposition to the granting of the instant petition has been filed with the Commission and that the continuance is requested in order to afford the Commission time to act upon a petition filed by this applicant seeking to delete certain of the issues published in the Commission's Order designating this matter for hearing;

It is ordered, This 29th day of December 1950, that the petition is granted; that the amendment filed simultaneously therewith is accepted for filing and that the hearing in the above-entitled proceeding is continued to March 9, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-207; Filed, Jan. 5, 1951; 8:48 a. m.]

[Docket Nos. 9696, 9875]

RADIO SUMTER AND RADIO STATION WSOC, INC. (WSOC)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of J. A. Gallimore and Hugh H. Wells, d/b as Radio Sumter, Sumter, South Carolina, Docket No. 9696, File No. BP-7617; Radio Station WSOC, Incorporated (WSOC) Charlotte, North Carolina, Docket No. 9875, File No. BP-7726; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of December 1950;

The Commission having under consideration the above-entitled application of Radio Station WSOC, Incorporated for a construction permit to install a new vertical antenna at Station WSOC, Charlotte, North Carolina;

It appearing, that the Commission on June 1, 1950, designated for hearing on engineering issues only the above-entitled application of J. A. Gallimore and Hugh H. Wells, d/b as Radio Sumter for a new standard broadcast station to be operated on the frequency 1240 kilocycles, with 250 watts of power, unlimited time at Sumter, South Carolina, which hearing was on October 27, 1950, continued indefinitely;

It further appearing, that the above-entitled application of Radio Station WSOC, Incorporated may involve mutually prohibitive interference with the above-entitled application of Radio Sumter;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application of Radio Station WSOC, Incorporated is designated for hearing in a consolidated proceeding with the above-entitled application of Radio Sumter, commencing at 10:00 a. m., on February 26, 1951, at Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant partnership and its partners and the corporate applicant, its officers, directors and stockholders to operate the proposed station and Station WSOC as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and Station WSOC as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station and Station WSOC as proposed would involve objectionable interference with Station WKDK, Newberry, South Carolina, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station and Station WSOC as proposed would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station and Station WSOC as proposed would be in compliance with the Commission's rules and Standards of Good

Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the coverage to the city of Charlotte, North Carolina and to the Charlotte Metropolitan area with respect to the WSOC proposal only.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Newberry Broadcasting Company, Inc., licensee of Station WKDK, Newberry, South Carolina is made a party to this proceeding;

It is further ordered, That the Commission's Order of June 1, 1950, designating for hearing the above-entitled application of J. A. Gallimore and Hugh H. Wells, d/b as Radio Sumter is amended to include the application of Radio Station WSOC, Incorporated, and to revise the issues therein to include and conform with all issues specified herein.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 9710]

MARSHALL FORMBY

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Marshall Formby, Spur, Texas, for construction permit; Docket No. 9710, File No. BP-7577.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of December 1950;

The Commission having under consideration the above-entitled application requesting a permit to construct a new standard broadcast station to operate on the frequency 1260 kilocycles, with 250 watts of power, daytime only at Spur, Texas;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate the proposed station, except as to matter covered by Issue 3, below, that no interference would be caused to any existing or proposed station but that the proposed station may not comply with the Standards of Good Engineering Practice; particularly with reference to the assignment of a Class IV (local) operation on a Class III (regional) channel;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 20, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the assignment of a Class IV (local) operation on a Class III (regional) channel.

3. To determine the overlap, if any, that will exist between the service areas of the proposed station and of Station KPLW, Floydada, Texas, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

TELEPHONE MESSAGE SERVICE OF YONKERS ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING

In re applications for construction permits or licenses, respectively, in the Domestic Public Land Mobile Radio Service of: Telephone Message Service of Yonkers, Yonkers, New York, Docket No. 9761, Files Nos. 1316 and 1372-C2-ML-E; Harold W. Graf, Hempstead, New York, Docket No. 9762, Files Nos. 2040/2041-C2-ML-E; Harold W. Graf, Bay Shore, New York, Docket No. 9763, Files Nos. 1223/1224-C2-P-E; Telephone Secretarial Service, Inc., Newark, New Jersey, Docket No. 9764, Files Nos. 4855/4856-C2-ML-E; Peter T. Kroeger, d/b as Mobile Radio Dispatch Service, New Brunswick, New Jersey, Docket No. 9765, Files Nos. 3639/3640-C2-ML-E; J. J. Freke-Hayes, New York, New York, Docket No. 9766, Files Nos. 3041/3042-C2-ML-E; Solomon Schiller, Brooklyn, New York, Docket No. 9767, Files Nos. 2892/2893-C2-ML-E; Westchester Mobilfone System, Inc., Mt. Pleasant, New York, Docket No. 9768, Files Nos. 3534/3535-C2-ML-E; Huntington Radio Dispatch Service, tr/as Knights Packard Service, Huntington, New York, Docket No. 9769, File No. 18666-C2-P-E; James P. Rogers, d/b as Suburban Radiotelephone, West Orange, New Jersey, Docket No. 9771, File No. 5170-C2-P-E; Mildred Tarone, d/b as Doctors' Telephone Exchange and Huntington Telephone Answering Service, Huntington, New York, Docket No. 9772, Files Nos. 12015/12016-C2-P/L-E; Electro Craft, Inc., Stamford, Connecticut, Docket No. 9773, Files Nos. 4974/4975-C2-P-E; Harold W. Graf, Theresa Graf and Harry R. Baker, Jr., d/b as Telephone Answering Exchange, Bay Shore, New York, Docket No. 9866, File No. 359-C2-P-51; Harold W. Graf, Theresa Graf and Harry R. Baker, Jr., d/b as Telephone Answering Exchange, Hempstead, New York, Docket No. 9867, File No. 360-C2-P-51.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission, having under consideration the above-mentioned applications of Harold W. Graf, Theresa Graf, and Harry R. Baker, Jr., d/b as Telephone Answering Exchange, filed November 13, 1950, and amended November 28, 1950, for construction permits in the Domestic Public Land Mobile Radio Service at Bay Shore and Hempstead, New York, respectively; and also having under consideration a petition filed by Harold W. Graf, and by Harold W. Graf, Theresa Graf and Harry R. Baker, Jr., d/b as Telephone Answering Exchange, requesting that the applications of Harold W. Graf for authorizations in the Domestic Public Land Mobile Radio Service at Hempstead and Bay Shore, New York (Dockets Nos. 9762 and 9763), respectively, be dismissed without prejudice and that the above-mentioned applications of Telephone Answering Exchange be consolidated in the above-entitled proceeding; and

It appearing, that the above-mentioned applications of Telephone Answering Exchange were filed more than 20 days prior to the date of the hearing in the above-entitled proceeding as required by the Commission's Rules; and

It further appearing, that no opposition has been filed to the petition of Harold W. Graf, and Harold W. Graf, Theresa Graf and Harry R. Baker, Jr., d/b as Telephone Answering Exchange; and that good cause has been shown for the grant of such petition;

It is ordered, That the above-mentioned petition is granted; and that the applications of Harold W. Graf in Dockets Nos. 9762 and 9763 for authorizations in the Domestic Public Land Mobile Radio Service at Hempstead and Bay Shore, New York, respectively, are dismissed without prejudice; and

It is further ordered, That the above-mentioned applications filed by Harold W. Graf, Theresa Graf and Harry R. Baker, Jr., d/b as Telephone Answering Exchange for new construction permits in the Domestic Public Land Mobile Radio Service at Bay Shore and Hempstead, New York, respectively, are designated for hearing in the above-entitled consolidated proceeding.

TELANSERPHONE, INC., AND THOMAS L. SMITH, JR.

ORDER MODIFYING ISSUE

In re applications of Telanserphone, Inc., Docket No. 9825, File No. 7298-C2-P-E; and Thomas L. Smith, Jr., Docket No. 9826, File No. 8460-C2-P-E; for construction permits in the Domestic Public Land Mobile Radio Service at Washington, D. C.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 3d day of January 1951;

The Commission, having under consideration a petition filed by Telanserphone, Inc., on December 18, 1950, requesting that the issues in the Commission's order dated November 13, 1950, in the above-entitled matter be modified to delete therefrom that portion of Issue No. 1 thereof requiring petitioner to prove its legal qualifications in such comparative proceeding; and

It appearing, that no opposition to said petition has been filed and good reason for the grant of such petition has been shown;

It is ordered, That the above-mentioned petition of Telanserphone, Inc. is granted and that Issue No. 1 of the Commission's order dated November 13, 1950, in the above-entitled matter is modified to read as follows:

1. To determine the technical and financial qualifications of Telanserphone, Inc., and the legal, technical and financial qualifications of Thomas L. Smith, Jr., to construct and operate their proposed stations.

[Docket Nos. 9869, 9870]

TAYLOR COUNTY BROADCASTING CO., INC. (WLCK) AND CLARK-MONTGOMERY BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Taylor County Broadcasting Co., Inc. (WLCK), Campbellsville, Kentucky, Docket No. 9869, File No. BMP-5276; for modification of construction permit; Clark-Montgomery Broadcasting Co., Inc., Winchester, Kentucky, Docket No. 9870, File No. BP-7780; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration (1) the above-entitled application of Taylor County Broadcasting Co., Inc. (WLCK) for modification of construction permit to specify transmitter site, studio site and antenna system; (2) the above entitled application of Clark-Montgomery Broadcasting Co., Inc., for a new standard broadcast station to be operated on the frequency of 1450 kilocycles, with 250 watts power, unlimited time at Winchester, Kentucky; and (3) a petition, filed September 15, 1950, by Taylor County Broadcasting Co., Inc. (WLCK) to designate the above-entitled application of Clark-Montgomery Broadcasting Co., Inc. for hearing and to make the petitioner a party to the proceeding;

It appearing, that Taylor County Broadcasting Co., Inc. (WLCK) was on June 27, 1950, granted a construction permit (File No. BP-7625) for a new standard broadcast station on a transmitter site-to-be determined basis, and by this grant the transmitter site was assumed to be in the center of the city of Campbellsville, Kentucky; and

It further appearing, that the above-entitled application of Station WLCK specifies, among other things, a transmitter site which veers from the presently assumed site in the direction of the above-entitled Clark-Montgomery proposal at Winchester, Kentucky; and

It further appearing, that although some objectionable interference would be caused to the Winchester, Kentucky proposal by the specification of a WLCK transmitter site in the center of the city of Campbellsville, Kentucky, this interference to the Winchester proposal will be increased by the specification of a transmitter site which veers from the center of the city of Campbellsville, Kentucky in the direction of Winchester, Kentucky, as does the site specified in the above-entitled WLCK application;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 19, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of Taylor County Broadcasting Co., Inc. and to determine the legal, technical, financial and other qualifications of Clark-Montgomery Broadcasting Co., Inc., and the officers, directors and stockholders of the two corporate applicants to own and operate the proposed station and Station WLCK as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and Station WLCK as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station at Winchester, Kentucky, would involve objectionable interference with Station WMOH, Hamilton, Ohio, or whether the proposed station or Station WLCK as proposed would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station and Station WLCK as proposed would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station and Station WLCK as proposed would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That The Fort Hamilton Broadcasting Company, licensee of Station WMOH, Hamilton, Ohio is made a party to this proceeding with respect to the Clark-Montgomery Broadcasting Co., Inc., application only;

It is further ordered, That the petition of Taylor County Broadcasting Co., Inc. (WLCK) is granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 51-202; Filed, Jan. 5, 1951; 8:48 a. m.]

[Docket No. 9872]

CLAUDE H. CRAIG (KCHC)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Claude H. Craig (KCHC), El Paso, Texas, for construction permit; Docket No. 9872, File No. BMP-5375.

At a session of the Federal Communications Commission held at its office in Washington, D. C., on the 20th day of December 1950;

The Commission having under consideration the above-entitled application of Claude H. Craig, requesting extension of completion date from November 28, 1950, to January 28, 1951, to complete construction authorized by BP-7049 at El Paso, Texas.

It appearing, that the Commission on July 28, 1949, granted without hearing a permit authorizing Claude H. Craig to construct a new standard broadcast station to operate on the frequency 860 kc with 500 watts of power, daytime only at El Paso, Texas, subject to the filing, within 60 days of grant, of an application for modification of construction permit specifying a transmitter site and antenna system; and

It further appearing, that on March 28, 1950, the Commission granted a modification of construction permit to increase power, to change type of transmitter and for approval of antenna, transmitter and studio location (BMP-4972); and

It further appearing, that Claude H. Craig has not completed the construction within the time specified in the construction permit as modified; and

It further appearing, that on November 14, 1950, the Commission denied the above-entitled application and by letter dated October 14, 1950, gave the applicant 20 days within which to request a hearing on the above-entitled application; and

It further appearing, that on December 4, 1950, Claude H. Craig, through his attorney, Blase A. Bonpane, filed a request for a hearing on the above-entitled application for extension of completion date for the authorized construction at El Paso, Texas;

It is ordered, That, the Commission's action of November 14, 1950, denying the above-entitled application is set aside; and

It is further ordered, That, pursuant to sections 309 and 319 of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing to commence at 10 a. m. January 22, 1951, at Washington, D. C., upon the following issues:

1. To determine whether the failure of Claude H. Craig to complete construction of the authorized standard broadcast station at El Paso, Texas, and to have the station ready for operation was due to causes not under his control.

2. To determine whether that individual has been diligent in proceeding with the construction of the authorized standard broadcast station at El Paso, Texas.

3. To determine whether in view of the evidence adduced in connection with the foregoing issues, the date specified for the completion of construction of the station should be extended, and if so, to what date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-1267]

NORTHEASTERN GAS TRANSMISSION CO.

NOTICE OF PETITION TO AMEND ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JANUARY 3, 1951.

Take notice that on December 21, 1950, Northeastern Gas Transmission Company, (Petitioner) a Delaware corporation with its principal office at 31 Hillman Street, Springfield, Massachusetts, filed a petition for amendment of the order issued on November 8, 1950 in the above-entitled matter authorizing the construction and operation of facilities by Petitioner pursuant to section 7 (c) of the Natural Gas Act, as amended.

Petitioner desires to make the following changes in the facilities authorized by said order:

(1) Substitute 24-inch O. D. pipe for 20-inch O. D. pipe on the 144 miles of Massachusetts main line, originating at the New York-Massachusetts state line and extending easterly to a terminus near Boston, Massachusetts;

(2) Substitute 6-inch pipe for 4-inch pipe on the 11.1 miles of lateral line extending from Petitioner's Massachusetts main line to Pittsfield, Massachusetts;

(3) Substitute 6-inch pipe for 4-inch pipe on the 9.4 miles of pipe line extending from Petitioner's Northampton lateral in an easterly direction to Holyoke, Massachusetts;

(4) Substitute 6-inch for 4-inch pipe on the 5.5 miles of lateral extending from Petitioner's Connecticut main line in a southerly direction to Stamford, Connecticut;

(5) Substitute 10-inch pipe for 6-inch pipe on the 4.7 miles of lateral extending from Petitioner's Massachusetts main line in a southeasterly direction to Arlington, Massachusetts;

(6) Substitute 10-inch pipe for 8-inch pipe on the 6.4 miles of pipe line extending from a point on Petitioner's Haverhill lateral in a northeasterly direction to Haverhill, Massachusetts.

In support of its request, Petitioner states:

(1) The substitution of the 24-inch pipe for 20-inch pipe will enable it to meet the estimated requirements of the customers which it is now authorized to serve regardless of a possible future shortage of critical steel for line pipe and for compressor facilities.

(2) The estimated additional plant investment which will be required to install 24-inch pipe for the main transmission line is $2,117,000. Such investment will provide a 62 percent increase in capacity at a 9 percent increase in the project cost. The additional cost of installing larger size pipe on the lateral lines is estimated to be $197,000.

(3) It is prudent to install a larger line initially rather than for it to become necessary to lay an additional line at some later time, thereby effecting a reduction in rights-of-way and damages costs as well as installation costs.

(4) Under 5th year operating conditions a 24-inch line will hold in line pack approximately 40,000 Mcf more gas in storage than a 20-inch line. This additional storage will supply the entire system demand on the 5th year peak day for approximately five hours and in the earlier years for longer periods.

It is estimated that the additional plant investment which will be required to install 24-inch pipe instead of 20-inch pipe for the main transmission line is $2,117,000. It is stated that such investment will provide a 62 percent increase in capacity at but a 9 percent increase in the project cost. The additional cost of installing larger size pipe on the lateral lines is estimated to be $197,000.

Protests or petitions to intervene should be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) before the 22d day of January 1951.

The petition is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 51-272; Filed, Jan. 5, 1951; 8:55 a. m.]

[Docket No. G-1547]

INTERSTATE POWER CO.

NOTICE OF APPLICATION

DECEMBER 29, 1950.

Take notice that on December 8, 1950, Interstate Power Company (Applicant), a Delaware corporation with its principal place of business in Dubuque, Iowa, filed an application, pursuant to section 7 of the Natural Gas Act, as amended, for: (1) An order under section 7 (a) of the act directing Natural Gas Pipeline Company of America to establish a physical connection of its natural-gas transportation facilities with Applicant's proposed pipeline and to sell natural gas to Applicant; and (2) a certificate of public convenience and necessity authorizing the construction and operation by the Applicant of its proposed pipeline as hereinafter described.

Applicant's proposed transmission pipeline will consist of 8⅝-inch diameter pipe approximately 26.5 miles in length extending from the Hooppole area in Illinois, crossing the Rock River to a point on the east side of the Mississippi River opposite Clinton, Iowa, and a double submarine crossing of the Mississippi River.

The estimated capital cost of the project is $749,000.

Applicant proposes to sell natural gas in and around Clinton, for consumption by industrial, commercial, and domestic customers. Applicant estimates its minimum daily demand during the first full year of operations (1953) at 1,152,000 cubic feet with a maximum demand of 14,720,000 Mcf with maximum space-heating saturation.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 22d day of January 1951.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

FEDERAL TRADE COMMISSION

[File No. 21-434]

FLOOR MACHINERY INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference, under the auspices of the Federal Trade Commission, will be held for the Floor Machinery Industry in Room 332 of the Federal Trade Commission Building, Washington, DC., on January 29, 1951, beginning at 10:00 a. m. e. s. t.

Products of the industry as covered under rules proposed for consideration consist of all types of power-driven household, commercial, and industrial wet and dry floor and rug-cleaning, floor-polishing, and floor-maintenance machines, including equipment, parts, and accessories therefor, but not including machines designed solely for use as floor sanders, or vacuum cleaners other than the type sold and distributed for use in connection with other products of this industry. All persons, firms, corporations and organizations engaged in the manufacture, distribution or marketing of floor machinery as covered by these proceedings are cordially invited to attend or send representatives to the conference and to participate therein.

The conference and further proceedings in the matter will be directed toward the eventual establishment and promulgation by the Commission of trade practice rules for the industry under which unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses, may be eliminated and prevented.

Issued: January 3, 1951.

By direction of the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[Vesting Order 16392]

GENEVIEVE KAISER

In re: Rights of the domiciliary personal representatives et al. of Genevieve Kaiser, deceased. File No. F-28-17138-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Genevieve Kaiser, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 51497, issued by the Connecticut General Life Insurance Company, Hartford, Connecticut, to Genevieve Kaiser, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Genevieve Kaiser, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.
